Form 10-Q  
May 15, 2008

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549**

**FORM 10-Q**

**Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**

For the quarterly period ended March 31, 2008

**Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: **000-19202**

**ChoiceOne Financial Services, Inc.**  
(Exact Name of Registrant as Specified in its Charter)

**Michigan**  
(State or Other Jurisdiction of  
Incorporation or Organization)

**38-2659066**  
(I.R.S. Employer Identification No.)

**109 East Division  
Sparta, Michigan**  
(Address of Principal Executive Offices)

**49345**  
(Zip Code)

**(616) 887-7366**

(Registrant's Telephone Number, including Area Code)

Indicate by checkmark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes  No

As of April 30, 2008, the Registrant had outstanding 3,234,082 shares of common stock.

ChoiceOne Financial Services, Inc.  
**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Principles of Consolidation

The consolidated financial statements include ChoiceOne Financial Services, Inc. (the "Registrant") and its wholly-owned subsidiary, ChoiceOne Bank (the "Bank"), and the Bank's wholly-owned subsidiaries ChoiceOne Insurance Agencies, Inc. (the "Insurance Agency"), and ChoiceOne Mortgage Company of Michigan (the "Mortgage Company"). Intercompany transactions and balances have been eliminated in consolidation.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information, prevailing practices within the banking industry and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The accompanying consolidated financial statements reflect all adjustments ordinary in nature which are, in the opinion of management, necessary for a fair presentation of the Consolidated Balance Sheets as of March 31, 2008 and December 31, 2007, the Consolidated Statements of Income for the three-month periods ended March 31, 2008 and March 31, 2007, the Consolidated Statements of Changes in Shareholders' Equity for the three-month periods ended March 31, 2008 and March 31, 2007, and the Consolidated Statements of Cash Flows for the three-month periods ended March 31, 2008 and March 31, 2007. Operating results for the three months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2007.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level believed adequate by management to absorb probable incurred losses inherent in the consolidated loan portfolio. Management's evaluation of the adequacy of the allowance is an estimate based on reviews of individual loans, assessments of the impact of current economic conditions on the portfolio and historical loss experience of seasoned loan portfolios. See Note 2 to the interim consolidated financial statements for additional information.

Management believes the accounting estimate related to the allowance for loan losses is a "critical accounting estimate" because (1) the estimate is highly susceptible to change from period to period because of assumptions concerning the changes in the types and volumes of the portfolios and economic conditions and (2) the impact of recognizing an impairment or loan loss could have a material effect on ChoiceOne's assets reported on the balance sheet as well as its net income.

Stock Transactions

A total of 1,049 shares of common stock were issued to the Registrant's Board of Directors for a cash price of \$14,000 under the terms of the Directors' Stock Purchase Plan in the first quarter of 2008. A total of 2,159 shares were issued to employees for a cash price of \$16,000 under the Employee Stock Purchase Plan for the first quarter ended March 31, 2008.

Reclassifications

Certain amounts presented in prior periods have been reclassified to conform to the current presentation.

ChoiceOne Financial Services, Inc.  
**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**NOTE 2 - ALLOWANCE FOR LOAN LOSSES**

An analysis of changes in the allowance for loan losses follows:

(Dollars in thousands)	Three Months Ended March 31,	
	<b>2008</b>	2007
Balance at beginning of period	\$ 3,600	\$ 3,569
Provision charged to expense	550	100
Recoveries credited to the allowance	118	72
Loans charged off	(425)	(192)
	<b>3,843</b>	3,549

Information regarding impaired loans follows:

(Dollars in thousands)	March 31, 2008	December 31, 2007
Loans with no allowance allocated	\$ 1,315	\$ 2,677
Loans with allowance allocated	2,779	2,130
Amount of allowance for loan losses allocated	<b>1,054</b>	824

(Dollars in thousands)	Three Months Ended March 31,	
	<b>2008</b>	2007
Average balance during the period	\$ 4,451	\$ 6,776

**NOTE 3 - EARNINGS PER SHARE**

Earnings per share are based on the weighted average number of shares outstanding during the period. A computation of basic earnings per share and diluted earnings per share follows:

