BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. for their information. This is not a prospectus. Past performance results shown in these reports should not be considered a representation of future performance. The Funds have leveraged their Common Shares/Stock and intend to remain leveraged by issuing Preferred Shares/Stock to provide the Common Shareholders/Common Stock shareholders with potentially higher rates of return. Leverage creates risks for Common Shareholders/Common Stock shareholders, including the likelihood of greater volatility of net asset value and market price of shares of the Common Shares/Stock, and the risk that fluctuations in the short-term dividend rates of the Preferred Shares/Stock may affect the yield to Common Shareholders/ Common Stock shareholders. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1-800-441-7762; (2) at [www.blackrock.com](http://www.blackrock.com); and (3) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. Information about how the Funds vote proxies relating to securities held in the Funds' portfolios during the most recent 12-month period ended June 30 is available (1) at [www.blackrock.com](http://www.blackrock.com); and (2) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

### Important Tax Information

All of the net investment income distributions paid by BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. during the taxable year ended October 31, 2006 qualify as tax-exempt interest dividends for federal income tax purposes.

Additionally, the following summarizes the taxable per share distributions paid by BlackRock MuniYield Arizona Fund, Inc. during the year:

	Payable Date	Long-Term Capital Gains
Common Stock Shareholders	12/29/2005	\$0.116480
Preferred Shareholders:		
Series A	11/17/2005	\$20.62
	11/25/2005	\$24.46
	12/01/2005	\$19.56

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Series B	11/15/2005	\$19.83
	11/22/2005	\$20.62
	11/29/2005	\$22.19
	12/06/2005	\$ 2.82
Series C	12/19/2005	\$13.88

### Swap Agreements

The Funds may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds, or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a bond or market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom each Fund has entered into a swap will default on its obligation to pay the Fund and the risk that the Fund will not be able to meet its obligations to pay the other party to the agreement.

### Announcement of Annual Stockholders Meeting

Each Fund has determined that its annual stockholders meeting originally scheduled to be held in April 2007 will be postponed until, and will be held in, June 2007. Proposals of stockholders intended to be presented at the meeting must be received by each Fund by February 15, 2007 for inclusion in the Fund's proxy statement and form of proxy for that meeting. The persons named as proxies in the proxy materials for each Fund's 2007 annual meeting of stockholders may exercise discretionary authority with respect to any stockholder proposal presented at such meeting if written notice of such proposal has not been received by the Funds by April 1, 2007. Written proposals and notices should be sent to the Secretary of the Fund, 800 Scudders Mill Road, Plainsboro, New Jersey 08536.

ANNUAL REPORTS

OCTOBER 31, 2006

### A Letter to Shareholders

Dear Shareholder

Ten months into 2006, we are able to say it has been an interesting year for investors. After a volatile start and far-reaching mid-year correction, the financial markets regained some positive momentum through late summer and fall. For the six- and 12-month periods ended October 31, 2006, most major market indexes managed to post positive returns:

Total Returns as of October 31, 2006

6-month

12-month

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

U.S. equities (Standard & Poor's 500 Index)	+6.11%	+16.34%
Small cap U.S. equities (Russell 2000 Index)	+0.90	+19.98
International equities (MSCI Europe, Australasia, Far East Index)	+3.77	+27.52
Fixed income (Lehman Brothers Aggregate Bond Index)	+4.60	+ 5.19
Tax-exempt fixed income (Lehman Brothers Municipal Bond Index)	+4.12	+ 5.75
High yield bonds (Credit Suisse High Yield Index)	+4.66	+10.29

The Federal Reserve Board (the Fed), after raising the target short-term interest rate 17 times between June 2004 and June 2006, finally opted to pause on August 8, 2006. This left the federal funds rate at 5.25%, where it remained through the September and October Fed meetings. In interrupting its two-year rate-hiking campaign, the Fed acknowledged that economic growth is slowing, led by softness in the housing market. However, the central bankers continue to take a cautionary position on inflation, despite a decline in energy prices in recent months. At the time of this writing, the price of oil had settled into the \$60-per-barrel range after reaching nearly \$78 per barrel earlier in the year.

Notwithstanding the mid-year correction, equity markets generally found support in solid corporate earnings reports in the first three quarters of the year. Overall corporate health, including strong company balance sheets, helped to sustain robust dividend-distribution, share-buyback and merger-and-acquisition activity. Many international equity markets fared equally well or better, thanks in part to higher economic growth rates and low inflation.

In the U.S. bond market, prices declined for much of the year as investors focused on decent economic activity and inflation concerns. Bond prices began to improve in late June as the economy showed signs of weakening and inflation pressures subsided. Notably, the Treasury curve inverted periodically, a phenomenon typically associated with periods of economic weakness. At the end of October, the one-month Treasury bill offered the highest yield on the curve at 5.18%, while the 30-year Treasury bond had a yield of 4.72%.

Amid the uncertainty inherent in the financial markets, we encourage you to review your goals periodically with your financial professional and to make portfolio changes, as needed. For additional insight and timely "food for thought" for investors, we also invite you to visit Shareholder magazine at [www.blackrock.com/shareholdermagazine](http://www.blackrock.com/shareholdermagazine). We are pleased to make our investor-friendly magazine available to you online. We thank you for trusting BlackRock with your investment assets, and we look forward to continuing to serve your investment needs.

Sincerely,

(Robert C. Doll, Jr.)

A Discussion With Your Funds' Portfolio Managers

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

The Funds continued to focus on the dual goals of providing a generous current income accrual and muting price volatility, while maintaining a high degree of credit quality within each portfolio.

Describe the recent market environment relative to municipal bonds.

Supported by a positive technical backdrop, municipal bonds managed to significantly outperform their taxable counterparts for the 12-month period ended October 31, 2006. Despite considerable volatility, taxable bond yields were little changed over the past year. Tax-exempt bonds, in the meantime, saw their yields decline (as prices, which move opposite of yields, rose).

For much of the first half of the fiscal period, longer-maturity U.S. Treasury bond yields rose (and prices declined) as investors focused on strong U.S. economic activity and inflationary concerns triggered by rising oil prices. By mid-May 2006, the yield on 30-year U.S. Treasury bonds had risen more than 70 basis points (.70%) to 5.31%. Bond prices began to improve in late June as economic activity weakened and inflationary pressures subsided. Bond price improvement accelerated after the Federal Reserve Board (the Fed) refrained from raising the target interest rate at its August 8 meeting, a move that came after 17 consecutive interest rate hikes since June 2004. Recent declines in oil prices, and especially gasoline prices, helped to reverse earlier inflationary concerns and support higher bond prices. Over the 12-month period, 30-year U.S. Treasury bond yields fell four basis points to 4.72%, while 10-year Treasury yields rose four basis points to 4.61%.

Meanwhile, the municipal bond market found support in declining new-issue volume and increasing investor demand. As reported by Municipal Market Data, yields on AAA-rated municipal issues maturing in 30 years declined 52 basis points to 4.07% over the past 12 months. Shorter maturities experienced smaller yield declines, with yields on AAA-rated municipal issues maturing in 10 years falling 28 basis points to 3.64%.

Demand for municipal product by retail and institutional investors has remained very strong despite the recent decline in bond yields. The strong demand is reflected in continued flows into long-term, tax-exempt mutual funds. As reported by the Investment Company Institute, long-term municipal bond funds saw net new cash inflows of more than \$1.3 billion during September 2006, a material increase from \$344 million in July and \$283 million in June. During the first nine months of 2006, long-term tax-exempt bond funds had net new cash flows of over \$9.6 billion, a 43% increase compared to the same period a year earlier. Recent weekly fund flows, reported by AMG Data, averaged \$416 million in October 2006, well above the July average of \$247 million and the year-to-date weekly average of \$315 million.

Also supporting municipal bond price improvement has been a decline in new issuance. In the first 10 months of 2006, more than \$295 billion in new long-term municipal bonds was underwritten, a decline of over 12.5% versus the same period a year ago. Notably, after declining for much of the year, refunding activity increased slightly in October as the lower interest rate environment sparked an increase in refinancing activity. On a year-to-date basis, however, refunding activity has declined over 50% relative to last year's refunding issuance.

Looking ahead, the positive technical framework in the municipal marketplace suggests that the tax-exempt market should continue to perform well. New supply is expected to remain manageable and tax-exempt bond yield ratios remain in their recent range of 86% - 89% of comparable long-term U.S. Treasury yields, well within their recent historic norms. These ratios argue for continued strong demand from non-traditional, arbitrage-related accounts, which continue to be attracted to the municipal bond market given its

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

relatively steep yield curve. Taken together, these factors suggest that the municipal market is poised to continue to perform well as we approach year-end.

BlackRock MuniYield Arizona Fund, Inc.

Describe conditions in the State of Arizona.

The state's fiscal year 2007 budget was signed by Governor Janet Napolitano on June 21. At slightly less than \$10 billion, budgeted expenditures are nearly 11% more than in the previous year. The budget projects a General Fund surplus of \$69.1 million, not including one-time revenues and expenditures. The final package includes \$370 million in income- and property-tax relief, significantly larger than the governor's original proposal of \$100 million. This represents the largest tax-cut package in Arizona history and was the source of contentious debate, as the governor and the legislature explored options for responding to the state's growing surpluses in recent years. The final budget also applies \$100 million toward pay raises for teachers, a \$1.9 billion package to strengthen border security, and allocates monies to the budget stabilization fund.

ANNUAL REPORTS

OCTOBER 31, 2006

For the first two months of fiscal year 2007, major categories of revenues continued their pattern of growth, with sales and income taxes increasing 5.8% and 7.5%, respectively. Although this is solid growth, it does represent a slowdown from last year. In addition, revenue collections for this time period came in \$5.8 million below budget. More data is needed to determine whether this lower rate of growth is a persistent trend. Even if this slowing trend does continue, we would expect the Arizona economy to continue to experience moderate growth.

In early October, the Goodyear City Council unanimously approved a contract with the Cleveland Indians that calls for the baseball team to move spring training to a new bond-financed facility in 2010. Plans call for the Arizona Sports and Tourism Authority, which had previously issued debt to finance the new Arizona Cardinals stadium and other baseball spring training facilities, to finance two-thirds of the cost, with the city issuing bonds for the remainder. The amount and terms of the bonds have not been finalized.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Stock of BlackRock MuniYield Arizona Fund, Inc. (formerly MuniYield Arizona Fund, Inc.) had net annualized yields of 5.40% and 5.30%, based on a year-end per share net asset value of \$14.53 and a per share market price of \$14.79, respectively, and \$.784 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +7.47%, based on a change in per share net asset value from \$14.39 to \$14.53, and assuming reinvestment of all distributions.

We maintained a fully invested position throughout the year, which allowed the Fund to provide shareholders with an above-average yield and to take full advantage of the bond market rally that ensued once the Fed stopped raising interest rates, thereby enhancing total return as well. Also contributing to

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

the Fund's results was our exposure to lower-quality, higher-yielding credits, which were among the market's top performers, particularly in the second half of the year. Most notably, our position in uninsured municipal debt issued by Puerto Rico performed very well after the commonwealth announced in early July that it would impose its first sales tax in an effort to generate revenue to close its budget shortfall. Puerto Rico issues are tax-exempt in all 50 states, and we are attracted to them for their relatively attractive yields, liquidity and diversification benefits, a particularly important consideration in a single-state portfolio.

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Stock was +5.63%, based on a change in per share net asset value from \$14.12 to \$14.53, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the American Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

Municipal bonds fared quite well during the year, supported by low new issuance, healthy investor demand and strong performance relative to the taxable bond market. We did not make significant changes to the portfolio's composition or our investment strategy during the fiscal period. As always, we focused on our dual goals of muting price volatility in the portfolio while also generating a generous income accrual for our shareholders. We felt this was accomplished through the Fund's current structure and found little incentive to make significant changes.

In Arizona, new municipal bond issuance was down nearly 50% compared to the same 12 months a year ago. Given the limited supply in the market, and the generally low coupons available on new issues, there were few compelling opportunities to restructure the portfolio. For the most part, we found that most of the securities held in the portfolio have higher yields than those currently available in the market. Having said that, we did take advantage of a limited number of small, higher-yielding issues that came to market. These bonds performed well as credit spreads (versus higher-quality issues of comparable maturity) tightened.

ANNUAL REPORTS

OCTOBER 31, 2006

A Discussion With Your Funds' Portfolio Managers (continued)

Overall, we maintained a fairly neutral duration profile for most of the period and a fully invested stance. Both of these factors aided performance, particularly as the bond markets embarked on a strong rally in the final three months of the period.

For the six-month period ended October 31, 2006, the Fund's Auction Market

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Preferred Stock had an average yield of 3.20% for Series A, 3.22% for Series B and 3.29% for Series C. The Fed raised short-term interest rates six times during the 12-month period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the Fed's interest rate increases during the period, the municipal yield curve remained positively sloped and continued to generate an income benefit to the Common Stock shareholder from the leveraging of Preferred Stock. However, should the spread between short-term and long-term interest rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

We remained fully invested at period-end and fairly neutral with respect to interest rate risk. The bond market has come a long way in recent months, despite some uncertain rhetoric from the Fed. The central bankers acknowledge that the economy is slowing, led by a sharp deceleration in housing, but continue to take a cautionary tone on inflation. Against this backdrop, we believe a neutral stance is appropriate. We will look to sell into strength as the market presents opportunities, particularly at the longer end of the curve. We also continue to explore opportunities back down the curve in the 15-year - 20-year range. We have found that we can move five years - 10 years down the curve without sacrificing a significant amount of yield. Given the degree of yield-curve flattening that has occurred over the course of the Fed's interest rate-hiking campaign, we believe this maturity range could perform well in the future.

Finally, while we generally work within the municipal cash marketplace, we may employ hedging strategies in some cases to achieve our duration targets without disturbing the structure of the portfolio. We believe this is a prudent option given the lack of available supply and relatively low yields currently available in the municipal market, allowing us to target our desired duration without giving up attractively structured bonds that contribute meaningfully to the Fund's distribution rate. In keeping with our underlying investment goals, such strategies will be employed within the broader framework of muting price volatility and enhancing current income for our shareholders.

BlackRock MuniYield California Fund, Inc.

Describe conditions in the State of California.

The State of California's financial climate continues to benefit from the overall U.S. economic up-tick, resulting in a sizable budgetary cash position compared to the deficits experienced in past years. The fiscal year 2007 budget was adopted on time for the first time in a number of years, due in part to a recent surge in revenues. Still, the budget includes substantial spending growth and the overall structural deficit remains, which will limit further rating improvements for the state's general obligation bonds.

