Chairman's
Letter to Shareholders

Dear Shareholders,

In recent months the positive atmosphere in financial markets has reflected efforts by central banks in the US and Europe to provide liquidity to the financial system and keep interest rates low. At the same time, future economic growth in these countries still faces serious headwinds in the form of high energy prices, uncertainties about potential political leadership changes and increasing pressure to reduce government spending regardless of its impact on the economy. Together with the continuing political tensions in the Middle East, investors have many reasons to remain cautious.

Though progress has been painfully slow, officials in Europe have taken important steps to address critical issues. The European Central Bank has provided vital liquidity to the banking system. Similarly, officials in the Euro area finally agreed to an enhanced "firewall" of funding to deal with financial crises in member countries. These steps, in addition to the completion of another round of financing for Greece, have eased credit conditions across the Continent. Several very significant challenges remain with the potential to derail the recent progress but European leaders have demonstrated political will and persistence in dealing with their problems.

In the US, strong corporate earnings and continued progress on job creation have contributed to a rebound in the equity market and many of the major stock market indexes are approaching their levels before the financial crisis. The Fed's commitment to an extended period of low interest rates is promoting economic growth, which remains moderate but steady and raises concerns about the future course of long term rates once the program ends. Pre-election maneuvering has added to the highly partisan atmosphere in the Congress. The end of the Bush-era tax cuts and implementation of the spending restrictions of the Budget Control act of 2011, both scheduled to take place at year-end loom closer with little progress being made to deal with them.

During the last year investors have experienced a sharp decline and a strong recovery in the equity markets. Experienced investment teams keep their eye on a longer time horizon and use their practiced investment disciplines to negotiate through market peaks and valleys to achieve long term goals for investors. Monitoring this process is an important consideration for the Fund Board as it oversees your Nuveen funds on your behalf.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner
Chairman of the Board
April 20, 2012

Portfolio Manager's Comments

Portfolio manager Scott Romans reviews economic and municipal market conditions at both the national and state levels, key investment strategies and the twelve-month performance of the Nuveen California Funds. Scott, who joined Nuveen in 2000, has managed NCA, NCP, NCO, NQC, NVC and NUC since 2003 and NCB since its inception in 2009.

What factors affected the U.S. economic and municipal market environments during the twelve-month reporting period ended February 29, 2012?

During this period, the U.S. economy's progress toward recovery from recession remained modest. The Federal Reserve (Fed) maintained its efforts to improve the overall economic environment by continuing to hold the benchmark fed funds rate at the record low level of zero to 0.25% that it had established in December 2008. At its March 2012 meeting (shortly after the end of this reporting period), the central bank reaffirmed its opinion that economic conditions would likely warrant keeping this rate at "exceptionally low levels" at least through late 2014. The Fed also stated that it would continue its program to extend the average maturity of its holdings of U.S. Treasury securities by purchasing \$400 billion of these securities with maturities of six to thirty years and selling an equal amount of U.S. Treasury securities with maturities of three years or less. The goals of this program, which the Fed expects to complete by the end of June 2012, are to lower longer-term interest rates, support a stronger economic recovery and help ensure that inflation remains at levels consistent with the Fed's mandates of maximum employment and price stability.

In the fourth quarter of 2011, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at an annualized rate of 3.0%, the best growth number since the end of second quarter 2010 and the tenth consecutive quarter of positive growth. The Consumer Price Index (CPI) rose 2.9% year-over-year as of February 2012, while the core CPI (which excludes food and energy) increased 2.2% during the same period, edging above the Fed's unofficial objective of 2.0% or lower for this inflation measure. Labor market conditions have shown some signs of improvement, as national unemployment stood at 8.3% in February 2012, the lowest level in three years, down from 9.0% in February 2011. The housing market continued to be the major weak spot in the economy. For the twelve months ended January 2012 (most recent data available at the time this report was prepared), the average home price in the Standard & Poor's (S&P)/Case-Shiller Index of 20 major metropolitan areas lost 3.8%, as housing prices hit their lowest levels since early 2003. In addition, the U.S. economic picture continued to

Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSR

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.

Nuveen Investments 5

be clouded by concerns about the European debt crisis and efforts to reduce the federal deficit.