	Three Months Ended March 31,	
	2008	2007
(Dollars in thousands, except per share data)		
<u>Basic Earnings Per Share</u>		
Net income available to common shareholders	\$ 759	\$ 1,001
Weighted average common shares outstanding	3,230,586	3,247,844
Basic earnings per share	\$ 0.23	\$ 0.31
<u>Diluted Earnings Per Share</u>		
Net income available to common shareholders	\$ 759	\$ 1,001
Weighted average common shares outstanding	3,230,586	3,247,844
Plus dilutive stock options	-	2,425
Weighted average common shares outstanding and potentially dilutive shares	3,230,586	3,250,269
Diluted earnings per share	\$ 0.23	\$ 0.31

As of March 31, 2008, there were 48,732 stock options that are considered to be anti-dilutive to earnings per share for the three-month period ended March 31, 2008. As of March 31, 2007, there were 23,865 stock options considered to be anti-dilutive to earnings per share. These stock options have been excluded from the calculation above.

**NOTE 4 - FAIR VALUE MEASUREMENTS**

The following tables present information about the Bank's assets and liabilities measured at fair value on a recurring basis at March 31, 2008, and the valuation techniques used by the Bank to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Bank has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level

2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Bank's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

There were no liabilities measured at fair value as of March 31, 2008. Disclosures concerning assets measured at fair value are as follows:

**Assets Measured at Fair Value on a Recurring Basis at March 31, 2008**  
(Dollars in Thousands)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at March 31, 2008
<b>Assets</b>				
Investment securities, available for sale	\$ 31,184	\$ 38,964	\$ 13,277	\$ 83,425

**Changes in Level 3 Assets Measured at Fair Value on a Recurring Basis**  
(Dollars in Thousands)

Investment Securities, Available for Sale

Balance at December 31, 2007	\$ 14,721
Total realized and unrealized gains (losses) included in income	-
Total unrealized gains (losses) included in other comprehensive income	42
Net purchases, sales, calls, and maturities	(1,486)
Net transfers in/out of Level 3	-
	<hr/>
Balance at March 31, 2008	\$ 13,277

Of the Level 3 assets that were still held by the Bank at March 31, 2008, the net unrealized gain for the three months ended March 31, 2008 was \$79,000, which is recognized in other comprehensive income in the consolidated balance sheet. There were no sales of Level 3 securities in the first quarter of 2008. The Bank also purchased \$313,000 of available-for-sale investment securities during the period.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Available-for-sale investment securities categorized as Level 3 assets primarily consist of bonds issued by local municipalities. The Bank estimates the fair value of these bonds based on the present value of expected future cash flows using management's best estimate of key assumptions, including forecasted interest yield and payment rates, credit quality and a discount rate commensurate with the current market and other risks involved.

The Bank also has assets that under certain conditions are subject to measurement at fair value on a non-recurring basis. These assets include loans which have been classified as impaired under the provisions of Statement of Financial Accounting Standards 114, "Accounting by Creditors for Impairment of a Loan" ("SFAS 114"). The Bank has estimated the fair values of these assets using Level 3 inputs, specifically discounted cash flow projections. There were no non-cash impairment charges recorded by the Bank in the first quarter of 2008 to adjust these assets to their estimated fair values.

**Assets Measured at Fair Value on a Nonrecurring Basis**  
(Dollars in Thousands)

Quoted Prices	Significant Other	Significant	Total Losses
---------------	----------------------	-------------	--------------

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-Q

	Balance at March 31, 2008	in Active Markets for Identical Assets (Level 1)	Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	for the Period Ended March 31, 2008
<b>Assets</b>					
Impaired loans accounted for under SFAS 114	\$ 282	\$ -	\$ -	\$ 282	\$ -

Impaired loans accounted for under SFAS 114 categorized as Level 3 assets consist of non-homogeneous loans that are considered impaired. The Bank estimates the fair value of the loans based on the present value of expected future cash flows using management's best estimate of key assumptions. These assumptions include future payment ability, timing of payment streams, and estimated realizable values of available collateral (typically based on outside appraisals).

