Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(All amounts in millions of Argentine Pesos, except shares and per share data and as otherwise indicated) Free translation from the original prepared in Spanish for publication in Argentina

1. The Group's business and general information

IRSA was founded in 1943, and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

Cresud is our ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is 877 Moreno St., Floor 23, Autonomous City of Buenos Aires, Argentina.

These Financial Statements have been approved for issue by the Board of Directors on May 12, 2016.

As of March 31, 2016, the Group has established two Operations Centers to manage its global business, mainly through the following companies (see Note 6).

- (i) Remains in current and non-current assets, as financial asset held for sale (see Note 9).
- (ii) Corresponds to Group's associates, which are hence excluded from consolidation.

1. The Group's business and general information (Continued)

Operations Center in Argentina

The activities of the operations center in Argentina are mainly developed through IRSA and its main subsidiary, IRSA CP. Through IRSA and IRSA CP, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the United States of America ("USA") real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or IRSA CP, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these Financial Statements to denote investment, development and/or trading properties activities. IRSA's shares are listed and traded on both the BASE and the NYSE.

The activities of the Group's segment "financial operations and others" is carried out mainly through BHSA, where we have a 29.91% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the BASE. Besides that, the Group has a 42.88% indirect equity interest in Tarshop, which main activities are credit card and loan origination transactions.

Operations Center in Israel

During the fiscal year ended June 30, 2014, the Group made an investment in the Israeli market, through DFL and DN B.V., in IDBD (an Israeli Company), with of an initial interest of 26.65%. IDBD is one of the Israeli largest and most diversified conglomerates, which is involved, through its subsidiaries and other investments, in several markets and industries, including real estate, retail, agribusiness, insurance, telecommunications, etc.; controlling or participating in companies such as: Clal (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Shufersal (Supermarkets), PBC (Real Estate), among others. IDBD traded its shares in TASE between May 2014 and March 2016. To date, it is only trading as a "Debentures Company" under the Israeli law, because some of its bonds are listed.

On October 11, 2015, the Group gain effective control over IDBD (see Note 4). As a result, the Group has consolidated significant figures of several industries from IDBD and its subsidiaries.

1. The Group's business and general information (Continued)

Following the reduction of ETH's equity interest in IDBD to less than 26.65% in February 2015 and the completion of BMBY's process whereby Extra sold its equity interest, IDBD's creditors saw an opportunity to call for the immediate payment of financial liabilities. During January 2016 and March 2016 IDBD agreed with the creditors certain amendments to the covenants in their loan agreements that will be enforced during the quarter ending December 31, 2015 until September 30, 2016. To date, IDBD is complying with the agreed commitments but there is no certainty that they will be met in the future. If IDBD fails to reach an agreement with its creditors under favorable terms, the preexisting restrictions and covenants turn to be in force and may not be fulfilled under the prevailing circumstances.

As a holding company, IDBD's main sources of funds derive from the dividends distributed by its subsidiaries, which have experienced a reduction in recent years. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some subsidiaries. IDBD has projected future cash flows; however, such cash flows are not deemed sufficient to settle its liabilities and other commitments. IDBD expects to receive capital contributions from Dolphin to honor its financial commitments if so required and subject to Dolphin's acceptance. However, the Group has not undertaken to provide further financing to the subsidiary or to complete any divestiture, including the sale of Clal. IDBD could also secure additional financing through the private or public issuance of equity securities and additional divestitures.

On December, 2013, was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5774-2013 ('the Concentration Law') which has material implications for IDBD and its investments, including the disposal of the controlling interest in Clal, a potential delisting of IDBD or DIC so as to no longer trade its shares publicly or a merger between IDBD and DIC. The shares representing the controlling interest in Clal have been deposited with a trust fund designated by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel. This Commission also set a deadline by which the sale of the controlling interest should be complete. According to the framework established by the governmental authorities, IDBD should have executed an agreement for the sale of the interest in Clal by January 7, 2016 in order for the buyer to be able to secure all required regulatory approvals by June 30, 2016. Despite the fact that IDBD had received several non-binding offers to buy its controlling interest in Clal, such offers did not succeed for reasons beyond IDBD's control, and the regulatory entity established an arrangement to complete the sale of Clal, as described in detail in Note 9. According to certain terms and covenants governing the above mentioned financial debt, there are also restrictions on the sale of material subsidiaries requiring the financial entities' approval, and the regulatory entity's requirement of selling the equity interest in Clal is also subject to IDBD's current renegotiations with its creditors.

1. The Group's business and general information (Continued)

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a going-concern.

The Group is and will continue working to address the uncertainties described above.

The Group

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of IRSA and its subsidiaries at the operations center in Argentina.

IRSA and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on IRSA since such loan has no recourse against IRSA and it is not secured by IRSA's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern, with such uncertainties being limited to the operations in Israel.

2. Summary of significant accounting policies

2.1. Basis of preparation of the Financial Statements

These Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2015 prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of the CNV. Such information is included in notes to these Financial Statements according to IFRS.

These Financial Statements corresponding to the nine-month periods ended March 31, 2016 and 2015 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's nine-month periods ended March 31, 2016 and 2015 results do not necessarily reflect the proportion of the Group's full-year results.

2. Summary of significant accounting policies (Continued)

On October 11, 2015, the Group took over IDBD. IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina. Therefore, the Company will not be able to include IDBD's quarterly results in its consolidated financial statements to be filed with the CNV within the applicable statutory terms in Argentina. The Company has started to consolidate IDBD's results of operations with a three-month lag, adjusted for the effects of material transactions that may have taken place during the reported period. Hence, IDBD's results of operations for the period beginning on October 11, 2015 (the acquisition date) through December 31, 2015 are included in the Group's interim consolidated statement of comprehensive income for the nine-month period ended March 31, 2016, adjusted by such material transactions that had been substantially affected.

The Group expects the business combination to be fully booked in its financial statements as of June 30, 2016 and is preliminary and subject to potential measurement adjustments, as explained in Note 4.

Given the materiality of IDBD's figures incorporated, the Group had to change the format of its financial statements for the ease of reading and analysis. The most significant change is in line with the new organizational structure, which is split into two large operations centers in Argentina and Israel. In this regard, changes have been made to the notes and tables and their respective order, classification and content in the financial statements, on a geographic basis and taking into consideration the significance of the Group's global operations following IDBD's consolidation.

(1) The Group has consolidated the investment in Llao Llao Resorts S.A. considering its equity interest and a shareholder agreement that confers it majority of votes in the decision making process.

(2) Includes interest indirectly held through Ritelco S.A..

(3) Includes interest indirectly held through Tyrus S.A..

(4) Correspond to interest directly held in each company.

(5) Owns a 40% equity interest of Adama.

(6)

The Group has consolidated the interest in Cellcom taking into consideration its equity interest and decision-making power given the fact that the remaining interests are too disperse.

Summarized financial information on principal subsidiaries with material non-controlling interests and other information are included in note 7.

2. Summary of significant accounting policies (Continued)

2.3. Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Consolidated Financial Statements as of June 30, 2015, except for the new accounting policies adopted following IDBD's consolidation.

The most significant accounting policies applied since control was gained are the following:

2.3.1 Non-recourse loan

IDBD has a non-recourse loan, which was split into two components on the basis of an independent appraiser's report.

The commitment to transfer shares represents the main contract and was initially recognized at fair value and, later, at its depreciated cost. The derivative embedded represents a call option and is computed taking into account future payments of interest on the loan.

The main contract and the embedded derivative ("non-recourse loan") are disclosed net in loans.

2.3.2 Irrevocable right of use of the capacity of underground communication lines

Transactions carried out to acquire an irrevocable right of use of the capacity of underground communication lines are accounted for as service contracts. The amount paid for the rights of use of the communication lines is recognized as "Prepaid expenses" under trade and other receivables, and is amortized over a straight-line basis during the period set forth in the contract (including the option term), which is the estimated useful life of such capacity.

2.3.3 Inventories

Inventories are measured at the lower of cost and net realizable value.

The cost of inventory includes expenses incurred in buying and taking the inventory to its existing location and condition. The cost of inventory of mobile phones and their related accessories and spare parts is calculated on the basis of the moving average, with the cost of other inventory being calculated on a FIFO basis.

2. Summary of significant accounting policies (Continued)

Net realizable value is the estimated selling price in the ordinary course of business less selling expenses. It is determined on an ongoing basis, taking into account the product type and aging, based on the accumulated prior experience with the useful life of the product. The Group periodically reviews the inventory and its aging and books an allowance for impairment, as necessary.

2.3.4 Property, plant and equipment

The Group, through its Operations Center in Israel, holds hotels that have been reported under “Investment properties” since, unlike the hotels in the Operations Center in Argentina, it does not have a significant exposure to changes in operating cash flows of such hotels.

2.3.5 Employee benefits

Defined contribution plans

A defined contribution plan is a retirement benefit whereby IDBD and its subsidiaries make fixed contributions to a separate entity, without the legal or implicit obligation to pay additional amounts. The Group’s obligation to make contributions to defined contribution plans is recognized as expense when the obligation arises.

Defined benefit plans

Net obligation of IDBD and its subsidiaries concerning defined benefit plans are calculated on an individual basis for each plan, estimating the future benefits employees have gained in exchange for their services in the current and prior periods. The benefit is disclosed at its present value, net of the fair value of the plan assets. Calculations are made on an annual basis by a qualified actuary.

Other long-term employee benefits

The net obligation of IDBD and its subsidiaries concerning employee long-term benefits, other than retirement plans, is the amount of the future benefits employees have gained in exchange for their services in the current and prior periods. These benefits are discounted at their present values.

2. Summary of significant accounting policies (Continued)

2.3.6 Provisions

Guarantees

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historic data of the warranties granted and all potential results are weighted against associated probabilities.

Onerous contracts

A provision for onerous contracts is recognized when the expected benefits are lower than the costs of complying with contract obligations. The provision is measured at the present value of the lower of expected cost of terminating the contract and the net expected cost of continuing the contract. Before recognizing a provision, the Group recognizes the impairment of the assets related to the mentioned contract.

2.3.7. Revenue Recognition

Sale of products

Revenue from the sale of goods in the ordinary course of business are recognized at the fair value of the consideration collected or receivable, net of returns and discounts. Where the credit term is short and financing is that typical in the industry, consideration is not discounted. Where the credit term is longer than the industry's average, in accounting for the consideration, the Group discounts it to its net present value by using the client's risk premium or the market rate. The difference between the fair value and the nominal amount is accounted for under financial income. If discounts are granted and their amount can be measured reliably, the discount is recognized as a reduction of revenue.

Generally, the Group recognizes revenue upon delivery of goods to the client. In international sales, revenue is recognized upon loading goods with the forwarder. Where two or more products are sold under one single contract, the Group separates each component and gives them a separate accounting treatment. The attribution of value to each component is based on the relative fair value of each unit. Should the fair value not be measurable on a reliable basis, then revenue is attributed based on the difference arising between the total amount of the executed contract and the fair value of the goods delivered.

2. Summary of significant accounting policies (Continued)

As regards client loyalty programs, the fair value of the consideration received or receivable in relation to the initial sale is allocated across the rewards credits and the other components of the sale. The amount allocated to rewards credits is estimated based on the market value of the goods to be delivered. The fair value of the right to purchase products at a discount is calculated considering the expected exchange ratio and the expected terms. Such amount is deferred and revenue is recognized only where rewards credits are exchanged and the Group has complied with its obligation to provide the products at a discount, or else when such reward credits have expired. The amount of revenue recognized under such circumstances is based on the number of reward credits that have been exchanged for products with discounts, in relation to the total number of reward credits expected to be exchanged. Deferred revenue is then reversed when reward credits are no longer likely to be exchanged.

In addition, when the Group acts as agent and not as main supplier in a transaction, revenue is recognized at the net amount of commissions. Revenue from commissions is recognized based on transactions conducted by credit card companies at the rate and on the date they are credited. Revenue from credit margins of credit cards is recognized on the date the client is bound to pay and revenue for subscription fees is recognized on a monthly basis.

Revenue from communication services and sale of communication equipment

Revenue derived from the use of communication networks by the Group, including mobile phones, Internet services, international calls, fixed line calls, interconnection rates and roaming service rates, are recognized when the service is provided, proportionally to the extent the transaction has been realized, and provided all other criteria have been met for revenue recognition.

Revenue from the sale of mobile phone cards are initially recognized as deferred revenue and then recognized as revenue as they are used or upon expiration, whichever takes place earlier.