Municipal bond prices generally rallied over this period. Historically light issuance of new tax-exempt bonds served as a key driver of performance, as tight supply and strong demand combined to create favorable market conditions for municipal bonds. Concurrent with rising prices, yields declined across most maturities. The depressed level of municipal bond issuance was due in part to the continued impact of the taxable Build America Bonds (BAB) program. Even though the BAB program expired at the end of 2010, issuers had made extensive use of its favorable terms to issue almost \$190 billion in taxable BAB bonds during 2009 and 2010, representing approximately 25% of all municipal issuance during that period. Some borrowers accelerated issuance in order to take advantage of the program before its termination, fulfilling their capital program borrowing needs well into 2011 and 2012. This reduced the need for many borrowers to come to market with new tax-exempt issues during this period. The low level of municipal issuance during this period also reflected the current political distaste for additional borrowing by state and local governments and the prevalent atmosphere of municipal budget austerity.

Over the twelve months ended February 29, 2012, municipal bond issuance nationwide totaled \$307.4 billion, a decrease of 24% compared with issuance during the twelve-month period ended February 28, 2011. During this period, demand for municipal bonds remained very strong, especially from individual investors.

How were the economic and market environments in California during this period?

The California economy has shown signs of gaining momentum, with job growth rebounding as increased demand for internet-based services and mobile device applications led to strengthening of the technology and other service sectors. This, in turn, produced improvement in the state's unemployment rate. As of February 2012, California's unemployment rate was 10.9%, its lowest level since April 2009, down from 12.0% in February 2011. However, housing, the primary driver of the state's most recent economic decline, remains a drag on the California economy, with foreclosures continuing to put downward pressure on prices. According to the S&P/Case-Shiller Index, home prices in San Diego, Los Angeles and San Francisco fell 5.3%, 5.4%, and 5.9%, respectively, over the twelve months ended January 2012 (most recent data available at the time this report was prepared). These rates compared with an average decline of 3.8% nationally for the same period. Statewide, home prices in California have lost almost 60% of their value since the peak in 2006. Overall, budget problems posed the largest threat to the state's economic outlook over the near term, as California continued to be burdened by persistent deficits and spending that outweighed the state's ability to generate revenues. In June 2011, the Budget Act of 2011 closed a projected two-year gap of \$26.6 billion through the remainder of fiscal 2011 and 2012. However, the \$120.1 billion act remained structurally unbalanced, relying on revenue assumptions that, if not met, would

trigger additional expenditure cuts. When those revenue assumptions were not realized, the state implemented almost \$1 billion in trigger cuts effective January 1, 2012, mainly affecting state universities, community colleges and human services. The \$137.3 billion budget proposal for fiscal 2013 closes an estimated \$9.2 billion gap and assumes additional revenues generated by a voter-approved, five-year temporary tax increase. The budget also calls for spending reductions mainly in the areas of welfare and child care for the poor. As of February 2012, California maintained credit ratings on its general obligation (GO) debt of A1, A-, and A- from Moody's Investors Service, S&P and Fitch, respectively. For the twelve months ended February 29, 2012, municipal issuance in California totaled \$38.5 billion, a decrease of 33% from the previous twelve months. For this period, California was the second largest state issuer in the nation (behind New York), representing approximately 12.5% of total issuance nationwide.

What key strategies were used to manage the California Funds during this reporting period?

As previously discussed, municipal bond prices generally rallied nationally during this period, as the supply of tax-exempt bonds remained tight and yields continued to be relatively low. In this environment, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped us keep our Funds fully invested.

Much of our investment activity during this period was opportunistic, with purchases driven by the timing of cash flows from called or maturing bonds. The Funds took advantage of attractive opportunities to add to their holdings in health care as well as California state GO bonds when they came to market in the fall of 2011. In addition, based on recent tobacco consumption data, NCA, NCB, NCO, NVC and NUC swapped some of their convertible zero coupon tobacco holdings for tobacco bonds with better downside profiles in terms of credit outlook. These relative value swaps also benefited the Funds by maintaining yields and recognizing losses for tax purposes. (NCP and NQC did not participate in the tobacco swaps because these two Funds cannot purchase sub-investment grade bonds.)

