Presentation of Foreign Currency Amounts

Dollar amounts reported in this quarterly report are in U.S. dollars (“USD”) unless otherwise indicated. Transactions that are denominated in a foreign currency, which include the Canadian dollar (“CAD”), Euro (“€”) and Polish zloty (“PLN”) are translated and recorded at the exchange rate in effect on the date of the transaction. Commitments that are denominated in a foreign currency and all balance sheet accounts other than shareholders’ equity are translated and presented based on the exchange rate between such foreign currency and the U.S. dollar at the end of the reported periods. Current period transactions affecting the profit and loss of operations conducted in foreign currencies are valued at the average exchange rate between such foreign currency and the U.S. dollar for the period in which they are incurred.

Amounts in thousands

Balance – January 1, 2012	\$4,833
Effect of foreign currency translation	87
Balance – March 31, 2012	\$4,920

4. PROMOTIONAL ALLOWANCES

Hotel accommodations, bowling and food and beverage furnished without charge to customers are included in gross revenue at a value which approximates retail and are then deducted as complimentary services to arrive at net operating revenue.

The Company issues coupons for the purpose of generating future revenue. The cost of the coupons redeemed is applied against the revenue generated on the day of the redemption. In addition, members of the Company's casinos' player clubs earn points based on, among other things, their volume of play at the Company's casinos. Players can accumulate points over time that they may redeem at their discretion under the terms of the program. Points can be redeemed for cash and/or various amenities at the casino, such as meals, hotel stays and gift shop items. The cost of the points is offset against the revenue in the period in which the points were earned. The value of unused or unredeemed points is included in accounts payable and accrued liabilities on the Company's consolidated balance sheets. The expiration of unused points results in a reduction of the liability.

Promotional allowances presented in the condensed consolidated statement of earnings include the following:

	For the three months ended March 31	
	2012	2011
Amounts in thousands		
Hotel, bowling, food & beverage	\$914	\$832
Coupons	454	445
Player points	586	611
Total promotional allowances	\$1,954	\$1,888

5. INCOME TAXES

The Company records deferred tax assets and liabilities based on the difference between the financial statement and income tax basis of assets and liabilities using the enacted statutory tax rate in effect for the year these differences are expected to be taxable or reversed. Deferred income tax expenses or credits are based on the changes in the asset or liability from period to period. The recorded deferred tax assets are reviewed for impairment on a quarterly basis by reviewing the Company's internal estimates for future taxable income.

As of March 31, 2012, the Company has established a valuation allowance for its U.S. deferred tax assets of \$5.1 million, a \$0.9 million valuation allowance on its Calgary property and a \$1.4 million valuation allowance on the Century Casinos Europe subsidiary deferred tax assets due to the uncertainty of future taxable income. The Company assesses the continuing need for a valuation allowance that results from uncertainty regarding its ability to realize the benefits of the Company's deferred tax assets. The ultimate realization of deferred income tax assets depends on generation of future taxable income during the periods in which those temporary differences become deductible. If the Company concludes that its prospects for the realization of its deferred tax assets are more likely than not, the Company will then reduce its valuation allowance as appropriate and credit income tax expense after considering the following factors:

- The level of historical taxable income and projections for future taxable income over periods in which the deferred tax assets would be deductible;
- Accumulation of net income before tax utilizing a look-back period of three years, and
- Tax planning strategies.

The income tax provisions are based on estimated full-year earnings for financial reporting purposes adjusted for permanent differences. The Company's provision for income taxes from operations consists of the following:

Amounts in thousands	As of March 31,	
	2012	2011
U.S. Federal - Current	\$(19)	\$25
U.S. Federal - Deferred	0	0

6. EARNINGS PER SHARE

The calculation of basic earnings per share considers only weighted average outstanding common shares in the computation. The calculation of diluted earnings per share gives effect to all potentially dilutive securities. The calculation of diluted earnings per share is based upon the weighted average number of common shares outstanding during the period, plus, if dilutive, the assumed exercise of stock options using the treasury stock method and the assumed conversion of other convertible securities (using the “if converted” method) at the beginning of the year, or for the period outstanding during the year for current year issuances. Weighted average shares outstanding for the three months ended March 31, 2012 and 2011 were as follows:

