FORWARD-LOOKING STATEMENTS

The forward-looking statements included in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Quantitative and Qualitative Disclosures About Market Risk" and "Risk Factors" sections and elsewhere herein, which reflect our best judgment based on factors currently known, involve risks and uncertainties. Words such as "expects," "anticipates," "believes," "intends," "plans," "hopes," "forecasts" and variations of such words and similar expressions are intended to identify such forward-looking statements. Except as may be required by law, we expressly disclaim any obligation to update these forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events. Actual results could differ materially from those anticipated in these forward-looking statements as a result of a number of factors including, but not limited to, the factors discussed in such sections and, in particular, those set forth in the cautionary statements included in "Risk Factors" contained in our Annual Report on Form 10-K for the year ended June 30, 2013. The forward-looking information we have provided in this Quarterly Report on Form 10-Q pursuant to the safe harbor established under the Private Securities Litigation Reform Act of 1995, should be evaluated in the context of these factors.

SCANSOURCE, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

(1) Business and Summary of Significant Accounting Policies

Business Description

ScanSource, Inc. is a leading international wholesale distributor of specialty technology products. ScanSource, Inc. and its subsidiaries ("the Company") provide value-added distribution services for technology manufacturers and sell to resellers in the following specialty technology markets: POS Barcode and Security through its Worldwide Barcode & Security segment and Communications through its Worldwide Communications & Services segment.

The Company operates in North America, Latin America, and Europe and uses centralized distribution centers for major geographic regions. The Company distributes to the United States and Canada from its Southaven, Mississippi distribution center; to Latin America principally from distribution centers located in Florida, Mexico and Brazil; and to Europe from its distribution center in Belgium.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of ScanSource, Inc. have been prepared by the Company's management in accordance with United States generally accepted accounting principles ("US GAAP") for interim financial information and applicable rules and regulations of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by US GAAP for annual financial statements. The unaudited condensed consolidated financial statements included herein contain all adjustments (consisting of normal recurring and non-recurring adjustments) which are, in the opinion of management, necessary to present fairly the financial position as of December 31, 2013 and June 30, 2013, the results of operations for the quarters and six months ended December 31, 2013 and 2012, the statements of comprehensive income for the quarters and six months ended December 31, 2013 and 2012 and the statements of cash flows for the six months ended December 31, 2013 and 2012. The results of operations for the quarters and six months ended December 31, 2013 and 2012 are not necessarily indicative of the results to be expected for a full year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation in the accompanying condensed consolidated financial statements.

We have restated the presentation of borrowings and repayments on revolving credit in the statements of cash flows for the six months ended December 31, 2012. Related amounts had previously been presented on a net basis, rather than on a gross basis in accordance with Accounting Standards Codification ("ASC") Topic 230. The correction had no effect on net cash used in financing activities, and the gross amounts have historically been disclosed in the debt footnote.

Summary of Significant Accounting Policies

Except as described below, there have been no material changes to the Company's significant accounting policies for the quarter and six months ended December 31, 2013 from the information included in the notes to the Company's

consolidated financial statements included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2013. For a discussion of the Company's significant accounting policies, please see the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

#### Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. The Company maintains some zero-balance, disbursement accounts at various financial institutions in which the Company does not maintain significant depository relationships. Due to the nature of the Company's banking relationships with these institutions, the Company does not have the right to offset most if not all outstanding checks written from these accounts against cash on hand, and the respective institutions are not legally obligated to honor the checks until sufficient funds are transferred to fund the checks. Checks released but not yet cleared from these accounts in the amounts of \$107.1 million and \$65.9 million are included in accounts payable as of December 31, 2013 and June 30, 2013, respectively.

Table of Contents

## Recent Accounting Pronouncements

There are currently no new accounting pronouncements that are expected to have a significant impact on our financial position, results of operations and cash flows.

## (2) Earnings Per Share

Basic earnings per share are computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share are computed by dividing net income by the weighted-average number of common and potential common shares outstanding.

	Quarter ended December 31,		Six months ended December 31,	
	2013	2012	2013	2012
	(in thousands, except per share data)			
Numerator:				
Net Income	\$18,298	\$16,357	\$37,735	\$33,999
Denominator:				
Weighted-average shares, basic	28,293	27,713	28,164	27,665
Dilutive effect of share-based payments	304	245	270	263
Weighted-average shares, diluted	28,597	27,958	28,434	27,928
Net income per common share, basic	\$0.65	\$0.59	\$1.34	\$1.23
Net income per common share, diluted	\$0.64	\$0.59	\$1.33	\$1.22

For the quarter and six months ended December 31, 2013, weighted average shares outstanding excluded from the computation of diluted earnings per share because their effect would be anti-dilutive were 182,299 and 438,760, respectively. For the quarter and six months ended December 31, 2012, there were 1,159,357 and 1,112,076 weighted average shares outstanding excluded from the computation of diluted earnings per share because their effect would be anti-dilutive.

## (3) Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) consists of the following:

	December 31, 2013	June 30, 2013
	(in thousands)	
Foreign currency translation adjustment	\$(19,076 )	\$(22,972 )
Accumulated other comprehensive income (loss)	\$(19,076 )	\$(22,972 )

The tax effect of amounts in comprehensive income reflect a tax expense of \$0.2 million and a tax benefit of \$0.7 million for the quarters ended December 31, 2013 and June 30, 2013, respectively.

## (4) Goodwill and Other Identifiable Intangible Assets

The changes in the carrying amount of goodwill for the six months ended December 31, 2013, by reporting segment, are as follows:

	Barcode & Security Segment (in thousands)	Communications & Services Segment	Total
Balance as of June 30, 2013	\$16,329	\$15,466	\$31,795

Edgar Filing: SCANSOURCE INC - Form 10-Q

Foreign currency translation adjustment	199	—	199
Balance as of December 31, 2013	\$16,528	\$ 15,466	\$31,994

9

---

## Table of Contents

Included within other non-current assets in the Condensed Consolidated Balance Sheets are net identifiable intangible assets of \$17.6 million and \$19.8 million at December 31, 2013 and June 30, 2013, respectively. These amounts relate primarily to acquired intangible assets including customer relationships, non-compete agreements, and distributor agreements.

### (5) Short-Term Borrowings and Long-Term Debt

#### Short-Term Borrowings

A subsidiary of the Company has a €6.0 million line of credit, which is secured by the assets of our European operations and is guaranteed by ScanSource, Inc. This agreement can be withdrawn by the lender with minimal notice. The subsidiary line of credit bears interest at the 30-day Euro Interbank Offered Rate ("EURIBOR") plus a spread ranging from 1.25% to 2.00% per annum. The spread in effect as of December 31, 2013 was 1.25%. Additionally, the Company is assessed commitment fees ranging from 0.10% to 0.275% on non-utilized borrowing availability if outstanding balances are below €3.0 million. The interest rate spread and commitment fee rates are based on the Company's Leverage Ratio for its revolving credit facility, as defined below. There were no outstanding balances at December 31, 2013 and June 30, 2013.

