FRONTLINE LTD. REPORTS RESULTS FOR THE THIRD QUARTER AND NINE MONTHS ENDED SEPTEMBER 30, 2016

Frontline Ltd. (the "Company" or "Frontline"), today reported unaudited results for the three and nine months ended September 30, 2016:

Highlights

- Achieved net income attributable to the Company of \$5.5 million, or \$0.03 per share, for the third quarter of 2016 and \$98.7 million, or \$0.63 per share, for the nine months ended September 30, 2016.
- Achieved net income attributable to the Company adjusted for certain non-cash charges of \$16.6 million, or \$0.11 per share, for the third quarter of 2016 and \$154.7 million, or \$0.99 per share, for the nine months ended September 30, 2016.
- Announces a cash dividend of \$0.10 per share for the third quarter of 2016.
- Secured bank financing in a total amount of up to \$870 million to partially finance all of the Company's newbuilding contracts.
- Five of the six medium range tankers, which the Company agreed to sell in June 2016, were delivered to the buyer in the third quarter. The final vessel was delivered in November.

Robert Hvide Macleod, Chief Executive Officer of Frontline Management AS commented:

"While the summer is typically a slower period in the tanker markets, seasonal weakness was more pronounced this year as supply disruptions, easing refinery margins and inventory drawdowns led to reduced oil flows and a slowdown in tanker demand. In addition, the global fleet expanded as newbuilding vessels were delivered from shipyards. We believe that our performance in the third quarter against this market backdrop, further highlights Frontline's competitive position in the market and efficient operations. Frontline's low cash breakeven rates, large commercial scale, and historically successful access to capital are significant differentiators that support our leading position in the tanker market."

The average daily time charter equivalents ("TCE") earned by Frontline in the third quarter are shown below:

(\$ per day)	Spot and time charter		Spot		Spot Guidance	% covered	Estimated average daily BE rates
	Q3 2016	Q2 2016	Q3 2016	Q2 2016	Q4 2016		
VLCC	27 900	45 200	26 900	48 100	28 000	75 %	21 200
SMAX	21 200	30 300	19 200	28 600	19 000	55 %	17 300
LR2	23 800	24 300	20 600	22 300	16 000	60 %	15 300

Inger M. Klemp, Chief Financial Officer of Frontline Management AS, added:

"We are pleased to have secured bank financing of up to \$870 million to partially finance all of the Company's 16 newbuilding contracts and the four vessels which were delivered during the third quarter. We consider the terms achieved highly attractive, enabling us to maintain our low cash breakeven levels."

The Fleet

Edgar Filing: FRONTLINE LTD / - Form 6-K

As of September 30, 2016, the Company's fleet consisted of 73 vessels, including newbuildings, with an aggregate capacity of approximately 14 million dwt. The Company's fleet consists of:

- (i) 29 vessels owned by the Company (seven VLCCs, ten Suezmax tankers, eleven LR2 tankers and one MR tanker that the Company has agreed to sell);
 - (ii) 13 vessels that are under capital leases (11 VLCCs and two Suezmax tankers);
 - (iii) one VLCC that is recorded as an investment in finance lease;
 - (iv) four vessels chartered-in for periods of 12 months including extension options (two VLCCs and two Suezmax tankers), which can be redelivered within the next 2-4 months;
 - (v) one VLCC where the cost/revenue is split 50/50 with a third party;
 - (vi) three MR and one LR2 product tankers that are chartered-in on short term time charters with a remaining duration of less than six months and options to extend;
 - (vii) five vessels that are under the Company's commercial management (two Suezmax tankers and three Aframax oil tankers); and
 - (viii) 16 newbuildings, comprised of three VLCCs (excluding the four VLCC newbuilding contracts that were cancelled in October 2016), six Suezmax tankers and seven LR2 tankers.
-

As of September 30, 2016, the Company had entered into the following time charter-out contracts for 11 vessels:

- (i) one Suezmax built 2009 at a rate of \$27,500 per day, expiry Q2 2017;
- (ii) one Suezmax built 2010 at \$33,500 per day, expiry Q1 2017;
- (iii) five LR2 tankers at an average rate of \$27,600, expiry Q1 2018;
- (iv) one Suezmax tanker with a base rate of \$30,000 per day for the first year and \$27,000 per day for the second year with a profit share arrangement, expiry Q1 2018. The agreement is index-linked;
- (v) one VLCC built 2001 at \$46,750 per day, expiry Q1 2017.
- (vi) one VLCC built 2009 at \$28,750 per day, expiry Q2 2017.
- (vii) one VLCC built 2001 at \$28,000 per day, expiry Q3 2017.

In November 2016, the Company agreed with Ship Finance to terminate the long term charter for the 1998-built VLCC Front Century. Ship Finance simultaneously sold the vessel to an unrelated third party. The Company expects the vessel to cease operating as a conventional tanker and the charter with Ship Finance will terminate in the first quarter of 2017. The Company has agreed a compensation payment to Ship Finance of approximately \$4 million for the termination of the charter. Following this termination, the number of vessels on charter from Ship Finance will be reduced to 12 vessels, including ten VLCCs and two Suezmax tankers.

Newbuilding Program

In August 2016, the Suezmax newbuilding, Front Challenger, was delivered to the Company.

In September 2016, the VLCC newbuilding, Front Duke, the Suezmax newbuilding, Front Crown, and the LR2 newbuilding, Front Altair, were delivered to the Company.

In October 2016, the Company entered into an agreement with STX Offshore & Shipbuilding Co. Ltd. ("STX") to terminate the contracts for four VLCC newbuildings due for delivery in 2017. The contracted price of these vessels was \$364.3 million, of which the Company has paid installments of \$45.5 million. Following the contract terminations, the Company has been released of any and all obligations relating to the contracts, and has received all installment payments made to STX, less a \$0.5 million cancellation fee per vessel. The Company recorded a loss of \$2.8 million relating to the contract terminations in the third quarter.

