PROXY STATEMENT

---

INTRODUCTION

The Board of Directors of First PacTrust Bancorp, Inc. is using this proxy statement to solicit proxies from the holders of the Company's common stock for use at the upcoming Annual Meeting of Shareholders. The meeting will be held on April 22, 2009 at 9:00 a.m., local time, at the Bonita Golf Club, located at 5540 Sweetwater Road, Bonita, California. At the meeting, shareholders will be asked to vote on two proposals: the election of two directors of the Company, each to serve for a term of three years, and an advisory (non-binding) vote on executive compensation. These proposals are described in more detail below. Shareholders also will consider any other matters that may properly come before the meeting, although the Board of Directors knows of no other business to be presented. Some of the information in this proxy statement relates to Pacific Trust Bank, a wholly owned subsidiary of the Company. Pacific Trust Bank may be referred to from time to time in this proxy statement as the "Bank."

By submitting your proxy, you authorize the Company's Board of Directors to represent you and vote your shares at the meeting in accordance with your instructions. The Board also may vote your shares to adjourn the meeting from time to time and will be authorized to vote your shares at any adjournments or postponements of the meeting.

The Company's Annual Report to Shareholders for the fiscal year ended December 31, 2008, which includes the Company's audited financial statements, is enclosed. Although the Annual Report is being mailed to shareholders with this proxy statement, it does not constitute a part of the proxy solicitation materials and is not incorporated into this proxy statement by reference.

This proxy statement and the accompanying materials are being mailed to shareholders on or about March 23, 2009.

Your vote is important. Whether or not you plan to attend the meeting, please submit your proxy promptly in the enclosed envelope.

INFORMATION ABOUT THE ANNUAL MEETING

What is the purpose of the annual meeting?

At the annual meeting, shareholders will be asked to vote on the following proposals:

Proposal 1. Election of two directors of the Company, each for a term of three years.

Proposal 2. An advisory (non-binding) vote on executive compensation.

The shareholders also will act on any other business that may properly come before the meeting. Members of our management team will be present at the meeting to respond to your questions.

Who is entitled to vote?

The record date for the meeting is March 13, 2009. Only shareholders of record at the close of business on that date are entitled to notice of and to vote at the meeting. The only class of stock entitled to be voted at the meeting is the Company's common stock. Each outstanding share of common stock is entitled to one vote on each matter presented at the meeting. At the close of business on the record date, there were 4,251,765 shares of common stock outstanding.

What if my shares are held in "street name" by a broker?

If your shares are held in "street name" by a broker, your broker is required to vote your shares in accordance with your instructions. If you do not give instructions to your broker, your broker will nevertheless be entitled to vote your shares with respect to "discretionary" items, but will not be permitted to vote your shares with respect to "non-discretionary" items. In the case of non-discretionary items, your shares will be treated as "broker non-votes." Whether an item is discretionary is determined by the exchange rules governing your broker. The two proposals described in this proxy statement are considered discretionary items under the Nasdaq Stock Market rules.

What if my shares are held in the Company's Employee Stock Ownership Plan?

If you are a participant in the Company's Employee Stock Ownership Plan, the plan trustee is required to vote the shares allocated to your account under the plan in accordance with your instructions. If you do not instruct the trustee how to vote your allocated shares, the trustee may vote your allocated shares in its sole discretion. The trustee must vote the unallocated shares in the same proportion as it is instructed to vote the allocated shares. For example, if on a particular proposal the trustee was instructed to vote 60% of the allocated shares "FOR," 35% of the allocated shares "AGAINST" and 5% of the allocated shares "ABSTAIN," the trustee would vote 60% of the unallocated shares "FOR," 35% of the unallocated shares "AGAINST" and 5% of the unallocated shares "ABSTAIN."

How many shares must be present to hold the meeting?

A quorum must be present at the meeting for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of at least one-third of the shares of common stock outstanding on the record date will constitute a quorum. Proxies received but marked as abstentions or broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting.

What if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, the shareholders who are represented may adjourn the meeting until a quorum is present. The time and place of the adjourned meeting will be announced at the time the adjournment is taken. An adjournment will have no effect on the business that may be conducted at the meeting.

How do I vote?

1. You may vote by mail. If you properly complete and sign the accompanying proxy card and return it in the enclosed envelope, it will be voted in accordance with your instructions.
2. You may vote in person at the meeting. If you plan to attend the annual meeting and wish to vote in person, we will give you a ballot at the annual meeting. Note, however, that if your shares are held in the name of your broker, bank or other nominee, you will need to obtain a proxy from the holder of your shares indicating that you were the beneficial owner of those shares on March 13, 2009, the record date for voting at the meeting. You are encouraged to vote by proxy prior to the meeting even if you plan to attend the meeting.

Can I change my vote after I submit my proxy?

Yes, you may revoke your proxy and change your vote at any time before the polls close at the meeting by:

- signing another proxy with a later date;
- giving written notice of the revocation of your proxy to the Company's Secretary prior to the annual meeting; or
- voting in person at the annual meeting. Your proxy will not be automatically revoked by your mere attendance at the meeting; you must actually vote at the meeting to revoke a prior proxy.

How does the Board of Directors recommend I vote on the proposals?

