ITEM 18. FINANCIAL STATEMENTS

We are filing our audited consolidated financial statements pursuant to SEC Temporary Final Rule and Final Rule: Requirements for Arthur Andersen LLP Auditing Clients; Rel. No. 33-8070.

In our unaudited balance sheets as of December 31, 2000 and 2001 we classified our accrued severance pay net of deposits with insurance companies. Under Israeli law and labor agreements, the Company is required to make severance and/or pension payments to employees who are dismissed, as well as to those leaving employment under certain other circumstances. In respect of these liabilities, regular deposits are made with various severance pay and pension funds and insurance companies. On advice of our auditors and in accordance with US GAAP, our audited balance sheets as of December 31, 2000 and 2001 classify the total amount of severance liability as a long-term liability and the deposits as a long-term asset rather than classifying our accrued severance pay net of deposits with severance pay and pension funds and insurance companies, which classification has no effect on our results of operations and shareholders equity.

REPORT OF INDEPENDENT AUDITORS

To the Shareholders of
RADA ELECTRONIC INDUSTRIES LIMITED

We have audited the accompanying consolidated balance sheets of RADA Electronic Industries Limited and its subsidiaries (the "Company") as of December 31, 2000 and 2001 and the related consolidated statements of operations, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of December 31, 2000 and 2001, and the results

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

of its operations and cash flows for each of the three years in the period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States.

RADA ELECTRONIC INDUSTRIES LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

In thousands of U.S. dollars except share and per share data

NOTE 1 - GENERAL

- A. RADA Electronic Industries Limited, an Israeli corporation (the "Company") is engaged in the development, manufacturing and sale of Automated Test Equipment ("ATE") products, avionics equipment and aviation data acquisition and debriefing systems.
- B. As reflected in the consolidated financial statements, as of December 31, 2001, the Company had an accumulated deficit of \$56,049 and a working capital deficiency of \$9,040. Subsequent to balance sheet date, a shareholder agreed to convert a \$1.0 million loan granted to the Company into shares, under certain conditions. In addition, this shareholder agreed to advance to the Company an additional \$500 as a loan. Three other shareholders committed to purchase shares of the Company in the amount of approximately \$950, under certain conditions. The Company believes that the actions described above, together with its improved operations will enable it to finance its liquidity needs at least through December 31, 2002. See Note 18(1) and 18(2).
- C. The Company operates a test and repair shop based on the use of its ATE in Beijing, China through its 80% owned Chinese subsidiary, Beijing Huari Aircraft Components Maintenance and Services Co. Ltd. ("CACS"). CACS was established as a joint venture company with a third party, which owns the remaining 20% equity interest.
- D. The Company sold aircraft spare parts through Jetborne International, Inc. ("Jetborne"), which was 75% owned by the Company until December 31, 2001. Jetborne historically purchased inventory in bulk, mainly at auctions, and sold the spare parts over long periods of time through a computerized communication system through which sales and purchases of airplanes spare parts are effected. In March 2002, the Company sold its 75% equity interest in Jetborne in consideration for one dollar and recorded a loss of \$30. As of December 31, 2001, the Company did not consolidate the assets and liabilities of Jetborne in the December 31, 2001 balance sheet, as the Company did not have control over Jetborne as of December 31, 2001 and none of its directors or representatives had functioned as directors or managers of Jetborne. The Company consolidated Jetborne's results of operations for the year 2001 and did not include its assets and liabilities as of December 31, 2001 (see Note 6).
- E. As for major customer see Note 17.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in accordance with generally accepted accounting principles in the United States ("US GAAP"). The significant accounting policies followed in the preparation of the financial statements, applied on a consistent basis, are as follows:

A. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

B. FINANCIAL STATEMENTS IN U.S. DOLLARS

The consolidated financial statements of the Company have been prepared in U.S. dollars as the currency of the primary economic environment in which the operations of the Company and its subsidiaries (the "Group") are conducted is the U.S. dollar. Most of the Group's sales are made outside Israel in U.S. dollars, as is a substantial portion of its expenses and capital issuances. Thus, the functional and reporting currency of the Group is the U.S. dollar.

