## Tri-Continental Corporation

### MID-YEAR REPORT 2005

August 16, 2005

#### To the Stockholders:

Your mid-year Stockholder report for Tri-Continental Corporation follows this letter. The report contains Tri-Continental's investment results and portfolio of investments.

For the six months ended June 30, 2005, the Corporation posted a total return of -1.73% based on net asset value and -1.97% based on market price. During the same time period, the S&P 500 Index returned -0.81% and the Lipper Closed-End Growth & Income Funds Average returned 1.06%.

Tri-Continental had net realized capital gains of \$0.97 per share for the six months ended June 30, 2005. However, federal tax laws require that these gains first be used to offset any remaining capital loss carryforwards that were realized during 2002-2003 following the bear market. We remain confident that we will be able to offset the remainder of Tri-Continental's capital loss carryforward with additional realized gains and resume capital gain payments. Unfortunately, we cannot predict exactly when this will occur. Any net realized capital gains, as with net unrealized gains, will be reflected in an increase in Tri-Continental's net asset value, and will not be taxable to Stockholders who maintain their investment.

Tri-Continental's 75th Annual Stockholder Meeting was held on May 19, 2005 in Sarasota, Florida. At the meeting, three directors were elected and the selection of the Corporation's auditors was ratified. For complete details of the vote, please refer to page 22 of this report. Please take the time to fill out the survey card included in this report. The survey is anonymous and enables Stockholders who were unable to attend the Annual Meeting the opportunity to voice their opinions. Your assistance is very much appreciated.

We thank you for your continued support of Tri-Continental Corporation and look forward to serving your investment needs for many years to come.

By Order of the Board of Directors,

William C. Morris  
Chairman

Brian T. Zino  
President

## Tri-Continental Corporation

## Investment Results Per Common Share

## TOTAL RETURNS

For Periods Ended June 30, 2005

	Three Months*	Six Months*	Average Annual		
			One Year	Five Years	Ten Years
Market Price	0.39%	(1.97)%	7.38%	(2.19)%	7.41%
Net Asset Value	1.57	(1.73)	6.61	(3.14)	7.40
Lipper Closed-End Growth & Income Funds Average**	2.75	1.06	11.44	2.90	8.73
S&P 500 Index**	1.37	(0.81)	6.32	(2.37)	9.94

## PRICE PER SHARE

	June 30, 2005	March 31, 2005	December 31, 2004
Market Price	\$ 17.81	\$ 17.80	\$ 18.28
Net Asset Value	21.36	21.00	21.87

## DIVIDEND, CAPITAL GAIN AND YIELD INFORMATION

For the Six Months Ended June 30, 2005

Dividends Paid	Capital Gain		SEC 30-Day Yield <sup>o</sup>
	Realized	Unrealized	
\$0.11	\$ 0.97	\$ 0.83	1.41%

Performance data quoted represents past performance and does not guarantee future investment results. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Total returns of the Funds as of the most recent month end will be made available at [www.seligman.com](http://www.seligman.com)<sup>1</sup> by the seventh business day following that month end. The Manager made certain payments to the Corporation in 2004. Absent such payments, the net asset value returns that include this period would have been lower. Returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of distributions. Performance data quoted does not reflect the deduction of taxes that investors may pay on distributions or the sale of shares.

\* Returns for periods of less than one year are not annualized.

\*\* The Lipper Closed-End Growth & Income Funds Average (the Lipper Average ) and the Standard & Poor's 500 Composite Stock Index (the S&P 500 ) are unmanaged benchmarks that assume reinvestment of all distributions. The Lipper Average excludes the effect of any costs associated with the purchase of shares, and the S&P 500 excludes the effect of fees and sales charges. The Lipper Average measures the performance of closed-end funds that combine a growth-of-earnings orientation and an income requirement for level and/or rising dividends. The S&P 500 measures the performance of 500 of the largest US companies based on market capitalizations. Investors cannot invest directly in an index or an average.

Preferred Stockholders were paid dividends totaling \$1.25 per share.

## Edgar Filing: TRI-CONTINENTAL CORP - Form N-CSRS

Information does not reflect the effect of capital loss carryforwards that are available to offset these and future capital gains. See Note 6 to Financial Statements.

Represents the per share amount of net unrealized appreciation of portfolio securities as of June 30, 2005.

<sup>0</sup> Current yield, representing the annualized yield for the 30-day period ended June 30, 2005, has been computed in accordance with SEC regulations and will vary.

<sup>1</sup> The reference to Seligman's website is an inactive textual reference and information contained in or otherwise accessible through Seligman's website does not form a part of this report or the Corporation's prospectus.