We also continued to actively add exposure to redevelopment agency (RDA) bonds, used to fund programs to improve deteriorated, blighted and economically depressed areas in California. In June 2011, two state bills amending the law that created RDAs were approved as part of cost-saving measures to close gaps in the California state budget. Assembly Bill (AB) 26 provided for the dissolution of all RDAs, while AB 27 would allow municipalities to keep their RDAs by committing to substantial community payments to the state. A lawsuit challenging the constitutionality of both bills was filed by an RDA lobbying group in July 2011. In late December 2011, the California Supreme Court ruled that AB 26 was constitutional and ordered the dissolution of all 400 RDAs in the state by February 1, 2012, creating successor agencies and oversight boards to manage obligations (e.g., contracts, bonds, leases) that were in place prior to the dissolution and take title to the RDAs' housing and other assets. However, the court

struck down AB 27, concluding that the provisions that required community payments were not voluntary, and therefore violated the state constitution. During this period, the uncertainty surrounding the fate of the state's RDAs caused spreads on RDA bonds to widen substantially and prompted RDAs to issue their remaining capacity of bonds. This resulted in heavy issuance of RDA bonds that came to market at attractive prices with higher coupons and very attractive structures, including 10-year call provisions. Consequently, we were able to add some exceptional bonds to our portfolios, purchasing new RDA bonds in the primary market during the first part of this period and buying additional RDA bonds, some of which were insured credits issued prior to 2008, in the secondary market during the last part of this period.

Cash for new purchases during this period was generated primarily by the proceeds from called and maturing bonds. An elevated number of bond calls provided a meaningful source of liquidity, which drove much of our activity as we worked to redeploy the proceeds to keep the Funds fully invested. In addition, we sold selected bonds with very short effective maturities on the occasions when we needed additional cash to take advantage of attractive opportunities.

As of February 29, 2012, all of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement. As part of our duration management strategies, NCB and NCO also used forward interest rate swaps to reduce price volatility risk to movements in U.S. interest rates relative to the Funds' benchmarks. During this period, these derivatives functioned as intended. As of period end, we continued to use forward interest rate swaps to reduce duration in NCB, while these derivatives were removed from NCO during the first half of this period as its duration approached our targeted range.

How did the Funds perform during the twelve-month period ended February 29, 2012?

Individual results for the Nuveen California Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value
For periods ended 2/29/12

Fund	1-Year	5-Year	10-Year
NCA*	16.58%	5.04%	5.20%
NCB*	17.97%	N/A	N/A
NCP	26.45%	6.03%	6.46%
NCO	30.81%	6.06%	6.60%
NQC	25.20%	6.14%	6.26%
NVC	28.60%	6.85%	6.89%
NUC	25.46%	6.84%	6.70%
Standard & Poor's (S&P) California Municipal Bond Index**	14.84%	5.17%	5.38%
Standard & Poor's (S&P) National Municipal Bond Index**	12.87%	5.19%	5.36%
Lipper California Municipal Debt Funds Classification Average**	25.87%	4.71%	6.17%

For the twelve months ended February 29, 2012, the total returns on common share net asset value (NAV) for all of these California Funds exceeded the returns for the Standard & Poor's (S&P) California Municipal Bond Index and the Standard & Poor's (S&P) National Municipal Bond Index. For this same period, NCP, NCO and NVC outperformed the average return for the Lipper California Municipal Debt Funds Classification Average, NQC and NUC lagged the Lipper average by a narrow margin, while NCA and NCB underperformed the Lipper average.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. The use of regulatory leverage also was an important positive factor affecting the performance of all of these Funds except NCA and NCB. The primary reason that the returns of NCA and NCB trailed those of the five leveraged Funds for this reporting period was that

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the Performance Overview page for your Fund in this report.

* NCA and NCB do not use regulatory leverage.

** Refer to Glossary of Terms Used in This Report for definitions.

these two Funds do not use regulatory leverage. Leverage is discussed in more detail later in this report.

During this period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits at the longest end of the municipal yield curve posted the strongest returns, while bonds at the shortest end produced the weakest results. The Funds' duration and yield curve positionings were the most important determinants of performance during this period. On the whole, NCO, which had the longest duration among these Funds, was the most advantageously positioned in terms of duration and yield curve exposure. The remaining four Funds that use regulatory leverage also tended to have durations longer than their targets, and their returns benefited in proportion to their allocations along the longer end of the yield curve. In the two Funds that do not use regulatory leverage, NCA was less advantageously positioned than NCB, with a shorter effective duration, which detracted from NCA's performance.

Credit exposure also played a role in performance during these twelve months, as lower-rated bonds, especially those rated BBB, generally outperformed higher-quality bonds rated AAA and AA. This outperformance was due in part to the greater demand for lower-rated bonds as investors looked for investments offering higher yields. All of these Funds were overweighted in BBB bonds to varying degrees and this credit exposure made positive contributions to their performance. Overall, NCO benefited the most from its credit quality allocations.