Transactions and balances denominated in U.S. dollars are presented at their original amounts. Transactions and balances in other currencies are remeasured into U.S. dollars in accordance with Statement of Financial Accounting Standards No. 52 "Foreign Currency Translation" ("SFAS 52") of the U.S. Financial Accounting Standards Board ("FASB"). Accordingly, items have been remeasured as follows:

- Monetary items - at the exchange rate in effect on the balance sheet date.
- Nonmonetary items - at historical exchange rates.
- Revenues and expense items - at the exchange rates in effect as of the date of recognition of those items (excluding depreciation and other items deriving from non-monetary items).

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

B. FINANCIAL STATEMENTS IN U.S. DOLLARS (Cont.)

All exchange gains and losses from the remeasurement mentioned above are reflected in the statement of operations. The representative rate of exchange at December 31, 2001 was U.S.\$1.00 = NIS 4.416; and at December 31, 2000 and 1999 = NIS 4.041 and NIS 4.153, respectively.

C. BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of the Company and its subsidiaries. The Company consolidates the financial statements of all subsidiaries with greater than 50% ownership and control. The major subsidiary is CACS. The Company sold its 75% equity interest in Jetborne and therefore consolidated only the statement of operations for the year ended December 31, 2001 (see Note 6). Significant intercompany balances and transactions have been eliminated in consolidation.

D. CASH EQUIVALENTS

All highly liquid investments that are not restricted as to withdraw or use with an original maturity of three months or less are considered cash equivalents.

E. ALLOWANCE FOR DOUBTFUL ACCOUNTS

The allowance is determined based upon management's evaluation of receivables doubtful of collection on a specific identification basis.

F. INVENTORIES

Inventories are stated at the lower of cost or market value. Inventory write-offs are provided to cover risks arising from slow-moving items, excess inventories, and for market prices lower than cost.

Cost is determined as follows:

Raw materials and components- using "the first-in, first-out" cost method.

F. INVENTORIES (Cont.)

Work-in-process - represents the cost of manufacturing with the

addition of allocable indirect manufacturing costs.

Finished goods - on the basis of direct manufacturing costs with the addition of allocable indirect manufacturing costs.

Amounts related to long-term contracts as determined by the percentage of completion method of accounting are recorded as "Recoverable cost and accrued profit not yet billed".

Inventories include aircraft spare parts that, although currently available for sale, are expected to be sold over a period exceeding one year and are included under long-term assets.

G. RESEARCH AND DEVELOPMENT EXPENSES

Statement of Financial Accounting Standards No. 86 "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," ("SFAS No.86") "requires capitalization of certain software development costs subsequent to the establishment of technological feasibility. Based on the Company and its subsidiaries product development process, technological feasibility is established upon completion of a working model.

Research and development costs incurred in the process of producing product masters and product enhancements and producing the Company's Aircraft Test Systems Programs Sets ("TPS") software library, which is integrated with the Company's test station, are generally charged to expenses as incurred, net of participation of the Office of the Chief Scientist in the Israeli Ministry of Industry and Trade ("OCS") and the Israel - United States Binational Industrial Research and Development Foundation ("BIRD Foundation").

Costs incurred by the Company between completion of the working model and the point at which the product is ready for general release, have been capitalized.

H. OTHER ASSETS

Capitalized software costs are amortized by the greater of the amount computed using the: (i) ratio that current gross revenues from sales of the software to the total of current and anticipated future gross revenues from sales of that software, or (ii) the straight-line method over the estimated useful life of the product (five to twenty years). The Company assesses the recoverability of this intangible asset on a regular basis by

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

determining whether the amortization of the asset over its remaining life can be recovered through undiscounted future operating cash flows from the specific software product sold.

I. PROPERTY AND EQUIPMENT

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is calculated by the straight-line method over the estimated useful lives of the assets. Annual rates of depreciation are as follows:

Buildings	2.5 - 4%
Machinery and equipment	10 - 33%
Office furniture and equipment	6 - 33%
Motor vehicles	15 - 20%

Leasehold improvements are amortized over the shorter of the estimated useful life or the lease period.