News for the second half of the reporting period was dominated by the gubernatorial election between incumbent Arnold Schwarzenegger and current state treasurer, Phil Angelides. The governor's race produced several new budgetary suggestions, however, there is likely to be very little budgetary action in reelected Governor Schwarzenegger's next term. Residents also had the opportunity to vote on \$43 billion of state bonding measures and \$10 billion in local measures during the November election. All of the state

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

bonding measures were passed by voters, which will result in a wealth of new issues coming to market. While we certainly recognize California's improved financial condition given its large and diverse economic base, it is important to note that the state relies on an extremely volatile revenue stream to bear the burden of its increasing debt levels.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Stock of BlackRock MuniYield California Fund, Inc. (formerly MuniYield California Fund, Inc.) had net annualized yields of 4.57% and 4.93%, based on a year-end per share net asset value of \$15.11 and a per share market price of \$14.00, respectively, and \$.690 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +8.03%, based on a change in per share net asset value from \$14.73 to \$15.11, and assuming reinvestment of all distributions.

ANNUAL REPORTS

OCTOBER 31, 2006

The Fund's total return, based on net asset value, slightly lagged the +8.24% average return of its comparable Lipper category of California Municipal Debt Funds for the 12-month period. (Funds in this Lipper category invest primarily in municipal debt issues exempt from taxation in the State of California.) The underperformance was partially attributable to the Fund's relatively short duration in the first half of the fiscal period. Because bond prices fall as their yields rise, we had assumed this posture in an effort to achieve some price stability for the portfolio in the face of rising interest rates. As bond prices began improving during the last six months of the period, portfolio activity was aimed at moving to a relatively neutral duration posture, which was achieved by period-end. In addition, we maintained an underweight exposure to lower-rated credits. This sector outperformed the broader market during the period as investors sought out higher yields, and the under-representation in the portfolio detracted from relative results.

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Stock was +5.78%, based on a change in per share net asset value from \$14.65 to \$15.11, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

Much of the activity over the past 12 months was aimed at improving the Fund's total return. Municipal issuance was uncharacteristically light during the period, particularly after a record-setting level of new issuance in calendar year 2005. Although the dearth in supply somewhat limited our ability to restructure the portfolio, we were able to achieve our goal of moving the Fund

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

to a more neutral posture with respect to relative interest rate exposure. This was consistent with the recommendation of our internal Municipal Investment Committee. We also were able to capitalize on market movements by making purchases when bond yields reached the peak of their trading range for the period (that is, prices were down), and then selectively selling a portion of these issues after bond prices had rallied toward the end of the third quarter of 2006.

The Fund continued to be challenged by the need to reinvest the proceeds from bonds that were called early by their issuers. In order to take advantage of the relatively steep municipal yield curve, we attempted to bolster the yield distribution to shareholders by increasing the portion of Fund assets committed to inverse floating-rate product (a bond or other type of debt instrument whose coupon rate has an inverse relationship to short-term interest rates). We favored this method of yield enhancement over the purchase of lower-rated credits, whose yield spreads versus higher-quality issues of comparable maturity were already at historically tight levels and continued to tighten further throughout the fiscal period.

For the six-month period ended October 31, 2006, the Fund's Auction Market Preferred Stock had average yields of 3.27% for Series A, 3.21% for Series B, 3.26% for Series C and 3.12% for Series D. The Fed raised short-term interest rates six times during the 12-month reporting period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the Fed's interest rate increases during the period, the municipal yield curve remained positively sloped and continued to generate an income benefit to the Common Stock shareholder from the leveraging of Preferred Stock. However, should the spread between short-term and long-term interest rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

The Fund ended the period with a neutral duration posture relative to its California municipal bond fund peers. However, in the new fiscal year we will be looking for improvements in bond prices as opportunities to resume a below-benchmark duration. At the same time, we remain committed to protecting the Fund's net asset value and will continue to address the income distribution potential of the portfolio through the use of inverse floating-rate product.

ANNUAL REPORTS

OCTOBER 31, 2006

A Discussion With Your Funds' Portfolio Managers (continued)

Tight credit spreads discourage us from participating actively in the lower-quality portion of the market, as we see little relative value from a risk/reward standpoint at this time. Consequently, we ended the period with a very high-quality portfolio - with 85% of the Fund's net assets rated AA or higher and 82% rated AAA.

BlackRock MuniYield California Insured Fund, Inc.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Describe conditions in the State of California.

The State of California's financial climate continues to benefit from the overall U.S. economic up-tick, resulting in a sizable budgetary cash position compared to the deficits experienced in past years. The fiscal year 2007 budget was adopted on time for the first time in a number of years, due in part to a recent surge in revenues. Still, the budget includes substantial spending growth and the overall structural deficit remains, which will limit further rating improvements for the state's general obligation bonds.

News for the second half of the reporting period was dominated by the gubernatorial election between incumbent Arnold Schwarzenegger and current state treasurer, Phil Angelides. The governor's race produced several new budgetary suggestions; however, there is likely to be very little budgetary action in reelected Governor Schwarzenegger's next term. Residents also had the opportunity to vote on \$43 billion of state bonding measures and \$10 billion in local measures during the November election. All of the state bonding measures were passed by voters, which will result in a wealth of new issues coming to market. While we certainly recognize California's improved financial condition given its large and diverse economic base, it is important to note that the state relies on an extremely volatile revenue stream to bear the burden of its increasing debt levels.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Stock of BlackRock MuniYield California Insured Fund, Inc. (formerly MuniYield California Insured Fund, Inc.) had net annualized yields of 5.19% and 5.35%, based on a year-end per share net asset value of \$15.09 and a per share market price of \$14.64, respectively, and \$.783 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +7.57%, based on a change in per share net asset value from \$14.82 to \$15.09, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, lagged the +7.78% average return of its comparable Lipper category of California Insured Municipal Debt Funds for the 12-month period. (Funds in this Lipper category invest primarily in municipal debt issues exempt from taxation in the State of California and insured as to timely payment.) For some time, our investment strategy has been focused on achieving a high level of current income for our shareholders. This has been achieved through maintaining an above-average coupon accrual, which has allowed the Fund to provide a highly competitive yield. On a total return basis, the underperformance for the period was partially attributable to the Fund's relatively short duration. Because bond prices fall as their yields rise, we had assumed this short duration posture in an effort to achieve some price stability for the portfolio in the face of rising interest rates. In addition, we maintained an underweight exposure to lower-rated credits. This sector outperformed the broader market during the period as investors sought out higher yields, and the under-representation in the portfolio detracted from relative results.

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Stock was +5.62%, based on a change in per share net asset value from \$14.66 to \$15.09, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

ANNUAL REPORTS

OCTOBER 31, 2006

What changes were made to the portfolio during the period?

Municipal issuance was uncharacteristically light during the period, particularly after a record-setting level of new issuance in calendar year 2005. The dearth in supply limited our ability to significantly restructure the portfolio. Instead, our efforts were concentrated on moving the Fund closer to a more neutral posture with respect to relative interest rate exposure, consistent with the recommendation of our internal Municipal Investment Committee. We were able to achieve a market-neutral duration posture by purchasing a limited amount of longer-maturity bonds as interest rates increased, effectively extending the Fund's duration. These purchases were financed through the sale of prerefunded bonds with shorter maturities.

Our efforts to maintain a satisfactory yield distribution to shareholders during the period were increasingly hampered by older dated bonds being called early by their issuers. Reinvesting the proceeds from these bond redemptions has been extremely challenging given the low availability of insured bonds in the market and historically tight credit quality spreads. Over the fiscal year, we increased the portion of Fund assets committed to inverse floating-rate product (a bond or other type of debt instrument whose coupon rate has an inverse relationship to short-term interest rates) as appropriately structured securities became available. We prefer a higher-quality asset mix in such an environment, and at period-end 96.6% of Fund assets were rated AAA with bond insurance.

For the six-month period ended October 31, 2006, the Fund's Auction Market Preferred Stock had average yields of 3.19% for Series A, 3.09% for Series B, 3.11% for Series C, 3.26% for Series D, 3.08% for Series E and 3.22% for Series F. The Fed raised short-term interest rates six times during the 12-month period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the Fed's interest rate increases during the period, the municipal yield curve remained positively sloped and continued to generate an income benefit to the Common Stock shareholder from the leveraging of Preferred Stock. However, should the spread between short-term and long-term interest rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

The Fund ended the period with a neutral duration posture relative to its California insured municipal bond fund peers. However, in the new fiscal year we will be looking for improvements in bond prices as opportunities to resume a more defensive position. We remain committed to protecting the Fund's net asset value and will attempt to improve the Fund's ability to add to its dividend reserve. The Fund currently holds a 2% cash equivalent reserve that is available for investment when attractively structured and priced securities

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

become available. Tight credit spreads discourage us from participating actively in the lower-quality portion of the market, as we see little relative value from a risk/reward standpoint at this time. Consequently, we ended the period with a very high-quality portfolio.

BlackRock MuniYield Florida Fund

Describe conditions in the State of Florida.

Florida maintains credit ratings of Aa1, AAA and AA+ from Moody's, Standard & Poor's and Fitch, respectively. The state's consistently strong financial performance has been the result of a robust service-oriented economy, prudent budget decisions and a moderate debt profile. Florida's budget for fiscal year 2007 grew 7% to \$74 billion and reflects continued spending constraints, conservative revenue projections and additional deposits to the state's reserve funds. Florida has adhered to strict budget guidelines in recent history and we expect that trend to continue, as many of the state's budget practices have been made into law.

Solid economic growth has allowed the state to build revenue reserves to an estimated \$8 billion and to offer its residents some tax relief in the form of tax credits, tax-free shopping days and the repeal of the intangible tax. Overall sales tax growth, which has averaged over 8% per year in recent history, should be sufficient to cover any revenue losses associated with the repeal of the intangible tax, although no new revenue streams have been created. Spending at the state level remains dominated by education, with over 50% of the budget dedicated to primary and secondary education needs. The state also faces significant additional spending requirements as a result of the recent Class Size Initiative and an overall desire to increase the quality of public education in Florida. In addition to education, we expect that population growth will increase demand on the government to provide more monies for transportation, public safety, health services and emergency relief.

ANNUAL REPORTS

OCTOBER 31, 2006

A Discussion With Your Funds' Portfolio Managers (continued)

Overall, Florida's economy continues to outperform on both a national and regional basis. Job creation has surpassed the national average, leading to low unemployment and rising personal incomes. The most recent data reflects an unemployment rate of 3.2%, compared to a national average of 4.4%. These trends, coupled with a relatively low cost of living, have encouraged migration into Florida and led to a more diversified demographic base. Although the demands of a growing population will put pressure on the state's finances, we continue to believe that Florida is well-positioned given its financial flexibility and record of proactive management.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Shares of BlackRock MuniYield Florida Fund (formerly MuniYield Florida Fund) had net annualized yields of 5.27% and 5.55%, based on a year-end per share net asset value of \$15.11 and a per share market price of \$14.35, respectively, and \$.796 per share income dividends. Over the same period, the total investment return on

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

the Fund's Common Shares was +7.24%, based on a change in per share net asset value from \$14.91 to \$15.11, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, outpaced the +7% average return of the Lipper Florida Municipal Debt Funds category for the 12-month period. (Funds in this Lipper category limit their investment to those securities exempt from taxation in the state of Florida.) Performance reflected a continuation of the trends discussed in our semi-annual report to shareholders. Specifically, the Fund benefited from our emphasis on longer-dated issues, which continued to outperform as the yield curve flattened, particularly in the first half of the fiscal year. Also contributing positively was our exposure to higher-yielding uninsured credits, which outperformed the broader market as investors searched for yield in the low interest rate environment. Finally, the portfolio held some bonds that had been advance refunded, which leads to strong price appreciation for these credits and has benefited the Fund's total return.

These positives were offset somewhat by our exposure, in the form of prerefunded bonds, to the intermediate part of the yield curve. This sector continued to underperform as the curve flattened, although we retained many of these bonds given their high acquisition yields and corresponding contribution to the Fund's income stream. In addition, the Fund is precluded from investing in non-investment grade municipal credits, which was somewhat of a disadvantage relative to our Lipper peers as the lowest-quality bonds outperformed.

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Shares was +5.03%, based on a change in per share net asset value from \$14.79 to \$15.11, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Shares (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Shares can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

For most of the year, we generally focused on premium-coupon bonds in the 20-year - 25-year maturity range whenever they became available. This was consistent with our goal of increasing the income provided to shareholders and muting the Fund's net asset value volatility, particularly as the yield curve flattened. However, as the year progressed, we began to see some opportunity in the 10-year - 20-year area of the curve. This maturity range had suffered most under the weight of the Fed's interest rate hikes and, we believe, could be poised for strong relative performance as the yield curve resteepestens.

Issuance of Florida municipal bonds increased approximately 41% during the period compared to the same 12 months a year ago. However, as has been the case for some time, few new issues met our desired investment characteristics. Much of the supply came in the form of refinancings, and the majority of the new issues offered coupons below 5%. In general, the cost of obtaining 5.25% coupons in the new-issue market remained prohibitive. Importantly, we remained fully invested throughout the year in order to augment yield.

# Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

ANNUAL REPORTS

OCTOBER 31, 2006

For the six-month period ended October 31, 2006, the Fund's Auction Market Preferred Shares had average yields of 3.47% for Series A, 3.42% for Series B and 3.40% for Series C. The Fed raised short-term interest rates six times during the 12-month reporting period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the rate increases during the period, the tax-exempt yield curve maintained a positive slope, allowing us to borrow at a lower rate than where we invest. This continued to generate an income benefit to the holders of Common Shares from the leveraging of Preferred Shares. However, should the spread between short-term and long-term interest rates narrow, the benefits of leveraging will decline and, as a result, reduce the yield on the Fund's Common Shares. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

We would characterize the Fund's position as fairly neutral in terms of interest rate risk. We are continuing in our efforts to increase the Fund's exposure to bonds with maturities in the 10-year - 20-year range. At the same time, to enhance yield, we are looking to add some 20-year - 30-year bonds with coupons in the area of 5.25%, without paying a premium to the AAA scale.