Other assets, including bank-owned life insurance, goodwill, intangible assets and other assets acquired in business combinations, are also subject to periodic impairment assessments under other accounting principles generally accepted in the United States of America. These assets are not considered financial instruments. Effective February 12, 2008, the Financial Accounting Standards Board issued a staff position that delayed the applicability of Statement of Financial Accounting Standards 157, "Fair Value Measurements" to non-financial instruments. Accordingly, these assets have been omitted from the above disclosures.

#### **NOTE 5 - SUBSEQUENT EVENT**

At the Annual Meeting of Shareholders of ChoiceOne Financial Services, Inc. held on April 24, 2008, the shareholders approved an amendment to the Restated Articles of Incorporation to increase the number of shares of authorized capital stock from 4,100,000 to 7,100,000. The purpose of the amendment was to provide additional shares of common stock for possible future issuance. ChoiceOne's Board of Directors has no present plans or commitments for the issuance of any of the additional shares.

#### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

The following discussion is designed to provide a review of the consolidated financial condition and results of operations of ChoiceOne Financial Services, Inc. ("ChoiceOne" or the "Registrant") and its wholly-owned subsidiary, ChoiceOne Bank (the "Bank"), and the Bank's wholly-owned subsidiaries, ChoiceOne Insurance Agencies, Inc. (the "Insurance Agency"), and ChoiceOne Mortgage Company of Michigan (the "Mortgage Company"). This discussion should be read in conjunction with the consolidated financial statements and related notes.

#### **FORWARD-LOOKING STATEMENTS**

This discussion and other sections of this report contain forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates, and projections about the financial services industry, the economy, and the Registrant itself. Words such as "anticipates," "believes," "estimates," "expects," "forecasts," "intends," "is likely," "plans," "predicts," "projects," variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions ("risk factors") that are difficult to predict with regard to timing, extent, likelihood, and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed, implied or forecasted in such forward-looking statements. Furthermore, the Registrant undertakes no obligation to update, amend, or clarify forward-looking statements, whether as a result of new information, future events, or otherwise.

Risk factors include, but are not limited to, the risk factors disclosed in Item 1A of the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2007; changes in interest rates and interest rate relationships; demand for products and services; the degree of competition by traditional and non-traditional competitors; changes in

banking laws and regulations; changes in tax laws; changes in prices, levies, and assessments; the impact of technological advances; governmental and regulatory policy changes; the outcomes of pending and future litigation and contingencies; trends in customer behavior as well as their ability to repay loans; changes in the local and national economies; changes in market conditions; the possibility that anticipated cost savings and revenue enhancements from the merger with Valley Ridge Financial Corp. may not be fully realized at all or within the expected time frames; the level and timing of asset growth; local and global uncertainties such as acts of terrorism and military actions; and current uncertainties and fluctuations in the financial markets and stocks of financial services providers due to concerns about credit availability and concerns about the Michigan economy in particular. These are representative of the risk factors that could cause a difference between an ultimate actual outcome and a preceding forward-looking statement.

## RESULTS OF OPERATIONS

### Summary

Net income decreased \$242,000 or 24% in the first quarter of 2008 compared to the first quarter of 2007. This decrease resulted primarily from a higher provision for loan losses in 2008 than in 2007. Lower noninterest expense in the first quarter of 2008 compared to the same period in 2007 was offset by lower net interest income and noninterest income in the same periods. The return on average assets and return on average shareholders' equity was 0.65% and 5.66%, respectively, for the first quarter of 2008, compared to .87% and 7.71%, respectively, for the same period in 2007. The decrease in both percentages was due to the lower level of net income in 2008.

### Dividends

Cash dividends of \$550,000 or \$0.17 per share were declared in the first quarter of 2008, compared to \$551,000 or \$0.17 per share in the first quarter of 2007. The cash dividend payout percentage was 72% for the first three months of 2008, compared to 55% in the same period a year ago.

### Interest Income and Expense

Tables 1 and 2 on the following pages provide information regarding interest income and expense for the three-month periods ended March 31, 2008 and 2007, respectively. Table 1 documents ChoiceOne's average balances and interest income and expense, as well as the average rates earned or paid on assets and liabilities. Table 2 documents the effect on interest income and expense of changes in volume (average balance) and interest rates. These tables are referred to in the discussion of interest income, interest expense and net interest income.