Assets, in respect of which investment grants have been received, are presented at cost less the related grant amount. Depreciation is based on net cost.

J. LONG LIVED ASSETS

The Company periodically evaluates the recoverability and the appropriateness of the amortization periods of its long-lived assets in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long Lived Assets and for the Long Lived Assets to be Disposed of" ("SFAS No. 121"). The Company recognizes impairment losses for long-lived assets whenever events or changes in circumstances result in the carrying amount of the assets exceeding the sum of the expected future undiscounted cash flows associated with such assets. The measurement of the impairment losses to be recognized is to be based on the difference between the fair values and the carrying amounts of the assets. Impairment loss recorded in the statement of operations for the years ended December 31, 2001, 2000 and 1999 amounted to \$251, \$217 and \$898, respectively.

K. INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standard No. 109, "Accounting for Income Taxes" ("SFAS No. 109"). This statement prescribes the use of the liability method whereby deferred tax assets and liability account balances are determined based on differences between financial reporting and tax based assets and liabilities

and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, if necessary to reduce deferred tax assets to their estimated reliable value.

L. SEVERANCE PAY

The Company's liability for severance pay is calculated pursuant to Israeli severance pay law generally based on the most recent salary of the employees multiplied by the number of years of employment, as of the balance sheet date. Employees are entitled to one month's salary for each year of employment or a portion thereof. The Company's liability for all of its Israeli employees is partly provided by monthly deposits for insurance policies and/or pension funds and by an accrual. The value of these policies is recorded as an asset in the Company's balance sheet. The deposited funds of the Company's employees include profits accumulated up to the balance sheet date. The deposited funds may be withdrawn only upon the fulfillment of the obligation pursuant to Israeli severance pay law or labor agreements. The value of the deposited funds is based on the cash surrendered value of these policies, and includes immaterial profits.

Severance expense recorded in the statement of operations is net of interest and other income accumulated in the deposits. Severance expense, for the years ended December 31, 2001, 2000 and 1999 amounted to \$194, \$29 and \$158, respectively.

M. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Group used the following methods and assumptions in estimating their fair value disclosures for financial instruments:

The carrying amount of cash and cash equivalents, trade receivables, short-term bank credits and trade payables approximate their fair value due to the short term maturity of these instruments.

The carrying amount of long term debts are equivalent or approximate their fair value as they bear interest at approximate market rates.

N. CONCENTRATION OF CREDIT RISK

The Groups sells its products and services mainly to financially sound, well-established customers. Credit risk is concentrated in the United States, Europe and Israel.

Financial instruments that potentially subject the Groups to concentrations of credit risk consist principally of cash and cash equivalent and short-term bank credit.

Cash and cash equivalents are mainly in U.S dollars with major banks in Israel. Management believes that the financial institutions that hold the Groups investments are financially sound and, accordingly, minimal credit risk exists with respect to these investments.

O. ROYALTY BEARING GRANTS

Royalty-bearing grants in respect of research and development projects from the OCS and the BIRD Foundation, are recognized at the time the Company is entitled to such grants on the basis of the costs incurred and are included as a deduction from research and development costs.

P. SHARE BASED COMPENSATION

The Company accounts for stock option grants in accordance with Accounting Principles Board Opinion No. 25 - "Accounting for Stock Based Compensation" ("APB No. 25") and FASB Interpretation No. 44 "Accounting for Certain Transactions Involving Stock Compensation" ("Fin No. 44"). Under APB No.25, when the exercise price of the Company's share options is less than the market price of the underlying shares on the date of grant, compensation expense is recognize. The pro forma disclosures, required by Statement of Financial Accounting Standards No. 123 "Accounting for Stock-Based Compensation" ("SFAS No. 123"), are provided in Note 13B.

The Company accounts for shares, stock options and warrants issued to non-employees in accordance with SFAS No. 123. The Company uses the Black-Scholes Option Pricing model to value options and warrants granted to non-employees.

