Safe Harbor statements as to the future

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and statements other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot guarantee that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the conclusion of definitive waiver documents with our lenders, the strength of the world economy and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in the regulation of shipping operations, including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Edgar Filing: TORM A/S - Form 6-K

Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Annual General Meeting of shareholders of TORM A/S, CVR no. 22460218, to be held Monday, 23 April 2012 at 10:00 a.m. CET at Radisson Blu Falconer Hotel, Falkoner Allé 9, DK-2000 Frederiksberg:

Complete Proposals

1. The Board of Directors' report on the activities of the Company in the past year.

The Board of Directors proposes that the oral report of the Chairman of the Board of Directors be noted.

2. Presentation for adoption of the Annual Report.

The Board of Directors proposes that the Annual Report 2011 be adopted. As noted in the Annual Report the statement by management on the Annual Report reflects the uncertainty regarding the completion of a voluntary long-term comprehensive solution. As a consequence of the uncertainty with respect to going concern, the independent auditors have issued a disclaimer of opinion.

3. The Board of Directors' proposal for provision for losses in accordance with the adopted Annual Report.

The Board of Directors proposes that no dividends be distributed for the financial year 2011. It is therefore proposed that the net result for the year (for the parent company) of USD -445 million be carried forward.

4. Election of members to the Board of Directors.

Mr N. E. Nielsen, Mr Christian Frigast, Mr Jesper Jarlbæk, Mr Gabriel Panayotides, Mr Angelos Papoulias, and Mr Stefanos-Niko Zouvelos are up for election pursuant to Articles 12.2 and 12.3 of the Company's Articles of Association and are all proposed to be re-elected.

Information on the managerial positions of the said individuals, cf. Section 120(3) of the Danish Companies Act appears from Appendix 1 hereto.

5. Appointment of auditor/auditors.

The Board of Directors proposes re-election of Deloitte Statsautoriseret Revisionspartnerselskab.

6. Proposals from the Board of Directors:

- a. Decision to approve the level of remuneration of the Board of Directors for the year 2012.

Motivated by the Danish Recommendations on Corporate Governance from 2011 the Board of Directors proposes approval of the level of the remuneration for 2012. The level, which is not changed compared to the level for 2010 and 2011, is:

- (i) The Chairman of the Board of Directors receives a fee of DKK 1 million.
- (ii) The Deputy Chairman of the Board of Directors receives a fee of DKK 650,000.

- (iii) Other members of the Board of Directors receive each a fee of DKK 400,000.
- (iv) Members of the Board of Directors participating in committees each receive an additional fee of DKK 50,000 per committee.

Subject to agreement with the Board of Directors, individual members of the Board of Directors may assume specific ad hoc assignments which are outside the scope of work normally attributed with being a board member. Remuneration for such assignments is in each case determined by the Board of Directors and will appear in the Annual Report of the Company.

Board members not resident in Denmark are reimbursed for travelling and accommodation expenses incurred in connection with performing their duties in the Board of Directors. No travel allowance is paid.

b. Decision to amend Article 12.2 of the Company's Articles of Association to include a retirement age for members of the Board of Directors.

Motivated by the Danish Recommendations on Corporate Governance 2011 the Board of Directors proposes that Article 12.2 of the Articles of Association is amended to read as follows:

“The members of the Board of Directors elected by the Company at the general meeting shall hold office for a term of one year. Any employee director shall hold office for such term as provided for in the Danish Companies Act. No one who has reached the age of 70 may be elected to the Board of Directors. A member shall retire from the Board of Directors no later than at the first annual general meeting after he or she has reached the age of 70.”

c. Decision to decrease the share capital of the Company by transfer to a special reserve fund.

The Board of Directors proposes that the share capital of the Company is decreased by an amount of no less than nominally DKK 291,200,000 (corresponding to 80 per cent of the nominal share capital) and no more than nominally DKK 364,000,000 (corresponding to the entire nominal share capital) from nominally DKK 364,000,000 by decreasing the nominal amount per share (denomination) from DKK 5 to between DKK 1 and DKK 0 by transfer of the reduction amount to a special reserve fund in accordance with Section 188(1)(3) of the Danish Companies Act.

The transfer to the special reserve fund shall be in an amount of no less than DKK 291,200,000 and no more than DKK 364,000,000 and the capital decrease hence occurs by rate 100, i.e. equalling the decreased nominal amount. Subsequent to the decrease, the share capital of the Company will amount to an amount between nominally DKK 72,800,000 and DKK 0 and the nominal value of each share will be between DKK 1 and DKK 0.

The Board of Directors will on or before the Annual General Meeting announce the exact capital decrease amount which will be presented to the shareholders for adoption.