## Tri-Continental Corporation

### Notes to Financial Statements (unaudited)

**1. Significant Accounting Policies** The financial statements of Tri-Continental Corporation (the Corporation) have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. These unaudited interim financial statements reflect all adjustments, which are, in the opinion of management, necessary to a fair statement of the results for the interim period presented. All such adjustments are of a normal recurring nature. The following summarizes the significant accounting policies of the Corporation:

- a. **Security Valuation** Securities traded on an exchange are valued at the last sales price on the primary exchange or market on which they are traded. Securities not listed on an exchange or security market, or securities for which there is no last sales price, are valued at the mean of the most recent bid and asked prices or are valued by J. & W. Seligman & Co. Incorporated (the Manager) based on quotations provided by primary market makers in such securities. Securities for which market quotations are not readily available or are otherwise no longer valid or reliable are valued at fair value determined in accordance with procedures approved by the Board of Directors. This can occur in the event of, among other things, natural disasters, acts of terrorism, market disruptions, intra-day trading halts, and extreme market volatility in the US markets. Short-term holdings that mature in more than 60 days are valued at current market quotations. Short-term holdings maturing in 60 days or less are valued at amortized cost.
  - b. **Federal Taxes** There is no provision for federal income tax. The Corporation has elected to be taxed as a regulated investment company and intends to distribute substantially all taxable net income and net realized gain.
  - c. **Security Transactions and Related Investment Income** Investment transactions are recorded on trade dates. Identified cost of investments sold is used for both financial statements and federal income tax purposes. Dividends receivable are recorded on ex-dividend dates. Interest income is recorded on the accrual basis.
  - d. **Distributions to Stockholders** Dividends and distributions to stockholders are recorded on ex-dividend date.
  - e. **Options** The Corporation is authorized to write and purchase put and call options. When the Corporation writes an option, an amount equal to the premium received by the Corporation is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Corporation enters into a closing transaction), the Corporation realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). The Corporation, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.
- 2. Capital Stock Transactions** Under the Corporation's Charter, dividends on the Common Stock cannot be declared unless net assets, after such dividends and dividends on Preferred Stock, equal at least \$100 per share of Preferred Stock outstanding. The Preferred Stock is subject to redemption at the Corporation's option at any time on 30 days' notice at \$55 per share (or a total of \$41,400,700 for the shares outstanding) plus accrued dividends, and entitled in liquidation to \$50 per share plus accrued dividends.

The Corporation, in connection with its Automatic Dividend Investment and Cash Purchase Plan and other Stockholder plans, acquires and issues shares of its own Common Stock, as needed, to satisfy Plan requirements. For the six months ended June 30, 2005, 1,395,963 shares were purchased from Plan participants at a cost of \$24,893,623, which represented a weighted average discount of 16.13% from the net asset value of those acquired shares. A total of 351,077 shares were issued to Plan participants during the year for proceeds of \$6,271,761, at a discount of 16.09% from the net asset value of those shares.

## Tri-Continental Corporation

### Notes to Financial Statements (unaudited) (continued)

For the six months ended June 30, 2005, the Corporation purchased 1,180,447 shares of its Common Stock in the open market at an aggregate cost of \$21,180,288, which represented a weighted average discount of 15.94% from the net asset value of those acquired shares.

At June 30, 2005, 278,595 shares of Common Stock were reserved for issuance upon exercise of 12,382 Warrants, each of which entitled the holder to purchase 22.50 shares of Common Stock at \$1.00 per share.

Assuming the exercise of all Warrants outstanding at June 30, 2005, net investment assets would have increased by \$278,595 and the net asset value of the Common Stock would have been \$21.31 per share. The number of Warrants exercised during the six months of 2005 and 2004 was 440 and 82, respectively.

**3. Repurchase Agreements** The Corporation may enter into repurchase agreements with commercial banks and with broker/dealers deemed to be creditworthy by the Manager. Securities received as collateral subject to repurchase agreements are deposited with the Corporation's custodian and, pursuant to the terms of the repurchase agreements, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. Procedures have been established to monitor, on a daily basis, the market value of repurchase agreements underlying securities to ensure the existence of the proper level of collateral.

