Item 1. Business.

Forward-Looking Statements: All statements, trend analyses and other information contained in this report that are not historical facts are forward-looking statements within the meaning of the safe harbor provision of the Private Securities Litigation Reform Act of 1995 and as defined in Section 27A of the Securities Act of 1933 (the Securities Act) and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act). Forward-looking statements are made based on our management's current expectations and beliefs concerning future developments and their potential effects on us. You can identify those statements by the use of words such as could, should, would, may, will, project, believe, anticipate, expect, plan, estimate, forecast, potential, intend, continue, and contemplate, as well as similar words and expressions. Forward-looking statements involve risks and uncertainties and do not guarantee future performance. We cannot assure you that future developments affecting us will be those anticipated by our management. Among the factors that could cause actual results to differ materially are the following:

business conditions and growth in the postsecondary education industry and in the general economy;

changes in federal and state governmental regulations with respect to education and accreditation standards, or the interpretation or enforcement of those regulations, including, but not limited to, the level of government funding for, and our eligibility to participate in, student financial aid programs utilized by our students;

our failure to comply with the extensive education laws and regulations and accreditation standards that we are subject to;

effects of any change in our ownership resulting in a change in control, including, but not limited to, the consequences of such changes on the accreditation and federal and state regulation of our institutes;

our ability to implement our growth strategies;

our failure to maintain or renew required regulatory authorizations or accreditations of our institutes;

receptivity of students and employers to our existing program offerings and new curricula;

loss of access by our students to lenders for student loans; and

our ability to successfully defend litigation and other claims brought against us.

Readers are also directed to other risks and uncertainties discussed in Risk Factors and elsewhere in this Annual Report and those detailed from time to time in other documents we file with the U.S. Securities and Exchange Commission (SEC). We undertake no obligation to update or revise any forward-looking information, whether as a result of new information, future developments or otherwise.

You should keep in mind the following points as you read this report:

References in this document to we, us, our and ITT/ESI refer to ITT Educational Services, Inc. and its subsidiaries.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The terms ITT Technical Institute or institute (in singular or plural form) refer to an individual school owned and operated by ITT/ESI, including its learning sites, if any. The terms institution or campus group (in singular or plural form) mean a main campus and its additional locations, branch campuses and/or learning sites, if any.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Background

We are a Delaware corporation incorporated in 1946. Our principal executive offices are located at 13000 North Meridian Street, Carmel, Indiana 46032-1404, and our telephone number is (317) 706-9200. From 1966 until our initial public offering on December 27, 1994, we were wholly owned by ITT Corporation, an Indiana corporation, formerly a Delaware corporation and formerly known as ITT Industries, Inc. (Old ITT). On September 29, 1995, ITT Corporation, a Nevada corporation (ITT), succeeded to the interests of Old ITT in the beneficial ownership of 83.3% of our common stock. Public offerings of our common stock by ITT in June 1998 and February 1999 and our repurchase of 1,500,000 shares of our common stock from ITT in February 1999 completely eliminated ITT's beneficial ownership of any of our common stock.

Overview

We are a leading for-profit provider of postsecondary degree programs in the United States based on revenue and student enrollment. As of December 31, 2006, we were offering diploma, associate, bachelor and master degree programs to approximately 47,000 students. As of December 31, 2006, we had 87 institutes and nine learning sites of those institutes located in 33 states. All of our institutes are authorized by the applicable education authorities of the states in which they operate and recruit, and are accredited by an accrediting commission recognized by the U.S. Department of Education (ED). We design our education programs, after consultation with employers, to help graduates prepare for careers in various fields involving their areas of study. As of December 31, 2006, all of our programs were degree programs, except for a few diploma programs offered at six institutes that are being converted to degree programs. We have provided career-oriented education programs since 1969 under the ITT Technical Institute name.

In 2006, we began operations at six new institutes and added five learning sites to existing institutes. A learning site is an institute location where educational activities are conducted and student services are provided away from the institute's campus. In 2007, we plan to begin operations at six to eight new locations. In 2006, we continued our efforts to diversify our program offerings by developing residence and online programs at different degree levels in technology and non-technology fields of study that we intend to offer at our institutes. Most of our residence associate degree and bachelor degree programs are being taught in residence on campus on a three-day-per-week class schedule or under our hybrid education delivery model, pursuant to which certain program courses are taught in residence on campus and others may be taught either entirely online over the Internet or partially online over the Internet and partially in residence on campus (the Hybrid Delivery Model). In 2006, we also continued our alliance with an international educator in China, pursuant to which a number of our curricula are offered to students in China either by us through online programs offered over the Internet or by the international educator through residence programs under a license to use our curricula. Our expansion plans include:

- operating new institutes;
- adding learning sites to existing institutes;
- offering a broader range of both residence and online programs at our existing institutes; and
- increasing the number of our institutes that offer bachelor degree programs.

As of December 31, 2006, 59 of our institutes offered one or more bachelor degree programs of study.

Business Strategy

Our strategy is to pursue multiple opportunities for growth. We are implementing a growth strategy designed to increase revenue and operating efficiencies by increasing the number and types of program offerings and student enrollment at existing institutes, operating new institutes across the United States, adding learning sites to existing institutes and licensing the use of our curricula to third parties. The principal elements of this strategy include the following:

Enhance Results at the Institute Level.

Increase Enrollments at Existing Institutes. We intend to increase recruiting efforts aimed at enrolling more working adults at our existing institutes. In addition, we believe that current demographic and employment trends will allow us to enroll a greater number of high school graduates.

Broaden Availability of Current Program Offerings. We intend to continue expanding the number of program offerings at our existing institutes. Our objective is to offer multiple programs at each institute. Our 87 institutes provide significant potential for the introduction of existing programs at a broader number of institutes. We believe that introducing new programs at existing institutes will attract more students. In 2006, we added a total of 142 program offerings among 45 existing institutes, and in 2007 we intend to add at least 105 program offerings among approximately 60 existing institutes.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Develop or Acquire Additional Programs. In 2006, we continued our efforts to diversify our program offerings by developing residence and online programs at different degree levels in both technology and non-technology fields of study. In 2007, we plan to continue developing additional residence and online programs at different degree levels in technology and non-technology fields of study to be offered at our institutes. The new degree programs are expected to involve a variety of disciplines and be at the associate and bachelor degree levels. We intend to develop both a residence and online version of many of the new programs. We believe that offering new programs and making our programs more convenient for students can attract a broader base of students, motivate current students to extend their studies and help us improve the utilization of our facilities.

Extend Total Program Duration. In 2006, we increased the number of our institutes that offer bachelor degree programs from 54 to 59. In 2007, we intend to increase the number of our institutes that offer bachelor degree programs to approximately 65. The average combined total program time that students are enrolled in one or more of our programs has increased over time as a result of:

a portion of the graduates of our associate degree programs enrolling in bachelor degree programs at our institutes; and
a portion of our new students beginning their studies in bachelor degree programs, instead of first completing associate degree programs.

We believe that the average combined total program time of our students will increase further as we:

increase the number of our institutes offering bachelor degree programs;
add additional bachelor degree programs at our institutes; and
expand our online curricula offerings to include additional master degree programs.

Improve Student Outcomes. We strive to improve the graduation and graduate employment rates of our undergraduate students by providing academic and career services and dedicating administrative resources to these services.

Geographically Expand Our Institutes and Program Offerings. We plan to add new institutes and learning sites of existing institutes at locations throughout the United States. Using our proprietary methodology, we determine locations for new institutes and learning sites based on a number of factors, including demographics and population and employment growth. The following table sets forth the number of new institutes and new learning sites that began operations in the years indicated:

	2006	2005	2004
New institutes	6	4	2
New learning sites	5	3	1
	11	7	3

We plan to begin operations at six to eight new locations in 2007. We will also continue to consider acquiring schools. We currently offer one or more of our online programs to students in 48 states and the District of Columbia. We intend to expand the number of our online programs offered in each state in 2007.

Increase Margins By Leveraging Fixed Costs at Institute and Headquarters Levels. Our efforts to optimize institute capacity and class size have allowed us to increase student enrollment without incurring a proportionate increase in fixed costs at our institutes. In addition, we have realized substantial operating efficiencies by centralizing management functions and implementing operational uniformity among our institutes.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We will continue to seek to improve margins by increasing enrollments and revenue without incurring a proportionate increase in fixed costs, and by reducing our variable costs.

Programs of Study

As of December 31, 2006, we were offering:

- 25 degree programs in various fields of study;
- five diploma programs in various fields of study;
- at least one program involving information technology (IT) at 87 of our institutes;
- at least one program involving electronics technology at 87 of our institutes;
- at least one program involving drafting and design at 87 of our institutes,
- at least one program involving business at 71 of our institutes;
- at least one program involving criminal justice at 66 of our institutes; and
- at least one program involving health sciences at 24 of our institutes.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The following table sets forth information regarding the programs of study we were offering as of December 31, 2006:

	Number of Institutes Offering the Programs at

-
- (1) We have submitted, or are in the process of submitting, the requisite applications to the applicable state education authorities for approval to offer the diploma programs identified in this column as associate degree programs at each of the affected ITT Technical Institutes.
- (2) Residence and online program. Our institute in Indianapolis is the only institute that presently offers online programs.
- (3) Online program. Our institute in Indianapolis is the only institute that presently offers online programs.
- (4) Depending on the location of the ITT Technical Institute, this program of study may have been approved by the applicable state education authority(ies) either as a separate program or as one of as many as four disciplines within one program of study. For purposes of this table, this program is considered to be a separate program of study at every ITT Technical Institute where it was taught.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We design our programs to help graduates prepare for careers in various fields involving their education by offering students a broad-based foundation in a variety of skills used in those fields. Graduates of our IT programs have obtained a variety of entry-level positions in various fields involving IT, such as network administration, technical support, network technology and systems technology. Graduates of our drafting and design programs have obtained a variety of entry-level positions in various fields involving drafting and design, such as computer-aided drafting, electrical and electronics drafting, mechanical drafting, architectural and construction drafting, civil drafting, interior design, landscape architecture and multimedia communications. Graduates of our electronics technology programs have obtained a variety of entry-level positions in various fields involving electronics, such as electronics product design and fabrication, communications, computer technology, industrial electronics, instrumentation, telecommunications and consumer electronics. There is an insignificant number of graduates of those bachelor degree programs that have been offered for less than five years or associate degree programs that have been offered for less than three years, but we believe that the graduates of our:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

criminal justice programs should obtain a variety of entry-level positions involving criminal justice in both the private and public sectors;
business programs should obtain a variety of entry-level positions in various types of businesses involving the subject matter of their programs of study; and
health sciences programs should obtain a variety of entry-level positions involving the subject matter of their programs of study.

We generally organize the academic schedule for programs of study offered at our institutes on the basis of four 12-week academic quarters in a calendar year, with new students beginning at the start of each academic quarter. Students taking a full-time course load can complete our diploma and associate degree programs in eight academic quarters, bachelor degree programs in 15 academic quarters and master degree program in seven academic quarters. We typically offer classes in most residence programs in:

3.5 to 5.5 hour sessions three days a week, Monday through Saturday, with all program courses taught entirely or partially in residence; or
two to three days a week, Monday through Saturday, with certain program courses taught entirely or partially online over the Internet most academic quarters.

At some of our institutes, we also offer classes in some residence programs in four to ten hour sessions one or two days a week on weekends, with certain program courses taught entirely online over the Internet most academic quarters. Depending on student enrollment, class sessions are generally available in the morning, afternoon and evening. The courses that are taught online over the Internet are delivered through an asynchronous learning network and have a prescribed schedule for completion of the coursework. The class schedule for our residence courses and the coursework completion schedule for our online courses generally provide students with the flexibility to maintain employment concurrently with their studies. Based on student surveys, we believe that a substantial majority of our students work at least part-time during their programs of study.

Most of our programs of study blend traditional academic content with applied learning concepts and have the objective of helping graduates begin to prepare for a changing economic and/or technological environment. A significant portion of most programs offered at our institutes involves practical study in a lab environment.

The learning objectives of most courses in each program of study are substantially the same among our institutes to provide greater uniformity and to better enable students to transfer, if necessary, to other institutes offering the same programs with less disruption to their education. We regularly review each curriculum to respond to changes in technology and industry needs. Each of our institutes establishes an advisory committee for each field of study, which is comprised of representatives of local employers. These advisory committees assist our institutes in assessing and updating curricula, equipment and laboratory design. In addition to courses directly related to a student's program of study, our programs also include general education courses, such as economics, mathematics, composition and sociology.

Tuition for a student entering an undergraduate residence program in December 2006 for 36 quarter credit hours (the minimum course load of a full-time student for an academic year at traditional two- and four-year colleges) is \$14,580 for all of our undergraduate residence programs, except as adjusted in some states to reflect applicable taxes and fees. We typically adjust the tuition for our programs of study at least annually. The majority of students attending residence programs at our institutes lived in that institute's metropolitan area prior to enrollment. We do not provide any student housing.

Student Recruitment

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We strive to attract students with the motivation and ability to complete the career-oriented educational programs offered by our institutes. To generate interest among potential students, we engage in a broad range of activities to inform potential students and their parents about our institutes and the programs they offer. These activities include television, Internet and other media advertising, direct mailings and high school presentations. We employ approximately 1,000 full- and part-time recruiting representatives to assist in local recruiting efforts.

Local recruiting representatives of an institute pursue expressions of interest from potential students for our residence programs of study by contacting prospective students and arranging for interviews at the campus or any learning site of that institute. Occasionally, we also pursue expressions of interest from students for our residence programs of study by contacting them and arranging for their attendance at a seminar providing information about the institute and its programs. We pursue expressions of interest from potential students for our online programs of study by providing program and resource information on our website and through telephone calls, electronic mail and the mail.

- 5 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Student recruitment activities are subject to substantial regulation at both the state and federal level and by our accrediting commission. Most states have bonding and licensing requirements that apply to many of our representatives and other employees involved in student recruitment. Our Director, Field Recruitment and Training and the District Directors of Recruitment oversee the implementation of recruitment policies and procedures. In addition, our compliance department generally reviews student recruiting practices at each of our institutes on at least an annual basis.

Student Admission and Retention

We strive to admit incoming students who have the ability to complete their chosen programs of study. We require all applicants for admission to any of our institutes' programs of study to have a high school diploma or a recognized equivalent. Depending on the program of study and the institute, applicants may also be required to pass an admission examination or possess a designated number of credit hours or degree with a specified overall cumulative grade point average from an accredited postsecondary educational institution. Our student demographics as of December 31, 2006, were as follows:

	<u>Approximate Percent of Student Census</u>
<u>Student Demographics</u>	
Age	
19 or less	17%
20 through 24	39%
25 through 30	24%
31 or over	20%
Gender	
Male	78%
Female	22%
Race	
Caucasian	55%
Minority (1)	45%

(1) Based on applicable federal classifications.

The faculty and staff at each of our institutes strive to help students overcome obstacles to the completion of their programs of study. As is the case in other postsecondary institutions, however, students often fail to complete their programs for a variety of personal, financial or academic reasons. Student withdrawals prior to program completion not only affect the students, they also have a negative regulatory, financial and marketing effect on the institute. To minimize student withdrawals, each of our institutes devotes staff resources to assist and advise students regarding academic and financial matters. We encourage academic advising and tutoring in the case of students experiencing academic difficulties. We also offer assistance and advice to students in our residence programs who are looking for part-time employment and housing.

Graduate Employment

We believe that the success of our graduates who begin their careers in fields involving their programs of study is critical to the ability of our institutes to continue to recruit students. We try to obtain data on the number of students employed following graduation. The reliability of such

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

data depends largely on information that students and employers report to us. Based on this information, we believe that approximately 76% of the Employable Graduates (as defined below) from our institutes' programs during 2005 either obtained employment by April 30, 2006, or were already employed, in positions that required the direct or indirect use of skills taught in their programs of study. Employable Graduates include all of the graduates from our institutes, except for those graduates who:

- have been admitted into other programs of study at postsecondary educational institutions that are scheduled to begin within one academic year following their graduation;
- possessed visas that did not permit them to work in the United States following their graduation;
- were personally suffering from a health condition that prevented them from working;
- were actively engaged in U.S. military service; or
- moved out of the Continental United States with a spouse or parent who was actively engaged in U.S. military service.

The definition of Employable Graduates is based on the information that our institutes are required to report to their accrediting commission, and this information is used, in part, by their accrediting commission to evaluate the student outcomes of our institutes.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Each of our institutes employs personnel to offer its students and graduates career services. These persons assist in job searches, solicit employment opportunities from employers and provide information on job search techniques, where to access employer information, writing resumes and how to prepare for, appear at and conduct oneself during job interviews.

Based on information from graduates and employers who responded to our inquiries, we estimate that the reported annualized salaries initially following graduation averaged approximately \$28,000 for the Employable Graduates of our institutes programs who graduated in 2005 and obtained employment by April 30, 2006, or were already employed, in positions that required the direct or indirect use of skills taught in their programs of study. The calculation of this amount excludes any reported annualized initial salaries above \$60,000. The average annual salary initially following graduation for our Employable Graduates may vary significantly among our institutes depending on local employment conditions and each Employable Graduate's background, prior work experience and willingness to relocate. Initial employers of Employable Graduates from our institutes programs include small, medium and large companies and governmental agencies.

Faculty

We hire faculty members in accordance with criteria established by us, the accrediting commission that accredits our institutes and the state education authorities that regulate our institutes. We hire faculty with related work experience and/or academic credentials to teach most technical subjects. Faculty members at each institute typically include the chairperson for each school or program of study and various categories of instructors. As of December 31, 2006, our institutes employed a total of approximately 900 full-time and 2,100 adjunct faculty members.

Administration and Employees

Each of our institutes is administered by a director who has overall responsibility for the management of the institute. The administrative staff of each institute also includes a director of recruitment, a director of career services, a director of finance, a dean and a registrar. As of December 31, 2006, we:

employed approximately 200 people at our corporate headquarters in Carmel, Indiana;
had approximately 3,500 full-time and 2,200 part-time employees at our institutes; and
employed approximately 300 students as laboratory assistants and in other part-time positions.

None of our employees are represented by labor unions.

Our headquarters provides centralized services to all of our institutes in the following areas:

accounting	legal
marketing	regulatory
public relations	legislative affairs
curricula development	real estate

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

management information systems

human resources

purchasing

compliance/internal audit

In addition, national managers of each of the following major institute functions reside at our headquarters and develop policies and procedures to guide these functions at our institutes:

recruiting

career services

finance

library

academic affairs

registration

Managers located at our headquarters monitor the operating results of each of our institutes and periodically conduct on-site reviews.

Competition

The postsecondary education market in the United States is highly fragmented and competitive, with no single private or public institution enjoying a significant market share. Our institutes compete for students with graduate, bachelor and associate degree-granting institutions, which include nonprofit public and private colleges and for-profit institutions, as well as with alternatives to higher education such as military service or immediate employment. We believe competition among educational institutions is based on:

the quality and reliability of the institution's programs and student services;

the perceived reputation of the institution and its programs and student services;

the cost of the institution's programs;

the employability of the institution's graduates;

the ability to provide easy and convenient access to the institution's programs and courses;

the quality and experience of the institution's faculty; and
the time required to complete the institution's programs.

Certain public and private colleges may offer programs similar to those offered by our institutes at a lower tuition cost due in part to government subsidies, foundation grants, tax deductible contributions, tax-exempt status or other financial resources not available to for-profit institutions. Other for-profit institutions offer programs that compete with those of our institutes. Certain of our competitors in both the public and private sectors have greater financial and other resources than we do.

Federal and Other Financial Aid Programs

In 2006, we indirectly derived approximately 61% of our revenue determined on an accrual accounting basis (or 57% determined on a cash accounting basis as defined by the ED's regulations) from the federal student financial aid programs under Title IV (the Title IV Programs) of the Higher Education Act of 1965, as amended (the HEA). Our institutes' students also rely on unaffiliated private loan programs, family contributions, personal savings, employment, state financial aid programs, scholarships and other resources to pay their educational expenses. The primary Title IV Programs from which the students at our institutes receive grants, loans and other aid to fund the cost of their education include:

the Federal Family Education Loan (the FFEL) program, which represented, in aggregate, approximately 50% of our revenue in 2006;
the Federal Pell Grant (the Pell) program, which represented, in aggregate, approximately 11% of our revenue in 2006; and
the Federal Work-Study (the Work-Study) program, which makes federal funds available to provide part-time employment to students and under which approximately 400 of our institutes' students were employed and approximately \$2,452,000 in student wages were paid by our institutes in 2006.

The Work-Study program requires our institutions to make a 25% matching contribution for all of the federal funds the institution receives from the ED under that program. In 2006, our 25% matching contribution amounted to approximately \$613,000.

In 2006, we also indirectly derived approximately 34% of our revenue from unaffiliated private student loan programs. We have no financial responsibility with respect to any loans made to students or their parents under the unaffiliated private loan programs, except for an immaterial amount of loans with respect to which our obligations are fully reserved.

Highly Regulated Industry

We are subject to extensive regulation by the ED, the state education authorities (the SEAs) and the Accrediting Council for Independent Colleges and Schools (the ACICS), the accrediting commission that accredits our institutes. The statutes, regulations and standards applied by the ED, the SEAs and the ACICS are periodically revised and the interpretations of existing requirements are periodically modified. We cannot predict with certainty how all of the statutes, regulations and standards applied by the ED, the SEAs and the ACICS will be interpreted.

At the federal level, the HEA and the regulations promulgated under the HEA by the ED set forth numerous, complex standards that institutions must satisfy in order to participate in Title IV Programs. To participate in Title IV Programs, an institution must:

receive and maintain authorization by the appropriate SEAs;
be accredited by an accrediting commission recognized by the ED; and
be certified as an eligible institution by the ED.

The purpose of these standards is to:

limit institutional dependence on Title IV Program funds;
prevent institutions with unacceptable student loan default rates from participating in Title IV Programs; and
in general, require institutions to satisfy certain criteria related to educational value, administrative capability and financial responsibility.

Most of the ED's requirements are applied on an institutional basis, with an institution defined by the ED as a main campus and its additional locations, if any. Twenty-nine of our 87 institutes are main campuses and the remaining 58 of our institutes are additional locations. Each of the nine learning sites of our institutes is also an additional location under the ED's regulations. The HEA requires each institution to periodically renew its certification by the ED to

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

continue its participation in Title IV Programs. As of December 31, 2006, all 87 of our institutes and eight of the nine learning sites of our institutes participated in Title IV Programs. As of January 31, 2007, all nine learning sites participated in Title IV Programs.

