OVBC DIVIDENDS & EARNINGS UP

Gallipolis, Ohio, April 11, 2002

Ohio Valley Banc Corp today reported consolidated net earnings for the quarter ended March 31, 2002 of \$1,252,000 representing a 13.1% increase over the \$1,107,000 for the same time period a year ago. Net income per share increased 12.5% for the first quarter at \$.36 per share compared to \$.32 per share in the first quarter of 2001. With continued strong earnings growth, OVBC directors approved a 6.25% increase in quarterly cash dividends. Cash dividends will increase to \$.17 per share from \$.16 per share payable May 10, 2002 to shareholders of record April 22, 2002. President and CEO Jeffrey E. Smith made the announcement at the Company's annual shareholders' meeting held Wednesday afternoon at the Morris and Dorothy Haskins Ariel Theatre in Gallipolis, Ohio. Also, during the meeting, Phil A. Bowman, W. Lowell Call and James L. Dailey were reelected to the Ohio Valley Banc Corp Board of Directors to serve a three year term ending in 2005.

Management was pleased to continue the accomplishments achieved in 2001 of double-digit earnings growth while improving asset quality. The earnings performance improved over the prior year due to a strong 23% increase in net interest income. The Company's net interest margin benefited from the decline in interest rates that occurred throughout 2001. For the first quarter of 2002, the net interest margin was 4.38% , as compared to 4.06% for the same period in 2001. The increase in the net interest margin combined with the growth in earning assets of 14% provided additional net interest income of \$1,204,000.

Noninterest income totaled \$1,280,000 for the first quarter of 2002 compared to \$1,166,000 a year ago representing a 9.8% increase. Income from bank owned life insurance and loan service fees provided a majority of the growth. Noninterest expense totaled \$4,773,000 in 2002, an increase of \$394,000 or 9.0%. Salary and employee benefits, the Company's largest noninterest expense, totaled \$2,619,000 for the first quarter of 2002, up \$256,000 from the prior year. The increase was affected by annual merit increases and rising benefit costs. The Company's efficiency ratio continues to improve as revenue sources (net interest income and noninterest income) continue to outpace the growth in noninterest expense. The efficiency ratio for the first quarter of 2002 improved to 61.2% from 67.5% in 2001.

During the first quarter of 2002, management continued to emphasize asset quality which is important in a period of economic slowdown. The Company's provision for loan losses increased \$715,000 over the first quarter of 2001 in relation to an increase in net charge-offs of \$614,000 that occurred mostly in installment and commercial loans. Nonperforming loans as a percent of total loans declined to 1.06% at March 31, 2002 as compared to 1.24% at year end 2001. The allowance for loan losses was 1.23% of total loans at March 31, 2002, unchanged from December 31, 2001. Management feels that the allowance for loan

losses is adequate to absorb probable losses inherent in the loan portfolio based on collateral values and decline in nonperforming loans.

The financial results for the first quarter continue Management's commitment to enhance earnings to improve shareholders' value. The double-digit earnings growth led to an improved return on average equity of 10.86% for the three months ended March 31, 2002 versus 10.11% for the first three months of 2001.

Ohio Valley Banc Corp common stock is traded on the NASDAQ Stock Market under the symbol OVBC.
