Employment Contracts and Change in Control Arrangements

Of the executive officers named in the Summary Compensation Table, only Mr. Whatcott is subject to a written employment agreement. Mr. Whatcott's employment agreement is with both Westcorp and WFS Financial and was executed as of February 27, 1998. This agreement establishes an initial base salary subject to annual review and provides to Mr. Whatcott the same basic benefits otherwise offered to those executive officers with whom no written employment agreement exists. This employment agreement also provides that if, as a result of or following a change of control, Mr. Whatcott is terminated other than for cause or is required to relocate to another geographical area, he will be entitled to two years' compensation, based upon the average of his salary and bonus for the three calendar years preceding the triggering event. This employment agreement may be terminated by the employer at any time for cause.

Certain Benefits

Executive Deferral Plan V (EDP V)

The Executive Deferral Plan is designed for a select group of management or highly compensated associates of Westcorp and its subsidiaries as determined by the Board of Directors. The Executive Deferral Plan is designed to allow participants to defer a portion of their compensation on a pre-tax basis, and earn tax-deferred interest on these deferrals. A participant in the Executive Deferral Plan may elect to defer a portion of their compensation from a minimum of \$2,000 a year to a maximum of 50% of their annual base salary and 100% of any bonus, commission, and incentive. The Executive Deferral Plan also provides for an employer match, at the discretion of the Board of Directors. The Executive Deferral Plan provides a trust for the security and protection of participant account balances, except in the case of corporate bankruptcy. In addition, the Executive Deferral Plan contains a change of control provision, whereby in the event of a termination of employment within 24 months after a change in control, the termination is treated as a retirement and retirement distribution elections will then govern the distribution.

The Long Term Incentive Plan

The Long Term Incentive Plan, discussed above, covers certain key executive officers in which such officers will be entitled to receive a fixed incentive amount provided that our tangible net book value per common share as of December 31, 2004 equals or exceeds \$28.08, as adjusted at our sole discretion, and the

Table of Contents

executive officer remains continuously employed by us or our subsidiaries through April 30, 2005. We expensed \$941,768 in 2000, \$941,772 in 2001 and \$449,561 in 2002 related to the Long Term Incentive Plan.

Stock Option Plans

2001 Stock Option Plan. The Westcorp 2001 Stock Option Plan, also known as the 2001 Plan, was adopted by the Board of Directors in February 2001 and approved by our shareholders in May 2001. The 2001 Plan replaced the 1991 Stock Option Plan that expired on April 15, 2001. Our Compensation Committee administers the 2001 Plan. Under the 2001 Plan, we reserved a total of 3,000,000 shares of common stock for future issuance. As of December 31, 2002, a total of 2,614,500 shares were available for future grants. The options may be exercised within seven years after the date of the grant.

Options granted under the 2001 Plan may be either incentive stock options or non-qualified options within the meaning of the Internal Revenue Code. However, only non-qualified options may be granted to directors who are not also associates. The term of the options may not exceed 10 years from the date of the grant under the 2001 Plan. However, optionees who own, prior to a grant, directly or indirectly, 10% or more of our outstanding common stock, may not be granted incentive stock options with a term greater than five years. Options may be terminated earlier, however, in the event of the death or disability of the optionee or the optionee ceasing to perform services for Westcorp or our subsidiaries as provided in the 2001 Plan. The options also are subject to all of the other terms and conditions of the written stock option agreement between the optionee and Westcorp. In 2002, a total of 414,500 options were granted under the 2001 Plan.

In the aggregate, 3,000,000 shares of our common stock may be the subject of options granted under the 2001 Plan. However, the number of shares subject to options granted under that Plan (and the exercise prices for the options) are subject to adjustment in the event of any change in our outstanding shares as a result of stock dividends, stock splits or conversions of shares. If any option expires or terminates without having been exercised in full, the unpurchased shares become available again for purposes of future incentive and non-qualified stock options to be granted under the 2001 Plan prior to its expiration date.

