PROXY STATEMENT

Annual Meeting of Stockholders
To Be Held May 2, 2002

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Cabot Oil & Gas Corporation (the "Company") of proxies for use at its 2002 Annual Meeting of Stockholders, to be held at the Company's corporate headquarters, 1200 Enclave Parkway, Houston, Texas, on Thursday, May 2, 2002, at 10:00 a.m., or any adjournment or postponement thereof (the "Annual Meeting"), for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. You may revoke your proxy at any time prior to its use by a written communication to Ms. Lisa A. Machesney, Corporate Secretary of the Company, or by a duly executed proxy bearing a later date.

Stockholders attending the Annual Meeting may vote their shares in person even though they have already executed a proxy. Properly executed proxies not revoked will be voted in accordance with the specifications thereon at the Annual Meeting and at any adjournment thereof. Proxies on which no voting instructions are indicated will be voted FOR Proposals I, II and III and in the best judgment of the proxy holders on any other matters that may properly come before the meeting.

Only holders of record of the Company's Class A Common Stock, par value \$.10 per share ("Common Stock"), as of the close of business on March 14, 2002, are entitled to vote at the Annual Meeting. As of that date, the Company had outstanding and entitled to vote 31,605,585 shares of Common Stock. Each share of Common Stock is entitled to one vote per share. There is no provision for cumulative voting. A quorum for the consideration of business at the Annual Meeting consists of a majority of all outstanding shares of stock entitled to vote at the Annual Meeting. The Proxy Statement and form of Proxy are being first sent or given to security holders on or about March 27, 2002.

In accordance with Delaware law, a stockholder entitled to vote for the election of directors can withhold authority to vote for all nominees for director or can withhold authority to vote for certain nominees for director. Abstentions and broker non-votes (proxies submitted by brokers that do not indicate a vote for a proposal because they do not have discretionary voting authority and have not received instructions as to how to vote on that proposal) are counted as present in determining whether the quorum requirement is satisfied. For purposes of determining the outcome of any question as to which the broker has physically indicated on the proxy that it does not have discretionary authority to vote, these shares will be treated as not present and not entitled to vote with respect to that question, even though those shares are considered entitled to vote for quorum purposes and may be entitled to vote on other questions. Accordingly, because the vote required for amendment of the certificate of incorporation is a majority of the outstanding shares, abstentions and broker non-votes will have the same effect as votes against adoption. Because the vote required for approval of the other proposals is a majority of the shares present in person or by proxy at the meeting and entitled to vote on the proposal, abstentions will have the same effect as votes against the proposal, but broker non-votes will not affect the outcome of the voting on those proposals.

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

PROPOSAL I. ELECTION OF DIRECTORS

The Board of Directors is divided into three classes of directors serving staggered three-year terms. Dan O. Dinges, Arthur L. Smith and William P. In no event will the proxies be voted for more than the number of nominees set forth below.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF MESSRS. DINGES, SMITH AND VITITOE TO THE BOARD OF DIRECTORS.

PROPOSAL II.

APPROVAL OF AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED COMMON STOCK AND TO ELIMINATE THE CLASS B COMMON STOCK

DESCRIPTION OF PROPOSED AMENDMENT

The Board of Directors has approved, and is recommending to the stockholders for approval at the Annual Meeting, an amendment to Article IV of the Company's Certificate of Incorporation, which sets forth the terms of the Company's authorized capital stock. Article IV currently authorizes 40,000,000 shares of Class A Common Stock, par value \$.10 per share ("Class A Common Stock"), and 800,000 shares of Class B Common Stock, par value \$.10 per share ("Class B Common Stock"), as well as 5,000,000 shares of Preferred Stock, par value \$.10 per share. The Class B Common Stock, which has 3/16th of a vote per share, was issued to the Company's former sole stockholder prior to the Company's initial public offering in 1990, and was retired in 1991. The Company has not issued any shares of Class B Common Stock since that time.