A transaction involving the sale of equipment to a final user normally also involves a service sale transaction. In general, this type of sale is performed without a contractual obligation by the client to consume telephone services for a minimum amount over a predetermined period. As a result, the Group records the sale of equipment separately and recognizes revenue pursuant to the transaction value upon delivery of the equipment to the client. Revenue from telephone services are recognized and accounted for as they are provided. When the client is bound to make a minimum consumption of services during a predefined period, the contract formalizes a transaction of several elements and, therefore, revenue from the sale of equipment is recorded at an amount that should not exceed its fair value, and is recognized upon delivery of the equipment to the client and provided the criteria for recognition are met. The Group ascertains the fair value of individual elements, based on the price at which it is normally sold, after taking into account the relevant discounts.

2. Summary of significant accounting policies (Continued)

Revenue derived from long-term contracts is recognized at the present value of future cash flows, discounted at market rates prevailing on the transaction date. Any difference between the original credit and its net present value is accounted for as interest income over the credit term.

Revenue from tourism operations

Revenue from the provision of tourist services is recognized based on the degree of completion of the transaction, and provided the following conditions are met:

- The revenue amount may be reliably measured;
- the economic benefits associated to the transaction are expected to have an impact on the Group;
 - the degree of completion of the transaction may be measured on a reliable basis; and
- expenses incurred in relation to the transaction as well as all necessary costs to finalize the transaction may be reliably measured.

2.3.8. Cost of sales

The cost of retail sales, includes the acquisition costs for the products minus discounts granted by suppliers, as well as all expenses associated with storing and handling inventories. It also includes operational and management costs for shopping centers held by the Group as part of its real estate investments.

The Group's cost of sales in relation to the supply of communication services mainly includes the costs to purchase equipment, salaries and related expenses, service costs, royalties, ongoing license dues, interconnection and roaming expenses, cell tower lease costs, depreciation and amortization expenses and maintenance expenses directly related to the services provided.

2.4. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

2. Summary of significant accounting policies (Continued)

In the preparation of these Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Financial Statements, as describe in Note 5 to those Financial Statements, save for changes in accrued income tax, provision for legal claims, provision for Directors' fees, allowance for bad debts and accrued supplementary rental, and those incorporated by business combination with IDBD.

2.5. Comparability of information

Balance items as of June 30, 2015 and March 31, 2015 shown in these financial statements for comparative purposes arise from the Consolidated Financial Statements then ended.

As required by IFRS 3, the information of IDBD is included in the financial statements of the Group as from the acquisition date, and the prior periods are not modified by this situation. Therefore, the financial information consolidated for periods after the acquisition is not comparative with prior periods.

During the nine-month period ended March 31, 2016, the Argentine Peso devalued against the US\$ and other currencies by around 63%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income and costs from "offices and other properties" segment, and our assets and liabilities in foreign currency (mainly assets and liabilities of the Operations Center in Israel).

3. Seasonal effects on operations

Operations Center in Argentina

The operations of the shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December, when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, for shopping center operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period January through June.

3. Seasonal effects on operations (Continued)

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year.

The results of operations of Cellcom are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4. Acquisition and dispositions

a) Acquisition of control over IDBD

On May 7, 2014, a transaction was agreed whereby the Group, acting indirectly through Dolphin, acquired, jointly with E.T.H.M.B.M. Extra Holdings Ltd. (a non-related company incorporated under the laws of the State of Israel) controlled by Mordechay Ben Moshé, an aggregate number of 106.6 million common shares in IDBD representing 53.30% of its stock capital, under the scope of the debt restructuring of IDBH with its creditors (the "Arrangement"), the IDBD's parent company.

Under the terms of the agreement entered into between Dolphin and ETH, to which Dolphin and ETH agreed to (the "Shareholders' Agreement"), Dolphin acquired 50% interest in this investment, and ETH acquired the remaining 50%. The initial total investment amount was NIS 950 million, equivalent to approximately US\$ 272 million at the exchange rate prevailing on that date.

On May 28, 2015, ETH launched the BMBY mechanism provided in the Shareholders' Agreement (clause which establishes that each party of the Shareholders' Agreement may offer to the counterparty to acquire (or sell, as the case may be), the shares it holds in IDBD at a fixed price). In addition, ETH further added that the purchaser thereunder required to assume all obligations of seller under the Arrangement.

On June 10 and 11, 2015, Dolphin gave notice to ETH of its intention to buy all the shares of IDBD held by ETH.

4. Acquisition and dispositions (Continued)

After certain aspects of the offer were resolved through an arbitration process brought by Dolphin and ETH in accordance with provisions on dispute resolution included in the Shareholders' Agreement, on September 24, 2015, the competent arbitrator resolved that: (i) Dolphin and IFISA (related company to the Group) were entitled to act as buyers in the BMBY process, and ETH should sold IDBD shares held by it (92,665,925 shares) at a price of NIS 1.64 per share; (ii) The buyer had to fulfill all of the commitments included in the seller's Arrangement, including the commitment to carry out Tender Offers where responsibility were borne by Dolphin; (iii) The buyer had to pledge in favor of the Arrangement Trustees the shares that seller had pledged to them.

On October 11, 2015, the BMBY process concluded, and IFISA acquired all IDBD's shares of stock held by ETH. Consequently, the Shareholders' Agreement ceased and members of IDBD's Board of Directors representing ETH submitted their irrevocable resignation to the Board. Dolphin was hence empowered to appoint the new members to the Board. Additionally, on the same date, Dolphin pledged additional shares as collateral to secure compliance with the IDBD stock purchase agreement, thereby increasing the number of pledged shares to 64,067,710. As a consequence, the Group gained control of IDBD and started to consolidate financial statements as from that date with an initial interest of 49%.

The Group is analyzing the allocation of the price paid across various net assets acquired by IDBD; therefore, the information presented below is preliminary and subject to changes.

The following chart shows the consideration, the fair value of the acquired assets, the assumed liabilities and the non-controlling interest as of the acquisition date.

	10.11.15
Fair value of the interest in IDBD's equity held before the business combination and warrants	1,416
Total consideration	1,416

4. Acquisition and dispositions (Continued)

	10.11.15
Fair value of identifiable assets and assumed liabilities:	
Investment properties	28,726
Property, plant and equipment	13,067
Intangible assets	1,287
Investment in associates and joint ventures	9,043
Financial assets and other assets held for sale	4,475
Trading properties	2,564
Inventories	1,822
Income tax credits for the year	91
Trade and other receivables	9,546
Investments in financial assets	6,684
Restricted assets	250
Cash and cash equivalents	9,193
Deferred income tax	(2,660)
Provisions	(1,106)
Borrowings	(68,170)
Derivative financial instruments, net	(39)
Income tax expense	(316)
Employee benefits	(405)
Salaries and social security liabilities	(794)
Trade and other liabilities payables	(11,261)
Total net identifiable assets	1,997
Non-controlling interest	(3,287)
Goodwill not yet allocated	2,706
Total	1,416

The fair value of the investment property was assessed by qualified independent appraisers. As of the acquisition date, the Group estimates that recognized assets are recoverable. The value of the non-controlling interest in IDBD has been determined on a proportional basis to the fair value of net acquired assets.

Following the control of IDBD, the cumulative currency translation accumulated in shareholders' equity from the interest held in IDBD before the business combination in the amount of Ps. 144 was recognized in the statement of income. This gain was disclosed under "Other operating results, net" line in the statement of income.

Later on, following the exercise of BMBY, Dolphin has entered into an option agreement with IFISA that grants Dolphin the right, but not the obligation, to acquire 92,665,925 shares in IDBD which IFISA acquired in the BMBY process at a price per share of NIS 1.64 plus an annual interest rate of 8.5%. The exercise date for the option extends

for two years. Additionally, Dolphin is entitled to a first refusal right in case that IFISA agrees to sell these shares to a third party.

4. Acquisition and dispositions (Continued)

b) Acquisition offers

As described in Note 3.1 to the Annual Financial Statements, Dolphin was required to carry out the first tranche of tender offers in December 2015. Before expiration of such first tranche, Dolphin and the agreement administrators (the “Administrators”) entered into an extension agreement (the “Extension Agreement”), including but not limited to:

- (i) Postpone the date in which Dolphin would propose the first part of the tender offers until March 15, 2016, so that the execution of the tender offers would extend until March 31, 2016. Increase the first part of the tender offers by NIS 7 million, without changing the number of shares entitled to participate in the Tender Offer;
- (ii) Should IDBD carry out the issue of shares or convertible bonds before March 15, 2016 (excluding the issuance of shares resulting from exercising already existing warrants) to any person other than Dolphin and/or any other company not entitled to take part as offeror in the tender offers, will proceed to increase the first part of the tender offers by NIS 53 million (in addition to the NIS 7 million detailed in section (i)), without changing the total number of shares included in the tender offers.
- (iii) Increase the collateral granted to the Agreement Administrators to secure performance of the commitments assumed under the tender offers;
- (iv) The Extension Agreement should be approved by the Shareholders’ Meeting, after which the parties would file a petition requesting that the appeal with the Supreme Court be dismissed without costs for the parties;
- (v) The Extension Agreement would also be subject to the execution of the Subordinated Loan between Dolphin and IDBD (a subordinated and convertible loan granted to IDBD in the amount of NIS 210 million).

On December 6, 2015, the Shareholders’ Meeting approved of the Extension Agreement and on December 8, 2015 it was approved by a competent court, and upon appeal filed with the Supreme Court (mentioned in subsection (iv) above), it was dismissed without cost to the parties.

On December 1, 2015, Dolphin and IDBD subscribed the subordinated loan.

4. Acquisition and dispositions (Continued)

During February and March 2016, Dolphin has entered into an agreement with the Agreement Administrators to amend the terms and conditions of the tender offers mentioned above. This amendment was approved by approximately 95% of the non-controlling shareholders of IDBD (excluding IFISA) and by warrant holders of IDBD on March 2, 2016, and by the competent court on March 10, 2016. The major amendments to the Agreement are:

- (i) Replacement of the obligation to conduct tender offers as previously established under an agreement whereby Dolphin should purchase all the shares outstanding on March 29, 2016 from non-controlling shareholders of IDBD (except for those held by IFISA) on March 31, 2016. On March 29, 2016, all IDBD shares would cease to be traded in the TASE. On that date, all IDBD warrants held by non-controlling shareholders will expire and Dolphin will make capital contributions to IDBD or grant subordinate loans, as described hereafter.
- (ii) The price to be paid for each IDBD share held by non-controlling shareholders on March 29, 2016 will be NIS 1.25 in cash, NIS 1.20 adjusted nominal value in bonds of the IDBD Series 9 (the "IDBD Bonds"), which IDBD will issue directly to non-controlling shareholders and holders of warrants, and Dolphin will inject funds into IDBD equal to the adjusted nominal value of IDBD Bonds. Additionally, Dolphin undertakes to pay NIS 1.05 (subject to adjustments) in cash should Dolphin, either directly or indirectly, gain control of Clal, or else if IDBD sells a controlling shareholding in Clal under certain parameters (the "payment by Clal"), which refers mainly to Clal's sale price (at a price which exceeds 75% of its book value upon execution of the sale agreement, subject to adjustments) and, under certain circumstances, the proportion of Clal shares sold by IDBD.
- (iii) The warrants held by non-controlling shareholders that have not been exercised until March 28, 2016 shall expire on March 31, 2016. Each warrant holder shall be entitled to elect whether: (a) to receive IDBD bonds (based on the adjusted nominal value) in an amount equal to the difference between NIS 2.45 and the exercise price of the warrants and be entitled to a payment from Clal; or (b) to receive a payment which will be determined by an independent appraiser.
- (iv) Dolphin shall provide IDBD a total amount of NIS 515 million (the "Contribution to IDBD"), out of which it has already contributed NIS 15 million in February 2016 and NIS 85 million in March 2016. The amount injected to IDBD will be reduced by any capital contribution resulting from the exercise of warrants held by non-controlling shareholders (maximum amount of approximately NIS 37.5 million). The contribution to IDBD will further cover the IDBD Bonds that would be necessary to comply with the transactions described above (between NIS 166.5 million and NIS 178 million), and the balance will be contributed until completing the amount committed by Dolphin either as a capital contribution or as a subordinated loan (between NIS 284.5 and NIS 333.5 million).

4. Acquisition and dispositions (Continued)

- (v) On March 31, Dolphin should pledge 28% of its IDBD shares, as well as all rights held by Dolphin in relation to the subordinated loan granted in the amount of NIS 210 million in December 2015, until the payment obligation to Clal has been completed or has expired, after which the pledge will be discharged. Should new shares be issued by IDBD, Dolphin will have to pledge additional shares until completing the 28% of all IDBD share capital. This pledge supersedes the existing pledge on approximately 64 million shares of IDBD and all Dolphin's rights in relation to the Subordinated Loan.
- (vi) Additionally, Dolphin agrees not to exercise its right to convert the subordinated loans into shares of IDBD until the pledge described above has been released. Should the pledge on subordinated loans be exercised by the Administrators of the Agreement, then those Administrators may convert the subordinated loans into shares; however, in such case, the maximum percentage of the IDBD capital that may be pledged is 35%, and any shares in excess of such amount will be released from the pledge.

