ANNUAL REPORT

PRESIDENT'S MESSAGE

DEAR SHAREHOLDER:

It was another solid year for the US bond market. However, the positive gains reported from all major sectors masked an extremely volatile environment. Most of the gains were actually earned in the first half of the reporting period and they were sufficient to offset losses or declining performance in the second half.

From December through mid-June, interest rates generally declined and bond prices rose as the economy struggled to gain a solid footing and the nation prepared to go to war. In June, the yield on the 10-year Treasury note fell to a 45-year low of just over 3.1%. High-yield bonds were the primary beneficiaries of this trend as investors seemed willing to put their fears aside and look to better times ahead. However, after the major military battles of the war were declared over and the economy showed clear signs of picking up, interest rates began to rise and bond prices came down in most sectors. The 10-year yield reached a high of 4.4% in August, then moved within a tight range around 4.0% to 4.2% for the remainder of the period. As the environment changed, high-yield and mortgage bonds held up better than other sectors while Treasury bonds lagged.

This reversal of fortune for bonds and a shift of investor enthusiasm back to stocks, which drove equity returns back into double digit territory, serve as a reminder that a diversified portfolio may offer the best opportunity for long-term investment success. Talk to your financial advisor if you're uncertain about the level of diversification of your portfolio. Your advisor can help you keep your investments on track.

As always, thank you for investing in Colonial Funds. We look forward to continuing to serve you in the years ahead.

Sincerely,

/s/ Joseph R. Palombo

PORTFOLIO MANAGERS' REPORT

The Board of Trustees for Colonial Intermediate High Income Fund approved the change of the fund's fiscal year end from October 31 to November 30. As a result, this report covers the 13-month period since the last annual report. The next report you receive will be for the six-month period through May 2004.

Colonial Intermediate High Income Fund returned 39.19%,¹ based on investment at net asset value (NAV), for the 13-month period ended November 30, 2003. The fund underperformed the Lipper High Current Yield Funds (Leveraged) Category average, which returned 47.02%.² We believe the fund trailed its peers chiefly because of its emphasis on higher quality bonds early in the period. Lower quality issues were the sector's strongest performers. However, our performance was aided during the last six months of the period as we shifted toward selected lower-quality issues.

With economic data improving, the yield differential between Treasuries and high-yield issues narrowed significantly and prices of lower-quality bonds moved higher. Default rates fell to 3.1% in November, the lowest figure in three years. And as investors became less risk-averse, cash flows into high-yield bonds exceeded last year's figures by a wide margin.

To increase exposure to better-performing sectors, we brought holdings of bonds rated single-B or lower to 75% of the portfolio, a strategy that aided results as the period wore on. The bonds of energy provider, Dynegy, telecom company, Qwest and Charter Communications, a cable operator, (0.5%, 1.8% and 1.5% of total investments, respectively) all rose after refinancing debt.³ Goodyear's bonds (0.3% of total investments), purchased when labor frictions depressed prices, later moved higher. Airline holdings improved as travel volumes grew and financial restructurings were completed. Conversely, our underweight in the rallying financial sector held back results.

In another move that benefited the portfolio, we reduced expenses by negotiating lower interest rates on fund borrowings. The fund's policies allow it to borrow money for investment purposes without having to sell current holdings.

Sector breakdowns are calculated as a percentage of net assets. Corporate issuers are calculated as a percentage of total investments including short-term investments. Because the fund is actively managed, there can be no guarantee that the fund will continue to hold securities of these issuers in these sectors in the future.

PORTFOLIO MANAGERS' REPORT (CONTINUED)

As the economy continues to expand, we believe that lower-quality credits have the potential to continue to deliver better returns than higher-grade sectors, although absolute returns may not reach the historical highs of 2003. Many high-yield bonds are being refinanced with lower-coupon instruments, and rising interest rates could have a negative impact on bonds generally. Therefore, we are being especially selective in our choices of longer-maturity, lower-coupon investments. We are also monitoring market conditions with particular regard to the fund's lower-rated holdings, as we continue to emphasize credit selection.