Holdings that generally made positive contributions to the Funds' returns during this period included zero coupon bonds and health care, industrial development revenue (IDR), transportation and special tax credits. Leasing and education bonds also outpaced the general municipal market for the period, while water and sewer credits just edged past the municipal market average. All of these Funds were overweighted in health care, which boosted their performance.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were the poorest performing market segment during this period. The underperformance of these bonds can be attributed primarily to their shorter effective maturities and higher credit quality. As of February 29, 2012, NUC and NCA had the heaviest weightings in pre-refunded bonds, which hampered their performance. The electric utilities, housing and resource recovery sectors and California state GOs also lagged the performance of the general municipal market for this period. All of these Funds were underweighted to varying degrees in the tax-supported sector, especially California state GOs, relative to the California market, which lessened the negative impact of these holdings. This underweighting was due to the fact that California state GOs comprise such a large portion of the tax-supported sector in California that it is impossible to match the market weighting in our portfolios. Compared with the other Funds in this report, NCP had less of an underweight in the tax-supported sector, which hurt its performance as this sector underperformed.

Fund Leverage and
Other Information

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the return of the Funds relative to their benchmarks was the Funds' use of leverage. As mentioned previously, NCA and NCB do not use regulatory leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. Leverage had a positive impact on the performance of the Funds over this reporting period.

THE FUND'S REGULATORY LEVERAGE

As of February 29, 2012, the following Funds have issued and outstanding Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying table. As mentioned previously, NCA and NCB do not use regulatory leverage.

VRDP Shares

Fund	VRDP Shares Issued at Liquidation Value
NCP	\$ 81,000,000
NCO	\$ 49,800,000
NQC	\$ 95,600,000
NVC	\$ 158,900,000
NUC	\$ 158,100,000

(Refer to Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies and Footnote 4 – Fund Shares for further details on VRDP Shares.)

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:
<http://www.nuveen.com/arps>.

RISK CONSIDERATIONS

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment and Market Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Price Risk. Shares of closed-end investment companies like these Funds frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Inverse Floater Risk. The Funds invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Common Share Dividend
and Price Information

DIVIDEND INFORMATION

During the twelve-month reporting period ended February 29, 2012, NCP, NQC and NUC each had two monthly dividend increases, and NCA, NCO and NVC each had one monthly dividend increase. The dividend of NCB remained stable throughout the reporting period.

Due to normal portfolio activity, common shareholders of NCB received a long-term capital gains distribution of \$0.0234 per share in December 2011.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of February 29, 2012, all of the Funds in this report had positive UNII balances for both tax and financial reporting purposes.

SHARE REPURCHASES AND PRICE INFORMATION

As of February 29, 2012, and since the inception of the Funds' repurchase programs, the following Funds have cumulatively repurchased and retired their common shares as shown in the accompanying table. Since the inception of the Funds' repurchase programs, NCA, NCB and NQC have not repurchased any of their outstanding common shares.

Funds	Common Shares Repurchased and Retired	% of Outstanding Common Shares
NCA	—	—
NCB	—	—
NCP	28,300	0.2%
NCO	24,900	0.3%
NQC	—	—
NVC	41,400	0.2%
NUC	40,000	0.2%

During the twelve-month reporting period, the Funds did not repurchase any of their outstanding common shares.

As of February 29, 2012, the Funds' common share prices were trading at (+) premiums or (-) discounts to their common share NAVs as shown in the accompanying table.

Fund	2/29/12 (+) Premium/(-) Discount	Twelve-Month Average (-) Discount
NCA	(+)0.50%	(-)5.88%
NCB	(-)1.98%	(-)7.07%
NCP	(+)2.14%	(-)2.88%
NCO	(+)1.41%	(-)2.71%
NQC	(+)3.66%	(-)2.57%
NVC	(+)4.33%	(-)0.61%
NUC	(+)5.58%	(-)0.89%

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

- 1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.7%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- 2 Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Services, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.
- 3 Holdings are subject to change.
- 4 The Fund paid shareholders a capital gains distribution in December 2011 of \$0.0234 per share.
- 5 Excluding investments in derivatives.

