EXHIBITS:	
23.1 Consent of Independent Registered Public Accounting Firm	
All other schedules required by Section 2520.103-10 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, have been omitted because they are not applicable.	

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Participants of the
McKesson Corporation Profit-Sharing Investment Plan:

We have audited the accompanying statements of net assets available for benefits of McKesson Corporation Profit-Sharing Investment Plan (the "Plan") as of March 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2016 and 2015, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule of assets (held at end of year) as of March 31, 2016 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES

1. Plan Description

The following description of the McKesson Corporation Profit-Sharing Investment Plan (the “PSIP” or the “Plan”) is provided for general informational purposes only. Participants should refer to the plan document for more complete information. The PSIP is a defined contribution plan covering all persons who have completed two months of service and are regular or part-time employees or are casual or temporary employees who have completed a year of service in which they worked at least 1,000 hours in a year at McKesson Corporation (the “Company” or “McKesson” or “Plan Sponsor”) or a participating subsidiary, except seasonal and collectively bargained employees (unless the collective bargaining agreement provides for participation). The plan year is April 1 through March 31. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Company controls and manages the operation and administration of the Plan.

Fidelity Management Trust Company (“Fidelity”) is the trustee and record-keeper of the Plan.

The Plan is comprised of participant-directed and non-participant directed investments, as described below:

A. Participant-Directed Investments

Contributions: The Plan qualifies as a safe harbor plan as described in Internal Revenue Code (the “Code”) Sections 401(k) (12) and 401(m) (11). Participants may make pre-tax and/or Roth 401(k) contributions from 1% to 75% of eligible pay, limited to \$18,000 for calendar years 2016 and 2015. Participants 50 years of age or older may also elect to make additional pre-tax and/or Roth 401(k) catch-up contributions of up to 75% of pay, limited to \$6,000 for calendar years 2016 and 2015. Total employer and employee contributions are limited to the lesser of \$53,000 for the plan years ended March 31, 2016 and 2015 or 100% of taxable compensation. Participants may also contribute amounts representing distributions from other eligible retirement plans.

Participant Accounts: Individual accounts are maintained for each plan participant. Each participant’s account is credited with the contributions and an allocation of earnings and charged with withdrawals and an allocation of losses and administrative expenses paid by the Plan. Allocations are based on participant earnings, or account balances, as defined in the plan document. The participant is entitled to a benefit upon separation from employment based upon the vested portion of the participant’s account.

Vesting: In general, for the plan years ended March 31, 2016 and 2015, employer contributions were 100% vested immediately. Dividends automatically reinvested in McKesson common stock are also 100% vested at all times.

Certain participants from plans that were merged into the Plan may receive employer contributions that maintain their original vesting schedules.

Investment Options: Upon enrollment in the PSIP, a participant may direct contributions in 1% increments to any of the investment options offered under the Plan and change his/her investment options at any time. At March 31, 2016, the Plan allowed participants to direct their accounts into any one or combination of the following investment options:

PSIP International Equity Portfolio is comprised of two common/collective trusts at March 31, 2016: 20% of the portfolio is invested in the Eaton Vance Parametric Emerging Markets Equity Commingled Fund, and 80% of the portfolio is invested in the Fidelity® Diversified International Commingled Pool.

Fidelity BrokerageLink is an investment option that provides access to a self-directed brokerage account.

SSgA Bond Index Fund is a commingled pool that seeks to provide investment results that correspond to the return of the Barclays Capital U.S. Aggregate Bond Index. This is a common/collective trust.

SSgA S&P 500 Index Fund is a commingled pool that seeks to provide investment results that correspond to the return of the S&P 500 Index. This is a common/collective trust.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

Vanguard Target Retirement Trusts are 12 commingled pool options designed for investors expecting to retire around the year indicated in each option's name. The trusts, which are the Plan's default investment options, are managed to gradually become more conservative over time. These options are common/collective trusts.

Fisher Investments Small Cap Value Portfolio invests primarily in stocks of value companies that are part of the Russell 2000 Value Index. This is a separately managed account.

PSIP Small Cap Growth Portfolio invests primarily in smaller growth U.S. companies that demonstrate the potential to meet certain strategic growth expectations as established by Weatherbie Capital, LLC, the investment manager. This is a separately managed account.