- (1) The volume variance is computed as the change in volume (average balance) multiplied by the previous year's interest rate. The rate variance is computed as the change in interest rate multiplied by the previous year's volume (average balance). The change in interest due to both volume and rate has been allocated to the volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.
- (2) Interest on nontaxable investment securities and loans has been adjusted to a fully tax-equivalent basis using an incremental tax rate of 34% for the periods presented.

**Net Interest Income**

The presentation of net interest income on a tax-equivalent basis is not in accordance with generally accepted accounting principles ("GAAP"), but is customary in the banking industry. This non-GAAP measure ensures comparability of net interest income arising from both taxable and tax-exempt loans and investment securities. The adjustments to determine net interest income on a tax-equivalent basis were \$255,000 and \$184,000 for the three months ended March 31, 2008 and 2007, respectively. These adjustments were computed using a 34% federal income tax rate.

As shown in Tables 1 and 2, tax-equivalent net interest income decreased \$6,000 in the first three months of 2008 compared to the same period in 2007. Although interest-earning assets were \$6.9 million higher in the first quarter of 2008 than in the same quarter in the prior year, a decrease of 5 basis points in the net interest spread from 2007 to 2008 caused the small decline in net interest income as the average rate earned on interest-earning assets fell more than the rate paid on interest-bearing liabilities.

The average balance of loans decreased \$2.5 million in the first quarter of 2008 compared to the same period in 2007. Residential mortgage loans were \$5.9 million lower in 2008 than in 2007 as borrowers refinanced from adjustable rate loans that the Bank holds in its portfolio to fixed rate loans that are sold in the secondary market. The decrease in the average loans balance combined with a 20 basis point decrease in the average rate earned caused tax-equivalent interest income from loans to decrease \$206,000 in the first quarter of 2008 compared to the same period in the prior year. The decrease in the average rate earned on loans was primarily due to a 200 basis point decrease in the Bank's prime lending rate in the first quarter of 2008. The average balance of total securities increased \$5.4 million in the first three months of 2008 compared to the same period in 2007. Securities were purchased during

2007 and the first quarter of 2008 to provide growth in interest-earning assets. Tax-equivalent interest income from securities rose \$142,000 in the first three months of 2008 compared to the same period in 2007 as a result of the average balance growth and higher average yields earned in 2008. The increase in other interest-earning assets in the first quarter of 2008 compared to the first quarter of 2007 was caused by a higher level of federal funds sold in 2008 than in the prior year.

The average balance of interest-bearing demand deposits increased \$2.8 million in the first three months of 2008 compared to the same period in 2007. The higher average balance was offset by a 32 basis point decline in the average rate paid, which caused interest expense to fall \$56,000 in the first quarter of 2008 compared to the same quarter in 2007. The average balance of certificates of deposit was down \$14.9 million in the first quarter of 2008 compared to the same period in 2007. The decrease was caused by maturing brokered certificates of deposit that were not replaced, which caused the average brokered balance to be \$23.8 million less in the first three months of 2008 than in the same period in 2007. The decline in certificates of deposit, partially offset by a small increase in the average rate paid, caused interest expense to fall \$160,000 in 2008 compared to 2007. The average balance of advances from the Federal Home Loan Bank ("FHLB") was \$15.7 million higher in the first three months of 2008 than the prior year. FHLB advances were used in 2007 and the first quarter of 2008 to replace maturing brokered certificates of deposit since the rate on new advances was lower than that of new certificates of deposit. The growth in FHLB advances, although offset somewhat by a 31 basis point decrease in the average rate paid, caused interest expense to increase \$165,000 in the first three months of 2008 compared to the same period in 2007. Growth in other interest-bearing liabilities in the first quarter of 2008 compared to the first quarter of 2007 was due to a higher average balance in repurchase agreements.

ChoiceOne's net interest income spread was 3.26% in the first quarter of 2008, compared to 3.31% for the first quarter of 2007. The lower average rate earned on loans caused the average rate earned on interest-earning assets to decline 16 basis points in the first three months of 2008 compared to the same period in 2007. The impact of loans was partially offset by higher rates earned on securities. The total funding cost dropped 11 basis points in the first quarter of 2008 compared to the first three months of 2007. This was primarily due to a lower average rate paid on interest-bearing demand deposits and to a lesser extent a lower rate on FHLB advances. Management plans to continue its emphasis on local deposit growth in 2008. Success in this would enable management to reduce the dependency on brokered certificates of deposit and FHLB advances.