WFS Stock Option Plan. In 1996, WFS Financial adopted the WFS Financial 1996 Stock Option Plan, also known as the WFS Plan. In the aggregate, 550,000 shares of common stock were the subject of options which may be granted pursuant to the WFS Plan. In 1997, the WFS Plan was amended to increase the number of WFS Financial shares subject to the plan to 1,100,000. Certain options granted under the WFS Plan are intended to qualify as incentive stock options within the meaning of the Internal Revenue Code with other options to be non-qualified options. Options may be granted under the WFS Plan to associates and directors. Options may be granted under the WFS Plan to any WFS Financial optionee who, in the opinion of the Compensation Committee, is or gives promise of becoming of exceptional importance to WFS Financial because of experience and ability. The Compensation Committee has the discretion to determine the amounts and times of exercise of options. In 2002, there were no options granted under the WFS Plan.

Westcorp Employee Stock Ownership and Salary Savings Plan

Westcorp Employee Stock Ownership Plan (ESOP). The ESOP is a stock savings plan designed for all eligible associates. The ESOP was designed to provide our associates and associates of our subsidiaries with stock ownership in Westcorp to assist in attracting and retaining qualified associates. The entirety of the ESOP funding is made up of contributions by Westcorp. Each year Westcorp may, in its discretion, make an ESOP contribution to the ESOP. The contribution is designated specifically for each eligible associate and contributions are allocated to the associate's account based upon years of service and compensation. We funded \$2,458,510 in ESOP contributions for 2002.

Westcorp Salary Savings Plan (401k). The 401K is a voluntary tax-deferred associate retirement savings plan in which associates of Westcorp and its subsidiaries may contribute between 1% and 14% of their pre-tax earnings, subject to annual limits. Under the 401K, at year end, Westcorp will match 100% of the first \$500 contributed to the 401K Plan and then 50% up to a maximum of 6% of annual compensation. Contributions are invested according to the associate's diverse fund choices, which include a variety of fund options including Westcorp stock. The associate has the ability to reallocate current balances and prospective

contributions according to his or her choices of fund options. Westcorp matched \$2,261,210 in 401K contributions for 2002.

REPORT OF THE COMPENSATION COMMITTEE

We apply a consistent philosophy to compensation for all associates, including senior management. This philosophy is based on the premise that our achievements result from the coordinated efforts of all individuals working toward common objectives. Each member of the Compensation Committee is a non-associate director. The members of our Compensation Committee are the same as the members of Western Financial Bank's Compensation Committee. Accordingly, the Compensation Committee generally sits and deliberates concurrently as the committee for us and Western Financial Bank and considers the performance of both companies and their subsidiaries as a whole in making its compensation determinations.

Compensation Philosophy

Under the supervision of the Compensation Committee of the Board of Directors, we have developed and implemented compensation policies, plans and programs which seek to enhance our profitability, and thus shareholder value, by aligning closely the financial interests of our senior managers with those of our shareholders. The Compensation Committee endorses the belief that stock ownership by management and the granting of stock options to senior executives and key associates furthers that goal and fosters decision-making by our key associates with our long-term safety and soundness in mind.

The compensation plans and programs are structured to integrate pay with our annual and long-term performance goals. The plans and programs are designed to recognize initiative and achievement and to assist us in attracting and retaining qualified executives. In furtherance of these goals, annual base salaries are generally set at competitive levels so that we rely to a large degree on annual incentive compensation to attract and retain corporate officers and other key associates with outstanding abilities and to motivate them to perform to the full extent of their abilities. For the longer term, incentive stock options are awarded by us, the stock of which is publicly traded. Incentive compensation is variable and closely tied to corporate, business unit and individual performance in a manner that encourages a sharp and continuing focus on building profitability and shareholder value. As a result of the increased emphasis on tying executive compensation to corporate performance, in any particular year the total compensation of our executives may be more or less than the executives of our competitors, depending upon our or the individual business unit's performance.