As a result of the description above, on March 31, 2016: (i) Dolphin acquired all shares from IDBD non-controlling shareholders (except for IFISA), (ii) all warrants held by IDBD non-controlling shareholders expired, and (iii) Dolphin made additional contributions to IDBD via subordinated loans pursuant to the description below.

The price paid for each IDBD share based on the holdings as of March 29, 2016 was as follows: (i) NIS 1.25 in cash, thus paying a total amount of NIS 159.6 million (US\$ 42.2 million), (ii) NIS 1.20 per share through the subscription and delivery of IDBD Bonds Series 9 (the "IDBD Bonds") to non-controlling shareholders and warrant holders that did not choose for the independent appraiser alternative, issued by IDBD and paid by Dolphin at its adjusted nominal value, thus injecting NIS 166.5 million (an amount of NIS 134 million worth of IDBD Bonds was issued by IDBD). This payment in bonds includes the Payment of Warrants (as detailed below), and (iii) the commitment to pay NIS 1.05 (subject to adjustments) in cash in case Dolphin indirectly receives an authorization to take over Clal, or else if IDBD sells its holdings in Clal under certain parameters, mainly referring to Clal sale price above 75% of its book value and under certain circumstances pro rata any holdings in Clal sold by IDBD; should the conditions indicated above be met, Dolphin will pay under this concept the approximate amount of NIS 155.8 (around US\$ 40.8 million).

4. Acquisition and dispositions (Continued)

In relation to warrants that were not exercised as of March 28, 2016, each such warrant holder received the difference between NIS 2.45 and the warrant exercise price (“Payment of Warrants”) in IDBD Bonds and is entitled to receive the consideration for Clal; as for those warrants holders who chose the independent appraiser alternative, IDBD bonds for the same value were deposited to the Agreement Administrators up to the payment (the amount will be subject to approval of the competent court, following the valuation made by the appraiser and the right of each such relevant party to file their arguments with the court); such payment will be treated as a deposit that may be used to pay the warrant holders under certain circumstances.

Additionally, Dolphin made a contribution to IDBD in a total amount of NIS 348.5 million, which were contributed in the form of a subordinated loan convertible into shares, thus discharging the commitment to contribute NIS 515 million.

To secure payment by Clal, on March 31, 2016 Dolphin pledged 28% of all IDBD shares as well as the subordinated loan rights of NIS 210 million granted on December 1, 2015. Should new shares be issued by IDBD, they should have to be further pledged until reaching 28% of all IDBD capital.

Following March 31, 2016, IDBD shares ceased to be listed in TASE, there are no more warrants held by general public and IDBD went private. IDBD will continue to file reports with the TASE as a “Debentures Company” pursuant to Israeli law, because some of its bonds are listed.

As a result of the above, upon compliance by Dolphin with the obligations assumed under the amended agreement, all commitments to invest in IDBD by Dolphin have been fully complied with, so that the only obligation still pending is the payment for Clal, provided the conditions herein described are met.

As of March 31, 2016, IRSA’s indirect interest in IDBD was approximately 68%.

c) Sale of properties in the Operations Center in Argentina

During the nine-month period ended March 31, 2016, the Group has sold certain floors corresponding to Maipú 1300 Building, Intercontinental Plaza, all the floors corresponding to Dique IV and Isla Sirgadero.

All sales mentioned above led to a combined profit for the Group of Ps. 1,068, disclosed within the line “Gain from disposal of investment properties” in the statement of income.

5. Financial risk management and fair value

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

The general risk management policies of the Group are focused on the unpredictability of financial markets and seek both to minimize adverse potential effects on the financial performance of the Group and to manage and control the financial risks effectively. The Group uses financial instruments to hedge certain risk exposures when deemed appropriate based on its internal management risk policies, as explained below.

Given the diversity of sectors in the economy and industries, different regulatory and legal frameworks and the macroeconomic environment in each of its operations centers, the Group has decentralized the risk management policies geographically based on its two operations centers in order to identify and properly analyze the various types of risks to which each of the subsidiaries is exposed.

Below is a list of the main risk management policies of each of the operations centers:

5.1 Risk management in the operations center in Argentina:

These Financial Statements do not include all the information and disclosures on financial risk management in this operations center; therefore they should be read along with Note 4 to the Annual Financial Statements. There have been no changes in the risk management or risk management policies applied by the Group to the Operations Center in Argentina since year end.

5.2 Risk management in the operations center in Israel:

Given the diversity of sectors in the economy, industries, and risks, IDBD manages its exposure to key financial risks in accordance with a decentralized risk management policy for all its subsidiaries. Both IDBD as holding and each subsidiary are responsible for managing their own financial risks in accordance with agreed global guidelines. The Chief Financial Officers of each entity are responsible for managing the risk management policies and systems, the definition of hedging strategies, insofar as applicable and based on any restriction that may be apply as a result of financial debt, the supervision of its implementation and the answer to such restrictions. The management framework includes policies, procedures, limits and allowed types of derivative financial instruments.

5. Financial risk management and fair value (Continued)

This section provides a description of the principal risks and uncertainties related to the operations center in Israel that could have a material adverse effect on the IDBD's strategy, performance, results of operations and financial condition. The risks and uncertainties facing the businesses, set out below, do not appear in any particular order of potential materiality or probability of occurrence.

(a) Market risk management

(i) Foreign currency risk

IDBD operates at an international level and is exposed to exchange rate risks. Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency in which the transaction is conducted, mainly the US dollar.

Real estate, business and/or financial activities of IDBD subsidiaries in the operations center in Israel are developed in the functional currencies of the economies where they operate, in that they IDBD is not significantly exposed to foreign currency risk.

Net financial position exposure to the functional currencies is managed in a decentralized way on a case-by-case basis, by entering into foreign currency derivative instruments and/or by borrowings in foreign currencies, as the case may be, or by other methods, considered adequate by the Management, according to circumstances.

(ii) Risk of fluctuations of the CPI of Israel

IDBD has financial liabilities indexed by the Israeli CPI. As of the balance sheet date, 72.6% of financial debts arising from the center of operations in Israel was adjusted by the Israeli CPI.

Net financial position exposure to the Israeli CPI fluctuations is managed in a decentralized way on a case-by-case basis, by using different derivative financial instruments, as the case may be, or by other methods, considered adequate by the Management, based on the circumstances.

(iii) Interest rate risk

The IDBD's interest rate risk principally arises from long-term borrowings (See Note 21). Borrowings issued at variable rate expose IDBD to cash flow interest rate risk, partially offset by financial assets at floating interest rate. Borrowings issued at fixed rates expose IDBD to fair value interest rate risk.

5. Financial risk management and fair value (Continued)

IDBD manages the exposure to the interest rate risk on a dynamic basis. Various scenarios are simulated by IDBD, taking into consideration refinancing, renewal of existing positions, alternative financing sources or hedging instruments, maintaining an appropriate mix between fixed and floating rate interest bearing liabilities. Exposure to interest rate risk is managed in a decentralized way and these activities are evaluated regularly by Management to determine that IDBD is not exposed to interest rate movements that could adversely impact its ability to meet its financial obligations and to comply with its borrowings covenants.

As of the date of these Financial Statements, the 22.3% of the Group's long-term financial borrowings in this operations center are at fixed interest rate, therefore, IDBD is not significantly exposed to the interest rate fluctuation risk.

(iv) Other price risk

IDBD is exposed to equity securities price risk or derivative financial instruments price risk because of investments held in entities that are publicly traded.

As indicated in Note 9, investment in Clal is classified on the statements of financial position at "fair value through profit or loss" and represents the most significant IDBD's exposure to price risk. IDBD has not used hedging against these risks.

IDBD regularly reviews the prices evolution of these equity securities in order to identify significant movements.

(b) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in a financial loss to IDBD. Credit risk is managed in a decentralized way. Each entity is responsible for managing and analyzing the credit risk and limits have been established to ensure that IDBD deals only with approved counterparties and that counterparty concentration risk is addressed and the risk of loss is mitigated. Counterparty exposure is measured as the aggregate of all obligations of any single legal entity or economic entity to IDBD.

IDBD is subject to credit risk arising from deposits with banks and financial institutions, investments of surplus cash balances, the use of derivative financial instruments and from outstanding receivables.

5. Financial risk management and fair value (Continued)

The IDBD's policy is to manage credit exposure to deposits, short-term investments and other financial instruments by maintaining diversified funding sources in various financial institutions. All the institutions that operate with IDBD are well known because of their experience in the market and high credit quality. IDBD places its cash and cash equivalents, investments, and other financial instruments with various high credit quality financial institutions, thus mitigating the amount of credit exposure to any one institution. The maximum exposure to credit risk is represented by the carrying amount of cash and cash equivalents and short-term investments in the statements of financial position.

IDBD's primary objective for holding derivative financial instruments is to manage currency exchange rate risk and interest rate risk. IDBD generally enters into derivative transactions with high-credit-quality counterparties and, by policy, limits the amount of credit exposure to each counterparty. The amounts subject to credit risk related to derivative instruments are generally limited to the amounts, if any, by which counterparty's obligations exceed the obligations that IDBD has with that counterparty. The credit risk associated with derivative financial instruments is represented by the carrying value of the assets positions of these instruments.

The IDBD's policy is to manage credit exposure to trade and other receivables within defined trading limits. All IDBD's significant counterparties have internal trading limits.

Trade receivables from investment and development property activities are primarily derived from leases and services from shopping centers, office and other rental properties; receivables from the sale of trading properties and investment properties (primarily undeveloped land and non-retail rental properties). IDBD has a large customer base and is not dependent on any single customer.

There is not a high credit risk concentration in trade receivables from telecommunications and supermarket activity, as the business does not rely on few customers and most of the transactions are paid in cash or credit card.

5. Financial risk management and fair value (Continued)

(c) Liquidity risk management

The most important risk in the operations center in Israel is liquidity risk, including risks associated with refinancing borrowings as they mature, the risk that borrowing facilities are not available to meet cash requirements, and the risk that financial assets cannot readily be converted to cash without loss of value. Failure to manage liquidity risks could have a material impact on the IDBD's cash flow and statements of financial position. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, IDBD aims to maintain flexibility in funding its existing and prospective debt requirements by maintaining diversified funding sources.

IDBD monitors its current and projected financial position using several key internally generated reports: cash flow forecasts; debt maturity; and interest rate exposure. IDBD also undertakes sensitivity analysis to assess the impact of proposed transactions, movements in interest rates and changes in property values on the key profitability, liquidity and balance sheet ratios.

IDBD's debt and derivative positions are continually reviewed to meet current and expected debt requirements. IDBD maintains a balance between longer-term and shorter-term financings. Short-term financing is principally raised through bank facilities and overdraft positions. Medium- to longer-term financing comprises public and private bond issues, including private placements. Financing risk is spread by using a variety of types of debt. The maturity profile is managed in accordance with IDBD's needs, by spreading the repayment dates and extending facilities, as appropriate.

Given the current financial debt conditions of the Operations Center in Israel, in particular in the holding company IDBD, the main source of funding has been capital contributions. See Note 21 that includes a description of commitments and restrictions related to loans and renegotiation processes under way.

6. Segment information

IFRS 8 requires an entity to report financial and descriptive information about its reportable segments, which are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available that is evaluated regularly by the CODM. According to IFRS 8, the CODM represents a function whereby strategic decisions are made and resources are assigned. The CODM function is carried out by the President of the Group, Mr. Eduardo S. Elsztain. In addition, and due to the acquisition of IDBD, two responsibility levels have been established for resource allocation and assessment of results of the two operations centers, through executive committees in Argentina and Israel.

Following the control of IDBD, the Group reports its financial and equity performance based on the new segment structure. Comparative information has been modified to reflect the new organization insofar as possible.

Segment information is now reported from two perspectives: geographic presence and products and services. From the geographic point of view, the Group has established two Operations Centers to manage its global interests: Argentina and Israel. Within each operations center, the Group considers separately the various activities being developed, which represent reporting operating segments given the nature of its products, services, operations and risks. Management believes the operating segment clustering in each operations center reflects similar economic characteristics in each region, as well as similar products and services offered, types of clients and regulatory environments.

Below is the segment information prepared as follows:

- Operations Center in Argentina:

Within this center, the Group operates in the following segments:

- o The “Shopping Centers” segment includes assets and operating results of the activity of shopping centers portfolio principally comprised of lease and service revenues related to rental of commercial space and other spaces in the shopping centers of the Group.
- o The “Offices and others” segment includes assets and operating results from lease revenues of office and other rental space and other service revenues related to the office activities.