Management estimates growth in earning assets may be difficult for the remainder of 2008 given the lackluster economy in Michigan and depressed real estate values affecting commercial and residential borrowers.

#### Provision and Allowance for Loan Losses

The allowance for loan losses has grown \$243,000 from December 31, 2007 to March 31, 2008. The allowance growth occurred in spite of a decline in total loans of \$5.0 million since the end of 2007. The provision for loan losses was \$550,000 in the first quarter of 2008, compared to \$100,000 in the same period in 2007. The allowance increase and higher provision were believed necessary due to higher net charge-offs in the first three months of 2008 than in the same period in 2007, deterioration in certain commercial real estate and residential real estate loan credits, and continued concerns over the Michigan economy. The allowance for loan losses was 1.19% of total loans at March 31, 2008, compared to 1.10% at December 31, 2007 and 1.08% at March 31, 2007.

Charge-offs and recoveries for respective loan categories for the three months ended March 31 were as follows:

(Dollars in thousands)	2008		2007	
	Charge-offs	Recoveries	Charge-offs	Recoveries
Agricultural	\$ -	\$ -	\$ -	\$ -

Edgar Filing: CHOICEONE FINANCIAL SERVICES INC - Form 10-Q

Commercial and industrial	<b>92</b>	<b>8</b>	8	8
Consumer	<b>115</b>	<b>74</b>	147	64
Real estate, commercial	<b>50</b>	<b>34</b>	-	-
Real estate, residential	<b>168</b>	<b>2</b>	37	-
	<b>\$ 425</b>	<b>\$ 118</b>	<b>\$ 192</b>	<b>\$ 72</b>

Net charge-offs in the first quarter of 2008 were \$307,000, compared to \$120,000 in the first quarter of 2007. Net charge-offs as a percentage of average loans were .38% in the first three months of 2008 and .14% for the same period in the prior year. As shown in the table above, most of the increase was due to higher charge-off levels for commercial and industrial loans and residential real estate loans. Management believes that the primary reason for the higher charge-off level is the economic climate in Michigan which affects both business and personal borrowers. Management has and intends to continue working with delinquent borrowers in an attempt to lessen the negative impact to ChoiceOne. As charge-offs, changes in the level of nonperforming loans, and changes within the composition of the loan portfolio occur throughout 2008, the provision and allowance for loan losses will be reviewed by the Bank's management and adjusted as necessary.

#### Noninterest Income

Total noninterest income decreased \$95,000 or 7% in the first quarter of 2008 compared to the same period in 2007. The reduction in noninterest income was due to the sale of ChoiceOne's property and casualty insurance lines of business in October 2007. These lines of business produced \$191,000 in revenues in the first quarter of 2007 that were included in insurance commissions and other noninterest income. Offsetting the effect of the insurance sale was a \$58,000 increase in deposit service charges, an increase of \$77,000 in investment commission revenue, and improvement of \$36,000 in gains on sales of securities. The increase in deposit service charges resulted from growth in fee-generating deposit accounts and an expanded overdraft program that began in April 2007. The growth in investment commissions was caused by increased annuity sales in the first quarter of 2008 compared to the same quarter in 2007.

Management anticipates that noninterest income may be lower in the remaining quarters of 2008 compared to the corresponding periods in 2007 as a result of the gain on the sale of the insurance lines of business in October 2007 and the revenues generated by these lines of business. Management plans to continue its emphasis of growth in deposit accounts and investment sales to offset the lower revenue from insurance.