Your Board of Directors recommends that you vote:

- FOR the election of the two director nominees to the Board of Directors.
- FOR approval of the advisory vote on executive compensation.

What if I do not specify how my shares are to be voted?

If you submit an executed proxy but do not indicate any voting instructions, your shares will be voted:

- FOR the election of the two director nominees to the Board of Directors.
- FOR approval of the advisory vote on executive compensation.

Will any other business be conducted at the meeting?

The Board of Directors knows of no other business that will be presented at the meeting. If, however, any other proposal properly comes before the shareholders for a vote at the meeting, the Board of Directors, as holder of your proxy, will vote your shares in accordance with its best judgment.

How many votes are required to elect the director nominees?

The affirmative vote of a plurality of the votes cast at the meeting is required to elect the nominees as directors. This means that the two director nominees will be elected if they receive more affirmative votes than any other persons nominated for election. No persons have been nominated for election other than the two nominees named in this proxy statement. If you vote "Withheld" with respect to the election of one or more nominees, your shares will not be voted with respect to the person or persons indicated, although they will be counted for purposes of determining whether there is a quorum.

How many votes are required to approve the proposal on executive compensation?

The affirmative vote of a majority of the votes cast on the matter is required to approve the proposal. Stockholders may vote "FOR", "AGAINST" or "ABSTAIN" on this matter. Proxies marked to abstain and broker non-votes will not be counted as votes cast on these matters and will have no effect on the matter.

What happens if a nominee is unable to stand for election?

If a nominee is unable to stand for election, the Board of Directors may either reduce the number of directors to be elected or select a substitute nominee. If a substitute nominee is selected, the Board of Directors, as holder of your proxy, will vote your shares for the substitute nominee unless you have withheld authority to vote for the nominee replaced.

How will abstentions be treated?

If you abstain from voting, your shares will still be included for purposes of determining whether a quorum is present. Because directors will be elected by a plurality of the votes cast, abstaining is not offered as a voting option for Proposal 1. Abstaining on Proposal II will not be counted as votes cast and will have no effect on the proposal.

How will broker non-votes be treated?

Shares treated as broker non-votes on one or more proposals will be included for purposes of calculating the presence of a quorum but will not be counted as votes cast. Consequently, broker non-votes will have no effect on Proposal 1. If, as expected, Proposal II is considered a "discretionary item," there will be no broker non-votes on this proposal.

## STOCK OWNERSHIP

### Stock Ownership of Significant Shareholders, Directors and Executive Officers

The following table shows, as of March 13, 2009, the beneficial ownership of the Company's common stock by:

any persons or entities known by management to beneficially own more than five percent of the outstanding shares of Company common stock;

- each director and director nominee of the Company;

each executive officer of the Company and the Bank named in the "Summary Compensation Table" appearing below; and

- all of the executive officers and directors of the Company and the Bank as a group.

- reviewing significant financial information for the purpose of giving added assurance that the information is accurate and timely and that it includes all appropriate financial statement disclosures;
- ensuring the existence of effective accounting and internal control systems, and
  - overseeing the entire audit function of the Company, both internal and independent.

#### Nominating Committee

The Nominating Committee is composed of Directors Scholz, Burke and Whitacre. The committee is primarily responsible for selecting nominees for election to the board. The Nominating Committee generally meets once per year to make nominations. The Nominating Committee will consider nominees recommended by shareholders in accordance with the procedures in the Company's bylaws, but the Nominating Committee has not actively solicited such nominations.

The Nominating Committee has the following responsibilities:

- (i) recommend to the Board the appropriate size of the Board and assist in identifying, interviewing and recruiting candidates for the Board;
- (ii) recommend candidates (including incumbents) for election and appointment to the Board of Directors, subject to the provisions set forth in the Company's certificate of incorporation and bylaws relating to the nomination or appointment of directors, based on the following criteria: business experience, education, integrity and reputation, independence, conflicts of interest, diversity, age,

number of other directorships and commitments (including charitable obligations), tenure on the Board, attendance at Board and committee meetings, stock ownership, specialized knowledge (such as an understanding of banking, accounting, marketing, finance, regulation and public policy) and a commitment to the Company's communities and shared values, as well as overall experience in the context of the needs of the Board as a whole;

(iii) review nominations submitted by shareholders, which have been addressed to the Corporate Secretary, and which comply with the requirements of the Company's articles of incorporation and bylaws. Nominations from shareholders will be considered and evaluated using the same criteria as all other nominations;

(iv) annually recommend to the Board committee assignments and committee chairs on all committees of the Board, and recommend committee members to fill vacancies on committees as necessary, and

(v) perform any other duties or responsibilities expressly delegated to the Committee by the Board.

Nominations, other than those made by the Nominating Committee, must be made pursuant to timely notice in writing to the Corporate Secretary as set forth in Article I, Section 1 of the Company's bylaws. In general, to be timely, a shareholder's notice must be received by the Company not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; however, if less than 100 days' notice of the date of the scheduled annual meeting is given by the Company, the shareholder has until the close of business on the tenth day following the day on which notice of the date of the scheduled annual meeting was made. The shareholder's notice must include the information set forth in Article I, Section 1 of the Company's bylaws, which includes the following:

(i) as to each person whom a shareholder proposes to nominate for election as a director:

• all information relating to the proposed nominee that is required to be disclosed in the solicitation of proxies for election as directors or is otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934.