The proposed amendment would (i) eliminate the Class B Common Stock from the Certificate of Incorporation and change the name of the Class A Common Stock to simply "Common Stock" and (ii) increase the authorized Common Stock from the 40,000,000 shares of Class A Common Stock currently authorized to 80,000,000 shares of Common Stock. The Board of Directors determined that this amendment is advisable and in the best interests of the Company and directed that the proposed amendment be submitted to the stockholders for their approval at the Annual Meeting. The full text of the proposed amendment to the Certificate of Incorporation is set forth in Appendix A to this Proxy Statement. If adopted by the stockholders, this amendment would become effective upon filing of an appropriate certificate of amendment with the Secretary of State of the State of

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

Delaware.

The additional shares of Common Stock authorized by the proposed amendment would have the same rights and privileges as the shares of Class A Common Stock currently authorized. The Common Stock has no preemptive rights to purchase Common Stock or other securities.

PURPOSES AND EFFECTS OF PROPOSED AMENDMENT

The Company issued 1,999,993 shares of Class A Common Stock in connection with its August 2001 acquisition of Cody Company. At February 1, 2002, 31,905,097 shares of Class A Common Stock were issued and outstanding and 3,078,734 shares of Class A Common Stock were reserved for issuance under the Company's stock option and other employee benefit plans. As a result, approximately 5,000,000 shares are available for issuance for future purposes. In this light, the Board of Directors deems it advisable to increase the Company's authorized Common Stock. The additional Common Stock to be authorized would be available for possible future financing and acquisition transactions, stock dividends or splits, employee benefit plans and other corporate purposes. Having such shares available for issuance in the future would give the Company greater flexibility and allow shares of Common Stock to be issued without the expense and delay of a special stockholders' meeting. The additional shares of Common Stock would be available for issuance without further action by the stockholders unless such action is required by applicable law or the rules of any stock exchange on which the Common Stock may be listed. The New York Stock Exchange, on which the Common Stock is listed, currently requires stockholder approval as a prerequisite to listing shares in certain instances, including in connection with acquisition transactions where the present or potential issuance of shares could result in an increase in the number of shares of common stock outstanding of at least 20%.

Other than for the possibility of issuing new shares of Common Stock under the Company's stock option or benefit plans, the Company has no present arrangements, commitments, understandings or pending negotiations for the issuance of additional shares of newly authorized Common Stock.

The Company has not proposed the increase in the authorized number of shares of Common Stock with the intention of using the additional shares for anti-takeover purposes, although the Company could theoretically use the additional shares to make more difficult or to discourage an attempt to acquire control of the Company. The Company is not aware of any pending or threatened efforts to acquire control of the Company.

9

REQUIRED VOTE

Approval of the proposal to eliminate the Class B Common Stock and increase the number of authorized shares of Common Stock by amending the Company's Certificate of Incorporation requires the affirmative vote of a majority of the shares outstanding on the record date. Votes may be cast FOR or AGAINST the proposal, and stockholders may also ABSTAIN from voting on the proposal. Because shares represented by abstentions or broker non-votes are considered outstanding, abstentions and broker non-votes will have the same effect as a vote AGAINST the proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR APPROVAL OF THE PROPOSED AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION.

PROPOSAL III.

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

APPOINTMENT OF INDEPENDENT AUDITORS

The Board of Directors, upon recommendation by the Audit Committee, has approved and recommended the appointment of PricewaterhouseCoopers LLP, independent public accountants, as auditors to examine the Company's financial statements for 2002. Neither such firm nor any of its associates has any relationship with the Company except in their capacity as auditors. The persons named in the accompanying proxy will vote in accordance with the choice specified thereon, or, if no choice is properly indicated, in favor of the designation of PricewaterhouseCoopers LLP as auditors of the Company.

A representative of PricewaterhouseCoopers LLP is expected to attend the Annual Meeting and to be available to respond to appropriate questions raised during the Annual Meeting. The representative will also have an opportunity to make a statement during the meeting if the representative so desires.

