To Our Shareholders,

After producing modest returns in 2005, the stock market has advanced smartly in the first four months of 2006. The major indexes all advanced and produced four-month returns that were ahead of the market's returns for all of 2005. For example, the Standard & Poor's 500 Index returned 5.61% year-to-date through April 2006, versus 4.91% last year in total. Investors were encouraged by solid corporate earnings, a healthy economy and stable inflation, which suggested the Federal Reserve could be coming close to the end of its 18-month campaign of raising interest rates.

Despite the good results to date, it is anyone's guess where the market will end 2006, especially given the wild cards of interest rate moves and record-high energy prices and their impact on corporate profits and the economy.

One thing we do know, however, is that the stock market's pattern is one of extremes. Consider the last 10 years. From 1995 through 1999, we saw double-digit returns in excess of 20% per year, only to have 2000 through 2002 produce ever-increasing negative results, followed by another 20%-plus up year in 2004 and a less than 5% advance in 2005. Since 1926, the market, as measured by the Standard & Poor's 500 Index, has produced average annual results of 10.4%. However, that "normal" return is rarely produced in any given year. In fact, calendar-year returns of 8% to 12% have occurred only five times in the 80 years since 1926.

Although the past in no way predicts the future, we have learned at least one lesson from history: Expect highs and lows in the short term, but always invest for the long term. Equally important: Work with your financial professional to maintain a diversified portfolio, spread out among not only different asset classes — stocks, bonds and cash — but also among various investment styles. It's the best way we know of to benefit from, and weather, the market's extremes.

Sincerely,

Keith F. Hartstein,

President and Chief Executive Officer

REPORT**

JOHN HANCOCK

**Patriot Premium
Dividend Fund II**

Preferred stocks, which are the primary emphasis of John Hancock Patriot Premium Dividend Fund II, struggled during the six-month period ended April 30, 2006. From the outset of the period, a weakening Treasury market caused growing concerns that economic growth was strong enough to fuel inflationary pressures and warrant further interest rate hikes by the Federal Reserve Board. That, coupled with a bout of profit taking, put pressure on preferred-share prices. Also weighing on them was a heavy new-issuance calendar. As interest rates rose, newly issued preferred stocks came to market with higher yields than other securities, making older issuers less attractive and putting pressure on their prices. An improved tone in the Treasury market helped preferreds during the first two months of the new year, but preferreds sagged again in March 2006. That's when continued good news on the economic front prompted investors to believe that the Federal Reserve Board would raise short-term interest rates faster than most observers had anticipated at the start of the year.

Preferred stocks...struggled during the six-month period ended April 30...

Utility common stocks

Utility common stocks — another area of emphasis for the Fund — followed a similar path. In addition to coming under pressure due to a weak Treasury market, utility common stocks also were burdened by falling energy prices throughout much of the period and a robust round of profit taking. That said, they outpaced preferred stocks during the period. Utility stocks were helped by the fact that some are hidden energy plays. Energy shares soared with skyrocketing crude-oil prices toward the end of the period. Thanks to deregulation, some utilities that churn out excess power from low-cost sources like coal or nuclear plants can sell that extra capacity at a relatively high price. Strong demand for power has helped, too. All this has helped utilities generate

2

extra cash to reduce their debt, boost dividends and repurchase stocks — all of which helped drive up their share prices.

Performance

For the six months ended April 30, 2006, John Hancock Patriot Premium Dividend Fund II returned 2.72% at net asset value and —3.10% at market value. The difference in the Fund's net asset value (NAV) performance and its market performance stems from the fact that the market share price is subject to the dynamics of secondary market trading, which could cause it to trade at a discount or premium to the Fund's NAV share price at any time. By comparison, the average closed-end mid-cap value fund returned 6.76% at net asset value, according to Morningstar, Inc.

For the same six-month period, the Standard & Poor's 500 Index returned 9.64%. Going forward, the Fund has switched its benchmark indexes to ones that are more closely correlated to the Fund's holdings. They include the broad-based Lehman Brothers Aggregate Bond Index, which returned 0.56% in the period, the Merrill Lynch Preferred Stock DRD Index, which returned 1.92% and the S&P 400 Utilities Index, which returned 5.20% in the period. The main factor driving the Fund's underperformance versus its peer group average was our relatively small stake in utility common stocks.

Chart-topping utility common stocks

Given the utility stocks' outperformance of preferred stocks, it's not surprising that some of our utility common stock holdings also were the biggest contributors to our performance. Among the most significant contributors was KeySpan Corp., which operates regulated gas utilities throughout the Northeastern United States. It was buoyed by the news that KeySpan would be acquired by British energy network operation National Grid. The prospects of further utility merger and acquisition activity also helped boost our holdings in Energy East Corp. and CH Energy Group, Inc.