(ii) as to the shareholder giving the notice:

• name and address of the shareholder as they appear on the Company's books;

• number of shares of the Company's common stock beneficially owned by the shareholder.

The foregoing description is a summary of the Company's nominating process. Any shareholder wishing to propose a director candidate to the Company should review and must comply in full with the procedures set forth in the Company's charter and bylaws, and Maryland law.

During fiscal 2008 the Nominating Committee met one time with respect to selection of director nominees.

## Compensation Committee

The Compensation Committee is currently comprised of Directors Majors, Purdy and Burke, all of whom are independent directors. This committee administers the Company's 2003 Stock Option and Incentive Plan and the 2003 Recognition and Retention Plan and reviews overall compensation policies for the Company. As a result of the Company receiving funds from the United States Department of the Treasury (the "Treasury") in exchange for preferred shares under the TARP Capital Purchase Program ("TARP Program"), the Committee must review the Company's incentive compensation plans to determine if they encourage undue or unnecessary risk and take other actions to ensure we meet the other compensation limits in the TARP Program. Since the Company does not pay any salaries to its officers or employees, all compensation matters, except for stock-based compensation awards, are addressed by Pacific Trust Bank's Board of Directors Compensation Committee. The Company's Compensation Committee met six times during fiscal 2008.

The Compensation Committee of the Bank is comprised of the same directors and is responsible for:

- (i) determining compensation to be paid to its officers and employees, which are based on the recommendation of President Ganz, except that compensation paid to executive officers is determined based on the recommendation of a majority of the independent directors. President Ganz is not present during voting or deliberations concerning his compensation;
- (ii) overseeing the administration of the employee benefit plans covering employees generally, and
- (iii) reviewing the compensation policies.

## Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee are an officer, employee or former officer of the Company or the Bank. None of our executive officers serve as a member of the compensation committee of any other company that has an executive officer serving as a member of our Board of Directors or serve as a member of the board of directors of any other company that has an executive officer serving as a member of our Compensation Committee.

## REPORT OF THE COMPENSATION COMMITTEE

The information contained in this report shall not be deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that First PacTrust Bancorp specifically incorporates it by reference in such filing

In evaluating executive officer pay, the Compensation Committee may retain the services of a compensation consultant or utilize published compensation surveys, and considers recommendations from the chief executive officer with respect to goals and compensation of the other executive officers. The Compensation Committee assesses the information it receives in accordance with its business judgment. The Compensation Committee also periodically reviews director compensation. All decisions with respect to executive and director compensation are approved by the Compensation Committee and recommended to the full board for ratification.

The Compensation Committee is responsible for administering all of our equity-based plans. The Compensation Committee also periodically reviews compensation and equity-based plans and makes its recommendations to the board with respect to these areas.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis (the "CD&A") for the year ended December 31, 2008 with management. In reliance on the reviews and discussions referred to above, the Compensation Committee recommended to the board, and the board has approved, that the CD&A be included in the proxy statement for the year ended December 31, 2008 for filing with the SEC.

By the Compensation Committee of the Board of Directors:

Francis P. Burke, Compensation Committee Member  
Donald M. Purdy, Compensation Committee Member

## COMPENSATION OF EXECUTIVE OFFICERS

### Compensation Discussion and Analysis

Our compensation programs are designed to attract and retain key employees, motivating them to achieve and rewarding them for superior performance. Different programs are geared to short and longer-term performance with the goal of increasing stockholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and helping to create an environment of goals, rewards and expectations. Because we believe that the performance of every employee is important to our success, we are mindful of the effect of executive compensation and incentive programs on all of our employees.

We believe that the compensation of our executives should reflect their success as a management team, rather than individuals, in attaining key operating objectives, such as growth in deposits and customer relationships, growth of operating earnings and earnings per share, and ultimately, in attaining an increased market price for our stock. We believe that the performance of the executives in managing our company should be the basis for determining their overall compensation, taking into consideration pertinent economic conditions, interest rate trends, and the competitive market environment. We also believe that their compensation should not be based on the short-term performance of our stock, whether favorable or unfavorable, but rather that the price of our stock will, in the long-term, reflect our operating performance, and ultimately, the management of the company by our executives. We seek to have the long-term performance of our stock reflected in executive compensation through our stock option and other equity incentive programs.

### Overview

Elements of compensation for our executives include: salary, employee bonus incentive plan, employee stock ownership plan, stock option and stock incentive awards, health, disability and life insurance, and perquisites. Base salaries are set for our executive officers annually at a meeting of our Compensation Committee. At these meetings, our Compensation Committee also approves and adopts the employee bonus incentive plan for the new fiscal year, in which executives participate along with all other employees of the Company, and may grant stock option or stock awards to our executive officers and certain other eligible employees in accordance with the 2003 Stock Option and Incentive Plan and the 2003 Recognition and Retention Plan.