As of December 31, 2006, we operated one or more institutes in 33 states and our institutes recruited students in the remaining 17 states and the District of Columbia. Each of our institutes must be authorized by the applicable SEAs to operate and grant degrees or diplomas to their students. The state laws and regulations that we must comply with in order to obtain authorization from the SEAs are numerous and complex. As of December 31, 2006, each of our institutes had received authorization from one or more SEAs. In addition, some states require an institute to be in operation for a period of up to two years before that institute can be authorized to grant degrees. Institutes that confer bachelor or master degrees must, in most cases, meet additional regulatory standards. Raising the curricula of our existing institutes to the bachelor and/or master degree level requires the approval of the applicable SEAs and the ACICS. State education laws and regulations affect our operations and may limit our ability to introduce degree programs or to obtain authorization to operate in some states. If any one of our institutes lost its state authorization, the institute would be unable to offer postsecondary education and we would be forced to close the institute. Closing one of our institutes for any reason could have a material adverse effect on our financial condition, results of operations and cash flows.

State authorization and accreditation by an accrediting commission recognized by the ED are required for an institution to become and remain eligible to participate in Title IV Programs. In addition, some states require institutions operating in the state to be accredited as a condition of state authorization. All of our institutes are accredited by the ACICS, which is an accrediting commission recognized by the ED. The HEA specifies a series of criteria that each recognized accrediting commission must use in reviewing institutions. For example, accrediting commissions must assess the length of each academic program offered by an institution in relation to the objectives of the degrees or diplomas offered. Further, accrediting commissions must evaluate each institution's success with respect to student achievement, as measured by rates of program completion, passing of state licensing examinations and graduate employment. During 2006, the ACICS evaluated nine of our institutes for initial grants of accreditation or the renewal of their current grants of accreditation. As of December 31, 2006, of those nine institutes, the ACICS had granted initial accreditation to three institutes and reaccredited six institutes. None of our institutes are on probation with the ACICS, but two institutes are subject to an outcomes review with respect to graduate placement and five institutes are subject to an outcomes review with respect to student retention by the ACICS. Under the ACICS standards, an institute that is subject to a financial or outcomes review must periodically report its results in those areas to the ACICS and obtain permission from the ACICS prior to applying to add a new program of study or establish a branch campus or learning site. We do not believe that these limitations will have a material adverse effect on our expansion plans.

The statutes, regulations and standards applied by the ED, the SEAs and the ACICS cover the vast majority of our operations, including our:

- education programs;
- facilities;
- instructional and administrative staff;
- administrative procedures;
- marketing;
- student recruiting; and
- financial operations and financial condition.

These requirements also affect our ability to:

- begin operations at, or acquire, new institutes and add learning sites;
- add new, or expand our existing, education programs; and
- change our corporate structure and ownership.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Each of the institutes and learning sites that we added from 2004 through 2006 constitutes an additional location under the ED's regulations. The HEA requires a for-profit institution to operate for two years before it can qualify to participate in Title IV Programs. If an institution that is certified to participate in Title IV Programs establishes an additional location and receives all of the necessary SEA and accrediting commission approvals for that location, that additional location can participate in Title IV Programs immediately upon being reported to the ED, unless the institution will offer at least 50% of an entire educational program at that location and any one of the following restrictions applies, in which case the ED must approve the additional location before it can participate in Title IV Programs:

the institution is provisionally certified to participate in Title IV Programs;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

the institution receives Title IV Program funds under the ED's reimbursement or cash monitoring payment method;

the institution acquired the assets of another institution that provided educational programs at that location during the preceding year and participated in Title IV Programs during that year;

the institution would be subject to loss of eligibility to participate in Title IV Programs, because the additional location lost its eligibility to participate in Title IV Programs as a result of high FFEL/FDL cohort default rates; or

the ED previously notified the institution that it must apply for approval to establish an additional location.

The HEA and applicable regulations permit students to use Title IV Program funds only to pay the cost associated with enrollment in an eligible program offered by an institution participating in Title IV Programs. Generally, an institution that is eligible to participate in Title IV Programs may add a new educational program without the ED's approval, if that new program: (a) leads to an associate level or higher degree and the institution already offers programs at that level; or (b) prepares students for gainful employment in the same or a related occupation as an educational program that has previously been designated as an eligible program at the institution and meets minimum length requirements. Otherwise, the institution must obtain the ED's approval before it may disburse Title IV Program funds to students enrolled in the new program. If an institution erroneously determines that a new educational program is eligible for Title IV Program funding, the institution would likely be liable for repayment of the Title IV Program funds provided to students in that educational program. Based on our current understanding of how the ED regulations will be applied, we do not believe that these limitations will have a material adverse effect on our expansion plans.

The ACICS accreditation standards generally permit an institution's main campus to establish branch campuses, and both the institution's main campus and branch campuses to establish learning sites. Our institutes that are treated as branch campuses under the ACICS accreditation standards are treated as additional locations of the main campus under the ED's regulations. Any locations of one of our main or branch campuses that are located away from the main or branch campus are treated as learning sites of that main or branch campus under the ACICS accreditation standards, but the ED's regulations treat each learning site as an additional location of the main campus.

The laws and regulations in most of the states in which our institutes are located treat each of our institutes as a separate, unaffiliated institution and do not distinguish between main campuses and additional locations or branch campuses, although many states recognize other institute locations within the state where educational activities are conducted and/or student services are provided as learning sites, teaching sites, satellite campuses or otherwise. In some states, the requirements to obtain state authorization limit our ability to establish new institutes, add learning sites and offer new programs.

The HEA and its implementing regulations require each institution to periodically reapply to the ED for continued certification to participate in Title IV Programs. The ED recertifies each institution deemed to be in compliance with the HEA and the ED's regulations for a period of six years or less. Before that period ends, the institution must apply again for recertification. The current ED certifications of our institutes range from four years to six years and expire over the period March 31, 2007 to December 31, 2011.

The ED may place an institution on provisional certification for a period of three years or less, if it finds that the institution does not fully satisfy all the eligibility and certification standards. If an institution successfully participates in Title IV Programs during its period of provisional certification but fails to satisfy the full certification criteria, the ED may renew the institution's provisional certification. The ED may revoke an institution's provisional certification without advance notice, if the ED determines that the institution is not fulfilling all material requirements. If the ED revokes an institution's provisional certification, the institution may not apply for reinstatement of its eligibility to participate in Title IV Programs for at least 18 months. If the ED does not recertify the institution following the expiration of its provisional certification, the institution loses eligibility to participate in Title IV Programs until the institution reapplies to participate and the ED certifies the institution to participate. The ED may also more closely review an institution that is provisionally certified, if it applies for approval to operate a new location or offer a new program of study that requires approval, or makes some other significant change affecting its eligibility. Provisional certification does not otherwise limit an institution's access to Title IV Program funds. None of our campus groups are provisionally certified to participate in Title IV Programs.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The internal audit function of our compliance department reviews our institutes' compliance with Title IV Program requirements and conducts an annual compliance review of each of our institutes. The review addresses numerous compliance areas, including:

student tuition refunds and return of Title IV Program funds;

student academic progress;

- 10 -

student admission;
graduate employment;
student attendance;
student financial aid applications;
implementation of prior audit recommendations; and
a general review of student recruiting practices relating to student presentations and the execution and completion of enrollment agreements.

Each of our institutes' administration of Title IV Program funds must also be audited annually by an independent accounting firm, and the resulting audit report must be submitted to the ED for review.

Due to the highly regulated nature of the postsecondary education industry, we are subject to audits, reviews, inquiries, complaints, investigations, claims of non-compliance or lawsuits by federal and state governmental agencies, the ACICS, present and former students and employees, shareholders and other third parties, which may allege violations of statutes, regulations or accreditation standards or common law causes of action (collectively, "Claims"). If the results of any Claims are unfavorable to us, we may be required to pay money damages or be subject to fines, penalties, injunctions, operational limitations, loss of eligibility to participate in federal or state financial aid programs, debarments, additional oversight and reporting, other civil and criminal penalties or other censure that could have a material adverse effect on our financial condition, results of operations and cash flows. Even if we satisfactorily resolve the issues raised by a Claim, we may have to expend significant financial and management resources, which could have a material adverse effect on our financial condition, results of operations and cash flows. Adverse publicity regarding a Claim could also negatively affect our business.

See "Risk Factors" [Risks Related to Our Highly Regulated Industry](#) for a discussion of particular risks associated with our highly regulated industry.

Shareholder Information

We make the following materials available free of charge through our website at www.ittesi.com as soon as reasonably practicable after such materials are electronically filed with or furnished to the SEC under the Exchange Act:

our annual reports on Form 10-K and all amendments thereto;
our quarterly reports on Form 10-Q and all amendments thereto;
our current reports on Form 8-K and all amendments thereto; and
various other filings that we make with the SEC.

We also make the following materials available free of charge through our website at www.ittesi.com:

our Corporate Governance Guidelines;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

the charter for each of the Audit, Compensation, and Nominating and Corporate Governance Committees of our Board of Directors; and
our Code of Business Conduct and Ethics (Code).

We will provide a copy of the following materials without charge to anyone who makes a written request to our Investor Relations Department at ITT Educational Services, Inc., 13000 North Meridian Street, Carmel, Indiana 46032-1404 or by e-mail through our website at www.ittesi.com:

our annual report on Form 10-K for the year ended December 31, 2006, excluding certain of its exhibits;

our Corporate Governance Guidelines;

the charter for each of the Audit, Compensation, and Nominating and Corporate Governance Committees of our Board of Directors; and
the Code.

We also intend to promptly disclose on our website at www.ittesi.com any amendments that we make to, or waivers for our Directors or executive officers that we grant from, the Code.

Item 1A. Risk Factors.

In addition to the other information contained in this report, you should consider carefully the following risk factors in evaluating us and our business before making an investment decision with respect to any shares of our common stock. This report contains certain statements that constitute forward-looking statements within the meaning of Section 27A of the Securities Act (and Section 21E of the Exchange Act). These forward-looking statements are based on the beliefs of, as well as assumptions made by and information currently available to, our

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

management. All statements which are not statements of historical fact are intended to be forward-looking statements. The forward-looking statements contained in this report reflect our or our management's current views and are subject to certain risks, uncertainties and assumptions, including, but not limited to, those set forth in the following Risk Factors. Should one or more of those risks or uncertainties materialize or should underlying assumptions prove incorrect, our actual results, performance or achievements in 2007 and beyond could differ materially from those expressed in, or implied by, those forward-looking statements.

Risks Related to Our Highly Regulated Industry

Failure of our institutes to comply with the extensive regulatory requirements for school operations could result in financial penalties, restrictions on our operations, loss of federal and state financial aid funding for our students or loss of our authorization to operate our institutes. In 2006, we indirectly derived approximately 61% of our revenue determined on an accrual accounting basis (or approximately 57% determined on a cash accounting basis as defined by the ED regulations) from Title IV Programs. To participate in Title IV Programs, an institution must receive and maintain authorization by the appropriate SEAs, be accredited by an accrediting commission recognized by the ED and be certified as an eligible institution by the ED. As a result, our institutes are subject to extensive regulation by the ED, the SEAs and the ACICS, which is an accrediting commission recognized by the ED. These regulatory requirements cover the vast majority of our operations, including our:

- education programs;
- facilities;
- instructional and administrative staff;
- administrative procedures;
- marketing;
- student recruitment;
- financial operations and financial condition;
- operation of new institutes and addition of learning sites;
- addition of new, or expansion of existing, education programs; and
- changes in corporate structure and ownership.

Most ED requirements are applied on an institutional basis, with an institution defined by the ED as a main campus and its additional locations, if any. Under the ED's definition, we have 29 such institutions. We currently operate one or more institutes in 33 states and our institutes recruit students in the remaining 17 states and the District of Columbia. The ED, the SEAs and the ACICS periodically revise their requirements and modify their interpretations of existing requirements. We cannot predict with certainty how all of the requirements applied by these agencies will be interpreted or whether all of our institutes will be able to comply with all of the requirements in the future.

If our institutes failed to comply with any of these regulatory requirements, these agencies could:

- impose monetary fines or penalties on our institutes;
- terminate or limit our institutes' operations or ability to grant degrees and diplomas;
- restrict or revoke our institutes' accreditation;
- limit, terminate or suspend our institutes' eligibility to participate in Title IV Programs or state financial aid programs;
- require our institutes to repay funds received under Title IV Programs or state financial aid programs;
- require us to post a letter of credit with the ED;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

subject our institutes to heightened cash monitoring by the ED;

transfer our institutes from the ED's advance system of receiving Title IV Program funds to its reimbursement system, under which a school must disburse its own funds to students and document the students' eligibility for Title IV Program funds before receiving such funds from the ED; and

subject us or our institutes to other civil or criminal penalties.

Each of these sanctions could adversely affect our financial condition, results of operations and cash flows and impose significant operating restrictions on us. If any of our institutes lost its state authorization, the institute would be unable to offer postsecondary education and we would be forced to close the institute. If any of our institutes lost its accreditation, it would lose its eligibility to participate in Title IV Programs. If any of our institutes lost its eligibility to participate in Title IV Programs, and we could not arrange for alternative financing sources for the students attending that institute, we could be forced to close the institute. Closing any of our institutes could have a material adverse effect on our financial condition, results of operations and cash flows. See Business Highly Regulated Industry.

The following are some of the specific risk factors related to our highly regulated industry:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Action by the U.S. Congress to revise the laws governing the federal student financial aid programs or reduce funding for those programs could reduce our student population and increase our costs of operation. Political and budgetary concerns significantly affect Title IV Programs. The U.S. Congress must reauthorize the HEA approximately every six years, which last occurred in 1998. In addition, the U.S. Congress can change the laws affecting Title IV Programs in the annual federal appropriations bills and other laws it enacts between the HEA reauthorizations. In 2005 and 2006, the U.S. Congress temporarily extended the provisions of the HEA, pending completion of the formal reauthorization process, and also enacted other laws affecting Title IV Programs. We believe that, in 2007, the U.S. Congress will either complete its reauthorization of the HEA or further extend the provisions of the HEA. Numerous changes to the HEA are likely to result from any further reauthorization and, possibly, from any extension of the existing provisions of the HEA, but at this time we cannot predict all of the changes that the U.S. Congress will ultimately make. In January 2007, the political party to which a majority of the members of both houses of the U.S. Congress are affiliated changed from the Republican party to the Democratic party. As a result, it is possible that the Democrat-controlled U.S. Congress will revise provisions of the HEA in significantly different ways than were being considered by the Republican-controlled U.S. Congress in 2005 and 2006. Since a significant percentage of our revenue is indirectly derived from Title IV Programs, any action by the U.S. Congress that significantly reduces Title IV Program funding or the ability of our institutes or students to participate in Title IV Programs could have a material adverse effect on our financial condition, results of operations and cash flows.

If one or more of our institutes lost its eligibility to participate in Title IV Programs, or if the U.S. Congress significantly reduced the amount of available Title IV Program funding, we would try to arrange or provide alternative sources of financial aid for the students at the affected institutes. We cannot assure you that one or more private organizations would be willing to provide loans to students attending those institutes or that the interest rate and other terms of such loans would be as favorable as for Title IV Program loans. In addition, the private organizations could require us to guarantee all or part of this assistance and we might incur other additional costs. If we provided more direct financial assistance to our students, we would incur additional costs and assume increased credit risks.

Legislative action may also increase our administrative costs and burden and require us to modify our practices in order for our institutes to comply fully with the legislative requirements, which could have a material adverse effect on our financial condition or results of operations.

One or more of our institutes may lose its eligibility to participate in Title IV Programs, if its student loan default rates are too high. Under the HEA, an institution may lose its eligibility to participate in some or all Title IV Programs, if the rates at which the institution's students default on their federal student loans exceed specified percentages. The ED calculates these rates on an institutional basis, based on the number of students who have defaulted, not the dollar amount of such defaults. The ED calculates an institution's cohort default rate on an annual basis as the rate at which borrowers scheduled to begin repayment on their loans in one year default on those loans by the end of the next year. Each institution participating in the FFEL and/or the FDL programs receives a FFEL/FDL cohort default rate for each federal fiscal year based on defaulted FFEL and FDL program loans. A federal fiscal year is October 1 through September 30. An institution whose FFEL/FDL cohort default rate is:

- 25% or greater for three consecutive federal fiscal years loses eligibility to participate in the FFEL, FDL and Pell programs for the remainder of the federal fiscal year in which the ED determines that the institution has lost its eligibility and for the two subsequent federal fiscal years; or
- greater than 40% for one federal fiscal year loses eligibility to participate in the FFEL and FDL programs for the remainder of the federal fiscal year in which the ED determines that the institution has lost its eligibility and for the two subsequent federal fiscal years.

An institution can appeal this loss of eligibility. During the pendency of any such appeal, the institution remains eligible to participate in the FFEL, FDL and Pell programs. If an institution continues its participation in the FFEL and/or FDL programs during the pendency of any such appeal and the appeal is unsuccessful, the institution must pay the ED the amount of interest, special allowance, reinsurance and any related payments paid by the ED (or which the ED is obligated to pay) with respect to the FFEL and FDL program loans made to the institution's students or their parents that would not have been made if the institution had not continued its participation (the Direct Costs). If a substantial number of our campus groups were subject to losing their eligibility to participate because of their FFEL/FDL cohort default rates, the potential amount of the Direct Costs for which we would be liable if our appeals were unsuccessful would prevent us from continuing some or all of the affected campus groups' participation in the FFEL and/or FDL programs during the pendency of those appeals, which could have a material adverse effect on our financial condition, results of operations and cash flows.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The following table sets forth the range of our campus groups' FFEL/FDL cohort default rates for the federal fiscal years indicated:

- 13 -

<u>Federal Fiscal Year</u>	<u>FFEL/FDL Cohort Default Rate Range</u>
2005 (a)	6.2% to 13.1%
2004 (b)	5.8% to 12.7%
2003	4.5% to 10.2%
2002	2.1% to 12.0%
(a)	The most recent year for which the ED has published FFEL/FDL preliminary cohort default rates.
(b)	The most recent year for which the ED has published FFEL/FDL official cohort default rates.

If an institution's FFEL/FDL cohort default rate is 25% or greater in any of the three most recent federal fiscal years, or if its cohort default rate for loans under the Federal Perkins Loan (the Perkins) program exceeds 15% for any federal award year, the ED may place that institution on provisional certification status. A federal award year is July 1 through June 30. We no longer participate in the Perkins program and our students have not received any loans under the Perkins program since 2002.

The servicing and collection efforts of student loan lenders and guaranty agencies help to control our FFEL/FDL cohort default rates. We are not affiliated with any student loan lenders or guaranty agencies. We supplement their efforts by attempting to contact students to advise them of their responsibilities and any deferment or forbearance for which they may qualify.

If any of our campus groups lost its eligibility to participate in FFEL, FDL and Pell programs and we could not arrange for alternative financing sources for the students attending the institutes in that campus group, we would probably have to close those institutes, which could have a material adverse effect on our financial condition, results of operations and cash flows.

We may be required to post a letter of credit or accept other limitations in order to continue our institutes' participation in Title IV Programs, state authorization and accreditation, if we or our institutes do not meet the financial standards of the ED, the SEAs or the ACICS. The ED, the SEAs and the ACICS prescribe specific financial conditions and operations that an institution must satisfy to participate in Title IV Programs, operate in a state and be accredited. The ED evaluates institutions for compliance with its standards each year, based on the institution's annual audited financial statements, as well as following any change of control of the institution and when the institution is reviewed for recertification by the ED. The most significant financial responsibility measurement is the institution's composite score, which is calculated by the ED based on three ratios:

the equity ratio, which measures the institution's capital resources, ability to borrow and financial viability;

the primary reserve ratio, which measures the institution's ability to support current operations from expendable resources; and

the net income ratio, which measures the institution's ability to operate at a profit.

The ED assigns a strength factor to the results of each of these ratios on a scale from negative 1.0 to positive 3.0, with negative 1.0 reflecting financial weakness and positive 3.0 reflecting financial strength. The ED then assigns a weighting percentage to each ratio and adds the weighted scores for the three ratios together to produce a composite score for the institution. The composite score must be at least 1.5 for the institution to be deemed financially responsible by the ED without the need for further oversight. Our campus groups' composite score, based on our fiscal year consolidated financial statements at the parent company level, was 2.2 in 2006 and 3.0 in 2005. The decrease in our composite score in 2006 was due to our repurchase in 2006 of 5.6 million shares of our common stock for \$363.0 million. In December 2006, we borrowed \$150 million under a revolving credit facility to allow us to continue repurchasing shares of our common stock while maintaining compliance with the ED's financial responsibility standards. See Notes 3 and 4 of the Notes to Consolidated Financial Statements.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

In evaluating an institution's compliance with the financial responsibility standards, the ED may examine the financial statements of the individual institution, the institution's parent company, or any party related to the institution. Historically, the ED has evaluated the financial condition of our institutions on a consolidated basis based on our financial statements at the parent company level. If the ED determines that an institution does not satisfy the ED's financial responsibility standards, the institution may establish its financial responsibility on one of several alternative bases, including posting a letter of credit in an amount equal to a specified percentage of the total Title IV Program funds received by the institution during the institution's most recently completed fiscal year and, in some cases, agreeing to receive Title IV Program funds under an arrangement other than the ED's standard advance funding

- 14 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

arrangement while being provisionally certified. The requirement to post a letter of credit or other sanctions by the ED could increase our cost of regulatory compliance and adversely affect our results of operations or cash flows.

One or more of our institutes may have to post a letter of credit or be subject to other sanctions, if it does not correctly calculate and timely return Title IV Program funds for, or refund monies paid by or on behalf of, students who withdraw before completing their program of study. The HEA and its implementing regulations impose limits on the amount of Title IV Program funds withdrawing students can use to pay their education costs (the Return Policy). The Return Policy permits a student to use only a pro rata portion of the Title IV Program funds that the student would otherwise be eligible to use, if the student withdraws during the first 60% of any period of enrollment. For our institutes, a period of enrollment is generally an academic quarter. The institution must calculate and return to the appropriate lenders or the ED any Title IV Program funds that the institution receives on behalf of a withdrawing student in excess of the amount the student can use for such period of enrollment. The institution must return those unearned funds in a timely manner which, prior to July 2006, was generally within 30 days of the date the institution determined that the student had withdrawn. Beginning in July 2006, an institution generally has up to 45 days after it determines a student's withdrawal date to return unearned funds. If the unearned funds are not properly calculated and timely returned, we may have to post a letter of credit in favor of the ED or be otherwise sanctioned by the ED. An institution is required to post a letter of credit with the ED in an amount equal to 25% of the total dollar amount of unearned Title IV Program funds that the institution was required to return with respect to withdrawn students during its most recently completed fiscal year, if the institution is found in an audit or program review to have untimely returned unearned Title IV Program funds with respect to 5% or more of the students in the audit or program review sample of withdrawn students, in either of its two most recently completed fiscal years. No audit or review has found that any of our institutes was violating the ED's standard on the timely return of unearned Title IV Program funds. The requirement to post a letter of credit or other sanctions by the ED could increase our cost of regulatory compliance and adversely affect our results of operations.

