REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee
First Cash 401(k) Profit Sharing Plan
Arlington, Texas

We have audited the accompanying statement of net assets available for benefits of the First Cash 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly in all material respects, the net assets available for benefits of the First Cash 401(k) Profit Sharing Plan as of December 31, 2007 and the related statement of changes in its net assets available for benefits for the year ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at December 31, 2007, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. DESCRIPTION OF PLAN

The following brief description of the First Cash 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

Certain amounts in prior year comparative presentations have been reclassified in order to conform to the 2007 presentation.

General

The Plan is a salary deferral plan covering substantially all U.S.-based employees of First Cash Financial Services, Inc. and its wholly-owned subsidiaries (the "Company" or the "Employer") who have completed six months of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee and custodian of the Plan is Fiserv Trust Company.

In a resolution dated June 1, 2007, the Company terminated Frontier Trust Company as the trustee and Bisys as recordkeeper of the Plan and appointed Rogers & Associates as the new recordkeeper and Fiserv Trust Company as the new trustee of the Plan, which became effective October 1, 2007. Additional modifications to the Plan enacted in 2007 included changing the employer match from 50% of the first 3% of the participant's annual compensation contributed to the Plan to 40% of the first 6% of the participant's annual compensation contributed to the Plan, reducing the waiting period to enter the Plan from twelve months to six months, increasing the automatic enrollment deferral rate from 2% to 3% and accelerating the vesting schedule from 20% per year to 25% per year.

Plan Merger

On August 25, 2006, First Cash Financial Services, Inc. acquired Auto Master, the plan sponsor of the Starr Hickman Enterprises 401(k) & Profit Sharing Plan. Effective October 3, 2007, the Starr Hickman Enterprises 401(k) & Profit Sharing Plan was merged into the Plan. Participant account balances in the Starr Hickman Enterprises 401(k) & Profit Sharing Plan totaling \$1,319,397 were transferred into the Plan.

Contributions

Each year, participants may contribute to the Plan an amount up to 100% of their annual compensation. However, each participant's annual contribution shall not exceed the maximum amount allowed for deferral for U.S. federal income taxes, which was \$15,500 for 2007. In addition, participants over age 50 are allowed to contribute an additional \$5,000. The amount of a participant's annual compensation that may be taken into account for purposes of determining the Company's matching contribution for any purpose under the Plan shall not exceed an amount prescribed annually by the IRS. Unless they elect otherwise, employees are automatically enrolled and contribute 3% of their compensation beginning six months after their date of hire. The Company contributes to the Plan a matching amount equal to 40% of the first 6% of the participant's annual compensation that is contributed to the Plan. Participants are eligible to receive Company match contributions after twelve months of service with the Company. The Plan had a Company match true-up provision from January 1, 2007 through September 30, 2007, none for October 1, 2007 through December 31, 2007 and again effective January 1, 2008. In addition, a special discretionary contribution, as determined by the Company, may be contributed, pro rata, based upon each participating employee's compensation to the total compensation of all participating employees. No such contribution was made in 2007 or 2006.

If a participant makes a contribution during any year in an amount which exceeds the maximum amount allowed under IRS rules pertaining to highly compensated employees, the contribution is refunded and the

matching Company contribution on such additional participant contribution may be forfeited by the participant and applied to reduce the employer's matching contribution to the Plan for the following year. Management believes that the Plan is in compliance with the funding requirements of ERISA.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's matching contributions and profit sharing contributions, if applicable. Forfeitures of the non-vested portion of terminated participants' accounts may be applied first to payment of plan administrative expenses and any remaining forfeitures will be used to reduce future Company contributions to the Plan. The various participant allocations are based on a percentage of the participant's elective deferral or compensation in relation to total compensation of participants, as defined in the Plan agreement.

Vesting

Participants are immediately vested in their contributions (including rollovers) plus actual earnings thereon. Vesting in the remainder of their accounts is generally based on years of continuous service with the Company, which is determined as a twelve consecutive month period ending on each anniversary of a participant's date of hire. Participants become 25% vested in employer contributions after two years, and an additional 25% each year thereafter until 100% vested upon five years of credited service. A participant is also 100% vested upon reaching retirement age or if employment is terminated by reason of total and permanent disability or death.

Investment Options

Upon enrollment into the Plan, a participant may direct his or her employee contributions in any increment to the Company's common stock or any of the mutual fund investment options offered by Fiserv Trust Company, the trustee of the Plan. Effective October 1, 2007, participant contributions directed to purchase the Company's common stock are limited to 20% of the participant's total contributions. Participants may change the allocation of their existing funds and future contributions at any time.

