Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F [x] Form 40-F []

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): [].

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): [].

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Set forth herein as Exhibit 99.1 is a copy of Announcement No. 8 - 2010 issued by TORM A/S to The Copenhagen Stock Exchange on August 19, 2010.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

TORM A/S (registrant)

Dated: August 19, 2010

By:

/s/ Jacob Meldgaard Name: Jacob Meldgaard Title: Chief Executive Officer TORM posted a loss before tax of USD 24 million for Q2 2010. The result was in line with expectations and better than the same period a year ago. "In Q2, the product tanker market was affected by seasonality, however positive signs of recovery were seen late in the quarter. We believe underlying demand is improving and will support the product tanker segment going forward," says CEO Jacob Meldgaard.

The result before tax for the second quarter of 2010 was a loss of USD 24 million, compared to a loss of USD 33 million in the same period last year. The result for the second quarter was in line with expectations. The result for the second quarter of 2010 was positively impacted by mark-to-market non-cash adjustments of USD 2 million.

A loss of USD 22 million before tax was recorded for the first six months of 2010. The result for the first quarter of 2010 includes a profit of USD 18 million from the sale of two bulk vessels.

In the second quarter of 2010, product tanker rates were negatively impacted by seasonality, influx of new tonnage and continued discharge of vessels from floating storage. The demand for refined products in the West remained slow, and the freight rate weakness seen in the crude oil markets did not spur additional demand for the larger LR tonnage. The demand for vegetable oil to China and Europe and for naphtha in the Far East did not offer sufficient rate support until the end of Q2 where also demand for gasoline in the West showed an upward trend.

Panamax bulk rates remained volatile in the second quarter of 2010. Up to mid-May, the rates increased to USD 37,100/day, but then fell to USD 22,100/day at the end of the quarter. Due to TORM's high coverage of earning days, the volatility in bulk spot rates had limited impact on TORM's earnings.

On a quarterly basis, TORM calculates the long-term earnings potential of its fleet based on discounted expected future cash flows. The calculated value of the fleet at 30 June 2010 supports book value.

At 30 June 2010, equity amounted to USD 1,220 million, equivalent to USD 17.6 per share (DKK 106.9 per share), excluding treasury shares, corresponding to an equity ratio of 38%.

TORM's undrawn credit facilities and cash totalled approximately USD 600 million at the end of the second quarter. Capex relating to the order book amounted to USD 372 million.

Net interest-bearing debt totalled USD 1,691 million at 30 June 2010, compared to USD 1,622 million at 31 March 2010. The increase is due

Edgar Filing: TORM A/S - Form 6-K

to borrowing in connection with the newbuilding programme.

At 30 June 2010, TORM had covered 33% of the remaining earning days for 2010 in the Tanker Division at USD 16,470/day and 81% of the remaining earning days in the Bulk Division at USD 19,725/day.

TORM forecasts a loss before tax of USD 40-60 million for 2010.

Telecon-ference TORM will host a teleconference and webcast (www.torm.com) today, at 3:00 pm Copenhagen time (CET), see details on page 9.

The activity that TORM owns in a 50/50 joint venture with Teekay and the 50% ownership of FR8 Holding Pte. Ltd. are included in "Not-allocated".

Tanker DivisionThe division realised an operating loss of USD 11 million for the second
quarter of 2010, compared to a loss of USD 12 million in the same period
in 2009.

In line with seasonality, rates were generally low in the second quarter of 2010. Compared to the same period a year ago rate levels have improved as the global economy is regaining strength.

Influx of newbuildings, freed-up floating storage and a continued negative market sentiment kept the rates at low levels, also in a historical perspective.

Edgar Filing: TORM A/S - Form 6-K

In the second quarter of 2010, the fleet grew by approx. 2%. The significant delay in deliveries of new tonnage experienced in 2009 and the first quarter of 2010 continued in the second quarter, with slippage of more than 40%.

In the second quarter of 2010, the MR segment was negatively impacted by poor gasoline demand in the USA. The market players therefore sought alternative cargoes and destinations for the MR fleet, e.g. distilled oil products from the USA to South America, vegetable oil from South America to China and palm oil from Indonesia/Malaysia to the European continent.