6. Segment information (Continued)

- o The “Sales and Development” segment includes assets and operating results of the sales of undeveloped parcels of land and/or trading properties, as the results related with its development and maintenance. Also included in this segment are the results of the sale of real property intended for rent, sales of hotels and other properties included in the international segment.
- o The "Hotels" segment includes the operating results of hotels mainly comprised of room, catering and restaurant revenues.
- o The “International” segment includes assets and operating profit or loss from business related to associates Condor and Lipstick. Through these associates, the Group derives revenue from hotels and an office building in United States, respectively. Until September 30, 2014, this segment included revenue from a subsidiary that owned the building located at 183 Madison Ave in New York, United States, which was sold on September 29, 2014. Additionally, until October 11, 2015, this international segment only included results from the investment in IDBD carried at fair value.
- o The “Financial operations and others” segment primarily includes the financial activities carried out by BHSA and Tarshop and other residual financial operations.

The CODM periodically reviews the results and certain asset categories and assesses performance of operating segments of this operations center based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the following:

- Operating results from joint ventures: Cyrsa S.A., NPSF, Puerto Retiro, Baicom Networks S.A. and Quality are evaluated by the CODM applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in joint ventures rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return. Moreover, operating results of EHSA joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main asset consists of an indirect interest of 25% of LRSA.

6. Segment information (Continued)

- Operating results from Shopping Centers and Offices segments does not include the amounts pertaining to building administration expenses and collective promotion funds (“FPC”, as per its Spanish acronym) and so does it exclude total recovered costs, whether by way of building administration expenses or other concepts included under financial income (for example default interest and other concepts). The CODM examines the net amount from these items (total surplus or deficit between building administration expenses and FPC and recoverable expenses).

Information analyzed in relation to Group revenue and assets:

The assets’ categories examined by the CODM are: investment properties, property, plant and equipment, trading properties, inventories, investment in associates and goodwill. The sum of these assets, classified by business segment, is reported under “assets by segment”. Assets are allocated to each segment based on the operations and/or their physical location.

Within the operations center in Argentina, most revenue from its operating segments are derived from, and their assets are located in, Argentina, except for earnings of associates included in the “International” segment located in United States.

- Operations center in Israel:

Within this center, the Group operates in the following segments:

- o The segment “Commercial Properties” includes mainly assets and operating income derived from business related to the subsidiary PBC. Through PBC, the Group operates rental properties and residential properties in Israel, United States and other parts of the world and carries out commercial projects in Las Vegas, United States.
- o The segment “Supermarkets” includes assets and operating income derived from the business related to the subsidiary Shufersal. Through Shufersal, the Group mainly operates a supermarket chain in Israel.
- o The segment “Agrochemicals” includes income derived from the associate Adama. Adama is a company specialized in agrochemicals, particularly for the production of crops.
- o The segment “Telecommunications” includes assets and operating income derived from the business related to the subsidiary Cellcom. Cellcom is a provider of telecommunication services and its main activities include the provision of mobile phone services, fixed line phone services, data and Internet, among others.

6. Segment information (Continued)

- o The segment "Insurance" includes the business related to Clal. This company is one of the most important insurance groups in Israel, and is mainly engaged in pension and social security insurance, among others. As indicated in Note 9, 51% of the controlling shares of Clal are held in a trust following the instructions of the Israel Securities Commission in order to comply with the sale of the controlling shares of Clal; as a result, the Company is not fully consolidated on a line-by-line basis but rather in a single line as a financial instrument at fair value, as required by the IFRS under the current circumstances where no control is exercised.
- o The "Others" segment includes the assets and income derived from other diverse business activities, such as technological developments, tourism, gas and oil assets, electronics, and others.

The CODM periodically reviews the results and certain asset categories and assesses performance of operating segments of this operations center based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements.

As indicated under Note 2, the Group decided to consolidate income derived from its operations center in Israel with a three month lag, as adjusted for the effects of significant transactions; hence, operating results of IDBD for the period extending from October 11, 2015 (acquisition date) through December 31, 2015 are included under interim comprehensive income of the Group for the nine-month period ended March 31, 2016.

Furthermore, comparative information has not been modified for as of that date the Group did not exercise control over IDBD. The assessment of this investment was part of the international segment of the operations center in Argentina.

Goods and services exchanged between segments are calculated on the basis of market prices. Intercompany transactions between segments, if any, are eliminated.

As to those business segments involving the operations center in Argentina where assets are reported under the proportional consolidation method, each reported asset includes the proportional share of the Group in the same class of assets of the associates and/or joint ventures. Only as an example, the amount of investment properties reported includes (i) the balance of investment properties as stated in the statement of financial position, plus (ii) the Group's share in the balances of investment properties of joint ventures.

Within the operations center in Israel, most revenue from its operating segments are derived from, and their assets are located in, Israel, except for part of earnings from the segment Commercial Properties, from activities outside Israel, mainly in United States.

6. Segment information (Continued)

The following tables present a reconciliation between the total results of operations as per segment information and the results of operations as per the statements of income. The adjustments relate to the presentation of the results of operations of joint ventures accounted for under the equity method under IFRS and the non-elimination of the inter-segment transactions. Additionally, in the last quarter of the fiscal year ended June 30, 2015, the Group has changed the presentation of the Statements of income which is reviewed by the CODM for purposes of assigning resources and assessing performance for the fiscal year for a better alignment with the current business vision and the metrics used to such end. These amendments affected the shopping centers and office segments. The information examined by the CODM does not include the amounts pertaining to building administration expenses and collective promotion funds from the Statements of income, and so does it exclude total recovered costs, as they are not analyzed to assess the operating performance of the segment. The CODM examines the net amount from these items (total surplus or deficit between building administration expenses and collective promotion funds and recoverable expenses). These costs and income are presented now for reconciliation of all segments and their respective consolidating operating income.

7. Information about principal subsidiaries (Continued)

Cellcom is the largest provider of mobile telecommunications in Israel; it offers its services approximately to 2.9 million subscribers with a wide range of services. By the end of 2014, the Company launched television services over the Internet. Under Israeli laws, in order for a shareholder to be able to exert control over a Telecommunications Company, such shareholder must first secure the approval of the Ministry of Communications of Israel. Such approval, consequence of change in control of IDBD, has not yet been obtained.

In November 2015, Cellcom entered into an agreement, subject to approval, with Golan Telecom Ltd. ("Golan") and its shareholders to acquire all of Golan's shares for a price of NIS 1,170 million, subject to certain adjustments. To complete the transaction, Cellcom intends to raise funds by way of a public offering and DIC expects to subscribe shares for up to NIS 100 million at that public offering to maintain its current equity interests.

During April 2016, the Anti-trust Commission of Israel and the Ministry of Communications notified Cellcom their objection to the transaction described above but failed to state the grounds for such objection.

8. Investments in associates and joint ventures

As of June 30, 2015, the Group's associates were New Lipstick, BHSA, IDBD, Tarshop, Manibil S.A., Lipstick and BACS and the Groups' joint ventures were Cyrsa S.A., Puerto Retiro, Baicom Networks S.A., Quality, NPSF, Entretenimiento Universal S.A. and EHSA. The shares of these investments are not publicly traded except for BHSA and IDBD, at such date.

Due to IDBD's consolidation, Adama, Mehadrin Ltd., PBEL Real Estate Ltd., Gav-Yam Properties in Lod, were included as associates, among others.

Restrictions, commitments and other matters in respect of investments in Operations Center Argentina

Legal reserve applicable to the Argentine Companies

According to the Argentine laws, 5% of the profit of the year is separated to constitute legal reserve until they reach legal capped amounts (20% of total capital). This legal reserve is not available for the dividend distribution and can only be released to absorb losses. The Group's investments under these laws have not reached the legal capped amounts.

There are no contingent liabilities relating to the Group's interest in associates and joint ventures.

8. Investments in associates and joint ventures (Continued)

Quality

In March 2011, Quality purchased an industrial plant located in San Martín, Province of Buenos Aires. The facilities have the necessary features and scales for multiple uses.

On January 20, 2015, Quality entered into an Urbanization Agreement with the Municipality of San Martín which contemplates a monetary compensation to the City Council totaling Ps. 40, payable in two installments of Ps. 20 each. The first one has been paid out, while the second – adjustable based upon the index of the Argentine Chamber of Construction – will be paid within 60 days following the registration of the land subdivision plan with the Office of Geodesy of the Buenos Aires province, a milestone that has not yet taken place.

On January 5, 2016 the Official Bulletin of the Province of Buenos Aires published the Order of Provincial Ratification (of the Municipal Ordinance), whereby the urban parameters originally requested entered into full force, thus concluding the legislative enactment process.

EHSA

During November 2012, IRSA CP acquired shares of common stock, representing 50% of Entertainment Holdings S.A. (“EHSA”)’s capital stock and votes and as a consequence IRSA CP holds a jointly indirect interest in LRSA of 25% which operates the Exhibition Center “Predio Ferial de Buenos Aires”.

In connection with the Exhibition Center, in December 2012 the Executive Branch issued Executive Order 2552/12 that annulled an executive order dated 1991 which approved the sale of the Exhibition Center to the SRA; the effect of this new order was to revoke the sale transaction.

In case 4573/2012 Sociedad Rural Argentina vs. National State – Executive Power on Declaratory Action, whereby the injunction staying the effects of Executive Order 2552/12 was lifted.

Although several resolutions have been issued since that point, to the date, we are not aware of any judicial measure petitioned by the owner of the Plot of Land and/or the National Government, or the corresponding appeals or rulings, may have affected the actual use of the Plot of Land.

Puerto Retiro

On April 18, 2000, Puerto Retiro was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Indarsa to Puerto Retiro. At the request of plaintiff, the bankruptcy court for the Buenos Aires District issued an order restraining the ability of Puerto Retiro to sell or dispose in any manner the land. Indarsa had acquired 90% of the capital stock of Tandanor to a formerly estate owned company in 1991.

8. Investments in associates and joint ventures (Continued)

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro.

In addition, Tandanor filed a civil action against Puerto Retiro and other accused parties in the criminal case for violation of section 174 subsection 5, under section 173 subsection 7 of Criminal Code. The claim expects that upon invalidation of executive order that approved the bid of Dársena Norte plot of land, Tandanor be reimbursed any other sum of money that it claims to have lost due to the alleged fraudulent purchase-sale transaction of the real property disputed in the case.

The Management and legal advisors of Puerto Retiro estimate that there are legal and technical issues to consider that the request for bankruptcy will be denied by the court as well as the fraud action. However, given the current status of the case, we cannot predict its outcome.

Tarshop

The BCRA modified certain aspects of the regulatory framework of the activities carried out by Tarshop. Based on these changes, our associate is going through a business reformulation process. In this context, the BHSA and IRSA CP approved a gradual capitalization plan to be carried out by shareholders pro rata their holdings, under which certain contributions were already made for a total amount of Ps. 215.

New Lipstick

New Lipstick has a pledge over the shares of its operating subsidiary Metropolitan. Metropolitan owns the building known as Lipstick Building in Manhattan.

Restrictions, commitments and other matters in respect of investments of the operations center in Israel

Adama

Adama is specialized in the chemical industry, mainly, in the agrochemical industry. In this framework, Adama is engaged in developing, manufacturing and selling crop protection products, while also operating in other areas based on its basic capacities (the agricultural and chemical sectors), but to a immaterial extent.

In 2011, IDBD sold 60% of Adama's shares to China National Agrochemical Corporation ("ChemChina") and was also granted a non-recourse loan in the aggregate amount of US\$ 960, which is secured by the 40% of the shares held by IDBD as of March 31, 2016. The loan is disclosed in Note 21 under Non-current loans.

8. Investments in associates and joint ventures (Continued)

IDBD through DIC reported a potential transaction whereby Koor and ChemChina would transfer their entire interests (40% and 60%, respectively) in Adama to Hubei Sanonda Co. Ltd., a Chinese public company whose shares are listed in the Shenzhen Stock Exchange, China. Sanonda's shares would be delivered as consideration for the transaction in such amount that, following the transaction, Adama would become a wholly-owned subsidiary of Sanonda and Koor would be a shareholder of Sanonda. Pursuant to Chinese laws, Sanonda's shares owned by Koor would be subject to a lock-up period of 3 years.

In February 2016, an agreement was executed to sell Class B shares of Sanonda to Hubei Sanonda Co. and to suspend trading of Sanonda shares (until August 4, 2016).

9. Financial assets and other assets held for sale

The composition of financial assets and other assets held for sale as of March 31, 2016 and June 30, 2015 is as follows:

Clal is a holding company that mainly operates in the insurance and pension markets and in segments of pension funds. The company holds assets and other businesses (such as insurance agencies) and is one of the largest insurance groups in Israel. Clal mainly develops its activities in three operating segments: long-term savings, general insurance and health insurance.

Given that IDBD failed to meet the requirements set forth by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel, to have control over an insurance company, on August 21, 2013, such commission required that IDBD grant an irrevocable power of attorney to Mr. Moshe Tery ("the Administrator") by 51% of the shareholding capital and vote interests in Clal, thus transferring control over that investee.