Dodge & Cox Large Cap Value Portfolio primarily invests in the stock of large companies where the fund manager believes the long-term earnings prospects are not reflected in the current prices. This is a separately managed account.

PSIP Large Cap Growth Portfolio is comprised of two separately managed accounts which invest primarily in the stock of large U.S. companies: 65% of the portfolio is managed by J.P. Morgan Asset Management, and 35% is managed by Brown Advisory.

BNY Mellon Stable Value Portfolio (the "Stable Value Portfolio") invests in fixed income investments, insurance wrap contracts, and guaranteed investment contracts ("GICs"). This is a separately managed account.

McKesson Employee Stock Fund (the "Employee Stock Fund") primarily represents investments in Company common stock.

Loans: Participants may apply for one loan from the Plan at a time. The total amount loaned to an individual participant cannot exceed the lowest of: (i) 50% of such participant's vested account balance, (ii) \$50,000 less the participant's highest outstanding loan balance under the PSIP in the 12 months preceding the loan date, or (iii) the value of the participant's account attributable to pre-tax, Roth, after-tax, catch-up, and rollover contributions. Most loans bear interest at the then current prime rate of interest on the loan date plus 1%. Loan interest rates ranged from 4.25% to 10.50% at March 31, 2016 and 2015. Generally, loans may be repaid over a period not to exceed five years, except for residential home loans, which may be repaid over a term not to exceed ten years. Certain loans under qualified plans of acquired companies that were merged into the Plan may have longer repayment terms. Principal repayments and interest are paid through payroll deduction. For participants who have been terminated or are on leave and are no longer receiving a paycheck, loan repayments may be made by electronic fund transfer or check. Notes receivable from participants totaled \$46,629,000 and \$47,984,000 at March 31, 2016 and 2015, respectively.

Payment of Benefits: Participants have the right to receive a full or partial distribution of their vested PSIP account balance at the time of retirement, death, disability, or termination of employment. In general, when requested by a participant, benefit payments are made in a lump sum cash amount, but participants also may elect a distribution in-kind in the form of McKesson common stock and/or in the form of installments. The Plan also provides for in-service withdrawals on account of financial hardship or attainment of age 59½. In-service distributions cannot exceed a participant's vested account balance less applicable tax withholdings and penalties. Former employees may remain participants in the Plan and continue directing their investments without taking a distribution until age 70½.

Transfers from Other Qualified Plans: There were no transfers from other qualified plans during the year ended March 31, 2016. During the year ended March 31, 2015, \$200,746,000 of net assets from the PSS World Medical, Inc. Savings Plan was merged into the PSIP. PSS World Medical, Inc., the sponsor of the PSS World Medical, Inc. Savings Plan, was acquired by McKesson in February 2013.

B. Non-Participant Directed Investments

General: The McKesson Employer Stock Fund consists of an Employee Stock Ownership Plan (the "ESOP") with shares of McKesson common stock that were allocated to participants through employer matching contributions made prior to April 2009 and not yet directed to other investment options by the participants. This fund is classified as "non-participant directed" because only the Company has the ability to direct contributions into this fund. Participants have the ability to transfer contributions from this fund to participant-directed investments, including the Employee Stock Fund. Total transfers to participant-directed investments for the years ended March 31, 2016 and 2015 were \$37,499,000 and \$32,160,000, respectively.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

C. Other

Employer Matching Contributions to Participant Accounts: Each pay period, the Plan provides for Company matching contributions to all participants who make elective deferrals in an amount equal to 100% of the first 3% of pay contributed as elective deferrals to the Plan and 50% of the next 2% of pay contributed as elective deferrals to the Plan. An additional annual matching contribution may be allocated to plan participants at the discretion of the Company. The Plan also provides for a true-up matching employer contribution in an amount equal to the difference between (1) a participant's matching contributions determined based on the participant's compensation and eligible contributions for the entire plan year and (2) the amount of the participant's matching contributions actually contributed to the Plan for the plan year. Employer matching contributions were \$81,626,000 and \$81,420,000 for the years ended March 31, 2016 and 2015, respectively.