	For the three months ended March 31	
	2012	2011
Weighted average common shares, basic	23,877,362	23,711,176
Dilutive effect of stock options	133,431	290,112
Weighted average common shares, diluted	24,010,793	24,001,288

The following shares of restricted stock and stock options are anti-dilutive and have not been included in the weighted average shares outstanding calculation:

	For the three months ended March 31	
	2012	2011
Unvested restricted stock	-	160,000
Stock options	886,710	886,710

OVERVIEW

Since our inception in 1992, we have been primarily engaged in developing and operating gaming establishments and related lodging, restaurant and entertainment facilities. Our primary source of revenue is from the net proceeds of our gaming machines and tables, with ancillary revenue generated from the hotel, restaurant, bowling and entertainment facilities that are a part of the casinos.

We currently own, operate and manage the following casinos through wholly-owned subsidiaries:

- The Century Casino & Hotel in Edmonton, Alberta, Canada;
- The Century Casino Calgary, Alberta, Canada;
- The Century Casino & Hotel in Central City, Colorado; and

We also operate 12 ship-based casinos onboard four cruise lines; Oceania Cruises, TUI Cruises, Windstar Cruises and Regent Seven Seas Cruises. The most recent ship-based casino addition is the Riviera, which began operations on May 3, 2012. In addition, the contract for the Insignia ship-based casino expired on April 5, 2012 and was not renewed.

We recorded an increase of \$0.1 million in earnings from our investment in CPL for the three months ended March 31, 2012 compared to the three months ended March 31, 2011. Taxes

Amounts in thousands	For the three months ended March 31, 2012				For the three months ended March 31, 2011			
	Pre-tax income	Income tax	Effective tax rate		Pre-tax income (loss)	Income tax	Effective tax rate

Poland	116	-	-		28	-	-	
Total	\$1,425	\$292	20.5	%	\$587	\$223	38.0	%

The effective tax rates of our foreign properties are impacted by the movement of exchange rates primarily due to loans which are denominated in U.S. dollars. Therefore, foreign currency gains or losses recorded in each property's local currency do not impact our earnings reported in U.S. dollars.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Our business is capital intensive, and we rely heavily on the ability of our casinos to generate operating cash flow. We use the cash flows that we generate to maintain operations, fund reinvestment in existing properties for both refurbishment and expansion projects, repay third party debt, and pursue additional growth via new development and acquisition opportunities. When necessary and available, we supplement the cash flows generated by our operations with either cash on hand or funds provided by bank borrowings or other debt or equity financing activities.

Cash and cash equivalents totaled \$22.9 million at March 31, 2012, and we had working capital (current assets minus current liabilities) of \$7.6 million compared to cash and cash equivalents of \$25.2 million and working capital of \$6.0 million at December 31, 2011. The decline in cash is primarily due to \$2.5 million in repayment of the Edmonton Mortgage Loan. In addition, we invested \$0.6 million in various capital expenditure projects. These declines were offset by \$0.8 million in cash provided by operating activities and a \$0.1 million impact on the cash balances due to changes in foreign exchange rates.

Net cash provided by operating activities was \$0.8 million and \$2.3 million for the three months ended March 31, 2012 and 2011, respectively. Our cash flows from operations have historically been positive and sufficient to fund ordinary operations. Trends in our operating cash flows tend to follow trends in earnings from operations, excluding non-cash charges. Please refer to the condensed consolidated statements of cash flows and management's discussion of the results of operations above.

Net cash used in investing activities of \$0.6 million for the three months ended March 31, 2012 consisted of \$0.3 million used to purchase slot machines and a kiosk at our two Colorado properties, \$0.2 million used to construct the new poker room in Calgary and \$0.1 million used in cumulative additions at our remaining properties.