Adoption of the proposal implies that Article 2.1 of the Articles of Association is amended to read as follows (final numbers in [\*] will only be available upon clarification of what the share capital will be reduced by and to and be inserted in the Articles of Association):

“The Company’s share capital is DKK [\*] divided into shares of DKK [\*] each or any multiple thereof.” and that Article 8.3 of the Articles of Association is amended to “Each share of DKK [\*] carries one vote”.

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company’s plan for a long-term, comprehensive financing solution.

d. Decision to authorise the Board of Directors to increase the share capital by issuance of new shares against payment in cash with pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.8 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 with proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 1,500,000,000.

New shares issued pursuant to this authorisation shall be subscribed for in cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the shares existing in the Company at the date of the adoption of this authorisation. The Board of Directors will determine whether the new shares may be subscribed for at a rate discounted to the market price and any other terms and conditions.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company’s plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

e. Decision to authorise the Board of Directors to increase the share capital by issuance of new shares at market price in a new class of shares against payment in cash, conversion of debt, or contribution of assets other than cash without pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.9 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 without proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 2,400,000,000 at market price as confirmed by an independent expert to constitute a fair market price (or terminology to a similar effect) which may be lower than the market price quoted on the existing shares on NASDAQ OMX Copenhagen A/S.

New shares issued pursuant to this authorisation shall be issued in a new class of shares which shares may not be admitted to trading and official listing, shall be subscribed for in cash, conversion of debt, or contribution of assets other than cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the shares existing in the Company at the date of the adoption of this authorisation.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

f. Decision to authorise the Board of Directors to increase the share capital by issuance of new shares at market price against payment in cash, conversion of debt, or contribution of assets other than cash without pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.10 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 without proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 2,400,000,000 at market price as confirmed by an independent expert to constitute a fair market price (or terminology to a similar effect) which may be lower than the market price quoted on the shares existing on NASDAQ OMX Copenhagen A/S.

New shares issued pursuant to this authorisation shall be subscribed for in cash, conversion of debt, or contribution of assets other than cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the shares existing in the Company at the date of the adoption of this authorisation.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

g. Decision to authorise the Board of Directors to increase the share capital by issuance of preference shares at market price in a new class of shares without pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.11 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 without proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 1,500,000,000 at market price against payment in cash by establishment of a new class of preference shares with preferential rights to dividend, liquidation proceeds and increased voting rights and to amend the Articles of Association accordingly.

New preference shares issued under this authorisation shall have the following characteristics:

- (i) The preference shares shall carry 10 votes per preference share. A preferential right to 10 per cent per annum, cumulative dividend, of the subscription amount of the preference shares shall be attached to the preference shares.
- (ii) Upon a solvent liquidation of the Company the preference share capital shall be covered in priority by distribution of liquidation proceeds in proportion to the subscription amount of the preference shares including declared, but unpaid dividend, following which the ordinary share capital shall be covered in the same manner. The holders of preference and ordinary shares shall subsequently rank equally in proportion to their nominal holdings in respect of further distributions.
- (iii) The preference shares shall be subscribed for in cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders.
- (iv) The existing shareholders shall not have pre-emptive rights to subscribe for the new preference shares.
- (v) The transferability of the new preference shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their preference shares redeemed.
- (vi) The new preference shares are in all other respects to carry the same rights and privileges as the existing ordinary shares of the Company.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

h. Decision to authorise the Board of Directors to increase the share capital by issuance of new shares in a new class of shares at a rate discounted to the market price against payment in cash, conversion of debt, or contribution of assets other than cash without pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.13 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 without proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 2,400,000,000 at a rate discounted to the market price.

New shares issued pursuant to this authorisation shall be issued in a new class of shares which shares may not be admitted to trading and official listing, shall be subscribed for in cash, conversion of debt, or contribution of assets other than cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the shares existing in the Company at the date of the adoption of this authorisation.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

i. Decision to authorise the Board of Directors to increase the share capital by issuance of new shares at a rate discounted to the market price against payment in cash, conversion of debt, or contribution of assets other than cash without pre-emptive subscription rights.

The Board of Directors proposes that the following authorisation is inserted as Article 2.14 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013 without proportionate pre-emptive subscription rights for the existing shareholders, to resolve to increase the Company's share capital in one or more issues by up to a total nominal amount of DKK 2,400,000,000 at a rate discounted to the market price.

New shares issued pursuant to this authorisation shall be subscribed for in cash, conversion of debt, or contribution of assets other than cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the shares existing in the Company at the date of the adoption of this authorisation.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

j. Decision to authorise the Board of Directors to raise loans against issuance of convertible debt instruments and to effect the associated capital increases without pre-emptive subscription rights.