□...some of our utility common stock holdings also were the biggest contributors to our performance.□

Our holdings in telecommunications companies AT&T, Inc. and Verizon Communications, Inc. also worked in our favor, scoring

solid advances in the first four months of 2006. That□s when the telecom sector attracted a lot of investor attention with large acquisitions, part of a widespread consolidation that Wall Street found encouraging.

Preferred-stock holdings: leaders and laggards

Among our preferred-stock holdings, we enjoyed solid performance from holdings that offered a certain tax advantage for corporations known as the dividends received deduction (DRD). The demand for tax-advantaged investments was strong overall, and particularly for DRD-eligible securities. At the same time, new DRD issuance was light compared with other preferred stocks. Among non-DRD-eligible holdings, Nexen, Inc. made a positive contribution to performance. Like some of our utility holdings, the shares of this Canadian-based global energy company were buoyed by speculation that it would be taken over by a higher-quality company.

On the flip side, our exposure to Georgia Power Co., whose core business is the generation and purchase of electricity in that state, detracted from performance. This fully taxable preferred stock, was, like most non-DRD-eligible securities, hurt by slack demand, heavy supply and the fact that the stock went ex-dividend in March. When companies pay a significant dividend, the price of their stock often declines by the amount of the dividend after the ex-dividend date — normally two business days before the date of record of the dividend.

4

Outlook

The interest rate outlook was somewhat muddled at the end of the period. At least one additional rate hike in May had already been priced into the markets. If investors expect more interest rate hikes beyond May, preferred stocks could remain under pressure. But if the market begins to sense that the Fed will pause in its almost two-year-long campaign to raise interest rates, we believe preferreds could perform reasonably well. We also believe that preferred stocks overall offer attractive values at this point, and we may tilt the Fund more heavily toward the segment. As for utility common stocks, our outlook calls for more merger and acquisition activity, a development that should help boost the types of smaller- and medium-sized utility companies we own. We also believe that long-term demand for dividend-paying securities, including preferred stocks, will provide a strong underpinning for them in the coming year. The first wave of baby boomers hit 60 years old in January, a trend that only will expand over the coming years and one we expect to further fuel demand for income-producing investments.

□...preferred stocks overall offer attractive values at this point...□

This commentary reflects the views of the portfolio managers through the end of the Fund's period discussed in this report. The managers' statements reflect their own opinions. As such, they are in no way guarantees of future events and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

The Fund normally will invest at least 25% of its managed assets in securities of companies in the utilities industry. Such an investment concentration makes the Fund more susceptible to factors adversely affecting the utilities industry than a more broadly diversified fund. Sector investing is subject to greater risks than the market as a whole.

**NOTES TO
STATEMENTS**

Unaudited

**Note A
Accounting policies**

John Hancock Patriot Premium Dividend Fund II (the "Fund") is a diversified closed-end management investment company registered under the Investment Company Act of 1940.

Significant accounting policies of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments that have a remaining maturity of 60 days or less may be valued at amortized cost, which approximates market value. The Fund determines the net asset value of the common shares each business day.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis.

Expenses

The majority of expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative size of the funds.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. For federal income tax purposes, the Fund has \$5,258,627 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The loss carryforward expires as follows: October 31, 2010 - \$30,872, October 31, 2011 - \$21,267 and October 31, 2013 - \$5,206,488.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date.

15

During the year ended October 31, 2005, the tax character of distributions paid was as follows: ordinary income \$14,120,658.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

Note B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of John Hancock Financial Services, Inc., a subsidiary of Manu-life Financial Corporation ("MFC"). Under the investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 0.50% of the Fund's average weekly net asset value and the value attributable to the Dutch Auction Rate Transferable Securities preferred shares (collectively, "managed assets"), plus 5.00% of the Fund's weekly gross income. The Adviser's total fee is limited to a maximum amount equal to 1.00% annually of the Fund's average weekly managed assets. For the period ended April 30, 2006, the advisory fee incurred did not exceed the maximum advisory fee allowed.

Effective December 31, 2005, the investment management teams of the Adviser were reorganized into Sovereign Asset Management LLC ("Sovereign"), a wholly owned indirect subsidiary of John Hancock Life Insurance Company ("JHLICo"), a subsidiary of MFC. The Adviser remains the principal advisor on the Fund, and Sovereign acts as subadviser under the supervision of the Adviser. The restructuring did not have an impact on the Fund, which continues to be managed using the same investment philosophy and process. The Fund is not responsible for payment of the subadvisory fees.