The standards of most of the SEAs and the ACICS limit a student's obligation to an institution for tuition and fees, if a student withdraws from the institution (the Refund Policy). The specific standards vary among the SEAs. Depending on when during an academic quarter a student withdraws and the applicable Refund Policy, in many instances the student remains obligated to the ITT Technical Institute for some or all of the student's education costs that were paid by the Title IV Program funds returned under the Return Policy. In these instances, many withdrawing students are unable to pay all of their education costs, unless the students have access to other sources of financial aid. We have arranged for an unaffiliated private funding source to offer eligible students loans that can help replace any Title IV Program funds that are returned if any of those students withdraw. We believe that other unaffiliated private funding sources would also be willing to make these types of loans available to our students, but we cannot assure you of this. If these types of loans were unavailable, we could be unable to collect a significant portion of many withdrawing students' education costs that would have been paid by the Title IV Program funds that were returned, which, in the aggregate, could have a material adverse effect on our results of operations and cash flows.

One or more of our institutes may lose its eligibility to participate in Title IV Programs, if the percentage of its revenue derived from those programs is too high. Under a provision of the HEA commonly referred to as the 90/10 Rule, a for-profit institution becomes ineligible to participate in Title IV Programs if, on a cash accounting basis, the institution derives more than 90% of its applicable revenue for a fiscal year from Title IV Programs. If any of our campus groups violated the 90/10 Rule for any fiscal year, it would be ineligible to participate in Title IV Programs as of the first day of the following fiscal year and would be unable to apply to regain its eligibility until the next fiscal year. Furthermore, if one of our campus groups violated the 90/10 Rule and became ineligible to participate in Title IV Programs but continued to disburse Title IV Program funds, the ED would require the institution to repay, with limited exceptions, all Title IV Program funds disbursed by the institution after the effective date of the loss of eligibility. For our 2006 fiscal year, none of our campus groups derived more than 66% of its revenue on a cash accounting basis from Title IV Programs, with a range from approximately 50% to approximately 66%. We regularly monitor compliance with this requirement to minimize the risk that any of our campus groups would derive more than the maximum allowable percentage of its applicable revenue from Title IV Programs for any fiscal year. If a campus group appeared likely to approach the maximum percentage threshold, we would consider making changes in student financing to comply with the 90/10 Rule, but we cannot assure you that we would be able to do this in a timely manner or at all. If any of our campus groups lost its eligibility to participate in Title IV Programs and we could not arrange for alternative financing sources for the students attending the institutes in that campus group, we would probably have to close those institutes, which could have a material adverse effect on our financial condition, results of operations and cash flows.

Failure by one or more of our institutes to satisfy the ED's administrative capability requirements could result in financial penalties, limitations on the institute's participation in Title IV Programs, loss of Title IV Program funds for its students or the repayment of Title IV Program funds received by its students. To participate in Title IV

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Programs, an institution must satisfy criteria of administrative capability prescribed by the ED. The most significant of these criteria require that the institution:

- demonstrate a reasonable relationship between the length of its programs and the entry-level job requirements of the relevant fields of employment;
- comply with all of the applicable Title IV Program regulations prescribed by the ED;
- have capable and sufficient personnel to administer the institution's participation in Title IV Programs;
- define and measure the satisfactory academic progress of its students within parameters specified by the ED;
- provide adequate financial aid counseling to its students who receive Title IV Program funds; and
- timely submit all required reports and financial statements to the ED.

If the ED determines that an institution is not capable of adequately administering its participation in any of the Title IV Programs, the ED could:

- impose monetary fines or penalties on the institution;
- require the institution to repay funds received under Title IV Programs;
- restrict the institution's receipt of Title IV Program funds; and
- limit or terminate the institution's eligibility to participate in Title IV Programs.

Each of these sanctions could adversely affect our financial condition, results of operations and cash flows and impose significant operating restrictions on us. In addition, an institution is deemed by the ED to lack administrative capability if its FFEL/FDL cohort default rate equals or exceeds 25% for any of the three most recent federal fiscal years for which such rates have been published, or if its Perkins cohort default rate exceeds 15% for any federal award year. If an institution's administrative capability is impaired solely because its FFEL/FDL and/or Perkins cohort default rates exceed the percentages specified above, the institution can continue to participate in Title IV Programs, but the ED may place the institution on provisional certification. See "*We cannot operate new institutes, add learning sites or offer new programs if they are not timely approved by our regulators, and we may have to repay Title IV Program funds disbursed to students enrolled at any of those locations or in any of those programs if we do not obtain prior approval.*"

We are subject to sanctions if we pay impermissible commissions, bonuses or other incentive payments to individuals involved in certain recruiting, admission or financial aid activities. An institution participating in Title IV Programs may not provide any commission, bonus or other incentive payment based directly or indirectly on success in securing enrollments or financial aid to any person or entity engaged in any student recruitment or admission activity or in making decisions regarding the awarding of Title IV Program funds. The ED's regulations set forth 12 types of activities and payment arrangements that an institution may carry out without violating this HEA provision (the "Safe Harbors"). One of the Safe Harbors permits the payment of fixed compensation, such as a fixed annual salary or hourly wage, so long as the fixed compensation is not adjusted up or down more than twice during any 12-month period, and any adjustment to the fixed compensation is not based solely on the number of students recruited, admitted, enrolled or awarded financial aid. We believe that we have compensated the applicable employees in accordance with this Safe Harbor and other Safe Harbors, but the law and regulations governing this requirement do not establish clear criteria for compliance in all circumstances, and the ED has stated that it will no longer entertain a request by an institution or company for the ED to review and assess its individual compensation plan. If the ED determined that an institution's compensation practices violated these standards, the ED could subject the institution to monetary fines or penalties or other sanctions. Any substantial fine or penalty or other sanction could have a material adverse effect on our financial condition, results of operations and cash flows.

We cannot operate new institutes, add learning sites or offer new programs if they are not timely approved by our regulators, and we may have to repay Title IV Program funds disbursed to students enrolled at any of those locations or in any of those programs if we do not obtain prior approval. Our expansion plans assume that we will be able to continue to obtain the necessary ED, ACICS and SEA approvals to establish

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

new institutes, add learning sites to our existing institutes and expand the program offerings at our existing institutes in a timely manner. If we are unable to obtain the approvals from the ED, the ACICS or the relevant SEAs for any new institutes, learning sites or program offerings where such approvals are required, or to obtain such approvals in a timely manner, our ability to operate the new institutes, add the learning sites or offer the new programs as planned would be impaired, which could have a material adverse effect on our expansion plans.

The process of obtaining any required state and ACICS authorizations can also delay our operating new institutes, adding learning sites or offering new programs. In certain circumstances, the state laws and regulations in effect in the states where we are located or anticipate establishing a new location or the ACICS standards may limit our ability to establish new institutes and learning sites and expand the programs offered at an institute, which could have a material adverse effect on our expansion plans.

- 16 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

In addition, an institution that is eligible to participate in Title IV Programs may add a new location or program without the ED's approval only if certain requirements are met. Otherwise, the institution must obtain the ED's approval before it may disburse Title IV Program funds to students in the new location or program. If we were to erroneously determine that a new location or program is eligible for Title IV Program funding, we would likely be liable for repayment of the Title IV Program funds provided to students in that location or program. See "Business Highly Regulated Industry."

A high percentage of the Title IV Program loans that our students receive are made by a small number of lenders and guaranteed by one guaranty agency. Our students have historically received their FFEL program loans from a limited number of lending institutions. In our 2006 fiscal year, one lender provided approximately 73% and one other lender provided approximately 26% of the FFEL program loans that our students received, and one student loan guaranty agency guaranteed approximately 100% of the FFEL program loans made to our students. If FFEL program loans by our primary lenders or guaranties of those loans by our primary guaranty agency were significantly reduced or no longer available and we were unable to timely identify other lenders and guaranty agencies to make and guarantee FFEL program loans for our students, that could:

- delay our students' receipt of their loans;
- increase our receivables;
- cause our student population to decrease; and
- have a material adverse effect on our financial condition, results of operations and cash flows.

If regulators do not timely approve a change in control of us or any of our institutes, the ability of the affected institutes to participate in Title IV Programs or operate may be impaired. The ED, the ACICS and most of the SEAs have requirements pertaining to the change in ownership and/or control (collectively "change in control") of institutions, but these requirements do not uniformly define what constitutes a change in control and are subject to varying interpretations as to whether a particular transaction constitutes a change in control. If we or any of our institutes experience a change in control under the standards of the ED, the ACICS or any of the SEAs, we or the affected institutes must seek the approval of the relevant regulatory agencies. Transactions or events that constitute a change in control for one or more of our regulatory agencies include:

- the acquisition of a school from another entity;
- significant acquisitions or dispositions of our common stock; and
- significant changes to the composition of our Board of Directors.

Some of these transactions or events may be beyond our control. Our failure to obtain, or a delay in obtaining, a required approval of any change in control from the ED, the ACICS or any of the SEAs in states in which our institutes are located could impair our ability or the ability of the affected institutes to participate in Title IV Programs. Our failure to obtain, or a delay in obtaining, a required approval of any change in control from the SEA in any state in which we do not have an institute but in which we recruit students could require us to suspend our recruitment of students in that state until we receive the required approval. A material adverse effect on our financial condition, results of operations and cash flows would result if we had a change in control and a material number of our institutes:

- failed to timely obtain the approvals of the SEAs required prior to or following a change in control;
- failed to timely regain accreditation by the ACICS or have their accreditation temporarily continued or reinstated by the ACICS;
- failed to timely regain eligibility to participate in Title IV Programs from the ED or receive temporary certification to continue to participate in Title IV Programs pending further review by the ED; or
- were subjected by the ED to restrictions that severely limited for a substantial period of time the number of new additional locations and/or new programs of study that are eligible to participate in Title IV Programs.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

In addition, the fact that a change in control would require approval of the relevant regulatory agencies could have the effect of making it more difficult for a third party to acquire, or discouraging a third party from attempting to acquire, control of us.

Government and regulatory agencies and third parties may bring claims or actions against us based on alleged violations of the extensive regulatory requirements applicable to our institutes, which could require us to pay monetary damages, receive other sanctions and expend significant resources to defend those claims or actions. Due to the highly regulated nature of the postsecondary education industry, we are subject to claims of non-compliance with regulatory standards and other actions brought by our regulatory agencies, students, shareholders and other parties. If the results of any of those claims are unfavorable to us, we may be required to pay money damages or be subject to fines, penalties, injunctions, operational limitations, loss of eligibility to participate in federal or state financial aid programs, debarments, additional oversight and reporting, or other civil and criminal sanctions. Those

sanctions could have a material adverse effect on our financial condition, results of operations and cash flows. Even if we satisfactorily resolve the issues raised by those types of claims, we may have to expend significant financial and management resources from our ongoing business operations to address and defend those claims, which could have a material adverse effect on our financial condition, results of operations and cash flows. Adverse publicity regarding any of those claims could also negatively affect our business and the market price of our common stock. See [Business Highly Regulated Industry](#).

Investigations, claims and actions against companies in our industry could adversely affect our business and stock price. The operations of a number of companies in the postsecondary education industry have been subject to intense regulatory scrutiny, especially over the last few years. In some cases, allegations of wrongdoing have resulted in reviews or investigations by the U. S. Department of Justice (DOJ), the SEC, the ED, the SEAs or other state agencies. These allegations, reviews and investigations and the accompanying adverse publicity could have a negative impact on our industry as a whole and on the market price of our common stock.

Budget constraints in states that provide state financial aid to our students could reduce the amount of such financial aid that is available to our students, which could reduce our student population. Some states may provide financial aid to our students, such as California, Florida, Ohio, Pennsylvania and New York. From time to time, states face budget constraints that may cause them to reduce state appropriations in a number of areas. Some of those states may decide to reduce the amount of state financial aid that they provide to students, but we cannot predict how significant any of those reductions may be or how long they could last. If the level of state funding for our students decreased and our students were not able to secure alternative sources of funding, our student population could decrease, which could have a material adverse effect on our results of operations.

Risks Related to Our Business

If we fail to effectively identify, establish and operate new institutes and learning sites, our growth may be slowed. As part of our business strategy, we anticipate operating new institutes and adding learning sites to existing institutes at locations throughout the United States. Establishing new institutes and learning sites poses challenges and requires us to make investments in management and capital expenditures, incur marketing and advertising expenses and devote other resources that are different, and in some cases greater, than those required with respect to the operation of existing institutes. To operate a new institute or add a learning site, we would be required to obtain the appropriate approvals from the SEAs and the ACICS, which may be conditioned or delayed in a manner that could significantly affect our growth plans. In addition, to be eligible to participate in Title IV Programs, a new institute or learning site may have to be certified by the ED. We cannot be sure that we will be able to identify suitable expansion opportunities to help maintain or accelerate our current growth rate or that we will be able to successfully integrate or profitably operate any new institutes or learning sites. Any failure by us to effectively identify, establish and manage the operations of newly established institutes or learning sites could slow our growth, make any newly established institutes or learning sites more costly to operate than we had planned and have a material adverse effect on our expansion plans and results of operations. See [Business Strategy Geographically Expand Our Institutes and Program Offerings](#).

Our success depends, in part, on our ability to effectively identify, develop, obtain approval to offer and teach new and/or higher-level degree programs in a cost-effective and timely manner. Part of our business strategy also includes increasing the number and level of degree programs offered at our institutes. Developing and offering new degree programs pose challenges and require us to make investments in research and development, management and capital expenditures, to incur marketing and advertising expenses and to devote other resources that are in addition to, and in some cases greater than, those associated with our current program offerings. In order to offer new and higher-level degree programs at our institutes, we would be required to obtain the appropriate approvals from the ED, the SEAs, the ACICS and, in certain circumstances, specialized programmatic accrediting agencies, which may be conditioned or delayed in a manner that could significantly affect our growth plans. We cannot be sure that we will be able to identify new programs to help maintain or accelerate our current growth rate, that we will be able to obtain the requisite approvals to offer new and/or higher-level degree programs at our institutes or that students will enroll in any new and/or higher-level degree programs that we offer at our institutes. Any failure by us to effectively identify, develop, obtain approval to offer and teach new and/or higher-level degree programs at our institutes could have a material adverse effect on our expansion plans and results of operations. See [Business Business Strategy Enhance Results at the Institute Level](#).

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Our success depends, in part, on our ability to keep pace with changing market needs and technology. Increasingly, prospective employers of our graduates demand that their entry-level employees possess appropriate technical skills and also appropriate soft skills, such as communication, critical thinking and teamwork skills. The skills that employees need may evolve rapidly in a changing economic and technological environment. Accordingly, it is important for our programs to evolve in response to those economic and technological changes. The expansion of

- 18 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

our existing programs and the development of new programs may not be accepted by prospective students or the employers of our graduates. Even if we are able to develop acceptable new programs, we may not be able to begin offering those new programs as quickly as required by the employers we serve or as quickly as our competitors offer similar programs. If we are unable to adequately respond to changes in market requirements due to regulatory or financial constraints, technological changes or other factors, our ability to attract and retain students could be impaired and the rates at which our graduates obtain jobs involving their fields of study could suffer.

Our financial performance depends, in part, on our ability to continue to develop awareness and acceptance of our programs among working adults and, to a lesser extent, recent high school graduates. The awareness of our programs among working adults and, to a lesser extent, recent high school graduates is important to the success of our institutes. If we were unable to successfully market or advertise our programs, our ability to attract and enroll prospective students in our programs would be adversely affected and, consequently, our ability to increase revenue or maintain profitability would be impaired. The following are some of the factors that could prevent us from successfully marketing or advertising our programs:

student dissatisfaction with our programs and services;

employer dissatisfaction with our programs and services;

our failure to maintain or expand our brand or other factors related to our marketing or advertising practices; and

diminished access to high school students.

The vast majority of private student loans received by our students are made by one lender and serviced by one loan servicer. In 2006, we indirectly derived approximately 34% of our revenue from unaffiliated, private loan programs that were made available to eligible students at our institutes to help fund a portion of the students' cost of education. The vast majority of these private loan programs are offered by one lender and serviced by one affiliated loan servicer. If that lender or loan servicer ended the programs or reduced the volume of loans made or serviced under the programs in the near future and we were unable to timely identify other lenders and loan servicers to make and service private loans for our students and their parents on similar terms, our students' ability to finance their education could be adversely affected, our receivables could increase and our student population could decrease, which could have a material adverse effect on our financial condition, results of operations and cash flows.

Our loss of key personnel could harm our business. Our success to date has depended, and will continue to depend, largely on the skills, efforts and motivation of our executive officers. Our success also depends in large part on our ability to attract and retain highly qualified faculty, school administrators and corporate management. We face competition in the attraction and retention of personnel who possess the skill sets that we seek. In addition, key personnel may leave us and subsequently compete against us. Furthermore, we do not currently carry key man life insurance. The loss of the services of any of our key personnel, or our failure to attract and retain other qualified and experienced personnel on acceptable terms, could impair our ability to successfully manage our business.

In order to support revenue growth, we need to hire, retain, develop and train employees who are responsible for teaching, financial aid, student recruiting, career services and registration. Our ability to develop a strong team of employees with these responsibilities may be affected by a number of factors, including:

our ability to timely and effectively train and motivate our employees in order for them to become productive;

restrictions imposed by regulatory bodies on the method of compensating employees with certain of these responsibilities;

the competition we face from other companies in hiring and retaining employees with these responsibilities;

our ability to attract enough prospective students to our program offerings; and

our ability to effectively manage a multi-location educational organization.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

If we are unable to hire, retain, develop and train employees who are responsible for teaching, financial aid, student recruiting, career services or registration, the effectiveness of our operations would be adversely affected.

Competition could decrease our market share, cause us to reduce tuition or force us to increase spending. The postsecondary education market in the United States is highly fragmented and competitive, with no single private or public institution enjoying a significant market share. Our institutes compete for students with graduate, bachelor and associate degree-granting institutions, which include nonprofit public and private colleges and for-profit institutions, as well as with alternatives to higher education such as military service or immediate employment. We believe competition among educational institutions is based on:

the quality and reliability of the institution's programs and student services;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

the perceived reputation of the institution and its programs and student services;

the cost of the institution's programs;

the employability of the institution's graduates;

the ability to provide easy and convenient access to the institution's programs and courses;

the quality and experience of the institution's faculty; and

the time required to complete the institution's programs.

Certain public and private colleges offer programs similar to those offered by our institutes at a lower tuition cost due in part to government subsidies, foundation grants, tax deductible contributions or other financial resources not available to for-profit institutions. Other for-profit institutions offer programs that compete with those of our institutes. Certain of our competitors in both the public and private sectors have greater financial and other resources than we do. All of these factors could affect the success of our marketing efforts and enable our competitors to recruit prospective students more effectively.

We may be required to reduce tuition or increase spending in response to competition in order to retain or attract students or pursue new market opportunities. As a result, our financial condition, results of operations and cash flows may be negatively affected. We cannot be sure that we will be able to compete successfully against current or future competitors or that competitive pressures faced by us will not adversely affect our business, financial condition, results of operations or cash flows.

High interest rates could adversely affect our ability to attract and retain students. Low interest rates create a less expensive and more favorable borrowing environment for our students. Since much of the financing our students receive is tied to floating interest rates, higher interest rates cause a corresponding increase in the cost to our existing and prospective students of financing their education, which could result in a reduction in the number of students attending our institutes and in our revenue. Higher interest rates could also contribute to higher default rates with respect to our students' repayment of Title IV Program and private loans. High default rates may, in turn, adversely impact our eligibility to participate in Title IV Programs and/or the willingness of private lenders to make private loan programs available to our students, which could result in a reduction in the number of students attending our institutes.

Our quarterly results of operations are likely to fluctuate based on our seasonal student enrollment patterns. In reviewing our results of operations, you should not focus on quarter-to-quarter comparisons. Our results in any quarter may not indicate the results we may achieve in any subsequent quarter or for the full year. Our quarterly results of operations have tended to fluctuate as a result of seasonal variations in our business, principally due to changes in our total student population. Our student population varies as a result of new student enrollments, graduations and student attrition. Historically, our revenue in our third and fourth fiscal quarters has generally benefited from increased student matriculations. The number of new students entering our institutes tends to be substantially higher in June and September. Our institutes' academic schedule generally does not affect our incurrence of most of our costs, however, and our costs do not fluctuate significantly on a quarterly basis. We believe that quarterly fluctuations in results of operations should continue as a result of seasonal enrollment patterns. These patterns may change, however, as a result of operating new institutes, adding learning sites, new program offerings and increased enrollment of adult students. See Management's Discussion and Analysis of Financial Condition and Results of Operations [Variations in Quarterly Results of Operations](#).

Terrorist attacks and other acts of violence or war could have an adverse effect on our operations. Terrorist attacks and other acts of violence or war could disrupt our operations. Attacks or armed conflicts that directly impact our physical facilities or ability to recruit and retain students and employees could adversely affect our ability to deliver our programs of study to our students and, thereby, impair our ability to achieve our financial and operational goals. Furthermore, violent acts and threats of future attacks could adversely affect the U.S. and world economies. Finally, future terrorist acts could cause the United States to enter into a wider armed conflict that could further impact our operations and result in prospective students, as well as our current students and employees, entering military service. These factors could cause significant declines in the number of students who attend our institutes and have a material adverse effect on our results of operations.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Natural disasters and other acts of God could have an adverse effect on our operations. Hurricanes, earthquakes, floods, tornados and other natural disasters and acts of God could disrupt our operations. Natural disasters and other acts of God that directly impact our physical facilities or ability to recruit and retain students and employees could adversely affect our ability to deliver our programs of study to our students and, thereby, impair our ability to achieve our financial and operational goals. Furthermore, natural disasters could adversely affect the economy and demographics of the affected region, which could cause significant declines in the number of students who attend our institutes in that region and have a material adverse effect on our results of operations. In 2005, we were forced to temporarily close our institute that is located in St. Rose, Louisiana due to a Gulf Coast hurricane. While the institute's facility did not incur extensive physical damage, the hurricane's impact on the region adversely affected the institute's total student enrollment, which had an adverse effect on our results of operations in 2006.