In the past, it has been the practice of our Compensation Committee to periodically review the component elements of each executive officer's total compensation, and to compare the compensation of the executive officers with that of executive officers with similar responsibilities in an appropriate market comparison group. Typically, the chief executive officer makes compensation recommendations to the Compensation Committee with respect to the executive officers who report to him. Such executive officers are not present at the time of these deliberations. The Committee chairman then makes compensation recommendations to the Compensation Committee with respect to the chief executive officer, who is absent from that meeting. The Compensation Committee may accept or adjust such recommendations.

In 2008, the Compensation Committee retained Amalfi Consulting to conduct a competitive compensation study on executive and director compensation. Amalfi provided the Compensation Committee with a peer group analysis and industry best practices report with recommendations regarding compensation. In determining executive officer annual base

compensation and compensation under the 2009 Incentive Bonus Plan, as well as changes to director compensation, the Compensation Committee considered the analysis of Amalfi, as well as recommendations of the Chief Executive Officer regarding compensation for the senior executive officers.

The Compensation Committee also takes into account the following factors:

- performance against corporate and individual objectives for the previous year, and relative to pertinent economic, interest rate and competitive environment factors;
- difficulty of achieving desired results in the coming year;
- value of their unique skills and capabilities to support long-term performance of the company;
- performance of their general management responsibilities; and
- contribution as a member of the executive management team.

These elements fit into our overall compensation objectives by helping to secure the future potential of our operations, facilitating our entry into new markets, providing proper compliance and regulatory guidance, and helping to create a cohesive team.

Our policy for allocating between long-term and currently paid compensation is to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize long-term value for our company and our stockholders. Likewise, we provide cash compensation in the form of base salary to meet competitive salary norms and reward good performance on an annual basis in the form of merit salary adjustments and bonus compensation to reward superior performance against specific short-term goals. We provide non-cash compensation to reward superior performance against specific objectives and long-term strategic goals. We believe our compensation package, including benefits and equity-related awards, is competitive within the marketplace and appropriate to fulfill our stated policies.

The following items of corporate performance are taken into account in setting compensation policies:

- corporate earnings per our financial plan;
- customer satisfaction; and
- achievement of our strategic objectives.

In 2008, we participated in the TARP Capital Purchase Program (referred to in the section as the "TARP Program") through which the U.S. Treasury Department invested approximately \$19.3 million in our preferred stock and warrants in late November 2008. The TARP Program mandates that we implement certain restrictions and limitations on executive compensation, in particular, it requires a review to ensure our incentive compensation programs do not encourage our senior executive officers to take excessive risks and limits our tax deductions for senior executive pay. Our participation in TARP was a catalyst for several actions:

- Our executive officers entered into agreements and executed waivers consenting to the restrictions and limitations required by the TARP Program rules;
- The Committee conducted a review of our incentive programs from a risk perspective and concluded they do not encourage unnecessary or excessive risk; and
- The tax deductibility of a portion of the compensation earned by certain of our named executive officers was limited.

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (the "ARRA"). The ARRA amends, among other things, the TARP Program legislation by directing the U.S. Treasury Department to issue regulations implementing strict limitations on compensation paid or accrued by financial institutions, like us, participating in the TARP Program. These limitations are to include:

- A prohibition on paying or accruing bonus, incentive or retention compensation for the most highly compensated employee, other than certain awards of long-term restricted stock or bonuses payable under existing employment agreements;
- A prohibition on making any payments to the five highest paid executive officers and the next five most highly compensated employees for departure from the Company other than compensation earned for services rendered or accrued benefits;
- Subjecting bonus, incentive and retention payments made to the five highest paid executive officers and the next 20 most highly compensated employees to repayment (clawback) if based on statements of earnings, revenues, gains or other criteria that are later found to be materially inaccurate;
  - A prohibition on any compensation plan that would encourage manipulation of reported earnings;
- Establishment by the Board of Directors of a company-wide policy regarding excessive or luxury expenditures including office and facility renovations, aviation or other transportation services and other activities or events that are not reasonable expenditures for staff development, reasonable performance incentives or similar measures in the ordinary course of business;
- Submitting a "say-on-pay" proposal to a non-binding vote of shareholders at future annual meetings, whereby shareholders vote to approve the compensation of executives as disclosed pursuant to the executive compensation disclosures included in the proxy statement. Such a proposal will be presented at the Meeting, as described in this Proxy Statement under "Proposal II: Advisory (Non-Binding) Vote on Executive Compensation; and
- A review by the U.S. Department of Treasury of any bonus, retention awards or other compensation paid to the five highest paid executive officers and the next 20 most highly compensated employees prior to February 17, 2009 to determine if

such payments were excessive and negotiate for the reimbursement of such excess payments.

As noted, the ARRA directs the U.S. Treasury Department to issue regulations implementing the foregoing. There are numerous questions regarding the scope of the limitations and the requirements of the ARRA. None of the regulations mandated by the law have been issued to date. Pending the issuance of regulations, the Board, Committee and management are reviewing the requirements of the ARRA, its impact on current and going forward compensation, and the effect of the law's requirements on the Company's competitive position. Actions required by the ARRA and consideration of competitive factors may include changes to the form and amount of compensation paid to our executive officers, including adjustments to base salaries, the reduction or elimination of bonus compensation, issuance of long-term restricted stock awards and modifications to existing agreements.