/s/ Thomas A. LaPointe

Gregg R. Smalley, CFA, a member of the High Yield Portfolio Management Team at Columbia Management Advisors, Inc. (the "advisor"), has been a portfolio manager of Colonial Intermediate High Income Fund since June 2000. Mr. Smalley joined an affiliate of the advisor in August 1997 as a research analyst specializing in the energy, cable, and telecom industries.

Kevin L. Cronk, CFA, a member of the advisor's High Yield Portfolio Management Team, has co-managed the fund since February 2003. Mr. Cronk joined an affiliate of the advisor in August 1999 as a research analyst specializing in the chemicals, healthcare and telecom industries. Prior to joining the advisor, Mr. Cronk was an investment associate in the High Yield Group at Putnam Investments from May 1996 to July 1999.

Thomas A. LaPointe, CFA, a member of the advisor's High Yield Portfolio Management Team, has co-managed the fund since February 2003. Mr. LaPointe joined an affiliate of the advisor in February 1999 as a senior member of the Fixed Income Department's research group and has provided high yield analytical support to mutual funds investing in the metals, gaming and European telecom industries. Prior to joining the advisor, Mr. LaPointe was a convertible arbitrage analyst at the Canadian Imperial Bank of Commerce from April 1998 to February 1999.

Past performance is no guarantee of future investment results. Current performance may be higher or lower than the performance data quoted.

Investing in high-yield bonds involves greater credit risk and other risks not associated with investing in higher-quality bonds. Bond investing also involves interest rate risk, which means that bond prices may change as interest rates increase or decrease.

NOTES TO FINANCIAL STATEMENTS

November 30, 2003

NOTE 1. ORGANIZATION

Colonial Intermediate High Income Fund (the "Fund") is a Massachusetts business trust registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

INVESTMENT GOAL

The Fund seeks high current income and total return by investing primarily in high yield fixed income securities in lower-rated categories.

FUND SHARES

The Fund may issue an unlimited number of shares.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION

Debt securities generally are valued by a pricing service approved by the Fund's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Certain securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation.

Equity securities are valued at the last sale price at the close of the principal exchange on which they trade. Unlisted securities or listed securities for which there were no sales during the day are valued at the closing bid price on such exchanges or over-the-counter markets.

Short-term obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Forward currency exchange contracts are valued at the prevailing forward

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

exchange rate of the underlying currencies.

Foreign securities are generally valued at the closing price on the foreign exchange or market on which they trade. If any foreign share prices are not readily available as a result of limited share activity, the securities are valued at the last sale price of the local shares in the principal market in which such securities are normally traded.

Investments for which market quotations are not readily available, which tend to be more thinly traded and of lesser quality, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees. Foreign markets close each day at various times prior to the close of the New York Stock Exchange ("NYSE"). Foreign currency exchange rates are generally determined prior to the close of the NYSE at 12:00 p.m. Eastern (U.S.) time. Occasionally, events affecting the value of a foreign security may occur subsequent to the close of the exchange or market which would not be reflected in the computation of the Fund's net asset value. In such an event, the foreign security will be valued at the fair value.

SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS

Forward foreign currency exchange contracts are agreements to exchange one currency for another at a future date at a specified price. These contracts are used to minimize the exposure to foreign exchange rate fluctuations during the period between trade and settlement date of the contracts. The Fund may utilize forward foreign currency exchange contracts in connection with the settlement of purchases and sales of securities. The Fund may also enter into these contracts to hedge certain other foreign currency denominated assets. Contracts to buy generally are used to acquire exposure to foreign currencies, while contracts to sell are used to hedge a Fund's investments against currency fluctuations. Forward currency contracts are valued daily at the current exchange rate of the underlying currency, resulting in unrealized gains (losses) which become realized at the time the foreign currency contracts are closed or mature. Realized and unrealized gains (losses) arising from such transactions are included in net realized and unrealized gains (losses) on foreign currency transactions. The use of forward currency contracts does not eliminate fluctuations in the prices of the Fund's portfolio securities. While the maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened, exposure is typically limited to the change in value of the contract (in U.S. dollars) over the period it remains open. A fund could also be exposed to risk if the