As of September 30, 2016, the Company's newbuilding program comprised three VLCCs (excluding the four cancelled STX vessels), six Suezmax tankers and seven LR2 tanker newbuildings. As of September 30, 2016, total instalments of \$208.1 million had been paid in respect of these newbuildings and the remaining commitments amounted to \$760.4 million with \$76.3 million payable in 2016 and \$684.1 million payable in 2017. All 16 vessels are expected to be delivered in 2017.

Financing Update

In November 2016, the Company secured a commitment for a senior secured term loan facility in an amount of up to \$321.6 million. The facility will be provided by China Exim Bank and will be insured by China Export and Credit Insurance Corporation.

The facility matures in 2033, carries an interest rate of LIBOR plus a margin in line with Frontline's existing loan facilities and has an amortization profile of 15 years. This facility will be used to partially finance eight of our

newbuildings and will be secured by four Suezmax tankers and four LR2 tankers. The facility is subject to final documentation.

Including this facility, Frontline has secured bank financing in a total amount of up to \$870 million to partially finance all of the Company's 16 newbuilding contracts and four vessels that were delivered during the quarter.

Corporate Update

The Company announces a cash dividend for the third quarter of 2016 of \$0.10 per share versus an earnings per share of \$0.03 and an adjusted earnings for certain non-cash charges of \$0.11 per share.

The record date for the dividend is December 15, 2016. The ex-dividend date is December 13, 2016 for shares listed on the New York Stock Exchange and December 14, 2016 for shares listed on the Oslo Stock Exchange, respectively and the dividend will be paid on or about December 22, 2016.

156,386,506 ordinary shares were outstanding as of September 30, 2016, and the weighted average number of shares outstanding for the quarter was 156,386,506.

Third Quarter and Nine Months 2016 Results

The Company generated net income attributable to the Company of \$5.5 million, or \$0.03 per share in the third quarter compared with net income attributable to the Company of \$14.3 million, or \$0.09 per share, in the previous quarter. Net income attributable to the Company adjusted for certain non-cash charges was \$16.6 million, or \$0.11 per share, for the third quarter of 2016. These non-cash charges consisted of a loss on the cancellation and sale of newbuildings and vessels of \$2.7 million, a vessel impairment loss of \$8.9 million relating to three vessels leased from Ship Finance, an impairment loss on shares of \$0.3 million, a mark to market gain on derivatives of \$0.9 million and a non-controlling interest expense of \$0.1 million. Net income attributable to the Company in the second quarter included a vessel impairment loss of \$25.5 million, an impairment loss on shares of \$4.6 million, a mark to market loss on derivatives of \$4.2 million and a non-controlling interest expense of \$0.2 million.

Total ship operating expenses of \$30.8 million in the third quarter were \$1.7 million lower than the previous quarter primarily due to a \$4.0 million decrease in dry docking costs (no vessels were dry docked in the third quarter compared with two vessels in the prior quarter), which was partially offset by an increase in running costs.

Contingent rental income in the third quarter relates to the charter party contracts with Ship Finance and is due to the fact that the actual profit share in the third quarter of \$5.4 million was \$8.8 million less than the amount accrued in the lease obligations payable when the leases were recorded at fair value at the time of the merger with Frontline 2012.

The Company generated net income attributable to the Company of \$98.7 million, or \$0.63 per share in the nine months ended September 30, 2016 compared with net income attributable to the Company of \$96.1 million, or \$0.82 per share, in the nine months ended September 30, 2015. Net income attributable to the Company adjusted for certain non-cash charges was \$154.7 million, or \$0.99 per share, for the nine months ended September 30, 2016. These non-cash charges were a loss on the cancellation and sale of newbuildings and vessels of \$2.7 million, a vessel impairment loss of \$34.4 million, an impairment loss on shares of \$7.2 million, a mark to market loss on derivatives of \$11.4 million and a non-controlling interest expense of \$0.4 million. Net income attributable to the Company in the nine months ended September 30, 2016 reflects the combined results of Frontline and Frontline 2012 while net income attributable to the Company in the nine months ended September 30, 2015 relate to Frontline 2012 only.

As of November 2016, the Company estimates that the average daily cash breakeven rates for the remainder of 2016 will be approximately \$21,200, \$17,300 and \$15,300 for its owned and leased VLCCs, Suezmax tankers and LR2 tankers, respectively. The Company believes these rates are highly competitive.

Strategy and Market Outlook

The Company has a positive long term outlook on the tanker market, although it expects periods of market weakness as further newbuildings are delivered. There has been very limited ordering in 2016, a trend supported by the expected contraction in global shipyard capacity and the limited availability of capital to finance new orders. The Company expects these factors to lead to slippage in the current orderbook and in delivery delays.

The Company believes that any prolonged period of market weakness will lead to vessel scrapping as older vessels are increasingly difficult to operate and face more off hire and higher dry docking costs in order to pass special surveys. Additionally, oil price contango may lead to older vessels being chartered to store crude oil on a permanent basis and not return to the trading market. All factors considered the Company believes the tanker market will begin to balance as vessels are absorbed into the global fleet and older vessels retire from trading. In the meantime, the Company expects that periods of market weakness will inevitably create attractive opportunities to acquire assets at historically low prices.

The Company believes it is in a unique position to grow its operating fleet and continue to generate substantial returns to its shareholders in a strong tanker market and healthy returns in a more muted market. The Company has a long track record of doing so, and it seeks to carry on that tradition as it increases its leadership role in the market. The Company intends to continue to maintain a disciplined approach to its business which it believes will benefit its shareholders.