Although the Fed paused in its interest rate-hiking campaign, leaving the federal funds rate unchanged at 5.25%, the central bank has indicated that it will continue to look to the economic and inflationary data for signposts in determining future monetary policy. As such, we would expect the U.S. equity and bond markets to remain volatile as investors continue to anticipate and react to economic data and Fed actions. Against this backdrop, we will continue to maintain a fully invested portfolio and intend to use periods of volatility to pursue higher-coupon bonds whenever they are attractively priced.

BlackRock MuniYield Michigan Insured Fund II, Inc.

Describe conditions in the State of Michigan.

The State of Michigan maintained credit ratings of Aa2, AA and AA from Moody's, Standard & Poor's and Fitch, respectively. Troubles in the automotive sector (in particular, at General Motors/Delphi) have caused stagnant revenue growth that could be indicative of a more structural or long-term economic problem. These lingering concerns triggered two rating downgrades during the annual period. Fitch assigned a negative rating outlook to the state in mid-April, and Standard & Poor's followed suit in August. Without marked fiscal improvements, further rating downgrades are possible in 2006 or 2007.

The key to future ratings actions remains the performance of the state's economy, which continues to lag national trends as well as that of the Great Lakes region. State employment continued to descend in fiscal year 2006, albeit at a slower pace when compared to the previous five years. Future job cuts in the automotive industry threaten to further undermine revenue collections, and could result in additional state aid commitments. Compounding that, the legislature's repeal of the single-business income tax is expected to cost the state \$1.9 billion annually beginning in fiscal year 2009, and

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

will likely produce significant structural deficits. To maintain current rating levels will require employment stability and continued budget balancing.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Stock of BlackRock MuniYield Michigan Insured Fund II, Inc. (formerly MuniYield Michigan Insured Fund II, Inc.) had net annualized yields of 5.21% and 5.44%, based on a year-end per share net asset value of \$14.60 and a per share market price of \$13.97, respectively, and \$.760 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +6.09%, based on a change in per share net asset value from \$14.54 to \$14.60, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, lagged the +7.46% average return of the Lipper Michigan Municipal Debt Funds category for the 12-month period. (Funds in this Lipper category limit their investment to securities exempt from taxation in Michigan or a city in Michigan.) As an insured fund, at least 80% of the Fund's holdings must be insured or rated AAA. This above-average credit quality profile put the Fund at a disadvantage relative to some of its more aggressive peers, as lower-rated issues experienced consistently strong price appreciation through-out the period. We also had retained some seasoned, higher-couponed issues with maturities and call features that became very responsive to yield movements in the intermediate maturity sector, and this detracted from performance as the municipal yield curve flattened and the intermediate sector underperformed. Nevertheless, these bonds came with attractive book yields and contributed meaningfully to the Fund's distribution rate. We chose to maintain our positions given that the sale of these bonds would likely result in both material capital gain distributions and an overall reduction in the Fund's level of coupon income. As a result, the Fund ended the fiscal year with one of the highest distribution yields among its peers.

ANNUAL REPORTS

OCTOBER 31, 2006

A Discussion With Your Funds' Portfolio Managers (continued)

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Stock was +4.76%, based on a change in per share net asset value from \$14.31 to \$14.60, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

A decline in new-issue volume, coupled with low nominal bond yields, offered limited trading opportunities throughout the reporting period. During the past

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

year, \$10.53 billion in Michigan municipal bonds was underwritten, a decline of more than 26% versus the same 12 months a year ago. This compared to the national average decline in issuance of 6.8%.

For the most part, recent purchases have focused on AA-rated and A-rated hospital revenue bonds, which offered good value given their incremental yield and significant market liquidity. The Fund's credit quality profile remained largely unchanged during the period, with 84% of net assets rated AAA.

For the six-month period ended October 31, 2006, the Fund's Auction Market Preferred Stock had average yields of 3.28% for Series A, 3.38% for Series B and 3.33% for Series C. The Fed raised short-term interest rates six times during the 12-month reporting period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the Fed's interest rate increases during the period, the municipal yield curve remained positively sloped and continued to generate an income benefit to the Common Stock shareholder from the leveraging of Preferred Stock. However, should the spread between short-term and long-term interest rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

The Fund ended the annual period in a slightly defensive position, as current yield levels appear to be lower than economic and inflation fundamentals alone would support. Ongoing positive technical factors - in particular the significant amount of excess liquidity-driven demand seen in recent months - prevent taking a more defensive duration posture.

We will continue to monitor economic trends, notably employment and housing, to ensure the Fund's current structure is appropriate. Future portfolio activity is expected to support our ongoing efforts to enhance shareholder income and maintain the Fund's higher-than-average distribution yield.

BlackRock MuniYield New York Insured Fund, Inc.

Discuss conditions in the State of New York.

In December 2005, credit-rating agency Moody's upgraded New York's rating to Aa3, the state's highest rating from Moody's since 1975. Standard & Poor's and Fitch have maintained ratings of AA and AA-, respectively, and all three agencies assign a stable outlook to the state's ratings.

New York State finalized its 2006-2007 budget on April 26. The \$112.5 billion budget kept most of Governor George Pataki's proposals intact, including about \$850 million in tax cuts and the allocation of almost \$2 billion from the 2006 fiscal year surplus toward out-year gaps. In compliance with a court order on school funding, the budget also includes \$700 million in school operating aid. It is unclear whether this amount, as well as additional capital grants and bonding authority to New York City, will be sufficient in meeting the court mandate. On October 30, state officials released the mid-year update to the 2006-2007 financial plan, which reflected changes made by the legislature and governor since the budget was enacted. The update continues to reflect increased property tax rebates, a cap on gasoline taxes, and deferral of certain Medicaid cost-containment rules that will be paid for with stabilization reserve monies. Notably, however, the fiscal year 2007-2008 and 2008-2009 out-year gaps have been reduced to \$2.4 billion and \$4.5 billion,

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

respectively, from \$3.2 billion and \$5.4 billion, respectively. These reductions are due mainly to higher forecasted personal income tax receipts, particularly from securities industry profits, and lower Medicaid costs than originally projected.

ANNUAL REPORTS

OCTOBER 31, 2006

The state's September 2006 employment numbers show a 0.8% increase from September 2005 levels. New York continues to rank fifth-highest among all states in per capita income.

How did the Fund perform during the fiscal year?

For the 12-month period ended October 31, 2006, the Common Stock of BlackRock MuniYield New York Insured Fund, Inc. (formerly MuniYield New York Insured Fund, Inc.) had net annualized yields of 5.24% and 5.35%, based on a year-end per share net asset value of \$14.40 and a per share market price of \$14.10, respectively, and \$.755 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +6.71%, based on a change in per share net asset value from \$14.26 to \$14.40, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, lagged the +7.09% average return of the Lipper New York Insured Municipal Debt Funds category for the 12-month period. (Funds in this Lipper category invest primarily in securities exempt from taxation in New York and insured as to timely payment.) However, the Fund provided an above-average distribution rate relative to its Lipper peers, reflecting our efforts to enhance tax-exempt income for shareholders.

Detracting from the Fund's total return for much of the period was our slightly long duration profile. We entered the fiscal year with a slightly long duration in expectation that the Fed would stop raising interest rates sooner than it actually did. (Duration is a measure of interest rate sensitivity. A shorter duration means less sensitivity to interest rate moves, and vice versa.) Although the Fed tightened more than we anticipated, Fund performance improved since the central bank's initial pause on August 8. The Fed left the target rate unchanged again in September and October, setting the stage for a relatively static interest rate environment in the near-term, a scenario in which higher-yielding bonds are an advantage. Also detracting from performance were bond calls that occurred during the period, causing the portfolio to lose some of its high-coupon holdings prior to maturity.

Fund performance benefited from our positions in some out-of-favor credits, including discount bonds. As the public grew more comfortable with the idea that the Fed had finished its current tightening cycle, we saw renewed retail interest in the market. The retail buyer tends to like discount or current-coupon bonds and, therefore, we began to see these types of holdings outperform on both a yield and total return basis.

For the six-month period ended October 31, 2006, the total investment return on the Fund's Common Stock was +5.45%, based on a change in per share net asset value from \$14.02 to \$14.40, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

Portfolio activity reflected our focus on providing an attractive level of tax-exempt income. At times when rates rose, we sought to engage in yield pickup swaps - that is, booking bonds at higher yields than those we swapped out of in order to improve the Fund's distribution rate. We also looked to buy some out-of-favor coupons, primarily discount bonds and slightly longer-maturity issues, for yield enhancement. In general, we favored the long end of the curve, which has been more attractive for yield pickup and outperformed on a price basis when the Fed paused.

ANNUAL REPORTS

OCTOBER 31, 2006

A Discussion With Your Funds' Portfolio Managers (concluded)

We made significant purchases in Yankees and Mets (Queens Stadium) bonds, as well as bonds issued for the Jacob Javits Convention Center, Long Island Power Authority, New York State Energy Brooklyn Union Gas (BUG) and Puerto Rico Convention Center. All of these issues are insured. We were able to make these additions despite a 28% decline in New York new issuance over the past year. In the Fund's uninsured basket, we have concentrated on housing and education bonds, to the extent possible, and favored higher-yielding, lower-rated investment grade credits over AAA-rated and AA-rated bonds. Notably, the portfolio benefited from credit-rating upgrades in New York during the past year. The upgrades of the city's and state's credit have added to portfolio credit quality while also translating into bond price appreciation.

On the sell side, we actively sold some bonds as their call protection declined to within or under three years. As bonds approach their call dates, the amortization of the premium price accelerates - that is, the bonds' price declines at a faster rate and, therefore, they are likely to underperform the market. In seeking to balance yield and total return, we opted to sell some of these high-book-yield bonds at a premium ahead of their call date given that, on a total return basis, we would expect them to lag the overall market.

For the six-month period ended October 31, 2006, the Fund's Auction Market Preferred Stock had average yields of 3.58% for Series A, 3.07% for Series B, 3.18% for Series C, 3.15% for Series D, 3.45% for Series E and 3.21% for Series F. The Fed raised short-term interest rates six times during the 12-month reporting period, but opted to keep the target rate on hold at 5.25% in August, September and October 2006. As such, the Fund's borrowing costs began to stabilize and even move slightly lower late in the period. Despite the Fed's interest rate increases during the period, the municipal yield curve remained positively sloped and continued to generate an income benefit to the Common Stock shareholder from the leveraging of Preferred Stock. However, should the spread between short-term and long-term interest rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 71 of this report to shareholders.)

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

How would you characterize the portfolio's position at the close of the period?

Recently, amid the decline in yields and conjecture about a future Fed ease, it appears that the market's valuation is overextended. With the 30-year Treasury yield at 4.72%, more than 50 basis points below the federal funds rate, it seems unlikely that these rates can be sustained. This prompted us to move to a slightly more defensive posture at period-end, consistent with the recommendation of our internal Investment Committee.

Overall, we continue our efforts to balance yield and total return and will look for the market to provide opportunities, in the form of higher yields or increased municipal supply, to restructure the portfolio. Since spring of this year, we have focused our attention on the 25-year sector of the curve and continue to believe that the most compelling opportunities reside there, where we are able to find attractive relative yields and good call protection for the Fund.

### Dividend Policy

The Funds' dividend policy is to distribute all or a portion of their net investment income to their shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Funds may at times pay out less than the entire amount of net investment income earned in any particular month and may at times, in any particular month, pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the Funds for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The Funds' current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Net Assets, which comprises part of the financial information included in these reports.

ANNUAL REPORTS

OCTOBER 31, 2006

Schedule of Investments (concluded)

BlackRock MuniYield New York Insured Fund, Inc.

(In Thousands)

Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

\* The cost and unrealized appreciation (depreciation) of investments as of October 31, 2006, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$	813,121
		=====
Gross unrealized appreciation	\$	39,564
Gross unrealized depreciation		(130)
		-----
Net unrealized appreciation	\$	39,434
		=====

- (a) AMBAC Insured.
- (b) FGIC Insured.
- (c) FSA Insured.
- (d) MBIA Insured.
- (e) Prerefunded.
- (f) Security may have a maturity of more than one year at time of issuance, but has variable rate and demand features that qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based upon prevailing market rates.
- (g) The rate disclosed is that currently in effect. This rate changes periodically and inversely based upon prevailing market rates.
- (h) Escrowed to maturity.
- (i) FHA Insured.
- (j) CIFG Insured.
- (k) Radian Insured.
- (l) XL Capital Insured.
- (m) Investments in companies considered to be an affiliate of the Fund, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Dividend Income
CMA New York Municipal Money Fund	503	\$95

- (n) ACA Insured.
- (o) Represents a zero coupon bond; the interest rate shown reflects the effective yield at the time of purchase.
- (p) Represents the current yield as of October 31, 2006.

Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

- (q) All or a portion of security held as collateral in connection with open financial futures contracts.
- (r) Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which the Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1(c) to Financial Statements for details of Municipal Bonds Held in Trust.
- o Financial futures contracts sold as of October 31, 2006 were as follows:

Number of Contracts	Issue	Expiration Date	Face Value	Unrealized Depreciation
279	30-Year U.S. Treasury Note	December 2006	\$31,081	\$(350)

ANNUAL REPORTS

OCTOBER 31, 2006

### Notes to Financial Statements

#### 1. Significant Accounting Policies:

On September 29, 2006, MuniYield Arizona Fund, Inc., MuniYield California Fund, Inc., MuniYield California Insured Fund, Inc., MuniYield Florida Fund, MuniYield Michigan Insured Fund II, Inc. and MuniYield New York Insured Fund, Inc. were renamed BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. (the "Funds" or individually as the "Fund"). The Funds are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies. The Funds' financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Funds determine, and make available for publication, the net asset values of their Common Stock/Shares on a daily basis. Common Stock shares and Common Shares are listed on the New York Stock Exchange under the symbol MYC for BlackRock MuniYield California Fund, Inc., MCA for BlackRock MuniYield California Insured Fund, Inc., MYF for BlackRock MuniYield Florida Fund, MYM for BlackRock MuniYield Michigan Insured Fund II, Inc. and MYN for BlackRock MuniYield New York Insured Fund, Inc. Common Stock is listed on the American Stock Exchange under the symbol MZA for BlackRock MuniYield Arizona Fund, Inc. The following is a summary of significant accounting policies followed by the Funds.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

(a) Valuation of investments--Municipal bonds are traded primarily in the over-the-counter ("OTC") markets and are valued at the last available bid price in the OTC market or on the basis of values as obtained by a pricing service. Pricing services use valuation matrixes that incorporate both dealer-supplied valuations and valuation models. The procedures of the pricing service and its valuations are reviewed by the officers of the Funds under the general direction of each Fund's Board of Directors/Trustees. Such valuations and procedures are reviewed periodically by each Fund's Board of Directors/Trustees. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their closing prices as of the close of such exchanges. Options written or purchased are valued at the last sale price in the case of exchange-traded options. Options traded in the OTC market are valued at the last asked price (options written) or the last bid price (options purchased). Swap agreements are valued by quoted fair valuations received daily by the Funds' pricing service. Short-term investments with a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value, under which method the investment is valued at cost and any premium or discount is amortized on a straight line basis to maturity. Investments in open-end investment companies are valued at their net asset value each business day. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of each Fund's Board of Directors/Trustees.