Anti-takeover provisions in our charter documents and under Delaware law could make an acquisition of us more difficult. Certain provisions of Delaware law, our Restated Certificate of Incorporation and our By-Laws could have the effect of making it more difficult for a third party to acquire, or discouraging a third party from attempting to acquire, control of us. Those provisions could:

- limit the price that certain investors might be willing to pay in the future for shares of our common stock;
- discourage or prevent certain types of transactions involving an actual or threatened change in control of us (including unsolicited takeover attempts), even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price;
- make it more difficult for stockholders to take certain corporate actions; and
- have the effect of delaying or preventing a change in control of us.

Certain of those provisions authorize us to:

- issue blank check preferred stock;
- divide our Board of Directors into three classes expiring in rotation;
- require advance notice for stockholder proposals and nominations;
- prohibit stockholders from calling a special meeting; and
- prohibit stockholder action by written consent.

If we are unable to conclude successfully litigation against us, our business, financial condition and results of operations could continue to be adversely affected. In the ordinary conduct of our business, we and our institutes are subject to various lawsuits, investigations and claims, covering a wide range of matters, including, but not limited to, claims involving students or graduates and routine employment matters. It is possible that we may be required to pay substantial damages or settlement costs in excess of our insurance coverage to resolve those matters, which could have a material adverse effect on our financial condition or results of operation. See Legal Proceedings. In connection with the DOJ investigation of us, the inquiry initiated by the SEC into allegations investigated by the DOJ and the securities class action, shareholder derivative and books and records inspections lawsuits, we have incurred substantial legal costs, and management's attention and resources have been diverted from our business.

The personal information that we collect may be vulnerable to breach, theft or loss that could adversely affect our reputation and operations. Possession and use of personal information in our operations subjects us to risks and costs that could harm our business. Our institutes collect, use and retain large amounts of personal information regarding our students and their families, including social security numbers, tax return information, personal and family financial data and credit card numbers. We also collect and maintain personal information of our employees in the ordinary course of our business. Some of this personal information is held and managed by certain of our vendors. Although we use security and business controls to limit access and use of personal information, a third party may be able to circumvent those security and business controls, which could result in a breach of student or employee privacy. In addition, errors in the storage, use or transmission of personal information could result in a breach of student or employee privacy. Possession and use of personal information in our operations also subjects us to legislative and regulatory burdens that could require notification of data breaches and restrict our use of personal information. We cannot

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

assure you that a breach, loss or theft of personal information will not occur. A major breach, theft or loss of personal information regarding our students and their families or our employees that is held by us or our vendors could have a material adverse effect on our reputation and results of operations and result in further regulation and oversight by federal and state authorities and increased costs of compliance.

Capacity constraints or system disruptions to our computer networks could damage our reputation and limit our ability to attract and retain students. The performance and reliability of our computer systems are critical to our information management, reputation and ability to attract and retain students. Any system error or failure, or a sudden and significant increase in traffic, could disrupt the provision of education to students attending our institutes. We cannot assure you that we will be able to expand the infrastructure of our computer systems on a timely basis sufficient

- 21 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

to meet demand. Our computer systems and operations could be vulnerable to interruption or malfunction due to events beyond our control, including natural disasters and telecommunications failures. Any interruption to our computer systems could have a material adverse effect on our operations and ability to attract and retain students. These factors could affect the number of students who attend our institutes and have a material adverse effect on our results of operations.

Our computer systems may be vulnerable to security risks that could disrupt operations and require us to expend significant resources. Our computer systems may be vulnerable to unauthorized access, computer hackers, computer viruses and other security problems. A user who circumvents security measures could misappropriate proprietary information or cause interruptions or malfunctions in operations. As a result, we may be required to expend significant resources to protect against the threat of those security breaches or to alleviate problems caused by those breaches. These factors could affect the number of students who attend our institutes and have a material adverse effect on our results of operations.

Risk Related to Our Common Stock

The trading price of our common stock may fluctuate substantially in the future. The trading price of our common stock may fluctuate substantially as a result of a number of factors, some of which are not within our control. Those factors include, among others:

our ability to meet or exceed our own forecasts or expectations of analysts or investors;

quarterly variations in our operating results;

changes in ED and state laws and regulations and accreditation standards, or changes in the way those entities interpret and apply their laws, regulations and standards;

the initiation, pendency or outcome of litigation, regulatory reviews and investigations, and any adverse publicity related thereto;

changes in our own forecasts or earnings estimates by analysts;

price and volume fluctuations in the overall stock market, which have particularly affected the market prices of many companies in the for-profit, postsecondary education industry in recent periods;

the loss of key personnel; and

general economic conditions.

Those factors could adversely affect the trading price of our common stock and could prevent an investor from selling shares of our common stock at or above the price at which those shares were purchased.

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 2. Properties.

As of December 31, 2006, we:

leased 77 facilities used by our institutes and learning sites;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

owned 22 facilities used by our institutes;

leased four facilities that are intended to be used by new institutes in 2007; and

owned a parcel of land on which we are currently constructing or intend to construct the facility for one of our institutes.

Our facilities are located in 33 states. None of the facilities owned by us is subject to a mortgage or other indebtedness.

We generally locate our institutes in suburban areas near major population centers. We generally house our campus facilities in modern, air conditioned buildings, which include classrooms, laboratories, student break areas and administrative offices. Our institutes have accessible parking facilities and are generally near a major highway. The facilities of a typical institute range in size from approximately 10,000 to 58,000 square feet of office space. The initial lease terms of our institutes' leased facilities range from three to 13 years. The average remaining lease term of our leased facilities is approximately four years. If desirable or necessary, an institute may be relocated to a new facility reasonably near the existing facility at the end of the lease term.

We own our headquarters building in Carmel, Indiana, which represents approximately 43,000 square feet of office space. In addition, we lease approximately 9,000 square feet of office space for our headquarters personnel in one nearby building for a lease term expiring in April 2010.

Item 3. Legal Proceedings.

- 22 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

On March 4, 2005, we were served with a qui tam action that was filed on April 8, 2004 in the United States District Court for the Southern District of Indiana by a former employee (relator) on behalf of himself and the federal government under the following captioned *United States of America ex rel. Robert Olson v. ITT Educational Services, Inc. d/b/a ITT Technical Institute* (the Olson Action). We were served with the Olson Action after the DOJ declined to intervene in the litigation. On June 24, 2005, the relator filed an amended complaint in the Olson Action. On January 9, 2006, the court dismissed the Olson Action without prejudice and gave the relator an opportunity to replead his complaint. On March 20, 2006, the relator filed a second amended complaint under seal. On April 18, 2006, the DOJ again declined to intervene in the litigation and the court unsealed the second amended complaint. In the second amended complaint, the relator alleges that we violated the False Claims Act, 31 U.S.C. § 3729, *et seq.*, by knowingly making and using false records and statements relating to, among other things, student recruitment, admission, enrollment, attendance, grading, testing, graduate placement, programs of study and course materials in order to fraudulently obtain student loans and tuition from the federal government. The complaint seeks an unspecified judgment and attorney s fees and costs. We intend to defend ourselves vigorously against the allegations in the complaint.

A qui tam action is a civil lawsuit brought by one or more individuals (a qui tam relator) on behalf of the federal or state government for an alleged submission to the government of a false claim for payment. A qui tam action is always filed under seal and remains under seal until the government decides whether to intervene in the litigation. Whenever a relator files a qui tam action, the government typically initiates an investigation in order to determine whether to intervene in the litigation. If the government intervenes, it has primary control over the litigation. If the government declines to intervene, the relator may pursue the litigation on behalf of the government. If the government or the relator is successful in the litigation, the relator receives a portion of the government s recovery.

We cannot assure you of the ultimate outcome of any litigation involving us. Any litigation alleging violations of education or consumer protection laws and/or regulations, misrepresentation, fraud or deceptive practices may also subject our affected institutes to additional regulatory scrutiny.

Item 4. Submission of Matters to a Vote of Security Holders.

No matters were submitted to a vote of the holders of our common stock during the fourth quarter of 2006.

PART II**Item 5. Market For Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Our common stock is listed on the New York Stock Exchange (NYSE) under the ESI trading symbol. The prices set forth below are the high and low sale prices of our common stock during the periods indicated, as reported in the NYSE's consolidated transaction reporting system.

<u>Fiscal Quarter Ended</u>	2006		2005	
	<u>High</u>	<u>Low</u>	<u>High</u>	<u>Low</u>
March 31	\$65.10	\$55.70	\$51.26	\$44.85
June 30	\$66.18	\$58.50	\$54.32	\$42.00
September 30	\$68.80	\$62.83	\$53.56	\$46.82
December 31	\$70.99	\$66.26	\$62.65	\$46.93

There were 119 holders of record of our common stock on February 15, 2007.

We did not pay a cash dividend in 2005 or 2006. We do not anticipate paying any cash dividends on our common stock in the foreseeable future and we plan to retain our earnings to finance future growth. The declaration and payment of dividends on our common stock are subject to the discretion of our Board of Directors and compliance with applicable law. Our decision to pay dividends in the future will depend on general business conditions, the effect of such payment on our financial condition and other factors our Board of Directors may in the future consider to be relevant.

The information required by this Item concerning securities authorized for issuance under equity compensation plans is set forth in or incorporated herein by reference to Part III, Item 12 of this Annual Report.

We did not sell any of our securities during the three months ended December 31, 2006 that were not registered under the Securities Act. In January 2007, we credited 904 treasury shares of our common stock to the deferred share accounts of each of five non-employee directors under the ESI Non-Employee Directors Deferred Compensation Plan (the "Directors Deferred Compensation Plan") in payment of their annual retainer for 2007. These shares of our common stock will be issued upon the termination of the non-employee director's service as a non-employee director for any reason, including retirement or death. In January 2007, we also issued 904 treasury shares of our common stock to one non-employee director under the Directors Deferred Compensation Plan in payment of his annual retainer for 2007. The transactions described in this paragraph are exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereof.

The following table sets forth information regarding purchases made by us of shares of our common stock on a monthly basis during the fourth quarter of 2006:

Issuer Purchases of Equity Securities				
<u>Period</u>	Total Number of Shares <u>Purchased</u>	Average Price Paid <u>per Share</u>	Total Number of Shares Purchased as Part of Publicly Announced Plans	Maximum Number of Shares that May Yet Be Purchased Under the Plans or

-
- (1) On October 17, 2002, we announced that our Board of Directors on October 15, 2002 authorized us to repurchase 5,000,000 shares of our common stock and, on April 27, 2006, we announced that our Board of Directors on April 25, 2006 authorized us to repurchase an additional 5,000,000 shares of our common stock (the Repurchase Program). The terms of the Repurchase Program provide that we may repurchase shares of our common stock, from time to time depending on market conditions and other considerations, in the open market or through privately negotiated transactions in accordance with Rule 10b-18 of the Exchange Act. Unless earlier terminated by our Board of Directors, the Repurchase Program will expire when we repurchase all shares authorized for repurchase thereunder.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

- (2) Represents shares of our common stock that were tendered to us by retirement-eligible employees to satisfy the income tax withholding obligations associated with the restricted stock awards granted to those employees.

The performance graph set forth below compares the cumulative total shareholder return on our common stock with the S&P 500 Index and a Peer Issuer Group Index for the period from December 31, 2001 through December 31, 2006. The peer issuer group consists of the following companies selected on the basis of the similar nature of their business: Apollo Group, Inc., Capella Education Company (CEC), Career Education Corp., Corinthian Colleges, Inc., DeVry, Inc., Laureate Education, Inc., Lincoln Educational Services Corporation, Strayer Education, Inc. and Universal Technical Institute, Inc. (the Peer Issuer Group). We believe that, including us, the Peer Issuer Group represents a significant portion of the market value of publicly traded companies whose primary business is postsecondary classroom education. The Peer Issuer Group includes all of the peer issuers in the former peer issuer group, except for Education Management Corp. (EDMC) and Concorde Career Colleges, Inc. (CCDC). EDMC and CCDC became private companies in 2006. The Peer Issuer Group also includes CEC, which was not included in the former peer issuer group. CEC became a publicly traded company in 2006.

Shareholders' equity (g)	\$103,945	\$308,594	\$235,074	\$146,124	\$89,024

- (a) Effective January 1, 2006, we adopted the Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment, ("SFAS No. 123R"), which requires us to expense the fair value of stock-based compensation awards. Prior to 2006, we accounted for stock-based compensation in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, ("APB Opinion No. 25") and related interpretations. If the stock-based compensation expense in the year ended December 31, 2006 had been determined in accordance with APB Opinion No. 25, instead of SFAS No. 123R, our:

operating income and income before taxes would have increased \$3,067;
income taxes would have increased \$1,181;
net income would have increased \$1,886; and
basic and diluted earnings per share would have increased \$0.04.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

See Notes 1 and 2 of the Notes to Consolidated Financial Statements for a discussion of our stock-based compensation.

- (b) The reclassification of tuition revenue with respect to students who withdraw reduced revenue and cost of educational services by \$10,828 in the year ended December 31, 2002. The reclassification had no impact on our total consolidated results reported in any period presented.
- (c) Accrued estimated legal and other investigation costs associated with the DOJ investigation of us, the inquiry initiated by the SEC into the allegations investigated by the DOJ, and the securities class action, shareholder derivative and books and records inspection lawsuits filed against us, certain of our current and former executive officers and Directors.
- (d) Basic earnings per share data are based on historical net income and the weighted average number of shares of our common stock outstanding during each period. Basic earnings per share for all periods have been calculated in conformity with SFAS No. 128, Earnings per Share.
- (e) The difference in the number of shares used to calculate diluted earnings per share from the number of shares used to calculate basic earnings per share primarily represents the average number of shares that could be issued under our stock-based compensation plans less shares assumed to be purchased with any proceeds received from the exercise of such awards.
- (f) We did not pay any cash dividends in any of the periods presented.
- (g) As of December 31, 2006, we adopted SFAS No. 158, Employers Accounting for Defined Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132(R), ("SFAS No. 158"), which requires that the funded status of a defined benefit postretirement plan be recognized on a company's balance sheet, and that any changes in the funded status of that type of plan be recognized through comprehensive income. The adoption of this pronouncement affects the comparability of total assets, total liabilities and shareholders' equity as of December 31, 2006 to the amounts under the same captions as of the same date in prior years. See Note 10 of the Notes to Consolidated Financial Statements for a discussion of our pension plans.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read with the Selected Financial Data and the Consolidated Financial Statements and Notes to Consolidated Financial Statements included elsewhere in this report.

General

We currently operate 87 institutes in 33 states, which were providing postsecondary education to approximately 47,000 students as of December 31, 2006. We derive our revenue from tuition, the sale of tool kits and laptop computers, and fees charged to and paid by, or on behalf of, our students. Most students at our institutes pay a substantial portion of their tuition and other education-related expenses with funds received under various government-sponsored student financial aid programs, especially Title IV Programs. In 2006, we indirectly derived approximately 61% of our revenue determined on an accrual accounting basis (or 57% of our revenue, determined on a cash accounting basis as defined by the ED's regulations) from Title IV Programs.

Our revenue varies based on the aggregate student population, which is influenced by the number of students attending our institutes at the beginning of a fiscal period and student retention rates.

New students generally enter our institutes at the beginning of an academic quarter that begins for most programs of study in early March, mid-June, early September or late November. Our establishment of new institutes and the introduction of additional program offerings at our existing institutes have been significant factors in increasing the aggregate student population in recent years.

In order to participate in Title IV Programs, a new institute must be authorized by the state in which it will operate, accredited by an accrediting commission recognized by the ED, and certified by the ED to participate in Title IV Programs. The accrediting commission that accredits our institutes grants accreditation to a new institute prior to its first class start date. The ED's certification process cannot commence until the institute receives its state authorization and accreditation. In the last few years, we have experienced minimal delay in obtaining ED certification of our new institutes and learning sites.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We earn tuition revenue on a straight-line basis over the length of each of four, 12-week academic quarters in each fiscal year. State regulations, accrediting commission criteria and our policies generally require us to refund a portion of the tuition and fee payments received from a student who withdraws from one of our institutes during an academic quarter. We recognize immediately the amount of tuition and fees, if any, that we may retain after payment of any refund.

We incur expenses throughout a fiscal period in connection with the operation of our institutes. The cost of educational services includes salaries of faculty and institute administrators, cost of course materials, occupancy costs,

- 27 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

depreciation and amortization of equipment costs, facilities and leasehold improvements, and other miscellaneous costs incurred by our institutes.

Student services and administrative expenses include direct marketing costs (which are marketing expenses directly related to new student recruitment), indirect marketing expenses, an expense for uncollectible accounts and administrative expenses incurred at our corporate headquarters. Direct marketing costs include salaries and employee benefits for recruiting representatives and direct solicitation expenses. We capitalize our direct marketing costs (excluding advertising expenses) using the successful efforts method and amortize them on a cost-pool-by-cost-pool basis over the period that we expect to receive revenue streams associated with those assets. We expense as incurred our marketing costs that do not relate to the direct solicitation of potential students.

In 2006, we continued to add program offerings among existing institutes and began operations at new institutes and learning sites. We also continued our efforts to diversify our program offerings by developing residence and online programs at different degree levels in both technology and non-technology fields of study.

The following table sets forth select operating and growth statistics for the periods indicated:

	Year Ended December 31,		
	2006	2005	2004
Additional program offerings	142	101	164
Number of institutes with additional program offerings	45	35	40
Began operations at:			
New institutes	6	4	2
New learning sites	5	3	1
Institutes offering bachelor degree programs	59	54	52

In 2007, we intend to add at least 105 program offerings among approximately 60 existing institutes. We also plan to continue developing additional residence and online programs at different degree levels in technology and non-technology fields of study to be offered at our institutes. The new degree programs are expected to involve a variety of disciplines and be at the associate and bachelor degree levels. We intend to develop both a residence and online version of many of the new programs. In 2007, we intend to increase the number of our institutes that offer bachelor degree programs to approximately 65. We plan to begin operations at six to eight locations in 2007. Our new institutes generally incur a loss up to 24 months after the first class start date.

Critical Accounting Policies and Estimates

This management's discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in conformity with generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenue and expenses and contingent assets and liabilities. Actual results may differ from those estimates and judgments under different assumptions or conditions.

We believe the following critical accounting policies affect our more significant estimates and judgments used in the preparation of our consolidated financial statements. These policies should be read in conjunction with Note 1 of the Notes to Consolidated Financial Statements.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Equity-Based Compensation. Effective January 1, 2006, we adopted SFAS No. 123R, which prescribes the accounting for equity instruments exchanged for employee and director services. Under SFAS No. 123R, stock-based compensation cost is measured at the date of grant, based on the calculated fair value of the grant, and is recognized as an expense over the period of time that the grantee must provide services to us before the stock-based compensation is fully vested. The vesting period is generally the period set forth in the agreement granting the stock-based compensation. Under the terms of our stock-based compensation plans, some grants immediately vest in full when the grantee's employment or service terminates, or when he or she is eligible to retire. As a result, in certain circumstances, the period of time that the grantee must provide services to us in order for that stock-based compensation to fully vest may be less than the vesting period set forth in the agreement granting the stock-based compensation. In these instances, compensation expense will be recognized over this shorter period. We recognize stock-based compensation expense on a straight-line basis over the service period applicable to the grantee.

We adopted SFAS No. 123R using the modified prospective transition method. Under this transition method, the financial statement amounts for periods before 2006 have not been restated to reflect the fair value method of expensing the stock-based compensation. The compensation expense recognized on and after January 1, 2006 includes the compensation cost based on the grant-date fair value estimated in accordance with: (a) SFAS No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, (SFAS No. 123) for all stock-based compensation that was granted prior to, but vested

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

on or after, January 1, 2006; and (b) SFAS No. 123R for all stock-based compensation that was granted on or after January 1, 2006.

We use a binomial option pricing model to determine the fair value of all stock options granted on or after January 1, 2005, and we use the market price of our common stock to determine the fair value of restricted stock and restricted stock units (RSUs) granted. Various assumptions are used in the model to determine the fair value of the stock options. These assumptions are discussed in Note 2 of the Notes to Consolidated Financial Statements.

Prior to January 1, 2006, we accounted for stock-based compensation to employees and directors in accordance with the intrinsic value method under APB Opinion No. 25 and related interpretations. Under the intrinsic value method, minimal compensation expense was recognized in our financial statements, because the vast majority of the stock-based compensation that we granted was in the form of nonqualified stock options and all of the stock options granted had exercise prices equivalent to the fair market value of our common stock on the date of grant.

In the year ended December 31, 2006, we granted stock options, restricted stock and RSUs to certain employees and directors. In 2006, we began granting restricted stock and RSUs, instead of stock options, to:

our non-executive key employees for the purpose of:

reducing the dilutive effect on our common stock caused by stock-based compensation;

reducing our compensation expense related to stock-based compensation; and

granting a form of stock-based compensation the long-term value of which could be better understood and appreciated by those employees; and

our non-employee directors to better align their interests with those of our shareholders.

Stock-based compensation expense in the year ended December 31, 2006 was \$3.1 million, or approximately \$1.9 million, net of tax, compared to \$0 in the year ended December 31, 2005. We estimate that stock-based compensation expense in 2007 will increase to approximately \$7.0 million. As of December 31, 2006, we estimated that pre-tax compensation expense for unvested stock-based compensation grants in the amount of approximately \$1.8 million, net of estimated forfeitures, will be recognized in future periods. We expect to recognize this expense over the remaining service period applicable to the grantees which, on a weighted average basis, is approximately 2.2 years.

On October 24, 2005, the Compensation Committee of our Board of Directors accelerated the vesting of all unvested, nonqualified stock options granted to our employees and directors that had exercise prices greater than the closing price of our common stock on that date. As a result of the vesting acceleration, all of those stock options were fully exercisable as of October 24, 2005. The purpose for accelerating the vesting of those stock options was to reduce our compensation costs associated with those stock options upon our adoption of SFAS No. 123R in 2006.

On October 28, 2005, the Compensation Committee of our Board of Directors awarded certain of our executives nonqualified stock options to purchase a total of 276,340 shares of our common stock as of November 2, 2005. The stock options awarded were fully vested and immediately exercisable. The full vesting of the stock options was conditioned upon each optionee agreeing not to sell, transfer or otherwise dispose of any shares obtained upon exercising the option until:

the first anniversary with respect to one-third of the shares underlying the option;

the second anniversary with respect to an additional one-third of the shares underlying the option; and

the third anniversary with respect to the remaining one-third of the shares underlying the option.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The purpose for accelerating the award and vesting of those stock options was to reduce our compensation costs associated with those stock options upon our adoption of SFAS No. 123R in 2006.

