The percentage of non-interested shares who voted against the resolution out of all the voting rights in the Company was approximately 0.47%.

It should be noted that in counting the votes with respect to this matter the Company did not consider votes of shareholders who did not indicate whether they had personal interest in the transaction or not. In addition, in some cases the Company could not determine whether shareholders who indicated they had a personal interest voted against or for the transaction. In these cases the Company assumed that all of the shareholders who voted against the resolution indicated whether they had personal interest in the transaction or not, and all of the shareholders who indicated they had a personal interest voted for the resolution. However, regardless of the abovementioned assumptions, the resolution was approved in accordance with section 275 of the Israeli Companies Law, 1999, since the percentage of non-interested shares who voted against the resolution out of all the voting rights in the Company was less than 1%.