#### Noninterest Expense

Total noninterest expense decreased \$223,000 or 6% in the first quarter of 2008 compared to the same period in 2007. Compensation and benefits were \$120,000 lower in the first three months of 2008 than in the same period in 2007. This decrease was due to the sale of the property and casualty lines of business in October 2007, which eliminated the compensation and other costs related to this activity. The decrease of \$38,000 in occupancy and equipment expense in the first quarter of 2008 compared to the same quarter in 2007 was caused by lower depreciation expense and miscellaneous other costs. Data processing expense was \$66,000 lower in the first three months of 2008 than the same period in 2007. This resulted from cost reductions for ATM processing due to a new contract signed by ChoiceOne in early 2008. FDIC insurance cost increased from \$10,000 in the first quarter of 2007 to \$60,000 in the first quarter of 2008. ChoiceOne had assessment credits from the FDIC that were used to reduce the insurance cost in 2007. These credits were fully utilized in January 2008. Advertising and promotional expense was down in 2008 as fewer costs had been incurred through the end of the first quarter. Expense in 2007 included the cost of a branding campaign that began in early 2007 to introduce the combined bank to ChoiceOne's market areas. The increase in other noninterest expense in the first quarter of 2008 compared to the same quarter in 2007 was caused by higher loan-related costs and increases in various other expenses.

The sale of ChoiceOne's property and casualty insurance lines of business in October 2007 will cause expense related to these activities to be less in the second and third quarters of 2008 than in the corresponding quarters in 2007.

#### Income Tax Expense

Income tax expense decreased \$155,000 in the first three months of 2008 compared to the same period in 2007. Taxable income was significantly less in 2008 due to the lower level of income before income tax. Nontaxable income from municipal securities and bank-owned life insurance also affected taxable income as they comprised a larger

percentage of income before income tax in 2008 than in the prior year. As a result, ChoiceOne's effective tax rate was 16.5% for the first quarter of 2008 versus 23.4% for the first quarter of 2007.

## FINANCIAL CONDITION

### Securities

The securities available for sale portfolio experienced little change from December 31, 2007 to March 31, 2008. ChoiceOne has purchased a mix of government agency, mortgage-backed, municipal, and equity securities totaling \$8.0 million in the first three months of 2008 to replace maturities, principal repayments, and calls within the securities portfolio. Approximately \$5.2 million in various securities were called or matured since the end of 2007. Principal repayments on securities totaled \$1.6 million in the first three months of 2008. Approximately \$1.7 million of securities were sold in the first quarter of 2008 for a net gain of \$34,000. ChoiceOne's balance in Money Market Preferred Securities declined from \$4.5 million as of December 31, 2007 to \$2,800,000 as of March 31, 2008. Management anticipates that securities will be purchased in the remainder of 2008 to hold the balance of securities steady or to increase the balance if desired to provide earning asset growth.

### Loans

The loan portfolio (excluding loans held for sale) declined \$5.0 million from December 31, 2007 to March 31, 2008. Loan demand in the first quarter of 2008 has been sluggish due to the lackluster Michigan economy. Commercial, commercial real estate and agricultural loans have dropped a total of \$1.3 million since the end of 2007. Most of the decrease was caused by paydowns on agricultural lines of credit. Consumer loans were down \$0.3 million in the first quarter of 2008. Residential real estate loans declined \$3.4 million in the first three months of 2008. The residential loans decrease was primarily due to mortgage borrowers refinancing from adjustable rate loans into fixed rate loans. ChoiceOne holds adjustable rate mortgage loans in its loan portfolio while most fixed rate loans are sold into the secondary market.

Management anticipates loan demand in the remainder of 2008 will depend upon the stability of the local and state economies. The economy in Michigan is not expected to grow as fast as other parts of the United States.

Information regarding impaired loans can be found in Note 2 to the consolidated financial statements included in this report. The total balance of loans classified as impaired has decreased from \$4.8 million as of December 31, 2007 to \$4.1 million as of March 31, 2008. The balance of loans with no allowance allocated decreased approximately \$1.4 million in the first quarter of 2008 while the balance of loans with an allowance allocated increased \$0.6 million. The balance of loans shown in Note 2 with no allowance allocated was \$2,677,000 as of December 31, 2007, compared to \$7,381,000 as previously stated at the end of 2007. The change in the balance as of December 31, 2007 was caused by a review by ChoiceOne of its loans as they related to the definition of impaired loans.

As part of its review of the loan portfolio, management also monitors the various nonperforming loans. Nonperforming loans are comprised of: (1) loans accounted for on a nonaccrual basis; (2) loans, not included in nonaccrual loans, which are contractually past due 90 days or more as to interest or principal payments; and (3) loans, not included in nonaccrual or loans past due 90 days or more, which are considered troubled debt restructurings.