#### Revolving Credit Facility

The Company has a \$300 million multi-currency senior secured revolving credit facility that was scheduled to mature on October 11, 2016. On November 6, 2013, the Company entered into an amendment of this credit facility ("Amended Credit Agreement") with JPMorgan Chase Bank N.A., as administrative agent, and a syndicate of banks to extend its maturity to November 6, 2018. The Amended Credit Agreement allows for the issuance of up to \$50 million for letters of credit and has a \$150 million accordion feature that allows the Company to increase the availability to \$450 million, subject to obtaining additional credit commitments for the lenders participating in the increase. The Company incurred debt issuance cost of \$0.5 million in connection with the Amended Credit Agreement, which were capitalized to other assets on the Condensed Consolidated Balance Sheets and added to the unamortized debt issuance costs from the previous credit facility. Net debt issuance costs associated with the credit facility as of December 31, 2013 are \$1.5 million and are being amortized on a straight-line basis through November 6, 2018, the maturity date of the amended credit facility.

At the Company's option, loans denominated in U.S. dollars under the Amended Credit Agreement, other than swingline loans, bear interest at a rate equal to a spread over the London Interbank Offered Rate ("LIBOR") or alternate base rate depending upon the Company's ratio of total debt (excluding accounts payable and accrued liabilities), measured as of the end of the most recent quarter, to adjusted earnings before interest expense, taxes, depreciation and amortization ("EBITDA") for the most recently completed four quarters (the "Leverage Ratio"). The Leverage Ratio calculation excludes the Company's subsidiary in Brazil. This spread ranges from 1.00% to 2.25% for LIBOR-based loans and 0.00% to 1.25% for alternate base rate loans. The spread in effect as of December 31, 2013 was 1.00% for LIBOR-based loans and 0.00% for alternate base rate loans. Additionally, the Company is assessed commitment fees ranging from 0.175% to 0.40%, depending upon the Leverage Ratio, on non-utilized borrowing availability, excluding swingline loans. Borrowings are guaranteed by substantially all of the domestic assets of the Company as well as certain foreign subsidiaries determined to be material under the Amended Credit Agreement and a pledge of up to 65% of capital stock or other equity interest in each Guarantor as defined in the Amended Credit Agreement. The Company was in compliance with all covenants under the credit facility as of December 31, 2013. There were no outstanding balances at December 31, 2013 and June 30, 2013.

The average daily balance during the six month period ended December 31, 2013 and 2012 was \$0.0 million and \$14.1 million, respectively.

## Long-Term Debt

On August 1, 2007, the Company entered into an agreement with the State of Mississippi in order to provide financing for the acquisition and installation of certain equipment to be utilized at the Company's current Southaven, Mississippi distribution facility, through the issuance of an industrial development revenue bond. The bond matures on September 1, 2032 and accrues interest at the 30-day LIBOR rate plus a spread of 0.85%. The terms of the bond allow for payment of interest only for the first 10 years of the agreement, and then, starting on September 1, 2018 through 2032, principal and interest payments are due until the maturity date or the redemption of the bond. The agreement also provides the bondholder with a put option, exercisable only within 180 days of each fifth anniversary of the agreement, requiring the Company to pay back the bonds at 100% of the principal amount outstanding. As of December 31, 2013, the Company was in compliance with all covenants under this bond. The balance on the bond was \$5.4 million as of December 31, 2013 and June 30, 2013 and is included in long-term debt. The interest rate at December 31, 2013 and June 30, 2013 was 1.02% and 1.04%, respectively.

Table of Contents

## (6) Derivatives and Hedging Activities

The Company's results of operations could be materially impacted by significant changes in foreign currency exchange rates and interest rates. These risks and the management of these risks are discussed in greater detail below. In an effort to manage the exposure to these risks, the Company periodically enters into various derivative instruments. The Company's accounting policies for these instruments are based on whether the instruments are designated as hedge or non-hedge instruments in accordance with US GAAP. The Company records all derivatives on the balance sheet at fair value. Derivatives that are not designated as hedging instruments or the ineffective portions of cash flow hedges are adjusted to fair value through earnings in other income and expense.

Foreign Currency – The Company conducts a portion of its business internationally in a variety of foreign currencies. The exposure to market risk for changes in foreign currency exchange rates arises from foreign currency-denominated assets and liabilities, and transactions arising from non-functional currency financing or trading activities. The Company's objective is to preserve the economic value of non-functional currency-denominated cash flows. The Company attempts to hedge transaction exposures with natural offsets to the fullest extent possible and, once these opportunities have been exhausted, through forward contracts or other hedging instruments with third parties. These contracts will periodically hedge the exchange of various currencies, including the U.S. dollar, euro, British pound, Canadian dollar, Mexican peso and Brazilian real. While the Company utilizes foreign exchange contracts to hedge foreign currency exposure, the Company's foreign exchange policy prohibits the use of derivative financial instruments for speculative purposes.

The Company had contracts outstanding with notional amounts of \$74.0 million and \$81.3 million for the exchange of foreign currencies as of December 31, 2013 and June 30, 2013, respectively. To date, the Company has chosen not to designate these derivatives as hedging instruments, and accordingly, these instruments are adjusted to fair value through earnings in other income and expense. Summarized financial information related to these derivative contracts and changes in the underlying value of the foreign currency exposures are as follows:

	Quarter ended		Six Months ended	
	December 31,		December 31,	
	2013	2012	2013	2012
	(in thousands)			
Net foreign exchange derivative contract (gains) losses	\$219	\$105	\$2,398	\$1,333
Net foreign currency transactional and re-measurement (gains) losses	(109	) 6	(2,129	) (1,150
Net foreign currency (gains) losses	\$110	\$111	\$269	\$183

Net foreign exchange gains and losses consist of foreign currency transactional and functional currency re-measurements, offset by net foreign currency exchange contract gains and losses and are included in other income and expense. Foreign exchange gains and losses are generated as the result of fluctuations in the value of the British pound versus the euro, the U.S. dollar versus the euro, U.S. dollar versus the Brazilian real and other currencies versus the U.S. dollar.

The Company used the following derivative instruments, located on its Condensed Consolidated Balance Sheets, for the risk management purposes detailed above:

As of December 31, 2013	
Fair Value of	Fair Value of
Derivatives	Derivatives
Designated as Hedge	Not Designated as Hedge
Instruments	Instruments
(in thousands)	

Derivative assets:<sup>(a)</sup>

Foreign exchange contracts	\$—	\$ 90
----------------------------	-----	-------

Derivative liabilities:<sup>(b)</sup>

Foreign exchange contracts	\$—	\$ 63
----------------------------	-----	-------

(a) All derivative assets are recorded as prepaid expenses and other current assets in the Condensed Consolidated Balance Sheets.

