Associated Estates Files Investor Presentation to Set the Record Straight

CLEVELAND, February 24, 2015 -- Associated Estates Realty Corporation (NYSE, NASDAQ: AEC) today filed an investor presentation detailing the significant value creation achieved by the Company's Board of Directors and management team. This includes industry leading shareholder returns, dividend increases, significant IRR's and gains from asset sales, successful development projects, changes to Board composition, governance enhancements and continued objective review of the Company's business and strategies. In addition, the presentation rebuts false and misleading assertions put forth by Land and Buildings - and sets the record straight for all Associated Estates shareholders.

Jeffrey I. Friedman, Chairman and Chief Executive Officer, said, "The Associated Estates Board of Directors and management team have taken decisive actions to advance the interests of shareholders, optimize the Company's portfolio and position Associated Estates to extend its track record of success and shareholder value creation. Management's track record of delivering industry leading shareholder returns, among several notable accomplishments, affirms that the Associated Estates Board and management team are committed to maximizing value for all shareholders, and have the right plan in place to continue doing so."

Presentation highlights include:

Achieving Industry Leading Shareholders Returns Under the oversight of the Board and management team, over the past 10 years* Associated Estates has delivered best-in-sector returns, including approximately 195% total returns to shareholders compared to an approximately 138% average for the multifamily sector and approximately 98% for the RMS REIT index over the same time period*.
* Measured from 1/1/2005 to 5/30/2014

Returning Significant Capital to Shareholders Associated Estates has increased its quarterly cash dividend by 18% over the last three years. Notably, during the economic downturn from 2007 to 2009, when a number of the Company's competitors reduced dividends, Associated Estates maintained its quarterly cash distribution to shareholders. Additionally, Associated Estates has actively repurchased shares over the past 10 years - including repurchasing approximately 20% of the Company's outstanding stock from 2005 through 2007 - and the Board regularly considers share repurchases and other opportunities to return capital to shareholders.

Enhanced Portfolio Characteristics The Associated Estates management team has cultivated a diversified portfolio of high-quality properties in growing submarkets. The portfolio has an average age of 15 years (second youngest in the multifamily sector) through the disposition of 48 assets since 2005 (average age of 22 years) while acquiring 24 properties (average age of six years).

Fully Funded
Development Pipeline

Associated Estates maintains a robust, fully-funded pipeline of active development projects. The Company has numerous projects underway in attractive, high-growth markets such as Dallas, Los Angeles, San Francisco and Bethesda, all of which are progressing on time and on budget with rents in-line with expectations. Further, Associated Estates opportunistically acquired each of the Company's current development projects at attractive prices through off-market transactions. Associated Estates remains focused on leveraging the strength of its development pipeline and platform to continue creating significant additional value for shareholders. Collectively, the average expected stabilized yield on our development projects is 6.75%, 260 basis points higher than estimated current market cap rates.

Brought Fresh
Perspectives to the
Board

The Board of Directors recognized the value of bringing fresh perspectives to the boardroom and took meaningful action. Over the past three months, Associated Estates has taken action to enhance the Board's experience with the addition of two prominent industry veterans - Douglas Crocker II and Jon A. Fosheim. The Board remains committed to identifying an additional independent director to join the Associated Estates Board in 2015.

Industry Leading
Corporate
Governance Practices

Mr. Crocker brings to Associated Estates an unparalleled track record in the multifamily sector. During his tenure as CEO of Equity Residential, the company outperformed the SNL US REIT Equity Index by 2x. As a Co-founder of Green Street Advisors, Mr. Fosheim's extensive experience in the REIT industry and demonstrated leadership capabilities bring additional breadth and expertise to the Board.

In addition to the numerous enhancements made in recent years, the Board recently took actions to further improve the Company's corporate governance standards, including:

- 1 Terminated the Company's shareholder rights plan;
- 1 Moved to eliminate the Company's current 4.0% share ownership limit;
- 1 Eliminated the Executive Committee of the Board; and
- 1 Restructured the Board's Finance and Planning Committee so that it only includes independent directors.

Debunking Land and
Buildings'
Inaccuracies and
Half-Truths

Associated Estates has attempted to engage in constructive discussions with Mr. Litt over the past several months, including sharing further detail regarding our strategic priorities and the continued actions Associated Estates is taking to position the Company for success. Despite these efforts, Mr. Litt has repeatedly made misleading and factually incorrect statements about Associated Estates in order to advance his self-serving agenda, including misrepresenting settlement negotiations.

Safe Harbor Statement

This news release contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on certain assumptions, as well as current expectations, estimates, projections, judgments and knowledge of management, all of which are subject to risks, trends and uncertainties that could cause actual results to vary from those projected. Factors which may cause the Company's actual results or performance to differ materially from those contemplated by forward-looking statements include, without limitation, those described under the heading "Risk Factors" in the Company's Annual Report on Form 10-K and in other filings with the U.S. Securities and Exchange Commission (the "SEC"), and the following: changes in the economic climate in the markets in which the Company owns and manages properties, including interest rates, the overall level of economic activity, the availability of consumer credit and mortgage financing, unemployment rates and other factors; risks of a lessening of demand for the multifamily units owned by the Company; competition from other available multifamily units, single family units available for rental or purchase, and changes in market rental rates; the failure of development projects or redevelopment activities to achieve expected results due to, among other causes, construction and contracting risks, unanticipated increases in materials and/or labor, and delays in project completion and/or lease-up that result in increased costs and/or reduce the profitability of a completed project; losses resulting from property damage or personal injury that are not insured; results of litigation involving the Company; the cost, disruption and diversion of management's attention associated with campaigns commenced by activist investors seeking to influence the Company to take particular actions favored by the activist or gain representation on the Company's Board of Directors; information security breaches and other disruptions that could compromise our information and expose us to business interruption, increased costs, liability and reputational damage; and risks associated with property acquisitions and dispositions, such as failure to achieve expected results. In regard to the business review the Company is undertaking, there will be no updates until the review is complete and there is no set timeframe for completion. Readers should carefully review the Company's Annual Report on Form 10-K for the year ended December 31, 2014, and the other documents the Company files from time to time with the SEC. These forward-looking statements reflect management's judgment as of this date, and the Company assumes no obligation to revise or update them to reflect future developments or circumstances.