On December 30, 2014, the Insurance Commission sent an additional letter setting a term by which IDBD's control over and equity interests in Clal were to be sold and giving directions as to the Administrator's continuity in office, among other aspects.

9. Financial assets and other assets held for sale (Continued)

The sale arrangement outlined in the letter involves IDBD's and the Administrator's interests in the sale process under different options and timeframes. As of March 31, 2016, the current sale arrangement involved the sale of the interest in the stock exchange or in over-the-counter trades, as per the following detail and by the following dates:

- a. IDBD will have to sell at least 5% of its equity interest in Clal beginning on May 7, 2016.
- b. During each of the subsequent four-month periods, IDBD will have to sell at least an additional 5% of its equity interest in Clal.
- c. If IDBD sells more than 5% of its equity interest in Clal in any given four-month period, the percentage in excess of the required 5% will be offset against the percentage required in the following period.

IDBD's failure to fulfill its obligation in the manner described in the above paragraph will entitle the Administrator to act upon the specified arrangement in lieu of IDBD, pursuant to all powers that had been vested under the representations of the trust letter. The consideration for the sale will be transferred to IDBD, with the expenses incurred in the sale process to be solely borne by IDBD.

During February 2016, bond holders and minority shareholders filed a complaint against the Insurance Commission and the Administrator so that the order by the Administrator to sell the shares in the market is revoked, for this would cause irreversible damage to the company and its bond holders. A hearing was agreed to be held between the parties in May 2016.

On March 31, 2016 the holding of IDBD to Clal was of 55%, and as a result of the circumstances mentioned above, IDBD has accounted for it as a financial asset held for sale. Valuation as of March 31, 2016 amounts to Ps. 5,146, and a loss of Ps. 1,112 has been recorded reflecting the fall in the share price.

Claims against Clal

On the aggregate, all legal actions brought against Clal's investees out of the ordinary course of business amount to approximately NIS 17,625 (or Ps. 68,976 at the exchange rate of 3.91354).

The Group set up a reserve for all legal actions brought against Clal's investees out of the ordinary course of business in the amount of approximately NIS 96 (or Ps. 375.7 at the exchange rate of 3.91354). Most legal actions are related to consumer claims and derivative actions.

Non-recourse loan

IBBD resorts to an independent appraiser to determine the value of the non-recourse loan. The valuation model is a binomial tree where the main variable is Adama's share price.

Securities and warrants of Condor

Upon initial recognition of the new instrument, the consideration paid for the Shares and Warrants of Condor was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair values of these instruments exceeded the price of the transaction and were assessed using a valuation method that incorporates unobservable market data. Given the fact that the fair value of these instruments was estimated by applying the mentioned method, the Group did not recognize a gain at the time of initial recognition.

In March 2016, the Group has exchanged its preferred Class C shares for a new Class D preferred shares issued by Condor and, additionally, it has received cash in the amount of US\$ 1.2 million and a promissory note for US\$ 1.1 million related to dividends receivable.

In this new issue the company “Stepstone Real Estate” has been added as new partner by making a contribution of US\$ 30 million, which will be used to redeem Class A and B preferred shares and the acquisition of new hotels.

The new Class D preferred shares will accrue annual interest at a rate of 6.25% and will be convertible in common shares at a price of US\$/share 1.60.

There were no changes to the warrants held by the Group.

The Board of Directors of Condor is now formed by 4 directors of the company, 3 directors appointed by Stepstone Real Estate and 2 independent directors. In addition, the voting power held by the company in Condor amounts to 49%, thus keeping significant influence.

Investment in IDBD, associate and warrants

As described in Note 3 to the annual financial statements, in Note 15 to the financial consolidated statements as of September 30, 2015 and until acquiring control over IDBD, the Group stated its equity interest in IDBD as an associate measured at fair value, invoking the exception under IAS 28 and the warrants to acquire IDBD's common shares were booked at their quoted prices. Since October 11, 2015, as result of consolidation, the equity interest in IDBD as an associate and the warrants were eliminated following the consolidation to add IDBD's assets and liabilities on a line-by-line basis.

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range
Non-current trade receivables	Cash flows	Theoretical price	Projected discounted income as per discount rate.	5.20
Interest rate swaps	Cash flow	Theoretical price	Interest rate and cash flow future contract.	-

20. Provisions

The Group is subject to claims, lawsuits and other legal proceedings in the ordinary course of business, including claims from clients where a third party seeks reimbursement or damages. The Group's liability under such claims, lawsuits and legal proceedings cannot be estimated with certainty. From time to time, the status of each major issue is evaluated and its potential financial exposure is assessed. If the potential loss involved in the claim or proceeding is deemed probable and the amount may be reasonably estimated, a liability is recorded. The Group estimates the amount of such liability based on the available information and in accordance with the provisions of the IFRS. If additional information becomes available, the Group will make an evaluation of claims, lawsuits and other outstanding proceeding, and will revise its estimates.

(iii) The Group's companies are required to recognize certain costs related to dismantling assets and remediating sites here such assets are located.

The calculation of expenses are based on the dismantling value for the current year, taking into consideration the best estimate of future changes in prices, inflation, etc. and such costs are capitalized at a risk-free interest rate. Volume

projections for retired or built assets are restated based on expected changes from technological rulings and requirements.

- (iv) Provisions for other contractual liabilities include a series of liabilities resulting from a contractual liability or laws, regarding which there is a high degree of certainty as to the terms and the necessary amounts to discharge such liability.

Operations Center in Argentina

On February 23, 2016, a complaint was filed under a presumed class action against the Company, Cresud and some first-line managers and directors with the District Court of the United States for the Central District of California. The complaint, on behalf of people holding American Depositary Receipts of the Company between November 3, 2014 and December 30, 2015, claims violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the Company's investment in IDBD.

Such complaint was voluntarily waived on May 4, 2016 by the plaintiff and filed again on May 9, 2016 with the US District Court by the East District of Pennsylvania. The Company holds that such allegations are meritless and intends to make a strong defense in this action.

Operations Center in Israel

The amount of the provision for the Operations Center in Israel related to legal claims stands at Ps. 423. Additionally, there are other processes and actions (collective and/or individual) that are at a preliminary stage or where the amount of the claim is not specified. Therefore, it is not possible to reasonably estimate i) the probabilities of success, or ii) the potential losses, all of which depends on the progress of the respective judicial proceedings.

The main claims include the following:

Claims against Cellcom and its subsidiaries

Most legal proceedings involve consumer claims and actions derived from these claims and petitions have been filed requesting that they be admitted as class actions.

Claims against Shufersal and its subsidiaries

Most legal actions pertain to consumer claims and petitions requesting that such claims be admitted as class actions. There are also individual legal actions brought by employees, subcontractors and suppliers.

On March 28, 2016, IRSA and the Bank of New York Mellon, as Trustee, have entered into a Supplementary Trust Indenture reflecting all the modifications approved by the Noteholders' Meetings, which became effective on April 8, 2016.

The Meeting of IRSA's 2017 Corporate Notes holders scheduled for March 23, 2016 could not be held for the required quorum was not gathered. On April 7, 2016, a Meeting was held by the holders of Corporate Notes Class I issued by IRSA, on second call; upon establishing quorum, the majority of note holders of all 8.50% Class 1 Corporate Notes due in 2017 and issued by IRSA – stated at nominal value – then outstanding voted to approve of the proposed amendments to the IRSA 2017 Trust Indenture, which included basically the elimination of all financial restrictive covenants on such class. Approximately 50.30% of holders of Corporate Notes due 2017 approved the terms and conditions of the Trust Indenture for IRSA Corporate Notes 2017.

On April 7, 2016, IRSA and the Bank of New York Mellon, as Trustee, have entered into a Supplementary Trust Indenture reflecting all amendments approved by the Noteholders' Meeting, which came into force on April 8, 2016.

On March 28, 2016 and April 8, 2016, IRSA CP bought the aggregate principal amount of US\$ 59.1 and US\$ 0.4, respectively, of 7.875% Class I Corporate Notes maturing in 2017, and ordered the Trustee to settle US\$ 59.5 of the aggregate principal amount of the Corporate Notes on such dates. Following such settlements, the aggregate outstanding principal amount of 7.875% Class I Corporate Notes maturing in 2017 issued by IRSA CP was US\$ 60.5.

On April 4, 2016, IRSA CP's Board of Directors decided to approve the payment of US\$ 60.5, the remaining outstanding amount of IRSA CP's Class I Corporate Notes. Such payment was made on May 4, 2016.

On April 8, 2016, IRSA acquired US\$ 75.5 of the total nominal value of 8.500% Corporate Notes due in 2017, and ordered the Trustee on that date to redeem such amount of Corporate Notes at nominal value. Following such redemptions, the total nominal amount of outstanding corporate notes is US\$ 74.6.

On April 8, 2016, IRSA acquired US\$ 78.6 of the total nominal value of 11.500% Class II Corporate Notes due in 2017, and ordered the Trustee on that date to redeem such amount of Corporate Notes at nominal value. Following such redemptions, the total nominal amount of outstanding corporate notes is US\$ 71.4.

Issuance of IRSA CP's 8.75% Class II Corporate Notes maturing in 2023.

On March 23, 2016, IRSA CP issued corporate notes for an aggregate nominal amount of US\$ 360 million under its Global Corporate Note Program. Class II Corporate Notes accrue interest on a half-yearly basis, at an annual fixed rate of 8.75% and are repayable at maturity on March 23, 2023. The issue price is 98.722% of nominal value.

IRSA CP's Corporate Notes maturing in 2023 are subject to certain Commitments, Events of Breach and Limitations, including Limitations on Additional Indebtedness, Limitations on Restricted Payments, Limitations on Transactions with Affiliates, Limitations on the Merger, Take-over Merger and Limitations on the Sale of all or a substantial portion of the company's Assets.

In order to borrow additional debt, IRSA CP shall have to meet the additional debt Consolidated Interest Coverage ratio, which shall be higher than 2.00. The Consolidated Interest Coverage ratio is defined as Consolidated EBITDA divided by consolidated net interest. Consolidated EBITDA is defined as operating income (loss) plus depreciation and amortization, and other consolidated non-monetary charges.

Class II Corporate Notes are subject to certain financial commitments pursuant to which IRSA CP may not declare or pay dividends in cash or in kind, unless the following conditions are met at the time of payment:

- a) an Event of Default does not occur or persist,
- b) IRSA may incur at least US\$ 1.00 worth of additional debt pursuant to the "Restriction on Additional Borrowing";
and
- c) the amount of such Restricted payment exceeds the sum of:
 - (i) 100% of the accumulated EBITDA for the period (considered as one single accounting period) from July 1, 2015 to the last day of the last fiscal quarter ended before the date of such Restricted Payment, less an amount equal to 150% of net consolidated interest for such period; and
 - (ii) any debt reduction by the Issuer or its Subsidiaries after the Issue Date (other than Debt due by the Subsidiaries to the Issuer) through a swap or exchange of shares of the Issuer or its Subsidiaries.

IDBD has certain restrictions and financial covenants in connection with its financial debt, included in its debentures, loans from banks and financial institutions.

As of December 31, 2015 IDBD reported that the application of the “Liquidity Covenant” and the “Economic Equity Covenant” was suspended.

Note that, it was agreed between IDBD and the relevant financial entities that the parties would work to formulate an arrangement, to replace or amend the current financial covenant by September 30, 2016.

If such arrangement has not been reached, then with respect to the results for IDBD’s third quarter of 2016 and thereafter, the previous financial covenants will re-apply. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past with respect to the Liquidity Covenant and the Economic Equity Covenant with respect to IDBD’s results for the first quarter of 2016.

Particularly, if the previous financial covenants will re-apply, IDBD estimates it will not be able to fulfill the covenant which stipulates that the balance of cash and marketable securities will not fall below the scope of forecasted current maturities for the two quarters subsequent to the reporting quarter (the “Liquidity Covenant”). Regarding the Economic Equity Covenant, it is noted that the economic equity as of December 31, 2015, amounted to a positive balance of NIS 152 million, significantly lower than the thresholds which were determined in the past.

Additionally, in light of and due to the reduction of Mr. Ben Moshe’s shareholding since February 2015, in March 2016 IDBD reached agreements with the lending entities on covenants governing change of control and other amendments to covenants governing the sale of major holdings.

IDBD is continuing to work towards reaching understandings with the relevant lending corporations, and additional contractual issues in the loan agreements.

In December 2015, PBC, issued three series of debentures under the current programs for an aggregate amount of NIS 417 million (or Ps. 1,397 million at the exchange rate of 3.35).

In addition, IDB Tourism renegotiated the terms and conditions of the loan for the purchase of aircrafts. The amendments included the extension of the term.