(b) All derivative liabilities are recorded as accrued expenses and other current liabilities in the Condensed Consolidated Balance Sheets.

Table of Contents

## (7) Fair Value of Financial Instruments

Accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Under this guidance, the Company is required to classify certain assets and liabilities based on the fair value hierarchy, which groups fair value measured assets and liabilities based upon the following levels of inputs:

• Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

• Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

• Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

The assets and liabilities maintained by the Company that are required to be measured at fair value on a recurring basis include the Company's various debt instruments, deferred compensation plan investments, outstanding foreign exchange forward contracts and contingent consideration owed to the previous owners of Brasil Distribuidora de Tecnologias Especiais LTDA ("CDC" or "ScanSource Brasil"). The carrying value of debt is considered to approximate fair value, as the Company's debt instruments are indexed to LIBOR or the alternate base rate using the market approach (Level 2 criteria).

The following table summarizes the valuation of the Company's remaining assets and liabilities measured at fair value on a recurring basis as of December 31, 2013:

	Total	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
	(in thousands)			
<b>Assets:</b>				
Deferred compensation plan investments, current and non-current portion	\$ 15,541	\$ 15,541	\$—	\$—
Forward foreign currency exchange contracts	90	—	90	—
Total assets at fair value	\$ 15,631	\$ 15,541	\$ 90	\$—
<b>Liabilities:</b>

Table of Contents

The investments in the deferred compensation plan are held in a rabbi trust and include mutual funds and cash equivalents for payment of non-qualified benefits for certain retired, terminated or active employees. These investments are recorded to prepaid and other assets (current) or other assets (non-current) depending on their corresponding, anticipated distributions to recipients, which are reported in accrued expenses and other liabilities (current) or other long-term liabilities (non-current), respectively.

Foreign currency forward contracts are measured using the market approach on a recurring basis considering foreign currency spot rates and forward rates quoted by banks or foreign currency dealers (Level 2). See Note 6 - Derivatives and Hedging Activities. Foreign currency contracts are classified in the consolidated balance sheet in prepaid expenses and other assets or accrued expenses and other liabilities, depending on the respective contracts' favorable or unfavorable positions.

The Company recorded a contingent consideration liability at the acquisition date of CDC representing the amounts payable to former CDC shareholders, as outlined under the terms of the Share Purchase and Sale Agreement, based upon the achievement of projected earnings, net of specific pro forma adjustments. The current and non-current portions of this obligation are reported separately on the Condensed Consolidated Balance Sheets. The fair value of contingent consideration (Level 3) is determined using a discounted cash flow model. Subsequent changes in the fair value of the contingent consideration liability are recorded to the change in fair value of contingent consideration line item in the Condensed Consolidated Income Statements. Fluctuations due to foreign currency translation are captured in other comprehensive income through the changes in foreign currency translation adjustments line item as seen in Note 3 - Accumulated Other Comprehensive Income.

The table below provides a summary of the changes in fair value of the Company's contingent consideration (Level 3) for the CDC earnout for the quarters and six months ended December 31, 2013 and 2012:

	Contingent consideration for the quarter ended December 31,		Contingent consideration for the six months ended December 31,	
	2013	2012	2013	2012
	(in thousands)			
Fair value at beginning of period	\$9,506	\$17,342	\$12,545	\$16,653
Payments	(2	) (4,716	) (3,646	) (4,716
Change in fair value of contingent consideration	499	533	1,237	1,296
Foreign currency translation adjustment	(456	) (69	) (589	) (143
Fair value at end of period	\$9,547	\$13,090	\$9,547	\$13,090

The fair value of the liability for the contingent consideration recognized at December 31, 2013 was \$9.5 million of which \$5.2 million is classified as current. The fair values of amounts owed are recorded in "current portion of contingent consideration" and "long-term portion of contingent consideration" in the Company's Condensed Consolidated Balance Sheets. The U.S. dollar amounts of actual disbursements made in connection with future earnout payments are subject to change as the liability is denominated in Brazilian reais and subject to foreign exchange fluctuation risk. The Company will revalue the contingent consideration liability at each reporting date through the last payment, with changes in the fair value of the contingent consideration reflected in the "change in fair value of contingent consideration" line item on the Company's Condensed Consolidated Income Statements that is included in the calculation of operating income. The fair value of the contingent consideration liability associated with future earnout payments is based on several factors, including:

- estimated future results, net of pro forma adjustments set forth in the Share Purchase and Sale Agreement;
- the probability of achieving these results; and

a discount rate reflective of the Company's creditworthiness and market risk premium associated with the Brazilian market.

A change in any of these unobservable inputs can significantly change the fair value of the contingent consideration. The change in fair value of the contingent consideration recognized in the Condensed Consolidated Income Statements contributed losses of \$0.5 million and \$1.2 million for the quarter and six months ended December 31, 2013, respectively. The change this quarter and year to date period is largely driven by the recurring amortization of the unrecognized fair value discount. In addition, volatility in the foreign exchange between the Brazilian real and the U.S. dollar has driven changes in the translation of this Brazilian real denominated liability. Although there is no contractual limit, total future undiscounted contingent consideration payments are anticipated to range up to \$12.3 million, based on the Company's best estimate as the earnout is based on a multiple of adjusted earnings.

Table of Contents

(8) Segment Information

The Company is a leading distributor of specialty technology products, providing value-added distribution sales to resellers in specialty technology markets. The Company has two reportable segments, based on product and service type.

Historically, the Company's reporting units coincided with its geographic operating segments of North America and International. In the fourth quarter of fiscal 2013, the Company reorganized its management structure and reporting segments to globally leverage the Company's leadership in specific technology markets, changing from a geographic to a technology focus. As part of this new structure, the Company formed two operating segments with a global technology focus: Worldwide Barcode & Security ("Barcode/Security") and Worldwide Communications & Services ("Communications/Services"). Each operating segment is managed around its global technology focus and is supported by its centralized infrastructure, including distribution centers and back office operations. Each operating segment has its own management team led by a president and includes regional presidents within the operating group who manage the various functions within each segment. Decisions and planning for the Company as a whole are made at the corporate level by analyzing results from the operating segments. The principal measure of segment performance is considered to be operating income. These technology business segments replace the geographic segments previously used, and the Company has retrospectively reclassified the condensed consolidated financial statements to conform to the new presentation.