Q. REVENUE RECOGNITION

The Group generates revenues mainly from the sale of products and from long-term fixed price contracts for ATE, avionics, ground debriefing systems. In addition, the Group leases ATE and provides manufacturing services.

Revenues from sales of products are recognized in accordance with Staff Accounting Bulletin No. 101 "Revenue Recognition in Financial Statements" ("SAB No. 101"), when shipment has occurred, persuasive evidence of an arrangement exists, the vendor's fee is fixed or determinable, no further obligation remains and collectibility is probable.

Revenues from services are recognized upon performance of the services.

Revenues from long-term fixed price contracts are recognized based on Statement of Position No. 81-1 "Accounting for Performance of Construction - Type and Certain Production - Type Contracts" ("SOP 81-1"), using contract accounting on a percentage of completion method based on the ratio of actual costs incurred to total costs estimated to be incurred over the duration of the contract. With regard to contracts for which a loss is anticipated, a provision is made for the entire amount of the estimated loss at the time such loss becomes evident.

Revenue under operating leases of equipment are recognized in accordance with Statement of Financial Accounting Standard No. 13 "Accounting for Leases" ("SFAS No. 13"), ratably over the lease period.

Deferred revenues include unearned amounts received under services contract, and amounts received from customers but not yet recognize as revenues.

R. BASIC AND DILUTED NET LOSS PER SHARE

Basic net loss per share is computed based on the weighted average number of ordinary shares outstanding during each year. Diluted net loss per share is computed based on the weighted average number of ordinary shares outstanding during each year,

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

plus dilutive potential ordinary shares considered outstanding during the year, in accordance with Statement of Financial Accounting Standard No. 128 "Earnings per Share" ("SFAS No. 128"). All outstanding share options and warrants have been excluded from the computation of diluted loss per share because their effect is anti-dilutive for all periods presented. Options and warrants to purchase 1,115,200, 2,511,982 and 2,359,894 ordinary shares were not included in the computation of years 1999, 2000 and 2001 diluted loss per share because such options and warrants were considered anti-dilutive.

S. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS 141") and No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 requires all business combinations initiated after June 30, 2001, to be accounted for using the purchase method. Under SFAS 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment. All other intangible assets will continue to be amortized over their estimated useful lives. The amortization provisions of SFAS 142 apply to goodwill and intangible assets acquired after June 30, 2001. With respect to goodwill and intangible assets acquired prior to July 1, 2001, the Company is required to adopt SFAS 142 effective January 1, 2002. The adoption of SFAS 141 and 142 will not have an impact on the Company's financial position or results of operations since there is no goodwill and no intangible assets with indefinite lives.

S. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (Cont.)

In August 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). Although SFAS 144 supersedes FASB Statement No. 121, it retains the requirements of SFAS 121 regarding recognition of impairment loss for long-lived assets to be held and used (based on undiscounted cash flows) and resolves certain implementation issues. Also, the accounting model used in SFAS 121 for long-lived assets to be disposed of by sale (lower of carrying amount or fair value less cost to sell) is broadened by SFAS 144 to include discontinued operations and supersedes the reporting provision of APB Opinion No. 30, "Reporting the Results of Operations of a Segment of a Business". Therefore, discontinued operations will no longer be measured on a net realizable value

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

basis and future operating losses will no longer be recognized before they occur. SFAS 144 also broadens the presentation of discontinued operations to include a component of an entity (rather than a segment of a business). The provisions of SFAS 144 are effective for financial statements issued for fiscal years beginning after December 15, 2001, and interim periods within those years. The Company believes that the adoption of SFAS 144 will not have a material impact on the Company's financial statements.

- (2) Loan to Jetborne - On December 31, 2001, the Company sold its 75% ownership in Jetborne in consideration for one dollar. Jetborne will repay the Company within ten years from the date of the agreement the outstanding loan and debt including accrued interest as of December 31, 2001. In addition, Jetborne will pay the Company royalties as a percentage of the gross revenues of Jetborne which derived from the inventory held by Jetborne as of December 31, 2001. It is agreed that the first payment on account of the royalties shall be deducted from the outstanding loan and debt. In any event, all payments due to the Company under the agreement will be paid no later than the tenth anniversary of the agreement. The outstanding loan and debt are presented at an estimated discounted fair value of \$290. Accordingly, the Company recorded a loss of \$30 as a result of the sale of Jetborne pursuant to the agreement.