- (1) They pertain to a bank loan in the amount of NIS 750 million, where repayment of principal had been deferred for three years starting March 2014 until March 2018.
- (2) In May 2012, IDBD was granted a secured loan in the amount of NIS 150 million by the financial institutions of Menorah Group. Principal is repayable in two installments of NIS 50 million and NIS 100 million in 2017 and 2018, respectively. As part of the loan, IDBD granted the lender any stock call option on the shares it held in DIC, representing approximately 1.7% of the share capital issued by this company. These stock options may be exercised until May 2016. The loan was secured by shares of DIC, Clal Industries Ltd. and Clal.
- (3) Without preset maturities.

Plans associated to certain key members of management

IDBD, through its subsidiaries, has granted stock incentive plans to key members of management. In April 2016, some modifications have been introduced to the plans as regards exercise prices for each of the five tranches of options, thus establishing a range of NIS 9.5 to NIS 12.5. The share price at the time of approval was NIS 7.73.

30. Related parties transactions

As mentioned in Note 4, on October 11, 2015, the Group took over IDBD. Before takeover, the Group had entered into certain transactions with IDBD as associate, mainly related to the subscription of warrants and/or capital contributions, but had not conducted commercial transactions. See Note 4 for further information related to investment in IDBD.

Below are the most significant transactions conducted with related parties in each of the operations centers, their balances as of March 31, 2016 and June 30, 2015 and the corresponding income for each of the reporting periods in these financial statements:

Operations center in Argentina:

1. Purchase and sale of goods and/or service hiring

In the normal course of its business and with the aim of making resources more efficient, the Group, or its related parties, including its parent company, in certain occasions purchases and/or hires services which later sells and/or recovers for companies of the Group or other related parties, based upon their actual utilization.

As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net payables balances in the amount of Ps. 4 and net receivables of Ps. 6, respectively, with its controlling company, associates, joint ventures and other related parties, related to sales of advertising seconds to third parties, sales of inputs and materials, and reimbursement of expenses for acquired and/or lent services, among others. These operations do not entail profits to the company recovering expenses, for the same are carried out as per the cost value of the goods or services acquired.

2. Corporate Service Agreement

On June 30, 2004, the Group and its parent Company, Cresud, entered into a Master Agreement for the Exchange of Corporate Services ("Frame Agreement"), automatically renewable every 24 months for equal periods, unless it is terminated by any of the parties upon prior notice. Given that companies have operating areas with certain common characteristics, the Master Agreement seeks to reduce its incidence on operating performance, leveraging and optimizing the individual efficiencies of each of the companies in the various areas that form part of the operating administration.

As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net payable balances in the amounts of Ps. 47 and Ps. 52, respectively, with its controlling company. For the nine-month period ended March 31, 2016 and 2015, the Group recorded corporate service expenses in the amount of Ps. 88 and Ps. 68, respectively.

3. Legal services

The Group hires legal services from Estudio Zang, Bergel & Viñes, Our Vice-president, Saúl Zang, and our alternate directors, Juan M. Quintana, Salvador D. Bergel, and D. Pablo Vergara del Carril are members of that law firm.

As of March 31, 2016 and June 30, 2015, the Group maintains net payable balances in the amount of Ps. 1 and Ps. 0.5, respectively, with the Estudio Zang, Bergel & Viñes. For the nine-month period ended March 31, 2016 and 2015, the Group recorded legal services expenses in the amounts of Ps. 4 and Ps. 3, respectively.

4. Property leases and/or rights of use

The Group normally leases diverse spaces in its Shopping Centers (stores, stands, storage rooms or advertising spaces) to its associates Tarshop and BHSA, and to a lesser extent to other related parties. Lease agreements entered into with associates included similar provisions to those included in agreements with third parties.

Additionally, the Group assigned under a free-use contract certain spaces in some of its shopping centers to Fundación Museo de los Niños, a non-profit organization, to establish the "Museo de los Niños, Abasto" and "Museo de los Niños, Rosario", to interactive learning centers for children and adults.

30. Related parties transactions (Continued)

The Group, together with its parent company, rent the offices of Eduardo S. Elsztain, property of Isaac Elsztain e Hijos S.C.A. (a company controlled by certain relatives of Eduardo S. Elsztain) and Hamonet S.A. (a company controlled by Fernando A. Elsztain, director of the Group and cousin of Eduardo S. Elsztain), under operating lease contracts, under standard terms and conditions, renewables, expiring in 2017.

Furthermore, the Group leases certain floors and parking space at the Intercontinental Plaza building owned by the Group to its parent company, under operating leases agreements under standard terms and conditions which expires in 2017. The Group also leases certain floors and parking space of its building Suipacha 652 to its associate Tarshop, under operating leases agreements which expires in 2017.

As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 1 and Ps. 2, respectively, with its related parties. The Group recognized income from leases and services provided of Ps. 17 and Ps. 14 for the six-month periods ended March 31, 2016 and 2015, respectively.

5. Remuneration of the Board of Directors and Top Management

The remuneration of directors for each fiscal year is based on the provisions established by the Law N° 19,550, taking into consideration whether such directors perform technical-administrative functions and depending upon the results recorded by the Company during the fiscal year. Once such amounts are determined, they should be approved by the Shareholders' Meeting. The members of Top Management are appointed and removed by the Board of Directors, and perform functions in accordance with the instructions delivered by the Board itself.

The remuneration earned by Top Management for their functions consists of an amount that is fixed taking into account the manager's backgrounds, capacity and experience, plus an annual bonus based on their individual performance and the Group's results. Also, they participate in defined contribution and share-based incentive plans.

As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net payable balances in the amount of Ps. 41 in both periods, with Directors and Top Management members. The Group incurred a charge from remuneration to Board of Directors and Top Management of Ps. 102 and Ps. 55 for the nine-month periods ended March 31, 2016 and 2015, respectively.

6. Financial operations

In the normal course of its activities, the Group enters into diverse loan agreements or credit facilities with related parties. These loans accrue interest at market rates and are cancelable wholly or partially prior to the due date, either in cash and/or through capitalization (conversion into shares), and/or by way of offsetting arrangements involving debit and credit balances existing between the parties.

As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 1,006 and Ps. 3,083, respectively, with related parties, with the most significant balance as of March 31, 2016 being a receivable with Inversiones Financieras del Sur in the amount of Ps. 1,036 (equal to US\$ 68.8 million). For the nine-month periods ended March 31, 2016 and 2015, the Group recognized a gain of Ps. 4 and Ps. 10, respectively, from which US\$ 3.7 million correspond to the borrowing to IFISA.

In February 2015, the Group, through Dolphin sold 71.39 million IDBD shares to IFISA, at the closing price of NIS 1.39 per share, making a total of NIS 99.23 million, equal to US\$ 25.65 million at the exchange rate prevailing on the transaction date thus receiving a payment of US\$ 4 million cash with the balance due in February 2016, plus interest at Libor + 3%. On May 9, the parties agreed to extend the expiration date to June 8, 2016, to be automatically renewable every 30 days for a maximum term of 180 days, and increased the rate to 9%. The new expiration date and the change of interest rate were also applied to the financing granted on July 31, 2015. As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 1,036 and Ps. 199, respectively.

In February 2016, Dolphin Netherlands B.V., a subsidiary of Dolphin, entered into an option contract with Inversiones Financieras del Sur S.A. ("IFISA") whereby Dolphin is granted the right, but not the obligation to acquire 92,665,925 shares of IDB Development Corporation Ltd. held by IFISA at a share price of NIS 1.64 plus an annual interest of 8.5%. The exercise date for the option extends for two years.

The Group, through ERSA and PAMSA, acquired 12,072,900 corporate notes of Cresud, for an aggregate amount of Ps. 109.9 during the fiscal year 2015; and through IRSA CP, ERSA and PAMSA, 15,981,795 for an aggregate amount of Ps.146.6 during this fiscal year. As of March 31, 2016 the balance is Ps. 206 and financial income amounts to Ps. 35.

In June 2015, the Group subscribed Convertible Notes into ordinary shares, issued by BACS for a face value of 100,000,000. As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 116 and Ps. 110.9, respectively. For the nine-month period ended March 31, 2016, the Group recognized a gain of Ps. 15.5.

7. Donations

Fundación IRSA is a non-profit institution that seeks to support and generate initiatives concerning education, the promotion of corporate social responsibility and the entrepreneurial spirit of the youth. It carries out corporate volunteering programs and fosters donations by the Group's employees. The main members of Fundación IRSA's Board of Directors are: Eduardo S. Elsztain (President); Saul Zang (Vice President I), Alejandro Elsztain (Vice President II) and Mariana C. de Elsztain (secretary). It funds its activities with the donations made by the Group.

As of March 31, 2016 and 2015, the Group recognized a charge of Ps. 5 and Ps. 3, respectively, corresponding to donations.

8. Services rendered and received

The Group provides management services to associates, joint ventures and other related parties. As of March 31, 2016 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 4 and Ps. 3, respectively, with related parties. The Group incurred a charge, related to management fees, of Ps. 3 and Ps. 2 for the nine-month periods ended March 31, 2016 and 2015, respectively.

Operations center in Israel:

1. Remuneration of the Board of Directors and Top Management

The compensation of the Board of Directors is determined in accordance with the resolutions made by the Shareholders' Meeting. The members of Top Management are appointed and removed by the Board of Directors, and perform functions in accordance with the instructions delivered by the Board itself.

The remuneration earned by Top Management for their functions consists of an amount that is fixed taking into account the manager's backgrounds, capacity and experience, plus an annual bonus based on their individual performance and the Group's results. Also, they participate in defined contribution and share-based incentive plans.

As of March 31, 2016, the Group maintains aggregate net payable balances in the amount of Ps. 12.4 with Directors and Top Management members.

2. Financial operations

In the normal course of its activities, the Group enters into diverse loan agreements or credit facilities with related parties. These loans accrue interest at market rates and are cancelable wholly or partially prior to the due date, either in cash and/or through capitalization (conversion into shares), and/or by way of offsetting arrangements involving debit and credit balances existing between the parties.

As of March 31, 2016, the Group maintains aggregate net receivable balances in the amount of Ps. 2,254 with related parties in this respect, with the most significant being Ps.1,565 related to a loan granted by ELRON to its subsidiary BPEL.

31. Subsequent events

- On May 9, 2016, IDBD received a letter from the Insurance Commission informing that it ordered the trustee holding Clal shares to sell 5% of those shares. As of the balance sheet date, no action had been taken.

• On April 21, 2016, the Noteholders Meeting decided to apply the acceleration clause on the outstanding balance owed by IDBD to Noteholders (Series I) and the lawyer representing the Noteholders' Trustee (Series I) demanded payment no later than May 8, 2016. In response, the Company informed the lawyer that it radically rejected the Noteholders' Meeting decision because it lacked any ground or reason for such decision and reserved the right to start legal actions against the Trustee. The decision by the Noteholders' Meeting has no legal force until it is confirmed by a competent court. As of the balance sheet date, Noteholders have not filed any request for confirmation with a competent court.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL
STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of March 31, 2016, and the unaudited condensed interim consolidated statements of income and comprehensive income for the nine-month period and three-month period ended March 31, 2016, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and unaudited condensed interim consolidated statement of cash flows for the nine-month period ended March 31, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard No. 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 of these unaudited condensed interim consolidated financial statements.

1. General information and company's business

IRSA was founded in 1943, primarily engaged in managing real estate holdings in Argentina since 1991.

IRSA is a corporation incorporated and domiciled in Argentina. The registered office is Bolívar 108, 1st Floor, Autonomous City of Buenos Aires, Argentina.

The Company owns, manages and develops, directly and indirectly through its subsidiaries, a portfolio of office and other rental properties in Buenos Aires. In addition, IRSA through its subsidiaries, associates and joint ventures manages and develops shopping centers and branded hotels across Argentina, and also office properties in the United States of America and Israel. As mentioned in Note 1 to the Unaudited Condensed Consolidated Financial Statements, on October 11, 2015 IRSA acquired control over IDBD. This Israeli company is one of the largest and most significant conglomerates of Israel, which takes part in many markets and sectors of the industry.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on May 12, 2016.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

The Unaudited Condensed Interim Financial Statements have been prepared in accordance with the Technical Resolution N° 26 of the Argentine Federation of Professional Councils of Economic Science and with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Law N° 19,550 and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to these Unaudited Condensed Interim Separate Financial Statements according to IFRS.

These Financial Statements should be read together with the annual separate financial statements of the Company as of June 30, 2015 prepared in accordance with the Technical Resolution N° 26. These Unaudited Condensed Interim Separate Financial Statements are presented in Argentine Pesos.