Worldwide Barcode & Security Segment

The Barcode/Security distribution segment focuses on automatic identification and data capture ("AIDC"), point-of-sale ("POS"), and electronic physical security technologies. We have business units within this segment for sales and merchandising functions, including ScanSource POS and Barcode business units in North America, Latin America, and Europe and the ScanSource Security business unit in North America. We see adjacencies among these technologies in helping our resellers develop solutions, such as with networking products. AIDC and POS products interface with computer systems used to automate the collection, processing and communication of information for commercial and industrial applications, including retail sales, distribution, shipping, inventory control, materials handling, warehouse management and health care applications. Electronic physical security products include identification, access control, video surveillance, intrusion-related and wireless infrastructure products.

Worldwide Communications & Services Segment

The Communications/Services distribution segment focuses on communications technologies and services. We have business units within this segment for sales and merchandising functions, including the ScanSource Catalyst business unit in North America, ScanSource Communications business units in North America and Europe, and the ScanSource Services Group business unit in North America. ScanSource Catalyst and ScanSource Communications business units market voice, video conferencing, data networking and converged communications solutions. The ScanSource Services Group business unit delivers value-added support programs and services, including education and training, network assessments, custom configuration, implementation and marketing.

Table of Contents

## (9) Commitments and Contingencies

The Company and its subsidiaries are, from time to time, parties to lawsuits arising out of operations. Although there can be no assurance, based upon information known to the Company, the Company believes that any liability resulting from an adverse determination of such lawsuits would not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

During the Company's due diligence for the CDC acquisition, several pre-acquisition contingencies were identified regarding various Brazilian federal and state tax exposures. The Company is able to record indemnification receivables that are reported gross of the pre-acquisition contingency liabilities as they were escrowed in the Share Purchase and Sale Agreement. However, indemnity claims can be made up to the entire purchase price, which includes the initial payment and all future earnout payments. The table below summarizes the balances and line item presentation of these pre-acquisition contingencies and corresponding indemnification receivables in the Company's Condensed Consolidated Balance Sheets:

	December 31, 2013	June 30, 2013
	(in thousands)	
Assets		
Prepaid expenses and other current assets	\$4,787	\$5,061
Other non-current assets	\$2,748	\$2,905
Liabilities		
Other current liabilities	\$4,787	\$5,061
Other long-term liabilities	\$2,748	\$2,905

Changes in these contingent liabilities and receivables from June 30, 2013, are primarily driven by foreign currency translation.

## (10) Income Taxes

The Company had approximately \$1.2 million and \$1.0 million of total gross unrecognized tax benefits as of December 31, 2013 and June 30, 2013. Of this total at December 31, 2013, approximately \$0.7 million represents the amount of unrecognized tax benefits that are permanent in nature and, if recognized, would affect the annual effective tax rate. The Company does not believe that the total amount of unrecognized tax benefits will significantly increase or decrease within twelve months of the reporting date.

The Company conducts business globally and, as a result, one or more of its subsidiaries files income tax returns in the U.S. federal, various state, local and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities in countries and states in which it operates. With certain exceptions, the Company is no longer subject to state and local, or non-U.S. income tax examinations by tax authorities for the years before June 30, 2009.

The Company's policy is to recognize interest and penalties related to income tax matters in income tax expense. As of December 31, 2013, the Company had approximately \$0.9 million accrued for interest and penalties.

Income taxes for the interim period presented have been included in the accompanying condensed consolidated financial statements on the basis of an estimated annual effective tax rate. In addition to the amount of tax resulting from applying the estimated annual effective tax rate to pre-tax income, the Company includes certain items treated as discrete events to arrive at an estimated overall tax provision. As a result of a change in our effective state tax rate, an adjustment to deferred tax assets was accounted for discretely, resulting in a net tax benefit of \$0.7 million for the six months ended December 31, 2013.

The Company's effective tax rate differs from the federal statutory rate of 35% primarily as a result of income derived from tax jurisdictions with varying income tax rates and state income taxes.

The Company has provided for U.S. income taxes for the current earnings of its Canadian subsidiary. Earnings from all other geographies will continue to be considered retained indefinitely for reinvestment.

Financial results in prior quarters have generated pre-tax losses in Europe, which were primarily the result of our European Communications business, and could affect the valuation of certain deferred tax assets. Year to date, the European business has fluctuated, generating a pre-tax profit in the first quarter but a nominal loss year to date. In the judgment of management, it is more likely than not that the deferred tax asset will be realized.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

ScanSource, Inc. is a leading international wholesale distributor of specialty technology products. ScanSource, Inc. and its subsidiaries (the "Company") provide value-added distribution services for approximately 250 technology manufacturers and sell to approximately 28,000 resellers in the following specialty technology markets: POS and Barcode, Security and Communications.

The Company operates in the United States, Canada, Mexico, Latin America, and Europe and uses centralized distribution centers for major geographic regions. The Company distributes to the United States and Canada from its Southaven, Mississippi distribution center; to Latin America and Mexico principally from distribution centers located in Florida, Mexico and Brazil; and to Europe principally from its distribution center in Belgium.

The Company distributes products for many of its key vendors in all of its geographic markets; however certain vendors only allow distribution to specific geographies. The Company's key vendors in barcode technologies include Bematech, Cisco, Datalogic, Datamax-O'Neil, Elo, Epson, Honeywell, Intermec by Honeywell, Motorola, NCR, Toshiba Global Commerce Solutions and Zebra Technologies. The Company's key vendors for security technologies include Arecont, Axis, Bosch, Cisco, Datacard, Exacq Technologies, Fargo, HID, March Networks, Panasonic, Ruckus Wireless, Samsung, Sony and Zebra Card. The Company's key vendors in communications technologies include Aruba, Avaya, AudioCodes, Cisco, Dialogic, Extreme Networks, Meru Networks, Plantronics, Polycom, ShoreTel and Sonus.

In the fourth quarter of fiscal 2013, we announced a new management structure to enhance our worldwide technology markets focus and growth strategy. This strategy focuses on our barcode, security and communication technologies. Our worldwide management structure created new leadership roles and reporting segments to globally leverage the Company's leadership in specific technology markets. As a part of this new structure, ScanSource has created two technology segments, each with its own president. The two segments are Worldwide Barcode & Security, which includes ScanSource POS and Barcode and ScanSource Security business units, and Worldwide Communications & Services, which encompasses ScanSource Catalyst, ScanSource Communications and ScanSource Services Group business units. The new reporting segments of Worldwide Barcode & Security and Worldwide Communications & Services replace the geographic segments of North America and International and give us the ability to leverage our size and experience to deliver more value to our vendor and reseller partners in our existing markets.