NOTE 12 - CONTINGENCIES, COMMITMENTS AND LIENS

A. As of December 31, 2001, the Company was a party to various legal proceedings, including the following:

- (1) In June 1998, the Company's Board of Directors accepted the resignation of the Company's former CEO. In November 1998, the former CEO commenced legal proceedings against the Company in the Tel Aviv Regional Court for Labor Disputes, claiming approximately \$500 in respect of salary, severance pay, vacation pay and other fringe benefits. The former CEO also claimed that a personal loan that was provided to him by the Company had been forgiven. In May 2001, an additional claim of approximately \$250 was filed by the former CEO against the Company in the Tel-Aviv District Court for damages allegedly caused to him as a result of attachment imposed on certain of his assets by the Company that was subsequently cancelled by the Court. In addition, in 2001, the Company filed a claim against a former Board member that in case the former CEO's claim in the Labor Court is accepted by the court, damages in the amount of \$250 will be covered by the former Board member. Furthermore, the Company filed additional suits against the former CEO and a former director in the amount of \$250 for funds that they allegedly transferred from the Company to a third party. In September 1999 and in 2001, the Company filed suits against the former CEO and the former Board member in the District Court of Tel Aviv in the amount of \$1,650 for damages caused to the Company in the purchase of a subsidiary and negligence of management. In August 2000, the Company filed an additional suit against the former CEO in the amount of approximately \$500 regarding the repayment of the loan provided to the former CEO. Legal counsel believes that the Company has a valid defense against the claims. Although these claims are

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

in preliminary stages, management believes that there will be no material adverse effect on the Company's financial position or result of operations.

- (2) In 1999 and 2000, the former CEO and his son filed a few complaints against the President and are seeking damages for alleged slander by the defendant in the amount of approximately \$800.
- (3) In 1999, a supplier filed a claim against the Company's former subsidiary, Vectronics. As part of the sale of Vectronics, the Company agreed to take responsibility for former claims against Vectronics. The claim is in the amount of \$2,500 for damages relating to Vectronics' alleged failure to manufacture a certain component for the supplier. In the opinion of the Company's legal counsel, Vectronics has a strong defense against the allegations.
- (4) In 2000, a former employee and officer of the Company filed a claim against the Company in the Tel Aviv District Court for Labor Disputes claiming approximately \$580 in respect of severance pay, vacation pay and other fringe benefits. In 2001, the Company filed a counter-claim in the amount of \$300 in respect of the repayment of a personal loan that was provided to the former employee. In the opinion of the Company's legal counsel, the Company has a strong defense against the allegations.
- (5) In May 2001, a former director filed a claim against the Company, whereby he claims that he is entitled to 600,000 options to purchase Ordinary shares of the Company. Legal counsel believes that the claim does not have any merit.
- (6) The Company is involved from time to time in various legal claims in the ordinary course of business, including claims by agents for commissions and others. The Company's management, based on the advice of its legal counsel, believes such claims will not have a material adverse effect on the financial position or results of operations of the Company.

Presently, the Company is unable to predict the final outcome of the above claims. The Company has accrued an amount which it believes is sufficient to cover any damages, if any, that may result from these claims.

B. STOCK OPTION PLANS

In 1993, the Company's Board of Directors approved the adoption of an Employee Stock Option Plan (the "1993 Plan"), which authorizes the grant of options to purchase up to an aggregate of 200,000 ordinary shares to officers, directors, consultants and key employees of the Company and its subsidiaries. Options granted under the 1993 Plan expire within maximum of ten years from the date of grant. The 1993 Plan will expire on November 23, 2003 unless sooner terminated by action of the Board of Directors. Options granted under the Company's Plans vest ratably over three years, one third on each anniversary of the grant.