(b) Derivative financial instruments--Each Fund may engage in various portfolio investment strategies both to increase the return of the Fund and to hedge, or protect, their exposure to interest rate movements and movements in the securities markets. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract.

\* Financial futures contracts--Each Fund may purchase or sell financial futures contracts and options on such financial futures contracts. Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits, and maintains as collateral, such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

\* Options--Each Fund may purchase and write call and put options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Notes to Financial Statements (continued)

Written and purchased options are non-income producing investments.

\* Forward interest rate swaps--Each Fund may enter into forward interest rate swaps. In a forward interest rate swap, the Fund and the counterparty agree to make periodic net payments on a specified notional contract amount, commencing on a specified future effective date, unless terminated earlier. When the agreement is closed, the Fund records a realized gain or loss in an amount equal to the value of the agreement.

\* Swaps--Each Fund may enter into swap agreements, which are OTC contracts in which each Fund and a counterparty agree to make periodic net payments on a specified notional amount. The net payments can be made for a set period of time or may be triggered by a predetermined credit event. The net periodic payments may be based on a fixed or variable interest rate; the change in market value of a specified security, basket of securities or index; or the return generated by a security. These periodic payments received or made by each Fund are recorded in the accompanying Statements of Operations as realized gains or losses, respectively. Gains or losses are also realized upon termination of the swap agreements. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). Risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms and the possible lack of liquidity with respect to the swap agreements.

(c) Municipal Bonds Held in Trust--Certain Funds invest in leveraged residual certificates ("TOB Residuals") issued by tender option bond trusts ("TOBs"). A TOB is established by a third party sponsor forming a special purpose entity, into which a Fund, or an agent on behalf of the Fund, transfers municipal securities. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates, which are generally issued to the Fund which made the transfer or to affiliates of the Fund. Each Fund's transfers of the municipal securities to a TOB do not qualify for sale treatment under Statement of Financial Accounting Standards No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities," therefore the municipal securities deposited into a TOB are presented in the Funds' schedules of investments and the proceeds from the transactions are reported as a liability for trust certificates. Similarly, proceeds from residual certificates issued to affiliates, if any, from the transaction are included in the liability for trust certificates. Interest income from the underlying security is recorded by the Funds on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are reported as expenses of a Fund. The floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. The residual interests held by the Funds include the right of the Funds (1) to cause the holders of a proportional share of floating rate certificates to tender their certificates at par, and (2) to transfer a corresponding share of the municipal securities from the TOB to the Funds. At October 31, 2006, the aggregate value of the underlying municipal securities transferred to TOBs and the liability for trust certificates were:

Liability for Trust Certificates	Range of Interest Rates	Underlying Municipal Bonds Transferred to TOBs
--	-------------------------------	--

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

BlackRock MuniYield Arizona Fund, Inc.	\$ 6,430,000	3.59% - 3.60%	\$ 14,002,249
BlackRock MuniYield California Fund, Inc.	\$59,342,500	3.56%	\$125,778,553
BlackRock MuniYield California Insured Fund, Inc.	\$80,002,222	3.56% - 5.20%	\$158,198,562
BlackRock MuniYield Florida Fund	\$17,047,500	3.60%	\$ 37,293,752
BlackRock MuniYield Michigan Insured Fund II, Inc.	\$23,683,781	3.60% - 5.75%	\$ 50,025,121
BlackRock MuniYield New York Insured Fund, Inc.	\$84,995,000	3.60% - 3.63%	\$184,649,608

Financial transactions executed through TOBs generally will under perform the market for fixed rate municipal bonds in a rising interest rate environment, but tend to outperform the market for fixed rate municipal bonds when interest rates decline or remain relatively stable. Should short-term interest rates rise, the Funds' investment in TOB Residuals likely will adversely affect the Funds' investment income-net and distributions to shareholders. Fluctuations in the market value of municipal securities deposited into the TOB may adversely affect the Fund's net asset values per share.

ANNUAL REPORTS

OCTOBER 31, 2006

Notes to Financial Statements (continued)

While the Funds' investment policies and restrictions expressly permit investments in inverse floating rate securities such as TOB Residuals, they generally do not allow the Funds to borrow money for purposes of making investments. The Funds' management believes that the Funds' restrictions on borrowings do not apply to the secured borrowings deemed to have occurred for accounting purposes.

(d) Income taxes--It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

(e) Security transactions and investment income--Security transactions are recorded on the dates the trans-actions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Funds amortize all premiums and discounts on debt securities.

(f) Dividends and distributions--Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

ex-dividend dates.

(g) Offering costs--Direct expenses relating to the public offering of each Fund's Preferred Stock/Shares were charged to Common Stock/Shares capital at the time of issuance of the shares. Any adjustments to estimates of offering costs were recorded to capital.

(h) Bank overdraft--The BlackRock MuniYield New York Insured Fund, Inc. recorded a bank overdraft, which resulted from management estimates of available cash.

(i) Recent accounting pronouncements--In July 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109." FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity including mutual funds before being measured and recognized in the financial statements. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006. The impact on each of the Fund's financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the implications of FAS 157. At this time its impact on each of the Fund's financial statements has not been determined.

(j) Reclassification for BlackRock MuniYield California Insured Fund, Inc.-- U.S. generally accepted accounting principles require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, during the current year, \$129,310 has been reclassified between accumulated net realized capital losses and undistributed net investment income as a result of permanent differences attributable to amortization methods on fixed income securities. This reclassification has no effect on net assets or net asset values per share.

### 2. Investment Advisory Agreement and Transactions with Affiliates:

On September 29, 2006, BlackRock, Inc. and Merrill Lynch & Co., Inc. ("Merrill Lynch") combined Merrill Lynch's investment management business, Merrill Lynch Investment Managers, L.P. ("MLIM"), and its affiliates, including Fund Asset Management Management, L.P. ("FAM"), with BlackRock, Inc. to create a new independent company. Merrill Lynch has a 49.8% economic interest and a 45% voting interest in the combined company and The PNC Financial Services Group, Inc. has approximately a 34% economic and voting interest. The new company operates under the BlackRock name and is governed by a board of directors with a majority of independent members.

ANNUAL REPORTS

OCTOBER 31, 2006

Notes to Financial Statements (continued)

On August 15, 2006, shareholders of each Fund approved a new Investment Advisory Agreement with BlackRock Advisors, Inc. (the "Manager"), an indirect, wholly owned subsidiary of BlackRock, Inc. BlackRock Advisors, Inc. was

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

recently reorganized into a limited liability company and renamed BlackRock Advisors, LLC. The new Investment Advisory Agreement between each Fund and the Manager became effective on September 29, 2006. Prior to September 29, 2006, FAM was the Investment Adviser. The general partner of FAM was Princeton Services, Inc. ("PSI"), an indirect, wholly owned subsidiary of Merrill Lynch, which was the limited partner.

The Manager is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Fund. For such services, each Fund pays a monthly fee at an annual rate of .50% of the Fund's average daily net assets, including proceeds from the issuance of Preferred Stock/Shares. The Manager (and formerly FAM) has agreed to reimburse its management fee by the amount of management fees each Fund pays to the Manager and/or FAM indirectly through its investments described below:

	Investment	For the Period Nov. 1, 2005 to Sept. 29, 2006 Reimbursement by FAM
BlackRock MuniYield Arizona Fund, Inc.	CMA Arizona Municipal Money Fund	\$ 4,634
BlackRock MuniYield California Fund, Inc.	CMA California Municipal Money Fund	\$35,338
BlackRock MuniYield California Insured Fund, Inc.	CMA California Municipal Money Fund	\$19,311
BlackRock MuniYield Florida Fund	Merrill Lynch Institutional Tax-Exempt Fund/ CMA Florida Municipal Money Fund	\$23,533
BlackRock MuniYield Michigan Insured Fund II, Inc.	CMA Michigan Municipal Money Fund	\$15,942
BlackRock MuniYield New York Insured Fund, Inc.	CMA New York Municipal Money Fund	\$10,281

	Investment	For the Period Sept. 30, 2006 to Oct. 31, 2006 Reimbursement by the Manager
BlackRock MuniYield Arizona Fund, Inc.	CMA Arizona Municipal Money Fund	\$ 577
BlackRock MuniYield California Fund, Inc.	CMA California Municipal Money Fund	\$ 1,267
BlackRock MuniYield California Insured	CMA California Municipal	

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Fund, Inc.	Money Fund	\$ 856
BlackRock MuniYield Florida Fund	CMA Florida Municipal Money Fund	\$ 3,291
BlackRock MuniYield Michigan Insured Fund II, Inc.	CMA Michigan Municipal Money Fund	\$ 966
BlackRock MuniYield New York Insured Fund, Inc.	CMA New York Municipal Money Fund	\$ 3,340

In addition, the Manager has entered into a sub-advisory agreement with BlackRock Investment Management, LLC, an affiliate of the Manager, under which the Manager pays the Sub-Adviser, for services it provides, a fee equal to 59% of the management fee paid by each Fund to the Manager.

For the year ended October 31, 2006, the Funds reimbursed the Manager and/or FAM for certain accounting services. The reimbursements were as follows:

	For the Period Nov. 1, 2005 to Sept. 29, 2006 Reimbursement to FAM	For the Period Sept. 30, 2006 to Oct. 31, 2006 Reimbursement to the Manager
BlackRock MuniYield Arizona Fund, Inc.	\$ 2,185	\$ 170
BlackRock MuniYield California Fund, Inc.	\$10,099	\$ 796
BlackRock MuniYield California Insured Fund, Inc.	\$16,121	\$ 1,272
BlackRock MuniYield Florida Fund	\$ 6,672	\$ 507
BlackRock MuniYield Michigan Insured Fund II, Inc.	\$ 5,771	\$ 444
BlackRock MuniYield New York Insured Fund, Inc.	\$17,870	\$ 1,250

Prior to September 29, 2006, certain officers and/or directors/trustees of the Funds were officers and/or directors of Merrill Lynch, FAM, MLIM and/or PSI.

ANNUAL REPORTS

OCTOBER 31, 2006

Notes to Financial Statements (continued)

Commencing September 29, 2006, certain officers and/or directors/trustees of the Funds are officers and/or directors of BlackRock, Inc. or its affiliates.

### 3. Investments:

Purchases and sales of investments, excluding short-term securities, for the

5. Distributions to Shareholders:

BlackRock MuniYield Arizona Fund, Inc. The Fund paid a tax-exempt income dividend to holders of Common Stock in the amount of \$.062000 per share on November 29, 2006 to shareholders of record on November 14, 2006.

The tax character of distributions paid during the fiscal years ended October 31, 2006 and October 31, 2005 was as follows:

	10/31/2006	10/31/2005
Distributions paid from:		
Tax-exempt income	\$ 4,774,990	\$ 4,746,990
Ordinary income	--	3,303
Net long-term capital gain	608,019	101,400
	-----	-----
Total distributions	\$ 5,383,009	\$ 4,851,693
	=====	=====

As of October 31, 2006, the components of accumulated earnings on a tax basis were as follows:

Undistributed tax-exempt income--net	\$ 463,121
Undistributed long-term capital gains--net	317,724
	-----
Total undistributed earnings--net	780,845
Capital loss carryforward	--
Unrealized gains--net	4,810,161*
	-----
Total accumulated earnings--net	\$ 5,591,006
	=====

\* The difference between book-basis and tax-basis net unrealized gains is attributable primarily to the tax deferral of losses on wash sales, the tax deferral of losses on straddles and the difference between the book and tax treatment of residual interests in tender option bond trusts.

ANNUAL REPORTS

OCTOBER 31, 2006

Notes to Financial Statements (continued)

BlackRock MuniYield California Fund, Inc.

The Fund paid a tax-exempt income dividend to holders of Common Stock in the amount of \$.057000 per share on November 29, 2006 to shareholders of record on November 14, 2006.

The tax character of distributions paid during the fiscal years ended October 31, 2006 and October 31, 2005 was as follows:

\* On October 31, 2006, the Fund had a net capital loss carry-forward of \$30,841,593 with \$8,878,283 expiring in 2008, \$3,168,268 expiring in 2010, \$16,583,200 expiring in 2012 and \$2,211,842 expiring in 2014. This amount will be available to offset like amounts of any future taxable gains.

\*\* The difference between book-basis and tax-basis net unrealized gains is attributable primarily to the tax deferral of losses on wash sales, the tax deferral of losses on straddles, the difference between book and tax amortization methods for premiums and discounts on fixed income securities, the realization for tax purposes of unrealized gains/(losses) on certain futures contracts and the difference between the book and tax treatment of residual interests in tender option bond trusts.

### 6. Restatement Information:

During the year ended October 31, 2006, each of the Funds determined that the criteria for sale accounting in Statement of Financial Accounting Standards No. 140 had not been met for certain transfers of municipal bonds and that these transfers should have been accounted for as secured borrowings rather than as sales. Accordingly, BlackRock MuniYield Arizona Fund, Inc. and BlackRock MuniYield California Fund, Inc. each has restated its statement of changes in net assets for the year ended October 31, 2005 to give effect to offsetting changes in realized gain--net and in the change in unrealized appreciation/ depreciation--net on the transferred municipal securities. Additionally, each of the six Funds has restated its financial highlights for the years ended October 31, 2005, 2004, 2003 and 2002 to give effect to recording the transfers of the municipal bonds as secured borrowings, including recording interest on the bonds as interest income and interest on

# Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

the secured borrowings as interest expense.

While the Statements of Net Assets for each of the Funds as of October 31, 2005, 2004, 2003 and 2002, not presented herein, have not been reissued to give effect to the restatement, the principal effects of the restatement would be to increase investments and liability for trust certificates by corresponding amounts at each year, with no effect on previously reported net assets.

