Note 1. The condensed consolidated financial statements include the results of Wausau Paper Corp. and our consolidated subsidiaries. All significant intercompany transactions have been eliminated. The accompanying condensed financial statements, in the opinion of management, reflect all adjustments, which are normal, and recurring in nature and which are necessary for a fair statement of the results for the periods presented. Results for the interim period are not necessarily indicative of future results. In all regards, the financial statements have been presented in accordance with accounting principles generally accepted in the United States of America. Refer to notes to the financial statements, which appear in the Annual Report on Form 10-K for the year ended December 31, 2004, for the Company's accounting policies and other disclosures, which are pertinent to these statements.

Note 3. Net earnings or loss include provisions, or credits, for stock-based compensation plans calculated by using the average price of the Company's stock at the close of each calendar quarter as if all grants under such plans had been exercised on that day. In addition, fixed compensation expense is recognized for certain stock-based compensation plans over the remaining service or vesting period of the grant. For the three months ended June 30, 2005, the credit for stock-based compensation plans on a pretax basis was \$0.8 million. For the six months ended June 30, 2004, the provision for stock-based compensation plans on a pretax basis was \$2.2 million.

As permitted under SFAS No. 123, "Accounting for Stock-Based Compensation," the Company continues to measure compensation cost for stock-option plans using the "intrinsic value based method" prescribed under APB No. 25, "Accounting for Stock Issued to Employees."

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"), which was to be effective for the Company on July 1, 2005. On April 14, 2005, the Securities and Exchange Commission ("SEC") announced the adoption of a rule that defers the effective date of SFAS 123R. The Company plans to adopt SFAS 123R in the first quarter of 2006 and is currently evaluating which method of adoption will be utilized.

Quarter-over-quarter and year-over-year increases in depreciation expense are primarily the result of accelerated depreciation recorded in the three months ended June 30, 2005 in connection with the closure of Printing & Writing's sulfite pulp mill located in Brokaw, Wisconsin. See Note 8 for additional pulp mill closure information.

Note 7. The components of net periodic benefit costs recognized in the Condensed Consolidated Statements of Operations for the three months ended June 30, 2005 and 2004 are as follows:

The Company previously disclosed in its consolidated financial statements for the year ended December 31, 2004, that although it does not have a minimum funding requirement for defined benefit pension plans in 2005, it may elect to make contributions of up to \$16.0 million to pension plans. As of June 30, 2005, the Company has made payments of \$6.3 million to its pension plans. In addition, as previously reported, the Company expects to contribute \$4.1 million directly to post-retirement plans. As of June 30, 2005, the Company has contributed \$2.4 million to its post-retirement plans.

Note 8. Pulp Mill Closure

In July 2005, the Company announced plans to permanently close the sulfite pulp mill at its Brokaw, Wisconsin, papermaking facility. The pulp mill closure is expected to be substantially completed by the end of 2005 and will result in the elimination of approximately 60 permanent jobs, or 11% of the facility's total workforce. The related long-lived assets will be abandoned. The cost of products sold for the period ended June 30, 2005, as reflected in the Condensed Consolidated Statements of Operations include \$9.3 million in pre-tax charges for accelerated depreciation and an adjustment of pulp mill inventory to net realizable value. Restructuring expense for the period ended June 30, 2005 reflects a pre-tax charge of \$0.2 million for certain assets disposed as a direct result of the closure. Additional pre-tax closure charges of approximately \$35 million are expected to be recognized over the next 12 months, of which \$23 million is expected to be recorded in the third quarter of 2005, \$11 million in the fourth quarter of 2005 and \$1 million in the first half of 2006.

Total	\$9,468	\$23,000	\$11,000

Note 9. Interim Segment Information

The Company has reclassified certain prior-year interim segment information to conform to the 2005 presentation. The reclassification is the result of a change in the management of two converting facilities from the Printing & Writing segment to the Specialty Products segment.

FACTORS USED TO IDENTIFY REPORTABLE SEGMENTS

The Company's operations are classified into three principal reportable segments: Specialty Products, Printing & Writing, and Towel & Tissue, each providing different products. Separate management of each segment is required because each business unit is subject to different marketing, production, and technology strategies.

PRODUCTS FROM WHICH REVENUE IS DERIVED

Specialty Products produces specialty papers at its manufacturing facilities in Rhinelander, Wisconsin; Mosinee, Wisconsin; and Jay, Maine. Specialty Products also includes two converting facilities that produce laminated roll wrap and related specialty finishing and packaging products. Printing & Writing produces a broad line of premium printing and writing grades at manufacturing facilities in Brokaw, Wisconsin; Groveton, New Hampshire; and Brainerd, Minnesota. Printing & Writing also includes a converting facility which converts printing and writing grades. Towel & Tissue produces a complete line of towel and tissue products that are marketed along with soap and dispensing systems for the "away-from-home" market. Towel & Tissue operates a paper mill in Middletown, Ohio, and a converting facility in Harrodsburg, Kentucky.
