BROOKFIELD HOMES CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in thousands of U.S. dollars except per share amounts)

Note 1. Significant Accounting Policies

(a) Basis of Presentation

Brookfield Homes Corporation (the Company or Brookfield Homes) was incorporated on August 28, 2002 as a wholly-owned subsidiary of Brookfield Properties Corporation (Brookfield Properties) to acquire as of October 1, 2002 all of the California and Washington D.C. Area homebuilding and land development operations (the Land and Housing Operations) of Brookfield Properties pursuant to a reorganization of its business (the Spin-off). On January 6, 2003, Brookfield Properties completed the Spin-off by distributing all of the issued and outstanding common stock it owned in the Company to its common stockholders. Brookfield Homes began trading as a separate company on the New York Stock Exchange on January 7, 2003.

The consolidated financial statements include the accounts of Brookfield Homes and its subsidiaries and investments in joint ventures and variable interests in which the Company is the primary beneficiary.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Since they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements, they should be read in conjunction with the Company s consolidated financial statements and footnotes thereto included in the Company s annual report on Form 10-K for the year ended December 31, 2006. In the opinion of management, all adjustments necessary for fair presentation of the accompanying consolidated financial statements have been made.

The Company historically has experienced, and expects to continue to experience, variability in quarterly results. The consolidated statements of income for the three months and six months ended June 30, 2007 are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(b) Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS 159 allows companies to choose to measure certain financial instruments and other items at fair value. Companies electing the fair value option are required to report subsequent changes in fair value in earnings. This Statement is effective for fiscal years beginning after November 15, 2007 (the Company s fiscal year beginning January 1, 2008). The Company is currently reviewing the impact of this SFAS on its consolidated financial statements.

In September 2006, FASB issued SFAS 157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement is effective for fiscal years beginning after November 15, 2007 (the Company s fiscal year beginning January 1, 2008), and interim periods within those fiscal years. The Company is currently reviewing the impact of this SFAS on its consolidated financial statements.

In July 2006, FASB issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, which clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. This Interpretation provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In addition, FIN 48 provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Under FIN 48, the impact of an uncertain tax position on the income tax

return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. The Company adopted the provisions of FIN 48 on January 1, 2007. See Note 6 Income Taxes, for further discussions.

(c) Reclassification

Certain prior period amounts in the consolidated balance sheet have been reclassified to conform with the June 30, 2007 presentation. Specifically, Accounts payable and other liabilities now includes deferred compensation which had previously been shown as a component of project specific and other financings.

Note 2. Housing and Land Inventory

Housing and land inventory includes homes completed and under construction and lots ready for construction, model homes and land under and held for development which will be used in the Company s homebuilding operations or sold as building lots to other homebuilders. The following summarizes the components of housing and land inventory:

	June 30, 2007	December 31, 2006
Housing inventory	$ 571,736	$ 571,352
Model homes	50,549	42,706
Land and land under development	497,162	461,134
	$ 1,119,447	$ 1,075,192

The Company capitalizes interest which is expensed as housing units and building lots are sold. For the three months ended June 30, 2007 and 2006, and for the six months ended June 30, 2007 and 2006, interest incurred and capitalized by the Company was $16.7 million and $13.1 million, $32.1 million and $25.1 million, respectively. Capitalized interest expensed for the same periods was $8.8 million and $3.6 million, $14.9 million and $6.3 million, respectively. Capitalized costs are expensed as costs of sales on a specific identification basis or on a relative value basis in proportion to anticipated revenue. Included in direct cost of sales is $126.6 million and $210.4 million of costs related to housing revenue for the three months and six months ended June 30, 2007 (June 30, 2006 $140.6 million and $225.3 million, respectively) and $2.4 million and $5.2 million of costs related to land sales and other revenues (June 30, 2006 $17.9 million and $24.9 million, respectively).

