## Edgar Filing: AVIATION GENERAL INC - Form 10-K/A

Directors are normally paid an annual fee of \$20,000, payable in equal quarterly installments, for services as a director. Such fees are prorated when a director does not serve for a full year. Directors receive no additional compensation for committee participation or attendance at committee meetings, other than reimbursement of travel and lodging expenses. In 2001, Directors were issued common stock in lieu of their compensation, in the amount of 45,152 shares each.

The 1993 Stock Option Plan provides for the automatic annual grant of a stock option to purchase 20,000 shares of Common Stock to each eligible non-employee and employee director of the Company; non-employee directors will automatically receive a non-statutory stock option and employee directors will automatically receive an incentive stock option. The 2001 annual automatic options were granted to each of the four directors on December 18, 2001.

The Compensation Committee recommends the amount and type of compensation to be paid to the Company's executive officers, reviews the performance of the Company's key employees, and administers and determines distributions under the Company's Profit Sharing Plan. The Compensation Committee will also determine the number of shares, if any, to be granted each employee under such plan and the terms of such grants. ### Item 13. Related Party Transactions

On May 9, 2001, the Company borrowed \$200,000 in the form of an unsecured note payable bearing interest at 9% and due on demand from an entity affiliated with the Company's Chairman of the Board of Directors. On August 3, 2001, the Company issued 200,000 shares of common stock having a fair value at the date of issue of \$120,000 in exchange for a \$100,000 reduction in the note payable and interest expense of \$20,000. On October 18, 2001, the affiliate assigned the note payable with an outstanding balance of \$85,000 to a stockholder.

At December 31, 2001, amounts payable for brochures and publications to a company affiliated with the Chairman of the Board of Directors were approximately \$33,000. owned by a former director and major shareholder of the Company, under a line of credit of up to \$5,000,000. At December 31, 2001, the unpaid balance on this credit line was \$1,529,889. The Company has made efforts to collect the amount owed under this line, including repeated requests for payment, attempts to obtain or cancel approximately 800,000 shares of common stock of the Company collateralizing the line and attempts to block ownership transfers of said shares. However, during 2001, the ASSR went out of business and the individual suffered other business reversals. In addition, the individual resigned from the Company's Board of Directors in 2001 and all of his stock options were cancelled. Due to the uncertainties relating to ultimate collectibility, during the fourth quarter of 2001, the Company recorded bad debt expense relating to this line of credit for the outstanding balance of \$1,529,889. In addition, the Company wrote off accrued, unpaid interest of \$115,977. Bad debt expense of \$1,529,889 is recorded in other operating expenses and the write-off of interest of \$115,977 is recorded as an offset to interest income in the 2001 statement of operations. Management intends to continue to attempt to collect on amounts owed and continue to attempt to take possession of the common stock collateralizing the line.