Net cash used in investing activities of \$1.0 million for the three months ended March 31, 2011 consisted of \$0.4 million used in building renovations and surveillance system upgrades in Calgary, \$0.2 million used to replace surveillance cameras in Central City, \$0.1 million used for gaming equipment additions on cruise ship-based casinos placed in service in 2010, \$0.1 million used to purchase new slot machines at our Cripple Creek and Central City properties and \$0.2 million used in cumulative additions at our remaining properties.

Net cash used in financing activities of \$2.5 million for the three months ended March 31, 2012 consisted of \$2.5 million in the repayment and prepayment of our Edmonton Mortgage Loan. As of March 31, 2012, the remaining balance on our Edmonton Mortgage Loan is \$6.7 million. We were in compliance with all covenants of the Edmonton Mortgage Loan as of March 31, 2012.

Net cash used in financing activities of \$2.5 million for the three months ended March 31, 2011 consisted of \$2.5 million in the repayment and prepayment of our Edmonton Mortgage Loan.

Common Stock Repurchase Program

Since 2000, we have had a discretionary program to repurchase our outstanding common stock. In November 2009, we increased the amount available to be repurchased to \$15.0 million. We did not repurchase any shares of our common stock during the three months ended March 31, 2012. The total amount remaining under the repurchase program was \$14.7 million as of March 31, 2012. The repurchase program has no set expiration or termination date.

Potential Sources of Liquidity, Short-Term Liquidity

Historically, our primary sources of liquidity and capital resources have been cash flow from operations, bank borrowings, sales of existing casino operations and proceeds from the issuance of equity securities.

We expect that the primary source of cash will be from our gaming operations. In addition to the payment of operating costs, expected uses of cash within one year include capital expenditures for our existing properties, interest and principal payments on outstanding debt and potential repurchases of our outstanding common stock.

We believe that our cash at March 31, 2012 as supplemented by cash flows from operations will be sufficient to fund our anticipated operating costs, capital expenditures at existing properties and current debt repayment obligations for at least the next 12 months. We will continue to evaluate our planned capital expenditures at each of our existing locations in light of the operating performance of the facilities at such locations. From time to time we expect to have cash needs for the development or purchase of new properties that exceed our current borrowing capacity. If necessary, we may seek to obtain term loans, mortgages or lines of credit with commercial banks or other debt or equity financings to supplement our working capital and investing requirements.

In addition, we expect our U.S. domestic cash resources will be sufficient to fund our U.S. operating activities and cash commitments for investing and financing activities for at least the next 12 months and thereafter for the foreseeable future. While we currently do not have an intent nor foresee a need to repatriate funds, if we require more capital in the U.S. than is generated by our U.S. operations either for operations, capital expenditures or significant discretionary activities such as acquisitions of businesses and share repurchases, we could elect to repatriate earnings from foreign jurisdictions or raise capital in the U.S. through debt or equity issuances, which could have adverse tax consequences as we have not accrued taxes for un-repatriated earnings of our foreign subsidiaries. The determination of the additional deferred taxes that would be provided for undistributed earnings has not been determined because the hypothetical calculation is not practicable.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We had no significant changes in our exposure to market risks from that previously reported in our Annual Report on Form 10-K for the year ended December 31, 2011.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures – Our management, with the participation of our principal executive officers and principal financial/accounting officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) under the Exchange Act as of the end of the period covered by this report. Based on such evaluation, our Co Chief Executive Officers and Principal Financial Officer have concluded that as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting – As further discussed in our Annual Report on Form 10-K for the year ended December 31, 2011, during the quarter ended December 31, 2011, management identified a material weakness related to the absence of a process to substantiate and support tax positions taken related to our international operations and international legal entity structure. As a result of this material weakness, we identified errors in income tax expense totaling \$502,000. During the three months ended March 31, 2012, management implemented changes to address the identified control deficiencies by taking the following actions: Management completed an assessment of its current domestic and international tax planning structure and strategy with the assistance of an outside professional tax firm. In the future, we will routinely evaluate the necessity for third party tax specialists' advice or assistance and utilize such advice or assistance as deemed appropriate when dealing with material and complex tax accounting matters in connection with the preparation of our financial statements, including tax planning strategies. Management believes these changes have remediated the identified material weakness.