The strengthening of the transatlantic trading route, seen late June, was partly driven by these changes in transport patterns, as this implied fewer vessels available on the European continent at the same time as the gasoline arbitrage from Europe to the USA opened.

19 AUGUST 2010

ANNOUNCEMENT NO. 8 – 2010 TORM – SECOND QUARTER REPORT 2010

The LR segment continued to show some strength, as naphtha demand from the Far East remained firm throughout the second quarter of 2010 despite added tonnage from newbuildings and notably freed-up tonnage from floating storage. The weaker dirty market implied that the tonnage balance was not supported by vessels swapping into dirty.

The continued reduction in floating storage during the second quarter of 2010 has impacted the tonnage supply for the larger LR vessels, and thus rates. At the end of June, floating storage has been reduced to some 3% of the total fleet, which is a more natural level. The level of and movements in floating storage are volatile and impacted by the forward curve for the various refined products.

At 30 June, coverage for the remaining part of 2010 was 33% at USD 16,470/day.

 Operating expenses are related to owned vessels.

Bulk Division

Operating profit for the second quarter of 2010 was USD 2 million, compared to USD 10 million in the second quarter of 2009.

The number of earning days for the Bulk Division was 29% lower in the second quarter of 2010 than in the same period last year due to the sale of vessels.

The dry bulk market stayed at a relatively strong level throughout most of the second quarter of 2010, with Panamax spot rates peaking at around USD/day 37,100 in mid-May. Rates continued to be driven by the Chinese demand for iron ore and coal as well as high port congestion.

19 AUGUST 2010

ANNOUNCEMENT NO. 8 – 2010 TORM – SECOND QUARTER REPORT 2010

	However, towards the end of the quarter and at the beginning of the third quarter, rates decreased sharply and did not stabilise until the end of July. By then, Panamax spot rates were down to around USD 16,000/day. The decline in rates was driven by the continued high influx of new vessels, especially in the Capesize segment, in combination with declining Chinese demand for coal and uncertainty surrounding the future Chinese demand for iron ore. Total fleet growth in the dry bulk segment came to about 4% in the second quarter of 2010.											
	As TORM seeks high coverage of earning days for the Bulk Division, the volatility in bulk spot rates has limited impact on TORM's earnings in 2010.											
	At 30 June, coverage for the remaining part of 2010 was 81% at USD 19,725/day.

In July 2010, TORM took delivery of the MR vessel TORM Aslaug from the Chinese shipyard GSI Guangzhou.

19 AUGUST 2010

ANNOUNCEMENT NO. 8 – 2010 TORM – SECOND QUARTER REPORT 2010 6 / 20

Second quarter 2010

Results Gross profit for the second quarter of 2010 was USD 41 million, up from USD 39 million for the corresponding period of 2009. Administrative expenses were USD 18 million, against USD 23 million for the second quarter of 2009, corresponding to a reduction of 22%. Profit before depreciation and amortisation (EBITDA) for the period was USD 24 million, against USD 31 million for the second quarter of 2009. The primary reason for the decline in EBITDA is that the second quarter of 2009 was positively affected by a profit of USD 13 million from sale of vessels. Depreciation was USD 34 million during the second quarter of 2010. Operating profit for the second quarter of 2010 was a loss of USD 11 million, compared to a loss of USD 3 million for the same quarter of 2009. The second quarter of 2010 was impacted by mark-to-market non-cash adjustments of USD 2 million related to FFA/bunker derivatives. In the second quarter of 2010, financial items amounted to an expense of USD 14 million, against an expense of USD 30 million in the same quarter of 2009. The second quarter of 2009 was influenced by a negative non-cash fair value adjustment of USD 23 million on the value of options related to vessel values acquired in connection with the acquisition of OMI. The result after tax was a loss of USD 24 million in the second quarter of 2010, against a loss of USD 34 million in the second quarter of 2009. The result in the second quarter of 2009 was impacted by a profit of USD 13 million from sale of vessels. No vessels were sold during the second quarter of 2010. Total assets fell from USD 3,226 million at 31 March 2010 to USD 3,210 Assets million at 30 June 2010. On a quarterly basis, TORM calculates the long-term earnings potential of its fleet based on discounted expected future cash flows. The calculated value of the fleet at 30 June 2010 supports book value. Liabilities During the second quarter of 2010, net interest-bearing debt increased to USD 1,691 million from USD 1,622 million at 31 March 2010. The increase in debt is due to borrowing in connection with the newbuilding programme. More than 74% of the debt is due after 2012. Total equity In the second quarter of 2010, equity decreased from USD 1,248 million at 31 March 2010 to USD 1,220 million, which was primarily due to the loss during the period. Equity as a percentage of total assets was 38% at 30 June