Except as expressly mentioned otherwise, this discussion does not address the effect, if any, compliance with the ARRA may have on our executive compensation program and references to the TARP Program refer to its requirements as applicable prior to the ARRA.

## COMPONENTS OF EXECUTIVE COMPENSATION

**Base Salary.** It is the goal of our Compensation Committee to establish salary compensation for our executive officers based on our company's operating performance relative to comparable peer companies. In setting base salaries for 2009, we reviewed the President and CEO's recommendations with respect to the salary compensation of other executive officers and discussed the relative qualifications, experience and responsibilities of the officers. In reviewing this peer information, along with the recommendations of Amalfi Consulting, discussed earlier, we considered the salary information for CEOs of financial institutions which were similar in asset size to First PacTrust but were not necessarily located within California. It is our policy to pay our chief executive officer and other executive officers on a total compensation basis relative to the other members of our senior management team. We believe that this gives us the opportunity to attract and retain talented managerial employees both at the senior executive level and below.

**2009 Employee Incentive Plan.** At the beginning of fiscal 2009, our Compensation Committee adopted the 2009 employee incentive bonus plan. The Committee took into consideration the TARP Program restrictions regarding incentive plans that would inappropriately reward excessive risk-taking. Under the terms of the revised plan, the Committee has full discretion to recognize and award to any one or more Bank employees some or all of an Employee Incentive Plan bonus fund pool. The bonus fund pool has a minimum of \$150,000, up to a maximum of 10% of after-tax net income for the year ending December 31, 2009. Before granting bonuses, the Compensation Committee will consider and apply any relevant TARP restrictions or limitations. Many factors determine year to year performance. These include competitive market factors and decisions that may sometimes negatively impact net income in the short run but significantly strengthen our performance in the long run. These also include factors beyond our control, such as interest rate levels and economic conditions in our market areas. Recognition and reward cannot be an "all or nothing" proposition, however.

**401(k) Employee Stock Ownership Plan ("KSOP").** We offer a qualified, tax exempt savings plan to our employees with a cash or deferred feature qualifying under Section 401(k) of the Code (the "401(k) Plan") as part of our KSOP. All employees who have attained age 18 are eligible to make 401(k) contributions. Eligible employees are also eligible to be allocated matching and profit sharing contributions, if any, after they have attained age 18 and completed 12 months of continuous employment, during which they worked at least 1,000 hours.

During 2008, participants were permitted to make salary reduction contributions to the 401(k) Plan of up to 100% of their annual salary, up to a maximum of \$15,000. In addition, participants who have attained age 50 may defer an additional \$5,000 annually as a 401(k) "catch-up" contribution. All employees who participate in the 401(k) Plan received 100% matching funds for the first 4% of salary contributed by the employee during 2008. All 401(k) deferrals made by participants are before-tax contributions. In the event of retirement at age 65 or older, permanent disability or death, however, a participant will automatically become 100% vested in the value of all matching and profit sharing contributions and earnings thereon, regardless of the number of years of service with Pacific Trust Bank.

Participants may invest amounts contributed by them, as well as employer matching and profit sharing contributions (to the extent they are fully vested), to their 401(k) Plan accounts in one or more investment options available under the 401(k) Plan. Changes in investment directions among the funds are permitted on a periodic basis pursuant to procedures established

by the plan administrator. Each participant receives a quarterly statement which provides information regarding, among other things, the market value of his investments and contributions made to the 401(k) Plan on his behalf. Participants are permitted to borrow against their account balance in the 401(k) Plan.

Pacific Trust Bank also maintains an employee stock ownership plan for employees of First PacTrust and Pacific Trust Bank, as part of the KSOP. (The following description pertains only to the employee stock ownership portion of the KSOP.)

As part of our reorganization from the stock form and initial public offering, the employee stock ownership plan borrowed funds from First PacTrust and used these funds to purchase shares of common stock of First PacTrust. The loan equaled 100% of the aggregate purchase price of the common stock acquired by the employee stock ownership plan. The loan to the employee stock ownership plan will be repaid primarily from First PacTrust's contributions to the employee stock ownership plan over a period of ten years, and from dividends on common stock held by the employee stock ownership plan. First PacTrust may, in any plan year, make additional discretionary contributions for the benefit of plan participants.

Shares purchased by the employee stock ownership plan with the proceeds of the loan are held in a suspense account and released to participants' accounts as debt service payments are made. Shares released from the employee stock ownership plan are allocated to each eligible participant's employee stock ownership plan account based on the ratio of each such participant's eligible compensation to the total eligible compensation of all eligible employee stock ownership plan participants. An employee is eligible for an employee stock ownership allocation if he is credited with 1,000 or more hours of service during the plan year, and either is actually employed on the last day of the plan year or has attained age 65. The account balances of participants with the employee stock ownership plan vest on the five year anniversary of service with the Company. Credit for eligibility and vesting have been given for years of service with Pacific Trust Bank, prior to adoption of the employee stock ownership plan. In the case of a "change in control," as defined in the employee stock ownership plan, which triggers a termination of the employee stock ownership plan, participants immediately will become fully vested in their account balances. Benefits are payable upon retirement or other separation from service, or upon termination of the plan.