See Audit Committee Report on page 18 for further information.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF THE APPOINTMENT OF THE FIRM OF PRICEWATERHOUSECOOPERS LLP, INDEPENDENT CERTIFIED PUBLIC ACCOUNTS, AS AUDITORS OF THE COMPANY FOR ITS 2002 FISCAL YEAR.

PENSION PLAN TABLE

Company employees are covered by the Company's Pension Plan (the "Pension Plan"), a noncontributory defined benefit plan that provides benefits based generally upon the employee's compensation levels during the last years of employment. In addition, the Company has entered into agreements to supplement the benefits payable to certain officers to the extent benefits under the Pension Plan are limited by provisions of the Internal Revenue Code of 1986, as amended (the "Code"), or the Employee Retirement Income Security Act of 1974, as amended. The following table sets forth estimated annual benefits payable for eligible employees (including executive officers) who retire at age 65 under the Pension Plan (and, where applicable, such supplemental agreements) for specified earnings and years of service classification. Amounts shown are for employees (including all persons listed in the Summary Compensation Table) who were not "grandfathered" under the Pension Plan (based on years of service and age) as of September 30, 1988.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

INTRODUCTION

The Compensation Committee and the Compensation Subcommittee of the Board of Directors administer the Company's compensation programs. The Compensation Committee (the "Committee") is comprised of four non-employee directors: Mr. Nance, Chairman, and Messrs. Boswell, Smith and Vititoe. The Committee has responsibility for determining the salaries, annual incentive compensation and other remuneration of the officers of the Company who are also directors; and for reviewing and approving the salaries, annual incentive compensation and other remuneration of all other officers of the Company. The Committee also approves the design of the Company's compensation and benefit plans. The Compensation Subcommittee (the "Subcommittee") is comprised of three non-employee directors: Mr. Nance, Chairman, and Messrs. Boswell and Vititoe. The Subcommittee administers the Company's long-term incentive plans for officers and employees.

15

The objectives of the executive compensation program are to align compensation with business strategy, to create value for the stockholders, to attract, retain, motivate and reward highly qualified executives and to support a performance-based culture throughout the Company.

The Committee also believes that executive compensation should be subject to objective scrutiny. Consequently, the Committee retains the services of an independent consultant, who on a regular basis evaluates the compensation programs and practices for the Company's executive officers against an industry peer group.

COMPONENTS OF COMPENSATION

The Committee relates total compensation levels for the Company's senior executives to the compensation paid to executives of a peer group of companies. This peer group consists of companies that are in the same industry and are considered by the Committee to be competitors for investment dollars in the energy sector of the market. The Committee reviews and approves the selection of the peer companies used for compensation comparison purposes. The companies chosen for the peer group generally are not the same companies which comprise the Dow Jones Secondary Oils Index, shown in the Performance Graph included in this proxy statement. The Committee believes that the Company's competitors for executive talent are not necessarily all of the companies included in the Dow Jones Secondary Oils Index used for comparing stockholder returns. Competition for talent is not limited to the size of the organization. Therefore, the Committee takes into account larger and smaller market capitalization firms in its selection of the peer group.

The components of the Company's executive compensation program are base

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

salary, annual incentive bonus and long-term incentives. These components are described below. In determining each component of compensation, the Committee or the Subcommittee (for long-term incentives) consider competitive data from the peer group and the overall value of the total compensation package. The Committee and the Subcommittee believe that the total compensation package should be competitive and targeted at the median level of compensation for the peer group and that superior performance should produce a corresponding increase in value for annual and long-term incentives.

BASE SALARIES

The Committee reviews each executive's base salary annually. Base salaries are targeted at market levels and are adjusted by the Committee to recognize varying levels of responsibility, prior experience, breadth of knowledge, internal equity issues and external pay practices. Base salaries in 2001 for the executive officers named in the Summary Compensation Table as a group approximate the 50th percentile of the predicted competitive market base salary for similar positions in the peer group. Mr. Seegmiller's base salary of \$410,000 was increased to \$430,000 in 2001. This salary approximates the 50th percentile of the competitive market for his position and reflects his depth of experience as a Chief Executive.