Report of Independent
Registered Public Accounting Firm

The Board of Directors/Trustees and Shareholders
Nuveen California Municipal Value Fund, Inc.
Nuveen California Municipal Value Fund 2
Nuveen California Performance Plus Municipal Fund, Inc.
Nuveen California Municipal Market Opportunity Fund, Inc.
Nuveen California Investment Quality Municipal Fund, Inc.
Nuveen California Select Quality Municipal Fund, Inc.
Nuveen California Quality Income Municipal Fund, Inc.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen California Municipal Value Fund, Inc., Nuveen California Municipal Value Fund 2, Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc., and Nuveen California Quality Income Municipal Fund, Inc. (the "Funds") as of February 29, 2012, and the related statements of operations and cash flows (Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc., and Nuveen California Quality Income Municipal Fund, Inc. only) for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of February 29, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen California Municipal Value Fund, Inc., Nuveen California Municipal Value Fund 2, Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc., and Nuveen California Quality Income Municipal Fund, Inc. at February 29, 2012, and the results of their operations and their cash flows (Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc., and Nuveen California Quality Income Municipal Fund, Inc. only) for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

3,500	Woodbridge Irrigation District, California, Certificates of Participation, Water Systems Project, Series 2003, 5.625%, 7/01/43	7/13 at 100.00	A+	3,535,418
17,240	Total Water and Sewer			18,302,476
\$ 291,515	Total Investments (cost \$240,061,374) – 101.3%			257,775,800
	Floating Rate Obligations – (1.8)%			(4,490,000)
	Other Assets Less Liabilities – 0.5%			1,276,757
	Net Assets Applicable to Common Shares – 100%			\$ 254,562,557

- (1) All percentages in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring included the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such prepayments shall recommence beginning in calendar year 2010 according to a revised schedule.

N/R Not rated.
WI/DD Purchased on a when-issued or delayed delivery basis.

(ETM) Escrowed to maturity.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

Investments in Derivatives at February 29, 2012:

Forward Swaps outstanding:

Counterparty	Notional Amount	Fund Pay/Receive Floating Rate	Floating Rate Index	Fixed Rate (Annualized)	Fixed Rate Payment Frequency	Effective Date (6)	Termination Date	Unrealized
								Appreciation (Depreciation)
Barclays Bank PLC	\$ 2,000,000	Receive	3-Month USD-LIBOR	4.746%	Semi-Annually	3/30/12	3/30/35	\$ (734,293)

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for Investments in Derivatives.
- (5) Other Assets Less Liabilities includes the Unrealized Appreciation (Depreciation) of derivative investments as noted within Investments in Derivatives at February 29, 2012.
- (6) Effective date represents the date on which both the Fund and Counterparty commence interest payment accruals on each forward swap contract.

N/R	Not rated.
WI/DD	Purchased on a when-issued or delayed delivery basis.
(IF)	Inverse floating rate investment.
USD-LIBOR	United States Dollar-London Interbank Offered Rate.

\$ 272,995	Total Investments (cost \$269,035,881) – 142.6%			284,550,483
	Floating Rate Obligations – (3.8)%			(7,680,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (40.6)% (6)			(81,000,000)
	Other Assets Less Liabilities – 1.8%			3,738,523
	Net Assets Applicable to Common Shares – 100%			\$ 199,609,006

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring included the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such prepayments shall recommence beginning in calendar year 2010 according to a revised schedule.
- (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 28.5%.
- N/R Not rated.

- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for information.

See accompanying notes to financial statements.

	Floating Rate Obligations – (3.4)%			(4,285,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (39.2)% (6)			(49,800,000)
	Other Assets Less Liabilities – 1.9%			2,325,123
	Net Assets Applicable to Common Shares – 100%			\$ 127,111,863

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring included the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such pre-payments shall recommence beginning in calendar year 2010 according to a revised schedule.
- (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 27.8%.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.

- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

20,385	Total Water and Sewer			22,884,173
\$ 325,986	Total Investments (cost \$292,517,636) – 149.0%			309,628,118
	Floating Rate Obligations – (6.8%)			(14,230,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (46.0%) (5)			(95,600,000)
	Other Assets Less Liabilities – 3.8%			8,017,053
	Net Assets Applicable to Common Shares – 100%			\$ 207,815,171

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.9%.

N/R Not rated.

WI/DD Purchased on a when-issued or delayed delivery basis.

(IF) Inverse floating rate investment.

- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

35,150	Total Water and Sewer			40,530,990
\$ 533,068	Total Investments (cost \$485,074,619) – 144.0%			523,931,404
	Floating Rate Obligations – (4.8)%			(17,560,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (43.7)% (6)			(158,900,000)
	Other Assets Less Liabilities – 4.5%			16,361,657
	Net Assets Applicable to Common Shares – 100%			\$ 363,833,061

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
 - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
 - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
 - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
 - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
 - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.3%.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

* Annualized.

(a) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen California Municipal Value Fund, Inc. (NCA), Nuveen California Municipal Value Fund 2 (NCB), Nuveen California Performance Plus Municipal Fund, Inc. (NCP), Nuveen California Municipal Market Opportunity Fund, Inc. (NCO), Nuveen California Investment Quality Municipal Fund, Inc. (NQC), Nuveen California Select Quality Municipal Fund, Inc. (NVC) and Nuveen California Quality Income Municipal Fund, Inc. (NUC) (each a “Fund” and collectively, the “Funds”). Common shares of California Value (NCA), California Performance Plus (NCP), California Opportunity (NCO), California Investment Quality (NQC), California Select Quality (NVC) and California Quality Income (NUC) are traded on the New York Stock Exchange (“NYSE”) while Common shares of California Value 2 (NCB) are traded on the NYSE Amex. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, registered investment companies.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within the state of California or certain U.S. territories.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Prices of municipal bonds and forward interest rate swap contracts are provided by a pricing service approved by the Funds’ Board of Directors/Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. When price quotes are not readily available (which is usually the case for municipal bonds) the pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by Nuveen Fund Advisors, Inc. (“the Adviser”), a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”). These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund’s net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security’s fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might

reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Directors/Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

90 Nuveen Investments

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At February 29, 2012, California Value (NCA), California Value 2 (NCB), California Performance Plus (NCP), California Opportunity (NCO), California Investment Quality (NQC), California Select Quality (NVC) and California Quality Income (NUC) had outstanding when-issued/delayed delivery purchase commitments of \$1,049,400, \$319,300, \$1,148,400, \$1,648,350, \$1,242,450, \$2,292,000 and \$2,113,600, respectively.

Investment Income

Interest income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies ("RICs"). Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

Each Fund, except California Value (NCA) and California Value 2 (NCB), is authorized to issue Auction Rate Preferred Shares ("ARPS"). As of February 28, 2011, the Funds redeemed all of their outstanding ARPS, at liquidation

value.

Variable Rate Demand Preferred Shares

The following Funds have issued and outstanding Series 1 Variable Rate Demand Preferred (“VRDP”) Shares, with a \$100,000 liquidation value per share. California Performance Plus (NCP), California Opportunity (NCO), California Investment Quality (NQC), California Select Quality (NVC) and California Quality Income (NUC) issued their VRDP Shares in a privately negotiated offering during December 2010, March 2010, December 2010, August 2010 and August 2010, respectively. Proceeds of each Fund’s offering were used to redeem all, or a portion of, each Fund’s outstanding ARPS. The VRDP Shares were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. As of February 29, 2012, the number of VRDP Shares outstanding and maturity date for each Fund are as follows:

	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Shares outstanding	810	498	956	1,589	1,581
Maturity	December 1, 2040	March 1, 2040	December 1, 2040	August 1, 2040	August 1, 2040

Nuveen Investments 91

Notes to
Financial Statements (continued)

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value outstanding and annualized dividend rate of VRDP Shares for each Fund during the fiscal year ended February 29, 2012, were as follows:

	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Average liquidation value outstanding	\$ 81,000,000	\$ 49,800,000	\$ 95,600,000	\$ 158,900,000	\$ 158,100,000
Annualized dividend rate	0.32%	0.32%	0.32%	0.32%	0.32%

For financial reporting purposes only, the liquidation value of VRDP Shares is recognized as a liability on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Dividends paid on the VRDP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations. In addition to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider as well as a remarketing fee, which are recognized as "Fees on VRDP Shares" on the Statement of Operations.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate

security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an “externally-deposited inverse floater”), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a “self-deposited inverse floater”). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as “(IF) – Inverse floating rate investment.” An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as “(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction,” with the Fund accounting for the short-term floating rate certificates issued by the trust as “Floating rate obligations” on the Statement of Assets and Liabilities. In addition, the Fund reflects in “Investment Income” the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates as a component of “Interest expense and amortization of offering costs” on the Statement of Operations.