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2003

counterparties of the contracts are unable to fulfill the terms of the contracts. The Fund's custodian will set aside cash or liquid portfolio securities equal to the amount of the forward currency contract commitment in a

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

separate account.

REPURCHASE AGREEMENTS

The Fund may engage in repurchase agreement transactions with institutions that the Fund's investment advisor has determined are creditworthy. The Fund, through its custodian, receives delivery of underlying securities collateralizing a repurchase agreement. Collateral securities are marked-to-market daily to ensure that their market value is at least equal, at all times, to the repurchase price. (In the event that the market value of the collateral securities declines below the repurchase price of the repurchase agreement, additional securities will be required to be segregated.) A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty, including possible delays or restrictions upon a Fund's ability to dispose of the underlying securities, and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

RESTRICTED SECURITIES

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale at the issuer's expense either upon demand by the Fund or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Fund will not incur any registration costs upon such resale.

DELAYED DELIVERY SECURITIES

The Fund may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Fund's custodian will set aside cash or liquid portfolio securities equal to the amount of the delayed delivery commitment in a separate account.

INCOME RECOGNITION

Interest income is recorded on the accrual basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Corporate actions and dividend income are recorded on the ex-date except for certain foreign securities which are recorded as soon after ex-date as the Fund becomes aware of such, net of non-reclaimable tax withholdings. The value of additional securities received as an income payment is recorded as income and as the cost basis of such securities.

FOREIGN CURRENCY TRANSACTIONS

The values of all assets and liabilities quoted in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions includes gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

The Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

FEDERAL INCOME TAX STATUS

The Fund intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, by distributing substantially all of its taxable or tax-exempt income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, by distributing in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, the Fund will not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

DISTRIBUTIONS TO SHAREHOLDERS

Distributions to shareholders are recorded on ex-date. Net realized capital gains, if any, are distributed at least annually. Income and capital gains dividends are determined in accordance with income tax regulations which may differ from GAAP.

STATEMENT OF CASH FLOWS

The Fund is required to disclose a Statement of Cash Flows due to its average debt outstanding during the year. Information on financial transactions which have been settled through the receipt or disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the amount included within the Fund's Statement of Assets and Liabilities and represents cash on hand at its custodian bank and does not include any short-term investments.

NOTE 3. FEDERAL TAX INFORMATION

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. Reclassifications are made to a Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the one month ended November 30, 2003 and the year ended October 31, 2003, permanent differences resulting primarily

24

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2003

from differing treatments for discount accretion/premium amortization on debt securities, distributions in excess, foreign currency transactions and market discount were identified and reclassified among the components of the Fund's net assets as follows:

	OVERDISTRIBUTED NET INVESTMENT INCOME	ACCUMULATED NET REALIZED LOSS	PAID-IN CAPITAL
	-----	-----	-----
November 30, 2003	\$84,315	\$ (28,422)	\$ (55,893)

Net investment income and net realized gains (losses), as disclosed on the Statement of Operations, and net assets were not affected by this reclassification.