Forfeitures of Unvested Participant Account Balances: A rehired employee who has met certain levels of service prior to termination may be entitled to have previously forfeited amounts in the PSIP reinstated. Each plan year, forfeited amounts are used to reinstate previously forfeited amounts of rehired employees, to pay other plan administrative expenses, or to reduce employer contributions.

Diversification out of McKesson Employer Stock Fund and McKesson Employee Stock Fund: Participants may divest their accounts of McKesson common stock and invest in other investment funds at any time without restriction.

Payment of Benefits: Distributions are made only upon a participant's retirement, death (in which case, payment shall be made to the participant's beneficiary), or other termination of employment with the Company and its affiliates.

Distributions are made in cash, or if a participant elects a distribution in-kind, in the form of Company common stock plus cash for any fractional share.

McKesson Employer Stock Fund: The following is information regarding the allocated shares of McKesson common stock, at fair value, held as of March 31 (in thousands):

2016		2015			
Number of Shares	Cost Basis	Fair Value of Shares	Number of Shares	Cost Basis	Fair Value of Shares
3,166	\$114,910	\$497,818	3,678	\$133,179	\$831,913

The per share fair value of McKesson common stock at March 31, 2016 and 2015 was \$157.25 and \$226.20, respectively.

2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value with the exception of fully benefit-responsive investment contracts, which are required to be reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present fully benefit-responsive investment contracts at contract value and all other investments at fair value. This presentation reflects the retrospective adoption of Part I of Accounting Standards Update No. 2015-12, Plan Accounting: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. See New Accounting Pronouncements below.

Cash and Cash Equivalents: The Plan considers all highly liquid debt instruments with remaining maturities of less than three months at the date of purchase to be cash equivalents.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires plan management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

Risks and Uncertainties: The Plan maintains various investment options including mutual funds, Fidelity BrokerageLink, common/collective trusts, separately managed accounts, the Employer Stock Fund, and the Employee Stock Fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value or net asset value ("NAV") as a practical expedient for fair value except for the BNY Mellon Stable Value Portfolio, which is stated at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in mutual funds are stated at quoted market prices, which represent the NAV of shares held by the Plan at year-end. Investments entered into through Fidelity BrokerageLink are primarily stated at quoted market prices. Investments in common/collective trusts are stated at NAV. Investments in separately managed accounts are valued based on the underlying net assets, which are actively traded and primarily valued using quoted market prices.

The BNY Mellon Stable Value Portfolio is stated at contract value, which represents contributions, plus credited earnings, less participant withdrawals.

Shares of McKesson common stock are valued at quoted market prices on March 31, 2016 and 2015. Certain administrative expenses are allocated to the individual investment options based upon daily balances invested in each option and are reflected as an addition to net depreciation in fair market value of investments or a reduction of net appreciation in fair market value of investments. Consequently, these administrative expenses are reflected as a reduction of investment return for such investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation)/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses: Administrative expenses of the Plan are paid by the Plan. The Company, in its discretion, may pay all, a portion, or none of such expenses from time to time.

Benefits: Benefits are recorded when paid.

Notes Receivable: Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

New Accounting Pronouncements: In July 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2015-12, Plan Accounting: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient, which amends Accounting Standards Codification ("ASC") 960, Plan Accounting - Defined Benefit Pension Plans, ASC 962, Plan Accounting - Defined Contribution Pension Plans, and ASC 965, Plan Accounting - Health and Welfare Benefit Plans. The Topic eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. Also, the Topic requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. The new guidance is effective for reporting periods beginning after December 15, 2015, with early adoption permitted, and shall be applied retrospectively for Part I and Part II and prospectively for Part III. Only Part I and Part II are applicable to the Plan. The Plan early adopted ASU No. 2015-12 during the year ended March 31, 2016 and has applied the provisions retrospectively. The adoption of ASU No. 2015-12 has resulted in the reclassification on the statement of net assets available for benefits of the \$6,011,000 adjustment from fair value to contract value for fully benefit-responsive investment contracts as of March 31, 2015. Furthermore, the Plan has eliminated certain disclosures that are no longer required. There were no other impacts on the statements of net assets available for benefits and the statements of changes in net assets available for benefits as of March 31, 2016 and 2015.

