Portfolio Valuation - Investments are stated at value in the accompanying financial statements. All equity securities shall be valued at the closing price on the exchange or market on which the security is primarily traded ("Primary Market"). If the security did not trade on the Primary Market, it shall be valued at the closing price on another exchange where it trades. If there are no such sales prices, the value shall be the most recent bid, and if there is no bid, the security shall be valued at the most recent asked. If no

pricing service is available and there are more than two dealers, the value shall be the mean of the highest bid and the lowest ask. If there is only one dealer, then the value shall be the mean if bid and ask are available, otherwise the value shall be the bid. All other securities and assets are valued as determined in good faith by the Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors has established general guidelines for calculating fair value of not readily marketable securities. At September 30, 2004, the Fund held 1.22% of its net assets in securities valued in good faith by the Board of Directors with an aggregate cost of \$894,867 and a fair value of \$717,787. The net asset value per share of the Fund is calculated weekly and on the last business day of the month with the exception of those days on which the American Stock Exchange, LLC is closed.

Repurchase Agreements - The Fund has agreed to purchase securities from financial institutions subject to the seller's agreement to repurchase them at an agreed-upon time and price ("repurchase agreements"). The financial institutions with whom the Fund enters into repurchase agreements are banks and broker/ dealers, which Cornerstone Advisors, Inc. (the Fund's "Investment Manager" or "Cornerstone") considers creditworthy. The seller under a repurchase agreement will be required to maintain the value of the securities as collateral, subject to the agreement at not less than the repurchase price plus accrued interest. the collateral, and, if necessary, requires the seller to maintain additional securities, so that the value of the collateral is not less than the repurchase price. Default by or bankruptcy of the seller would, however, expose the Fund to possible loss because of adverse market action or delays in connection with the disposition of underlying securities.

Federal Income Tax Cost - At September 30, 2004, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized depreciation from investments were \$64,306,086, \$4,705,896, \$(10,097,161) and \$(5,391,265), respectively.