The Board of Directors proposes to replace Article 2.6 of the Articles of Association by granting a new authorisation to the Board of Directors to raise loans against issuance of convertible debt instruments, one or more times, in the period until 30 April 2013, with a total loan amount of up to DKK 2,400,000,000 with a maximum increase of the share capital of up to nominally DKK 2,400,000,000 as a result of conversion of debt and to effect the associated capital increases.

Article 2.6 of the Articles of Association shall hereafter read as follows:

"The Board of Directors is authorised in the period until 30 April 2013, one or more times, without any pre-emptive subscription rights for the existing shareholders, to resolve to raise loans for a total amount of up to DKK 2,400,000,000 against the issuance of convertible debt instruments entitling the holder to subscribe for shares in the Company and to effect the associated capital increases. The loans must be paid in cash to the Company. The Board of Directors will lay down the specific terms and conditions for the convertible debt instruments being issued under this authorisation. Conversion may not take place at a price, which is lower than the market price of the Company's shares at the time of the issuance of the convertible debt instruments.

As a result of this authorisation, the Board of Directors is furthermore authorised in the period until 30 April 2013 to increase the Company's share capital, without any pre-emptive subscription rights for the existing shareholders, by up to a total nominal amount of DKK 2,400,000,000 by conversion of convertible debt instruments issued pursuant to this Article 2.6. New shares issued pursuant to this authorisation shall be negotiable instruments and shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders, the transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the shares are in all other respects to carry the same rights and privileges as the existing shares in the Company. The Board of Directors will determine any other terms and conditions."

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

The Board of Directors proposes to grant a new authorisation to the Board of Directors to raise loans against issuance of convertible debt instruments, one or more times, in the period until 30 April 2013, with a total loan amount of up to DKK 1,500,000,000 with a maximum increase of the share capital of up to nominally DKK 1,500,000,000 as a result of conversion of debt and to effect the associated capital increases.

The Board of Directors proposes that the following authorisation is inserted as Article 2.7 in the Articles of Association of the Company:

“The Board of Directors is authorised in the period until 30 April 2013, one or more times, with pre-emptive subscription rights for the existing shareholders, to resolve to raise loans for a total amount of up to DKK 1,500,000,000 against the issuance of convertible debt instruments entitling the holder to subscribe for shares in the Company and to effect the associated capital increases. The loans must be paid in cash to the Company. The Board of Directors will determine whether the new shares may be subscribed for at a rate discounted to the market price and any other terms and conditions.

As a result of this authorisation, the Board of Directors is furthermore authorised in the period until 30 April 2013 to increase the Company's share capital, with pre-emptive subscription rights for the existing shareholders, by up to a total nominal amount of DKK 1,500,000,000 by conversion of convertible debt instruments issued pursuant to this Article 2.7. The Board of Directors proposes that the following authorisation is inserted as Article 2.12 of the Articles of Association of the Company:

“The Board of Directors is authorised, for the period until 30 April 2013, to issue warrants – one or more times – to third parties and without pre-emptive subscription rights for the existing shareholders granting the holders right to subscribe for shares in the Company for a total amount of up to nominally DKK 2,400,000,000. The Board of Directors is authorised to effect the associated capital increases resulting from the exercise of warrants. The new shares shall be issued at a subscription price determined by the Board of Directors, which shall never be lower than the market price at the time of issuance of the warrants.

New shares issued pursuant to this authorisation shall be subscribed for in cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the existing shares in the Company. The Board of Directors will determine any other terms and conditions.”

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution and the amount by which the share capital is proposed increased pursuant to the authorisation has been determined with due consideration to the contemplated capital decrease, cf. Proposal 6.c. above.

- m. Decision to authorise the Board of Directors to grant stock options and to purchase treasury shares.

The Board of Directors proposes that the Board of Directors is authorised, for the period until 30 April 2013, to grant stock options – one or more times - to third parties entitling the holders upon vesting, which shall not be less than 1 year and not more than 5 years after the date when the options are granted, to purchase shares in the Company at an exercise price not less than the market price of the shares at the time of the grant. The total number of shares that can be purchased under stock options granted under this authority shall be limited to not more than 25 per cent of the share capital at the time of the grant.

As part of this proposal the Board of Directors proposes that it be authorised in the period until 23 April 2017 to let the Company purchase treasury shares within 25 per cent of the issued share capital at the market price prevailing at the time of purchase subject to a deviation of up to 10 per cent.

The proposal is motivated by the need to create flexibility for a potential equity issue as part of the Company's plan for a long-term, comprehensive financing solution.
