FLANIGAN'S ENTERPRISES, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

JULY 1, 2006

(1) BASIS OF PRESENTATION:

The accompanying financial information for the periods ended July 1, 2006, and July 2, 2005 are unaudited. Financial information as of October 1, 2005 has been derived from the audited financial statements of the Company, but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial information for the periods indicated have been included. For further information regarding the Company's accounting policies, refer to the Consolidated Financial Statements and related notes included in the Company's Annual Report on Form 10-K for the year ended October 1, 2005. Operating results for interim periods are not necessarily indicative of results to be expected for a full year.

(2) EARNINGS PER SHARE:

Statements of Financial Accounting Standards ("SFAS") No. 128, Earnings per share establishes standards for computing and presenting earnings per share ("EPS"). This statement requires the presentation of basic and diluted EPS. The data on Page 4 shows the amounts used in computing earnings per share and the effects on income and the weighted average number of shares of potentially dilutive common stock equivalents.

(3) RECLASSIFICATION:

Certain amounts in the fiscal 2005 financial statements have been reclassified to conform to the fiscal 2006 presentation.

(4) RECENT ACCOUNTING PRONOUNCEMENTS:

In November 2005, the FASB issued final FASB Staff Position ("FSP") FAS No. 123R-3, "Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards." The FSP provides an alternative method of calculating excess tax benefits from the method defined in SFAS No. 123R for share-based payments. A one-time election to adopt the transition method in this FSP is available to those entities adopting SFAS No. 123R using either the modified retrospective or modified prospective method. Up to one year from the initial adoption of SFAS No. 123R or effective date of the FSP is provided to make this one-time election. However, until an entity makes its election, it must follow the guidance in SFAS No. 123R. The FSP is effective upon initial adoption of SFAS No. 123R and became effective for the Company in the second quarter of 2006. We are currently evaluating the allowable methods for calculating excess tax benefits and have not yet determined whether we will make a one-time election to adopt the transition method described in this FSP, nor the expected impact on our financial position or results of operation.

On February 3, 2006, the FASB issued FSP No. FAS 123(R)-4 "Classification of Options and Similar Instruments Issued as Employee Compensation That Allow for Cash Settlement upon the Occurrence of a Contingent Event." This FSP amends SFAS No. 123(R), addressing cash settlement features that can be exercised only upon the occurrence of a contingent event that is outside the employee's control. These instruments are not required to be classified as a liability until it becomes probable that the event will occur. We adopted this FSP in the second quarter of 2006. The implementation did not have an effect on the results of operations or financial position.

On April 13, 2006, the FASB issued FSP No. FIN 46(R)-6, "Determining the Variability to Be Considered in Applying FASB Interpretation No. 46(R)," which requires the use of a "by design" approach for determining whether an interest

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

is variable when applying FASB Interpretation No. 46, "Consolidation of Variable Interest Entities." This approach includes evaluating whether an interest is variable based on a thorough understanding of the design of the potential variable interest entity ("VIE"), including the nature of the risks that the potential VIE was designed to create and pass along to interest holders in the entity. The guidance in this FSP is effective for reporting periods beginning after June 15, 2006. We will adopt the guidance presented in this FSP in the third quarter of 2006 on a prospective basis. We do not expect the adoption of this FSP to have a material impact on our results of operations or financial position.

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of SFAS Statement No. 109. This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS Statement No. 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. We currently are assessing the impact of Interpretation No. 48 on our results of operations and financial position.

SFAS No. 156, Accounting for Servicing of Financial Assets, an amendment of SFAS No. 140

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 156, "Accounting for Servicing of Financial Assets an amendment of FASB Statement 140" (Statement 156). Statement 156 amends Statement 140 with respect to separately recognized servicing assets and liabilities. Statement 156 requires an entity to recognize a servicing asset or liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract and requires all servicing assets and liabilities to be initially measured at fair value, if practicable. Statement 156 also permits entities to subsequently measure servicing assets and liabilities using an amortization method or fair value measurement method. Under the amortization method, servicing assets and liabilities are amortized in proportion to and over the estimated period of servicing. Under the fair value measurement method, servicing assets are measured at fair value at each reporting date and changes in fair value are reported in net income for the period the change occurs. Adoption of Statement 156 is required as of the beginning of fiscal years beginning subsequent to September 15, 2006. Earlier adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including interim financial statements. The Company does not expect the adoption of Statement 156 at the beginning of 2007 to have a material impact.