Our objective is to continue to grow profitable sales in the technologies we distribute with emphasis on growth in security and communication technologies. We continue to evaluate strategic acquisitions to enhance our technological and geographic portfolios, as well as introduce new product lines to our line card. In doing so, we face numerous challenges that require attention and resources. Certain business units and geographies continue to experience increased competition for the products we distribute. This competition may come in the form of pricing, credit terms, service levels, product availability and changes from a closed distribution sales model, in which resellers must purchase exclusively from one distributor, to an open distribution sales model, in which resellers may choose to purchase from multiple distributors. As this competition could affect both our market share and pricing of our products, we may change our strategy in order to effectively compete in the marketplace.

In recent quarters, our Latin America subsidiary has been experiencing a significant drop in revenue in Venezuela due to increased country-specific risks. In Venezuela, the Company's transactions are denominated in U.S. dollars; however, our Venezuelan resellers are having difficulties getting U.S. dollars to pay us since the government controls the available U.S. dollars within the country. Hence, we have heightened risk of collectability in this country. At December 31, 2013, the Company held \$2.1 million in accounts receivable with 100% reserves specific to accounts

receivable in Venezuela.

In December 2013, the Company retained SAP for software platform and implementation consulting services for a new Enterprise Resource Planning ("ERP") system.

#### Evaluating Financial Condition and Operating Performance

In addition to disclosing results that are determined in accordance with United States Generally Accepted Accounting Principles ("US GAAP"), we also disclose certain non-GAAP financial measures. These measures include return on invested capital ("ROIC") and "constant currency," a measure that excludes the translation exchange impact from changes in foreign currency exchange rates between reporting periods. We use non-GAAP financial measures to better understand and evaluate performance, including comparisons from period to period.

Table of Contents

These non-GAAP financial measures have limitations as analytical tools, and the non-GAAP financial measures that we report may not be comparable to similarly titled amounts reported by other companies. Analysis of results and outlook on a non-GAAP basis should be considered in addition to, and not in substitution for or as superior to, measurements of financial performance prepared in accordance with US GAAP.

## Return on Invested Capital

Management uses ROIC as a performance measurement to assess efficiency at allocating capital under the Company's control to generate returns. Management believes this metric balances the Company's operating results with asset and liability management, is not impacted by capitalization decisions and is considered to have a strong correlation with shareholder value creation. In addition, it is easily computed, communicated and understood. ROIC also provides management a measure of the Company's profitability on a basis more comparable to historical or future periods.

ROIC assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operating performance. We believe the calculation of ROIC provides useful information to investors and is an additional relevant comparison of our performance during the year. In addition, the Company's Board of Directors uses ROIC in evaluating business and management performance. Certain management incentive compensation targets are set and measured relative to ROIC.

We calculate ROIC as earnings before interest expense, income taxes, depreciation and amortization ("EBITDA") divided by invested capital. Invested capital is defined as average equity plus average daily funded interest-bearing debt for the period. The following table summarizes annualized return on invested capital ratio for the quarters ended December 31, 2013 and 2012, respectively:

	Quarter ended December 31,		
	2013	2012	
Return on invested capital ratio, annualized <sup>(a)</sup>	15.9	% 15.2	%

<sup>(a)</sup> The annualized EBITDA amount is divided by days in the quarter times 365 days per year (366 during leap years).

<sup>(a)</sup> There were 92 days in the current and prior year quarter, respectively.

The components of this calculation and reconciliation to our financial statements are shown on the following schedule:

	Quarter ended December 31,	
	2013	2012
	(in thousands)	
Reconciliation of net income to EBITDA:		
Net income (GAAP)	\$18,298	\$16,357
Plus: income taxes	9,511	8,417
Plus: interest expense	235	130
Plus: depreciation and amortization <sup>(a)</sup>	1,778	2,275
EBITDA (numerator for ROIC) (non-GAAP)	\$29,822	\$27,179

<sup>(a)</sup> Depreciation and amortization for the quarter ended December 31, 2012 include debt issuance costs of \$0.1 million.

	Quarter ended December 31,	
	2013	2012
	(in thousands)	
Invested capital calculations:		
Equity – beginning of the quarter	\$723,748	\$676,136
Equity – end of the quarter	751,446	696,960

Edgar Filing: SCANSOURCE INC - Form 10-Q

Average equity	737,597	686,548
Average funded debt <sup>(a)</sup>	5,429	23,850
Invested capital (denominator for ROIC) (non-GAAP)	\$743,026	\$710,398

(a) Average funded debt is calculated as the average daily amounts outstanding on our short-term and long-term interest-bearing debt.

Table of Contents

## Results of Operations

## Currency

We make references to "constant currency," a non-GAAP performance measure that excludes the foreign exchange rate impact from fluctuations in the weighted average foreign exchange rates between reporting periods. Constant currency is calculated by translating current period results from currencies other than the U.S. dollar using the comparable weighted average foreign exchange rates from the prior year period. This information is provided to view financial results without the impact of fluctuations in foreign currency rates, thereby enhancing comparability between reporting periods.

## Net Sales

The Company has two reportable segments, which are based on technologies. The following tables summarize the Company's net sales results by technology segment and by geographic location for the quarters ended December 31, 2013 and 2012, respectively:

Net Sales by Segment:	Quarter ended December 31,			
	2013	2012	\$ Change	% Change
	(in thousands)			
Worldwide Barcode & Security	\$476,206	\$489,075	\$(12,869)	(2.6)%
Worldwide Communications & Services	264,412	258,641	5,771	2.2%
Total net sales	\$740,618	\$747,716	\$(7,098)	(0.9)%
	Six Months ended December 31,			
	2013	2012	\$ Change	% Change
	(in thousands)			
Worldwide Barcode & Security	\$926,850	\$945,262	\$(18,412)	(1.9)%
Worldwide Communications & Services	545,672	536,058	9,614	1.8%
Total net sales	\$1,472,522	\$1,481,320	\$(8,798)	(0.6)%

## Worldwide Barcode &amp; Security

The Barcode & Security distribution segment consists of sales to technology resellers in our ScanSource POS & Barcode business units in North America, Europe, Brazil and Latin America and our ScanSource Security business unit in North America. Sales for the Barcode & Security distribution segment decreased \$12.9 million and \$18.4 million, compared to the prior year quarter and prior year six month period, respectively. On a constant currency basis, net sales for the distribution segment decreased \$13.3 million and \$18.8 million, which represents a 2.7% and 2.0% decrease, compared to the prior year quarter and prior year six month period, respectively. The decline in Barcode & Security sales is primarily due to market demand trends for barcode products and fewer big deals than the prior year. Additionally, our Security sales declined from weaker sales in networking infrastructure and card printers offsetting year-over-year growth in video surveillance and access control.

