**Item 2.01. Completion of Acquisition or Disposition of Assets.**

On May 6, 2008, Metro One Telecommunications, Inc. (the Company) completed the sale of a portfolio of surplus intellectual property to a subsidiary of kgb, formerly INFONXX, Inc., a provider of live operator directory assistance services headquartered in New York City. The transaction was completed pursuant to a Patent Purchase Agreement, dated May 6, 2008, between the Company and the kgb subsidiary, and the consideration received by the Company was \$8.0 million in cash.

The portfolio consisted of 49 issued and 78 pending patents in North America and numerous trademarks and domain names, all of which were developed originally for use in Metro One's discontinued live operator directory assistance business unit. Metro One retained ownership of a data management and analytic patent and pending application that are pivotal to its continuing business model that is focused on providing data, data processing and analysis services, and contact services to business customers. As part of the transaction and for no additional consideration, Metro One licensed its retained data patent and rights under its pending patent application to kgb for use only by or for kgb.

The foregoing description of the transaction and of the Patent Purchase Agreement is qualified in its entirety by reference to the full text of the Patent Purchase Agreement, which is incorporated herein by reference as Exhibit 2.1.