9

(5) INVESTMENT IN JOINT VENTURES:

Pinecrest, Florida

During the third quarter of fiscal year 2006, the limited partnership substantially completed the structural repairs and its interior build-out of the business premises. Subsequent to the end of the third quarter of fiscal year 2006, the structural repairs and interior build-out were completed and the renovated restaurant opened for business on August 14, 2006.

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

During the third quarter of fiscal year 2006, the limited partnership completed its private offering and raised the sum of \$3,300,000 to reimburse the Company for advances made in excess of its investment in the limited partnership, to complete the renovations to the business premises for operation of a "Flanigan's Seafood Bar and Grill" restaurant and provide working capital for the same. The Company continues to act as general partner and is also the owner of a thirty nine percent limited partnership interest, as are other related parties, including but not limited to officers and directors of the Company and their families. With the completion of the private offering, the Company was reimbursed the sum of \$1,506,000, representing funds advanced to the limited partnership in excess of its investment in the limited partnership.

Davie, Florida

During the third quarter of fiscal year 2006, the Company, as agent for a limited partnership to be formed, received landlord approval of its preliminary building plans, including the addition of an outdoor seating area and submitted the same for site plan approval to the Town of Davie, Florida. The application for site plan approval is on the agenda of the Planning and Zoning Board of the Town of Davie, Florida for August, 2006. The restaurant is expected to open for business during the second quarter of fiscal year 2007.

Pembroke Pines, Florida

During the third quarter of fiscal year 2006, the Company, as agent for a limited partnership to be formed, received landlord approval of its preliminary building plans, including the addition of an outdoor seating area and submitted the same for site plan approval to the City of Pembroke Pines, Florida. The application for site plan approval is on the agenda of the Planning and Zoning Board of the City of Pembroke Pines, Florida for August, 2006. During the third quarter of fiscal year 2006, the Company also re-negotiated several provisions of the lease for the business premises. The restaurant is expected to open for business during the second quarter of fiscal year 2007.

(6) INVESTMENTS:

Investments in equity securities that have readily determinable values are classified and accounted for as available-for-sale. Available-for-sale securities are carried at fair value with unrealized gains and losses recorded as a separate component of accumulated other comprehensive income. Realized gains and losses are calculated based on the specific identification method and recorded in "other income" on the income statement. At July 1, 2006,

10

the cost of \$303,000 exceeded the fair value of \$297,000 and resulted in an unrealized loss of \$6,000.

(7) LINE OF CREDIT:

During the third quarter of fiscal year 2006, the Company paid monthly installments of interest only on its line of credit, with no draws or payments of principal. As of July 1, 2006, the line of credit had a principal balance of \$762,000.

(8) INCOME TAXES:

Financial Accounting Standards Board Statement No. 109, Accounting for Income Taxes, requires among other things, recognition of future tax benefits measured at enacted rates attributable to deductible temporary differences between

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

financial statement and income tax basis of assets and liabilities and to tax net operating loss carryforwards and tax credits to the extent that realization of said tax benefits is more likely than not. The deferred tax asset was \$490,000 as of July 1, 2006 and \$464,000 as of October 1, 2005.

(9) STOCK OPTION PLANS

The Company has several stock option plans under which qualified stock options may be granted to officers and other employees of the Company. The option price for qualified stock options must be issued at 110% of the fair market value of the Company's Common Stock on the date the options are granted. In general, options granted under the Company's stock option plans expire after a five (5) year period and generally vest no later than one (1) year from the date of grant. As of July 1, 2006, there were approximately 45,000 shares available for grant under the Company's stock option plans.

No stock options were granted during the thirty nine weeks ended July 1, 2006, nor were stock options granted during the thirty nine weeks ended July 2, 2005.

Stock option exercises during the thirty nine weeks ended July 1, 2006 and July 2, 2005 resulted in cash inflows to the Company of \$117,000 and \$1,000, respectively. The corresponding intrinsic value as of the exercise date of the 24,120 and 250 stock options exercised during the thirty nine weeks ended July 1, 2006 and July 2, 2005 were \$124,475 and \$760, respectively.