In May 2015, the FASB issued ASU No. 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which amends ASC 820, Fair Value Measurement. Under this ASU, the carrying values of investments measured using the NAV per share practical expedient are no longer required to be categorized within the fair value hierarchy. The ASU also eliminates certain disclosure requirements for investments that are eligible for fair value measurement using the NAV per share practical expedient. The new guidance is effective for reporting periods beginning after December 15, 2016 and shall be applied retrospectively. Upon adoption, the amended guidance is expected to have a limited impact on certain fair value disclosures and no impact on net assets available for benefits.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

3. Investments Reported at Contract Value

The Stable Value Portfolio contains investment contracts with insurance companies and financial institutions with the objective of providing participants a stable return on investment and protection of principal from changes in market interest rates.

Traditional GICs are unsecured general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The traditional GIC crediting rate is based upon the rate that is agreed to when the insurance company writes the contract and is generally fixed for the life of the contract.

Separate account GICs are group annuity contracts that pay a rate of return that is reset periodically (typically quarterly), offer book value accounting, and provide benefit responsiveness for participant-directed withdrawals. The crediting rate reflects the experience of assets that are separated from the insurance company's general account assets. The liabilities associated with an insurance company separate account are paid from the assets held in that separate account. The insurance company's general account assets back the separate accounts to fulfill separate account obligations. Separate account assets cannot be used to satisfy general account liabilities.

Fixed maturity synthetic GICs consist of an asset or pool of assets that are owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract provides contract value accounting for the asset and assures that contract value, benefit-responsive payments will be made for participant-directed withdrawals.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration and assures that contract value payments will be made for participant-directed withdrawals.

The fixed maturity synthetic and constant duration synthetic GICs use wrap contracts in order to manage market risks and to alter the return characteristics of the underlying portfolio of securities owned by the Stable Value Portfolio to match certain fund objectives. There are no reserves against these contract values for credit risk of the contract issuer or otherwise.

The initial crediting rates for both the fixed maturity synthetic and constant duration synthetic GICs are established based on the market interest rates at the time the initial asset is purchased and are guaranteed to have an interest crediting rate of not less than zero percent. The fixed maturity synthetic GIC crediting rate is set at the start of the contract and typically resets on a quarterly basis. The constant duration synthetic GIC crediting rate resets every quarter based on the contract value, the market yield to maturity, the market value, and the average duration of the underlying assets. The crediting rate for constant duration synthetic GICs aims at converging the contract value with the market value; therefore, it will be affected by interest rate and market changes.

Withdrawals and transfers resulting from the following events will limit the ability of the portfolio to transact at book or contract value, though such events are not probable of occurring. Instead, fair value would likely be used in determining the payouts to the participants, should any of the following events occur:

- Employer-initiated events — events within the control of the Plan or the Plan Sponsor which would have a material and adverse impact on the fund
- Employer communications designed to induce participants to transfer from the fund
- Competing fund transfer or violation of equity wash or equivalent rules in place
- Changes of qualification status of employer or plan

Issuers may terminate the GICs and settle at other than contract value if there is a change in the qualification status of employer or plan, a breach of material obligations under the contract, misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The average yield of the Stable Value Portfolio based on actual earnings was 2.06% and 2.08% at March 31, 2016 and 2015, respectively. The average yield of the portfolio based on the interest rate credited to participants was 2.10% and 2.01% at March 31, 2016 and 2015, respectively. To calculate the yield, the amount credited to participants for the last day of the period is annualized and divided by the fair value of the investment portfolio on that date.

4. Fair Value Measurement

Fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan considers the principal or most advantageous market in which the Plan would transact, and the Plan considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, redemption restrictions, and risk of non-performance.

In addition to determining fair value, the Plan is required to establish a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels, which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

- Level 1 unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 unadjusted quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- Level 3 unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of assets or liabilities.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

The Plan's investments measured at fair value on a recurring basis consisted of the following types of instruments as of March 31 (in thousands):

	2016		
	Total	Level 1	Level 2
Fidelity BrokerageLink:			
Mutual funds	\$135,966	\$135,966	\$—
Common and preferred stock	69,933	69,933	—
Fixed income investments	1,948	—	1,948
Other	1,770	1,271	499

Employer and Employee Stock Funds	1,126,710	1,126,710	—
Total	\$3,892,825	\$2,081,385	\$1,811,440

For the years ended March 31, 2016 and 2015, there were no investments classified as level 3 nor were there any significant transfers in or out of levels 1, 2, or 3. Below is a description of the valuation methodologies used for the fair value measurements.

