Consolidated Results

Mexico City, D.F., February 25, 2013—Grupo Televisa, S.A.B. (NYSE:TV; BMV: TLEVISA CPO; “Televisa” or “the Company”), today announced results for fourth quarter and full year 2012. The results have been prepared in accordance with International Financial Reporting Standards (“IFRS”). Therefore the results for fourth quarter and full year 2011 previously reported in accordance with Mexican Financial Reporting Standards (“Mexican FRS”) have been restated in accordance with IFRS for comparative purposes.

The following table sets forth condensed consolidated statements of income for the years ended December 31, 2012 and 2011, in millions of Mexican pesos, as well as the percentage that each line represents of net sales and the percentage change when comparing 2012 with 2011:

	2012	Margin	2011	Margin	Change
		%		%	%
Net sales	69,290.4	100.0	62,581.5	100.0	10.7
Operating segment income	28,413.5	40.3	25,371.4	39.8	12.0
Net income	10,069.1	14.5	7,957.3	12.7	26.5
Net income attributable to stockholders of the Company	8,760.6	12.6	6,665.9	10.7	31.4

Net sales increased 10.7% to Ps.69,290.4 million in 2012 compared with Ps.62,581.5 million in 2011. This increase was attributable to strong revenue growth in Content, in particular Network Subscription Revenue and Licensing and Syndication, Cable and Telecom, and Sky segments. Operating segment income increased 12.0%, reaching Ps.28,413.5 million with a margin of 40.3%.

Net income attributable to stockholders of the Company increased to Ps.8,760.6 million for the year ended December 31, 2012 compared with Ps.6,665.9 million for the year ended December 31, 2011. The net increase of Ps.2,094.7 million primarily reflected (i) a Ps.1,865.9 million increase in operating income and (ii) a Ps.1,290.5 million decrease in finance expense, net, mainly as a result of the appreciation of the peso during the year, and a decrease in other finance expense, net. These favorable variances were primarily offset by a Ps.827.3 million increase in income taxes.

Content

Fourth quarter sales increased 4.9% to Ps.10,218.7 million compared with Ps.9,738.6 million in fourth quarter 2011.

Full year sales met our full year guidance, increasing 7.2% to Ps.32,884.1 million compared with Ps.30,685.6 million in 2011.

Millions of Mexican pesos	2012	%	2011	%	Change %
Advertising	23,935.9	72.8	23,206.1	75.6	3.1
Network Subscription Revenue	3,189.2	9.7	2,590.8	8.5	23.1
L i c e n s i n g a n d Syndication	5,759.0	17.5	4,888.7	15.9	17.8
Net Sales	32,884.1	100.0	30,685.6	100.0	7.2

Advertising fourth quarter revenue increased 3.6% to Ps.7,716.2 million compared with Ps.7,444.6 million in fourth quarter 2011.

Advertising full year revenue increased by 3.1%. These results reflect stronger advertising revenues, in particular in our Pay-TV platforms, which were partially compensated by the effects of the electoral period during the second quarter of the year, when we were required to transmit -free of charge- promotional spots for the different candidates across all of our networks.

Fourth-quarter Network Subscription Revenue increased by 17.3% to Ps.819.4 million compared to Ps.698.6 million in fourth-quarter 2011.

Full year Network Subscription Revenue grew by 23.1% mainly as a result of the sustained addition of pay-TV subscribers in Mexico and, to a lesser extent, abroad. We closed 2012 with 33.2 million subscribers carrying an average of 5.9 networks compared with 29.6 million subscribers carrying an average of 5.5 networks in 2011. These results also include a positive translation effect on foreign-currency-denominated sales.

Fourth-quarter Licensing and Syndication revenue increased by 5.5% to Ps.1,683.1 million compared to Ps.1,595.4 million in fourth-quarter 2011.

The full year increase in Licensing and Syndication revenue of 17.8% is explained by both i) an increase in royalties from Univision, from US\$224.9 million in 2011 to US\$247.6 million in 2012; ii) an increase in sales to the rest of the world, principally in Latin America; and iii) a positive translation effect on foreign-currency-denominated revenues in the amount of Ps.180.8 million

Note: Due to the recent leak of confidential data related to the location of IBOPE's people meters, IBOPE's measurements are currently being used only as a point of reference to analyze trends. No punctual data will be included in our reports until this is resolved. In the meantime, Televisa is billing its clients based on fixed pricing rather than on cost-per-rating point. We do not expect this to have any adverse impact on our business.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 6-K

Fourth quarter operating segment income increased 0.3% to Ps.4,807.8 million compared with Ps.4,792.4 million in fourth quarter 2011; the margin was 47.0%.