Stock option activity during the thirty nine weeks ended July 1, 2006 was as follows:

	Total Options -----	Weighted Average Exercise Price -----
Outstanding at October 1, 2005	100,810	\$ 5.75
Granted	0	--
Exercised	(24,120)	\$ 4.83
Expired	8,440	\$ 4.16
	-----	-----
Outstanding at July 1, 2006	68,250	\$ 6.27
	=====	=====
Options exercisable at July 1, 2006	68,250	\$ 6.27
	=====	=====

The weighted-average remaining contractual terms of stock options outstanding and stock options exercisable at July 1, 2006 was 2.45 years. The aggregate intrinsic value of options outstanding and stock options exercisable at July 1, 2006 was approximately \$319,000.

In December 2004, the FASB issued SFAS No. 123R, "Share-Based Payment". This statement is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation", supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" and amends SFAS No. 95, "Statement of Cash Flows." The statement eliminates the alternative to use the intrinsic value method of accounting that was provided in SFAS No. 123, which generally resulted in no compensation expense recorded in financial statements related to the issuance of equity awards to employees. The statement also requires that the cost resulting from all share-based payment transactions be recognized in the

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

financial statements. It establishes fair value as the measurement objective in accounting for share-based payment arrangements and generally requires all companies to apply a fair-value-based measurement method in accounting for share-based payment transactions with employees. The Company adopted SFAS No. 123R effective January 1, 2006, using a modified version of prospective application in accordance with the statement. This application requires the Company to record compensation expense for all awards granted to employees and directors after the adoption date and for the unvested portion of awards that are outstanding at the date of adoption. The Company had no unvested stock options as of October 1, 2005 and granted no stock options in the thirty nine weeks ended July 1, 2006, so there is no impact of SFAS No. 123R on the Company's condensed consolidated financial statements for the thirty nine weeks ending July 1, 2006. In accordance with the modified prospective transaction method, the Company's consolidated financial statements for prior periods have not been restated to reflect and do not include the impact of SFAS No. 123R.

(10) COMMITMENTS, CONTINGENCIES AND SUBSEQUENT EVENTS:

Guarantees

The Company guarantees various leases for franchisees, limited partnerships and locations sold in prior years. Remaining rental commitments required under these leases are approximately \$2,488,000. In the event of a default under any of these agreements, the Company will have the right to repossess the premises and operate the business to recover amounts paid under the guarantee either by liquidating assets or operating the business.

12

Litigation

The corporate offices consist of a two (2) story building, with space initially set aside on the ground floor for a package liquor store. The Company filed suit against the adjacent shopping center to determine the Company's right to non-exclusive parking in the shopping center. During fiscal year 2005, summary judgment was granted in favor of the adjacent shopping center denying the Company non-exclusive parking rights in the shopping center. The Company has continued pursuing its claim against the seller of the building, its individual partners and its attorney for damages for failing to disclose documents pertaining to the release of the non-exclusive parking rights. During the first quarter of fiscal year 2006, summary judgment was granted in favor of the sellers' attorney, but denied as to the seller and its individual partners. During the third quarter of fiscal year 2006, the summary judgment granted in favor of the sellers' attorney was reversed by the court. The Company is appealing the granting of the summary judgment in favor of the adjacent shopping center, which appeal is necessary to proceed against the seller and its individual partners even though the Company no longer plans to use the ground floor for a package liquor store.

During the third quarter of fiscal year 2006, the Company entered into a Mediation Settlement Agreement, agreeing to a purchase price of \$3,862,500 for the real property and the assignment of a ground lease for a small portion of the property of the combination restaurant and package liquor store located at 4 North Federal Highway, Hallandale, Florida, (Store #31). Subsequent to the end of the third quarter of fiscal year 2006, the Company closed on the purchase.

Certain states have "liquor liability" laws which allow a person injured by an "intoxicated person" to bring a civil suit against the business (or social host) who served intoxicating liquors to an already "obviously intoxicated person", known as "dram shop" claims. Dram shop claims normally involve traffic accidents

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

and the Company generally does not learn of dram shop claims until after a claim is filed and then the Company vigorously defends these claims on the grounds that its employee did not serve an "obviously intoxicated person". Damages in most dram shop cases are substantial. At the present time, there are no dram shop cases pending against the Company. The Company maintains general liability insurance. See Item 1, "Insurance" on page 13 of the Company's Annual Report on Form 10-K for the fiscal year ended October 1, 2005 for a discussion of general liability insurance.