See also Notes 1 and 2 of the Notes to Consolidated Financial Statements for a discussion of stock-based compensation and SFAS No. 123R.

Recognition of Revenue. Tuition revenue is recorded on a straight-line basis over the length of the applicable course. If a student withdraws from an institute, the standards of most state education authorities that regulate our institutes, the accrediting commission that accredits our institutes and our own internal policy limit a student's obligation for tuition and fees to the institute depending on when a student withdraws during an academic quarter (Refund Policies). The terms of the Refund Policies vary by state, and the limitations imposed by the Refund Policies are generally based on the portion of the academic quarter that has elapsed at the time the student withdraws. The greater the portion of the academic quarter that has elapsed at the time the student withdraws, the greater the student's obligation is to the institute for the tuition and fees related to that academic quarter. We record revenue net of any refunds that result from any applicable Refund Policy. On an individual student basis, tuition earned in excess of cash received is recorded as accounts receivable, and cash received in excess of tuition earned is recorded as deferred revenue.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Tuition revenue includes textbooks students use in their programs of study. We amortize the related costs of textbooks on a straight-line basis over the applicable course length and record the deferral of textbook costs in prepaid expenses and other current assets. Laptop computer sales and the related cost of the laptop computers are recognized when the student receives the laptop computer. Tool kit sales and the related cost of the tool kits are recognized when the kits are distributed to the students. Academic fees (which are charged only one time to students on their first day of class attendance) are recognized as revenue on a straight-line basis over the average program length. Deferred revenue is recorded for fees collected in excess of revenue recognized. If a student withdraws from an institute, all unrecognized revenue relating to his or her fees, net of any refunds that result from any applicable Refund Policy, is recognized upon the student's departure. An administrative fee is charged to a student and recognized as revenue when the student withdraws or graduates from a program of study at an institute.

In years ended December 31, 2006 and December 31, 2005, approximately 96% of our revenue represented tuition charges and approximately 4% of our revenue represented laptop computer sales, tool kit sales and student fees. In the year ended December 31, 2004, approximately 95% of our revenue represented tuition charges and approximately 5% of our revenue represented tool kit sales and student fees. The amount of tuition earned depends on:

- the cost per credit hour of the courses in our programs;
- the length of a student's enrollment;
- the number of courses a student takes during each period of enrollment; and
- the total number of students enrolled in our programs.

Each of these factors is known at the time our tuition revenue is calculated.

Allowance for Doubtful Accounts. We extend unsecured credit to our students for tuition and fees and we record a receivable for the tuition and fees earned in excess of the payment received from or on behalf of a student. The individual student balances of these receivables are insignificant. We record an allowance for doubtful accounts with respect to accounts receivable on an institute-by-institute basis, using the institute's historical collection experience. We review the historical collection experience for each institute, consider other facts and circumstances related to an institute and adjust the calculation to record an allowance for doubtful accounts as appropriate. If our current collection trends were to differ significantly from our historic collection experience, however, we would make a corresponding adjustment to our allowance. We write-off the accounts receivable due from former students when we conclude that collection is not probable.

Property and Equipment. We include all property and equipment in the financial statements at cost and make provisions for depreciation of property and equipment using the straight-line method. The following table sets forth the general ranges of the estimated useful lives of our property and equipment:

<u>Type of Property and Equipment</u>	<u>Estimated Useful Life</u>
Furniture and equipment	2 to 10 years
Leasehold and building improvements	3 to 14 years
Buildings	20 to 40 years
Software	3 to 8 years

Changes in circumstances, such as changes in our curricula and technological advances, may result in the actual useful lives of our property and equipment differing from our estimates. We regularly review and evaluate the estimated useful lives of our property and equipment. Although we believe that our assumptions and estimates are reasonable, deviations from our assumptions and estimates could produce a materially different result.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We regularly review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amounts of those assets may not be recoverable. If the carrying value of the asset exceeds its fair market value, we recognize an impairment loss equal to the difference. We base our impairment analyses of long-lived assets on our current business strategy, expected growth rates and estimates of future economic and regulatory conditions.

Direct Marketing Costs. Direct costs incurred relating to the enrollment of new students are capitalized using the successful efforts method. Direct marketing costs subject to capitalization include salaries and employee benefits of recruiting representatives and other direct costs. Successful efforts is the ratio of students enrolled to prospective students interviewed. The higher the rate of interviewed students who enroll, the greater the percentage of our direct marketing costs that are capitalized. We amortize our direct marketing costs on a cost-pool-by-cost-pool basis over the period that we expect to receive revenue streams associated with those assets. The direct costs subject to capitalization are readily quantifiable and are not subject to estimation. The amortization method and period are based on historical trends of student enrollment and retention activity and are not subject to significant assumptions. We regularly evaluate the factors used to determine the amounts to be deferred and amortized and the future recoverability of those deferred costs.

Contingent Liabilities. We are subject to various claims and contingencies in the ordinary course of our business, including those related to litigation, business transactions, employee-related matters and taxes, among others. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we record a liability for the loss. The liability recorded includes probable and estimable legal costs associated with the claim or potential claim. If the loss is not probable or the amount of the loss cannot be reasonably estimated, we disclose the claim if the likelihood of a potential loss is reasonably possible and the amount involved is material. Although we believe our estimates are reasonable, deviations from our estimates could produce a materially different result.

New Accounting Pronouncements

In July 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, (FIN No. 48), which prescribes a single, comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. We estimate that the adoption of FIN No. 48 will increase retained earnings as of January 1, 2007 by up to \$2.0 million for income tax benefits not previously recognized.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, (SFAS No. 157), which provides guidance on the use of fair value to measure assets and liabilities and expands the disclosure required in a company's financial statements for fair value measurements. SFAS No. 157 will apply whenever other accounting pronouncements require or permit fair value measurements for assets and liabilities and is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 no later than January 1, 2008. We have not determined the effect that the adoption of SFAS No. 157 will have on our consolidated financial statements.

Also in September 2006, the FASB issued SFAS No. 158, which requires that the funded status of a defined benefit postretirement plan be recognized on a company's balance sheet, and that any changes in the funded status of that type of plan be recognized through comprehensive income. Those provisions of SFAS No. 158 are effective for fiscal years ending after December 15, 2006. We recorded an asset of \$8.3 million for our qualified pension plan, a liability of \$1.7 million for our nonqualified pension plan and \$6.5 million, net of tax, in accumulated other comprehensive income on our December 31, 2006 Consolidated Balance Sheet.

SFAS No. 158 also requires a company to measure the funded status of a defined benefit postretirement plan as of the date of the company's year-end balance sheet. This provision of SFAS No. 158 is effective for fiscal years ending after December 15, 2008 and will be adopted by us no later than December 31, 2008. We have not determined the effect that the adoption of this provision of SFAS No. 158 will have on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, (SFAS No. 159), which permits companies to choose to measure certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 159 no later than January 1, 2008. We have not determined the effect that the adoption of SFAS No. 159 will have on our consolidated financial statements.

Variations in Quarterly Results of Operations

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Our quarterly results of operations have tended to fluctuate within a fiscal year due to the timing of student matriculations. Each of our four fiscal quarters have 12 weeks of earned tuition revenue. Revenue in our third and fourth fiscal quarters generally benefits from increased student matriculations. The number of new students entering our institutes tends to be higher in June (23% of all new students in 2006) and September (34% of all new students in 2006) because of the significant number of recent high school graduates entering our institutes for the academic quarters beginning in those two months. The academic schedule generally does not affect our incurrence of most of our costs, however, and costs do not fluctuate significantly on a quarterly basis.

The following table sets forth our revenue for the periods indicated:

- 31 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

<u>Three Months Ended</u>	Quarterly Revenue (Dollars in thousands)					
	2006		2005		2004	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
March 31	\$176,315	23.3%	\$160,153	23.3%	\$141,730	22.9%
June 30	185,569	24.5%	168,782	24.5%	150,931	24.4%
September 30	189,667	25.0%	176,764	25.7%	157,945	25.6%
December 31	<u>206,213</u>	<u>27.2%</u>	<u>182,304</u>	<u>26.5%</u>	<u>167,228</u>	<u>27.1%</u>
Total for Year	\$757,764	100.0%	\$688,003	100.0%	\$617,834	100.0%

Results of Operations

The following table sets forth the percentage relationship of certain statement of income data to revenue for the periods indicated:

	Year Ended December 31,		
	2006	2005	2004
Revenue	100.0%	100.0%	100.0%
Cost of educational services	47.1%	47.7%	48.4%
Student services and administrative expenses	29.0%	28.1%	28.2%
Special legal and other investigation costs	(0.1)%	0.2%	4.1%
Operating income	24.0%	24.0%	19.3%
Interest income, net	1.0%	1.3%	0.7%
Income before income taxes	25.0%	25.3%	20.0%

The following table sets forth our total student enrollment as of the dates indicated, exclusive of international enrollments and enrollments at two institutes that ceased operations at the end of 2004:

As of December 31,	Total Student Enrollment	Increase Over Prior Year
2006	46,896	9.1%
2005	42,985	5.2%
2004	40,876	10.8%

Total student enrollment includes all new and continuing students. A continuing student is any student who, in the academic quarter being measured, is enrolled in a program of study at an ITT Technical Institute and was enrolled in the same program at any ITT Technical Institute at the end of the immediately preceding academic quarter. A new student is any student who, in the academic quarter being measured, enrolls in and begins attending any program of study at an ITT Technical Institute:

for the first time at that institute;

after graduating in a prior academic quarter from a different program of study at that institute; or

after having withdrawn or been terminated from a program of study at that institute.

The following table sets forth our new student enrollment in the periods indicated, exclusive of international enrollments and enrollments at two institutes that ceased operations at the end of 2004:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Year Ended December 31,	Total New Student Enrollment	Increase Over Prior Year
2006	49,935	10.8%
2005	45,073	7.4%
2004	41,957	17.1%

We generally organize the academic schedule for programs of study offered at our institutes on the basis of four 12-week academic quarters in a calendar year that typically begin in early March, mid-June, early September and late November. To measure the persistence of our students, the number of continuing students in any academic quarter is divided by the total student enrollment as of the end of the immediately preceding academic quarter.

The following table sets forth the rates of our students' persistence for the periods indicated, exclusive of international enrollments and enrollments at two institutes that ceased operations at the end of 2004:

Year	Student Persistence for the Three Months Ended			
	March 31	June 30	September 30	December 31
2006	75.8%	73.7%	71.2%	76.2%
2005	77.6%	74.2%	68.8%	77.0%
2004	78.0%	74.8%	71.4%	78.2%

In the second quarter of 2004, we began using the Hybrid Delivery Model with a larger number of our students, which increased the number of courses that we taught online over the Internet to our students. Student retention is typically lower in the courses that we teach online over the Internet compared to the courses that we teach on campus. As a result of the use of the Hybrid Delivery Model, our students' persistence decreased. In the second quarter of 2006, we modified the Hybrid Delivery Model for certain programs at select ITT Technical Institutes, such that students are no longer required to take one course online each academic quarter. In the third quarter of 2006, we expanded that modification to all programs at all ITT Technical Institutes that use the Hybrid Delivery Model. As modified, the Hybrid Delivery Model provides qualifying students with the option of taking one course online each academic quarter. Nonqualifying students are required to take all of their courses in residence at the institute each academic quarter. We consider a number of factors in determining whether a student qualifies, including his or her previous academic performance and success in courses taught online. We believe that increasing our students' face-to-face interaction with their instructors could cause our students' persistence to improve.

Year Ended December 31, 2006 Compared with Year Ended December 31, 2005. Revenue increased \$69.8 million, or 10.1%, to \$757.8 million in the year ended December 31, 2006 compared to \$688.0 million in the year ended December 31, 2005, primarily due to:

- a 5.0% increase in tuition rates in March 2006;
- a 5.2% increase in total student enrollment at December 31, 2005 compared to December 31, 2004; and
- a 10.8% increase in new student enrollment in the year ended December 31, 2006 compared to the year ended December 31, 2005.

The increase in student enrollment was primarily due to:

- operating new institutes and learning sites;
- an increased number of institutes offering bachelor degree programs; and
- an increased number of new programs of study offered by our institutes.

The increase in revenue was partially offset by an increase in the number of students who were enrolled part-time and, therefore, taking less than a full course load, as well as a decrease in our student persistence rate in the year ended December 31, 2006.

Cost of educational services increased \$28.6 million, or 8.7%, to \$356.9 million in the year ended December 31, 2006 compared to \$328.3 million in the year ended December 31, 2005, primarily due to:

- increased costs associated with operating new institutes and learning sites;
- the costs required to service the increased total student enrollment;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

normal inflationary increases for compensation and other cost of services; and
increased costs associated with greater laptop computer sales.

Cost of educational services as a percentage of revenue decreased to 47.1% in 2006 from 47.7% in 2005, primarily due to a decrease in compensation and benefit expense arising from the freeze of our pension plans and greater efficiencies in the operation of our institutes, which was partially offset by the costs associated with 18 new institutes and learning sites which began operations in the last 24 months.

Student services and administrative expenses increased \$26.8 million, or 13.9%, to \$219.8 million in the year ended December 31, 2006 compared to \$193.0 million in the year ended December 31, 2005. The principal causes of this increase included:

- an increase in media advertising costs to promote new locations and program offerings;
- normal inflationary increases for compensation and other costs of services;
- an increase in compensation and benefit costs associated with a greater number of employees; and
- an increase in stock-based compensation expense.

Student services and administrative expenses increased to 29.0% of revenue in 2006 compared to 28.1% of revenue in 2005, primarily due to an increase in media advertising costs for the promotion of new institutes and programs.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Special legal and other investigation costs decreased \$1.6 million to \$(0.4) million in the year ended December 31, 2006 compared to \$1.2 million in the year ended December 31, 2005. In the year ended December 31, 2006, we reduced the accrual of estimated legal costs associated with the DOJ investigation of us, the inquiry initiated by the SEC into the allegations investigated by the DOJ, and the securities class action, shareholder derivative and books and records inspection lawsuits filed against us and certain of our current and former executive officers and Directors (collectively, the Actions) by \$0.4 million. We recorded a charge of \$1.2 million in the year ended December 31, 2005 for estimated legal costs associated with the Actions. See Note 5 of the Notes to Consolidated Financial Statements.

Operating income increased \$16.1 million, or 9.7%, to \$181.5 million in the year ended December 31, 2006 compared to \$165.4 million in the year ended December 31, 2005. The operating margin was 24.0% in both 2005 and 2006.

Interest income, net, declined \$0.8 million, or 8.5%, to \$8.1 million in the year ended December 31, 2006 compared to \$8.9 million in the year ended December 31, 2005. The decrease was primarily due to a decrease in invested funds during 2006, offset by an increase in the rate of return on our investments.

Our combined federal and state effective income tax rate was 37.5% in the year ended December 31, 2006 compared to 37.1% in the year ended December 30, 2005.

Year Ended December 31, 2005 Compared with Year Ended December 31, 2004. Revenue increased \$70.2 million, or 11.4%, to \$688.0 million in the year ended December 31, 2005 compared to \$617.8 million in the year ended December 31, 2004, primarily due to:

- a 5.0% increase in tuition rates in March 2005;
- a 10.2% increase in total student enrollment at December 31, 2004 compared to December 31, 2003; and
- a 7.4% increase in new student enrollment in the year ended December 31, 2005 compared to the year ended December 31, 2004.

The increase in student enrollment was primarily due to:

- the opening of new institutes;
- an increased number of institutes offering bachelor degree programs;
- an increased number of new programs of study offered by our institutes;
- the availability of private student loans to supplement federal student financial aid; and
- the expanded use of the Hybrid Delivery Model.

This increase in revenue was partially offset by a decrease in our student persistence rate in the year ended December 31, 2005.

Cost of educational services increased \$29.6 million, or 9.9%, to \$328.3 million in the year ended December 31, 2005 compared to \$298.7 million in the year ended December 31, 2004, primarily due to:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

the costs required to service the increased student enrollment;

normal inflationary cost increases for compensation, rent and other costs of services; and

increased costs due to opening new institutes (two opened in December 2004, one opened in June 2005, one opened in September 2005 and two opened in December 2005) and new learning sites (one opened in September 2004, two opened in June 2005 and one opened in September 2005).

Cost of educational services as a percentage of revenue decreased to 47.7% in 2005 compared to 48.4% in 2004, primarily due to:

continued facility and faculty utilization efficiencies;

certain fixed costs at our institutes that did not increase proportionately with increases in our revenue resulting from increased student enrollment and tuition rate increases; and
new and renegotiated vendor contracts.

Student services and administrative expenses increased \$18.6 million, or 10.7%, to \$193.0 million in the year ended December 31, 2005 compared to \$174.4 million in the year ended December 31, 2004. Student services and administrative expenses decreased to 28.1% of revenue in 2005 compared to 28.2% of revenue in 2004, primarily due to a decrease in bad debt expense from 1.9% of revenue to 1.6% of revenue, partially offset by an increase in the amount of marketing costs deferred as a result of an increase in new student enrollment as a percentage of the number of applicants interviewed. The decrease in student services and administrative expense was partially offset by a 20.6% increase in media advertising expense related to the promotion of new program offerings and new institute locations.

Special legal and other investigation costs decreased \$23.9 million to \$1.2 million in the year ended December 31, 2005 compared to \$25.1 million in the year ended December 31, 2004. This decrease had a material favorable

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

effect on our results of operations. The primary causes of this decrease were the favorable developments in the Actions in the year ended December 31, 2005. See Note 5 of the Notes to Consolidated Financial Statements.

Operating income increased \$45.9 million, or 38.4%, to \$165.4 million in the year ended December 31, 2005 compared to \$119.5 million in the year ended December 31, 2004. The operating margin increased to 24.0% in 2005 from 19.3% in 2004, primarily due to:

- a \$23.9 million reduction in special legal and other investigation costs, which represented a 3.9% increase in the operating margin;
- continued facility and faculty utilization efficiencies;
- new and renegotiated vendor contracts; and
- certain fixed costs at our institutes that did not increase proportionately with increases in our revenue resulting from increased student enrollment and tuition rate increases.

Interest income increased \$5.1 million, or 130.9%, to \$8.9 million in the year ended December 31, 2005 compared to \$3.8 million in the year ended December 31, 2004, primarily due to an increase in our cash and investments coupled with a rising rate of return on our investments.

Our combined effective federal and state income tax rate was 37.1% in the year ended December 31, 2005 compared to 39.0% in the year ended December 31, 2004. This decrease was primarily due to:

- our investing in tax exempt and tax advantaged investments;
- a favorable prior year provision to tax return reconciliation; and
- the implementation of certain state tax strategies involving eight states.

Financial Condition, Liquidity and Capital Resources

Cash and cash equivalents were \$161.9 million as of December 31, 2006 compared to \$13.7 million as of December 31, 2005. The December 31, 2006 cash equivalents balance included a \$150.0 million certificate of deposit which represents the short-term investment of proceeds from borrowings under our revolving credit facility. We also have investments in marketable debt and auction rate preferred equity securities, which are classified as available-for-sale or held-to-maturity, depending on our investment intentions with regard to those securities. Our investments declined \$202.7 million to \$195.0 million as of December 31, 2006 compared to \$397.7 million as of December 31, 2005, primarily due to repurchases of our outstanding shares of common stock.

As of December 31, 2006, we are required to recognize the funded status of our defined benefit postretirement plans on our balance sheet. We recorded an asset of \$8.3 million for the ESI Pension Plan, a non-contributory defined benefit pension plan commonly referred to as a cash balance plan, and a liability of \$1.7 million for the ESI Excess Pension Plan, a nonqualified, unfunded retirement plan, on our consolidated balance sheet as of December 31, 2006. In order to determine those amounts, we performed an actuarial valuation of the ESI Pension Plan and ESI Excess Pension Plan (the "Pension Plans"), and reviewed and updated our key assumptions as part of each valuation, including the discount rate and expected long-term rate of return on the investments.

Effective March 31, 2006, the benefit accruals under the Pension Plans were frozen, such that no further benefits accrue under those plans after March 31, 2006. Participants in the Pension Plans will, however, continue to be credited with vesting service and interest according to the terms

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

of the Pension Plans. As a result of the freeze, total pension costs decreased \$7.6 million to \$0.3 million in the year ended December 31, 2006 compared to \$7.9 million in the year ended December 31, 2005. In 2007, we expect pension costs to remain at approximately the same amount as in 2006.

In January 2006, we contributed \$15.0 million to the ESI Pension Plan. We do not expect to make any contribution to the ESI Pension Plan in 2007, because the plan was fully funded as of December 31, 2006.

See Note 10 of the Notes to Consolidated Financial Statements for a more detailed discussion of the Pension Plans.

Capital Resources. Our cash flows are highly dependent upon the receipt of Title IV Program funds. In 2006, we indirectly derived our revenue, determined on an accrual basis of accounting, from the following sources:

- 35 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

<u>Source of funds</u>	<u>Percent</u>
Title IV Programs	61%
Unaffiliated, private student loan programs	34%
State student financial aid programs	2%
Other	3%
Total	100%

On a cash accounting basis, as defined by the ED's regulations, we indirectly derived approximately 57% of our revenue from Title IV Programs in 2006 compared to 61% in 2005 and 66% in 2004.

Under a provision of the HEA commonly referred to as the 90/10 Rule, a for-profit institution, such as each of our campus groups, becomes ineligible to participate in Title IV Programs if, on a cash accounting basis, the institution derives more than 90% of its applicable revenue for a fiscal year from Title IV Programs. For our 2006 fiscal year, none of our campus groups derived more than approximately 66% of its revenue, on a cash accounting basis, from Title IV Programs.

Under the HEA, an institution may also lose its eligibility to participate in some or all Title IV Programs if the rates at which the institution's students default on their federal student loans exceed specified percentages. An institution whose FFEL/FDL cohort default rate is 25% or greater for three consecutive federal fiscal years or greater than 40% for one federal fiscal year loses its eligibility to participate in certain Title IV Programs for at least two federal fiscal years. The following table sets forth the range of our campus groups' FFEL/FDL cohort default rates for the federal fiscal years indicated:

<u>Federal Fiscal Year</u>	<u>FFEL/FDL Cohort Default Rate Range</u>
2005 (a)	6.2% to 13.1%
2004 (b)	5.8% to 12.7%
2003	4.5% to 10.2%
2002	2.1% to 12.0%

(a) The most recent year for which the ED has published FFEL/FDL preliminary cohort default rates.

(b) The most recent year for which the ED has published FFEL/FDL official cohort default rates.