The Statements of Operations for each of the Funds for the years ended October 31, 2005, 2004, 2003 and 2002, not presented herein, have not been reissued to give effect to the restatement. However, the principal effects of the restatement would be to increase interest income and interest expense and fees by corresponding amounts each year, and, where applicable, to revise realized gain (loss) on investments--net, and the change in unrealized appreciation/depreciation on investments--net, by corresponding and offsetting amounts.

The Statements of Changes in Net Assets for each of the Funds for the years ended October 31, 2004, 2003 and 2002, not presented herein, have not been reissued to give effect to the restatement, but the principal effects of a restatement, where applicable, would be to revise previously reported realized gain (loss)--net, and change in unrealized appreciation/depreciation--net, by corresponding and offsetting amounts.

ANNUAL REPORTS

OCTOBER 31, 2006

Report of Independent Registered Public Accounting Firm

To the Shareholders and Boards of Directors/Trustees of BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and Blackrock MuniYield New York Insured Fund, Inc.:

We have audited the accompanying statements of net assets, including the

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

schedules of investments, of BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. (formerly MuniYield Arizona Fund, Inc., MuniYield California Fund, Inc., MuniYield California Insured Fund, Inc., MuniYield Florida Fund, MuniYield Michigan Insured Fund II, Inc. and MuniYield New York Insured Fund, Inc.) (the "Funds"), as of October 31, 2006, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, audits of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006 by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the respective financial position of BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. as of October 31, 2006, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 6, the statements of changes in net assets for the year ended October 31, 2005 of BlackRock MuniYield Arizona Fund, Inc. and BlackRock MuniYield California Fund, Inc. and the financial highlights of each of the Funds for the years ended October 31, 2005, 2004, 2003 and 2002 have been restated.

Fund Certifications (unaudited)

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

In May 2006, BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. filed their Chief Executive Officer Certification for the prior year with the New York Stock Exchange pursuant to Section 303A.12(a) of the New York Stock Exchange Corporate Governance Listing Standards.

The Funds' Chief Executive Officer and Chief Financial Officer Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 were filed with each Fund's Form N-CSR and are available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

ANNUAL REPORTS

OCTOBER 31, 2006

### Automatic Dividend Reinvestment Plan

How the Plan Works--The Funds offer a Dividend Reinvestment Plan (the "Plan") under which income and capital gains dividends paid by each Fund are automatically reinvested in additional shares of Common Stock of each Fund. The Plan is administered on behalf of the shareholders by The Bank of New York for BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. and Computershare Trust Company, N.A. for BlackRock MuniYield California Insured Fund, Inc. (individually, the "Plan Agent" or together, the "Plan Agents"). Under the Plan, whenever the Funds declare a dividend, participants in the Plan will receive the equivalent in shares of Common Stock of each Fund. The Plan Agents will acquire the shares for the participant's account either (i) through receipt of additional unissued but authorized shares of each Fund ("newly issued shares") or (ii) by purchase of outstanding shares of Common Stock on the open market on the New York Stock Exchange or American Stock Exchange, as applicable or elsewhere. If, on the dividend payment date, each Fund's net asset value per share is equal to or less than the market price per share plus estimated brokerage commissions (a condition often referred to as a "market premium"), the Plan Agents will invest the dividend amount in newly issued shares. If the Funds' net asset value per share is greater than the market price per share (a condition often referred to as a "market discount"), the Plan Agents will invest the dividend amount by purchasing on the open market additional shares. If the Plan Agents are unable to invest the full dividend amount in open market purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Agents will invest any uninvested portion in newly issued shares. The shares acquired are credited to each shareholder's account. The amount credited is determined by dividing the dollar amount of the dividend by either (i) when the shares are newly issued, the net asset value per share on the date the shares are issued or (ii) when shares are purchased in the open market, the average purchase price per share.

Participation in the Plan--Participation in the Plan is automatic, that is, a shareholder is automatically enrolled in the Plan when he or she purchases shares of Common Stock of the Funds unless the shareholder specifically elects not to participate in the Plan. Shareholders who elect not to participate will receive all dividend distributions in cash. Shareholders who do not wish to participate in the Plan must advise their Plan Agent in writing (at the address set forth below) that they elect not to participate in the Plan. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by writing to the Plan Agent.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Benefits of the Plan--The Plan provides an easy, convenient way for shareholders to make additional, regular investments in the Funds. The Plan promotes a long-term strategy of investing at a lower cost. All shares acquired pursuant to the Plan receive voting rights. In addition, if the market price plus commissions of each Fund's shares is above the net asset value, participants in the Plan will receive shares of the Funds for less than they could otherwise purchase them and with a cash value greater than the value of any cash distribution they would have received. However, there may not be enough shares available in the market to make distributions in shares at prices below the net asset value. Also, since each Fund does not redeem shares, the price on resale may be more or less than the net asset value.

Plan Fees--There are no enrollment fees or brokerage fees for participating in the Plan. The Plan Agents' service fees for handling the reinvestment of distributions are paid for by the Funds. However, brokerage commissions may be incurred when the Funds purchase shares on the open market and shareholders will pay a pro rata share of any such commissions.

Tax Implications--The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Therefore, income and capital gains may still be realized even though shareholders do not receive cash. The value of shares acquired pursuant to the Plan will generally be excluded from gross income to the extent that the cash amount reinvested would be excluded from gross income. If, when the Funds' shares are trading at a market premium, the Funds issue shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of the discount from the market value (which may not exceed 5% of the fair market value of each Fund's shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

Contact Information--All correspondence concerning the Plan, including any questions about the Plan, should be directed to the Plan Agent at The Bank of New York, Church Street Station, P.O. Box 11258, New York, NY 10286-1258, Telephone: 800-432-8224 for BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. and Computershare Trust Company, N.A., P.O. Box 43010, Providence, RI 02940-3010, Telephone: 800-426-5523 for BlackRock MuniYield California Insured Fund, Inc.

ANNUAL REPORTS

OCTOBER 31, 2006

Disclosure of Investment Advisory Agreement (continued)

Disclosure of FAM Investment Advisory Agreements

The Board of Directors or the Board of Trustees, as pertinent, of each Fund met in August 2006 to consider approval of the Fund's investment advisory agreement with Fund Asset Management, L.P. ("FAM"), each Fund's investment adviser at that time.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

### Activities and Composition of the Boards

All but one member of the Board is an independent director/trustee whose only affiliation with FAM or other Merrill Lynch affiliates was as a director/trustee of the Fund and as a director or trustee of certain other funds advised by FAM or its affiliates. The Co-chairmen of each Board are also independent directors/trustees. New director/trustee nominees are chosen by a Nominating Committee comprised of independent directors/trustees. All independent directors/trustees also are members of each Board's Audit Committee, and the independent directors/trustees meet in executive session at each in-person Board meeting. Each Board and each Board's Audit Committee meet in person for at least two days each quarter and conduct other in-person and telephone meetings throughout the year, some of which are formal Board meetings and some of which are informational meetings. The independent counsel to the independent directors/trustees attends all in-person Board and Audit Committee meetings and other meetings at the independent directors'/trustees' request.

### FAM Investment Advisory Agreements--Matters Considered by the Boards

Every year, each Fund's Board considers approval of the Fund's investment advisory agreement. Each Board assesses the nature, scope and quality of the services provided to the Fund by the personnel of the investment adviser and its affiliates, including administrative services, shareholder services, oversight of fund accounting, marketing services and assistance in meeting legal and regulatory requirements. Each Board also receives and assesses information regarding the services provided to the Fund by certain unaffiliated service providers.

At various times throughout the year, each Board also considers a range of information in connection with its oversight of the services provided by the investment adviser and its affiliates. Among the matters considered are: (a) fees (in addition to management fees) paid to the investment adviser and its affiliates by the Fund; (b) Fund operating expenses paid to third parties; (c) the resources devoted to and compliance reports relating to each Fund's investment objective, policies and restrictions, and its compliance with its Code of Ethics and compliance policies and procedures; and (d) the nature, cost and character of non-investment management services provided by the investment adviser and its affiliates.

Each Board noted its view of FAM as one of the most experienced global asset management firms and considered the overall services provided by FAM to be of high quality. Each Board also noted its view of FAM as financially sound and well managed and noted FAM's affiliation with one of America's largest financial firms. Each Board works closely with the investment adviser in overseeing the investment adviser's efforts to achieve good performance. As part of this effort, each Board discusses portfolio manager effectiveness and, when performance is not satisfactory, discusses with the investment adviser taking steps such as changing investment personnel.

### Annual Consideration of Approval by the Boards

In the period prior to the Board meeting to consider renewal of the investment advisory agreement, each Board requests and receives materials specifically relating to the Fund's investment advisory agreement. These materials are prepared separately for each Fund and include (a) information compiled by Lipper Inc. ("Lipper") on the fees and expenses, investment performance and leverage of the Fund as compared to a comparable group of funds as classified by Lipper; (b) information comparing each Fund's market price with its net

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

asset value per share; (c) a discussion by the Fund's portfolio management team regarding investment strategies used by the Fund during its most recent fiscal year; (d) information on the profitability to the investment adviser and its affiliates of the investment advisory agreement and other relationships with the Fund; and (e) information provided by the investment adviser concerning investment advisory fees charged to other clients, such as retail closed-end funds, under similar investment mandates. Each Board also considers other matters it deems important to the approval process, such as payments made for services related to the valuation and pricing of Fund portfolio holdings, the Fund's portfolio turnover statistics, and direct and indirect benefits to the investment adviser and its affiliates from their relationship with the Fund.

### Certain Specific Renewal Data

In connection with the most recent renewal of each Fund's investment advisory agreement with FAM (each, a "FAM Investment Advisory Agreement") in August 2006, the independent directors'/trustees' and the Board's review included the following:

ANNUAL REPORTS

OCTOBER 31, 2006

Services Provided by the Investment Adviser--Each Fund's Board reviewed the nature, extent and quality of services provided by FAM, focusing on the investment advisory services and the resulting performance of the Fund. Each Board uses data provided by Lipper and by management in its review of advisory services. Each Board compared Fund performance - both including and excluding the effects of the Fund's fees and expenses - to the performance of a comparable group of funds and the performance of a relevant index or combination of indexes. While each Board reviews performance data at least quarterly, each Board attaches more importance to performance over relatively long periods of time, typically three to five years. Each Fund's Board concluded that the comparative data indicated that the Fund's performance was competitive. Considering all these factors, each Fund's Board concluded that the nature and quality of the services provided supported the continuation of the Fund's FAM Investment Advisory Agreement.

FAM's Personnel and Investment Process--Each Fund's Board reviewed the Fund's investment objectives and strategies. Each Board discussed with FAM's senior management responsible for investment operations and the senior management of FAM's municipal investing group the strategies being used to achieve the stated objectives. Among other things, each Board considered the size, education and experience of FAM's investment staff, its use of technology, and FAM's approach to training and retaining portfolio managers and other research, advisory and management personnel. Each Board also reviewed FAM's compensation policies and practices with respect to the Fund's portfolio managers. Each Board also considered the experience of the Fund's portfolio manager. The Board of MuniYield Arizona Fund, Inc. noted that Mr. Kalinoski has more than five years of experience in portfolio management. The Boards of MuniYield California Fund, Inc. and MuniYield California Insured Fund, Inc. noted that Mr. O'Connor has more than 15 years of experience in portfolio management. The Board of MuniYield Florida Fund noted that Mr. Sneed has more than ten years of experience in portfolio management. The Board of MuniYield Michigan Insured Fund II, Inc. noted that Mr. Stuebe has more than 15 years of experience in portfolio management. The Board of MuniYield New York Insured Fund, Inc. noted that Mr. Browse has more than five years of experience in portfolio management. Each Fund's Board concluded that FAM and

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

its investment staff have extensive experience in analyzing and managing the types of investments used by the Fund and that the Fund benefits from that experience.

Management Fees and Other Expenses--Each Fund's Board reviews the Fund's contractual management fee rate and actual management fee rate as a percentage of total assets at common asset levels - the actual rate includes advisory and administrative service fees and the effects of any fee waivers - compared to the other funds in its Lipper category. It also compares the Fund's total expenses to those of other comparable funds. Each Board considered the services provided to and the fees charged by FAM to other clients with similar investment mandates. The Boards of MuniYield Arizona Fund, Inc., MuniYield California Fund, Inc. and MuniYield Florida Fund noted that FAM had advised the Boards that, with respect to the pertinent Fund, it had no other comparable accounts with similar investment mandates. Each Fund's Board determined that the Fund's contractual and actual management fee rates, as well as total expenses, were competitive with those of comparable funds. Each Fund's Board concluded that the Fund's management fee rate and overall expense ratio were reasonable.

Profitability--Each Board considers the cost of the services provided to the Fund by the investment adviser and the investment adviser's and its affiliates' profits relating to the management and distribution of the Fund and the funds advised by the investment manager and its affiliates. As part of its analysis, each Fund's Board reviewed FAM's methodology in allocating its costs to the management of the Fund and concluded that there was a reasonable basis for the allocation. The Board concluded that the profits of FAM and its affiliates were acceptable in relation to the nature and quality of services provided.

Economies of Scale--Each Fund's Board considered the extent to which economies of scale might be realized as the assets of the Fund increase and whether there should be changes in the management fee rate or structure in order to enable the Fund to participate in these economies of scale. Each Fund's Board considered economies of scale to the extent applicable to the Fund's closed-end structure and determined that the Fund appropriately benefits from any economies of scale. Each Board determined that the management fee structure was reasonable and that no changes were currently necessary.

ANNUAL REPORTS

OCTOBER 31, 2006

Disclosure of Investment Advisory Agreement (concluded)

Conclusion

After the independent directors/trustees of each Board deliberated in executive session, the entire Board of each Fund, including all of the independent directors/trustees, approved the renewal of the pertinent FAM Investment Advisory Agreement, concluding that the advisory fee was reasonable in relation to the services provided and that a contract renewal was in the best interests of the shareholders.