Except as provided above, there is no material pending legal proceedings, other than ordinary routine litigation incident to the business, none of which the Company believes is material.

Hurricane Wilma; Windstorm Claims

As of July 1, 2006, the Company had submitted claims totaling \$923,600 for damages caused when Hurricane Wilma impacted South Florida on October 24, 2005 and received advances in the aggregate amount of \$700,000, (\$750,000 less the \$50,000 deductible), from its insurance company on account of damages to its properties. During the third quarter of fiscal year 2006, the Company also submitted claims for business interruption totaling \$168,700 for three of its Company owned locations and one of its limited partnership locations. Notwithstanding the filing of these claims, the Company has still not received a response from its

13

insurance carrier other than the advances and as a result, the ultimate amount of the insurance recovery cannot be accurately estimated at this time.

Subsequent Events

Subsequent to the end of the third quarter of fiscal year 2006 the Company closed on the purchase of the limited liability company which owns the real property and ground lease for a small portion of the property of the Company's combination restaurant and package store located in Hallandale, Florida (Store #31) for a purchase price of \$3,862,500 pursuant to a Mediation Settlement Agreement. The Company received a \$3,280,000 mortgage from its lender to finance this transaction. As collateral for the mortgage, the limited liability company granted the lender a first mortgage on its real property and a leasehold mortgage on the ground lease while the Company granted a first mortgage on its parking lot adjacent to the above-described business location. The Company's grant of a first mortgage on its parking lot included the satisfaction of the purchase money mortgage on the same, which had an approximate principal balance of \$264,000. The mortgage bears interest at the rate of seven and one-half (7.5%) percent per annum, is amortized over twenty (20) years with equal monthly payments of principal and interest, each in the amount of \$26,400, with the entire principal balance and all accrued interest due in seven (7) years.

(11) BUSINESS SEGMENTS

income and expense and income taxes. Identifiable assets by segment are those assets that are used in the Company's operations in each segment. Corporate assets are principally cash, notes and mortgages receivable, real property, improvements, furniture, equipment and vehicles. The Company does not have any operations outside of the United States and intersegment transactions are not material.

The increase in restaurant food sales is due to the restaurant in Wellington, Florida being open for the entire fiscal quarter and the continued increase in the weekly average of same store restaurant food sales. Restaurant food sales should continue to increase due to the restaurant in Wellington, Florida being open for the entire fiscal year; the opening of the restaurant in Pinecrest, Florida on August 14, 2006; and the continued increase in the weekly average of same store restaurant food sales.

Restaurant bar sales represented 14.52% of total sales in the thirteen weeks ended July 1, 2006 as compared to 13.78% of total sales in the thirteen weeks ended July 2, 2005. The increase in restaurant bar sales is due to the restaurant in Wellington, Florida being open for the entire fiscal quarter ended July 1, 2006 and the promotions introduced during the third quarter of fiscal year 2005 to increase restaurant bar sales, without jeopardizing the Company's perception as a family restaurant. Restaurant bar sales should continue to increase due to the restaurant in Wellington, Florida being open for the entire fiscal year; the opening of the restaurant in Pinecrest, Florida on August 14, 2006; and the continued increase in the weekly average of same store restaurant bar sales.

Package goods sales represented 22.68% of total sales in the thirteen weeks ended July 1, 2006, as compared to 22.82% of total sales in the thirteen weeks ended July 2, 2005. The gross profit margin for restaurant food and bar sales was 66.23% and 65.11% for the thirteen weeks ended July 1, 2006 and July 2, 2005, respectively. The 1.12% increase in gross profit for restaurant and bar sales for the third quarter of fiscal 2006 was primarily due to menu price increases.

The increase is attributed to the operation of the restaurant in Wellington, Florida for the entire fiscal quarter ended July 1, 2006, pre-opening payroll and related costs for the restaurant in Pinecrest, Florida, the impact of the Florida minimum wage which was effective during the third quarter of fiscal year 2005 and further impacted by its first annual cost of living increase effective January 1, 2006 and the accrual of officers' bonus in fiscal year 2006. During the balance of fiscal year 2006, payroll and related costs are expected to increase due to the opening of the restaurant in Pinecrest, Florida on August 14, 2006.

