PRESS RELEASE

Sweden

A bus contract for Veolia Transport in the Göteborg region

Paris, September 24, 2009. Veolia Transport has been awarded the bus operating contract for the Västra Götaland Region, west of Göteborg, Sweden, following a call for tenders issued by the region's transport organizing authority. The 8-year contract will commence in June 2010 and will generate annual revenues of around 30 million euros.

Veolia Transport won thanks to its response in terms of quality of service, notably safety aboard its vehicles, comfort of bus stops, punctuality, maintenance, and onboard passenger information.

The bus fleet of roughly 100 buses will be renewed progressively. Over time, vehicles will be fitted with surveillance cameras and air conditioning. Working with Veolia Transport, the municipality's goal is to cut CO₂ emissions by using vehicles running on either biogas or biodiesel.

The Västra Götaland Region's goals dovetail perfectly with the role and ambitions Veolia Transport proposes to the municipalities it partners. Coming on top of our ferry service operation, we are delighted with this expansion of our presence in the Göteborg region, says Cyrille du Peloux, Chief Executive Officer of Veolia Transport.

Veolia Transport

Edgar Filing: VEOLIA ENVIRONNEMENT - Form 6-K

Veolia Environnement's transport division operates in 28 countries and employs 83,654 people. Veolia Transport posted revenue of 6,1 billion in 2008. Veolia Transport operates 40,675 road and rail vehicles and carries more than 2,6 billion passengers per year. Veolia Transport contributes to remedy the shortage of urban space and avoids 4.1 million metric tons of greenhouse gas emissions (equivalent CO₂) per year. www.veolia-transport.com

Veolia Environnement

Veolia Environnement (Paris Euronext: VIE and NYSE: VE) is the worldwide reference in environmental services. With more than 336,000 employees the company has operations all around the world and provides tailored solutions to meet the needs of municipal and industrial customers in four complementary segments: water management, waste management, energy management and freight and passenger transportation.