In evaluating the performance and setting the incentive compensation of the Chief Executive Officer and other senior executives, the Compensation Committee takes into account their consistent commitment to our long-term success through conservative management of certain business units and aggressive management of other business units as dictated by existing and anticipated market conditions.

At the beginning of each year, performance goals to determine annual incentive compensation are established for each business unit and for each executive. Financial goals include overall profitability, loan volume growth, operating earnings, loan delinquency levels, return on equity, return on assets, Community Reinvestment Act results, cost controls and productivity. The most weight is given to profitability as it relates to established goals. Management goals were established at the beginning of 2002 for those executives and managers who do not manage production units with direct financial goals. These goals are tied to the strategic goals of the organization and its overall profitability.

Compensation of Chief Executive Officer

In determining the Chief Executive Officer's compensation for 2002, the Compensation Committee discussed and considered all of the factors discussed above. The Compensation Committee also considered the factors stated above in arriving at the award of 2002 bonus compensation for Mr. Ernest Rady as shown in the Summary Compensation table. The bonus compensation for 2002 reflects the achievement of management objectives, including improved financial performance, efficiencies and productivity.

The Committee established 2003 management objectives for the Chief Executive Officer.

Table of Contents

Westcorp 2001 Stock Option Plan Stock Option Grants

Westcorp uses stock options as long-term incentives and expects that it will continue to use this compensation alternative in the future. At Westcorp's May 3, 2001 annual meeting, shareholders approved and adopted a new ten year 2001 Stock Option Plan, which replaced the previously expired 1991 Stock Option Plan. The Westcorp Compensation Committee grants incentive stock options to associates of Westcorp and its subsidiaries and views such grants less as compensation and more as an incentive mechanism.

Other Compensation Plans

Other compensation benefits have from time to time been established for the benefit of our senior executives and other managers and officers and those of our subsidiaries, each of which is discussed in the above materials. The results of these compensation plans on the most highly compensated executives are reflected in the Compensation Table and in the Long Term Incentive Plans Table.

Policy Regarding Compliance with I.R.C. Sec. 162(m)

Section 162(m) of the Internal Revenue Code, as enacted by the Omnibus Budget Reconciliation Act of 1993, provides in general that, beginning in 1994, compensation paid to certain executives of publicly held corporations will not be deductible for federal income tax purposes to the extent it exceeds \$1,000,000 per year unless certain conditions are met. It is the present policy of the Compensation Committee that individual compensation shall not exceed the deductibility requirements of Internal Revenue Code, Section 162(m) and Westcorp intends to take the necessary steps to comply, but also reserves the right to enter into incentive and other compensation arrangements, such as the Westcorp Long Term Incentive Plan, that do not so comply when it determines that the benefits to us outweigh the cost of the possible loss of federal income tax deductions.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees our financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors' independence from management and us, including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed with our independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting. The Committee held five meetings during fiscal year 2002.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2002 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to shareholder approval, the selection of our independent auditors.

The Committee developed the Audit Committee Charter outlining the responsibilities of the Committee as shown in Appendix A.

American Assets, Inc. is one of the affiliated companies that are owned and controlled by Ernest S. Rady.

APPENDIX A

AUDIT COMMITTEE CHARTER

Statement of Policy

This charter governs the operations of the Audit Committee. The Committee shall review and reassess the charter annually and obtain the approval of the Board of Directors. The Committee shall provide assistance to the Board of Directors in fulfilling their oversight responsibility to the shareholders, potential shareholders, the investment community, and others relating to Westcorp's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of Westcorp's financial statements, and the compliance programs as established by management and the Board. In so doing, it is the responsibility of the Committee to maintain free and open communication between the Committee, independent auditors, the internal auditors and management of Westcorp. In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of Westcorp and the power to retain outside counsel, or other experts for this purpose.

