QUANTA STATEMENT ON PROPOSED UTILICORP NOMINEES

HOUSTON - FEBRUARY 22, 2002 - Quanta Services, Inc. (NYSE:PWR), a leading provider of specialized contracting services to the electric power, gas, telecommunications and cable television industries, today issued the following statement regarding UtiliCorp's (NYSE:UCU) proposed nominees for election to the Quanta board.

John Colson, Quanta's chief executive officer, said: "UtiliCorp has nominated a slate that it can so clearly dominate. It is difficult to imagine how UtiliCorp's hand-picked nominees could protect the rights and interests of the non-UtiliCorp shareholders who own more than 60 percent of Quanta's stock.

## Edgar Filing: QUANTA SERVICES INC - Form DFAN14A

Furthermore, UtiliCorp's nominees have virtually no useful operating experience in our business, and would displace existing directors who are responsible for hundreds of millions of dollars of Quanta's revenues."

Colson continued: "Six of UtiliCorp's nine proposed nominees are current executives of UtiliCorp or a controlled entity. All of the six are on UtiliCorp-controlled payrolls. Two of the nine - including UtiliCorp's president and CEO - are already designated by UtiliCorp to Quanta's board. Another of the nominees is a partner in a law firm that does work for UtiliCorp. Seven of the proposed nominees don't own any Quanta stock. And two of the nominees were named defendants in a shareholder lawsuit involving a company that UtiliCorp recently took public and then repurchased at a lower price."

Colson concluded: "As we have said previously, we intend to vigorously oppose UtiliCorp's actions. They have promised nothing concrete and their vague plans offer no real benefits or protections to Quanta's other shareholders. Our company is performing well - contrary to UtiliCorp's disingenuous public statements - and we recently reported record high fourth quarter cash flow. We are determined to protect the rights and interests of all of our shareholders."

Quanta Services, Inc. is a leading provider of specialized contracting services, delivering end-to-end network solutions for electric power, gas, telecommunications and cable television industries. The company's comprehensive services include designing, installing, repairing and maintaining network infrastructure nationwide.