The exercise price of an option granted to an employee may not be less than 60% of the fair market value of the Company's ordinary shares on the date of grant of the option. The exercise price of an option granted to a non-employee director or consultant may not be less than 80% of the fair market value of the Company's ordinary shares on the date of grant of the option.

In 1994, the Company's Board of Directors approved the adoption of an Employee Stock Option Plan (the "1994 Plan"), which authorizes the grant of options to purchase up to an aggregate of 200,000 ordinary shares to officers, directors, consultants and key employees of the Company and its subsidiaries. The terms of the 1994 Plan are substantially identical to those of the 1993 Plan.

In 1996, the Company's Board of Directors approved the adoption of an Employee Stock Option Plan (the "1996 Plan"), which authorizes the grant of options to purchase up to an aggregate of 240,000 ordinary shares to officers, directors, consultants and key employees of the Company and its subsidiaries. The terms of the 1996 Plan are substantially identical to the terms of the plan described above.

In 1999, the Company's Board of Directors and shareholders approved the adoption of an Employee Stock Option Plan (the "1999 Plan"), which authorizes the grant of options to purchase up to an aggregate of 800,000 ordinary shares to employees, officers, and directors of the Company and its subsidiaries. The terms of the 1999 Plan are substantially identical to the Plans described above.

B. STOCK OPTION PLANS (Cont.)

In addition, in 1999, the Board of Directors approved the issuance of 840,000 warrants to purchase ordinary shares to the President and certain directors of the Company. The warrants were granted at an exercise price equal to or greater than the fair market value of an ordinary share at the date of grant. The remaining terms of the warrants are substantially identical to the terms described above. In November 2000, the shareholders of the Company approved the increase in the number of shares subject to the 1999 Plan by an additional 240,000 ordinary shares. At December 31, 2001, 642,000 options were available for grant under the Plans described above.

All options were granted at fair market value. Transactions related to the above plans during the years ending December 31, 2001, 2000 and 1999 were as follows:

The Company accounts for stock option grants to employees and directors in accordance with APB No. 25. Pro forma information regarding net loss and net loss per share is required by SFAS No. 123 as if the Company had accounted for its employee stock options under the fair value method of that Statement. The fair value for these options was estimated at the date of grant, using the Black and Scholes Option Valuation Model, with the following weighted-average assumptions for each of the three years in the period ended December 31, 2001: (1) expected life of option of two years; (2) dividend yield of 0%; (3) expected volatility of 36%; and (4) risk-free interest rate of 1.75% (5% -2000 and 1999). If deferred compensation had been determined under the above mentioned fair value method, the effect on the Company's net loss and net loss per share would have been immaterial for all the reported periods.

C. WARRANTS

In May 2001, in connection with the loan described in Note 16, a warrant to purchase 91,912 ordinary shares was issued to a shareholder at an exercise price of \$2.176 per ordinary share exercisable until June 2003. As of December 31, 2001, no shares were issued in respect to the above mentioned warrant.

In May 2000, warrants to purchase 388,778 ordinary shares were issued to investors who participated in the February 2000 private placements, at an exercise price of \$2.75 per share, exercisable until June 2003. As of December 31, 2001, no shares were issued in respect to the abovementioned warrants.

In May 1998, in connection with a loan granted to the Company by a shareholder, warrants to purchase 144,000 ordinary shares were issued, to the shareholder at exercise prices between \$3.75 and \$6.25 per share, exercisable until June 2003. The Company accounted for this warrant grant in accordance with Accounting Principles Board Opinion No. 14 - "Accounting for Convertible Debt and Debt Issued with Purchase Warrants" ("APB No. 14"). As of December 31, 2001, no shares were issued in respect to the above mentioned warrants.

During 1997 and 1998, warrants to purchase 80,000 ordinary shares were issued to the President of the company at exercise prices between \$3.06 and \$6.13 per ordinary share, with no expiry date. As of December 31, 2001, no shares were issued in respect to the above mentioned warrants. The above mentioned warrants were issued at a market price which represented fair market value at each of the dates of grant.