Full-year operating segment income increased 6.4% to Ps.15,411.1 million compared with Ps.14,480.7 million in 2011. The margin was in line with guidance at 46.9%. These results reflect higher revenues which were partially offset by i) the increase in production costs due to the coverage of the 2012 Olympics and the amortization of movies and TV series; ii) a negative translation effect on foreign-currency-denominated costs and expenses; and iii) an increase in operating expenses related to higher employee costs and agency commissions.

Publishing

Fourth quarter sales increased 2.6% to Ps.1,000.3 million compared with Ps.975.4 million in fourth quarter 2011.

Full year sales increased 8.2% to Ps.3,453.0 million compared with Ps.3,191.8 million in 2011. This increase reflects i) the increase in circulation and advertising revenue in Mexico and abroad; and ii) a positive translation effect on foreign-currency-denominated sales. In 2012 Mexico-derived revenues represented 38.7% compared with 40.8% in 2011.

Fourth quarter operating segment income decreased 15.3% to Ps.135.6 million compared with Ps.160.1 million in fourth quarter 2011, and the margin was 13.6%.

Full year operating segment income decreased 1.6% to Ps.447.6 million compared with Ps.454.7 million in 2011, and the margin was 13.0%. This decrease reflects higher editorial, paper and printing costs and a negative translation effect on foreign-currency-denominated costs and expenses.

Sky

Fourth quarter sales increased by 19.2% to Ps.3,810.5 million compared with Ps.3,196.2 million in fourth quarter 2011. During the quarter, Sky added a total of 270 thousand subscribers, mainly in Mexico.

Full year sales increased 15.9% to Ps.14,465.3 million compared with Ps.12,479.2 million in 2011. The annual increase was driven by solid growth in the subscriber base of more than 1.1 million, which is explained by the continued success of Sky's low-cost offerings, and the increase in pay-per-view revenues. As of December 31, 2012, the number of net active subscribers increased to 5,153,445 (including 164,669 commercial subscribers), compared with 4,008,374 (including 157,646 commercial subscribers) as of December 31, 2011. Sky closed the year with 182,415 subscribers in Central America and the Dominican Republic.

Fourth quarter operating segment income increased 13.8% to Ps.1,604.4 million compared with Ps.1,410.1 million in fourth quarter 2011, and the margin was 42.1%.

Full year operating segment income increased 13.3% to Ps.6,558.0 million compared with Ps.5,789.8 million in 2011, and the margin was 45.3%. These results reflect an increase in sales that was partially offset by higher costs and expenses inherent to the growth in the subscriber base, mainly in the lower-cost packages.

Cable and Telecom

Fourth quarter sales increased 9.8% to Ps.4,037.0 million compared with Ps.3,678.1 million in fourth quarter 2011 driven by growth in all of our cable platforms.

Full year sales increased 14.2% to Ps.15,570.4 million compared with Ps.13,635.4 million in 2011. In the aggregate, the three cable operations added 470 thousand revenue generating units

(RGUs) during the year as a result of the success of our competitive packages. Voice and data RGUs continued to be the main drivers of growth, growing 16.1% and 22.5% compared with 2011, respectively, while video RGUs expanded by 5.8%.

Year-over-year, Cablevisión, Cablemás, TVI and Bestel net sales increased 14.8%, 15.1%, 13.9%, and 11.5% respectively.

The following table sets forth the breakdown of subscribers for each of our three cable subsidiaries as of December 31, 2012.

	Cablevisión	Cablemás	TVI	Total
Video	787,054	1,147,007	374,733	2,308,794
Broadband	509,137	567,247	229,720	1,306,104
Voice	318,927	302,197	133,178	754,302
RGUs	1,615,118	2,016,451	737,631	4,369,200

Fourth quarter operating segment income increased 12.7% to Ps.1,579.1 million compared with Ps.1,401.0 million in fourth quarter 2011, and the margin increased to 39.1%. The margins in Bestel remained strong. This increase was driven by lower interconnection rates and a larger customer base.

Full year operating segment income increased 21.6% to Ps.5,812.8 million compared with Ps.4,778.6 million in 2011, and the margin increased to 37.3%. These results reflect continued growth in the cable platforms, and strong margins at Bestel. These favorable variances were partially offset by an increase in personnel costs and advertising spending during the year.

The following tables set forth the breakdown of revenues and operating segment income, excluding consolidation adjustments, for our four cable and telecom subsidiaries for 2012 and 2011.