The balances of these nonperforming loans were as follows:

(Dollars in thousands)

	March 31, 2008	December 31, 2007
Loans accounted for on a nonaccrual basis	\$ 4,977	\$ 5,605
Accruing loans contractually past due 90 days or more as to principal or interest payments	155	188
Loans considered troubled debt restructurings	-	-

Total

**\$ 5,132**

\$ 5,793

---

At March 31, 2008, nonaccrual loans included \$2.8 million in commercial industrial and commercial real estate loans, \$1.8 million in residential real estate loans, and \$0.4 million in consumer loans. At December 31, 2007,

nonaccrual loans included \$3.0 million in commercial industrial and commercial real estate loans, \$2.4 million in residential real estate loans, and \$0.2 million in consumer loans. Management believes the specific reserves allocated to its nonperforming loans are sufficient at March 31, 2008; however, management believes future credit deterioration is possible given the status of the Michigan economy.

#### Other Real Estate Owned

The balance of other real estate owned ("OREO") increased \$1.5 million from December 31, 2007 to March 31, 2008. Commercial and residential real estate loans totaling \$1,648,000 were transferred into OREO during the first quarter of 2008 while sales of properties or payments upon them were \$158,000 for the same time period. Due to the current state of the Michigan economy, there may be continuing transfers from loans into OREO during the remainder of 2008. Management is continuing to work with borrowers in an attempt to mitigate potential losses for ChoiceOne.

#### Deposits and Borrowings

Total deposits decreased \$3.1 million from December 31, 2007 to March 31, 2008. Local deposits grew \$2.8 million in the first quarter of 2008 and brokered certificates of deposit were reduced \$5.9 million. Since the end of 2007, checking account balances have declined \$5.5 million; however, money market account balances have risen \$5.4 million. Savings account balances increased by \$1.7 million in the first quarter of 2008 while local certificates of deposit grew \$1.2 million. The decrease in brokered deposits resulted from management's decision to replace them with local cost funding in the way of local deposits and Federal Home Loan Bank advances.

Federal Home Loan Bank advances increased \$3.0 million in the first quarter of 2008 as management used them to replace maturing brokered certificates of deposit. The rates paid on these borrowings were lower than comparable brokered deposit rates. The \$4.0 million decline in the balance of securities sold under agreements to repurchase was due to normal fluctuations in funds provided by bank customers. Certain securities are sold under agreements to repurchase them the following day or over a certain fixed term. Management plans to continue this practice as a low-cost source of funding.

Management plans to continue its marketing efforts toward growing local deposits to replace maturing brokered deposits and other borrowings for the remainder of 2008. If local deposit growth is insufficient to replace maturing deposits or borrowings, management believes that new advances from the Federal Home Loan Bank, brokered certificates of deposit, and structured repurchase agreements can address the Bank's funding needs.

#### Shareholders' Equity

Total shareholders' equity increased \$752,000 from December 31, 2007 to March 31, 2008. Growth in equity resulted primarily from current year's net income, proceeds from the sale of ChoiceOne's stock, and an increase in accumulated other comprehensive income, offset by cash dividends paid. ChoiceOne did not repurchase any of its common stock in the first quarter of 2008, in contrast to the same period in 2007 when 10,200 shares were repurchased. Management may repurchase shares of its common stock in the remainder of 2008 and retire them. The Registrant's Board of Directors authorized an additional repurchase plan on July 26, 2007 to buy back 100,000 shares of common stock.

#### Liquidity and Sensitivity to Interest Rates

Net cash provided from operating activities was \$934,000 for the three months ended March 31, 2008 compared to \$304,000 provided in the same period a year ago. Decreased net income and lower proceeds from loan sales were offset by the effect of a higher provision for loan losses and a smaller negative change in other liabilities. Net cash from investing activities was \$3.4 for the first quarter of 2008 compared to \$2.1 million for the same period in 2008 as net cash provided by securities activity was offset by a lower amount of net loan repayments. Net cash used in financing activities was \$4.6 million in the quarter ended March 31, 2008 compared to \$4.5 million in the same period in the prior year. A decrease in repurchase agreements of \$2.0 million more in 2008 than in 2007 and an increase in Federal Home Loan Bank advances of \$3.0 million was offset by a decrease of \$3.0 million in total deposits compared to a decrease of \$4.8 million in the same period in 2007.