Payment of Benefits

Participants whose employment terminates for any reason (except death) are generally entitled to receive the vested portion of their account in the form of a lump sum distribution payable in cash. There were \$45,606 of benefits payable to participants at December 31, 2007 and no benefits payable to participants at December 31, 2006.

Participant Loans

A participant may apply to the plan administrator for a loan under the Plan. All loans made by the trustees shall be subject to the terms and conditions set forth in the Plan Document and Trust Agreement. Participants may borrow up to one-half of their vested account balance or \$50,000, whichever is less. The loans will bear a reasonable rate of interest based upon prevailing commercial rates for loans of similar types. Repayments of the loan balance, plus interest, are made bi-weekly through after-tax payroll deductions, not to exceed five years, unless the loan was obtained to acquire a home, then over a reasonable period of time as determined by the trustee, but not to exceed 15 years. Prior to October 1, 2007, participants were allowed to have up to two loans outstanding at any one time. Effective October 1, 2007, a participant may have only one loan outstanding at any one time. Participant loans are collateralized by their respective participant accounts.

Forfeitures

Participants who terminate employment prior to being fully vested in the Company's matching contributions forfeit the non-vested contributions and related earnings. At December 31, 2007, there was approximately \$87,542 of forfeited non-vested accounts. Forfeitures of Company matching contributions may be used to reduce either plan administrative expenses or future Company contributions to the Plan. In 2007, Company matching contributions were reduced by approximately \$53,114 from forfeited, non-vested accounts. Forfeitures of discretionary Company contributions are reallocated among all remaining participants.

Administrative Fees

The Company has paid, at its discretion, certain of the administrative expenses of the Plan. Administrative expenses paid by the Company in 2007 were approximately \$58,000.

Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 18, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has subsequently been amended, the Administrative Committee believes the Plan is still in compliance with IRS regulations.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements and supplemental schedules are prepared on the accrual basis of accounting.

Valuation of Investments

Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Equity securities are valued at fair value using quoted market prices. Participant loans and investments in money market funds are stated at cost, which approximates fair value. Reinvested income, accrued interest and dividends are reflected as additions to the cost basis of the investments. Investment transactions are recorded on a trade-date basis.

Payment of Benefits

Benefits are recorded when paid. Benefits due to participants who have elected to withdraw from the Plan, but have not been paid, are deducted from net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles, as applied to defined contribution employee benefit plans, requires the Plan's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENTS

- (a) Represents 5% or more of the Plan's net assets.

During 2007, the Plan's investments (including gains and losses on investments, bought and sold, as well as held during the year) depreciated in value by \$2,666,158 as follows:

Money Market Funds	\$ 2,038
Mutual Funds	161,461
Common Collective Trust Funds	(120,868)
First Cash Financial Services, Inc. Common Stock	(2,708,789)
	<hr/>
	\$ (2,666,158)

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

5. PARTIES - IN - INTEREST

First Cash Financial Services, Inc. common stock and loans to participants are considered parties-in-interest to the Plan. The investment in First Cash Financial Services, Inc. common stock was \$3,423,772 and \$7,391,593 at December 31, 2007 and 2006, respectively, and depreciated in value by \$2,708,789 during 2007. The balance of loans to participants was \$743,546 and \$807,094 at December 31, 2007 and 2006, respectively, and interest income was \$55,965 during 2007.

The trustee of the Plan, Fiserv Trust Company, is a party-in-interest as defined by ERISA. The trustee invests certain Plan assets in common collective trust funds and such transactions qualify as party-in-interest transactions permitted by the Department of Labor.

6. CONCENTRATION OF MARKET RISK

At December 31, 2007 and 2006, approximately 33% and 61%, respectively, of the Plan's assets were invested in the common stock of the Company. The underlying value of the Company's common stock is entirely dependent upon the performance of the Company and the market's evaluation of such performance. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the participant's account balances and the amounts reported in the statement of assets available for benefits and the statement of changes in net assets available for benefits. Effective October 1, 2007, participant contributions directed to purchase the Company's common stock are limited to 20% of the participant's total contributions.

7. RECONCILIATION TO FORM 5500

Form 5500 requires that all earnings, expenses, gains or losses and unrealized appreciation or depreciation be included in computing net investment gain or loss on common/collective trusts, registered investment companies (mutual funds) and pooled separate accounts.

Edgar Filing: FIRST CASH FINANCIAL SERVICES INC - Form 11-K

The reconciliation of investment income per the Schedule H of the form 5500 to the financial statements is as follows:

	<u>2007</u>
As reported on 2007 Form 5500-Schedule H:	
Part II, Line 2(b)(1)(G) Total interest	\$ 56,128