**4. Management Fee, Administrative Services, and Other Transactions** The Manager manages the affairs of the Corporation and provides for the necessary personnel and facilities. Compensation of all officers of the Corporation, all directors of the Corporation who are employees of the Manager, and all personnel of the Corporation and the Manager is paid by the Manager. The Manager receives a fee, calculated daily and payable monthly, equal to a percentage of the Corporation's daily net assets at the close of business on the previous business day. The management fee rate is calculated on a sliding scale of 0.45% to 0.375%, based on average daily net assets of all the investment companies managed by the Manager. The management fee for the six months ended June 30, 2005, was equivalent to an annual rate of 0.41% of the average daily net assets of the Corporation.

Seligman Data Corp., which is owned by the Corporation and certain associated investment companies, charged the Corporation at cost \$1,809,765 for stockholder account services in accordance with a methodology approved by the Corporation's directors. Costs of Seligman Data Corp. directly attributable to the Corporation were charged to the Corporation. The remaining charges were allocated to the Corporation by Seligman Data Corp. pursuant to a formula based on the Corporation's net assets, stockholder transaction volume and number of stockholder accounts. The Corporation's investment in Seligman Data Corp. is recorded at a cost of \$43,681.

The Corporation and certain other associated investment companies (together, the Guarantors) have severally but not jointly guaranteed the performance and observance of all the terms and conditions of two leases entered into by Seligman Data Corp., including the payment of rent by Seligman Data Corp. (the Guaranties). The leases and the Guaranties expire in September 2008 and January 2009. The obligation of the Corporation to pay any amount due under either Guaranty is limited to a specified percentage of the full amount, which generally is based on the Corporation's percentage of the expenses billed by Seligman Data Corp. to all Guarantors in the preceding calendar quarter. As of June 30, 2005, the Corporation's potential obligation under the Guaranties is \$713,500. As of June 30, 2005, no event has occurred which would result in the Corporation becoming liable to make any payment under a Guaranty. A portion of rent paid by Seligman Data Corp. is charged to the Corporation as part of Seligman Data Corp.'s shareholder account services cost.

Certain officers and directors of the Corporation are officers or directors of the Manager and/or Seligman Data Corp.

The Corporation has a compensation arrangement under which directors who receive fees may elect to defer receiving such fees. Directors may elect to have their deferred fees accrue interest or earn a return based on the performance of the Corporation or other funds in the Seligman Group of Investment Companies. The cost of such fees and earnings/loss accrued thereon is included in directors' fees and expenses, and the accumulated balance thereof at June 30, 2005, of \$292,023 is included in other liabilities.

## Tri-Continental Corporation

### Notes to Financial Statements (unaudited) (continued)

Deferred fees and related accrued earnings are not deductible for federal income tax purposes until such amounts are paid.

**5. Purchases and Sales of Securities** Purchases and sales of portfolio securities, excluding short-term investments, amounted to \$813,003,978 and \$884,232,978, respectively.

**6. Federal Tax Information** Certain components of income, expense and realized capital gain and loss are recognized at different times or have a different character for federal income tax purposes and for financial reporting purposes. Where such differences are permanent in nature, they are reclassified in the components of net assets based on their characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share of the Corporation. As a result of the differences described above, the treatment for financial reporting purposes of distributions made during the year from net investment income or net realized gains may differ from their ultimate treatment for federal income tax purposes. Further, the cost of investments also can differ for federal income tax purposes.

The tax basis information presented below is based on operating results for the six months ended June 30, 2005 and will vary from the final tax information as of the Corporation's year end.

At June 30, 2005, the cost of investments for federal income tax purposes was \$2,311,207,888. The tax basis cost was lower than the cost for financial reporting purposes due to tax losses passed through to the Corporation from its limited partnership investments of \$6,628,735 offset, in part, by the tax deferral of losses on wash sales in the amount of \$1,948,292.

At June 30, 2005, the tax basis components of accumulated earnings were as follows:

Gross unrealized appreciation of portfolio securities and options written	\$ 225,954,777
Gross unrealized depreciation of portfolio securities and options written	(128,804,604)
	<hr/>
Net unrealized appreciation of portfolio securities	97,150,173
Capital loss carryforward	(527,111,378)
Current period net realized gain	108,079,103
Undistributed income	2,570,128
	<hr/>
Total accumulated loss	\$ (319,311,974)
	<hr/>

At December 31, 2004, the Corporation had a net capital loss carryforward for federal income tax purposes of \$527,111,378 which is available for offset against future taxable net capital gains, with \$490,148,854 expiring in 2010 and \$36,962,524 expiring in 2011. Accordingly, no capital gain distributions are expected to be paid to stockholders until net capital gains have been realized in excess of the available capital loss carryforward.

For the six months ended June 30, 2005 and the year ended December 31, 2004, the tax characterization of distributions to stockholders was the same as for financial reporting purposes.