#### 2003 Recognition and Retention Plan and 2003 Stock Option and Incentive Plan

In April 2003, stockholders of First PacTrust approved the 2003 Stock Option and Incentive Plan and the 2003 Recognition and Retention Plan. These plans became effective on April 24, 2003. The Compensation Committee administers these two long-term incentive stock plans, determines employee eligibility and grants share awards.

**2003 Recognition and Retention Plan.** The 2003 Recognition and Retention Plan is a stock-based compensation plan designed to reward directors, advisory directors, officers and employees for service with a proprietary interest in the Company in a manner designed to encourage such individuals to remain with the Company. The Company reserved 211,600 shares for stock awards under this plan. Awards are discretionary and are based on an assessment of the participant's position, years of service, and contribution to the success and growth of the Company. Stock awards under the plan generally have vested in equal installments over five years from the date of grant. Prior to the vesting of the shares, the recipient has voting and dividend rights, but no transfer rights over the shares. Eleven RRP awards totaling 5,800 shares

to non-executive officer employees were granted during 2008, and 3,200 shares remain available for award under this plan. See "Potential Termination and Change in Control Payments" for benefits under the plan upon termination without cause or a change in control.

**2003 Stock Option and Incentive Plan.** The purpose of the 2003 Stock Option and Incentive Plan is to promote the long-term success of the Company and increase stockholder value by attracting and retaining key employees and directors and encouraging directors and key employees to focus on long-range objectives. The Company reserved 529,900 shares for option awards under this plan, plus additional shares repurchased with the proceeds of exercised options or surrendered to pay an option exercise price. Option awards are discretionary and are based on an assessment of the participant's position, years of service, and contribution to the success and growth of the Company. The plan provides for the award of incentive stock options to qualifying employees under the federal tax laws. Stock awards under the plan generally have vested in equal installments over five years from the date of grant and must be exercised within 10 to 15 years. The exercise price of options awarded always has been the fair market value of a share of the Company's common stock on the date of grant. Six stock option awards to five executive officers and one key employee non-executive officer employee totaling 13,000 shares were granted during 2008, and 15,700 shares remain available for award under this plan. See "Potential Termination and Change in Control Payments" for benefits under the plan upon termination without cause or a change in control.

**Perquisites.** We limit the perquisites that we make available to our executive officers, particularly in light of recent developments with respect to corporate crime and abuse involving perquisites. Our executives are entitled to few benefits that are not otherwise available to all of our employees. In this regard it should be noted that we do not provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees other than as described in the severance agreements.

The perquisites we provided in fiscal 2008 are as follows. All employees who participated in the 401(k) portion of the 401(k) Plan received 100% matching funds for up to the first 4% of salary contributed by the employee to the plan. Participation in the plan is voluntary. All of our named executive officers participated in our 401(k) Plan and received matching funds. Our health and insurance plans are the same for all employees. The Company currently offers employees their choice of three different health plans. In general, our employees pay 25% of the health premium due, except for the least costly plan which is paid in full by the Company.

## Other Tax Considerations and Accounting Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1 million paid to our chief executive officer and next four most highly compensated employees. Qualifying performance-based compensation will not be subject to the deduction limitation if certain requirements are met. The Compensation Committee reviews and considers the potential consequences of Section 162(m) to the Company. The Company reserves the right to use our judgment to authorize compensation to any employee that does not comply with the Section 162(m) exemptions for compensation we believe is appropriate.

As a result of our participation in the TARP Program, we also are subject to a new subsection (5) of Section 162(m), which limits the deductibility of all compensation, including performance based compensation, to \$500,000 for our each of five senior executive officers with respect to any taxable year during which the Treasury owns our preferred stock. The compensation included under this limit includes forms of compensation not included in general \$1 million limit, including deferred compensation. This \$500,000 limitation is being applied in 2008 only for the short portion of time that we were TARP recipients during the year.

Section 280G of the Internal Revenue Code provides that severance payments triggered by a change in control, which equal or exceed three times the individual's base amount are deemed to be "excess parachute payments." Individuals receiving parachute payments in excess of three times their base amount are subject to a 20% excise tax on the amount of the excess payments. If excess parachute payments are made, the Company and the Bank would not be entitled to deduct the amount of the excess payments. Each employment agreement provides that severance and other payments that are subject to a change in control will be reduced as much as necessary to ensure that no amounts payable to the executive will be considered excess parachute payments.

As a result of our participation in the TARP Program, we also are subject to a new provision of Section 280G, which extends this limitation to severance payments for other forms of severance due to an involuntary termination or bankruptcy. As noted above, the ARRA requires that UST issue standards that prohibit golden parachutes for any involuntary termination.

#### Post-Employment Compensation

**Pension Benefits.** We do not provide pension arrangements or post-retirement health coverage for our executives or employees. Our executive officers, along with all other eligible employees, may participate in our 401(k) contributory defined contribution plan. In any plan year, we will contribute to each participant a matching contribution equal to 100% of the first 4% of the participant's compensation that has been contributed to the plan. All our named executive officers participated in our 401(k) plan during fiscal 2008 and received matching contributions.