ANNUAL INCENTIVE BONUS

The Annual Target Cash Incentive Plan promotes the Company's pay-for-performance philosophy by providing executives, as well as other key employees, with incentives in the form of annual cash bonuses to achieve corporate business and individual performance goals. Annual bonus opportunities allow the Company to communicate specific goals that are of primary importance during the coming year and motivate executives to achieve these goals. The current measurement criteria used in the Annual Target Cash Incentive Plan are designed to recognize that certain factors which impact performance are controllable, while others are not controllable, and to reward executives for superior performance against those factors which are deemed controllable. These factors measure both short-term success and long-term value creation.

The bonus pool that can be generated under the Annual Target Cash Incentive Plan is subject to a two-part threshold. For each of the threshold tests that are met, one-half of the bonus potential becomes available. The two threshold tests are: (i) annual cash flow for the Company must equal or exceed two times debt service, with debt service including interest and dividend payments, but excluding originally scheduled principal payments unless the Company's total borrowing capacity is diminished at the time of the principal repayment; and (ii) the Company must achieve positive earnings, after the inclusion of an accrual for the contemplated bonus payment. These thresholds are approved annually by the Committee in conjunction with its approval of each bonus plan participant's incentive target percentage.

If one or both of the two threshold tests is met, the bonus pool is determined by measuring each business unit's performance and the total Company performance against two factors: (i) 75% of the bonus earned is measured on budgeted discretionary cash flow targets adjusted for non-controllable items, such as commodity prices, interest rates and non-

recurring items and (ii) 25% of the bonus earned is measured through an assessment of overall reserve replacement, factoring in the costs associated with adding these reserves. The Chief Executive Officer has discretion to adjust this factor from 0 to 50% based upon an evaluation of reserves replacement and finding costs. The Committee then has the discretion to adjust, on a subjective

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

basis, the final overall bonus pool for any business unit and the final bonus payment for any participant to reflect its assessment of the unit's and the participant's performance. If a bonus pool is generated based upon achievement of the established Company goals, executives earn bonuses to the extent of the performance of their primary business unit and the Company's overall performance. Individual incentive target percentage opportunity is set at the median of market levels based on peer data and at a level considered by the Compensation Committee to be appropriate.

In 2001, both threshold tests were met. The Company's performance ranked the best in the Company's history as a public company. Based upon total Company performance, and the performance of each business unit, the formula in the bonus plan produced bonuses ranging from 82.5% to 135.3% of the pre-established bonus targets for the executive officers of the Company, including the executives named in the above tables. The Committee then applied its discretion to recognize several accomplishments during the year. These accomplishments include record production growth of 21%, including 12% from drilling and 9% from the Cody Company acquisition, marking the first time the Company has shown double digit, organic production growth; and record financial results in both absolute and per share terms, including \$47.1 million net income, or \$1.50 per share, and \$230.5 million discretionary cash flow, or \$7.61 per share. This resulted in cash bonus payments ranging from 89% to 143% of the pre-established bonus targets to the executive officers of the Company, including the executive officers named in the above tables. Mr. Seegmiller received a cash bonus of \$350,000. This represents 125% of Mr. Seegmiller's target and recognizes the same factors in the Company's 2001 performance that were applied to the entire group of executive officers.

LONG TERM INCENTIVES

In 2001, the Subcommittee used a combination of stock options and restricted stock to provide long-term incentives to the Company's executives. The Subcommittee's objective was to deliver approximately 60% of the long-term incentive value via stock options and approximately 40% in the form of restricted stock. The size of the long-term incentive awards is based primarily on competitive practice and is generally targeted to be at the 50th percentile of values granted by the peer group. The Subcommittee does not typically consider the amount of options previously granted and outstanding when determining the size of stock option grants to executive officers.

Stock options are granted under the Second Amended and Restated 1994 Long-Term Incentive Plan at an option price not less than the fair market value of the Common Stock on the date of grant. Accordingly, stock options have value only if the stock price appreciates after the date the options are granted. This design focuses executives on the creation of stockholder value over the long-term and encourages equity ownership in the Company.