Disclosure of New Investment Advisory Agreement

New BlackRock Investment Advisory Agreements--Matters Considered by the Boards

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

In connection with the combination of Merrill Lynch's investment advisory business, including Fund Asset Management, L.P. (the "Previous Investment Adviser"), with that of BlackRock, Inc. ("BlackRock") to create a new independent company ("New BlackRock") (the "Transaction"), each Fund's Board of Directors or Board of Trustees, as pertinent, considered and approved a new investment advisory agreement (each, a "BlackRock Investment Advisory Agreement") between the Fund and BlackRock Advisors, LLC ("BlackRock Advisors"). Each Fund's shareholders subsequently approved the Fund's BlackRock Investment Advisory Agreement and it became effective on September 29, 2006, replacing the Fund's investment advisory agreement with the Previous Investment Adviser (each, a "Previous Investment Advisory Agreement").

Each Fund's Board discussed the Fund's BlackRock Investment Advisory Agreement at telephonic and in-person meetings held during April and May 2006. Each Fund's Board, including the independent directors/trustees, approved the Fund's BlackRock Investment Advisory Agreement at an in-person meeting held on May 9, 2006.

To assist each Fund's Board in its consideration of the Fund's BlackRock Investment Advisory Agreement, BlackRock provided materials and information about BlackRock, including its financial condition and asset management capabilities and organization, and Merrill Lynch provided materials and information about the Transaction. Each Fund's independent directors/trustees, through their independent legal counsel, also requested and received additional information from Merrill Lynch and BlackRock in connection with their consideration of the Fund's BlackRock Investment Advisory Agreement. The additional information was provided in advance of the May 9, 2006 meetings. In addition, each Fund's independent directors/trustees consulted with their counsel and Fund counsel on numerous occasions, discussing, among other things, the legal standards and certain other considerations relevant to the directors'/trustees' deliberations.

At each Fund's Board meetings, the directors/trustees discussed with Merrill Lynch management and certain BlackRock representatives the Transaction, its strategic rationale and BlackRock's general plans and intentions regarding the Fund. At these Board meetings, representatives of Merrill Lynch and BlackRock made presentations to and responded to questions from the Boards. The directors/trustees also inquired about the plans for and anticipated roles and responsibilities of certain employees and officers of the Previous Investment Adviser, and of its affiliates, to be transferred to BlackRock in connection with the Transaction. The independent directors/trustees also conferred separately and with their counsel about the Transaction and other matters related to the Transaction on a number of occasions, including in connection with the April and May 2006 meetings. After the presentations and after reviewing the written materials provided, each Fund's independent directors/trustees met in executive sessions with their counsel to consider the Fund's BlackRock Investment Advisory Agreement.

In connection with the directors'/trustees' review of each Fund's BlackRock Investment Advisory Agreement, Merrill Lynch and/or BlackRock advised the directors/trustees about a variety of matters. The advice included the following, among other matters:

- \* that there was not expected to be any diminution in the nature, quality and extent of services provided to any of the Funds or their shareholders by BlackRock Advisors, including compliance services;

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

- \* that operation of New BlackRock as an independent investment management firm would enhance its ability to attract and retain talented professionals;
- \* that each Fund was expected to benefit from having access to BlackRock's state of the art technology and risk management analytic tools, including investment tools, provided under the BlackRock Solutions (R) brand name;
- \* that BlackRock had no present intention to alter any applicable expense waivers or reimbursements that were currently in effect and, while it reserved the right to do so in the future, it would seek Board approval before making any changes;
- \* that in connection with the Transaction, Merrill Lynch and BlackRock had agreed to conduct, and use reasonable best efforts to cause their respective affiliates to conduct, their respective businesses in compliance with the conditions of Section 15(f) of the Investment Company Act of 1940 (the "1940 Act") in relation to any public funds advised by BlackRock or the Previous Investment Adviser (or affiliates), respectively; and
- \* that Merrill Lynch and BlackRock would derive benefits from the Transaction and that, as a result, they had a financial interest in the matters being considered that was different from that of Fund shareholders.

The directors/trustees considered the information provided by Merrill Lynch and BlackRock above, and, among other factors, the following:

- \* the potential benefits to each Fund's shareholders from being part of a combined fund family with BlackRock-sponsored funds, including possible economies of scale and access to investment opportunities;
- \* the reputation, financial strength and resources of BlackRock and its investment advisory subsidiaries and the anticipated financial strength and resources of New BlackRock;
- \* the compliance policies and procedures of BlackRock Advisors;
- \* the terms and conditions of each Fund's BlackRock Investment Advisory Agreement, including the fact that no Fund's schedule of total advisory fees would increase under the pertinent BlackRock Investment Advisory Agreement, but would remain the same;
- \* that in August 2005, each Fund's Board had performed a full annual review of the pertinent Previous Investment Advisory Agreement, as required by the 1940 Act, and had determined that the Previous Investment Adviser had the capabilities, resources and personnel necessary to provide the advisory and administrative services that were then being provided to the Fund; and that the advisory and/or management fees paid by the Fund, taking into account any applicable agreed-upon fee waivers and breakpoints, had represented reasonable compensation to the Previous Investment Adviser in light of the services provided, the costs to the Previous Investment Adviser of providing those services, economies of scale, the fees and other expenses paid by similar funds (including information provided by Lipper Inc. ["Lipper"]), and such other matters as the directors/trustees had considered relevant in the exercise of their reasonable judgment; and
- \* that Merrill Lynch had agreed to pay all expenses of each Fund, in connection with the consideration by the Board of the Fund's BlackRock Investment Advisory Agreement and related agreements and all costs of shareholder approval of the BlackRock Investment Advisory Agreement and, as

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

a result, the Fund would bear no costs in obtaining shareholder approval of the BlackRock Investment Advisory Agreement.

Certain of these considerations are discussed in more detail below.

In its review of the Fund's BlackRock Investment Advisory Agreement, each Fund's Board assessed the nature, quality and scope of the services to be provided to the Fund by the personnel of BlackRock Advisors and its affiliates, including administrative services, shareholder services, oversight of fund accounting and assistance in meeting legal and regulatory requirements. In its review of the Fund's BlackRock Investment Advisory Agreement, each Fund's Board also considered a range of information in connection with its oversight of the services to be provided by BlackRock Advisors and its affiliates. Among the matters considered for each Fund were: (a) fees (in addition to management fees) to be paid to BlackRock Advisors and its affiliates by the Fund; (b) Fund operating expenses paid to third parties; (c) the resources devoted to and compliance reports relating to the Fund's investment objective, policies and restrictions, and its compliance with its Code of Ethics and BlackRock Advisors' compliance policies and procedures; and (d) the nature, cost and character of non-investment management services to be provided by BlackRock Advisors and its affiliates.

ANNUAL REPORTS

OCTOBER 31, 2006

Disclosure of New Investment Advisory Agreement (continued)

In the period prior to each Fund's Board meeting to consider renewal of the Fund's Previous Investment Advisory Agreement, the Board had requested and received materials specifically relating to the Previous Investment Advisory Agreement. For each Fund, these materials included (a) information compiled by Lipper on the fees and expenses and the investment performance of the Fund as compared to a comparable group of funds as classified by Lipper; (b) information comparing the Fund's market price with its net asset value per share; (c) a discussion by the Fund's portfolio management team on investment strategies used by the Fund during its most recent fiscal year; (d) information on the profitability to the Previous Investment Adviser of the Fund's Previous Investment Advisory Agreement and other payments received by the Previous Investment Adviser and its affiliates from the Fund; and (e) information provided by the Previous Investment Adviser concerning services related to the valuation and pricing of Fund portfolio holdings, the Fund's portfolio turnover statistics, and direct and indirect benefits to the Previous Investment Adviser and its affiliates from their relationship with the Fund.

In their deliberations, each Fund's directors/trustees considered information received in connection with their most recent approval of the continuance of the Fund's Previous Investment Advisory Agreement, in addition to information provided by BlackRock and BlackRock Advisors in connection with their evaluation of the terms and conditions of the Fund's BlackRock Investment Advisory Agreement. None of the Funds' directors/trustees identified any particular information that was all-important or controlling. Each Fund's directors/trustees, including a majority of the independent directors/trustees, concluded that the terms of the Fund's BlackRock Investment Advisory Agreement are appropriate, that the fees to be paid are reasonable in light of the services to be provided to the Fund, and that the BlackRock Investment Advisory Agreement should be approved and recommended to Fund shareholders.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Nature, Quality and Extent of Services Provided--Each Fund's Board reviewed the nature, quality and scope of services provided by the Previous Investment Adviser, including the investment advisory services and the resulting performance of the Fund, as well as the nature, quality and extent of services expected to be provided by BlackRock Advisors. Each Fund's Board focused primarily on the Previous Investment Adviser's investment advisory services and the Fund's investment performance, but also considered certain areas in which both the Previous Investment Adviser and the Fund received services as part of the Merrill Lynch complex. Each Fund's Board compared the Fund's performance - both including and excluding the effects of fees and expenses - to the performance of a comparable group of funds, and the performance of a relevant index or combination of indexes. While each Board reviews performance data at least quarterly, consistent with the Previous Investment Adviser's investment goals, the Board attaches more importance to performance over relatively long periods of time, typically three to five years.

In evaluating the nature, quality and extent of the services to be provided by BlackRock Advisors under each Fund's BlackRock Investment Advisory Agreement, the directors/trustees considered, among other things, the expected impact of the Transaction on the operations, facilities, organization and personnel of New BlackRock and how it would affect the Fund; the ability of BlackRock Advisors to perform its duties after the Transaction; and any anticipated changes to the investment and other practices of the Fund.

Each Fund's directors/trustees were given information with respect to the potential benefits to the Fund and its shareholders from having access to BlackRock's state of the art technology and risk management analytic tools, including the investment tools provided under the BlackRock Solutions brand name.

Each Fund's directors/trustees were advised that, as a result of Merrill Lynch's equity interest in BlackRock after the Transaction, the Fund would continue to be subject to restrictions concerning certain transactions involving Merrill Lynch affiliates (for example, transactions with a Merrill Lynch broker-dealer acting as principal) absent revised or new regulatory relief. Each Fund's directors/trustees were advised that a revision of existing regulatory relief with respect to these restrictions was being sought from the Securities and Exchange Commission and were advised of the possibility of the receipt of such revised regulatory relief.

ANNUAL REPORTS

OCTOBER 31, 2006

Based on their review of the materials provided and the assurances they had received from the management of Merrill Lynch and of BlackRock, each Fund's directors/trustees determined that the nature and quality of services to be provided to the Fund under the Fund's BlackRock Investment Advisory Agreement were expected to be as good as or better than that provided under the Fund's Previous Investment Advisory Agreement. The directors/trustees were advised that BlackRock Advisors did not plan to change any of the Funds' portfolio management team upon the closing of the transaction. It was noted, however, that other changes in personnel were expected to follow the Transaction and the combination of the operations of the Previous Investment Adviser and its affiliates with those of BlackRock. Each Fund's directors/trustees noted that if current portfolio managers or other personnel were to cease to be available prior to the closing of the Transaction, the Board would consider all available options, including seeking the investment advisory or other services of BlackRock affiliates. Accordingly, each Fund's directors/trustees concluded

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

that, overall, they were satisfied with assurances from BlackRock and BlackRock Advisors as to the expected nature, quality and extent of the services to be provided to the Fund under the Fund's BlackRock Investment Advisory Agreement.

Costs of Services Provided, Fees and Profitability--It was noted that, in conjunction with their recent review of the Fund's Previous Investment Advisory Agreement, each Fund's directors/trustees had received, among other things, a report from Lipper comparing the Fund's fees and expenses to those of a peer group selected by Lipper, and information as to the fees charged by the Previous Investment Adviser or its affiliates to other registered investment company clients for investment management services. Each Fund's Board reviewed the Fund's contractual management fee rate and actual management fee rate as a percentage of total assets at common asset levels - the actual rate includes advisory fees and the effects of any fee waivers - compared to the other funds in its Lipper category. Each Fund's Board also compared the Fund's total expenses to those of other comparable funds. The information showed that each Fund had fees and expenses within the range of fees and expenses of comparable funds. Each Fund's Board considered the services to be provided by and the fees to be charged by BlackRock Advisors to other funds with similar investment mandates and noted that the fees charged by BlackRock Advisors in those cases, including fee waivers and expense reimbursements, were generally comparable to those being charged to the Fund. Each Fund's Board concluded that the Fund's management fee and fee rate and overall expense ratio are reasonable compared to those of other comparable funds.

In evaluating the costs of the services to be provided by BlackRock Advisors under the Fund's BlackRock Investment Advisory Agreement, each Fund's directors/trustees considered, among other things, whether advisory fees or other expenses would change as a result of the Transaction. Based on their review of the materials provided and the fact that the Fund's BlackRock Investment Advisory Agreement is substantially similar to the Fund's Previous Investment Advisory Agreement in all material respects, including the rate of compensation, each Fund's directors/trustees determined that the Transaction should not increase the total fees payable, including any fee waivers or after any expense caps or expense reimbursements, for advisory and administrative services. Each Fund's directors/trustees noted that it was not possible to predict how the Transaction would affect BlackRock Advisors' profitability from its relationship with the Fund.

Each Fund's directors/trustees discussed with BlackRock Advisors its general methodology to be used in determining its profitability with respect to its relationship with the Fund. Each Fund's directors/trustees noted that they expect to receive profitability information from BlackRock Advisors on at least an annual basis.

Economies of Scale--Each Fund's Board considered the extent to which economies of scale might be realized as the assets of the Fund increase and whether there should be changes in the management fee rate or structure in order to enable the Fund to participate in these economies of scale. The Board considered economies of scale to the extent applicable to each Fund's closed-end structure and determined that each Fund appropriately benefits from any economies of scale and no changes were currently necessary.

Fall-Out Benefits--Each Fund's directors/trustees considered whether the fund would generate any fall-out benefits to BlackRock Advisors. Fall-out benefits are indirect profits from other activities that accrue to a fund's investment adviser or its affiliates solely because of the existence of the fund. In evaluating the fall-out benefits to be received by BlackRock Advisors under the Fund's BlackRock Investment Advisory Agreement, each Fund's directors/trustees considered whether BlackRock Advisors would experience such benefits to the same extent that the Previous Investment Adviser was

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

experiencing such benefits under the Fund's Previous Investment Advisory Agreement. Based on their review of the materials provided, including materials received in connection with their most recent approval of the continuance of the Fund's Previous Investment Advisory Agreement, and their discussions with management of the Previous Investment Adviser and BlackRock, each Fund's directors/trustees determined that BlackRock Advisors' fall-out benefits could include increased ability for BlackRock to distribute shares of its funds and other investment products. The directors/trustees noted that any fall-out benefits were difficult to quantify with certainty.