Management believes that the current level of liquidity is sufficient to meet the Bank's normal operating needs. This belief is based upon the availability of deposits from both the local and national markets, maturities of securities, normal loan repayments, income retention, federal funds purchased from correspondent banks, and advances available from the Federal Home Loan Bank. The Bank also has a secured line of credit available from the Federal Reserve Bank. The Bank does not anticipate that the secured line of credit will be used for normal operating needs, but could be used for liquidity purposes in special circumstances. ChoiceOne plans to use current liquidity to fund potential repurchases of its common stock.

The Bank's sensitivity to changes in interest rates is monitored by the Bank's Asset/Liability Management Committee ("ALCO"). ALCO uses a simulation model to subject rate-sensitive assets and liabilities to interest rate shocks. Assets and liabilities are subjected to an immediate 300 basis point shock up and down and the effect on net income and shareholders' equity is measured. The Bank's Interest Rate Risk Policy states that changes in interest rates cannot cause net interest income to decrease more than 10% and the market value of shareholders' equity to decrease more than 20% if rates are instantaneously shocked 200 basis points upward or downward. The rate shock computation as of March 31, 2008 increased net interest income 5% if rates rose 200 basis points and decreased net interest income 5% if rates fell 200 basis points. The economic value of shareholders' equity declined 15% when rates were shocked 200 basis points upward and increased shareholders' equity 14% if rates were shocked 200 basis points downward. The impact of these interest rate shocks is within the allowable policy limits established by ALCO. ALCO will continue to monitor the effect each month of changes in interest rates upon the Registrant's interest margin and financial condition.

Item 4T. Controls and Procedures.

An evaluation was performed under the supervision and with the participation of the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on and as of the time of that evaluation, the Registrant's management, including the Chief Executive Officer and Principal Financial Officer, concluded that the Registrant's disclosure controls and procedures were effective as of the end of the period covered by this report. There was no change in the Registrant's internal control over financial reporting that occurred during the three months ended March 31, 2008 that has materially affected, or that is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

## **PART II. OTHER INFORMATION**

Item 1. Legal Proceedings.

There are no material pending legal proceedings to which the Registrant or the Bank is a party to or to which any of their properties are subject, except for proceedings that arose in the ordinary course of business. In the opinion of management, pending or current legal proceedings will not have a material effect on the consolidated financial condition of the Registrant.

Item 1A. Risk Factors.

There has been no material change in the risk factors reported in Item 1A of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On January 24, 2008, the Registrant issued 1,049 shares of common stock, without par value, to the directors of the Registrant pursuant to the Directors' Stock Purchase Plan for an aggregate cash price of \$14,000. The Registrant relied on the exemption contained in Section 4(6) of the Securities Act of 1933 in connection with these sales.

### ISSUER PURCHASES OF EQUITY SECURITIES

There were no purchases of equity securities by the Registrant in the first quarter of 2008. As of March 31, 2008, there are 135,668 shares remaining that may yet be purchased under approved plans or programs. The repurchase plan was adopted and announced on July 21, 2004. There is no stated expiration date. The plan authorized the repurchase of up to 50,000 shares. The Registrant's Board of Directors authorized an additional repurchase plan on July 26, 2007. There is no stated expiration date and this plan authorized ChoiceOne to repurchase an additional 100,000 shares.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits

The following exhibits are filed or incorporated by reference as part of this report:

<u>Exhibit Number</u>	<u>Document</u>
3.1	Amended and Restated Articles of Incorporation of the Registrant. Previously filed as an exhibit to the Registrant's Form 10-K Annual Report for the year ended December 31, 2005. Here incorporated by reference.
3.2	Bylaws of the Registrant as currently in effect and any amendments thereto. Previously filed as an exhibit to the Registrant's Form 10-K Annual Report for the year ended December 31, 2003. Here incorporated by reference.
31.1	Certification of President and Chief Executive Officer under Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Treasurer under Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification pursuant to 18 U.S.C. § 1350.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