These Unaudited Condensed Interim Separate Financial Statements corresponding to the nine and three-month periods ended March 31, 2016 and 2015 have not been audited. The Company's Management believes they include all necessary adjustments to fairly present the results of each period. The Company's nine and three-month periods ended March 31, 2016 and 2015 results do not necessarily reflect the proportion of the Company's full-year results.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

2.2. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2015, and are based on those IFRS in force as of June 30, 2015 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). In addition, the most significant accounting policies are described in the Annual Separate Financial Statements and in Note 2 to the Unaudited Consolidated Financial Statements as of March 31, 2016.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2015, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of March 31, 2015 and June 30, 2015 shown in these financial statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

3. Acquisition and disposals

See description of acquisitions and disposals made by the Company and/or its subsidiaries for the nine-month period ended March 31, 2016 in Note 4 to the Unaudited Condensed Interim Consolidated Financial Statements. Among the acquisitions, it is described the takeover of IDBD.

Company's Merger and Spin-off – Merger with Solares de Santa María S.A. (Solares), Unicity S.A. (Unicity) and Spin-off – Merger with E-Commerce Latina S.A. (ECLSA)

Pursuant to the previous merger and spin-off commitment undertaken on September 16, 2015, the following transactions were agreed upon:

- a) the “Takeover Merger” with Solares, where Solares would be the acquired or target company and IRSA would be the acquirer;
- b) the “Takeover Merger” with Unicity, where Unicity would be the acquired or target company and IRSA would be the acquirer;
- c) the spin-off of a 7.96% ECLSA equity, which accounts for a 11.39% equity interest in Solares, in order for that interest to be subsequently merged into IRSA. ECLSA shall retain the ownership of all of its other rights, obligations, assets and liabilities.

That was approved in Shareholders' Meeting held on November 26, 2015.

The following table summarizes the effect the merger, and the spin-off-merger would have had on the Company's separate balance sheet as of June 30, 2015.

4. Financial risk management and fair value estimates

The Company's activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual separate financial statements as of June 30, 2015. There have been no changes in the risk management or risk management policies applied by the Company since the end of the annual fiscal year, except for those financial risks incorporated by IDBD's business combination. See Note 5 to the Unaudited Condensed Interim Consolidated Financial Statements.

5. Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several operating and holding subsidiaries, associates and joint ventures. Its main subsidiaries include IRSA CP and Tyrus.

As indicated in Note 1 to the Unaudited Condensed Consolidated Financial Statements, the Company has an indirect participation in IDBD through Tyrus. Factors namely (i) IDBD's current financial position and need for financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern.

Its main associates include BHSA and New Lipstick. Its main joint ventures include Cyrsa, Puerto Retiro and Baicom.

Dividends distribution (iii)	(286)	(455)
Offer to purchase non-controlling shares	(190)	-
Capital reduction (iv)	-	(123)
Reimbursement of expired dividends	-	1
Other reserves	49	-
Intergroup transactions from transfer of assets	-	(2,158)
Disposal of subsidiaries, associates and joint ventures	(3)	-
End of the period / year (v)	4,036	2,732

- (i) During the period capital contributions were made to Tyrus S.A. and Manibil S.A. for Ps. 2,873 and Ps. 10, respectively. During the fiscal year ended as of June 30, 2015 capital contributions were made to Manibil S.A., Tyrus S.A., Solares and Efanur S.A. for Ps. 7, Ps. 1,288, Ps. 1 and Ps. 82 respectively.
- (ii) See Note 3.
- (iii) During the period Palermo Invest S.A., Inversora Bolivar S.A., ECLSA, CYRSA and IRSA CP distributed dividends to the Company for an amount of Ps. 3, Ps. 3, Ps. 3, Ps. 6 and Ps. 271, respectively. During the year ended June 30, 2015, IRSA CP, Cyrsa S.A., BHSA, Inversora Bolivar S.A. and ECLSA, distributed dividends to the company for an amount of Ps. 418, Ps. 31, Ps. 2, Ps. 2, and Ps. 2, respectively.
- (iv) During the year ended June 30, 2015, Cyrsa S.A. and Nuevas Fronteras S.A. made a capital reduction to the Company in the amount of Ps. 111 and Ps. 12, respectively.
- (v) As of March 31, 2016 and June 30, 2015 includes Ps. 136 and Ps. 583, respectively, corresponding to equity interest in IRSA CP, included in Other liabilities non-current. Even though the Company has positive financial position and income, under applicable accounting standards, the Company has recorded an adjustment to consolidated income items included in the asset balance of the subsidiary (transferred to this as part of the transaction indicated in Note 3 to the Annual Financial Statements), resulting in a negative accounting exposure. This effect will be reverting in future fiscal years by way of an amortization over the residual useful life of the real property transferred and/or by total or partial disposition of those assets.

10. Financial instruments by category

Determination of fair values

See determination of fair value in Note 14 to the Unaudited Condensed Interim Consolidated Financial Statements.

The following tables presents the financial assets and financial liabilities of the Company that are measured at fair value as of March 31, 2016 and June 30, 2015 and their allocation to the fair value hierarchy:

	March 31, 2016			Total
	Level 1	Level 2	Level 3	
Assets				
Financial assets at fair value through profit or loss:				
- Mutual funds	2	-	-	2
- Government bonds	1	-	-	1
- Derivative financial instruments	-	15	-	15
Total assets	3	15	-	18

	June 30, 2015			Total

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of March 31, 2016, and the unaudited condensed interim separate statements of income and comprehensive income for the nine-month and three-month period ended March 31, 2016 the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the nine-month period ended March 31, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in note 2.1 to the unaudited condensed interim separate financial statements attached.

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 5 of these unaudited condensed interim separate financial statements.

IRSA Inversiones y Representaciones Sociedad Anónima

Summary as of March 31, 2016

Buenos Aires, May 12, 2016 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BASE: IRSA), Argentina's leading real estate company, announces today the results of its operations for the nine month period of FY 2016 ended March 31, 2016.

I. Brief comment on the Company's activities during the period, including references to significant events occurred after the end of the period.

Consolidation of IDB Development Corporation

On October 11, 2015, the Group obtained control of the Israeli company IDB Development Corporation Ltd. ("IDBD"). During the past quarter, the investment was consolidated in the balance sheet, and as from this third quarter of fiscal year 2016, it is also disclosed at income statement level. IDBD's fiscal year-end is on December 31 of each year, whereas the Company's is on June 30. Moreover, in compliance with Israeli regulations, IDBD reports its quarterly and annual results after the expiration of the Argentine statutory terms. For such reasons, the Company will be unable to have available IDBD's quarterly results as and when due in order to report them to the CNV in its financial statements for the period ended March 31, 2016. Thus, the Company will consolidate results from IDBD's operations with a three-month mismatch adjusted for the effects of material transactions occurred during the reported period. In this way, the results of IDBD's operations for the period running from October 11, 2015 (date of acquisition) until December 31, 2015 are included in the interim comprehensive results of the Group for the nine-month period ended on March 31, 2016, except for material transactions considered. The Company estimates a similar mismatch in obtaining IDBD's results in the succeeding periods.

IDBD is one of the largest and most diversified holding companies in Israel. Through its subsidiaries, associates, joint ventures and other investments, IDBD is engaged in numerous markets and industry sectors in Israel and other countries, including real estate (Property & Building Corporation), supermarkets (Shufersal), agroindustry (Adama), insurance (Clal Holdings Insurance Enterprises, hereinafter Clal), and telecommunications (Cellcom). After the closing of this quarter, IDBD's shares were delisted from the Tel Aviv Stock Exchange ("TASE"). However, the company will continue to be registered with the TASE as a "Debentures Company" pursuant to Israeli law, as it has bonds listed in such exchange.

Significant assets have been added in various industries in which the Group did not have investments until to date, as well as liabilities for loans taken by IDBD and its subsidiaries.

The company is conducting the "Purchase Price Allocation" process, which is expected to be completed on June 30, 2016.

We have decided to break down reporting into an Argentine Operating Center and an Israeli Operating Center. From the Argentine Operating Center, the Group, through IRSA and its subsidiaries, manages the businesses in Argentina and the international investments in the Lipstick Building in New York and the Condor Hospitality Trust hotel REIT.

From the Israeli Operating Center, the Group manages IDBD.

II. Shopping Centers (through our subsidiary IRSA Propiedades Comerciales S.A.)

During the nine-month period of fiscal year 2016, consumption at shopping centers maintained good performance levels. Our tenants' sales reached ARS 20,962.3 million during the first nine months of fiscal year 2016, 36.3% higher than in the same period of 2015 (30.0% without considering sales from Distrito Arcos and Alto Comahue Shopping). In the third quarter of 2016, there was a slight deceleration in the growth rate of sales, which rose 29% as compared to the third quarter of 2015 (25.4% in the same shopping centers). Our portfolio's leasable area totaled 334,080 square meters during the quarter under review, whereas the occupancy rate stood at optimum levels of 98.6%, reflecting the quality of our portfolio.

III. Offices

The A+ office market in the City of Buenos Aires remains robust. Demand for Premium commercial spaces continues its upward trend, with sale prices in the whereabouts of USD 4,200 per square meter, 5% higher than at the closing of 2015, while rental prices increased slightly as compared to the previous year, averaging USD 30 per square meter. The vacancy rate stood at 10.8% slightly below the figures recorded in 2015.

As concerns the A+ office market in the Northern Area, we have noted a significant improvement in the price of units during the last 10 years, and we believe in its potential during the next decade. Rental prices have remained at USD 24.5 per square meter, whereas vacancy continues to drop, down to 7.4% in March 2016 from 9.4% in March 2015.

EBITDA(*)	56	-49	-214.3	%	157	189	-16.9	%

(*)EBITDA for 9M15 excludes stamp tax expenses incurred in the transfer of assets.

Revenues from the Offices segment decreased by 6.0% in the first nine months of fiscal year 2016 due to a 28% reduction in the leaseable area as a result of the sales made during the period, offset by higher rental prices in ARS/sqm, as lease agreements are denominated in U.S. dollars. In addition, the portfolio's occupancy stood at 94%, slightly lower than the one recorded in the past quarter, mainly due to the partial sale of the Intercontinental building, whose occupancy rate was higher than the portfolio average. As compared to the same quarter of 2015, occupancy dropped 5.3% due to the vacancy of two floors in the "República" building during the second quarter of 2016, which we expect to occupy in the short term. The segment's EBITDA, excluding stamp tax expenses incurred in the transfer of assets, dropped by 16.9% during the period due to lower revenues and higher administrative and selling expenses.

V. Hotels

During the first nine months of fiscal year 2016, the hotel segment recorded an increase in revenues of 28.1% mainly due to the depreciation of the exchange rate, which resulted in an increase in the average rate per room, offsetting the lower average occupancy in the 3 hotels, which stood at 61.4% during the third quarter of 2016. The segment's EBITDA rose 76.5%, as the increase in costs and selling expenses lagged behind that of revenues.

Lipstick Building, New York, United States

The Lipstick Building is a landmark building in the City of New York, located at Third Avenue and 53th Street in Midtown Manhattan, New York. It was designed by architects John Burgee and Philip Johnson (Glass House and Seagram Building, among other renowned works) and it is named after its elliptical shape and red façade. Its gross leaseable area is approximately 57,500 sqm and consists of 34 floors.

As of March 31, 2016, the building reached an occupancy rate of 95.11%, thus generating an average rent of USD 67.23 per sqm.

Lipstick	March-16	Dec-15	YoY Var	
Gross Leaseable Area (sqm)	58,092	58,094	-	
Occupancy	95.11	95.11	%	0pp
Rental price (USD/sqm)	67.23	65.26	3.02	%

In March 2016, two lease agreements were executed: one for the lease of the entire Floor 28 and another one for a portion of the underground floor, at an average rental price of US\$ 85 per square meter. This will cause occupancy to rise to over 97% of the total surface area.

Moreover, we successfully completed the building's certification process and obtained the LEED EB: O&M Gold certification. The implementation of this project started in July 2015, and it has concluded with a certification that endorses the best environmental practices, transforming the building's operational standards.

Investment in Condor Hospitality Inc.

We maintain our investment in the Condor Hospitality Trust hotel REIT (NASDAQ: CDOR) through our subsidiary Real Estate Strategies L.P. ("RES"), in which we hold a 66.3% interest. Condor is a REIT listed in Nasdaq focused on medium-class and long-stay hotels located in various states of the United States of America, operated by various operators and franchises such as Comfort Inn, Days Inn, Hampton Inn, Holiday Inn, Sleep Inn, and Super 8, among others.

During the last months, the company's results have shown an improvement in operating levels and it has continued with its strategy of selectively disposing of lower-class hotels at very attractive prices and replacing them with higher-class hotels

In March 2016, the Company exchanged its Class C preferred shares for new Class D preferred shares issued by Condor. In this new issue, "Stepstone Real Estate" joined as new partner to the investment by contributing US\$ 30 million, which were used to retire the Class A and B Preferred shares and to acquire new hotels.

The new Class D preferred shares will accrue interest at an annual rate of 6.25% and will be convertible into common shares at a price of US\$ 1.60 per share at any time upon the occurrence of an event of capitalization with respect to the Company.