ANNUAL REPORTS

OCTOBER 31, 2006

Disclosure of New Investment Advisory Agreement (concluded)

Investment Performance--Each Fund's Board considered investment performance for the Fund. Each Fund's directors/trustees compared the Fund's performance - both including and excluding the effects of fees and expenses - to the performance of a comparable group of funds, and the performance of a relevant index or combination of indexes. The comparative information received from Lipper showed each Fund's performance at various levels within the range of performance of comparable funds over different time periods. Each Fund's directors/trustees believed the Fund's performance was satisfactory. Also, each Board took into account the investment performance of funds advised by BlackRock Advisors. Each Board considered comparative information from Lipper which showed that the performance of the funds advised by BlackRock Advisors was within the range of performance of comparable funds over different time periods. Each Fund's Board noted BlackRock's considerable investment management experience and capabilities, but was unable to predict what effect, if any, consummation of the Transaction would have on the future performance of the Fund.

Conclusion--After the independent directors/trustees of each Fund deliberated in executive session, the Fund's entire Board, including the independent directors/trustees, approved the Fund's BlackRock Investment Advisory Agreement, concluding that the advisory fee rate was reasonable in relation to the services provided and that the BlackRock Investment Advisory Agreement was in the best interests of the shareholders. In approving the Fund's BlackRock Investment Advisory Agreement, each Fund's Board noted that it anticipated reviewing the continuance of the agreement in advance of the expiration of the initial two-year period.

New BlackRock Sub-Advisory Agreements--Matters Considered by the Boards

At an in-person meeting held on August 22-23, 2006, each Fund's Board of Directors or Board of Trustees, as pertinent, including the independent directors/trustees, discussed and approved the Fund's sub-advisory agreement (each, a "BlackRock Sub-Advisory Agreement") between BlackRock Advisors and its affiliate, BlackRock Investment Management, LLC (the "Sub-Adviser"). Each Fund's BlackRock Sub-Advisory Agreement became effective on September 29, 2006, at the same time the Fund's BlackRock Investment Advisory Agreement became effective.

Pursuant to each Fund's BlackRock Sub-Advisory Agreement, the Sub-Adviser receives a monthly fee from BlackRock Advisors equal to 59% of the advisory fee received by BlackRock Advisors from the Fund. BlackRock Advisors pays the Sub-Adviser out of its own resources, and there is no increase in the expenses

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

of any of the Funds as a result of the Fund's BlackRock Sub-Advisory Agreement.

In approving the Fund's BlackRock Sub-Advisory Agreement at the August in person meeting, each Fund's Board reviewed its considerations in connection with its approval of the Fund's BlackRock Investment Advisory Agreement in May 2006. Each Fund's Board relied on the same information and considered the same factors as those discussed above in connection with the approval of the Fund's BlackRock Investment Advisory Agreement, and came to the same conclusion. In reviewing the sub-advisory fee rate provided in each Fund's BlackRock Sub-Advisory Agreement, the Fund's Board noted the fact that both BlackRock Advisors and the Sub-Adviser have significant responsibilities under their respective advisory agreements. BlackRock Advisors remains responsible for oversight of each Fund's operations and administration, and the Sub-Adviser provides advisory services to the Fund and is responsible for the day-to-day management of the Fund's portfolio under the Fund's BlackRock Sub-Advisory Agreement. Each Fund's Board also took into account the fact that there is no increase in total advisory fees paid by the Fund as a result of the Fund's BlackRock Sub-Advisory Agreement. Under all of the circumstances, each Fund's Board concluded that it was a reasonable allocation of fees for the Sub-Adviser to receive 59% of the advisory fee paid by the Fund to BlackRock Advisors.

After each Fund's independent directors/trustees deliberated in executive session, each Fund's entire Board, including the independent directors/trustees, approved the Fund's BlackRock Sub-Advisory Agreement, concluding that the sub-advisory fee was reasonable in relation to the services provided and that the BlackRock Sub-Advisory Agreement was in the best interests of shareholders.

ANNUAL REPORTS

OCTOBER 31, 2006

### The Benefits and Risks of Leveraging

The Funds utilize leveraging to seek to enhance the yield and net asset value of their Common Shares/Common Stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Funds issue Preferred Shares/Stock, which pay dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments, net of dividends to Preferred Shares/Stock, is paid to Common Shareholders/Common Stock shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the Funds' Common Shares/Stock. However, in order to benefit Common Shareholders/Common Stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders/Common Stock shareholders. If either of these conditions change, then the risks of leveraging will begin to outweigh the benefits.

To illustrate these concepts, assume a fund's Common Shares/Stock capitalization of \$100 million and the issuance of Preferred Shares/Stock for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays dividends on the \$50 million of Preferred Shares/Stock based on the lower short-term interest

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the dividends paid to Preferred Shareholders/ Preferred Stock shareholders are significantly lower than the income earned on the fund's long-term investments, and therefore the Common Shareholders/Common Stock shareholders are the beneficiaries of the incremental yield. However, if short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental yield pickup on the Common Shares/ Stock will be reduced or eliminated completely. At the same time, the market value of the fund's Common Shares/Stock (that is, its price as listed on the New York Stock Exchange or the American Stock Exchange) may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Shares'/ Stocks' net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the fund's Preferred Shares/Stock does not fluctuate. In addition to the decline in net asset value, the market value of the fund's Common Shares/Stock may also decline. As of October 31, 2006, BlackRock MuniYield Arizona Fund, Inc., BlackRock MuniYield California Fund, Inc., BlackRock MuniYield California Insured Fund, Inc. BlackRock MuniYield Florida Fund, BlackRock MuniYield Michigan Insured Fund II, Inc. and BlackRock MuniYield New York Insured Fund, Inc. had leverage amounts, due to Auction Market Preferred Shares/Stock, of 38.05%, 35.23%, 34.65%, 34.94%, 35.97% and 34.86% of total net assets, respectively, before the deduction of Preferred Shares/Stock.

As a part of their investment strategy, the Funds may invest in certain securities whose potential income return is inversely related to changes in a floating interest rate ("inverse floaters"). In general, income on inverse floaters will decrease when short-term interest rates increase and increase when short-term interest rates decrease. Investments in inverse floaters may be characterized as derivative securities and may subject the Funds to the risks of reduced or eliminated interest payments and losses of invested principal. In addition, inverse floaters have the effect of providing investment leverage and, as a result, the market value of such securities will generally be more volatile than that of fixed rate, tax-exempt securities. To the extent the Funds invest in inverse floaters, the market value of each Fund's portfolio and the net asset value of each Fund's shares may also be more volatile than if the Funds did not invest in these securities.

### Blackrock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, "Clients") and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal nonpublic information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our Web sites.

BlackRock does not sell or disclose to nonaffiliated third parties any nonpublic personal information about its Clients, except as permitted by law or as is necessary to service Client accounts. These nonaffiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

### Availability of Quarterly Schedule of Investments

The Funds file their complete schedules of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Funds' Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

### Electronic Delivery

Electronic copies of most financial reports and prospectuses are available on the Funds' Web site. Shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports and prospectuses by enrolling in the Funds' electronic delivery program.

To enroll:

Shareholders Who Hold Accounts with Investment Advisers, Banks or Brokerages:

Please contact your financial adviser. Please note that not all investment advisers, banks or brokerages may offer this service.

### ANNUAL REPORTS

OCTOBER 31, 2006

Item 2 - Code of Ethics - The registrant has adopted a code of ethics, as of the end of the period covered by this report, that applies to the registrant's principal executive officer, principal financial officer and principal accounting officer, or persons performing similar functions. A copy of the code of ethics is available without charge at [www.blackrock.com](http://www.blackrock.com).

Item 3 - Audit Committee Financial Expert - The registrant's board of directors has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent: (1) Joe Grills, (2) Robert S. Salomon, Jr., and (3) Stephen B. Swensrud (retired as of December 31, 2005).

Item 4 - Principal Accountant Fees and Services

(a) Audit Fees -	Fiscal Year Ending October 31, 2006 - \$30,600
	Fiscal Year Ending October 31, 2005 - \$30,000

(b) Audit-Related Fees -

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

Fiscal Year Ending October 31, 2006 - \$3,500  
Fiscal Year Ending October 31, 2005 - \$19,900

The nature of the services include professional services rendered in connection with the registration and issuance of new AMP series of the Fund, and compliance procedures associated with the Fund's AMPS.

(c) Tax Fees - Fiscal Year Ending October 31, 2006 - \$6,000  
Fiscal Year Ending October 31, 2005 - \$5,700

The nature of the services include tax compliance, tax advice and tax planning.

(d) All Other Fees - Fiscal Year Ending October 31, 2006 - \$0  
Fiscal Year Ending October 31, 2005 - \$0

(e) (1) The registrant's audit committee (the "Committee") has adopted policies and procedures with regard to the pre-approval of services. Audit, audit-related and tax compliance services provided to the registrant on an annual basis require specific pre-approval by the Committee. The Committee also must approve other non-audit services provided to the registrant and those non-audit services provided to the registrant's affiliated service providers that relate directly to the operations and the financial reporting of the registrant. Certain of these non-audit services that the Committee believes are a) consistent with the SEC's auditor independence rules and b) routine and recurring services that will not impair the independence of the independent accountants may be approved by the Committee without consideration on a specific case-by-case basis ("general pre-approval"). However, such services will only be deemed pre-approved provided that any individual project does not exceed \$5,000 attributable to the registrant or \$50,000 for all of the registrants the Committee oversees. Any proposed services exceeding the pre-approved cost levels will require specific pre-approval by the Committee, as will any other services not subject to general pre-approval (e.g., unanticipated but permissible services). The Committee is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting.

(e) (2) 0%

(f) Not Applicable

(g) Fiscal Year Ending October 31, 2006 - \$3,204,783  
Fiscal Year Ending October 31, 2005 - \$6,277,749

(h) The registrant's audit committee has considered and determined that the provision of non-audit services that were rendered to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Regulation S-X Rule 2-01(c) (7) (ii) - \$1,739,500, 0%

Item 5 - Audit Committee of Listed Registrants - The following individuals are members of the registrant's separately-designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Exchange Act (15 U.S.C. 78c(a) (58) (A)):

Stephen B. Swensrud (retired as of December 31, 2005)

Item 6 - Schedule of Investments - Not Applicable

Item 7 - Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies - Proxy Voting Policies and Procedures

Each Fund's Board of Directors has delegated to the Manager authority to vote all proxies relating to the Fund's portfolio securities. The Manager has adopted policies and procedures (the "Proxy Voting Procedures") with respect to the voting of proxies related to the portfolio securities held in the account of one or more of its clients, including a Fund. Pursuant to these Proxy Voting Procedures, the Manager's primary objective when voting proxies is to make proxy voting decisions solely in the best interests of each Fund and its shareholders, and to act in a manner that the Manager believes is most likely to enhance the economic value of the securities held by the Fund. The Proxy Voting Procedures are designed to ensure that the Manager considers the interests of its clients, including each Fund, and not the interests of the Manager, when voting proxies and that real (or perceived) material conflicts that may arise between the Manager's interest and those of the Manager's clients are properly addressed and resolved.

In order to implement the Proxy Voting Procedures, the Manager has formed a Proxy Voting Committee (the "Committee"). The Committee, which is a subcommittee of the Manager's Equity Investment Policy Oversight Committee ("EIPOC"), is comprised of a senior member of the Manager's equity management group who is also a member of EIPOC, one or more other senior investment professionals appointed by EIPOC, portfolio managers and investment analysts appointed by EIPOC and any other personnel EIPOC deems appropriate. The Committee will also include two non-voting representatives from the Manager's Legal Department appointed by the Manager's General Counsel. The Committee's membership shall be limited to full-time employees of the Manager. No person with any investment banking, trading, retail brokerage or research responsibilities for the Manager's affiliates may serve as a member of the Committee or participate in its decision making (except to the extent such person is asked by the Committee to present information to the Committee on the same basis as other interested knowledgeable parties not affiliated with the Manager might be asked to do so). The Committee determines how to vote the proxies of all clients, including a Fund, that have delegated proxy voting authority to the Manager and seeks to ensure that all votes are consistent with the best interests of those clients and are free from unwarranted and inappropriate influences. The Committee establishes general proxy voting policies for the Manager and is responsible for determining how those policies are applied to specific proxy votes, in light of each issuer's unique structure, management, strategic options and, in certain circumstances, probable economic and other anticipated consequences of alternate actions. In so doing, the Committee may determine to vote a particular proxy in a manner contrary to its generally stated policies. In addition, the Committee will be responsible for

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

ensuring that all reporting and recordkeeping requirements related to proxy voting are fulfilled.

The Committee may determine that the subject matter of a recurring proxy issue is not suitable for general voting policies and requires a case-by-case determination. In such cases, the Committee may elect not to adopt a specific voting policy applicable to that issue. The Manager believes that certain proxy voting issues require investment analysis - such as approval of mergers and other significant corporate transactions - akin to investment decisions, and are, therefore, not suitable for general guidelines. The Committee may elect to adopt a common position for the Manager on certain proxy votes that are akin to investment decisions, or determine to permit the portfolio manager to make individual decisions on how best to maximize economic value for a Fund (similar to normal buy/sell investment decisions made by such portfolio managers). While it is expected that the Manager will generally seek to vote proxies over which the Manager exercises voting authority in a uniform manner for all the Manager's clients, the Committee, in conjunction with a Fund's portfolio manager, may determine that the Fund's specific circumstances require that its proxies be voted differently.

To assist the Manager in voting proxies, the Committee has retained Institutional Shareholder Services ("ISS"). ISS is an independent adviser that specializes in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided to the Manager by ISS include in-depth research, voting recommendations (although the Manager is not obligated to follow such recommendations), vote execution, and recordkeeping. ISS will also assist the Fund in fulfilling its reporting and recordkeeping obligations under the Investment Company Act.

The Manager's Proxy Voting Procedures also address special circumstances that can arise in connection with proxy voting. For instance, under the Proxy Voting Procedures, the Manager generally will not seek to vote proxies related to portfolio securities that are on loan, although it may do so under certain circumstances. In addition, the Manager will vote proxies related to securities of foreign issuers only on a best efforts basis and may elect not to vote at all in certain countries where the Committee determines that the costs associated with voting generally outweigh the benefits. The Committee may at any time override these general policies if it determines that such action is in the best interests of a Fund.