## Worldwide Communications &amp; Services

The Communications & Services distribution segment consists of sales to technology resellers in our ScanSource Communications business units in North America and Europe, ScanSource Catalyst in North America, and ScanSource Services Group. Sales for the Communications & Services segment increased \$5.8 million and \$9.6 million compared to the prior year quarter and prior year six month period, respectively. On a constant currency basis, net sales for the distribution segment increased \$5.0 million and \$7.8 million, which represents a 1.9% and 1.5% increase, compared to the prior year quarter and prior year six month period, respectively. Sales for the North American Communications and Catalysts business units grew year-over-year, primarily due to increases in the number

of big deals and growth in key vendor lines.

Table of Contents

Net Sales by Geography:	Quarter ended December 31,					
	2013	2012	\$ Change	% Change		
	(in thousands)					
North American (U.S. and Canada)	\$545,089	\$547,987	\$(2,898)	(0.5)	)	%

**Gross Profit**

The following table summarizes the Company's gross profit for the quarters ended December 31, 2013 and 2012, respectively:

	Quarter ended December 31,				% of Net Sales December 31,			
	2013	2012	\$ Change	% Change	2013	2012		
	(in thousands)							
Worldwide Barcode & Security	\$42,750	\$44,435	\$(1,685)	(3.8)	)	9.0	% 9.1	%
Worldwide Communications & Services	34,506	29,916	4,590	15.3	%	13.1	% 11.6	%
Gross profit	\$77,256	\$74,351	\$2,905	3.9	%	10.4	% 9.9	%

  

	Six Months ended December 31,				% of Net Sales December 31,			
	2013	2012	\$ Change	% Change	2013	2012		
	(in thousands)							
Worldwide Barcode & Security	\$83,480	\$85,696	\$(2,216)	(2.6)	)	9.0	% 9.1	%
Worldwide Communications & Services	70,275	62,694	7,581	12.1	%	12.9	% 11.7	%
Gross profit	\$153,755	\$148,390	\$5,365	3.6	%	10.4	% 10.0	%

**Worldwide Barcode & Security**

Gross profit dollars for the Barcode & Security distribution segment decreased for the quarter and six months ended December 31, 2013, compared to the prior period, from lower sales volumes. As a percentage of net sales, our gross profit margin remained relatively flat compared to the prior year period.

**Worldwide Communications & Services**

In the Communications & Services distribution segment, gross profit dollars and gross profit margin (as a percentage of net sales) increased for the quarter and six months ended December 31, 2013, compared to the prior period. The increases in gross profit margin are primarily due to higher service fee revenues and improved vendor program recognition.

**Operating Expenses**

The following table summarizes our operating expenses for the quarters and six months ended December 31, 2013 and 2012, respectively:

20

---

Operating expense	\$49,795	\$49,926	\$(131 )	(0.3 )%	6.7	% 6.7	%
	Six Months ended December 31,				% of Net Sales December 31,		
	2013	2012	\$ Change	% Change	2013	2012	
	(in thousands)						
Selling, general and administrative expense	\$96,836	\$96,454	\$382	0.4 %	6.6	% 6.5	%
Change in fair value of contingent consideration	1,237	1,296	(59 )	(4.6 )%	0.1	% 0.1	%
Operating expense	\$98,073	\$97,750	\$323	0.3 %	6.7	% 6.6	%

Selling, general and administrative expense ("SG&A") decreased \$0.1 million for the quarter ended December 31, 2013. In the quarter ended December 31, 2012 the Company incurred \$2.1 million in expenses related to tax compliance and personnel replacement costs in Belgium. SG&A expenses for the quarter ended December 31, 2013 included severance expense for a Company executive and other elevated personnel costs.

SG&A increased \$0.4 million for the six months ended December 31, 2013. The increase in SG&A expenses for the current six month period is primarily due to higher bad debt expenses, partially offset by lower amortization expense for fully amortized intangible assets.

We present changes in fair value of the contingent consideration owed to the former shareholders of CDC as a separate line item in operating expenses. In the current quarter and six month period, we have recorded fair value adjustment losses of \$0.5 million and \$1.2 million, respectively. These losses are primarily the result of the recurring amortization of the unrecognized fair value discount.

## Operating Income

The following table summarizes our operating income for the quarters and six months ended December 31, 2013 and 2012, respectively:

	Quarter ended December 31,				% of Net Sales December		
	2013	2012	\$ Change	% Change	2013	2012	
	(in thousands)						
Worldwide Barcode & Security	\$12,955	\$13,289	\$(334 )	(2.5 )%	2.7	% 2.7	%

Edgar Filing: SCANSOURCE INC - Form 10-Q

	2013	2012	\$ Change	% Change	2013	2012	
	(in thousands)						
Worldwide Barcode & Security	\$24,914	\$25,913	\$(999)	(3.9)%	2.7	% 2.7	%
Worldwide Communications & Services	30,768	24,727	6,041	24.4%	5.6	% 4.6	%
Operating income	\$55,682	\$50,640	\$5,042	10.0%	3.8	% 3.4	%

Worldwide Barcode & Security

For the Barcode & Security distribution segment, operating income decreased \$0.3 million and \$1.0 million from the prior year quarter and prior year six month period, respectively, primarily from lower sales volume. Operating income as a percentage of net sales remained flat for the quarter and six months ended December 31, 2013.

Table of Contents

## Worldwide Communications &amp; Services

For the Communications & Services distribution segment, operating income increased \$3.4 million and \$6.0 million for the quarter and six months ended December 31, 2013, compared with operating income for the prior year period. These increases are primarily due to an increase in service fee revenues and vendor program recognition as described above.

## Total Other Expense (Income)

The following table summarizes our total other (income) expense for the quarters and six months ended December 31, 2013 and 2012, respectively:

	Quarter ended		\$ Change	% Change	% of Net Sales December 31,	
	December 31, 2013	2012			2013	2012
	(in thousands)					
Interest expense	\$235	\$130	\$105	80.8	% 0.0	% 0.0
Interest income	(525)	(532)	7	(1.3)	% (0.1)	% (0.1)
Net foreign exchange (gains) losses	110	111	(1)	(0.9)	% 0.0	% 0.0
Other, net	(168)	(58)	(110)	189.7	% (0.0)	% (0.0)
Total other (income) expense, net	\$(348)	\$(349)	\$1	(0.3)	% (0.0)	% (0.0)
	Six Months ended		\$ Change	% Change	% of Net Sales December 31,	
	December 31, 2013	2012			2013	2012
	(in thousands)					
Interest expense	\$482	\$254	\$228	89.8	% 0.0	% 0.0
Interest income	(1,099)	(1,166)	67	(5.7)	% (0.1)	% (0.1)
Net foreign exchange (gains) losses	269	183	86	47.0	% 0.0	% 0.0
Other, net	(218)	(144)	(74)	51.4	% (0.0)	% (0.0)
Total other (income) expense, net	\$(566)	\$(873)	\$307	(35.2)	% (0.0)	% (0.1)

Interest expense reflects interest incurred on long-term debt, non-utilization fees from the Company's revolving credit facility and the amortization of debt issuance costs in the quarter and six months ended December 31, 2013.