20

Comparison of Thirty Nine Weeks Ended July 1, 2006 and July 2, 2005.

As the table above illustrates, total revenues in the thirty nine weeks ended July 1, 2006 increased by 13.55% as compared to the total revenues for the thirty nine weeks ended July 2, 2005 primarily due to the restaurant in Wellington, Florida being open for the thirty nine weeks ended July 1, 2006 and menu price increases made during the third quarter of fiscal year 2005. Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

This increase also occurred notwithstanding an estimated loss of \$100,000 in restaurant bar sales as a result of Hurricane Wilma. Restaurant bar sales should continue to increase due to the restaurant in Wellington, Florida being open for the entire fiscal year; the opening of the restaurant in Pinecrest, Florida on August 14, 2006; and the continued increase in the weekly average of same store restaurant bar sales.

Package goods sales represented 25.36% of total sales in the thirty nine weeks ended July 1, 2006, as compared to 25.67% of total sales in the thirty nine weeks ended July 2, 2005. The increase was primarily due to increased volume. Hurricane Wilma had no adverse affect upon package goods sales because all

21

Company-owned package good stores were open for business, without electric power, by October 26, 2005 or within two (2) days of Hurricane Wilma and notwithstanding curfews limiting hours of operation. Package good sales are expected to continue increasing through the balance of fiscal year 2006 due to the continued increase in the weekly average of same store package sales.

The gross profit margin for restaurant food and bar sales was 66.02% and 64.80% for the thirty nine weeks ended July 1, 2006 and July 2, 2005, respectively. Other income and expenses was income of \$364,000 for the thirty nine weeks ended July 1, 2006, as compared to an expense of (\$19,000) for the thirty nine weeks ended July 2, 2005. Other income and expenses includes insurance recovery, net of casualty loss, \$442,000, which includes the deletion of the net book value of property and equipment as a result of Hurricane Wilma, (\$65,000), repair of damage (\$132,000) and food waste (\$61,000) caused by Hurricane Wilma, offset by advances of \$700,000, (\$750,000 less a \$50,000 deductible), from the Company's insurance carrier against anticipated insurance recoveries.

New Limited Partnership Restaurants

As the Company opens new limited partnership restaurants on a more regular basis the Company's income from operations will be adversely affected by the higher costs associated with the opening of the same. The higher costs include, but are not limited to pre-opening rent. For the third quarter of fiscal year 2006, as well as the third quarter of fiscal year 2005, the pre-opening rent paid and expensed for the new limited partnership restaurant in Pinecrest, Florida was approximately \$51,000, which is the full rent provided in the lease. Pre-opening payroll was approximately \$26,000 for the third quarter of fiscal year 2006, as compared to approximately \$5,000 for the third quarter of fiscal 2005. For the

thirty nine weeks of fiscal year 2006, as well as the thirty nine weeks of fiscal year 2005, the pre-opening rent paid and expensed for the new limited partnership restaurant in Pinecrest, Florida was approximately \$153,000, which is also the full rent provided in the lease. Pre-opening payroll was approximately \$26,000 for the thirty nine weeks of fiscal year 2006, as compared to \$23,000 for the thirty nine weeks of fiscal year 2005.

During the thirteen and thirty nine weeks ended July 2, 2005, the Company's income from operations was also adversely affected on a short-term basis by the pre-opening costs incurred for the limited partnership restaurant in Wellington, Florida which opened on May 27, 2005. For the thirteen and thirty nine weeks ended July 2, 2005, pre-opening rent paid and expensed was approximately \$18,000. For the thirteen and thirty nine weeks ended July 2, 2005, pre-opening payroll was \$61,000 and \$90,000 respectively, excluding lodging and per diem allowances incurred for new restaurant openers due to the proximity of this restaurant.

During the balance of fiscal year 2006, income from operations will be adversely affected by the pre-opening costs incurred for the new limited partnership restaurant in Pinecrest, Florida prior to the opening of the restaurant for business on August 14, 2006, including but not limited to additional pre-opening rent, in the amount of \$25,500, subsequent to the end of the third quarter of fiscal year 2006 through the date the restaurant opened for business.