In accordance with SFAS 144 Accounting for the Impairment or Disposal of Long-Lived Assets, the Company has reviewed its housing and land assets for recoverability. Recoverability is measured by comparing the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. To arrive at this amount, the Company estimates the cash flow for the life of each project. These projections take into account the specific business plans for each project and management s best estimate of the most probable set of economic conditions anticipated to prevail in the market area. Such projections assume current home selling prices and cost estimates and sales rates for short term projects assume recent sales activity. For longer term projects, sales rates for 2007 and 2008 assume recent sales activity and normalized sales rates beyond 2008. If these assets are considered to be impaired, they are then written down to fair value less estimated selling costs. The ultimate fair values for the Company s housing and land inventory are dependent upon future market and economic conditions. For the three months and six months ended June 30, 2007, the Company did not recognize any impairment charges (June 30, 2006 nil); however, should the ongoing challenges of the housing market not stabilize in the near future, it is possible impairment charges will be recognized in future results.

In the ordinary course of business, the Company has entered into a number of option contracts to acquire lots in the future in accordance with specific terms and conditions of such agreements. Under these option agreements, the

Company will fund deposits to secure the right to purchase land or lots at a future point in time. The Company has evaluated its option contracts and determined that for those entities considered to be variable interest entities (VIE s), it is the primary beneficiary of options for 1,091 lots with an aggregate exercise price of $71.5 million

(December 31, 2006 1,083 lots with an aggregate exercise price of $59.4 million), which are required to be consolidated. In these cases, the only asset recorded is the Company s exercise price for the option to purchase, with an increase in minority interest of $46.4 million (December 31, 2006 $40.5 million) for the assumed third party investment in the VIE. Where the land sellers are not required to provide the Company financial information related to the VIE, certain assumptions by the Company were required in its assessment as to whether or not it is the primary beneficiary.

Housing and land inventory includes non-refundable deposits and other entitlement costs totaling $87.0 million (December 31, 2006 $76.6 million) in connection with options that are not required to be consolidated under the provisions of FASB Interpretation No. 46R (FIN 46R), Consolidation of Variable Interest Entities . The total exercise price of these options is $644.6 million (December 31, 2006 $670.3 million) including the non-refundable deposits identified above. The number of lots for which the Company has obtained an option to purchase, excluding those already consolidated, and their respective dates of expiry and their exercise price are as follows:

Year of Expiry	Number of Lots	Total Exercise Price
2007	2,062	$ 131,425
2008	3,503	106,324
2009	628	69,158
Thereafter	7,355	337,700
	13,548	$ 644,607

The Company holds agreements for a further 4,178 acres of longer term land, with non-refundable deposits and other entitlement costs of $11.0 million which is included in housing and land inventory that may provide additional lots upon obtaining entitlements with an aggregate exercise price of $350.9 million. However, given that the Company is in the initial stage of land entitlement, the Company has concluded at this time that the level of uncertainty in entitling these properties does not warrant including them in the above totals.

Note 3. Investments in Housing and Land Joint Ventures

The Company participates in a number of joint ventures in which it has less than a controlling interest. Summarized condensed financial information on a combined 100% basis of the joint ventures is as follows:

	June 30, 2007	December 31, 2006
Assets		
Housing and land inventory	$ 493,960	$ 452,359
Other assets	43,838	38,063
	$ 537,798	$ 490,422
Liabilities and Equity		
Project specific financings	$ 285,928	$ 253,529
Accounts payable and other liabilities	41,963	32,319
Investment and advances		
Brookfield Homes	107,437	90,325
Others	102,470	114,249
	$ 537,798	$ 490,422

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Revenue and Expenses				
Revenue	$ 32,620	$ 19,391	$ 39,808	$ 30,223
Expenses	(74,266)	(17,677)	(80,722)	(26,523)
Net income (loss)	(41,646)	1,714	$ (40,914)	$ 3,700
Company s share of net income	$ 56	$ 763	$ 380	$ 1,670

In reporting the Company s share of net income, all inter-company profits or losses from housing and land joint ventures are eliminated on lots purchased by the Company.

The net loss for the three months ended June 30, 2007, results from an impairment charge of $41.7 million recognized in one of the joint ventures. In calculating the Company s share of the joint venture net loss, the Company did not require an impairment charge as its carrying value in this joint venture is below its proportionate share of the underlying net assets.

Joint ventures in which the Company has a non-controlling interest are accounted for using the equity method. In addition, the Company has performed an evaluation of its existing joint venture relationships by applying the provisions of FIN 46R. The Company has determined that for those entities for which this interpretation applies, none of these joint ventures were considered to be a VIE requiring consolidation pursuant to the requirements of FIN 46R.

The Company and/or its joint venture partners have provided varying levels of guarantees of debt
