Dear Hercules Employee Plan Participant:

While we have been communicating with you through our letters to all Hercules stockholders, there is one point which should be of special importance to you as a past or current Hercules employee.

One of the worst corporate practices in our view involves discrimination by a company and its Board in favor of a handful of its top executives at the expense of its stockholders and other employees. The record of the Hercules Board over the past five years has been in our opinion a textbook case of a "let them eat cake" approach to corporate governance.

Aren't you as appalled as we are by the Board's lavish treatment of a few Company executives in the face of Hercules' disastrous performance? Ask yourself: How can the Hercules Board possibly justify what we estimate to be the more than \$30 million in severance and pension benefits doled out to the Company's last four chief executives as well as the golden parachute contracts given to four current Hercules executives just last December, which could cost the Company an additional \$10 million - all while Hercules stockholders were suffering a loss in market value of \$5.5 billion?

In what we believe to be a novel application of corporate severance policy, it was recently disclosed that a senior Hercules executive, Harry Tucci, was awarded severance last December, notwithstanding the fact that far from

being terminated he was promoted to Chief Executive of Hercules' CP Kelco joint venture. The ten year "severance" package could cost the Company and its stockholders more than \$1 million - an expense they can ill afford.

If you are as dissatisfied as we are with the disastrous performance of the Company and its stock price and the elimination of your dividend AND are as concerned as we are about Hercules' future direction, we urge you to support our efforts on behalf of ALL Hercules stockholders.

Almost ten percent of the Company's outstanding shares are owned by Hercules employees, past or present. Your vote is all the more important because of the Company's director election Bylaw, which the Hercules Board claims requires an affirmative vote of a majority of all outstanding shares to unseat an incumbent director. This means in effect that a vote not cast is the equivalent of a vote for the Hercules nominees. Regardless of the number of shares you own, we urge, in your own best interest, that you support our stockholder nominees for election as Hercules directors.

Finally, Hercules' employee plan participants can be assured of the confidentiality of their votes, as shares voted by plan participants will be counted by an independent, third party proxy tabulator on a strictly confidential basis. Furthermore, you should know that it is unlawful for Hercules or its management to discriminate against you in any way because of how you vote under an employee plan.

If you agree with us that the Hercules Board is more interested in its positions, perks, and parachutes than the Company, its stockholders and all employees - please sign, date, and return our BLUE Proxy Card - today!

If you have any questions or need assistance voting your shares, please call Georgeson Shareholder Communications Inc., toll-free, at (800) 223-2064.

Thank you for your continued support.