Trends

During the next twelve months management expects continued increases in restaurant sales, due primarily to the opening of the restaurant in Pinecrest, Florida and continued increases in same store restaurant sales. Package good sales are also expected to increase due primarily to increases in same store package goods sales. At the same time, management also expects higher food costs, payroll costs and an overall increase in expenses. The Company has already raised some of its menu prices to offset higher food costs and payroll costs and will continue to do so wherever competitively possible.

Capital Expenditures

The Company had cash additions to property and equipment of \$2,356,000 during the thirty nine weeks ended July 1, 2006, including \$531,000 as a direct result of Hurricane Wilma, as compared to \$1,367,000 for the thirty nine weeks ended July 2, 2005. The additions to fixed assets during the thirty nine weeks ended July 1, 2006 included most of the renovations to the business premises of the restaurant in Pinecrest, Florida, while the addition to fixed assets during the thirty nine weeks ended July 2, 2005 included the renovations to the business premises of the restaurant in Wellington, Florida.

All of the Company's units require periodic refurbishing in order to remain competitive. The budget for fiscal year 2006 is \$700,000, exclusive of any expenditures attributed to Hurricane Wilma. The Company expects the funds for these improvements to be provided from operations. During the third quarter of fiscal year 2006, the limited partnership which owns the restaurant in Pinecrest, Florida completed its private offering, raising the sum of \$3,300,000. The funds from the private offering were used to reimburse the Company for advances made to the limited partnership in excess of its investment in the same, (\$1,506,000), to complete the renovations to the business premises for operation of a "Flanigan's Seafood Bar and Grill" restaurant and provide working capital for the same.

Long Term Debt

As of July 1, 2006, the Company had long term debt of \$2,205,000, as compared to \$1,365,000 as of July 2, 2005, and \$1,557,000 as of October 1, 2005.

The Company's long term debt includes its line of credit, which line of credit had a principal balance of \$762,000 as of July 1, 2006. As of July 1, 2006, the Company is in compliance with the affirmative covenants contained in the loan documents.

Subsequent to the end of the third quarter of fiscal year 2006, the Company closed on a \$3,280,000 mortgage which financed the Company's purchase of the limited liability company which owns the real property and ground lease for a small portion of the property of the Company's combination restaurant and package liquor store located at 4 North Federal Highway, Hallandale, Florida, (Store #31). As collateral for the mortgage, the limited liability company granted the lender a first mortgage on its real property and a leasehold mortgage on the ground lease, while the Company granted a first mortgage on its parking lot adjacent to the above-described business location. The Company's grant of a first mortgage on its parking lot, included the satisfaction of the purchase money mortgage on the same, which had an approximate principal balance of \$264,000. The mortgage bears interest at the rate of seven and one-half (7 1/2%) percent per annum, is amortized over twenty (20) years with equal monthly

payments of principal and interest, each in the amount of \$26,400, with the entire principal balance and all accrued interest due in seven (7) years.

Property Insurance Coverage; Deductibles

For the policy year commencing December 30, 2005, the Company's property insurance has a deductible of \$25,000 - \$50,000 per location, per occurrence. In the event a casualty, such as another hurricane, impacted every location whereby property damage and business interruption claims reached or exceeded every deductible, then the Company and its limited partnerships would face a maximum exposure of \$825,000. The Company intends to build its cash balances during hurricane season, (June 1 - November 1 each year), to protect the Company against losses as a result of a hurricane or other casualty loss, as well as to maintain a line of credit as additional protection against the same.

Purchase of Company Common Stock

Pursuant to a discretionary plan approved by the Board of Directors, during the thirteen weeks ended July 1, 2006, the Company purchased 5,000 shares of its common stock for an aggregate purchase price of \$52,000. During the thirty nine weeks ended July 1, 2006, the Company purchased 9,350 shares of its common stock for an aggregate purchase price of \$95,000.

Working Capital

The table below summarizes the current assets, current liabilities, and working capital for the fiscal quarters ended July 1, 2006, July 2, 2005 and the fiscal year ended October 1, 2005.