**Nonqualified Deferred Compensation.** We do not currently provide any nonqualified defined contribution or other deferred compensation plans. However, prior to the Company's initial public offering, its predecessor, Pacific Trust Bank, provided a deferred compensation plan to its executive officers. While no additional contributions to this plan are made or contemplated, the executive officers have a balance payable under the plan, and such balances earn interest at the major bank Prime rate, until distribution upon termination or retirement of the executive officer.

#### PREDECESSOR DEFERRED COMPENSATION PLAN AT DECEMBER 31, 2008

Name	Interest Earned During 2008	Balance at 12/31/2008
Hans R. Ganz, CEO	\$3,044	\$55,810
James P. Sheehy, EVP - Secretary & Treasurer	\$1,217	\$22,323
Melanie M. Yaptangco, EVP - Lending	\$1,217	\$22,323

#### Potential Termination and Change-in-Control Payments

All of our employees, including our executive officers, are employees-at-will and as such do not have employment contracts with us. We also do not provide post-employment health coverage or other benefits, except in connection with the severance agreements, details of which are included below under "Severance Agreements with Named Executive Officers."

**Severance Agreements with Named Executive Officers.** The Bank maintains three-year change in control severance agreements with Messrs. Ganz and Sheehy and Ms. Yaptangco. The agreements provide for a severance payment and other benefits in the event of a change in control of First PacTrust Bancorp or Pacific Trust Bank that occurs during the term of the agreement.

The value of the severance benefits under the termination agreements is 2.99 times the executive's average annual W-2 compensation during the five calendar year period prior to the effective date of the change in control (base amount) for Mr. Ganz, 2.00 times for Mr. Sheehy and Ms. Yaptangco. The agreements also provide for continuing health insurance benefits for the

remaining term of the agreement following the date of termination of the employee. Section 280G of the Internal Revenue Code provides that severance payments that equal or exceed three times the individual's base amount are deemed to be "excess parachute payments" if they are conditioned upon a change in control. Individuals receiving parachute payments in excess of three times their base amount are subject to a 20% excise tax on the amount of the excess payments. If excess parachute payments are made, First PacTrust Bancorp and Pacific Trust would not be entitled to deduct the amount of the excess payment. The termination agreements provide that severance and other payments that are subject to a change in control will be reduced as much as necessary to ensure that no amounts payable to the executive will be considered excess parachute payments.

Had a change in control occurred during fiscal 2008 and had their employment been terminated on December 31, 2008, the named executive officers would have been eligible to receive the payments set forth in the columns under the heading "Within 12 Months of a Change in Control" in the table below. Assuming the same change in control date set forth in the preceding sentence and had their employment been terminated after 12 months but within 36 months of such change in control, the named executive officers would have been eligible to receive the payments set forth in the columns under the heading "Following 12 Months and Within 36 Months of a Change in Control" in the table below.

**2003 Recognition and Retention Plan.** Under the 2003 Recognition and Retention Plan, restricted stock awards that have not yet vested become immediately fully vested and no longer restricted at the time of a change in control or a tender or exchange offer for the Company's shares. There are no special benefits for a termination of the executive, and a termination of service results in a loss of unvested shares.

**2003 Stock Option and Incentive Plan.** Under the 2003 Stock Option and Incentive Plan, options that are not exercisable become immediately exercisable at the time of a change in control or a tender or exchange offer for the Company's shares. Upon any termination of service, exercised options remain exercisable for a one-year period and all unvested options are lost.

The following table summarizes these additional or accelerated payments, benefits or vesting for the named executive officer upon a termination by the Bank or the Company in connection with a change in control of the Company or the Bank, which is assumed to have occurred on December 31, 2008.

DIRECTOR COMPENSATION

Overview of Director Compensation and Procedures

We review the level of compensation of our non-employee directors on an annual basis. To determine how appropriate the current level of compensation for our non-employee directors is, we have historically obtained data from a number of different sources including:

- publicly available data describing director compensation in peer companies;
- survey data collected by our Company's executive officers; and

- information obtained directly from other companies.

We compensate non-employee members of the board through a mixture of cash and equity-based compensation. Members of Pacific Trust Bank's board of directors who are considered independent directors will receive an annual retainer fee of \$5,000, and a fee of \$2,000 for each Bank board meeting attended. In addition, the Chairman of the Board receives an additional \$1,000 per Bank board meeting attended. Directors attending the Company's or the Bank's annual off-site planning session will also receive \$2,000 in addition to any board or committee fees paid. Attendance by telephone is compensated at two-thirds the rate for directors attending in person. Directors are not paid a fee for service on the Company's board. Fees are also paid to directors for attendance of committee meetings as follows:

## Committee Compensation

	Per Meeting Fee	Annual Fee	Chairman's Fee
Executive Committee	\$1,000		50% - \$500/meeting
Audit Committee	600		50% - \$300/meeting
Compensation Committee	600		50% - \$300/meeting
Nominating Committee	500		N/A
Loan Committee	none	\$2,000	50% - \$1,000/year
Technology Committee	none	1,200	50% - \$ 600/year
Facilities Committee	none	2,000	50% - \$1,000/year

Directors are eligible to be granted awards under the Company's 2003 Stock Option and Incentive Plan and the 2003 recognition and Retention Plan. All directors have previously received the maximum awards permitted to them under the terms of both of the plans.

