Securities in a privately owned company.

- (1) “Affiliated” generally means that the Fund (and/or affiliated funds) has a director on issuer’s board and/or the Fund owns more than 5% of the issuer’s voting shares.
(2) Non-Income-Producing.

- (3) Securities exempt from registration under Rule 144A of the Securities Act of 1933 may be sold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2013 the aggregate value of the restricted common securities of Plures Technologies was \$254,540 representing 1.99% of net assets. The restricted common shares were purchased or granted between July 1, 1998 and April 1, 2012. At March 31, 2013, the value of the restricted preferred securities was \$650,865 representing 5.09% of net assets. The restricted preferred securities were purchased on May 23, 2011. The Fund owns 385 shares of common stock of Plures Technologies Inc. which are not restricted but these shares would

have to be sold under Rule 144. The remaining shares still bear the restrictive legend and are eligible for sell under Rule 144. At March 31, 2013 the aggregate value of the unrestricted securities was \$782 representing 0.01% of net assets.

These securities or a portion of these securities are pledged as collateral against the

(5) due-to-broker balance (margin loan).

Percentage is calculated as a percentage of net assets.

(6) “Controlled” generally means the Fund (and/or affiliated funds) owns 25% or more of the issuer’s shares.

(7) Security is in default.

(8) See Fair Value Measurements as set forth on Page 5.

(9) These options represent the ability to purchase 15,023 common shares of AnchorFree Inc. at
(10) \$0.3971 per share. These options were issued as compensation for Russell Cleveland’s advisory services to the board of directors. These options expire three months after Russell Cleveland ceases to be a service provider.

(11) These warrants represent the ability to purchase 37,500 shares of common stock of Plures Technologies, Inc. at \$0.01 per share. These warrants expire October 15, 2016.

(12) Securities exempt from registration under Rule 144A of the Securities Act of 1933 may be sold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2013 the aggregate value of the restricted common securities of iSatori Inc. was \$4,157,844 representing 32.52% of net assets. The restricted common shares were converted or granted between October 2, 1998 and December 31, 2010. At March 31, 2013, the value of the restricted preferred securities was \$3,498 representing 0.03% of net assets. The restricted preferred shares were purchased on October 13, 1999.

Fair Value Measurements

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund's Board of Directors. The fair values reported are subject to various risks including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

When valuing debt securities the Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted. U.S. Treasuries are marked to market.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or

option has no value; thus the Fund assigns no value to it.

If there is no independent and objective pricing authority (i.e., a public market) on privately held investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

RENN Global Entrepreneurs Fund, Inc.
 First Quarter Report
 March 31, 2013 (unaudited)

Fair Value Measurements, continued

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of March 31, 2013:

	Level 1	Level 2	Level 3	Total
U.S. Treasury Notes	\$ 999,937	\$ 0	\$0	\$ 999,937
Convertible Debt	0	140,000	275,275	415,275
Convertible Preferred Equities	0	1,446,855	650,865	2,097,720
Common stock	4,431,665	4,157,844	255,322	8,844,832
Miscellaneous Securities	0	92,971	75,750	168,721
				12,526,484
Total Investments	\$ 5,431,602	\$ 5,837,670	\$1,257,212	\$

See page 1, Schedule of Investments for a breakdown of the valuation by industry type.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Level 3	
Beginning balance – December 31, 2012	\$ 1,562,060
Purchases	0
Realized losses	0
Changes in unrealized gain or loss	(304,846)
Ending Balance - March 31, 2013	\$ 1,257,212

Three portfolio companies are being classified as Level 3. These portfolio companies are being valued at fixed prices because the market data pertaining to these portfolio companies is non-existent or unreliable.

Dynamic Green Energy is a private company with significantly declining revenues. Earnings and shareholders' equity are negative as of December 31, 2012, the last financial report furnished to the Fund, and key members of management have resigned. Accordingly, the asset has been assigned a value of zero. It is unlikely, that the Fund will receive funds in a disposition of assets. The valuation technique used was the cost approach.

Pipeline Data, Inc. (PPDA) debt is being valued at 35% of par based upon a 2011 third party offer. The company has since declared bankruptcy in 2012. The bankruptcy court has approved a sale of the company which would result in the Fund receiving 24% of par. However, significant litigation remains that pertains to the subordination of certain of PPDA's debt. Therefore, the Fund continues to carry the PPDA debt at 35% of par pending the outcome of the subordination issue. The valuation technique used was the transaction approach.

Fair Value Measurements, continued

Plures Technologies, Inc. (MANY) trades infrequently. This has resulted in an unpredictable and unreliable market price based on the low percentage of tradable shares versus the number of shares outstanding. Thus, as of March 31, 2013, the Fund carried MANY at \$2.03 per share based on prices paid for recent private placements. The valuation technique used was the market approach.

Quantitative Information about Level 3 Fair Value Measurements

Portfolio Company Investment	Value at 3/31/13	Valuation Technique	Unobservable Input	Range	Weighted Average
Convertible Bond	\$ 0	Cost Approach	Equity Deficit	\$ 0-\$33,400,000	0
Convertible Bond	\$199,150	Transaction Approach	Recovery percentage	24% 50%	35%