Edgar Filing: TORM A/S - Form 6-K 2010, compared to 39% at 31 March 2010. At 30 June 2010, TORM held 3,461,580 treasury shares, corresponding to 4.8% of the Company's share capital, which is unchanged since 31 March 2010. Liquidity TORM's undrawn credit facilities and cash totalled about USD 600 million at the end of the second quarter of 2010. Outlook TORM forecasts a loss before tax of USD 40-60 million for 2010. Coverage At 30 June 2010, TORM had covered 33% of the remaining earning days for 2010 in the Tanker Division at USD/day 16,470 and 81% of the remaining earning days in the Bulk Division at USD/day 19,725.

Notes

Actual no. of days can vary from projected no. of days primarily due to vessel sales and timing of vessel deliveries. T/C in costs do not include potential extra payments from profit split arrangements.

Post balance sheet	No subsequent events have occurred after the balance sheet date which
events	would change TORM's expectations for its financial performance for either
	2010 or any subsequent period.

ANNOUNCEMENT NO. 8 – 201019 AUGUST 2010TORM – SECOND QUARTER REPORT 20108 / 20

Safe Harbor Forward-looking Statements Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and statements other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot guarantee that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of the world economy and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in the regulation of shipping operations, including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward-looking statements are based on management's current evaluation, and TORM is only under an obligation to update and change the listed expectations to the extent required by law.

The TORM share The price of a TORM share was DKK 46.1 at 30 June 2010, against DKK 57.0 at 31 March 2010, equivalent to a decrease of DKK 10.9 (19%).

Accounting policies This interim report for the second quarter of 2010 is presented in accordance with IAS 34 "Interim financial reporting" as adopted by the EU and additional Danish disclosure requirements for interim reports of listed companies. The interim report for the second quarter of 2010 is unaudited and is presented in accordance with the same accounting policies as the Annual Report 2009.

Information Teleconference

TORM will host a telephone conference for financial analysts and investors on 19 August 2010 at 3:00 pm Copenhagen time (CET), reviewing the interim report for the first six months of 2010. The conference call will be hosted by Jacob Meldgaard, CEO, Roland M. Andersen, CFO, and Sune S. Mikkelsen, VP IR, and will be conducted in English.

To participate, please call 10 minutes before the conference on tel.: +45 3271 4607 (from Europe) or +1 887 491 0064 (from the USA). The teleconference will also be webcast via TORM's website www.torm.com.The presentation material can be downloaded from the website.

Next reporting

TORM's financial report for the first nine months of 2010 will be published on 18 November 2010.

19 AUGUST 2010

ANNOUNCEMENT NO. 8 – 2010 TORM – SECOND QUARTER REPORT 2010

Statement by the Board of Directors and Executive Management on the Interim Report

The Board of Directors and Executive Management have considered and approved the interim report for the period 1 January – 30 June 2010.

The interim report, which is unaudited, has been prepared in accordance with the general Danish financial reporting requirements governing listed companies, including the measurement and recognition provisions of IFRS which are expected to be applicable to the Annual Report 2010.

We consider the accounting policies applied to be appropriate, and in our opinion the interim report gives a true and fair view of the Group's assets, liabilities, financial position and of the results of operations and consolidated cash flows.

Copenhagen, 19 August 2010