Organization

The Audit Committee shall be appointed by the Board of Directors and shall comprise of at least three directors, each of whom are independent of management and Westcorp. Members of the Committee shall be considered independent if they have no relationship that may interfere with the exercise of their independence from management and Westcorp. All Committee members shall be financially literate, and at least one member shall have accounting or related financial management expertise. Members shall be appointed for a one year term of office. The chair of the Committee shall be nominated by the Board from time to time. No member of the Committee may be removed except by the vote of a majority of the directors of Westcorp. The Board of Directors shall fill any vacancies occurring among the members of the Committee.

Attendance at Meetings

The Audit Committee may invite such other persons (*e.g.*, the Chief Executive Officer, Chief Financial Officer, and Director of Audit Services) to its meetings, as it deems necessary. The internal and independent auditors shall be invited to make presentations to the Committee as appropriate. The Committee shall hold periodic meetings throughout the year. A quorum for any meeting shall be a majority of the members. Internal audit or the independent auditors may convene a meeting if they consider it necessary. The proceedings of all meetings will be recorded in minutes taken by the Secretary of the Committee who will be Westcorp's Secretary, or such other person as nominated by the Board.

Responsibilities and Processes

The primary responsibility of the Audit Committee is to oversee Westcorp's financial reporting process on behalf of the Board and report the results of their activities to the Board. While the Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for preparing Westcorp's financial statements, and the independent auditors are responsible for auditing those financial statements. It is not the duty of the Committee to conduct investigations, to resolve disagreements, if any, between management and the independent auditor, or to assure compliance with laws and regulations. The Committee in carrying out its responsibilities believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The Committee should take the appropriate actions to set the overall corporate tone for quality financial reporting, sound business risk practices, and ethical behavior.

Table of Contents

The following shall be the principal recurring processes of the Committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the Committee may supplement them as appropriate.

The Committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the Board and the Audit Committee, as representatives of Westcorp's shareholders. The Committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, replace the independent auditors. The Committee shall discuss with the auditors their independence from management and Westcorp and the matters included in the written disclosures required by the Independence Standards Board. Annually, the Committee shall review and recommend to the Board the selection of Westcorp's independent auditors, subject to shareholders' approval.

In the event of the engagement by management or the Board of Directors of an independent accounting firm to provide non audit services when the same firm has been retained to provide audit services, the Committee shall determine whether such non audit services will, in the opinion of the Committee, adversely affect the independence of the firm in carrying out its audit assignments.

The Committee shall review the qualifications of internal audit personnel and concur in the appointment, replacement, reassignment or dismissal of the Director of Audit Services, who shall report directly to the Committee and is responsible for performing the internal audit functions of Westcorp. The Committee shall determine the compensation for the firm providing the internal audit resources to the Director of Audit Services. Such firm shall report to the Director of Audit Services.

The Committee shall discuss with internal auditors and the independent auditors the overall scope and plans for their respective audits, including the adequacy of staffing and compensation, and ensure no unjustified restrictions or limitations are made. Also, the Committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting, disclosure and financial controls, including Westcorp's system to monitor and manage business risk, and compliance programs. Further, the Committee shall meet separately with the internal auditors and the independent auditors, with and without management present, to discuss the results of their examinations and will provide sufficient opportunity for the internal auditors and the independent auditors to meet privately with the members of the Committee. The Committee shall ensure that significant findings and recommendations made by the internal auditors, external auditors and regulatory agencies are received and discussed on a timely basis and management responds to the recommendations.

The Committee shall review the interim financial statements and disclosures with management and the independent auditors prior to the filing of Westcorp's Quarterly Report on Form 10-Q. Also, the Committee shall discuss the results of the quarterly review and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards. The chair of the Committee may represent the entire Committee for the purposes of this review.

The Committee shall review with management and the independent auditors the financial statements and disclosures to be included in Westcorp's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the Committee shall discuss the results of the annual audit and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards.

The Committee chair shall regularly update the Board about Committee activities and make appropriate recommendations. Also, the chair shall ensure the Board is aware of internal control and regulatory compliance matters which may significantly impact the financial condition or affairs of the business.