If any of our campus groups lost its eligibility to participate in Title IV Programs and we could not arrange for alternative financing sources on similar terms for the students (and their parents) attending an institute in that campus group, the students' ability to finance their education would be adversely affected, our receivables would increase and the number of students attending that campus group would probably decrease, which would have a material adverse effect on our financial condition, results of operations and cash flows.

Federal regulations affect the timing of our receipt and disbursements of Title IV Program funds. These regulations require institutions to disburse all Title IV Program funds by payment period. For our institutes, the payment period is an academic quarter. Prior to February 2006, institutions were not allowed to disburse the first installment of an FFEL or FDL program loan to a first-year undergraduate student who was a first-time borrower until 30 days after the student began his or her course of study. Beginning in February 2006, this 30-day period was eliminated for institutions whose FFEL/FDL cohort default rates are less than 10% for the three most recent federal fiscal years for which the ED has published those rates. The majority of our campus groups fulfilled this requirement in 2006, which resulted in an acceleration of our receipt and disbursement of Title IV Program funds in 2006 compared to prior years. We continued to disburse Title IV Program funds to other students ten days before the start of each academic quarter.

The standards of most of the state education authorities that regulate our institutes and the ACICS that accredits our institutes limit how much of a student's tuition and fees an institution can retain for a student who withdraws from the institution. The HEA and its implementing regulations impose limits on the amount of Title IV Program funds withdrawing students can use to pay their education costs (Return Policy). The Return

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Policy permits a student to use only a pro rata portion of the Title IV Program funds that the student would otherwise be eligible to use, if the student withdraws during the first 60% of any period of enrollment. The institution must return to the appropriate lenders or the ED any Title IV Program funds that the institution receives on behalf of a withdrawing student in excess of the amount the student can use for such period of enrollment. Depending on when a student withdraws during an academic quarter, the Return Policy can reduce the amount of Title IV Program funds that the withdrawing student can use to pay his or her education costs owed to the ITT Technical Institute. In these instances, withdrawing students may

- 36 -

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

be unable to pay all of the education costs that would have been paid by the Title IV Program funds that were returned and we may be unable to collect a significant portion of those costs. Our students' use of supplemental private loans has improved our collection of the students' education costs.

Operations. Cash from operating activities increased \$9.7 million to \$163.9 million in the year ended December 31, 2006 compared to \$154.2 million in the year ended December 31, 2005, primarily due to:

- an increase in net income;
- the timing of income tax and vendor payments; and
- improved management and collection of our receivables.

The excess tax benefit from stock option exercises in the year ended December 31, 2005 was presented under cash flows from operating activities. Beginning in 2006, SFAS No. 123R requires us to present the excess tax benefit from stock option exercises under cash flows from financing activities which resulted in an \$8.7 million decrease in reported cash flows from operating activities in the year ended December 31, 2006 compared to the year ended December 31, 2005.

Accounts receivable, net of allowance for doubtful accounts, was \$9.4 million as of December 31, 2006 compared to \$14.0 million as of December 31, 2005. Days sales outstanding decreased 2.9 days to 4.2 days at December 31, 2006 compared to 7.1 days at December 31, 2005, primarily due to improved collections of our receivables and a greater proportion of student tuition being funded by private loans.

In the year ended December 31, 2005, cash from operating activities increased \$11.3 million to \$154.2 million compared to \$142.9 million in the year ended December 31, 2004, primarily due to an increase in net income which was partially offset by higher income tax payments and a decrease in operating cash investments.

Investing. In the year ended December 31, 2006, we spent \$1.5 million to purchase one parcel of land on which we intend to build a facility and \$17.4 million for construction and renovation costs associated with 12 facilities. As of December 31, 2006, we leased one facility that we negotiated to purchase for approximately \$2.8 million. We completed this transaction in early 2007.

In 2005, we spent \$25.1 million:

- to purchase three facilities for \$13.8 million, two of which were renovated;
- to purchase three parcels of land for \$3.9 million on which we commenced construction of facilities; and
- for construction costs associated with eight facilities totaling \$7.4 million.

During 2004, we spent \$16.4 million:

- to purchase one facility for \$3.8 million;
- to purchase four parcels of land for \$4.9 million on which we commenced construction of facilities; and
- for construction costs associated with four facilities totaling \$7.7 million.

Capital expenditures, excluding facility and land purchases and facility construction, totaled \$23.7 million in 2006, \$21.3 million in 2005 and \$19.1 million in 2004. These expenditures consisted primarily of classroom and laboratory equipment (such as computers and electronic equipment), classroom and office furniture, software and leasehold improvements. We plan to continue to upgrade and expand current facilities and equipment during 2007. Cash generated from operations is expected to be sufficient to fund our capital expenditure requirements.

Financing. On December 22, 2006, we entered into a credit agreement with a single lender to borrow up to \$150.0 million under a revolving credit facility. The credit facility will be used to allow us to continue repurchasing shares of our common stock while maintaining compliance with certain financial ratios required by the ED, SEAs and the ACICS.

The credit agreement matures on October 1, 2009 and the amount of credit available thereunder decreases by \$21.4 million each calendar quarter beginning April 1, 2008. We have the option of borrowing under the credit agreement on either a secured or unsecured basis which, subject to certain conditions, can be changed by us at any time upon ten days prior written notice to the lender. Certain investments held in a pledged account serve as the collateral for any secured borrowings under the credit agreement.

Borrowings under the credit agreement bear interest at variable rates based on fixed increments over the London Interbank Offered Rate (LIBOR). We pay a commitment fee of 0.15% per annum of the unused amount of the credit facility. As of December 31, 2006, the borrowings under the credit agreement were \$150.0 million, all of which were unsecured, and bore interest at a rate of 5.73% per annum.

The availability of borrowings under the credit agreement is subject to our ability at the time of borrowing to satisfy certain specified conditions. These conditions include the absence of default by us, as defined in the credit

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

agreement, and that certain representations and warranties contained in the credit agreement continue to be true and accurate. We are also required to maintain a certain maximum leverage ratio and a minimum ratio of cash and investments to outstanding indebtedness at the end of each of our fiscal quarters. We were in compliance with those ratio requirements as of December 31, 2006.

On January 8, 2007, we converted the \$150.0 million of unsecured borrowings to secured borrowings under the credit agreement at an interest rate of 5.47% per annum, at which time approximately \$158.0 million of our investments served as collateral for the secured borrowings under the credit agreement.

On April 25, 2006, our Board of Directors authorized the repurchase of up to an additional 5,000,000 shares of our common stock beyond the remaining repurchase authorization of 1,062,000 as of that date in the open market or through privately negotiated transactions in accordance with Rule 10b-18 of the Exchange Act. Pursuant to the Board's stock repurchase authorization, we plan to repurchase additional shares of our common stock from time to time in the future depending on market conditions and other considerations.

The following table sets forth our share repurchase activity during 2006, 2005 and 2004:

	Year Ended December 31,		
	2006	2005	2004
Repurchase authorization at beginning of period	3,287,700	4,216,300	4,216,300
Additional repurchase authorization	5,000,000	--	--
Number of shares repurchased	(5,606,600)	(928,600)	--
Repurchase authorization at end of period	2,681,100	3,287,700	4,216,300
Total cost of shares repurchased (in millions)	\$363.0	\$55.6	--
Average cost per share	\$64.74	\$59.88	--

From January 31, 2007 through February 15, 2007, we repurchased 605,200 outstanding shares of our common stock pursuant to our existing repurchase authorization at a total cost of \$48.2 million or at an average cost per share of \$79.65.

Proceeds from the exercise of stock options were \$23.0 million in the year ended December 31, 2006 compared to \$11.0 million in the year ended December 31, 2005 and \$8.6 million in the year ended December 31, 2004.

We believe that cash generated from operations and our investments will be adequate to satisfy our working capital and capital expenditure requirements for the foreseeable future. We also believe that any reduction in cash and cash equivalents or investments that may result from their use to repurchase shares of our common stock, purchase facilities or construct facilities will not have a material adverse effect on our expansion plans, planned capital expenditures, ability to meet any applicable regulatory financial responsibility standards or ability to conduct normal operations.

Contractual Obligations

The following table sets forth the specified contractual obligations as of December 31, 2006:

Payments Due by Period

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Contractual Obligations	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
	(In thousands)				
Operating lease obligations	\$102,058	\$26,926	\$45,650	\$18,337	\$11,145
Long-term debt, including scheduled interest payments	\$166,410	\$8,205	\$158,205	--	--

The long-term debt represents our revolving credit facility and assumes that the full amount of the facility will be outstanding at all times through the date of maturity. The amounts shown include the principal payments that will be due upon maturity as well as interest payments. Interest payments have been calculated based on their scheduled payment dates using the interest rate charged on our borrowings as of December 31, 2006.

Off-Balance Sheet Arrangements

As of December 31, 2006, we leased our non-owned facilities under operating lease agreements. A majority of the operating leases contain renewal options that can be exercised after the initial lease term. Renewal options are generally for periods of one to five years. All operating leases will expire over the next 10 years and management believes that:

those leases will be renewed or replaced by other leases in the normal course of business;

we may purchase the facilities represented by those leases; or

we may purchase or build other replacement facilities.

There are no material restrictions imposed by the lease agreements, and we have not entered into any significant guarantees related to the leases. We are required to make additional payments under the terms of the operating leases for taxes, insurance and other operating expenses incurred during the operating lease period.

As part of our normal course of operations, one of our insurers issues surety bonds for us that are required by various education authorities that regulate us. We are obligated to reimburse our insurer for any of those surety bonds that are paid by the insurer. As of December 31, 2006, the total face amount of those surety bonds was \$17.5 million. In addition, as of December 31, 2006, we provided irrevocable standby letters of credit in the total amount of \$1.5 million to secure both the payment of construction costs associated with a facility that we built in 2006 and the payment of our workers' compensation claims.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

In the normal course of our business, we are subject to fluctuations in interest rates that could impact the return on our investments and the cost of our financing activities. Our primary interest rate risk exposure results from changes in short-term interest rates and the LIBOR.

Our investments consist primarily of marketable debt securities, variable rate demand notes, and auction rate debt and equity securities. We estimate that the market risk associated with these investments can best be measured by a potential decrease in the fair value of these investments from a hypothetical 10% increase in interest rates. If such a hypothetical increase in rates were to occur, the reduction in the market value of our portfolio of marketable securities would not be material.

Changes in the LIBOR would affect the borrowing costs associated with our revolving credit facility. We estimate that the market risk can best be measured by a hypothetical 100 basis point increase in the LIBOR. If such a hypothetical increase in the LIBOR were to occur, the effect on results from operations and cash flow would not have been material for the year ended December 31, 2006.

Item 8. Financial Statements and Supplementary Data.

The information required by this Item appears on pages F-1 through F-25 of this Annual Report.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

Not applicable.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We are responsible for establishing and maintaining disclosure controls and procedures (DCP) that are designed to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is: (a) recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms; and (b) accumulated and communicated to our management, including our principal executive and principal financial officers, to allow timely decisions regarding required disclosures. In designing and evaluating our DCP, we recognize that any controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving the desired control objectives, and that our management s duties require it to make its best judgment regarding the design of our DCP. As of December 31, 2006, we conducted an evaluation, under the supervision (and with the participation) of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our DCP pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our DCP were effective as of December 31, 2006.

Internal Control Over Financial Reporting

Management s Annual Report on Internal Control over Financial Reporting. Our management s report on internal control over financial reporting appears on page F-1 of this Annual Report and is incorporated herein by reference.

Our management s assessment of the effectiveness of our internal control over our financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act, (ICFR) as of December 31, 2006 has been audited by PricewaterhouseCoopers LLP, our independent registered public accounting firm, as stated in its report dated February 23, 2007, which appears beginning on page F-2 of this Annual Report and is incorporated herein by reference.

Changes in Internal Control over Financial Reporting. There were no changes in our ICFR that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our ICFR.

Item 9B. Other Information.

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

The information required by this Item concerning our directors, nominees for director, executive officers, audit committee members and financial expert, code of ethics, disclosure of delinquent filers and transactions with related persons is incorporated herein by reference to our definitive Proxy Statement for our 2007 Annual Meeting of Shareholders, which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of our last fiscal year.

Item 11. Executive Compensation.

The information required by this Item concerning remuneration of our executive officers and directors, material transactions involving such executive officers and directors and Compensation Committee interlocks, as well as the Compensation Committee Report, are incorporated herein by reference to our definitive Proxy Statement for our 2007 Annual Meeting of Shareholders which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of our last fiscal year.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The information required by this Item concerning the stock ownership of management, five percent beneficial owners and securities authorized for issuance under equity compensation plans is incorporated herein by reference to our definitive Proxy Statement for our 2007 Annual Meeting of Shareholders which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of our last fiscal year.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

The information required by this Item concerning certain relationships and related person transactions, and director independence is incorporated herein by reference to our definitive Proxy Statement for our 2007 Annual Meeting of Shareholders which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of our last fiscal year.

Item 14. Principal Accountant Fees and Services.

The information required by this Item concerning the fees and services of our independent registered public accounting firm and our Audit Committee actions with respect thereto is incorporated herein by reference to our definitive Proxy Statement for our 2007 Annual Meeting of Shareholders which will be filed with the SEC pursuant to Regulation 14A within 120 days after the end of our last fiscal year.

A list of exhibits required to be filed as part of this report is set forth in the Index to Exhibits appearing on pages S-2 through S-4 of this Annual Report, which immediately precedes such exhibits, and is incorporated herein by reference.

Management's Report on Internal Control Over Financial Reporting

We are responsible for establishing and maintaining adequate internal control over our financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act (ICFR). Our ICFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of our records that in reasonable detail accurately and fairly reflect our transactions and asset dispositions;
- provide reasonable assurance that our transactions are recorded as necessary to permit the preparation of our financial statements in accordance with generally accepted accounting principles;
- provide reasonable assurance that our receipts and expenditures are being made only in accordance with authorizations of our management and Board of Directors (as appropriate); and
- provide reasonable assurance regarding the prevention or timely detection of any unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Reasonable assurance, as defined in Section 13(b)(7) of the Exchange Act, is the level of detail and degree of assurance that would satisfy prudent officials in the conduct of their own affairs in devising and maintaining a system of internal accounting controls.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we assessed the effectiveness of our ICFR as of December 31, 2006. Our assessment included extensive documenting, evaluating and testing of the design and operating effectiveness of our ICFR. In making this assessment, our management used the criteria for *Internal Control-Integrated Framework* set forth by The Committee of Sponsoring Organizations of the Treadway Commission. These criteria are in the areas of control environment, risk assessment, control activities, information and communication, and monitoring. Based on our assessment using these criteria, our management concluded that we maintained effective ICFR as of December 31, 2006.

Our management's assessment of the effectiveness of our ICFR as of December 31, 2006 has been audited by PricewaterhouseCoopers LLP, our independent registered public accounting firm, as stated in its accompanying report.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders

of ITT Educational Services, Inc.:

We have completed integrated audits of ITT Educational Services, Inc.'s consolidated financial statements and of its internal control over financial reporting as of December 31, 2006, in accordance with the standards of the Public Company Accounting Oversight Board (United States). Our opinions, based on our audits, are presented below.

Consolidated financial statements and financial statement schedule

In our opinion, the consolidated financial statements listed in the index appearing under Item 15.1 present fairly, in all material respects, the financial position of ITT Educational Services, Inc. and its subsidiaries at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15.2 presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1 to the consolidated financial statements, the Company changed the manner in which it accounts for employee pension benefits and share based compensation in 2006.

Internal control over financial reporting

Also, in our opinion, management's assessment, included in Management's Report on Internal Control Over Financial Reporting appearing on page F-1, that the Company maintained effective internal control over financial reporting as of December 31, 2006 based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), is fairly stated, in all material respects, based on those criteria. Furthermore, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on criteria established in *Internal Control - Integrated Framework* issued by the COSO. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express opinions on management's assessment and on the effectiveness of the Company's internal control over financial reporting based on our audit. We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ITT EDUCATIONAL SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data and unless otherwise stated)

1. **Business and Significant Accounting Policies**

Business. We are a leading for-profit provider of postsecondary education in the United States based on revenue and student enrollment. As of December 31, 2006, we were offering diploma and associate, bachelor and master degree programs at 87 institutes and nine learning sites located in 33 states. All of our institutes are authorized by the applicable educational authorities of the states in which they operate and are accredited by an accrediting commission recognized by the United States Department of Education (ED). We have provided career-oriented programs since 1969 under the ITT Technical Institute name. Our corporate headquarters are located in Carmel, Indiana.

Basis of Presentation. The consolidated financial statements include our wholly-owned subsidiaries accounts and have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP). All significant intercompany balances and transactions are eliminated upon consolidation. Certain reclassifications have been made in the consolidated financial statements of prior years to conform to the current year presentation.

Use of Estimates. The preparation of these consolidated financial statements, in accordance with GAAP, includes estimates and assumptions that are determined by our management. Actual results could differ materially from the estimates.

Cash Equivalents. Highly liquid investments purchased with an original maturity of three months or less are considered cash equivalents.

Restricted Cash. Title IV Program funds and certain other monies transferred to us by electronic funds transfer are subject to holding restrictions, generally from three to seven days, before they can be drawn into our cash account. The funds subject to these holding periods are classified as restricted cash within our current assets until they are applied to the students' accounts. In addition, a Maryland education regulation requires us to maintain an escrow account as a condition to operating our institute in Owings Mills, MD. The funds in this escrow account are classified as restricted cash within our non-current assets.

Investments. We classify our investments in marketable securities as available-for-sale or held-to-maturity depending on our investment intentions with regard to those securities on the date of acquisition. Investments are classified as either current or non-current based on the maturity date of each security. Auction rate debt securities and variable rate demand notes classified as available-for-sale, however, are included in current assets despite the long-term contractual maturity if we have the ability to liquidate these investments within one year.

The cost of securities sold is based on the specific identification method.

Accounts Receivable. We extend unsecured credit to our students for tuition and fees and we record a receivable for the tuition and fees earned in excess of the payment received from or on behalf of a student. The individual student balances of these receivables are insignificant. We record an allowance for doubtful accounts with respect to accounts receivable on an institute-by-institute basis, using the institute's historical collection experience. We review the historical collection experience for each institute, consider other facts and circumstances related to an institute and adjust the calculation to record an allowance for doubtful accounts as appropriate. If our current collection trends were to differ significantly from our historic collection experience, however, we would make a corresponding adjustment to our allowance. We write-off the

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

accounts receivable due from former students when we conclude that collection is not probable.

Property and Equipment. Property and equipment is recorded in our consolidated financial statements at cost, less accumulated depreciation and amortization. Maintenance and repairs are expensed as incurred. Expenditures that extend the useful lives of our assets are capitalized.

Developed or purchased software is capitalized in accordance with the American Institute of Certified Public Accountants Statement of Position 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use. Facility construction costs are capitalized as incurred, with depreciation commencing when the facility is placed in service. We have historically paid for all real estate projects without any external financing and, therefore, no interest costs have been capitalized.

Provisions for depreciation and amortization of property and equipment have generally been made using the straight-line method over the following ranges of useful lives:

F - 8

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

<u>Type of Property and Equipment</u>	<u>Estimated Useful Life</u>
Furniture and equipment	2 to 10 years
Leasehold and building improvements	3 to 14 years
Buildings	20 to 40 years
Software	3 to 8 years

We amortize leasehold improvements using the straight-line method over the shorter of the life of the improvement or the term of the underlying lease.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we regularly review our long-lived assets for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If we determine that the carrying amount of a long-lived asset exceeds the total amount of the estimated undiscounted future cash flows from that asset, we would determine the fair value of that asset using a discounted cash flows model. If the amount of discounted cash flows is less than the net book value of the long-lived asset, we recognize an impairment loss in the amount of the difference. We base our impairment analyses of long-lived assets on our current business strategy, expected growth rates and estimates of future economic and regulatory conditions.

Direct Marketing Costs. Direct costs incurred relating to the enrollment of new students are capitalized using the successful efforts method. Direct marketing costs subject to capitalization include salaries and employee benefits of recruiting representatives and other direct costs. Successful efforts is the ratio of students enrolled to prospective students interviewed. The higher the rate of interviewed students who enroll, the greater the percentage of our direct marketing costs that are capitalized. We amortize our direct marketing costs on a cost-pool-by-cost-pool basis over the period that we expect to receive revenue streams associated with those assets. The direct costs subject to capitalization are readily quantifiable and are not subject to estimation. We define a cost pool as the group of students that begin each academic quarter (Class). The direct marketing costs that are capitalized with respect to a particular Class are amortized using a method that corresponds to the amount of tuition revenue that will be recognized in each academic quarter for that Class. Since we recognize tuition revenue for a Class on a straight-line basis over the program length, we also recognize the amortization of the capitalized direct marketing costs with respect to that Class on a straight-line basis over the same period. If a student withdraws, however, any remaining amount of the capitalized direct marketing costs related to that student is expensed immediately, because the realizability of the remaining capitalized direct marketing costs related to that student is impaired.

We review the carrying amount of the capitalized direct marketing costs on a regular basis in order to compare the recorded amounts with the estimated remaining future revenue streams associated with those assets. If we determine that the value of the capitalized direct marketing costs recorded exceeds the remaining future revenue estimated to be generated from those assets, the excess amount is written off and recorded as an expense for the related period. The amortization method and period are based on historical trends of student enrollment and retention activity and are not subject to significant assumptions. We regularly evaluate the factors used to determine the amounts to be deferred and amortized and the future recoverability of those deferred costs.

Direct marketing costs on the balance sheet totaled \$46,706 at December 31, 2006 and \$39,705 at December 31, 2005, less accumulated amortization of \$25,078 at December 31, 2006 and \$22,215 at December 31, 2005.

Insurance Liabilities. We record insurance liabilities and related expenses for health, workers compensation and other insurance reserves in accordance with the contractual terms of the insurance policies. We record the total liabilities that are estimable and probable as of the reporting date for our insurance liabilities that we self-insure. The accounting for our self-insured arrangements involves estimates and judgments to determine the liability to be recorded for reported claims and unreported claims incurred but not reported. We consider our historical experience in determining the appropriate insurance reserves to record. If our current insurance claim trends were to differ significantly from our historic claim experience, however, we would make a corresponding adjustment to our insurance reserves.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Contingent Liabilities. We are subject to various claims and contingencies in the ordinary course of our business, including those related to litigation, business transactions, employee-related matters and taxes, among others. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we record a liability for the loss. The liability recorded includes probable and estimable legal costs associated with the claim or potential claim. If the loss is not probable or the amount of the loss cannot be reasonably estimated, we disclose the claim if the likelihood of a potential loss is reasonably possible and the amount involved is material.