During the fiscal year ended February 29, 2012, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate

certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

At February 29, 2012, each Fund's maximum exposure to externally-deposited Recourse Trusts was as follows:

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Maximum exposure to Recourse Trusts	\$	-\$	-\$ 7,500,000	\$	-\$	-\$15,295,000	\$ 7,815,000

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters for the following Funds during the fiscal year ended February 29, 2012, were as follows:

	California Value (NCA)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Average floating rate obligations outstanding	\$ 4,490,000	\$ 8,115,997	\$ 4,285,000	\$ 14,230,000	\$ 17,560,530	\$ 30,177,213
Average annual interest rate and fees	0.54%	0.64%	0.57%	0.56%	0.55%	0.64%

Forward Swap Contracts

Each Fund is authorized to enter into forward interest rate swap contracts consistent with their investment objectives and policies to reduce, increase or otherwise alter its risk profile or to alter its portfolio characteristics (i.e. duration, yield curve positioning and credit quality).

Each Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of a Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. Forward interest rate swap contracts are valued daily. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or

depreciation on forward swaps” with the change during the fiscal period recognized on the Statement of Operations as a component of “Change in net unrealized appreciation (depreciation) of forward swaps.”

Each Fund may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Net realized gains and losses during the fiscal period are recognized on the Statement of Operations as a component of “Net realized gain (loss) from forward swaps.” Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination.

During the fiscal year ended February 29, 2012, California Value 2 (NCB) and California Opportunity (NCO) invested in forward interest rate swap transactions to reduce the sensitivity of the Funds to movements in U.S. interest rates. California Value 2 (NCB) also invested in forward interest rate swap transactions to shorten the duration of the Fund’s portfolio. The average notional amount of forward interest rate swap contracts outstanding during the fiscal year ended February 29, 2012, was as follows:

	California Value 2 (NCB)	California Opportunity (NCO)
Average notional amount of forward interest rate swap contracts outstanding*	\$ 2,000,000	\$ 1,200,000

* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

Refer to Footnote 3 — Derivative Instruments and Hedging Activities for further details on forward interest rate swap contract activity.

Notes to
Financial Statements (continued)

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Offering Costs

Costs incurred by California Performance Plus (NCP), California Opportunity (NCO), California Investment Quality (NQC), California Select Quality (NVC) and California Quality Income (NUC) in connection with their offerings of VRDP Shares (\$610,000, \$928,000, \$650,000, \$837,250 and \$835,250, respectively), were recorded as deferred charges, which are being amortized over the life of the shares. Each Fund's amortized deferred charges are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their officers and directors/trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of

loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- Level 1 – Quoted prices in active markets for identical securities.
- Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 – Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of February 29, 2012:

California Value (NCA)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 257,775,800	\$	—\$ 257,775,800
California Value 2 (NCB)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 54,882,314	\$	—\$ 54,882,314
Derivatives:				
Forward Swaps *		(734,293)		(734,293)
Total	\$	—\$ 54,148,021	\$	—\$ 54,148,021
California Performance Plus (NCP)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 284,550,483	\$	—\$ 284,550,483
California Opportunity (NCO)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 178,871,740	\$	—\$ 178,871,740
California Investment Quality (NQC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 309,628,118	\$	—\$ 309,628,118
California Select Quality (NVC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 523,931,404	\$	—\$ 523,931,404
California Quality Income (NUC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 529,736,228	\$	—\$ 529,736,228

* Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

During the fiscal year ended February 29, 2012, the Funds recognized no significant transfers to or from Level 1, Level 2 or Level 3.

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. For additional information on the

derivative instruments in which each Fund was invested during and at the end of the reporting period, refer to the Portfolios of Investments, Financial Statements and Footnote 1 – General Information and Significant Accounting Policies.

The following table presents the fair value of all derivative instruments held by the Funds as of February 29, 2012, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure. California Value Fund 2 (NCB) and California Opportunity (NCO) invested in derivative instruments during the fiscal year ended February 29, 2012.

California Value 2 (NCB)

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
Interest Rate	Forward Swaps	Location	Value	Location	Value
		Unrealized appreciation on forward swaps*	\$—	Unrealized depreciation on forward swaps*	\$734,293

* Represents cumulative gross unrealized appreciation (depreciation) of forward swap contracts as reported in the Fund's Portfolio of Investments.

Notes to
Financial Statements (continued)

The following tables present the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized for the fiscal year ended February 29, 2012, on derivative instruments, as well as the primary risk exposure associated with each.