The tax character of distributions paid during the one month ended November 30, 2003 and the years ended October 31, 2003 and October 31, 2002 was as follows:

	NOVEMBER 30, 2003	OCTOBER 31, 2003	OCTOBER 31, 2002
	-----	-----	-----
Distributions paid from:			
Ordinary Income*	\$566,640	\$6,335,103	\$7,465,282

Long-Term Capital Gains	--	--	--

* For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

As of November 30, 2003 and October 31, 2003, the components of distributable earnings on a tax basis were as follows:

	UNDISTRIBUTED ORDINARY INCOME	UNDISTRIBUTED LONG-TERM CAPITAL GAINS	NET UNREALIZED APPRECIATION (DEPRECIATION)*
	-----	-----	-----
November 30, 2003	\$--	\$--	\$ 160,563
October 31, 2003	--	--	(984,551)

* The difference between book-basis and tax-basis net unrealized appreciation (depreciation) is primarily due to discount accretion/premium amortization on debt securities.

Unrealized appreciation (depreciation) at November 30, 2003 and October 31, 2003, based on cost of investments for federal income tax purposes was:

	NOVEMBER 30, 2003	OCTOBER 31, 2003
	-----	-----

Unrealized depreciation	(7,299,700)	(8,328,150)
Net unrealized appreciation (depreciation)	\$ 159,955	\$ (984,924)

The following capital loss carryforwards are available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

Capital loss carryforwards of \$247,117 and \$2,102,577 were utilized and/or expired during the one month ended November 30, 2003 and the year ended October 31, 2003, respectively, for the Fund.

Expired capital loss carryforwards are recorded as a reduction of paid-in capital.

NOTE 4. FEES AND COMPENSATION PAID TO AFFILIATES

On April 1, 2003, Colonial Management Associates, Inc., the previous investment advisor to the Fund, merged into Columbia Management Advisors, Inc. ("Columbia"), formerly known as Columbia Management Co., an indirect, wholly-owned subsidiary of FleetBoston Financial Corporation. As a result of the merger, Columbia now serves as the Fund's investment advisor. The merger did not change the way the Fund is managed, the investment personnel assigned to manage the Fund or the fees paid by the Fund.

INVESTMENT ADVISORY FEE

Columbia is the investment advisor to the Fund and provides administrative and other services. Columbia receives a monthly fee at the annual rate of 0.65% of the Fund's average weekly net assets.

In addition, the Fund shall pay Columbia a monthly fee of 20% of the Fund's monthly "leverage income" (as that term is defined in the management contract). In the event that the Fund's monthly leverage income is less than zero then Columbia shall pay the Fund 20% of the Fund's monthly

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

leverage income. For the one month ended November 30, 2003 and the year ended October 31, 2003, the fees paid to Columbia relating to leverage income amount to \$27,251 and \$207,576, which represents 0.44% and 0.31%, respectively, annually of the Fund's average daily net assets.

PRICING AND BOOKKEEPING FEES

Columbia is responsible for providing pricing and bookkeeping services to the

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

Fund under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street").

Under its pricing and bookkeeping agreement with the Fund, Columbia receives from the Fund an annual flat fee of \$10,000 paid monthly, and in any month that the Fund's average weekly net assets exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average weekly net assets of the Fund for that month. The Fund also pays additional fees for pricing services. For the one month ended November 30, 2003 and the year ended October 31, 2003, the effective annualized pricing and bookkeeping fee rate was 0.07%. Columbia pays the total fees collected to State Street under the Outsourcing Agreement.

FEES PAID TO OFFICERS AND TRUSTEES

The Fund pays no compensation to its officers, all of whom are employees of Columbia or its affiliates.

The Fund's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Fund's assets.

CUSTODY CREDITS

The Fund has an agreement with its custodian bank under which custody fees may be reduced by balance credits. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

NOTE 5. PORTFOLIO INFORMATION

PURCHASES AND SALES OF SECURITIES

For the one month ended November 30, 2003 and the year ended October 31, 2003, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were:

	PURCHASES	SALES
	-----	-----
November 30, 2003	\$ 8,022,788	\$ 7,108,959
October 31, 2003	59,155,213	56,964,157

NOTE 6. LOAN AGREEMENT

At November 30, 2003 and October 31, 2003, the Fund had term loans and a revolving loan outstanding with Bank of America NA, together totaling \$28,500,000 for each period.