D. DIVIDENDS

The Company has never paid cash dividends to shareholders. The Company intends to retain future earnings for use in its business and does not anticipate paying cash dividends on its ordinary shares in the foreseeable future. Any future dividend policy will be determined by the Board of Directors and will be based upon conditions then existing, including results of operations, financial condition, current and anticipated cash needs, contractual restrictions and other conditions as the Board of Directors may deem relevant.

NOTE 14 - TAXES ON INCOME

- A. TAX BENEFITS UNDER THE LAW FOR THE ENCOURAGEMENT OF CAPITAL INVESTMENT, 1959.

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

The Company has been granted an "Approve Enterprise" status for one investment program in the alternative program, by the Israeli Government under the Law for Encouragement of Capital Investments, 1959 ("the Law"). Since the Company is a "foreign investors' company", as defined by the Law, it is entitled to a ten-years period of benefits, for enterprises approved after April 1993. The main tax benefits from said status are a tax exemption for two years, and a reduced tax rate (based on the percentage of foreign shareholding in each tax year) on income from its approved enterprise, for the remainder of the benefit period. These tax benefits are subject to a limitation of the earlier of twelve years from commencement of operations, or fourteen years from receipt of approval. In the event of a distribution of a cash dividends out of tax-exempt income, the Company will be liable to corporate tax at a rate of 25% in respect of the amount distributed. As the Company has not yet reported any taxable income, the benefit period has not yet commenced.

Income from sources other than the Approved Enterprise during the benefit period will be subject to tax at the regular corporate tax rate of 36%.

The Company is entitled to charge accelerated depreciation in respect of machinery and equipment used by the Approved Enterprise.

The entitlement to the above mentioned benefits is conditional upon the Company's fulfilling the conditions stipulated by the above mentioned law, regulations published thereunder and the certificates of approval for the specific investments in approved enterprises. In the event of failure to comply with these conditions, the benefits may be canceled and the Company may be required to refund the amount of the benefits, in whole or in part, with the addition of linkage differences, to the CPI and interest.

NOTE 14 - TAXES ON INCOME (CONT.)

B. MEASUREMENT OF TAXABLE INCOME UNDER THE INCOME TAX (INFLATION ADJUSTMENTS) LAW

Results for tax purposes are measured and adjusted in accordance with the change in the CPI. As explained in Note 2B, the consolidated financial statements are presented in U.S. dollars. The differences between the change in the Israeli CPI and in the NIS/U.S. dollar exchange rate cause a difference between taxable income or loss and the income or loss before taxes reflected in the consolidated financial statements. In accordance with paragraph 9(f) of SFAS No. 109, the Company has not provided

Edgar Filing: RADA ELECTRONIC INDUSTRIES LTD - Form 20-F/A

deferred income taxes on this difference between the financial reporting basis and the tax basis of assets and liabilities.

C. THE LAW FOR THE ENCOURAGEMENT OF INDUSTRY (TAXES), 1969

The Company is an "Industrial Company" under the Law for the Encouragement of Industry. The principal benefit is the deductibility of expenses in connection with a public offering.

D. As of December 31, 2001, the net operating loss carryforwards for tax purposes relating to the Company in Israel amounted to approximately \$43,745. Carryforward losses in Israel may be carried forward indefinitely and may be offset against future taxable income. The Company expects that during the period in which these tax losses are utilized its income would be substantially tax-exempt, and accordingly, no deferred tax asset has been recorded.

As of December 31, 2001, carryforward losses relating to non-Israeli companies, approximately \$4,255. Carryforward losses in non-Israeli companies may be carried forward indefinitely and may be offset against future taxable income. As the Company believes that the realization of this carryforward loss is not more likely than not to be realized, the Company has recorded a valuation allowance in respect of the entire amount of the deferred tax asset relating to the carryforward losses.

E. Final tax assessments have been received by the Company in Israel through the tax year 1998. Based on certain disputed tax assessments of the Company's U.S. subsidiaries an amount of approximately \$50 is due to the Internal Revenue Service. The Company is appealing the assessment and does not believe it will ultimately be required to pay this balance.
