Item 7.01 Regulation FD Disclosure

On November 30, 2005, Airgas, Inc. (the Company) is holding its annual analyst meeting in Phoenix, Arizona. At the meeting, the Company is announcing certain financial targets for fiscal years 2006 and 2008. A press release containing the financial targets is attached as Exhibit 99.1 and incorporated herein by reference.

Non-GAAP Measures:

The press release attached as Exhibit 99.1 contains certain financial measures that are not defined under generally accepted accounting principles (GAAP). Return on capital is a non-GAAP measure that helps investors assess how effectively the Company uses the capital invested in its operations. Free Cash Flow is a non-GAAP measure that provides investors meaningful insight into the Company's ability to generate cash from operations, which can be used at management's discretion for acquisitions, the prepayment of debt or to support other investing and financing activities. The computation and reconciliation of the non-GAAP financial measures to the closest GAAP measure are presented below:

<sup>(1)</sup> National Welders Supply Co. ( NWS ) is a corporate joint venture meeting the definition of a variable interest entity and for which the Company is the primary beneficiary as described under FIN 46R. The liabilities of NWS are non-recourse to the Company. Likewise, the cash flows in excess of the management fee paid by NWS are not available to the Company. Accordingly, the cash flows

of NWS have  
been excluded  
from the  
Company's  
non-GAAP Free  
Cash Flow  
measure.

Slide number six to be presented at the annual analyst meeting depicts an 18-year graph of sales, shareholders' equity, Adjusted EBITDA and interest expense for the period FY89 through FY06 (forecast). Adjusted EBITDA is a financial measure that is not defined under GAAP. Adjusted EBITDA and a reconciliation to cash from operations for the period FY89 through FY05 was previously disclosed in a Form 8-K dated July 8, 2005. Since the forecast of FY06 Adjusted EBITDA had not been previously disseminated to the public, the computation of the measure and associated reconciliation are furnished in this Form 8-K. The Company believes Adjusted EBITDA provides investors meaningful insight into the Company's ability to generate cash from operations to support required working capital, capital expenditures and financial obligations. Forecast fiscal 2006 Adjusted EBITDA and the related reconciliation are presented below:

<b>Reconciliation of Operating Income to Adjusted EBITDA to</b>	<b>Forecast</b>