25

Item	July 1, 2006	July 2, 2005	Oct. 1, 2005
	-----	-----	-----
	(In Thousands)		
Current Assets	\$ 7,350	\$ 6,609	\$ 6,091
Current Liabilities	4,583	4,138	3,954
	-----	-----	-----
Working Capital	2,767	2,471	2,137

Working capital for the fiscal quarter ending July 1, 2006 increased by 11.98% from the working capital for the fiscal quarter ending July 2, 2005 and by 29.48% from the working capital for the fiscal year ending October 1, 2005. Working capital for the quarter ended July 1, 2006 was still negatively impacted by advances for the new location in Davie, Florida, in the amount of \$11,000 for architect fees, and for the new location in Pembroke Pines, Florida, in the amount of \$31,000, including but not limited to the deposit under the Sale of Business Agreement, (\$25,000 of which \$15,000 became non-refundable during the quarter ended July 1, 2006) and architects fees (\$6,000). The increase in working capital for the fiscal quarter ending July 1, 2006 when compared to the fiscal quarter ending July 2, 2005 was also due to the completion of the private offering by the limited partnership owning the restaurant in Pinecrest, Florida during the third quarter of fiscal year 2006, which private offering reimbursed the Company for advances made to the limited partnership in excess of its investment in the same, (\$1,506,000).

Subsequent to the end of the third quarter of fiscal year 2006, working capital was adversely affected by the Company's payment of the cash to close, (approximately \$925,000), on its purchase of the limited liability company which

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

owns the real property and ground lease of the Company's location at 4 N. Federal Highway, Hallandale, Broward County, Florida.

Through the remainder of fiscal year 2006 and into fiscal year 2007, management projects that working capital will be adversely affected by investments and/or further advances to be made by the Company for the new locations in Davie, Florida and Pembroke Pines, Florida. Management believes that over the balance of fiscal year 2006, working capital will increase by the amount of any insurance recoveries received

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company does not ordinarily hold market risk sensitive instruments for trading purposes but as of July 1, 2006 holds one equity security at a cost of \$303,000 to receive dividend payments and for the Company to satisfy debt in the future. There is no assurance that market price will increase or decrease in the next year. Even if the price of the equity security decreased by 10% below its cost, results of operations would be reduced by \$30,000, an amount management considers immaterial.

Interest Rate Risk

At July 1, 2006, the Company has two debt arrangements which have variable interest rates. For one of these instruments, a mortgage note, the Company has entered into an interest rate swap agreement to hedge the interest rate risk. The mortgage note has an outstanding principal balance at July 1, 2006 of \$794,000. The second instrument, the secured \$2,000,000 line of credit has a variable interest rate, which is at prime. The line of credit has an outstanding principal balance at July 1, 2006 of \$762,000. Increases in interest rates may have a material affect upon results of

26

operations, depending upon the outstanding principal balance on the line of credit from time to time.

At July 1, 2006, the Company's cash resources earn interest at variable rates. Accordingly, the Company's return on these funds is affected by fluctuations in interest rates. Any decrease in interest rates will have a negative effect on the Company's earnings.

There is no assurance that interest rates will increase or decrease over the next fiscal year.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, with the participation of management, evaluated the effectiveness of the Company's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 ("Exchange Act") Rule 13a-15(e) or 15d-15(e)) as of July 1, 2006. It is the opinion of our Chief Executive Officer and Chief Financial Officer that such disclosure controls and procedures operate such that important information flows to appropriate collection and disclosure points in a timely manner and are effective in ensuring that material information is accumulated and communicated to management and made known to the Chief Executive Officer and Chief Financial Officer particularly during the period in which this report was prepared, as appropriate, to allow timely decisions regarding timely disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes

Edgar Filing: FLANIGANS ENTERPRISES INC - Form 10-Q

that any system of controls and procedures, no matter how well designed and operated, is subject to limitations, including the exercise of our judgment in evaluating the same. As a result, there can be no assurance that our disclosure controls and procedures will prevent all errors.

(b) Change in Internal Control over Financial Reporting

During the third quarter of fiscal year 2006, the Company continued to assess the effectiveness of our "internal controls over financial reporting" on an account by account basis as a part of our on-going accounting and financial reporting review process. The assessments were made by management, under the supervision of our Chief Financial Officer. We made no changes in our internal control over financial reporting during the fiscal quarter ending July 1, 2006 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Notwithstanding, the effectiveness of our system of internal control over financial reporting is subject to limitations, including the exercise of our judgment in evaluating the same. As a result, there can be no assurance that our internal control over financial reporting will prevent all errors.