Restricted stock awards are granted under the Second Amended and Restated 1994 Long-Term Incentive Plan. The Company's restricted stock awards to executives in 2001 consisted of grants of Common Stock, the restrictions on which lapse in full three years from the date of the grant. The restricted stock will be forfeited if, during the three-year restrictive period, the executive leaves the Company for any reason other than retirement, termination without cause, death or disability. Prior to the lapse of such restrictions, the participant has no right to vote or receive dividends on such shares. The restricted stock award may not be assigned or transferred except by will or the laws of descent and distribution. In the event of a Change of Control (as defined), the restrictive period shall lapse and a stock certificate representing the shares of restricted stock shall be issued to the executive. In the event of any merger, reorganization, recapitalization, separation, liquidation, stock dividend, split-up, share combination or other change in the corporate structure of the Company affecting the shares of restricted stock, the

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

number of shares of restricted stock shall be equitably adjusted by the Subcommittee to prevent dilution or enlargement of rights.

In 2001 Mr. Seegmiller was granted an option to purchase 65,000 shares of Common Stock with an exercise price of \$27.30 and a restricted stock award of 16,000 shares in accordance with the competitive market data.

17

The Company's stock options are intended to constitute "qualified performance based compensation" as defined under Section 162(m) of the Code, with the effect that the deduction disallowance of Section 162(m) of the Code should not be applicable to compensation paid to covered employees under the stock option provisions. It is the Committee's and the Subcommittee's intent that the majority of long-term incentive awards will qualify under Section 162(m) of the Internal Revenue Code. To date the Company has experienced no loss of tax deduction as a result of 162(m).

CONCLUSION

The Committee and the Subcommittee believe these executive compensation policies and programs serve the interests of stockholders and the Company effectively. The various pay vehicles offered are appropriately balanced to provide increased motivation for executives to contribute to the Company's overall future success, thereby enhancing the value of the Company for the stockholders' benefit. We will continue to monitor the effectiveness of the Company's total compensation program to meet the current needs of the Company.

AUDIT COMMITTEE REPORT

The Audit Committee is composed of five non-employee directors. The Board of Directors has made a determination that the members of the Audit Committee satisfy the requirements of the New York Stock Exchange as to independence, financial literacy and experience. The responsibilities of the Audit Committee are set forth in the Charter of the Audit Committee, which was adopted on May 9, 2000 and revised on February 19, 2002 by the Board of Directors of the Company. The Audit Committee, among other matters, is responsible for annually recommending the independent accountants to be appointed by the Board of Directors as the auditors of the Company and its subsidiaries, and reviewing the arrangements for and the results of the auditors' examination of the Company's books and records, auditors' compensation, internal accounting control procedures, and activities and recommendations of the Company's internal auditors. It also reviews the Company's accounting policies, control systems and compliance activities. The Audit Committee also reviews the Charter of the Audit Committee. This is a report on the Audit Committee's activities relating to the calendar year 2001.

REVIEW OF AUDITED FINANCIAL STATEMENTS WITH MANAGEMENT

The Audit Committee reviewed and discussed the audited financial statements with the management of the Company.

REVIEW OF FINANCIAL STATEMENTS AND OTHER MATTERS WITH INDEPENDENT ACCOUNTANTS

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

The Audit Committee discussed with the independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU Section 380). The Audit Committee has received and reviewed the written disclosures and the letter from PricewaterhouseCoopers, LLP ("PWC"), the Company's independent accountants, required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and has discussed with PWC the independent accountant's independence. These discussions included a review of all audit and non-audit services (including internal audit and tax services) provided by PWC to the Company.

RECOMMENDATION THAT FINANCIAL STATEMENTS BE INCLUDED IN ANNUAL REPORT

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year 2001 for filing with the Securities and Exchange Commission.

18

AUDIT FEES

The Company was billed an aggregate of \$330,000 in professional fees and out-of-pocket costs by its auditors, PWC, to audit the Company's financial statements for the year ended December 31, 2001 and to review financial information included in the Company's Forms 10-Q.

FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES

PWC performed no financial information systems design and implementation services during 2001.

ALL OTHER FEES

Total fees and out-of-pocket costs billed by PWC for other services rendered in 2001 were \$696,000. These other services were comprised of tax compliance and other tax related items (\$250,000), consultations regarding the Company's acquisition of Cody Company (\$224,000), internal audit services (\$183,000) and audits of the Company's benefit plans (\$39,000). The Audit Committee and Board of Directors are aware that PWC provides these services to the Company and considered whether the provision of these services is compatible with maintaining PWC's independence.

OTHER MATTERS

On February 18, 2002 the Audit Committee decided to take actions consistent with the SEC's revised rules on auditor independence prior to the required adoption date. As a result, the Audit Committee determined that, commencing with the 2002 Internal Audit Plan, PWC will perform no financial control related internal audits, maintaining only the operations related internal audits. In the interest of promoting investor confidence in the Company, the Audit Committee determined to take additional actions, not required by the new rules, so that commencing with the 2003 Internal Audit Plan, the Audit Committee will select a new independent auditing firm to perform the Company's remaining internal audit function.

EMPLOYMENT AGREEMENTS AND CHANGE IN CONTROL ARRANGEMENTS

The Company has entered into Change in Control Agreements (the "Agreements") with the current executive officers named in the Summary Compensation Table, and with seven other officers of the Company. The Agreements are intended to encourage such employees to remain in the employ of and to carry out their duties with the Company. In 2001 the Board of Directors made certain revisions to the program initially implemented in 1995. The term of the Agreements is three years from July 17, 2001 (from September 17, 2001 for Mr. Dinges), subject to automatic one-year extensions on the second and each subsequent anniversary thereof unless prior to such anniversary the Company gives written notice that the term shall not be so extended. The Agreements provide that in the event of a change in control or in the event deemed to be in anticipation of a change in control, such individuals will receive certain benefits in the event of a termination of their employment within two years of such event. A "change in control" is generally defined as occurring if (i) any "person" becomes the "beneficial owner," of securities of the Company representing 35% or more of common stock or of the combined voting power of the then outstanding voting securities of the Company, with certain exceptions; (ii) individuals who, as the date of the Agreement, constitute the Board, together with individuals nominated with the approval of those directors (other than in connection with an election contest) (collectively, the "Incumbent Board") cease to constitute at least a majority of the Board; (iii) a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company (a "Business Combination") is consummated, unless, following the Business Combination (a) all or substantially all of the individuals and entities who were the beneficial owners of the common stock and outstanding voting securities immediately prior to the Business Combination beneficially own, directly or indirectly, more than 50% of the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the entity resulting from the Business Combination in substantially the same proportions as their ownership, immediately prior to the Business Combination, of the Common Stock and outstanding voting securities, (b) no "person" (excluding any entity resulting from such Business Combination) beneficially owns, directly or indirectly, 35% or more of the then outstanding shares of common equity of the

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

entity resulting from such Business Combination or the combined voting power of the then outstanding voting securities of such entity except to the extent that such ownership existed prior to the Business Combination and (c) at least of majority of the members of the board of directors of the corporation, or the similar managing body of a non-corporate entity, resulting from such Business Combination were members of the Incumbent Board at the time of execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or (iv) approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

Benefits are provided under the Agreements unless such termination of employment is (i) for cause (as defined in the Agreements), (ii) voluntary by the executive and does not constitute a constructive termination without cause (as defined in the Agreements), or (iii) because of the death or disability of the executive.

