REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Plan Administrative Committee
U.S. Borax Inc. 401(k) Plan for Hourly Employees

We have audited the accompanying statement of net assets available for benefits of the U.S. Borax Inc. 401(k) Plan for Hourly Employees (the Plan) as of December 31, 2005 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the U.S. Borax Inc. 401(k) Plan for Hourly Employees as of December 31, 2005, and the changes in net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit of the financial statements was performed for the purpose of forming

Edgar Filing: RIO TINTO PLC - Form 11-K

an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2005, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management and has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Edgar Filing: RIO TINTO PLC - Form 11-K

of \$14,000 for the year ended December 31, 2005. Participant contributions are recorded in the period during which the amounts are withheld from participant earnings. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

1. DESCRIPTION OF THE PLAN CONTINUED	TRANSFERS Along with the Plan, the Company also sponsors other 401(k) plans that cover represented employees. If employees are changed from union to non-union status during the year, their account balances are transferred from this Plan to the non-union plan. For the year ended December 31, 2005, transfers to the Rio Tinto America Inc. Savings Plan totaled \$551,656.
2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES	BASIS OF PRESENTATION The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. USE OF ESTIMATES The preparation of the Plan's financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. RISKS AND UNCERTAINTIES The Plan provides for investments in securities that are

Edgar Filing: RIO TINTO PLC - Form 11-K

exposed to various risks, such as interest rate, currency exchange rate, credit and overall market fluctuation. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value (generally quoted market price) except for its benefit-responsive synthetic guaranteed investment contracts, which are valued at contract value (see Note 6). Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair values.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

2. SUMMARY OF
SIGNIFICANT
ACCOUNTING
POLICIES
CONTINUED

INVESTMENT VALUATION AND INCOME RECOGNITION - CONTINUED

The net appreciation (depreciation) in the fair value of investments which includes realized gains (losses) and unrealized appreciation (depreciation) on those investments is shown in the statement of changes in net assets available for benefits of the Plan.

PAYMENTS OF BENEFITS

Benefits payments are recorded when paid by the Plan.

ADMINISTRATIVE EXPENSES

The Company pays the majority of the costs and expenses incurred in administering the Plan.

The Plan has several fund managers that manage the investments held by the Plan. During the year ended December 31, 2005, the Company paid all investment management fees related to this Plan.

The investment management fees related to transaction costs associated with the purchase or sale of Rio Tinto plc ADRs are paid by the participants.

PARTICIPANT LOANS

Participants may borrow from the Plan up to a maximum of \$50,000 or 50% of their account balances, whichever is less. Each loan is secured by the balance in the participant's account and bears interest at a rate commensurate with prevailing rates at the time funds are borrowed, as determined by the Plan Administrators. Loans originated

Edgar Filing: RIO TINTO PLC - Form 11-K

during the year ended December 31, 2005 have interest rates set at prime plus one percent and are reset quarterly.

NEW ACCOUNTING PRONOUNCEMENTS

In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP). This FSP makes the definition of benefit-responsive more restrictive so that certain investment contracts currently reported at contract value may be reported at fair value. Management has not yet determined the impact this standard, which is effective for the plan year ending December 31, 2006, will have on the Plan's financial statements.

3. RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Putnam Investments, the Plan trustee, therefore, these transactions are exempt party-in-interest transactions. Transaction fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Transactions associated with Rio Tinto plc ADRs are considered exempt party-in-interest transactions because Rio Tinto plc is the parent of the Company. As of December 31, 2005 and 2004, the Plan held 12,956 and 11,072 shares, respectively, of common stock of Rio Tinto plc, with a cost basis of \$1,288,479 and \$946,799, respectively. During the year ended December 31, 2005, the Plan recorded dividend income of \$42,102 related to this stock. Participant loans totaling \$2,552,318 and \$2,569,917 as of December 31, 2005 and 2004, are also party-in-interest transactions.

Common collective trusts		108,608

 Net appreciation in investments	 \$	 1,586,299

5. PLAN
TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

6. GUARANTEED
INVESTMENT
CONTRACTS

The Plan's guaranteed investment contracts are in a stable value fund. The guaranteed investment contracts are fully benefit-responsive and are stated at contract value (which represents contributions made under the contract, plus interest earned, less withdrawals and administrative expenses). The stable value fund is invested in a money market fund, a common collective trust (the SEI Stable Asset Fund), and synthetic GICs. The synthetic GICs are secured by underlying fixed income assets. The average crediting interest rates on the investment contracts were 4.72% and 4.83% for the years ended December 31, 2005 and 2004, respectively. Average duration for all investment contracts was 2.93 years and 2.98 years at December 31, 2005 and 2004, respectively. The average yield was 4.74% and 4.87% for the years ended December 31, 2005 and 2004, respectively. There are no reserves against the contract value for credit risk of the contracted issuer or otherwise.

Page 11 of 18 Pages

6. GUARANTEED
INVESTMENT
CONTRACTS
CONTINUED

The contract or crediting interest rates for certain stable value investment contracts are reset quarterly and are based on the market value of the portfolio of assets underlying these contracts. Inputs used to determine the crediting interest rates include each contract's portfolio market value, current yield-to-date maturity, duration and market value relative to contract value. With respect to interest rate resets, all contracts are guaranteed that the rates will not be negative.

A synthetic GIC provides for a guaranteed return on principal over a specified period of time through fully benefit-responsive wrap contracts, issued by a third party which are backed by underlying assets. The portfolio of assets underlying the synthetic GICs has an overall AAA

Edgar Filing: RIO TINTO PLC - Form 11-K

credit quality and includes mortgages, fixed income securities and United States treasury notes and bonds. These wrap contracts provide benefit withdrawals and investment exchanges at the full contract value of the synthetic contracts (principal plus accrued interest) notwithstanding the actual market value of the underlying investments (fair value plus accrued interest).

Wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments. The fair value of the synthetic GICs was \$5,223,950 and \$4,972,265, as of December 31, 2005 and 2004, respectively. The contract value of the synthetic GICs included \$18,960 and \$145,625 as of December 31, 2005 and 2004, respectively, attributable to the wrap contract providers representing the amounts by which the value of the contracts is less than the value of the underlying assets.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 27, 2003, that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