2012

Millions of Mexican pesos	Cablevisión	Cablemás	TVI	Bestel
Revenue(1)	5,041.1	5,439.7	2,474.6	3,039.8
Operating Segment Income(1)	2,033.8	2,007.6	1,065.6	955.6
Margin	40.3%	36.9%	43.1%	31.4%

(1) These results do not include consolidation adjustments of Ps.424.8 million in revenues nor Ps.249.8 million in Operating Segment Income, which are considered in the consolidated results of Cable and Telecom.

2011

Millions of Mexican pesos	Cablevisión	Cablemás	TVI	Bestel

Margin	38.6%	38.4%	42.7%	21.1%

(2) These results do not include consolidation adjustments of Ps.381.9 million in revenues nor Ps.234.6 million in Operating Segment Income, which are considered in the consolidated results of Cable and Telecom.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 6-K

Fourth quarter sales increased 3.1% to Ps.1,060.5 million compared with Ps.1,028.7 million in fourth quarter 2011 driven mainly by our feature-film distribution, and gaming businesses.

Full year sales increased 10.1% to Ps.4,211.3 million compared with Ps.3,825.2 million in 2011. Businesses that performed well include feature-film distribution, radio, and gaming. The results of gaming were driven by the increase in promotions and the introduction of new gaming machines. The radio business benefited from an increase in advertising revenues. Finally, the feature-film distribution business distributed hits such as “The Hunger Games” and “The Woman in Black”.

Fourth quarter operating segment income reached Ps.15.3 million compared with a loss of Ps.87.9 million in fourth quarter 2011.

Full year operating segment income reached Ps.184.0 million compared with a loss of Ps.132.4 million in 2011, reflecting increases in the operating segment income of radio, and gaming; a shift from loss to income in feature-film distribution; and a smaller operating segment loss in our soccer business.

Corporate Expenses

Share-based compensation expense in 2012 and 2011 amounted to Ps.632.5 million and Ps.653.2 million, respectively, and was accounted for as corporate expense. Share-based compensation expense is measured at fair value at the time the equity benefits are conditionally sold to officers and employees, and is recognized over the vesting period.

Other Expense, Net

Other expense, net, increased by Ps.56.8 million, or 9.6%, to Ps.650.4 million for the year ended December 31, 2012, compared with Ps.593.6 million for the year ended December 31, 2011. The increase reflected primarily a higher loss on disposition of property and equipment, and an increase in other expense related to financial advisory and professional services.

Other expense, net, for the year ended December 31, 2012 included, primarily, loss on disposition of property and equipment, financial advisory and professional services, and donations.

Non-operating Results

Finance Expense, Net

The following table sets forth the finance expense, net, stated in millions of Mexican pesos for the years ended December 31, 2012 and 2011.

	2012	2011	Increase (decrease)
Interest expense	4,369.3	4,174.5	194.8
Interest income	(1,044.3)	(1,146.5)	102.2
Foreign exchange (gain) loss, net	(127.4)	713.6	(841.0)
Other finance expense, net	152.9	899.4	(746.5)
Finance expense, net	3,350.5	4,641.0	(1,290.5)

The finance expense, net, decreased by Ps.1,290.5 million, or 27.8 %, to Ps.3,350.5 million for the year ended December 31, 2012 from Ps.4,641.0 million for the year ended December 31, 2011. This decrease reflected primarily (i) a Ps.841.0 million favorable effect resulting from a foreign exchange gain for the year ended December 31, 2012 compared with a foreign exchange loss for the year ended December 31, 2011 in connection with a 8.1% appreciation of the Mexican peso against the US dollar on our average net US dollar unhedged liability position during 2012 compared with a 13.1% depreciation effect on our average net US dollar unhedged liability position during 2011; and (ii) a Ps.746.5 million decrease in other finance expense, net, primarily in connection with an upward adjustment in the fair value of our investment in BMP (Univision) convertible debentures in 2012, which was partially offset by an unfavorable change in the fair value of our investment in equity financial instruments that were converted into shares of GSF (Iusacell) in June 2012. These favorable variances were offset by a Ps.194.8 million increase in interest expense, due primarily to a higher average principal amount of total debt during 2012; and a Ps.102.2 million decrease in interest income explained primarily by a lower average amount of cash and cash equivalents and temporary investments in 2012.