These loans are comprised of a \$13,700,000 term loan which bears interest at 3.12% per annum, due August 26, 2005, a \$9,700,000 term loan which bears interest at 4.37% per annum, due June 13, 2004, and a \$5,100,000 revolving loan, due August 26, 2004. The revolving loan is a floating rate loan which had a weighted average interest rate of 1.97% and 3.59% at November 30, 2003 and October 31, 2003, respectively. At November 30, 2003 and October 31, 2003, the average daily loan balance was \$28,500,000 and \$26,193,151 at a weighted average interest rate of 3.57% and 5.06%, respectively. The Fund is subject to certain covenants including, but not limited to, requirements with respect to asset coverage, portfolio diversification and liquidity.

NOTE 7. DISCLOSURE OF SIGNIFICANT RISKS AND CONTINGENCIES

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

FOREIGN SECURITIES

There are certain additional risks involved when investing in foreign securities that are not inherent with investments in domestic securities. These risks may involve foreign currency exchange rate fluctuations, adverse political and economic developments and the possible prevention of currency exchange or other foreign governmental laws or restrictions. In addition, the liquidity of foreign securities may be more limited than that of domestic securities.

HIGH-YIELD SECURITIES

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk bonds." Economic downturns and industry events may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities.

REPORT OF INDEPENDENT AUDITORS

TO THE TRUSTEES AND THE SHAREHOLDERS OF COLONIAL INTERMEDIATE HIGH INCOME FUND

In our opinion, the accompanying statements of assets and liabilities, including the investment portfolios, and the related statements of operations, cash flows and changes in net assets, and the financial highlights present fairly, in all material respects, the financial position of Colonial Intermediate High Income Fund (the "Fund") at November 30, 2003 and October 31, 2003, and the results of its operations, its cash flows, the changes in its net assets, and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2003 and October 31, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

RESULTS OF ANNUAL MEETING OF SHAREHOLDERS

On May 21, 2003, the Annual Meeting of Shareholders of the Fund was held to conduct a vote for or against the approval of the following Item listed on the Fund's Proxy Statement for said Meeting. On February 28, 2003, the record date for the Meeting, the Fund had 20,867,809 shares outstanding. The votes cast were as follows:

PROPOSAL 1. ELECTION OF TRUSTEES:	FOR	WITHHELD
Douglas A. Hacker	18,228,140	433,268
Janet Langford Kelly	18,250,790	410,618
John J. Neuhauser	18,250,534	410,874
Joseph R. Palombo	18,235,184	426,224

Mr. Hacker, Ms. Kelly, Mr. Neuhauser and Mr. Palombo were elected as Trustees of the Fund. Each will serve for three years or until a successor is elected.

The Board of Trustees is divided into the following three classes, each with a term expiring in the indicated year:

2004	2005	2006
Mr. Macera*	Mr. Lowry	Mr. Hacker
Mr. Stitzel	Mr. Mayer	Ms. Kelly
Mr. Theobald	Mr. Nelson	Mr. Neuhauser
Ms. Verville		Mr. Palombo

*Effective June 18, 2003, Mr. Macera retired from the Board of Trustees.

31

DIVIDEND REINVESTMENT PLAN

The Fund generally distributes net investment income monthly and capital gains annually. Under the Fund's Dividend Reinvestment Plan (the "Plan") all

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

distributions will be reinvested automatically in additional shares of the Fund, unless the shareholder elects to receive cash or the shares are held in broker or nominee name and a reinvestment service is not provided by the broker or nominee. All cash distributions will be mailed by check directly to the record holder by the dividend paying agent.