	California Value 2 (NCB)	California Opportunity (NCO)
Net Realized Gain (Loss) from Forward Swaps		
Risk Exposure		
Interest Rate	\$ —	\$ (181,029)
Change in Net Unrealized Appreciation (Depreciation) of Forward Swaps		
Risk Exposure		
Interest Rate	\$ (663,331)	\$ 8,281

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments and derivative transactions, where applicable) during the fiscal year ended February 29, 2012, were as follows:

	California Value (NCA)	California Value 2 (NCB)	Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Purchases	\$ 19,230,259	\$ 3,036,374	\$ 27,547,530	\$ 19,178,089	\$ 33,864,852	\$ 79,434,018	\$ 53,216,935
Sales and maturities	20,068,080	2,159,135	31,191,230	19,598,275	38,430,174	92,833,886	55,033,001

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are

permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At February 29, 2012, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives, where applicable), as determined on a federal income tax basis, were as follows:

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)
Cost of investments	\$ 235,557,424	\$ 46,425,399	\$ 260,954,217	\$ 161,128,098
Gross unrealized:				
Appreciation	\$ 20,864,543	\$ 8,456,915	\$ 20,553,999	\$ 15,030,898
Depreciation	(3,134,711)	—	(4,636,048)	(1,572,995)
Net unrealized appreciation (depreciation) of investments	\$ 17,729,832	\$ 8,456,915	\$ 15,917,951	\$ 13,457,903

98 Nuveen Investments

	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Cost of investments	\$ 278,031,265	\$ 467,322,363	\$ 460,107,034
Gross unrealized:			
Appreciation	\$ 22,257,467	\$ 44,522,574	\$ 44,890,687
Depreciation	(4,891,788)	(5,475,698)	(2,262,838)
Net unrealized appreciation (depreciation) of investments	\$ 17,365,679	\$ 39,046,876	\$ 42,627,849

Permanent differences, primarily due to federal taxes paid, taxable market discount and nondeductible offering costs, resulted in reclassifications among the Funds' components of Common share net assets at February 29, 2012, the Funds' tax year end, as follows:

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Paid-in surplus	\$ 23,506	\$ —	\$(8,073)	\$(28,020)	\$(10,235)	\$(16,785)	\$(22,049)
Undistributed (Over-distribution of) net investment income	(27,815)	(41)	(10,272)	19,977	5,211	(1,798)	16,650
Accumulated net realized gain (loss)	4,309	41	18,345	8,043	5,024	18,583	5,399

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at February 29, 2012, the Funds' tax year end, were as follows:

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
Undistributed net tax-exempt income *	\$ 2,230,429	\$ 223,377	\$ 4,659,454	\$ 2,598,758	\$ 4,687,799	\$ 7,739,400	\$ 7,922,433
Undistributed net ordinary income **	38,577	—	2,328	2,147	—	45,582	—
Undistributed net long-term capital gains	—	43,637	—	—	—	—	—

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on February 1, 2012, paid on March 1, 2012.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSR

The tax character of distributions paid during the Funds' tax years ended February 29, 2012 and February 28, 2011, was designated for purposes of the dividends paid deduction as follows:

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
2012							
Distributions from net tax-exempt income ***	\$ 11,566,186	\$ 2,623,744	\$ 12,480,662	\$ 7,861,212	\$ 13,290,234	\$ 23,585,608	\$ 22,818,954
Distributions from net ordinary income **	—	—	—	—	—	—	—
Distributions from net long-term capital gains ****	—	76,937	—	—	—	—	—

	California Value (NCA)	California Value 2 (NCB)	California Performance Plus (NCP)	California Opportunity (NCO)	California Investment Quality (NQC)	California Select Quality (NVC)	California Quality Income (NUC)
2011							
Distributions from net tax-exempt income	\$ 11,515,680	\$ 2,705,942	\$ 11,981,804	\$ 7,754,166	\$ 12,761,573	\$ 23,150,035	\$ 22,084,365
Distributions from net ordinary income **	70,710	23,583	—	—	—	6	—
Distributions from net long-term capital gains	—	90	—	—	—	—	—

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

*** The Funds hereby designate these amounts paid during the fiscal year ended February 29, 2012, as Exempt Interest Dividends.

**** The Funds designate as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852 (b)(3), the amount necessary to reduce earnings and profits of the Funds related to net capital gain to zero for the tax year ended February 29, 2012.
