For Immediate Release

FENTURA FINANCIAL, INC. ANNOUNCES THIRD QUARTER EARNINGS

Fentura Financial, Inc. achieved net income of \$856,000 or \$.45 per diluted share for the three months ended September 30, 2004 compared to net income of \$1,167,000 or \$.62 per diluted share reported for the third quarter of 2003. A \$1,355,000 increase in net-interest income was offset by a \$1,400,000 increase in non-interest expense, both of which were due principally to the addition of West Michigan Community Bank net-interest income and operating expenses. Non-interest income dropped \$110,000 or 6% while the provision for loan losses increased \$261,000 compared to the prior quarter.

Year to date earnings of \$2,498,000 or \$1.32 per diluted share reflect a 13.8% decrease compared to the \$2,898,000 or \$1.53 per diluted share reported for the first nine months of 2003. Operating expenses, acquisition and funding costs associated with the acquisition of West Michigan Financial Corporation and West Michigan Community Bank, and a substantial decline in the gain on sale of residential mortgage loans were the principal reasons behind the year-to-year decline in net-income.

Total assets of \$593,271,000 reflect an increase of \$168,381,000 over the level reported at September 30, 2003. The total includes West Michigan Community Bank assets of \$143,704,000 at September 30, 2004. The State Bank and Davison State Bank experienced positive year-to-year growth trends as combined assets for the two banks increased 5.7%, driven principally by a \$51,925,000 increase in commercial loans and a \$25,069,000 increase in total deposits.

PAGE 2

Fentura is a bank holding company headquartered in Fenton, Michigan. Subsidiary banks include The State Bank headquartered in Fenton with offices serving Fenton, Linden, Holly and Grand Blanc; Davison State Bank with offices servicing Davison and Goodrich and West Michigan Community Bank headquartered in Hudsonville with offices serving Hudsonville, Holland, Jenison and Grandville. Fentura Financial, Inc. shares are traded over the counter under the FETM trading symbol.

**Third Quarter
Report to
Shareholders**

September 30, 2004

Letter to Shareholders

Fentura Financial, Inc. achieved net income of \$856,000 or \$.45 per diluted share for the three months ended September 30, 2004 compared to net income of \$1,167,000 or \$.62 per diluted share reported for the third quarter of 2003. A \$1,355,000 increase in net-interest income was offset by a \$1,400,000 increase in non-interest expense, both of which were due principally to the addition of West Michigan Community Bank net-interest income and operating expenses. Non-interest income dropped \$110,000 or 6% while the provision for loan losses increased \$261,000 compared to the prior quarter.

Year to date earnings of \$2,498,000 or \$1.32 per diluted share reflect a 13.8% decrease compared to the \$2,898,000 or \$1.53 per diluted share reported for the first nine months of 2003. Operating expenses, acquisition and funding costs associated with the acquisition of West Michigan Financial Corporation and West Michigan Community Bank, and a substantial decline in the gain on sale of residential mortgage loans were the principal reasons behind the year-to-year decline in net-income.

Total assets of \$593,271,000 reflect an increase of \$168,381,000 over the level reported at September 30, 2003. The total includes West Michigan Community Bank assets of \$143,704,000 at September 30, 2004. Both The State Bank and Davison State Bank experienced positive year- to-year growth trends as combined assets for the two banks increased 5.7%, driven principally by a \$51,925,000 increase in commercial loans and a \$25,069,000 increase in total deposits.

While the growth and profitability of West Michigan Community Bank have been modest following the acquisition, asset quality problems which have had a negative impact on that bank's performance during recent quarters have substantially been eliminated. A major staff reorganization was completed during the quarter along with a conversion of the core operating systems designed to improve operating efficiency. All three banks have experienced improvement in the net-interest margin during the quarter following increases in the Fed discount rate and prime rate. Coupled with other aggressive asset and liability management strategies, further improvement in the net-interest margin is anticipated as external rates continue to rise.

All three banks are currently completing their annual business plans and budgets for the coming year. The process is aimed at enhancing the net-interest margin, identifying new sources of fee income and improving operating efficiency during the coming year.

As always, I want to thank you for your continued support of Fentura Financial, Inc., Davison State Bank, West Michigan Community Bank and The State Bank.

Donald L. Grill