Treasury Stock. Repurchases of outstanding shares of our common stock are recorded at cost. Treasury stock issued in fulfillment of stock-based compensation awards or other obligations is accounted for under the last in, first out method.

Fair Value and Credit Risk of Financial Instruments. The carrying amounts for cash and cash equivalents, restricted cash, accounts receivable, accounts payable, other accrued liabilities and deferred revenue approximate fair value because of the immediate or short-term maturity of these financial instruments. Investments classified as available-for-sale are recorded at their market value.

The fair market value of our long-term debt is estimated based on current market conditions and rates for debt that have the same characteristics and remaining maturities. As of December 31, 2006, the carrying value and estimated fair market value of our long-term debt was \$150,000.

Financial instruments that potentially subject us to credit risk consist primarily of accounts receivable and interest-bearing investments. The credit risk of our accounts receivable is minimal, due to the small individual amounts owed by a large number of students which make up this balance. Our interest-bearing investments generally consist of high-quality securities issued by various entities and major financial institutions.

Recognition of Revenue. Tuition revenue is recorded on a straight-line basis over the length of the applicable course. If a student withdraws from an institute, the standards of most state education authorities that regulate our institutes, the accrediting commission that accredits our institutes and our own internal policy limit a student's obligation for tuition and fees to the institute depending on when a student withdraws during an academic quarter (Refund Policies). The terms of the Refund Policies vary by state, and the limitations imposed by the Refund Policies are generally based on the portion of the academic quarter that has elapsed at the time the student withdraws. The greater the portion of the academic quarter that has elapsed at the time the student withdraws, the greater the student's obligation is to the institute for the tuition and fees related to that academic quarter. We record revenue net of any refunds that result from any applicable Refund Policy. On an individual student basis, tuition earned in excess of cash received is recorded as accounts receivable, and cash received in excess of tuition earned is recorded as deferred revenue.

Tuition revenue includes textbooks students use in their programs of study. We amortize the costs of textbooks on a straight-line basis over the applicable course length and record the deferral of textbook costs in prepaids and other current assets. Laptop computer sales and the related cost of the laptop computers are recognized when the student receives the laptop computer. Tool kit sales and the related cost of the tool kits are recognized when the kits are distributed to the students. Academic fees (which are charged only one time to students on their first day of class attendance) are recognized as revenue on a straight-line basis over the average program length. Deferred revenue is recorded for fees collected in excess of revenue recognized. If a student withdraws from an institute, all unrecognized revenue relating to his or her fees, net of any refunds that result from any applicable Refund Policy, is recognized upon the student's departure. An administrative fee is charged to a student and recognized as revenue when the student withdraws or graduates from a program of study at an institute.

We report 12 weeks of tuition revenue in each of our four fiscal quarters. We standardized the number of weeks of revenue reported in each fiscal quarter, because the timing of student breaks in a calendar quarter can fluctuate from quarter to quarter each year. The total number of weeks of school during each year is 48.

Advertising Costs. We expense all advertising costs as incurred.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Equity-Based Compensation. Effective January 1, 2006, we adopted SFAS No. 123R, Share-Based Payment, (SFAS No. 123R) which prescribes the accounting for equity instruments exchanged for employee and director services. We followed the SEC's guidance in Staff Accounting Bulletin (SAB) No. 107, Share-Based Payment, when we adopted SFAS No. 123R. Under SFAS No. 123R, stock-based compensation cost is measured at the date of grant, based on the calculated fair value of the grant, and is recognized as an expense over the period of time that the grantee must provide services to us before the stock-based compensation is fully vested. The vesting period is generally the period set forth in the agreement granting the stock-based compensation. Under the terms of our stock-based compensation plans, some grants immediately vest in full when the grantee's employment or service terminates, or when he or she is eligible to retire. As a result, under certain circumstances, the period of time that the grantee must provide services to us in order for that stock-based compensation to fully vest may be less than the vesting period set forth in the agreement granting the stock-based compensation. In these instances, compensation expense will be recognized over this shorter period.

We adopted SFAS No. 123R using the modified prospective transition method. Under this transition method, the financial statement amounts for the periods before 2006 have not been restated to reflect the fair value method of expensing the stock-based compensation. The compensation expense recognized on or after January 1, 2006 includes the compensation cost based on the fair value on the date of grant estimated in accordance with: (a) SFAS No. 123,

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, (SFAS No. 123) for all stock-based compensation that was granted prior to, but vested on or after, January 1, 2006; and (b) SFAS No. 123R for all stock-based compensation that was granted on or after January 1, 2006.

We use an option pricing model to determine the fair value of stock options and we use the market price of our common stock to determine the fair value of restricted stock and restricted stock units. The fair value of the stock options granted prior to January 1, 2005 was determined using the Black-Scholes model. For all stock options granted on or after January 1, 2005, we used a binomial option pricing model which, similar to the Black-Scholes model, takes into account the variables defined below:

Volatility is a statistical measure of the extent to which the stock price is expected to fluctuate during a period and combines our historical stock price volatility and the implied volatility as measured by actively traded stock options.

Expected life is the weighted average period that those stock options are expected to remain outstanding, based on the historical patterns of our stock option exercises, as adjusted to reflect the current position-level demographics of the stock option grantees.

Risk-free interest rate is based on interest rates for terms that are similar to the expected life of the stock options.

Dividend yield is based on our historical and expected future dividend payment practices.

The assumptions supporting these variables were consistent under both option pricing models.

Prior to January 1, 2006, we accounted for stock-based compensation using the intrinsic value method in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, ("APB Opinion No. 25") and related interpretations. Under the intrinsic value method, minimal compensation expense was recognized in our financial statements, because the vast majority of the stock-based compensation that we granted was in the form of nonqualified stock options and all of the stock options granted had exercise prices equivalent to the fair market value of our common stock on the grant date.

If the stock-based compensation expense in the year ended December 31, 2006 had been determined in accordance with APB No. 25, instead of SFAS No. 123R, our:

pretax operating income would have increased \$3,067 in the year ended December 31, 2006;

income tax benefit would have decreased approximately \$1,181 in the year ended December 31, 2006;

net income would have increased \$1,886 in the year ended December 31, 2006;

basic earnings per share would have increased \$0.04 in the year ended December 31, 2006; and

diluted earnings per share would have increased \$0.04 in the year ended December 31, 2006.

Prior to adopting SFAS No. 123R, we provided proforma disclosures under SFAS No. 123. Those disclosures included proforma compensation expense related to the stock-based compensation granted to employees and directors calculated on a straight-line basis over the full vesting period of the grants and reflected forfeitures as they occurred. If we had reflected the stock-based compensation for retirement-eligible grantees over the applicable service period consistent with SFAS No. 123R, the prior period SFAS No. 123 pro forma net income disclosed in the annual report on Form 10-K for that period would have been approximately \$95,300 in the year ended December 31, 2005, instead of the \$92,005 disclosed, and approximately \$70,900 in the year ended December 31, 2004, instead of the \$67,806 disclosed. The total stock-based compensation expense ultimately realized under SFAS No. 123 and SFAS No. 123R would be the same but the timing of when the expense would be reflected differs.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Under SFAS No. 123R, the tax benefit of tax deductions in excess of the compensation expense resulting from the exercise of stock options is presented under cash flows from financing activities in our Consolidated Statements of Cash Flows. Prior to adopting SFAS No. 123R, we presented the tax benefit resulting from the exercise of stock options under cash flows from operating activities in our Consolidated Statements of Cash Flows.

We generally issue shares of our common stock from treasury shares upon the exercise of stock options. As of December 31, 2006, 13,029,471 shares of our common stock were held in treasury. Our Board of Directors has authorized us to repurchase outstanding shares of our common stock, but we are unable to determine at this point how many shares we will repurchase over the next 12 months. See Note 3 for additional disclosures regarding our stock repurchases.

Operating Leases. We lease our non-owned facilities under operating lease agreements. Common provisions within our operating lease agreements include:

renewal options, which can be exercised after the initial lease term;

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

rent escalation clauses;
 tenant improvement allowances; and
 rent holidays.

We record the rent expense associated with each operating lease agreement evenly over the term of the lease in accordance with SFAS No. 13, Accounting for Leases. The difference between the amount of rent expense recorded and the amount of rent actually paid is recorded as accrued rent on our Consolidated Balance Sheets.

Income Taxes. In accordance with SFAS No. 109, Accounting for Income Taxes, we account for income taxes using the asset and liability method, which requires the recognition of deferred tax assets and liabilities for expected future tax consequences of temporary differences that currently exist between the tax bases and financial reporting bases of our assets and liabilities.

Earnings Per Common Share. Earnings per common share for all periods have been calculated in conformity with SFAS No. 128, Earnings Per Share. This data is based on historical net income and the average number of shares of our common stock outstanding during each period as set forth in the following table:

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
Shares:			
Weighted average number of shares of common stock outstanding	42,722	46,138	45,791
Shares assumed issued (less shares assumed purchased for treasury) for stock-based compensation	907	974	1,017
Outstanding shares for diluted earnings per share calculation	43,629	47,112	46,808

A total of 30,000 shares for fiscal year 2006, 1,000 shares for fiscal year 2005 and 613,000 shares for fiscal year 2004 have been excluded from the calculation of our diluted earnings per common share because the effect was anti-dilutive.

New Accounting Pronouncements. In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, (FIN No. 48), which prescribes a single, comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. We estimate that the adoption of FIN No. 48 will increase retained earnings as of January 1, 2007 by up to \$2,000 for income tax benefits not previously recognized.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, (SFAS No. 157), which provides guidance on the use of fair value to measure assets and liabilities and expands the disclosure required in a company's financial statements for fair value measurements. SFAS No. 157 will apply whenever other accounting pronouncements require or permit fair value measurements for assets and liabilities and is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 no later than January 1, 2008 and have not determined the effect that the adoption will have on our consolidated financial statements.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Also in September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106 and 132(R), (SFAS No. 158), which requires that the funded status of a defined benefit postretirement plan be recognized on a company's balance sheet, and that any changes in the funded status of that type of plan be recognized through comprehensive income. Those provisions of SFAS No. 158 are effective for fiscal years ending after December 15, 2006. We recorded an asset of \$8,277 for our qualified pension plan, a liability of \$1,656 for our nonqualified pension plan and \$6,533, net of tax, in accumulated other comprehensive income on our December 31, 2006 Consolidated Balance Sheet. Retrospective application of SFAS No. 158 is not permitted and, therefore, prior year balances and activity related to the pension plans have not been changed. See Note 10 for additional disclosure regarding our pension plans.

SFAS No. 158 also requires a company to measure the funded status of a defined benefit postretirement plan as of the date of the company's year-end balance sheet. This provision of SFAS No. 158 is effective for fiscal years ending after December 15, 2008 and will be adopted by us no later than December 31, 2008. We have not determined the effect that the adoption of this provision of SFAS No. 158 will have on our consolidated financial statements.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, (SFAS No. 159), which permits companies to choose to measure certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 159 no later than January 1, 2008. We have not determined the effect that the adoption of SFAS No. 159 will have on our consolidated financial statements.

2. Equity Compensation Plans

We have adopted the following equity compensation plans, referred to collectively as the Plans :

2006 ITT Educational Services, Inc. Equity Compensation Plan - Awards may be granted to our employees and directors under the 2006 ITT Educational Services, Inc. Equity Compensation Plan (2006 Equity Compensation Plan) in the form of stock options (incentive and nonqualified), stock appreciation rights (SARs), restricted stock, restricted stock units (RSUs), performance shares, performance units and other stock-based awards as defined in the plan. The maximum number of shares of our common stock that may be issued pursuant to awards under this plan is 4,000,000. Each share underlying stock options and SARs granted and not forfeited or terminated, reduces the number of shares available for future awards by one share. The delivery of a share in connection with a full-value award (i.e., an award of restricted stock, RSUs, performance shares, performance units or any other stock-based award with value denominated in shares) reduces the number of shares remaining for other awards by three shares. As of December 31, 2006, restricted stock, RSUs and nonqualified stock options have been awarded under this plan.

1999 Outside Directors Stock Option Plan - A maximum of 500,000 shares of our common stock were available to be issued upon the exercise of nonqualified stock options granted to non-employee directors under the 1999 Outside Directors Stock Option Plan (1999 Directors Stock Plan).

1997 ITT Educational Services, Inc. Incentive Stock Plan - A maximum of 8,100,000 shares of our common stock were available to be issued upon the exercise of stock options and pursuant to other forms of awards under the 1997 ITT Educational Services, Inc. Incentive Stock Plan (1997 Stock Plan), but no more than 20% of the total number of shares on a cumulative basis could have been used for restricted stock or performance share awards. A maximum of 1.5% of our outstanding shares of common stock could have been issued annually, with any unissued shares available to be issued in later years.

ITT Educational Services, Inc. 1994 Stock Option Plan - A maximum of 810,000 shares of our common stock were available to be issued upon the exercise of nonqualified stock options granted under the ITT Educational Services, Inc. 1994 Stock Option Plan (1994 Stock Plan).

No additional awards have been or will be granted after May 9, 2006 under the 1999 Directors Stock Plan or the 1997 Stock Plan. No awards have been granted under the 1994 Stock Plan since the plan expired on December 29, 2004.

We recognized \$3,067 of stock-based compensation and a related income tax benefit of \$1,181 in our net income for the year ended December 31, 2006. We did not capitalize any stock-based compensation cost in the year ended December 31, 2006.

As of December 31, 2006, we estimated that pre-tax compensation expense for unvested stock-based compensation grants in the amount of approximately \$1,828, net of estimated forfeitures, will be recognized in future periods. This expense will be recognized over the remaining service period applicable to the grantees which, on a weighted-average basis, is approximately 2.2 years.

In the years ended December 31, 2005 and 2004, we did not recognize any stock-based compensation expense in our Consolidated Statements of Income in accordance with APB Opinion No. 25. If the compensation expense related to the stock-based compensation for the years ended December 31, 2005 and 2004 had been determined based on the fair value of the stock-based compensation at grant date consistent with SFAS No. 123, our compensation expense would have increased and our net income and earnings per share would have been reduced to the pro forma amounts indicated below:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	Year Ended December 31,	
	2005	2004
Net income as reported	\$109,712	\$75,263
Deduct: Total stock-based compensation expense determined under the fair value based method, net of tax	(17,707)	(7,457)
Pro forma net income	\$92,005	\$67,806
 Earnings per share:		
Basic as reported	\$2.38	\$1.64
Impact of stock-based compensation	(0.39)	(0.16)
Basic pro forma	\$1.99	\$1.48
 Diluted as reported	\$2.33	\$1.61
Impact of stock options	(0.38)	(0.16)
Diluted pro forma	\$1.95	\$1.45

On October 24, 2005, the Compensation Committee of our Board of Directors accelerated the vesting of all unvested, nonqualified stock options granted to our employees and directors that had exercise prices greater than the closing price of our common stock on that date. In addition, certain of our executives were awarded nonqualified stock options during 2005 that were fully vested and immediately exercisable. The purpose for accelerating the vesting and award of those stock options was to reduce our compensation costs associated with those stock options upon our adoption of SFAS No. 123R in 2006.

Stock Options. Under the Plans, the stock option exercise price may not be less than 100% of the fair market value of our common stock on the date of grant. The maximum term of any stock option granted under the 2006 Equity Compensation Plan may not exceed seven years from the date of grant, and those stock options will be exercisable at such times and under conditions as determined by the Compensation Committee of our Board of Directors, subject to the limitations contained in the plan.

Under the 1999 Directors Stock Plan, the stock options granted typically vested and became exercisable on the first anniversary of the grant. The maximum term of any stock option granted under the 1999 Directors Stock Plan was: (a) 10 years from the date of grant for any stock options granted prior to January 25, 2005; and (b) seven years from the date of grant for any stock options granted on or after January 25, 2005.

Under the 1997 Stock Plan, the stock options granted typically vest and become exercisable in three equal annual installments commencing with the first anniversary of the date of grant. The maximum term of any stock option granted under the 1997 Stock Plan was 10 years and 2 days from the date of grant.

The stock options granted, forfeited, exercised and expired during the period indicated are as follows:

	Year Ended December 31, 2006				
	# of	Weighted	Aggregate	Weighted	Aggregate
	Shares	Average	Exercise	Average	Intrinsic
		Exercise	Price	Remaining	Value ⁽¹⁾
		Price	Price	Contractual Term	
Outstanding at beginning of period	3,422,352	\$30.86	\$105,641	6.2 years	
Granted	80,500	60.49	4,869		
Forfeited	(10,000)	44.70	(447)		
Exercised	(922,043)	(24.90)	(22,960)		
Expired	None	None	None		
Outstanding at end of period	2,570,809	\$33.88	\$87,103	5.6 years	\$83,341

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Exercisable at end of period	2,451,632	\$32.84	\$80,500	5.6 years	\$82,043
------------------------------	-----------	---------	----------	-----------	----------

(1) The aggregate intrinsic value of the stock options was calculated by subtracting the weighted average exercise price from the closing market price of our common stock on December 29, 2006, and multiplying the result by the number of options outstanding or exercisable, as applicable.

Information regarding the stock options granted and exercised during the years ended December 31, 2006, 2005 and 2004 is as follows:

F - 14

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	Year Ended		
	December 31,		
	2006	2005	2004
Stock options granted	80,500	894,985	777,500
Weighted average fair value	\$22.31	\$19.06	\$25.96
Stock options exercised	922,043	618,733	563,616
Intrinsic value of stock options exercised	\$37,273	\$22,556	\$16,902
Proceeds received from stock options exercised	\$22,960	\$11,008	\$8,601
Tax benefits realized from stock options exercised	\$14,289	\$8,704	\$6,355

The intrinsic value of a stock option is the difference between the fair market value of the stock and the option exercise price.

The fair value of our stock options was determined at the grant date using the Black-Scholes option pricing model for stock options granted prior to January 1, 2005 and a binomial option pricing model for stock options granted on and after January 1, 2005. We recognize the fair value of stock options as compensation expense over the service period applicable to the grantee using the straight-line method.

The fair value of each stock option grant was estimated on the date of grant using the following assumptions:

	Year Ended December 31,		
	2006	2005	2004
Risk-free interest rates	4.3%	4.0%	3.3%
Expected lives (in years)	4	4	5
Volatility	42%	44%	58%
Dividend yield	None	None	None

Restricted Stock and RSUs. Under the 1997 Stock Plan, restricted shares awarded were subject to a restriction period set by the Compensation Committee of our Board of Directors, during which time the shares may not be sold, transferred, assigned or pledged. For restricted stock awards issued under the 1997 Stock Plan during the year ended December 31, 2006, the restriction period ends on the third anniversary of the date of grant. Under the 2006 Equity Compensation Plan, restricted shares and RSUs awarded are subject to a restriction period of at least: (a) three years in the case of a time-based period of restriction; and (b) one year in the case of a performance-based period of restriction. All restricted shares and RSUs awarded under the 2006 Equity Compensation Plan as of December 31, 2006 have a time-based restriction period that ends on the third anniversary of the date of grant. We determine the fair value of the restricted stock and RSUs granted based on the closing market price of our common stock on the date of grant. We recognize the fair value of the restricted stock and RSUs as compensation expense over the service period applicable to the grantee using the straight-line method.

The following table sets forth the restricted stock and RSUs that were granted, forfeited and vested during the period indicated:

	Year Ended December 31, 2006			
	# of Shares of Restricted Stock		# of RSUs	
	Weighted Average Grant Price	Weighted Average Grant Price	Weighted Average Grant Price	Weighted Average Grant Price
Unvested at beginning of period	--	\$ N/A	--	\$ N/A
Granted	32,487	60.26	88	68.25
Forfeited	(1,980)	(58.30)	--	N/A
Vested	(5,975)	(58.30)	0	N/A

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

Unvested at end of period	24,532	\$60.90	88	\$68.25
---------------------------	--------	---------	----	---------

The total fair market value of the shares vested during the year ended December 31, 2006 was \$348.

3. Stock Repurchases

In October 2002, our Board of Directors authorized us to repurchase 5,000,000 shares of our common stock and, in April 2006, our Board of Directors authorized us to repurchase an additional 5,000,000 shares of our common stock (the Repurchase Program). As of December 31, 2006, 2,681,100 shares were available for repurchase under the Repurchase Program. The terms of the Repurchase Program provide that we may repurchase shares of our common stock, from time to time depending on market conditions and other considerations, in the open market or through

F - 15

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

privately negotiated transactions in accordance with Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the Exchange Act). Unless earlier terminated by our Board of Directors, the Repurchase Program will expire when we repurchase all shares authorized for repurchase thereunder.

In the year ended December 31, 2006, we repurchased 5,606,600 shares of our common stock for \$362,973, or at an average price of \$64.74 per share. In the year ended December 31, 2005, we repurchased 928,600 shares of our common stock for \$55,605, or at an average price of \$59.88 per share.

4. Debt

On December 22, 2006, we entered into a credit agreement with a single lender to borrow up to \$150,000 under a revolving credit facility. The credit facility will be used to allow us to continue repurchasing shares of our common stock while maintaining compliance with certain ratios required by various education authorities that regulate us. The credit agreement matures on October 1, 2009 and the amount of credit available thereunder decreases by \$21,429 each calendar quarter beginning April 1, 2008. We have the option to borrow under the credit agreement on either a secured or unsecured basis which, subject to certain conditions, can be changed by us at any time upon ten days prior written notice to the lender. Certain investments held in a pledged account serve as the collateral for any secured borrowings under the credit agreement.

The availability of borrowings under the credit agreement is subject to our ability at the time of borrowing to satisfy certain specified conditions. These conditions include an absence of default by us, as defined in the credit agreement, and that certain representations and warranties contained in the credit agreement continue to be true and accurate. We are also required to maintain a certain maximum leverage ratio and a minimum ratio of cash and investments to outstanding indebtedness at the end of each of our fiscal quarters. We were in compliance with those ratio requirements as of December 31, 2006.

Borrowings under the credit agreement bear interest at variable rates based on fixed increments over the London Interbank Offered Rate. We pay a commitment fee of 0.15% per annum of the unused amount of the credit facility. As of December 31, 2006, the borrowings under the credit agreement were \$150,000, all of which were unsecured, and bore interest at a rate of 5.73% per annum. No interest was paid on the borrowings during the year ended December 31, 2006.

On January 8, 2007, we converted the \$150,000 of unsecured borrowings to secured borrowings under the credit agreement at an interest rate of 5.47% per annum, at which time approximately \$157,950 of our investments served as collateral for the secured borrowings under the credit agreement.