Mutual funds are publicly traded investments which are valued using NAV. The NAV of a mutual fund is a quoted price in an active market. The NAV is determined once a day after the closing of the exchange based upon the underlying assets in the fund, less the fund's liabilities, expressed on a per-share basis.

Common/collective trusts are valued using NAV. The NAV of a common/collective trust is based on the market values of the underlying securities. The beneficial interest of each investor is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Separately managed accounts are valued based on the fair values of the underlying securities, which are primarily valued using quoted market prices.

Investments in Fidelity BrokerageLink and McKesson common stock are stated at quoted market prices.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONTINUED)

The Plan makes certain investments where the fair value is measured by NAV per share. There were no unfunded commitments, normal course of business restrictions, or other redemption restrictions for these investments. These investments are summarized below as of March 31 (in thousands):

	2016			2015		
	Fair Value	Redemption Frequency	Redemption Notice Period	Fair Value	Redemption Frequency	Re
Common/collective trusts	\$1,821,287	As needed	1-5 days	\$1,808,939	As needed	1-5

5. Federal Income Tax Status

On November 26, 2013, the Internal Revenue Service issued a favorable determination letter to the Plan indicating that, in its opinion, the terms of the Plan conform to the requirements of Section 401(a) of the Code. In addition, the Company and the plan administrator believe that the Plan, in form and operation, complies with the applicable requirements of the Code and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. Plan Termination

The Company's Board of Directors reserves the right to terminate the Plan. If termination should occur, all participant accounts would immediately vest and each account would receive a distribution equal to the vested account balance.

7. Exempt Related Party Transactions

At March 31, 2016 and 2015, respectively, the Plan held approximately 4,382,000 and 4,964,000 common shares of McKesson Corporation, the Plan Sponsor, with a cost basis of \$245,487,000 and \$250,730,000. The shares were held within the Plan's Employer and Employee Stock Funds. At March 31, 2016 and 2015, the Employer Stock Fund held approximately 3,166,000 and 3,678,000 common shares, respectively. At March 31, 2016 and 2015, the Employee Stock Fund held approximately 1,216,000 and 1,286,000 common shares, respectively. These transactions qualify as exempt party-in-interest transactions.

McKesson declared dividends of \$1.08 and \$0.96 per share during the years ended March 31, 2016 and 2015, respectively. During the years ended March 31, 2016 and 2015, the Employer Stock Fund recognized dividend income from McKesson common shares of \$3,650,000 and \$3,733,000, respectively. During the years ended March 31, 2016 and 2015, the Employee Stock Fund recognized dividend income from McKesson common shares of \$1,353,000 and \$1,217,000, respectively.

Certain investment options are managed by Fidelity, which also serves as the Plan's record-keeper and trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Generally, investment options (other than mutual funds and publicly offered securities) may qualify as party-in-interest transactions if the issuer, investment manager, or trustee of the investment option is a plan fiduciary or service provider. Fees for investment management services are allocated to the participants with balances in those funds. In the plan year ended March 31, 2015, Fidelity revised its fee structure to include a quarterly flat fee assessment per plan participant.

McKESSON CORPORATION PROFIT-SHARING INVESTMENT PLAN
FINANCIAL NOTES (CONCLUDED)

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the statements of net assets available for benefits at March 31, 2016 and 2015 and the statement of changes in net assets available for benefits at March 31, 2016 to the Form 5500 (in thousands):

Statements of Net Assets Available for Benefits:

	2016	2015
Net assets available for benefits per the financial statements	\$3,686,188	\$4,197,646
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	—	6,011
Net assets available for benefits per the Form 5500	\$3,686,188	\$4,203,657

Statement of Changes in Net Assets Available for Benefits:

	2016
Decrease in net assets per the financial statements	\$(511,458)
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	(6,011)
Net decrease in net assets available for benefits per the Form 5500	\$(517,469)