Interest income for the quarter and six months ended December 31, 2013 was \$0.5 million and \$1.1 million, respectively, and includes interest income generated on longer-term interest bearing receivables and interest earned on cash and cash equivalents.

Net foreign exchange losses consist of foreign currency transactional and functional currency re-measurements, offset by net foreign currency exchange contract gains and losses. Foreign exchange gains and losses are generated from fluctuations in the value of the British pound versus the euro, the U.S. dollar versus the euro, the U.S. dollar versus the Brazilian real, the Canadian dollar versus the U.S. dollar and other currencies versus the U.S. dollar. While we utilize foreign exchange contracts and debt in non-functional currencies to hedge foreign currency exposure, our foreign exchange policy prohibits the use for speculative transactions.

Provision for Income Taxes

For the quarter and six months ended December 31, 2013, income tax expense was \$9.5 million and \$18.5 million, respectively, reflecting an effective tax rate of 34.2% and 32.9%, respectively. The effective tax rate for the quarter and six months ended December 31, 2012 was 34%. The increase in the effective tax rate from the prior year six month period is primarily due to the recognition of a discrete item in the quarter ended September 30, 2013. As a result of a change in our effective state tax rate, an adjustment to deferred tax assets was accounted for discretely, resulting in a net tax benefit of \$0.7 million for the quarter ended September 30, 2013. Excluding the recognition of the discrete item, the effective tax rate for the six months ended December 31, 2013 would have been 34.2%, which is our estimate of the annual effective tax rate for the full fiscal year.

## Table of Contents

### Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations and borrowings under the \$300 million revolving credit facility, \$5.4 million industrial revenue bond and €6 million line of credit for our European subsidiary. As a distribution company, our business requires significant investment in working capital, particularly accounts receivable and inventory, partially financed through our accounts payable to vendors and revolving lines of credit. In general, as our sales volumes increase, our net investment in working capital typically increases, which typically results in decreased cash flow from operating activities. Conversely, when sales volumes decrease, our net investment in working capital typically decreases, which typically results in increased cash flow from operating activities.

Our cash and cash equivalents balance totaled \$157.1 million at December 31, 2013, compared to \$148.2 million at June 30, 2013, including \$24.6 million and \$23.8 million held outside of the United States at December 31, 2013 and June 30, 2013, respectively. Checks released but not yet cleared in the amounts of \$107.1 million and \$65.9 million are included in accounts payable as of December 31, 2013 and June 30, 2013, respectively.

We conduct business in many locations throughout the world where we generate and use cash. The Company provides for U.S. income taxes for the earnings of its Canadian subsidiary. Earnings from all other geographies are considered retained indefinitely for reinvestment. If these funds were needed in the operations of the United States, we would be required to record and pay significant income taxes upon repatriation of these funds.

Our net investment in working capital has increased to \$669.2 million at December 31, 2013 from \$614.4 million at June 30, 2013 and increased compared to the December 31, 2012 balance of \$597.7 million. Net working capital has increased \$54.8 million since June 30, 2013, principally from higher inventory balances, partially offset by higher accounts payable. Our net investment in working capital is affected by several factors such as fluctuations in sales volume, net income, timing of collections from customers, increases and decreases to inventory levels, payments to vendors, as well as, cash generated or used by other financing and investing activities.

As mentioned above, given our business model, we typically have an inverse relationship between cash flows from operating activities and our sales volumes. Net cash provided by operating activities was \$1.3 million for the six months ended December 31, 2013, compared to \$10.0 million used in operating activities in the prior year period. The increase is largely attributable to higher net income adjusted for non-cash items and higher accounts payable balances from timing of certain vendor payments, partially offset by increases in inventory balances.

The number of days sales in receivables ("DSO") was 53 days at December 31, 2013, compared to 55 and 54 days at June 30, 2013 and December 31, 2012, respectively. Inventory turned 5.9 times during the second quarter of fiscal year 2014 versus 6.3 and 5.6 times in the sequential and prior year quarters, respectively.

Cash used in investing activities for the six months ended December 31, 2013 was \$0.4 million, compared to \$3.2 million used in the prior year period. Current year capital expenditures were attributable to building improvements, while prior year investing cash flows were primarily attributable to investments that were subsequently impaired.

In December 2013, we retained SAP for the software platform and implementation consulting services for a new Enterprise Resource Planning ("ERP") system. The Company is currently working on the development and implementation of the new ERP platform. Management expects capital spending for fiscal 2014 to range from \$13 million to \$18 million, primarily related to the ERP system.

For the six months ended December 31, 2013, cash provided by financing activities totaled to \$7.8 million, compared to \$15.0 million cash in the prior year period. The change in cash provided by financing activities was primarily from increased exercises of stock options.

The Company has a \$300 million multi-currency senior secured revolving credit facility that was scheduled to mature on October 11, 2016. On November 6, 2013, the Company entered into an amendment of this credit facility ("Amended Credit Agreement") with JP Morgan Chase Bank, N.A, as administrative agent, and a syndicate of banks to extend its maturity to November 6, 2018. The Amended Credit Agreement allows for the issuance of up to \$50 million for letters of credit and has a \$150 million accordion feature that allows the Company to increase the availability to \$450 million, subject to obtaining additional credit commitments for the lenders participating in the increase.

At our option, loans denominated in U.S. dollars under the Amended Credit Agreement, other than swingline loans, bear interest at a rate equal to a spread over the London Interbank Offered Rate ("LIBOR") or alternate base rate depending upon the Company's

Table of Contents

ratio of total debt (excluding accounts payable and accrued liabilities) to EBITDA, measured as of the end of the most recent year or quarter, as applicable, for which financial statements have been delivered to the Lenders (the "Leverage Ratio"). This spread ranges from 1.00% to 2.25% for LIBOR-based loans and 0.00% to 1.25% for alternate base rate loans. Borrowings under the Amended Credit Agreement are guaranteed by substantially all of the domestic assets of the Company as well as certain foreign subsidiaries determined to be material under the Amended Credit Agreement and a pledge of up to 65% of capital stock or other equity interest in each Guarantor (as defined in the Amended Credit Agreement). We were in compliance with all covenants under the credit facility as of December 31, 2013.

There were no outstanding borrowings on our \$300 million revolving credit facility as of December 31, 2013 and June 30, 2013.