If the market price of the shares on the distribution payment date is equal to or greater than the net asset value, Plan participants will be issued shares at the higher of net asset value or 95% of the market price. The aggregate market value of the shares may constitute income to shareholders for federal income tax purposes. However, if the market price of the shares is less than the net asset value, shares will be bought as soon as practicable (but no more than 30 days after the distribution, except as may be required to comply with federal securities laws) in the open market for the accounts of Plan participants. If, during this purchase period, the market price surpasses the net asset value, the average per share price paid may exceed the asset value of the shares, resulting in the acquisition of fewer shares than if the distribution had been in newly-issued shares.

All Plan accounts receive written confirmations of all transactions. Shares purchased under the Plan are held in uncertificated form. Each shareholder's proxy includes shares purchased pursuant to the Plan. The automatic reinvestment of distributions does not relieve participants of any income tax payable on the distributions.

Fees and expenses of the Plan other than brokerage charges will be paid by the Fund. No brokerage charges are incurred on shares issued directly by the Fund. Participants will bear a pro-rata share of brokerage charges incurred on open market purchases.

A Plan participant may terminate his or her participation by written notice to the Plan agent. The Plan may be amended or terminated on 90 days written notice to the Plan participants. All correspondence concerning the Plan should be directed to PFPC Inc., the Plan agent, by mail at P.O. Box 43027, Providence, RI 02940-3027 or by phone at 1-800-331-1710.

TRUSTEES

Effective October 8, 2003, Patrick J. Simpson and Richard L. Woolworth were appointed to the Board of Trustees of the Fund. Messrs. Simpson and Woolworth had been directors of 15 Columbia Funds and 20 funds in the CMG Fund Trust. Also effective October 8, 2003, the incumbent trustees of the Fund were elected as directors of the 15 Columbia Funds and as trustees of the 20 funds in the CMG Fund Trust. The new combined Board of Trustees/Directors of the Fund now oversees 119 funds in the Columbia Funds Complex (including the former Liberty Funds, former Stein Roe Funds, Columbia Funds and CMG Funds). Several of these trustees/directors also serve on the Boards of other funds in the Columbia Funds Complex.

The Trustees/Directors serve terms of indefinite duration. The names, addresses and ages of the Trustees/Directors and officers of the Funds in the Columbia Funds complex, the year each was first elected or appointed to office, their principal business occupations during at least the last five years, the number of portfolios overseen by each Trustee/Director and other directorships they hold are shown below. Each officer listed below serves as an officer of each Fund in the Columbia Funds Complex.

Edgar Filing: COLONIAL INTERMEDIATE HIGH INCOME FUND - Form N-CSR

Item 6. Reserved.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Fund has delegated to Columbia Management Advisors, Inc. (the "Advisor") the responsibility to vote proxies relating to portfolio securities held by the Fund. In deciding to delegate this responsibility to the Advisor, the Board of Trustees of the Trust reviewed and approved the policies and procedures adopted by the Advisor. These included the procedures that the Advisor follows when a vote presents a conflict between the interests of the Fund and its shareholders and the Advisor, its affiliates, its other clients or other persons.

The Advisor's policy is to vote all proxies for Fund securities in a manner considered by the Advisor to be in the best interest of the Fund and its shareholders without regard to any benefit to the Advisor, its affiliates, its other clients or other persons. The Advisor examines each proposal and votes against the proposal, if, in its judgment, approval or adoption of the proposal would be expected to impact adversely the current or potential market value of the issuer's securities. The Advisor also examines each proposal and votes the proxies against the proposal, if, in its judgment, the proposal would be expected to affect adversely the best interest of the Fund. The Advisor determines the best interest of the Fund in light of the potential economic return on the Fund's investment.

The Advisor addresses potential material conflicts of interest by having predetermined voting guidelines. For those proposals that require special consideration or in instances where special circumstances may require varying from the predetermined guideline, the Advisor's Proxy Committee determines the vote in the best interest of the Fund, without consideration of any benefit to the Advisor, its affiliates, its other clients or other persons. A member of the Proxy Committee is prohibited from voting on any proposal for which he or she has a conflict of interest by reason of a direct relationship with the issuer or other party affected by a given proposal. Persons making recommendations to the Proxy Committee or its members are required to disclose to the Committee any relationship with a party making a proposal or other matter known to the person that would create a potential conflict of interest.