Directors who are also our employees do not receive cash or equity compensation for service on the board in addition to compensation payable for their service as employees of the Bank.

Business Relationships and Transactions With Executive Officers,  
Directors And Related Persons

The Company and the Bank may engage in a transaction or series of transactions with our directors, executive officers and certain persons related to them. Except for loans by the Bank, which are governed by a separate policy, these transactions that qualify as "related party" transactions under applicable regulations of the Securities and Exchange Commission are subject to the review and approval of the Audit Committee and ratification by the Board of Directors. All other transactions with executive officers, directors and related persons are approved by the Board of Directors. During 2008, there were no related party transactions between First PacTrust and any of its directors, executive officers and/or their related interests, other than loans to insiders described below.

The Bank has a written policy of granting loans to officers and directors, which fully complies with all applicable federal regulations. Loans to directors and executive officers are made in the ordinary course of business and on substantially the same terms and conditions, including interest rates and collateral, as those of comparable transactions with non-insiders prevailing at the time, in accordance with the Bank's underwriting guidelines, and do not involve more than the normal risk of collectibility or present other unfavorable features. These loans to directors and executive officers are not made at preferential rates, however, certain Bank closing fees are waived. No director, executive officer or any of their affiliates had aggregate indebtedness to the Bank at below market interest rate loans exceeding \$120,000 in the aggregate since December 31, 2008. Loans to all directors and executive officers and their associates totaled approximately \$497,000 at December 31, 2008, which was approximately 0.5% of the Company's consolidated stockholders' equity at that date. All loans to directors and executive officers were performing in accordance with their terms at December 31, 2008.

#### REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee of the Board of Directors shall not be deemed to be soliciting material or to be incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent First PacTrust Bancorp specifically incorporates this Report therein, and shall not otherwise be deemed filed under such Acts.

**Membership and Role of the Audit Committee.** The Audit Committee of First PacTrust Bancorp, Inc. is comprised of the undersigned directors, each of whom is independent as defined under the National Association of Securities Dealers' listing standards. The Audit Committee's responsibilities are described in a written charter adopted by the Board of Directors.

Management is responsible for the Company's internal controls, financial reporting process and compliance with applicable laws and regulations. The independent accountants are responsible for performing an independent audit of the Company's consolidated financial statement in accordance with generally accepted auditing standards and issuing a report thereon. As the members of the Audit Committee, it is our responsibility to monitor and oversee these processes.

As required by our charter, we received and reviewed the report of Crowe Horwath LLP regarding the results of their audit, as well as the written disclosures and the letter from Crowe

Horwath LLP required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees). We also reviewed and discussed the audited financial statements with Company management. A representative of Crowe Horwath LLP also discussed with the Audit Committee the independence of Crowe Horwath LLP from the Company, as well as the matters required to be discussed by Statement of Auditing Standards No. 61 (Communication with Audit Committees).

In fulfilling our oversight responsibility of reviewing the services performed by the Company's registered public accounting firm, we carefully reviewed the policies and procedures for the engagement of the registered public accounting firm. We also discussed with the Company's internal auditors and registered public accounting firm the overall scope and plans for their respective audits. We met with the internal auditors and registered public accounting firm, both with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. We pre-approve all audit and permissible non-audit services provided by our registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Prior to engaging our registered public accounting firm to render an audit or permissible non-audit service, we specifically approve the engagement of our registered public accounting firm to render that service. Accordingly, the Company does not engage our registered public accounting firm to render audit or permissible non-audit services pursuant to pre-approval policies or procedures or otherwise, unless the engagement to provide such services has been approved by the Audit Committee in advance. As such, the engagement of Crowe Horwath LLP to render 100 percent of the services described in the categories above was approved by the Audit Committee in advance of the rendering of those services. We also reviewed and discussed with the registered public accounting firm the fees paid to the registered public accounting firm; these fees are described under "Registered Public Accounting Firm" below.

The Company's Chief Executive Officer and Principal Financial Officer also reviewed with the Audit Committee the certifications that each officer will file with the SEC pursuant to the requirements of Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. Management also reviewed with the Audit Committee the policies and procedures it has adopted to ensure the accuracy of such certifications.

Based on the review and discussions referred to above, we recommended to the Board of Directors that the audited financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for filing with the Securities and Exchange Commission.

The foregoing report is furnished by the Audit Committee:

The proposal will be presented at the Meeting in the form of the following resolution:

RESOLVED, that the stockholders approve the compensation of the Company's executives, as disclosed in the Compensation Discussion and Analysis, the compensation tables and related material in the Company's Proxy Statement for the Annual Meeting.

As provided under the ARRA, this vote will not be binding on the Company's Board of Directors and may not be construed as overruling a decision by the Board or create or imply any additional fiduciary duty on the Board. Nor will it affect any compensation paid or awarded to any executive. The Compensation Committee and the Board may, however, take into account the outcome of the vote when considering future executive compensation arrangements.

The purpose of our compensation policies and procedures is to attract and retain experienced, highly qualified executives critical to our long-term success and enhancement of

stockholder value. Our Board of Directors believes that our compensation policies and procedures achieve this objective, and therefore recommends that stockholders vote FOR this proposal.