The Fund has an administrative agreement with the Adviser under which the Adviser oversees the custodial, auditing, valuation, accounting, legal, stock transfer and dividend disbursing services and maintains Fund communications with shareholders. The Fund pays the Adviser a monthly administration fee at an annual rate of 0.10% of the Fund's average weekly managed assets. The compensation for the period amounted to \$138,988. The Fund also paid the Adviser the amount of \$104 for certain publishing services, included in the printing fees. The Fund also reimbursed JHLICo for certain compliance costs, included in the Fund's Statement of Operations.

Mr. James R. Boyle is Chairman of the Adviser, as well as affiliated Trustee of the Fund, and is compensated by the Adviser and/or its affiliates. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer, for tax purposes, their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation

16

liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments, as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

The Fund is listed for trading on the New York Stock Exchange ("NYSE") and has filed with the NYSE its chief executive officer certification regarding compliance with the NYSE's listing standards. The Fund also files with the Securities and Exchange Commission the certification of its chief executive officer and chief financial officer required by Section 302 of the Sarbanes-Oxley Act.

¹ Semiannual period from 11-1-05 through 4-30-06. Unaudited.

Dutch Auction Rate Transferable Securities preferred shares Series A and Series B

The Fund issued Dutch Auction Rate Transferable Securities preferred shares (□DARTS□) □ 598 shares of Series A and 598 shares of Series B □ in a public offering. The underwriting discount was recorded as a reduction of the capital of common shares. During the year ended October 31, 1990, the Fund retired 98 shares of DARTS from both Series A and Series B.

Dividends on the DARTS, which accrue daily, are cumulative at a rate that was established at the offering of the DARTS and has been reset every 49 days thereafter by an auction. Dividend rates on DARTS Series A and Series B ranged from 2.90% to 3.70% and from 3.10% to 3.69%, respectively, during the period ended April 30, 2006. Accrued dividends on DARTS are included in the value of DARTS on the Fund's Statement of Assets and Liabilities.

The DARTS are redeemable at the option of the Fund, at a redemption price equal to \$100,000 per share plus accumulated and unpaid dividends on any dividend payment date. The DARTS are also subject to mandatory redemption at a redemption price equal to \$100,000 per share plus accumulated and unpaid dividends if the Fund is in default on its asset coverage requirements with respect to the DARTS, as defined in the Fund's bylaws. If the dividends on the DARTS shall remain unpaid in an amount equal to two full years' dividends, the holders of the DARTS, as a class, have the right to elect a majority of the Board of Trustees. In general, the holders of the DARTS and the common shareholders have equal voting rights of one vote per share, except that the holders of the DARTS, as a class, vote to elect two members of the Board of Trustees, and separate class votes are required on certain matters that affect the respective

17

interests of the DARTS and common shareholders.

Note D**Investment transactions**

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended April 30, 2006 aggregated \$29,021,773 and \$25,818,472, respectively.

The cost of investments owned on April 30, 2006, including short-term investments, for federal income tax purposes, was \$257,653,983. Gross unrealized appreciation and depreciation of investments aggregated \$21,924,143 and \$6,168,130, respectively, resulting in net unrealized appreciation of \$15,756,013. The difference between book basis and tax basis net unrealized appreciation of investments is attributable primarily to the tax deferral of losses on certain sales of securities.

**Investment
objective
and policy**

The Fund's investment objective is to provide a high current income consistent with modest growth of capital for holders of its common shares of beneficial interest. The Fund will pursue its objective by investing in a diversified portfolio of dividend paying preferred and common stocks.

The Fund's nonfundamental investment policy, with respect to the quality of ratings of its portfolio investments, was changed by a vote of the Fund's Trustees on September 13, 1994. The policy, which became effective October 15, 1994, stipulates that preferred stocks and debt obligations in which the Fund will invest will be rated investment grade (at least "BBB" by S&P or "Baa" by Moody's) at the time of investment or will be preferred stocks of issuers of investment grade senior debt, some of which may have speculative characteristics, or, if not rated, will be of comparable quality as determined by the Adviser. The Fund will invest in common stocks of issuers whose senior debt is rated investment grade or, in the case of issuers that have no rated senior debt outstanding, whose senior debt is considered by the Adviser to be of comparable quality.

On November 20, 2001, the Fund's Trustees approved the following investment policy investment restriction change, effective December 15, 2001. Under normal circumstances the Fund will invest at least 80% of its assets in dividend-paying securities. The "Assets" are defined as net assets including the liquidation preference amount of the DARTS plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

Bylaws

In November 2002, the Board of Trustees adopted several amendments to the Fund's bylaws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the bylaws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the bylaws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders.

Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the bylaws.

On December 16, 2003, the Trustees approved the following change to the Fund's bylaws. The auction preferred section of the Fund's bylaws was changed to update the rating agency requirements, in keeping with recent changes to the agencies' basic maintenance reporting requirements for leveraged closed-end funds. Bylaws now require an independent accountant's confirmation only once per year, at the Fund's fiscal year end, and changes to the agencies' basic maintenance reporting requirements that include modifications to the eligible assets and their respective discount factors. These revisions bring the Fund's bylaws in line with current rating agency requirements.

On September 14, 2004, the Trustees approved an amendment to the Fund's bylaws increasing the maximum applicable dividend rate ceiling on the preferred shares to conform with the modern calculation methodology used by the industry and other John Hancock funds.

Dividends and distributions

During the period ended April 30, 2006, dividends from net investment income totaling \$0.342 per share were paid to shareholders. The dates of payments and the amounts per share are as follows:

PAYMENT DATE	INCOME DIVIDEND
November 30, 2005	\$0.057
December 30, 2005	0.057
January 31, 2006	0.057
February 28, 2006	0.057
March 31, 2006	0.057
April 30, 2006	0.057

Dividend reinvestment plan

The Fund offers its shareholders a Dividend Reinvestment Plan (the "Plan"), which offers the opportunity to earn compounded yields. Each holder of common shares may elect to have all distributions of dividends and capital gains reinvested by Mellon Investor Services, as plan agent for the common shareholders (the "Plan Agent"). Holders of common shares who do not elect to participate in the Plan will receive all distributions in cash, paid by check mailed directly to the shareholder of record (or, if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent.

Shareholders may join the Plan by filling out and mailing an authorization card, by notifying the Plan Agent by telephone or by visiting the Plan Agent's Web site at www.melloninvestor.com. Shareholders must indicate an election to reinvest all or a portion of dividend payments. If received in proper form by the Plan Agent before the record date of a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

If the Fund declares a dividend payable either in common shares or in cash, nonparticipants will receive cash, and participants in the Plan will receive the equivalent in common shares. If the market price of the common shares on the payment date of the dividend is equal to or exceeds their net asset value as determined on the payment date, participants will be issued common shares (out of authorized but unissued shares) at a value equal to the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of the common shares at such time, or if the Board of Trustees declares a dividend payable only in cash, the Plan Agent will, as agent for Plan participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made promptly after the payable date for such dividend and, in any event, prior to the next ex-dividend date after such date, except where necessary to comply with federal securities laws. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common shares, resulting in the acquisition of fewer shares than if the dividend had been paid in shares issued by the Fund.

Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. In each case, the cost per share of the shares purchased for each participant's account will be the average cost, including brokerage commissions, of any shares purchased on the open market plus the cost of any shares issued by the Fund. There will be no brokerage charges with respect to common shares issued directly by the Fund. There are no other charges to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the

Plan Agent's Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received not less than ten days prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued, and a cash payment will be made for any fraction of a share credited to such account.

The Plan Agent maintains each shareholder's account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in noncertificated form in the name of the participant. Proxy material relating to the shareholders' meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan.

The reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable or required to be withheld on such dividends or distributions. Participants under the Plan will receive tax information annually. The amount of dividend to be reported on 1099-DIV should be (1) in the case of shares issued by the Fund, the fair market value of such shares on the dividend payment date and (2) in the case of shares purchased by the Plan Agent in the open market, the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days' written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (Telephone: 1-800-852-0218).

ITEM 2. CODE OF ETHICS.

As of the end of the period, April 30, 2006, the registrant has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Chief Executive Officer, Chief Financial Officer and Treasurer (respectively, the principal executive officer, the principal financial officer and the principal accounting officer, the "Senior Financial Officers"). A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

The code of ethics was amended effective February 1, 2005 to address new Rule 204A-1 under the Investment Advisers Act of 1940 and to make other related changes.

The most significant amendments were:

- (a) Broadening of the General Principles of the code to cover compliance with all federal securities laws.
- (b) Eliminating the interim requirements (since the first quarter of 2004) for access persons to preclear their personal trades of John Hancock mutual funds. This was replaced by post-trade reporting and a 30 day hold requirement for all employees.

(c) A new requirement for "heightened preclearance" with investment supervisors by any access person trading in a personal position worth \$100,000 or more.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable at this time.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no material changes to previously disclosed John Hancock Funds - Administration Committee Charter and John Hancock Funds " Governance Committee Charter.

ITEM 11. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal executive officer and principal financial officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.