The Advisor has three classes of proxy proposals. The first two classes are predetermined guidelines to vote for or against specific proposals, unless otherwise directed by the Proxy Committee. The third class is for proposals given special consideration by the Proxy Committee. In addition, the Proxy Committee considers requests to vote on proposals in the first two classes other than according to the predetermined guidelines.

The Advisor generally votes in favor of proposals related to the following matters: selection of auditors (unless the auditor receives more than 50% of its revenues from non-audit activities from the company and its affiliates), election of directors (unless the proposal gives management the ability to alter the size of the board without shareholder approval), different persons for chairman of the board /chief executive officer (unless, in light of the size of the company and the nature of its shareholder base, the role of chairman and CEO are not held by different persons), compensation (if provisions are consistent with standard business practices), debt limits (unless proposed specifically as an anti-takeover action), indemnifications (unless for negligence and or breaches of fiduciary duty), meetings, name of company, principal office (unless the purpose is to reduce regulatory or financial supervision), reports and accounts (if the certifications required by Sarbanes-Oxley Act of 2002 have been provided), par value, shares (unless proposed as an anti-takeover action), share repurchase programs, independent committees, and equal opportunity employment.

The Advisor generally votes against proposals related to the following matters:

super majority voting, cumulative voting, preferred stock, warrants, rights, poison pills, reclassification of common stock and meetings held by written consent.

The Advisor gives the following matters special consideration: new proposals, proxies of investment company shares (other than those covered by the predetermined guidelines), mergers/acquisitions (proposals where a hostile merger/acquisition is apparent or where the Advisor represents ownership in more than one of the companies involved), shareholder proposals (other than those covered by the predetermined guidelines), executive/director compensation (other than those covered by the predetermined guidelines), pre-emptive rights and proxies of international issuers which block securities sales between submission of a proxy and the meeting (proposals for these securities are voted only on the specific instruction of the Proxy Committee and to the extent practicable in accordance with predetermined guidelines).

In addition, if a portfolio manager or other party involved with a client of the Advisor or Fund account concludes that the interest of the client or Fund requires that a proxy be voted on a proposal other than according to the predetermined guidelines, he or she may request that the Proxy Committee consider voting the proxy differently. If any person (or entity) requests the Proxy Committee (or any of its members) to vote a proxy other than according to a predetermined guideline, that person must furnish to the Proxy Committee a written explanation of the reasons for the request and a description of the person's (or entity's) relationship with the party proposing the matter to shareholders or any other matter known to the person (or entity) that would create a potential conflict of interest.

The Proxy Committee may vary from the predetermined guideline if it determines that voting on the proposal according to the predetermined guideline would be expected to impact adversely the current or potential market value of the issuer's securities or to affect adversely the best interest of the client. References to the best interest of a client refer to the interest of the client in terms of the potential economic return on the client's investment. In determining the vote on any proposal, the Proxy Committee does not consider any benefit other than benefits to the owner of the securities to be voted.

The Advisor's Proxy Committee is composed of operational and investment representatives of its regional offices as well as senior representatives of the Advisor's equity investments, equity research, compliance and legal functions. During the first quarter of each year, the Proxy Committee reviews all guidelines and establishes guidelines for expected new proposals. In addition to these reviews and its other responsibilities described above, its functions include annual review of its Proxy Voting Policy and Procedures to ensure consistency with internal policies and regulatory agency policies, and development and modification of voting guidelines and procedures as it deems appropriate or necessary.

The Advisor uses Institutional Shareholder Services ("ISS"), a third party vendor, to implement its proxy voting process. ISS provides proxy analysis, record keeping services and vote disclosure services.