5. Special Legal and Other Investigation Costs

Consistent with our accounting policy for contingent liabilities, we periodically reassess the probable and estimable legal costs associated with a claim or a potential claim. As of December 31, 2006, we had an accrual of \$148 for estimated costs associated with the U.S. Department of Justice (DOJ) investigation of us, the inquiry initiated by the SEC into the allegations investigated by the DOJ, and the securities class action, shareholder derivative and books and records inspection lawsuits filed against us and certain of our current and former officers and directors (collectively, the Actions). In the year ended December 31, 2006, we were billed \$279 for legal costs associated with the Actions. We recorded a net charge of \$1,219 in the year ended December 31, 2005 for estimated legal costs associated with the Actions, and we were billed \$5,117 for those legal costs during 2005. In accordance with the financial accounting standards for loss contingencies, we have accrued what we believe to be a reasonable estimate of costs that are probable we will incur.

6. Financial Aid Programs

We participate in various federal student financial aid programs under Title IV (Title IV Programs) of the Higher Education Act of 1965, as amended (HEA). Approximately 57% of our 2006 revenue, determined on a cash accounting basis as defined by the ED regulations, was indirectly derived from funds distributed under these programs.

We administer the Title IV Programs in separate accounts as required by government regulation. We are required to administer the funds in accordance with the requirements of the HEA and the ED s regulations and must use due diligence in approving and disbursing funds and servicing loans. In the event we do not comply with federal requirements, or if student loan default rates rise to a level considered excessive by the federal government, we could lose our eligibility to participate in Title IV Programs or could be required to repay funds determined to have been improperly disbursed. Our management believes that we are in substantial compliance with the federal requirements.

7. Investments

The following table sets forth how our investments were classified on our Consolidated Balance Sheets as of the dates indicated:

F - 16

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	As of December 31, 2006			2005		
	Available- For-Sale	Held-to-Maturity	Total	Available- For-Sale	Held-to-Maturity	Total
Short-term investments	\$185,535	\$9,472	\$195,007	\$382,915	\$5,237	\$388,152
Non-current investments	--	--	--	--	9,538	9,538
	\$185,535	\$9,472	\$195,007	\$382,915	\$14,775	\$397,690

The following table sets forth the aggregate fair market value of our available-for-sale investments and aggregate amortized cost of our held-to-maturity investments as of the dates indicated:

	As of December 31,	
	2006	2005
Available-for-Sale Investments:		
Auction rate equity securities	\$ 21,300	\$ 43,300
Auction rate debt securities and variable rate demand notes	164,235	339,615
	\$ 185,535	\$ 382,915
Held-to-Maturity Investments:		
Marketable debt securities	\$ 9,472	\$ 14,775

We had no material gross unrealized holding or realized gains (losses) from our investments in auction rate securities and variable rate demand notes in the years ended December 31, 2006, 2005 and 2004. All income generated from those investments was recorded as interest income.

The components of investment income included in interest income, net in the Consolidated Statements of Income for the periods indicated were as follows:

	Year Ended December 31,		
	2006	2005	2004
Net realized gains on the sale of investments	\$ 63	\$ 109	\$ 19
Interest income	8,288	8,826	4,356
Change in net unrealized holding (loss)	--	--	(29)
	\$8,351	\$8,935	\$4,346

The following table sets forth the contractual maturities of our debt securities classified as available-for-sale and held-to-maturity as of December 31, 2006:

Contractual Maturity	Available-for-Sale	Held-to-Maturity
Due within five years	\$ 3,500	\$ 9,472
Due after five years through ten years	13,235	--
Due after ten years	147,500	--
	\$ 164,235	\$ 9,472

8. Property and Equipment

The following table sets forth our property and equipment, net, as of the dates indicated:

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	As of December 31,	
	2006	2005
Furniture and equipment	\$116,447	\$122,884
Buildings and building improvements	78,281	55,603
Leasehold improvements	8,086	6,731
Software	15,544	15,506
Construction in progress	832	8,532
Land and land improvements	28,719	24,943
	247,909	234,199
Less: Accumulated depreciation	(99,498)	(106,793)
Property and equipment, net	\$148,411	\$127,406

Software includes purchased and internally developed software. Accumulated depreciation includes accumulated amortization of capitalized software of \$7,830 at December 31, 2006 and \$7,088 at December 31, 2005. We recorded

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

software amortization expense of \$3,808 in the year ended December 31, 2006, \$2,147 in the year ended December 31, 2005, and \$2,380 in the year ended December 31, 2004. We recorded depreciation and amortization expense for furniture and equipment, leasehold improvements and buildings and building improvements in the amount of \$17,833 in the year ended December 31, 2006, \$15,672 in the year ended December 31, 2005 and \$15,869 in the year ended December 31, 2004.

9. Income Taxes

The following table sets forth the components of the provision for income taxes for the periods indicated:

	Year Ended December 31,		
	2006	2005	2004
Current income tax expense:			
U.S. federal	\$62,464	\$51,108	\$36,471
State and local	10,606	8,239	6,358
Total	73,070	59,347	42,829
Deferred income tax expense (benefit):			
U.S. federal	(1,546)	4,365	4,413
State and local	(413)	867	877
Total	(1,959)	5,232	5,290
Total provision for income taxes	\$71,111	\$64,579	\$48,119

The following table sets forth the components of our deferred income tax assets (liabilities) as of the dates indicated:

	As of December 31,	
	2006	2005
Direct marketing costs	\$(8,441)	\$(6,860)
Capitalized software	(3,018)	(3,302)
Deferral of book costs	(1,601)	(1,551)
Property and equipment	(3,150)	(4,383)
Pension	(2,564)	(6,950)
Other	(474)	--
Gross deferred tax liabilities	(19,248)	(23,046)
Deferred revenue	1,941	1,708
Minimum pension liability	--	3,883
Legal accrual	980	971
Compensation and benefits	2,945	2,194
Stock-based compensation	883	--
Operating leases	1,997	1,584
Other	1,560	1,533
Gross deferred tax assets	10,306	11,873
Net deferred income tax (liability)	\$(8,942)	\$(11,173)

The difference between the U.S. federal statutory income tax rate and our effective income tax rate as a percentage of income for the periods indicated is reconciled in the following table:

	Year Ended December 31,		
	2006	2005	2004
U.S. federal statutory income tax rate	35.0%	35.0%	35.0%

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

State income taxes, net of federal benefit	3.6%	3.4%	3.9%
Other	(1.1%)	(1.3%)	0.1%
Effective income tax rate	37.5%	37.1%	39.0%

In 2006 and 2005, our tax exempt investment income was greater than in prior years, which had a favorable effect on our effective income tax rate in 2006 and 2005 compared to 2004. We also implemented certain state tax planning strategies during 2005 which resulted in a decrease in our state income tax rate.

10. Employee Benefit Plans

Employee Pension Benefits. Our ESI Pension Plan, a non-contributory defined benefit pension plan, commonly referred to as a cash balance plan, covers substantially all of our employees who began their employment with us prior

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

to June 2, 2003. This plan provides benefits based on an employee's annual earnings times an established percentage of pay determined by the employee's age and years of benefit service. Effective June 2, 2003, we closed participation in the ESI Pension Plan to all new employees. Employees who begin their employment with us on or after June 2, 2003 do not participate in the ESI Pension Plan.

Our ESI Excess Pension Plan, a nonqualified, unfunded retirement plan, covers a select group of our management. This plan provides for payment of those benefits at retirement that cannot be paid from the ESI Pension Plan due to federal statutory limits on the amount of benefits that can be paid and compensation that can be recognized under a tax-qualified retirement plan. The purpose of the ESI Excess Pension Plan is to restore benefits earned, but not available, to eligible employees under the ESI Pension Plan due to federal limitations on the amount of benefits that can be paid and compensation that may be recognized under a tax-qualified retirement plan.

The benefit accruals under the ESI Pension Plan and the ESI Excess Pension Plan for all participants in those plans were frozen effective March 31, 2006, such that no further benefits accrue under those plans after March 31, 2006. Participants in those plans, however, continue to be credited with vesting service and interest according to the terms of the ESI Pension Plan and the ESI Excess Pension Plan.

All information below is based on an actuarial valuation date as of September 30.

Our accumulated benefit obligation was \$54,743 at December 31, 2006 and \$51,801 at December 31, 2005.

The following table sets forth the change in projected benefit obligation for the periods indicated:

	Year Ended December 31,	
	2006	2005
Projected benefit obligation at beginning of year	\$ 59,169	\$ 48,379
Service cost	1,670	6,935
Actuarial loss	689	3,169
Interest cost	3,005	2,848
Benefits paid	(2,372)	(2,162)
Plan amendments	(7,418)	--
Projected benefit obligation at end of year	54,743	59,169
Fair value of plan assets at end of year	61,364	44,789
Funded status at end of year	\$ 6,621	\$ (14,380)

The following table sets forth the change in plan assets for the periods indicated:

	Year Ended December 31,	
	2006	2005
Fair value of plan assets at beginning of year	\$ 44,789	\$ 32,340
Actual return on plan assets	3,947	2,816
Employer contributions	15,000	11,795
Benefits paid	(2,372)	(2,162)
Fair value of plan assets at end of year	\$ 61,364	\$ 44,789

The following table sets forth the fair value of total plan assets by major asset category as of the measurement date used for the periods indicated:

Year Ended December 31,

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	2006		2005	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Cash and cash equivalents	\$ 420	1%	\$ 375	1%
Mutual funds	37,426	61%	28,498	64%
Common stocks	22,382	36%	14,841	33%
Foreign equities	1,136	2%	1,075	2%
Total	\$61,364	100%	\$44,789	100%

The following table sets forth the amounts recognized in our Consolidated Balance Sheets as of the dates indicated:

F - 19

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

	As of December 31,	
	2006	2005
Current assets	\$ --	\$ 4,484
Non-current assets	8,277	--
Current liabilities	--	--
Non-current (liabilities)	(1,656)	(11,665)
Total	\$ 6,621	\$ (7,181)

The following table sets forth the amounts recognized in accumulated other comprehensive income, pre-tax, in our Consolidated Balance Sheets as of the dates indicated:

	As of December 31,	
	2006	2005
Net loss	\$ 10,748	\$ --
Prior service cost	--	--
Additional minimum liability	--	9,899
Total	\$ 10,748	\$ 9,899

The following table sets forth the components of net periodic pension benefit cost for the periods indicated:

	Year Ended December 31,		
	2006	2005	2004
Service cost	\$ 1,670	\$ 6,935	\$ 6,539
Interest cost	3,005	2,848	2,261
Expected return on assets	(4,443)	(3,247)	(2,238)
Recognized net actuarial loss	823	1,425	1,150
Amortization of prior service cost	(22)	(88)	(88)
Net periodic benefit cost	\$ 1,033	\$ 7,873	\$ 7,624
FAS 88 curtailment gain	(684)	--	--
Total benefit cost	\$ 349	\$ 7,873	\$ 7,624

The amount of net loss and prior service cost in accumulated other comprehensive income expected to be recognized as components of net periodic benefit cost during fiscal year 2007 are \$552 and \$0, respectively.

The incremental effect of applying SFAS No. 158 on individual line items in the Consolidated Balance Sheet as of December 31, 2006 is as follows:

	Before Application of SFAS No. 158 (without AML Adjustment)	Adjustment for Additional Minimum Liability (AML)	Before Application of SFAS No. 158 (with AML Adjustment)	SFAS No. 158 Adoption Adjustment	After Application of SFAS No. 158
Prepaid/(Accrued)	\$ 7,470	\$ 9,873	\$ 17,343	\$ (10,722)	\$ 6,621
Intangible asset	--	--	--	--	--
Deferred tax asset	3,883	(3,883)	--	4,215	4,215
AOCI (1) (net of tax)	(6,016)	6,016	--	(6,533)	(6,533)
AOCI (1) (pre-tax)	(9,899)	9,873	(26)	(10,722)	(10,748)

(1) Accumulated other comprehensive income (loss).

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The weighted-average assumptions used to determine benefit obligations as of September 30, 2006 and 2005 are as follows:

	2006	2005
Discount rate	5.75%	5.50%
Rate of compensation increase	4.50%	4.50%

The weighted-average assumptions used to determine net periodic pension cost in the years ended September 30, 2006, 2005 and 2004 are as follows:

	2006	2005	2004
Discount rate	5.50%	5.75%	6.00%
Expected long-term return on plan assets	8.00%	8.00%	8.00%
Rate of compensation increase	4.50%	4.50%	4.50%

F - 20

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The amortization of any prior service cost is determined using a straight-line amortization of the cost over the average remaining service period for employees expected to receive benefits under the pension plans, as permitted under Paragraph 26 of SFAS No. 87, Employers Accounting for Pensions.

The following table sets forth the benefit payments that we expect to pay from the pension plans in the periods indicated:

Year	Amount
Fiscal 2007	\$3,100
Fiscal 2008	\$3,200
Fiscal 2009	\$4,000
Fiscal 2010	\$3,300
Fiscal 2011	\$4,100
Fiscal 2012 - 2016	\$21,100

We invest plan assets based on a total return on investment approach, pursuant to which the plan assets include a diversified blend of equity and fixed income investments toward a goal of maximizing the long-term rate of return without assuming an unreasonable level of investment risk. We determine the level of risk based on an analysis of plan liabilities, the extent to which the value of the plan assets satisfies the plan liabilities and our financial condition. Our investment policy includes target allocations ranging from 30% to 70% for equity investments, 20% to 60% for fixed income investments and 0% to 50% for cash equivalents. The equity portion of the plan assets represents growth and value stocks of small, medium and large companies. We measure and monitor the investment risk of the plan assets both on a quarterly basis and annually when we assess plan liabilities.

We use a building block approach to estimate the long-term rate of return on plan assets. This approach is based on the capital market principle that the greater the volatility, the greater the return over the long term. An analysis of the historical performance of equity and fixed income investments, together with current market factors such as the inflation and interest rates, are used to help us make the assumptions necessary to estimate a long-term rate of return on plan assets. Once this estimate is made, we review the portfolio of plan assets and make adjustments thereto that we believe are necessary to reflect a diversified blend of equity and fixed income investments that is capable of achieving the estimated long-term rate of return without assuming an unreasonable level of investment risk. We also compare the portfolio of plan assets to those of other pension plans to help us assess the suitability and appropriateness of the plan investments.

We determine our discount rate by using the Moody's Aa corporate bond rate as of our actuarial valuation date. The average lives of the bonds used to determine this benchmark rate approximate the periods represented in our pension plan actuarial valuation.

In January 2006, we contributed \$15,000 to the ESI Pension Plan and do not expect to make any contribution to the ESI Pension Plan in 2007.

During 2006, prior to the adoption of SFAS No. 158, we decreased our minimum pension liability by \$9,899 as a result of:

- funding the ESI Pension Plan with a \$15,000 contribution; and
- refinements made to our future expected benefit payment assumptions due to freezing the Pension Plans.

We also recorded a corresponding \$6,016 increase in shareholders' equity, which was net of a \$3,883 deferred tax asset. During 2005, we increased our minimum pension liability by \$798 as a result of:

obtaining an investment return on plan assets that was less than our original estimates;
a decrease in our discount rate; and
refinements made to our future expected benefit payment assumptions.

We also recorded a corresponding \$484 reduction in shareholders' equity, which was net of a \$314 deferred tax asset.

Retirement Savings Plan. Our ESI 401(k) Plan, a defined contribution plan, covers substantially all of our employees. Prior to March 19, 2004, our contributions under the ESI 401(k) Plan were made in cash to a fund that invested in our common stock, which a plan participant could not redirect to other plan investment options until the participant reached age 55. All of our contributions under the ESI 401(k) Plan that we have made on and after March 19, 2004 have been in the form of cash to plan investment options directed by the participant.

Our ESI Excess Savings Plan, a nonqualified, unfunded deferred compensation plan, covers a select group of our management. The plan provides for salary deferral of contributions that the participants are unable to make under the ESI 401(k) Plan and our contributions that cannot be paid under the ESI 401(k) Plan due to federal statutory limits on the amount that an employee can contribute under a defined contribution plan. The practical effect of the ESI Excess Savings Plan is to provide a savings plan to all of our employees on a uniform basis.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

The costs of providing the benefits under the ESI 401(k) Plan and ESI Excess Savings Plan (including certain administrative costs of the plans) were \$3,836 in the year ended December 31, 2006, \$3,761 in the year ended December 31, 2005, and \$3,246 in the year ended December 31, 2004.

11. Commitments and Contingencies

As part of our normal operations, one of our insurers issues surety bonds for us that are required by various education authorities that regulate us. We are obligated to reimburse our insurer for any of those surety bonds that are paid by the insurer. As of December 31, 2006, the total face amount of those surety bonds was approximately \$17,500. In addition, as of December 31, 2006, we provided irrevocable standby letters of credit in the amount of \$1,477 to secure the payment of construction costs associated with a facility that we built in 2006 and the payment of our workers' compensation claims.

Lease Commitments. We lease our non-owned facilities under operating lease agreements. A majority of the operating leases contain renewal options that can be exercised after the initial lease term. Renewal options are generally for periods of one to five years. All operating leases will expire over the next 10 years and we expect that:

those leases will be renewed or replaced by other leases in the normal course of business;

we may purchase the facilities represented by those leases; or

we may purchase or build other replacement facilities.

There are no material restrictions imposed by the lease agreements, and we have not entered into any significant guarantees related to the leases. We are required to make additional payments under the operating lease terms for taxes, insurance and other operating expenses incurred during the operating lease period.

Rent expense under our operating leases was \$27,866 in the year ended December 31, 2006, \$30,038 in the year ended December 31, 2005, and \$26,546 in the year ended December 31, 2004. Future minimum rental payments required under our operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2006 are as follows:

2007	\$ 26,926
2008	26,017
2009	19,633
2010	11,217
2011	7,120
2012 and thereafter	11,145
	\$ 102,058

Future minimum rental payments related to equipment leases are not significant.

Contingent Liabilities. On March 4, 2005, we were served with a qui tam action that was filed on April 8, 2004 in the United States District Court for the Southern District of Indiana by a former employee (relator) on behalf of himself and the federal government under the following

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

caption: *United States of America ex rel. Robert Olson v. ITT Educational Services, Inc. d/b/a ITT Technical Institute* (the Olson Action). We were served with the Olson Action after the DOJ declined to intervene in the litigation. On June 24, 2005, the relator filed an amended complaint in the Olson Action. On January 9, 2006, the court dismissed the Olson Action without prejudice and gave the relator an opportunity to replead his complaint. On March 20, 2006, the relator filed a second amended complaint under seal. On April 18, 2006, the DOJ again declined to intervene in the litigation and the court unsealed the second amended complaint. In the second amended complaint, the relator alleges that we violated the False Claims Act, 31 U.S.C. § 3729, *et seq.*, by knowingly making and using false records and statements relating to, among other things, student recruitment, admission, enrollment, attendance, grading, testing, graduate placement, programs of study and course materials in order to fraudulently obtain student loans and tuition from the federal government. The complaint seeks an unspecified judgment and attorney's fees and costs. We intend to defend ourselves vigorously against the allegations in the complaint.

A qui tam action is a civil lawsuit brought by one or more individuals (a qui tam relator) on behalf of the federal or state government for an alleged submission to the government of a false claim for payment. A qui tam action is always filed under seal and remains under seal until the government decides whether to intervene in the litigation. Whenever a relator files a qui tam action, the government typically initiates an investigation in order to determine whether to intervene in the litigation. If the government intervenes, it has primary control over the litigation. If the government declines to intervene, the relator may pursue the litigation on behalf of the government. If the government or the relator is successful in the litigation, the relator receives a portion of the government's recovery.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form 10-K

We cannot assure you of the ultimate outcome of any litigation involving us. Any litigation alleging violations of education or consumer protection laws and/or regulations, misrepresentation, fraud or deceptive practices may also subject our affected institutes to additional regulatory scrutiny.

F - 23

SCHEDULE II

ITT EDUCATIONAL SERVICES, INC.
VALUATION AND QUALIFYING ACCOUNTS
FOR THE THREE YEARS ENDED DECEMBER 31, 2006
(Amounts in thousands)

Description	Balance at Beginning of Period	Charged to Expenses	Write-offs	Balance at End of Period
Allowance for Doubtful Accounts:				
Year Ended December 31, 2006	\$1,118	\$10,862	\$(9,799)	\$2,181

Operating income	30,229	36,590	51,144	63,560	181,523
Interest income, net	2,507	2,010	1,740	1,847	8,104
Income before provision for income taxes	32,736	38,600	52,884	65,407	189,627
Provision for income taxes	12,262	14,489	19,832	24,528	71,111
Net income	\$20,474	\$24,111	\$33,052	\$40,879	\$118,516
Earnings per share					
Basic	\$0.46	\$0.56	\$0.79	\$0.99	\$2.77
Diluted	\$0.45	\$0.55	\$0.77	\$0.97	\$2.72
2005					
Revenue	\$160,153	\$168,782	\$176,764	\$182,304	\$688,003
Cost of educational services	80,121	81,795	81,407	85,020	328,343
Student services and administrative expenses	49,194	52,165	49,347	42,297	193,003
Special legal and other investigation costs (b)	7,712	--	(6,493)	--	1,219
Operating income	23,126	34,822	52,503	54,987	165,438
Interest income, net	1,714	2,205	2,064	2,870	8,853
Income before provision for income taxes	24,840	37,027	54,567	57,857	174,291
Provision for income taxes	9,812	14,626	20,154	19,987	64,579
Net income	\$15,028	\$22,401	\$34,413	\$37,870	\$109,712
Earnings per share					
Basic	\$0.33	\$0.49	\$0.74	\$0.82	\$2.38
Diluted	\$0.32	\$0.48	\$0.73	\$0.81	\$2.33

- (a) Effective January 1, 2006, we adopted SFAS No. 123R, which requires us to expense the fair value of stock-based compensation awards. Prior to 2006, we accounted for stock-based compensation in accordance with APB Opinion No. 25 and related interpretations. If the stock-based compensation expense in the year ended December 31, 2006 had been determined in accordance with APB Opinion No. 25, instead of SFAS No. 123R, our:

operating income and income before taxes would have increased \$3,067;

income taxes would have increased \$1,181;

net income would have increased \$1,886; and

basic and diluted earnings per share would have increased \$0.04.

- (b) See Notes 1 and 2 of the Notes to Consolidated Financial Statements for a discussion of our stock-based compensation. Accrued estimated legal and other investigation costs associated with the DOJ investigation, the inquiry initiated by the SEC into the allegations investigated by the DOJ, and the securities class action, shareholder derivative and books and records inspection lawsuits filed against us and certain of our current and former executive officers and Directors.