On a gross basis, we made zero borrowings and repayments on our Revolving Credit Facility in the six months ended December 31, 2013. In the prior year-to-date period, we borrowed \$435.2 million and repaid \$413.8 million. The average daily balance on the Revolving Credit Facility was \$0.0 million and \$14.1 million for the six months ended December 31, 2013 and 2012, respectively. There were no standby letters of credits issued and outstanding as of December 31, 2013 on the revolving credit facility, leaving \$300 million available for additional borrowings.

In addition to our multi-currency \$300 million revolving credit facility, we have a €6.0 million subsidiary line of credit for our European operations which bears interest at the 30-day Euro Interbank Offered Rate ("EURIBOR") plus a spread ranging from 1.25% to 2.00% per annum. There were no outstanding borrowings as of December 31, 2013 and June 30, 2013. This facility is secured by the assets of our European operations and is guaranteed by ScanSource, Inc.

On April 15, 2011, the Company, through its wholly-owned subsidiary, ScanSource do Brasil Participações LTDA, completed its acquisition of all of the shares of CDC, pursuant to a Share Purchase and Sale Agreement dated April 7, 2011. The purchase price was paid with an initial payment of \$36.2 million, net of cash acquired, assumption of working capital payables and debt, and variable annual payments through October 2015 based on CDC's annual financial results. The Company has made its first three payments to the former shareholders. As of December 31, 2013, we have \$9.5 million recorded for the continuing earnout obligation, of which \$5.2 million is classified as current. Future earnout payments will be funded by cash on hand and our existing revolving credit facility.

We believe that our existing sources of liquidity, including cash resources and cash provided by operating activities, supplemented as necessary with funds under our credit agreements, will provide sufficient resources to meet the present and future working capital and cash requirements for at least the next twelve months.

## Table of Contents

### Contractual Obligations

There have been no material changes in our contractual obligations and commitments as disclosed in our Annual Report on Form 10-K as of August 26, 2013.

### Accounting Standards Recently Issued

There are currently no new accounting standards issued that are expected to have a significant impact on our financial position, results of operations and cash flows upon adoption.

### Critical Accounting Policies and Estimates

Critical accounting policies are those that are important to our financial condition and require management's most difficult, subjective or complex judgments. Different amounts would be reported under different operating conditions or under alternative assumptions. We have evaluated the accounting policies used in the preparation of the consolidated financial statements and related notes and believe those policies to be reasonable and appropriate. See Note 1 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended June 30, 2013 for a complete listing of our significant accounting policies.

### Goodwill

Goodwill is not amortized but is tested annually for impairment at a reporting unit level. Additionally, goodwill is tested for impairment on an interim basis if at any time facts and circumstances indicate that an impairment may have occurred.

As discussed in Item 7 of the Company's 2013 Annual Report on Form 10-K under Critical Accounting Policies, we performed our annual goodwill impairment test for the European POS & Barcode and ScanSource Latin America reporting units as of June 30, 2013 and found that the fair value of the reporting units exceeded their carrying values by 7.2% and 9.7%, respectively. In addition, we recorded an impairment of a portion of the goodwill balance for our ScanSource Brasil reporting unit, and we fully impaired the goodwill associated with our European Communications reporting unit.

We monitor results of these reporting units on a quarterly basis, as not meeting estimated expectations or changes to the projected future results of their operations could result in a future impairment of goodwill for these reporting entities. Based on current projected future results, we do not believe there is a more likely than not expectation that a goodwill impairment exists. The goodwill associated with the ScanSource Brasil, European POS & Barcode and ScanSource Latin America goodwill testing units as of December 31, 2013 is \$3.0 million, \$4.9 million and \$4.0 million respectively.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's principal exposure to changes in financial market conditions in the normal course of its business is a result of its selective use of bank debt and transacting business in foreign currencies in connection with its foreign operations.

#### Interest Rate Risk

The Company is exposed to changes in interest rates primarily as a result of its borrowing activities, which include revolving credit facilities with a group of banks used to maintain liquidity and fund the Company's business

operations. The nature and amount of the Company's debt may vary as a result of future business requirements, market conditions and other factors. A hypothetical 100 basis point increase or decrease in interest rates on borrowings on the Company's revolving credit facility, variable rate long-term debt and subsidiary line of credit for the quarter ended December 31, 2013 would have resulted in less than a \$0.1 million increase or decrease, respectively, in pre-tax income for the period.

The Company evaluates its interest rate risk and may use interest rate swaps to mitigate the risk of interest rate fluctuations associated with the Company's variable rate long-term debt. At December 31, 2013, the Company had \$5.4 million in variable rate long-term debt outstanding with no interest rate swaps in place. If used, derivative instruments have the potential to expose the Company to certain market risks including the possibility of (1) the Company's hedging activities not being as effective as anticipated in reducing the volatility of the Company's cash flows, (2) the counterparty not performing its obligations under the applicable hedging arrangement, (3) the hedging arrangement being imperfect or ineffective, or (4) the terms of the swap or associated debt may change. The Company seeks to lessen such risks by having established a policy to identify, control, and manage market risks which may arise from changes in interest rates, as well as limiting its counterparties to major financial institutions.

Table of Contents

Foreign Currency Exchange Rate Risk

The Company is exposed to foreign currency risks that arise from its foreign operations in Canada, Latin America, Brazil and Europe. These risks include transactions denominated in non-functional currencies and intercompany loans with foreign subsidiaries. In the normal course of the business, foreign exchange risk is managed by the use of foreign currency forward contracts to hedge these exposures as well as balance sheet netting of exposures. In addition, exchange rate fluctuations may cause our international results to fluctuate significantly when translated into U.S. dollars. These risks may change over time as business practices evolve and could have a material impact on the Company's financial results in the future.

The Company's senior management has approved a foreign exchange hedging policy to reduce foreign currency exposure. The Company's policy is to utilize financial instruments to reduce risks where internal netting cannot be effectively employed and not to enter into foreign currency derivative instruments for speculative or trading purposes. The Company monitors its risk associated with the volatility of certain foreign currencies against its functional currencies and enters into foreign exchange derivative contracts to minimize short-term currency risks on cash flows. These positions are based upon balance sheet exposures and, in certain foreign currencies, our forecasted purchases and sales. The Company continually evaluates foreign exchange risk and may enter into foreign exchange transactions in accordance with its policy. Actual variances from these forecasted transactions can adversely impact foreign exchange results. Foreign currency gains and losses are included in other expense (income).

The Company has elected not to designate its foreign currency contracts as hedging instruments, and therefore, the instruments are marked-to-market with changes in their values recorded in the consolidated income statement each period. The Company's foreign currencies are primarily British pounds, euros, Mexican pesos, Brazilian reais and Canadian dollars. At December 31, 2013, the fair value of the Company's currency forward contracts outstanding was a net receivable of less than \$0.1 million. The Company does not utilize financial instruments for trading or other speculative purposes.