Share of Losses of Jointly Controlled Entities and Associates, Net

Share of losses of jointly controlled entities and associates, net, increased by Ps.217.3 million, or 48.4 %, to Ps.666.6 million in 2012 from Ps.449.3 million in 2011. This increase reflected mainly the share of loss of GSF, the parent company of Iusacell in which we hold a 50.0% joint interest since June 2012, which effect was partially offset by the absence in 2012 of share of loss of La Sexta, a free-to-air television channel in Spain, in connection with the exchange of our 40.8% interest in La Sexta for a 14.5% participation in Imagina in first quarter 2012. Imagina is a significant provider of content and audiovisual services for the media and entertainment industry in Spain, and our investment in this company was recognized as an equity financial instrument.

Income Taxes

Income taxes increased by Ps.827.3 million, or 25.6 %, to Ps.4,053.4 million in 2012 compared with Ps.3,226.1 million in 2011. This increase reflected primarily a higher income tax base, which was offset by a lower effective income tax rate.

Net Income Attributable to Non-controlling Interests

Net income attributable to non-controlling interests increased by Ps.17.1 million, or 1.3 %, to Ps.1,308.5 million in 2012, compared with Ps.1,291.4 million in 2011. This increase reflected primarily a higher portion of net income attributable to non-controlling interests in our Cable and Telecom segment, which was partially offset by a lower portion of net income attributable to non-controlling interests in our Sky segment.

Adoption of International Financial Reporting Standards

Beginning on January 1, 2012, as required by regulations issued by the Mexican Bank and Securities Commission for listed companies in Mexico, we discontinued using Mexican FRS and adopted IFRS as issued by the International Accounting Standards Board for financial reporting purposes. As a result, our consolidated financial information for the three and twelve months ended December 31, 2012 is presented on a comparative and condensed basis in accordance with IFRS, and is not directly comparative with our consolidated financial information previously reported in accordance with Mexican FRS.

The impact of the initial adoption of IFRS as measured by the aggregate amount of adjustments made to our previously reported consolidated statements of financial position and income as of December 31, 2011 and for the year ended on that date, was less than 1% of total consolidated assets and stockholders' equity under Mexican FRS, and less than 3% of consolidated net income under Mexican FRS.

Explanatory Notes for the Main Differences Between IFRS and Mexican FRS as they relate to the Initial Adoption of IFRS

The main differences between IFRS and Mexican FRS as they relate to the initial adoption of IFRS in our condensed consolidated statements of financial position and income are related to:

1. The recognition of fair value provided by independent appraisals as deemed cost on selected real estate property owned by us as of January 1, 2011.
2. Adjustments made to the carrying value of certain non-current assets to eliminate the effects of inflation recognized under Mexican FRS as of January 1, 2011.
3. The deferred financing costs, primarily consisting of fees and expenses incurred in connection with the issuance of debt, are classified as part of the outstanding balance of debt under IFRS, and were classified as non-current assets under Mexican FRS.
4. The recognition of a long-term liability under IFRS for retirement of certain leasehold improvements classified in property, plant and equipment.
5. The IFRS adjustments to post-employment benefits in connection with the write-off of severance indemnities determined under Mexican FRS and the classification of unamortized actuarial gain or loss as part of other accumulated comprehensive income in consolidated equity.
6. The adjustments made to capital stock and additional paid-in-capital to eliminate the effects of inflation recognized under Mexican FRS.
7. The adjustments to accumulated other comprehensive income in consolidated equity in connection with the cumulative foreign currency translation loss as of January 1, 2011, which was classified as retained earnings at such date, and the change in fair value of an embedded derivative in a host contract, which amount was recognized as other finance expense in 2011 under IFRS.
8. The adjustments to retained earnings for those IFRS adjustments recognized as of January 1, 2011, the transition date for the initial adoption of IFRS.
9. Lower depreciation expense in connection with adjustments made to the carrying value of selected real estate property owned by us as of January 1, 2011.
10. Lower amortization expense in connection with adjustments made to the carrying value of certain intangible assets to eliminate the effects of inflation recognized under Mexican FRS as of January 1, 2011.
11. Adjustments related to post-employment benefits as a result of the write-off of severance indemnities to employees accrued under Mexican FRS as of January 1, 2011, and the recognition of actuarial gains or losses in other accumulated comprehensive income in consolidated equity under IFRS beginning January 1, 2011.
12. The presentation of consolidated operating income, which was determined before other expense under Mexican FRS, is now determined after other expense under IFRS.
13. The changes in fair value of derivative financial instruments that were presented as part of interest expense or foreign exchange gain or loss under Mexican FRS, is now presented as other finance income or expense under IFRS.

14. Adjustments in connection with the recognition and measurement at fair value of an embedded derivative in a host contract, which was not separated under Mexican FRS.

15. Adjustments to deferred income taxes related to temporary differences arising from IFRS adjustments.