**7. Restricted Securities** At June 30, 2005, the Tri-Continental Financial Division of the Corporation comprised two investments that were purchased through private offerings and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. These investments are valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Corporation. The acquisition dates of investments in the limited partnerships, along with their cost and values at June 30, 2005, were as follows:

Investments	Acquisition Date(s)	Cost	Value
<hr/>	<hr/>	<hr/>	<hr/>
WCAS Capital Partners II, L.P.	12/11/90 to 3/24/98	\$ 4,301,124	\$ 1,792,910
Whitney Subordinated Debt Fund, L.P.	7/12/89 to 11/10/98	1,861,097	763,487
		<hr/>	<hr/>
Total		\$ 6,162,221	\$ 2,556,397

**8. Options Written** Transactions in options written during the six months ended June 30, 2005 were as follows:

	<b>Call Options</b>	
	<b>Shares Subject to Call</b>	<b>Premium</b>
Options outstanding at December 31, 2004		\$
Options written	3,505,400	4,005,947
Option expired	(352,600)	(602,562)
Options outstanding at June 30, 2005	<u>3,152,800</u>	<u>\$ 3,403,385</u>

**9. Other Matters** The Manager conducted an extensive internal review in response to developments regarding disruptive or illegal trading practices within the mutual fund industry. As of September 2003, the Manager had one arrangement that permitted frequent trading in the Seligman registered investment companies ( Seligman Funds ). This arrangement was in the process of being closed down by the Manager before the first proceedings relating to trading practices within the mutual fund industry were publicly announced. Based on a review of the Manager's records for 2001 through 2003, the Manager identified three other arrangements that had permitted frequent trading in the Seligman Funds. All three had already been terminated prior to the end of September 2002. The Securities and Exchange Commission (the SEC) and the Attorney General of the State of New York also are reviewing these matters.

The Manager also reviewed its practice of placing some of the Seligman Funds' orders to buy and sell portfolio securities with brokerage firms in recognition of their sales of Seligman Funds. At the time such orders were placed, this practice was permissible when done properly; however, the Manager believes that it may have violated applicable requirements for certain of such orders as a result of compensation arrangements the Manager had with certain brokerage firms. The Manager discontinued this practice entirely in October 2003. The Manager is confident that the execution of all such orders was consistent with its best execution obligations and that the Seligman Funds did not pay higher brokerage commissions than they would otherwise have paid for comparable transactions. The Manager also responded fully to information requests from the SEC and the NASD relating to the Manager's use of revenue sharing and fund portfolio brokerage commissions and will continue to provide additional information if, and as, requested.

The results of the Manager's internal reviews were presented to the Independent Directors of the Seligman Funds. In order to resolve matters with the Independent Directors relating to the four arrangements that permitted frequent trading, which did not affect Tri-Continental Corporation, in May 2004, the Manager made payments to three funds and agreed to waive a portion of its management fee with respect to another fund. In order to resolve matters with the Independent Directors with regard to portfolio brokerage commissions, in May 2004, the Manager made payments to each of twenty-four funds in an amount equal to the commissions paid by each such fund during the period from 1998 through 2003 to certain brokerage firms in recognition of sales of fund shares, including \$637,118 paid to Tri-Continental Corporation, which has been reported as Payments received from the Manager in the Statements of Changes in Net Investment Assets for the year ended December 31, 2004.

## Tri-Continental Corporation

### Financial Highlights (unaudited)

The Corporation's financial highlights are presented below. Per share operating performance data is designed to allow investors to trace the operating performance, on a per Common share basis, from the beginning net asset value to the ending net asset value, so that investors can understand what effect the individual items have on their investment, assuming it was held throughout the period. Generally, the per share amounts are derived by converting the actual dollar amounts incurred for each item, as disclosed in the financial statements, to their equivalent per Common share amounts, using average shares outstanding.

Total Investment Return measures the Corporation's performance assuming that investors purchased shares of the Corporation at the market value or net asset value as of the beginning of the period, invested dividends and capital gains paid, as provided for in the Corporation's Prospectus and Automatic Dividend Investment and Cash Purchase Plan, and then sold their shares at the closing market value or net asset value per share on the last day of the period. The computations do not reflect taxes or any sales commissions investors may incur in purchasing or selling shares of the Corporation.

The ratios of expenses and net investment income to average net investment assets and to average net assets for Common Stock for the periods presented do not reflect the effect of dividends paid to Preferred Stockholders.

	Six Months	Year Ended December 31,				
	Ended June 30, 2005	2004	2003	2002	2001	2000