Generally, benefits payable under the terms of the Agreements include (i) a lump-sum cash payment equal to three times the sum of (a) base salary in effect immediately prior to the change in control or, if greater, immediately prior to the executive's termination and (b) the greater of (1) 100% of the executive's target bonus with respect to the fiscal year during which the change in control occurred or, if greater, the fiscal year during which the executive's termination occurred or (2) the executive's actual bonus paid in the fiscal year immediately preceding the change in control or if termination of employment occurs prior to a "change in control," termination of employment, (ii) payment with respect to any performance shares granted to the executive, such payment to be prorated based on actual service completed at the time of the executive's termination, and valued according to the percentage of goal attainment on the date of termination, (iii) immediate vesting and exercisability of all of the executive's options to purchase securities of the Company, (iv) immediate vesting and lapse of restrictions on any restricted stock grants outstanding at the time of the executive's termination, (v) subject to the payment of the applicable premiums, continued medical, dental and life insurance coverage for three years following the date of the executive's termination, (vi) effective crediting of an additional three years of service in the Company's retirement plans in which the executive is participating at the time of the change in control and (vii) outplacement assistance in an amount not to exceed 15% of the executive's base salary in effect on the date of a change in control (the "Termination Benefits"). In the event the excise tax relating to Section 280G of the Code applies to payments by the Company, the Company will make an additional payment to the executive in an amount such that after payment of income and excise taxes, the executive retains an amount equal to the Termination Benefits. No payments have been made under the Agreements.

The Company has entered into both an employment agreement and a Change in Control Agreement with Mr. Ray R. Seegmiller, Chairman and Chief Executive Officer of the Company. The employment agreement provides that if Mr. Seegmiller terminates his employment for good reason (as defined in the agreement) or the Company terminates his employment for any reason other than cause (as defined in the agreement), Mr. Seegmiller shall receive 12 months of base salary, as well as continuation of all applicable benefit programs. Under the terms of Mr. Seegmiller's Change in Control

20

Agreement, in the event of a termination, Mr. Seegmiller will be required to elect between receiving the Termination Benefits or the amounts payable to Mr. Seegmiller under his employment agreement.

In anticipation of Mr. Seegmiller's retirement from the Company effective June 1, 2002, the Compensation Committee approved a lump sum cash payment of

Edgar Filing: CABOT OIL & GAS CORP - Form DEF 14A

\$910,000 to be paid to Mr. Seegmiller on May 31, 2002 in recognition of his current employment agreement provisions, his contributions to the Company and in lieu of any long term incentive awards in 2002. Mr. Seegmiller will also receive a lump sum payment under his existing supplemental executive retirement plan of \$1,665,290. This amount is enhanced as the result of inclusion in the benefit calculation the value of certain restricted stock awards made in 1995 and 1997, and the \$910,000 payment described above. Also in anticipation of Mr. Seegmiller's retirement, the Compensation Subcommittee accelerated to May 2, 2002, the lapsing of restriction on the restricted stock granted to Mr. Seegmiller on May 9, 2000 and May 2, 2001. On May 9, 2000 and May 2, 2001, Mr. Seegmiller was granted 30,000 and 16,000 shares of restricted stock, respectively, the restriction on which would have lapsed May 9, 2003 and May 2, 2004, respectively. The Compensation Subcommittee also accelerated to May 2, 2002, the vesting of all unvested stock options granted to Mr. Seegmiller under the Second Amended and Restated 1994 Long-Term Incentive Plan. Mr. Seegmiller will continue to receive a number of employee benefits (including life, medical and dental insurance, financial counseling and club dues) for one year after his retirement, as provided by his employment agreement.

The Company has entered into both an employment agreement and a Change in Control Agreement with Mr. Dan O. Dinges, a Director and President and Chief Operating Officer of the Company. The employment agreement provides that if Mr. Dinges terminates his employment for good reason (as defined in the agreement) or the Company terminates his employment for any reason other than cause (as defined in the agreement), Mr. Dinges shall receive (i) a lump sum cash payment equal to two times his annual base salary plus two times his annual target bonus, (ii) a 24 month continuation of medical and life insurance programs at the premium rate applicable to active executives, (iii) full vesting of all of his restricted stock awards and (iv) full vesting of all of his stock option awards. Under the terms of Mr. Dinges' Change in Control Agreement, in the event of a termination, Mr. Dinges will be required to elect between receiving the Termination Benefits or the amounts payable to Mr. Dinges under his employment agreement.