From time to time, the Manager may be required to vote proxies in respect of an issuer where an affiliate of the Manager (each, an "Affiliate"), or a money management or other client of the Manager, including investment companies for which the Manager provides investment advisory, administrative and/or other services (each, a "Client"), is involved. The Proxy Voting Procedures and the Manager's adherence to those procedures are designed to address such conflicts of interest. The Committee intends to strictly adhere to the Proxy Voting Procedures in all proxy matters, including matters involving Affiliates and Clients. If, however, an issue representing a non-routine matter that is material to an Affiliate or a widely known Client is involved such that the Committee does not reasonably believe it is able to follow its guidelines (or if the particular proxy matter is not addressed by the guidelines) and vote impartially, the Committee may, in its discretion for the purposes of ensuring that an independent determination is reached, retain an

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

independent fiduciary to advise the Committee on how to vote or to cast votes on behalf of the Manager's clients.

In the event that the Committee determines not to retain an independent fiduciary, or it does not follow the advice of such an independent fiduciary, the Committee may pass the voting power to a subcommittee, appointed by EIPOC (with advice from the Secretary of the Committee), consisting solely of Committee members selected by EIPOC. EIPOC shall appoint to the subcommittee, where appropriate, only persons whose job responsibilities do not include contact with the Client and whose job evaluations would not be affected by the Manager's relationship with the Client (or failure to retain such relationship). The subcommittee shall determine whether and how to vote all proxies on behalf of the Manager's clients or, if the proxy matter is, in their judgment, akin to an investment decision, to defer to the applicable portfolio managers, provided that, if the subcommittee determines to alter the Manager's normal voting guidelines or, on matters where the Manager's policy is case-by-case, does not follow the voting recommendation of any proxy voting service or other independent fiduciary that may be retained to provide research or advice to the Manager on that matter, no proxies relating to the Client may be voted unless the Secretary, or in the Secretary's absence, the Assistant Secretary of the Committee concurs that the subcommittee's determination is consistent with the Manager's fiduciary duties.

In addition to the general principles outlined above, the Manager has adopted voting guidelines with respect to certain recurring proxy issues that are not expected to involve unusual circumstances. These policies are guidelines only, and the Manager may elect to vote differently from the recommendation set forth in a voting guideline if the Committee determines that it is in a Fund's best interest to do so. In addition, the guidelines may be reviewed at any time upon the request of a Committee member and may be amended or deleted upon the vote of a majority of Committee members present at a Committee meeting at which there is a quorum.

The Manager has adopted specific voting guidelines with respect to the following proxy issues:

\* Proposals related to the composition of the board of directors of issuers other than investment companies. As a general matter, the Committee believes that a company's board of directors (rather than shareholders) is most likely to have access to important, nonpublic information regarding a company's business and prospects, and is, therefore, best-positioned to set corporate policy and oversee management. The Committee, therefore, believes that the foundation of good corporate governance is the election of qualified, independent corporate directors who are likely to diligently represent the interests of shareholders and oversee management of the corporation in a manner that will seek to maximize shareholder value over time. In individual cases, the Committee may look at a nominee's number of other directorships, history of representing shareholder interests as a director of other companies or other factors, to the extent the Committee deems relevant.

\* Proposals related to the selection of an issuer's independent auditors. As a general matter, the Committee believes that corporate auditors have a responsibility to represent the interests of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While the Committee will generally defer to a corporation's choice of auditor,

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

in individual cases, the Committee may look at an auditors' history of representing shareholder interests as auditor of other companies, to the extent the Committee deems relevant.

\* Proposals related to management compensation and employee benefits. As a general matter, the Committee favors disclosure of an issuer's compensation and benefit policies and opposes excessive compensation, but believes that compensation matters are normally best determined by an issuer's board of directors, rather than shareholders. Proposals to "micro-manage" an issuer's compensation practices or to set arbitrary restrictions on compensation or benefits will, therefore, generally not be supported.

\* Proposals related to requests, principally from management, for approval of amendments that would alter an issuer's capital structure. As a general matter, the Committee will support requests that enhance the rights of common shareholders and oppose requests that appear to be unreasonably dilutive.

\* Proposals related to requests for approval of amendments to an issuer's charter or by-laws. As a general matter, the Committee opposes poison pill provisions.

\* Routine proposals related to requests regarding the formalities of corporate meetings.

\* Proposals related to proxy issues associated solely with holdings of investment company shares. As with other types of companies, the Committee believes that a fund's board of directors (rather than its shareholders) is best positioned to set fund policy and oversee management. However, the Committee opposes granting boards of directors authority over certain matters, such as changes to a fund's investment objective, which the Investment Company Act envisions will be approved directly by shareholders.

\* Proposals related to limiting corporate conduct in some manner that relates to the shareholder's environmental or social concerns. The Committee generally believes that annual shareholder meetings are inappropriate forums for discussion of larger social issues, and opposes shareholder resolutions "micromanaging" corporate conduct or requesting release of information that would not help a shareholder evaluate an investment in the corporation as an economic matter. While the Committee is generally supportive of proposals to require corporate disclosure of matters that seem relevant and material to the economic interests of shareholders, the Committee is generally not supportive of proposals to require disclosure of corporate matters for other purposes.

Information about how a Fund voted proxies relating to securities held in the Fund's portfolio during the most recent 12 month period ended October 31 is available without charge (1) at [www.blackrock.com](http://www.blackrock.com) and (2) on the Commission's web site at <http://www.sec.gov>.

Item 8 - Portfolio Managers of Closed-End Management Investment Companies - as of October 31, 2006.

(a) (1) BlackRock MuniYield New York Insured Fund, Inc. is managed by a team of investment professionals comprised of Timothy T. Browse, Vice President at BlackRock, Theodore R. Jaekel, Jr., CFA, Managing Director at BlackRock, and Walter O'Connor, Managing Director at BlackRock. Each is a member of BlackRock's municipal tax-exempt

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

management group. Mr. Jaeckel and Mr. O'Connor are responsible for setting the Fund's overall investment strategy and overseeing the management of the Fund. Mr. Browse is the Fund's lead portfolio manager and is responsible for the day-to-day management of the Fund's portfolio and the selection of its investments. Messrs. Jaeckel and O'Connor have been members of the Fund's management team since 2006 and Mr. Browse has been the Fund's portfolio manager since 2004.

Mr. Jaeckel joined BlackRock in 2006. Prior to joining BlackRock, he was a Managing Director (Municipal Tax-Exempt Fund Management) of Merrill Lynch Investment Managers, L.P. ("MLIM") from 2005 to 2006 and a Director of MLIM from 1997 to 2005. He has been a portfolio manager with BlackRock or MLIM since 1991.

Mr. O'Connor joined BlackRock in 2006. Prior to joining BlackRock, he was a Managing Director (Municipal Tax-Exempt Fund Management) of MLIM from 2003 to 2006 and was a Director of MLIM from 1997 to 2002. He has been a portfolio manager with BlackRock or MLIM since 1991.

Mr. Browse joined BlackRock in 2006. Prior to joining BlackRock, he was a Vice President (Municipal Tax-Exempt Fund Management) of MLIM from 2004 to 2006. He has been a portfolio manager with BlackRock or MLIM since 2004.

(a) (2) As of October 31, 2006:

(i) Name of Portfolio Manager	(ii) Number of Other Accounts Managed and Assets by Account Type			(iii) Number of Other Assets for Which Advisory Performance-Based	
	Other Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts	Other Registered Investment Companies	Other Investment Vehicles
Timothy T. Browse	17 \$ 3,742,108,866	0 \$ 0	0 \$ 0	0 \$ 0	\$
Theodore R. Jaeckel, Jr.	82 \$ 29,643,631,503	0 \$ 0	0 \$ 0	0 \$ 0	\$
Walter O'Connor	82 \$29,643,631,503	0 \$ 0	0 \$ 0	0 \$ 0	\$

(iv) Potential Material Conflicts of Interest

BlackRock has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, its affiliates and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock's (or its affiliates') officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for the Fund. In this connection, it should be noted that certain portfolio managers currently manage certain accounts that are subject to performance fees. In addition, certain portfolio managers assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a) (3) As of October 31, 2006:

### Portfolio Manager Compensation

The portfolio manager compensation program of BlackRock and its affiliates, including the Investment Adviser, is critical to BlackRock's ability to attract and retain the most talented asset management professionals. This program ensures that compensation is aligned with maximizing investment returns and it provides a competitive pay opportunity for competitive performance.

### Compensation Program

The elements of total compensation for certain BlackRock and its affiliates portfolio managers are a fixed base salary, annual performance-based cash and stock compensation (cash and stock bonus) and other benefits. BlackRock has balanced these components of pay to provide portfolio managers with a powerful incentive to achieve consistently superior investment performance. By design, portfolio manager compensation levels fluctuate--both up and down--with the relative investment performance of the portfolios that they manage.

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

### Base Salary

Under the BlackRock approach, like that of many asset management firms, base salaries represent a relatively small portion of a portfolio manager's total compensation. This approach serves to enhance the motivational value of the performance-based (and therefore variable) compensation elements of the compensation program.

### Performance-Based Compensation

BlackRock believes that the best interests of investors are served by recruiting and retaining exceptional asset management talent and managing their compensation within a consistent and disciplined framework that emphasizes pay for performance in the context of an intensely competitive market for talent. To that end, certain BlackRock and its affiliates portfolio manager incentive compensation is based on a formulaic compensation program.

BlackRock's formulaic portfolio manager compensation program includes: investment performance relative to a subset of general closed-end, New York insured municipal debt funds over 1-, 3- and 5-year performance periods and a measure of operational efficiency. Portfolio managers are compensated based on the pre-tax performance of the products they manage. If a portfolio manager's tenure is less than 5-years, performance periods will reflect time in position. Portfolio managers are compensated based on the products they manage. A discretionary element of portfolio manager compensation may include consideration of: financial results, expense control, profit margins, strategic planning and implementation, quality of client service, market share, corporate reputation, capital allocation, compliance and risk control, leadership, workforce diversity, supervision, technology and innovation. All factors are considered collectively by BlackRock management.

### Cash Bonus

Performance-based compensation is distributed to portfolio managers in a combination of cash and stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for portfolio managers.

### Stock Bonus

A portion of the dollar value of the total annual performance-based bonus is paid in restricted shares of BlackRock stock. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year "at risk" based on the Company's ability to sustain and improve its performance over future periods.

The ultimate value of stock bonuses is dependent on future BlackRock stock price performance. As such, the stock bonus aligns each portfolio manager's financial interests with those of BlackRock shareholders and encourages a balance between short-term goals and long-term strategic objectives. Management strongly believes that providing a significant portion of competitive performance-based compensation in stock is in the best interests of investors and shareholders. This approach ensures that portfolio managers participate as shareholders in both the "downside risk" and "upside opportunity" of the Company's performance. Portfolio managers therefore have a direct incentive to protect BlackRock's reputation for integrity.

### Other Compensation Programs

Portfolio managers who meet relative investment performance and financial management objectives during a performance year are eligible to participate in a deferred cash program. Awards under this program are in the form of deferred cash that may be benchmarked to a menu of certain BlackRock mutual funds (including their own funds) during a five-year vesting period. The deferred cash program aligns the interests of participating portfolio managers with the investment results of BlackRock products and promotes continuity of successful

portfolio management teams.

### Other Benefits

Portfolio managers are also eligible to participate in broad-based plans offered generally to BlackRock employees, including broad-based retirement, 401(k), health, and other employee benefit plans.

(a) (4) Beneficial Ownership of Securities. As of October 31, 2006, neither of Messrs. Browse, Jaeckel and O'Connor beneficially owns any stock issued by the Fund.

Item 9 - Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers - Not Applicable

Item 10 - Submission of Matters to a Vote of Security Holders - Not Applicable

Item 11 - Controls and Procedures

11(a) - The Registrant's principal executive and principal financial officers have evaluated the Registrant's disclosure controls and procedures, including internal control over financial reporting, within 90 days of this filing. Such principal officers have concluded that the Registrant's disclosure controls and procedures were effective in design and operation to reasonably ensure that information required to be disclosed by the Registrant in this Form N-CSR was recorded, processed, summarized, and reported within the required time periods, and were sufficient to form the basis of the certifications required by Rule 30a-(2) of the Investment Company Act of 1940, as amended. Prior to reaching that conclusion, such principal officers had become aware of matters relating to the Registrant's participation in certain inverse floater structures that necessitated adjustments to financial information included in Item 1 of this filing. As a result, management of the Registrant has reevaluated certain disclosure controls and procedures determined not to be effective, as discussed more fully below.

Management of the Registrant is responsible for establishing and maintaining effective internal control over financial reporting. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls. The Registrant's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Such internal control includes policies and procedures that provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of a registrant's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that

## Edgar Filing: MUNIYIELD NEW YORK INSURED FUND INC - Form N-CSR

adversely affects the Registrant's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Registrant's annual or interim financial statements that is more than inconsequential will not be prevented or detected. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

Prior to the filing of this Form N-CSR, the Registrant identified the following control deficiency, that was determined to be a material weakness, as defined above, in the Registrant's internal control over financial reporting. The Registrant's controls related to the review and analysis of relevant terms and conditions of transfers of certain assets pertaining to inverse floater structures were not operating effectively to appropriately determine whether the transfers of assets qualified for sale accounting under the provisions of Statement of Financial Accounting Standards No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" ("SFAS 140"). Accordingly, the Registrant's financial statements as of and for the period ended October 31, 2006, including prior periods where applicable, were adjusted prior to being issued to appropriately reflect transfers of such securities as secured borrowings and to report the related income and expense. These adjustments had no impact on net assets, net asset value per share or total return.

Management of the Registrant believes that subsequent to the adjustments, the Registrant's accounting treatment of such transfers is appropriate under SFAS 140. Additionally, management of the Registrant is taking such further actions as are necessary to enhance its internal control over financial reporting, and in doing so, increase the effectiveness of such controls, so that such transfers of assets are reviewed and evaluated appropriately under the provisions of SFAS 140.

11(b) - There have been no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the second half of the Registrant's fiscal year that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting. However, as discussed above, subsequent to October 31, 2006, the Registrant is further enhancing controls related to the application of SFAS 140.

Item 12 - Exhibits attached hereto

12(a) (1) - Code of Ethics - See Item 2

12(a) (2) - Certifications - Attached hereto

12(a) (3) - Not Applicable

12(b) - Certifications - Attached hereto

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