Condor's board of directors will be composed of 4 directors nominated by the Company, 3 by Stepstone and 2 independent directors. Moreover, the Company's voting rights in Condor reach 49% of its total voting rights.

VIII. Investment in IDB Development Corporation

a) Acquisition of Control over IDBD

On May 7, 2014, a transaction was closed whereby the Group, acting indirectly through Dolphin, acquired, jointly with E.T.H.M.B.M. Extra Holdings Ltd. (“ETH”, a non-related company incorporated under the laws of the State of Israel) controlled by Mordechay Ben Moshé, an aggregate of 106.6 million common shares in IDBD representing 53.30% of its stock capital, under the scope of the debt restructuring process of IDBD’s holding company, IDBH, with its creditors (the “Arrangement”).

Under the terms of the agreement entered into between Dolphin and ETH, to which Dolphin and ETH adhered (the “Shareholders' Agreement”), Dolphin acquired a 50% interest in this investment, while ETH acquired the remaining 50%. The initial amount invested by both companies was NIS 950 million, equivalent to approximately USD 272 million at the exchange rate prevailing on that date.

On October 11, 2015, the shareholders’ agreement became ineffective and IFISA (a company indirectly controlled by Eduardo S. Elsztain) acquired the shares in E.T.H.M.B.M. Extra Holdings, and the directors appointed by ETH in IDBD tendered their irrevocable resignation to their positions in the Board of Directors. In this way, Dolphin became entitled to appoint new board members.

In this way, the Group started to consolidate IDBD effective October 11, 2015.

As of to date, the investment made in IDBD is US\$ 515 million, and IRSA’s indirect equity interest reached 68.3% of IDBD’s total stock capital.

b) Tender Offers

On March 31, 2016, Dolphin satisfied the commitments assumed by it under the amendment to the debt restructuring agreement of IDBD’s controlling company IDB Holdings Corporation Ltd. (“IDBH”) with its creditors (the

“Arrangement”). Such changes were approved by 95% of IDBD’s minority shareholders on March 2, 2016 and by the competent court on March 10, 2016.

Therefore, as of March 31: (i) Dolphin purchased all the shares held by IDBD’s minority shareholders; (ii) all the warrants held by IDBD’s minority shareholders expired; and (iii) Dolphin made additional contributions in IDBD in the form of a subordinated loan, as described below.

The price paid for each IDBD share according to the holdings as of March 29, 2016 was: (i) NIS 1.25 in cash, resulting in a total payment of NIS 159.6 million (US\$ 42.2 million); (ii) NIS 1.20 per share through the subscription and delivery of IDBD’s Series 9 bonds (“IDBD Bonds”) issued by IDBD and paid by Dolphin at par value; therefore, it subscribed bonds for NIS 166.5 million, including the payment to the warrant holders (as detailed below); and (iii) the commitment to pay NIS 1.05 (subject to adjustment) in cash in the event that Dolphin receives indirectly the control authorization over Clal Insurance Company Ltd. and Clal Insurance Business Holdings Ltd. (“Clal”) or IDBD sells its interest in Clal under certain standards (the “Consideration for Clal”), mainly related to the sale price of Clal above 75% of its book value and the proportion of Clal’s holding sold by IDBD, with Dolphin being required to pay in this regard, in the event that the above mentioned conditions are met, the sum of approximately NIS 155.8 (approximately US\$ 40.8 million).

As concerns the warrants held by the minority shareholders that were not exercised as of March 28, 2016, each warrant holder received the difference between NIS 2.45 and the warrant’s exercise price, IDBD Bonds (“Payment to the Warrant Holders”) and is entitled to receive the Consideration for Clal.

In addition, Dolphin injected in the company NIS 348.4 million (the “Injection in IDBD”), which were contributed as a subordinated loan, convertible into shares.

To secure payment of the Consideration for Clal, on March 31, 2016 Dolphin set up a pledge over 28% of the total stock capital in IDBD and the collection rights of a subordinated loan for NIS 210.0 million made on December 1, 2015. If new shares are issued in IDBD, additional shares shall be pledged until reaching 28% of IDBD’s total stock capital.

Dolphin has promised that it will abstain from exercising its right to convert the subordinated loan into IDBD shares until the above mentioned pledge is not released. However, if the pledge is enforced, the representatives of IDBH’s creditors will be entitled to convert the subordinated debt into shares under conditions previously agreed to such effect, provided that the maximum amount of IDBD shares that may be pledged at any time will be 35% and any excess shares must be released.

On March 31, 2016, IDBD’s shares were delisted from the Tel Aviv Stock Exchange (“TASE”) and all the minority warrants were cancelled. The company will continue to be registered with the TASE as a “Debentures Company” pursuant to Israeli law, as it has bonds listed on such exchange.

As a result of the foregoing, as Dolphin performed its obligations under the terms of the amended Arrangement, Dolphin’s investment commitments in IDBD have been fully discharged, and only the payment of the Consideration for Clal would be pending in the event that the conditions herein described were met.

Segment Data

Within this center, the Group operates in the following segments:

- o The “Commercial Properties” segment mainly includes the assets and operating income derived from the business related to the subsidiary PBC. Through PBC, the Group operates rental and residential properties in Israel, United States and other locations in the world, and executes commercial projects in Las Vegas, United States of America.
- o The “Supermarkets” segment includes the assets and operating income derived from the business related to the subsidiary Shufersal. Through Shufersal, the Group mainly operates a supermarket chain in Israel.
- o The “Agrochemicals” segment includes the income from the associate Adama. Adama is a company engaged in agrochemicals, in particular for crops.
- o The “Telecommunications” segment includes the assets and operating income derived from the business related to the subsidiary Cellcom. Cellcom is supplier of telecommunication services and its main businesses include the provision of cellular and fixed telephone, data and Internet services, among others.
- o The “Insurance” segment includes the assets from the business related to Clal. This company is one of the largest insurance groups in Israel, whose businesses mainly comprise pension and social security insurance and other insurance lines. As set forth in Note 9, 51% of Clal’s controlling shares are deposited in a trust following the instructions of the Israeli’s Capital Markets Commission in order to comply with the sale of Clal’s controlling stake; therefore, the company is not fully consolidated on a line-by-line basis, but under a single line as a financial instrument at fair value, as required under IFRS under the current circumstances in which no control is exercised.
- o The “Others” segment includes the assets and income from other miscellaneous businesses, such as technological developments, tourism, oil and gas assets, electronics, and other sundry activities.

The revenues and operating income from the Commercial Properties segment through the subsidiary Property & Building (“PBC”) reached NIS 257 million and NIS 80 million, respectively (USD 69 million and USD 22 million, respectively) during the consolidated quarter (October 1, 2015 to December 31, 2015). During this quarter there was an increase in rental income and occupancy rates from PBC’s investment properties, mainly the HSBC building in the City of New York.

The Supermarkets segment, through Shufersal, recorded revenues of NIS 2,911 million (USD 775 million) for the quarter, mainly due to an increase in revenues from the retail and real estate segments. Same-store sales rose 6.4% during the quarter under review, compared to the same quarter of the previous fiscal year. Sales per square meter stood at NIS 5,799 in the fourth quarter of 2015, as compared to NIS 5,260 in the same quarter of the previous fiscal year, accounting for a 10.2% increase, mainly attributable to the reduction of sales areas and changes in the shopping cart components and sales campaign mix. Operating income from this segment reached NIS 262 million (USD 69 million).

The Telecommunications segment, operated by Cellcom, recorded revenues of NIS 1,113 million (USD 296 million). There was a decrease in revenues as compared to the same quarter of 2014 in both revenues from services and revenues from handsets. Netvision’s contribution to total revenues during the fourth quarter of 2015 was NIS 222 million. The reduction in revenues from services during the fourth quarter of 2015 mainly reflected lower revenues from cell telephone services due to the continued erosion of the price of these services as a result of stronger competition in the cell telephone market and lower revenues from international call services. The reduction in the revenues from handsets during the fourth quarter of 2015 was mainly due to the reduction in the number of cell phones sold during the fourth quarter of 2015 as compared to the fourth quarter of 2014, partially offset by an increase in revenues from handsets for Netvision’s final users. Netvision’s contribution to the revenues from handsets during the fourth quarter of 2015 was NIS 57 million. Operating loss for the fourth quarter of 2015 was NIS 87 million (USD 24 million).

The “Others” segment recorded revenues for NIS 163 million (USD 43 million), and an operating loss of NIS 46 million (USD 12 million).

As concerns “Clal”, the Group values its interest in this insurance company as a financial asset at fair value. The valuation of Clal’s shares was NIS 1,315 million (USD 350 million) as of March 31, 2016.

Finally, the results from the agrochemical company “Adama” are recorded at proportional equity value. For the consolidated quarter, a loss of NIS 35 million (USD 9 million) was recorded in this regard.

On March 23, 2016, the Meeting of Holders of IRSA's Notes, Series 2, was held. The requisite quorum was present at the meeting, and the Holders of a majority in aggregate principal amount of IRSA's 11.500% Notes due 2020, Series 2 then outstanding voted in favor of approving the proposed amendments to IRSA's 2020 Indenture. Approximately 56.79% of the holders of the 11.500% Notes due 2020 approved the conditions of IRSA's 2020 Notes Indenture.

In connection with the financial covenants applicable to IRSA's 11.500% Notes due 2020, the Noteholders' Meeting dated March 23, 2016 approved:

i) the amendment to the Limitation on Restricted Payments covenant, whereby the original covenant was replaced so as to contemplate IRSA's capacity to make any restricted payment provided that :

(a) no Event of Default shall have occurred and be continuing;

(b) IRSA is able to incur at least USD 1.00 of Additional Indebtedness under the Limitation on Incurrence of Additional Indebtedness; and

ii) IDB Development Corporation Ltd. or any of its Subsidiaries are excluded for purposes of the definition of "Subsidiary" or any of the definitions or covenants of IRSA's 2020 Notes Indenture (whether or not the Financial Statements of any of such companies are at anytime consolidated with IRSA's Financial Statements).

On March 28, 2016, IRSA and The Bank of New York Mellon, as Trustee, entered into a Supplementary Indenture reflecting all the changes approved by the Noteholders' Meeting, which became effective on April 8, 2016.

The Meeting of Holders of IRSA's 2017 Notes convened for March 23, 2016 could not be held due to the failure to reach the requisite quorum. On April 7, 2016, the Meeting of Holders of IRSA's Series 1 Notes was held on second call. At such meeting, the requisite quorum was present and the Holders of a majority in aggregate principal amount of IRSA's 8.50% Notes due 2017, Series 1, then outstanding, voted in favor of the approval of the proposed amendments to IRSA's 2017 Indenture. Approximately 50.30% of the holders of the 2017 Notes approved the terms of IRSA's 2017 Notes Indenture, which basically provided for the deletion of all the financial restrictions.

On April 7, 2016, IRSA and The Bank of New York Mellon, as Trustee, entered into a Supplementary Indenture reflecting all the changes approved by the Noteholders' Meeting, which became effective on April 8, 2016.

On March 28, and April 8, 2016, IRSA CP purchased USD 59,152,000 and USD 352,000, respectively, in aggregate principal amount of the 7.875% Notes due 2017, Series 1, and also on those dates it instructed the Trustee to repay USD 59,504,000 in aggregate principal amount of such Notes. After those repayments, the aggregate principal amount of outstanding 7.875% Notes due 2017, Series 1, issued by IRSA CP is USD 60,496,000.

On April 4, 2016, the Board of Directors of IRSA CP approved the repayment of the outstanding balance of USD 60,496,000 of IRSA CP's Notes, Series 1. Payment of such Notes will be made on May 4, 2016.

On April 8, 2016, IRSA purchased USD 75,446,000 in aggregate principal amount of the 8.500% Notes due 2017, and also on such date it instructed the Trustee to repay such aggregate principal amount of Notes. After those repayments, the aggregate outstanding principal amount is USD 74,554,000.

On April 8, 2016, IRSA purchased USD 78,563,000 in aggregate principal amount of 11.500% Notes due 2017, Series 2, and also on such date it instructed the Trustee to repay such aggregate principal amount of Notes. After those repayments, the aggregate outstanding principal amount is USD 71,437,000.

Issue of IRSA CP's 8.75% Notes due 2023, Series II

On March 23, 2016, IRSA CP issued Notes for an aggregate principal amount of USD 360 million under our Global Note Program. The Series II Notes accrue interest semi-annually, at a fixed rate of 8.75% per annum, and are repayable upon maturity, on March 23, 2023. Their issue price was 98.722% of the principal amount.

IRSA CP's Notes due 2023 are subject to certain Covenants, Events of Default and Limitations, such as the Limitation on Incurrence of Additional Indebtedness, Limitation on Restricted Payments, Limitation on Transactions with Affiliates, and Limitation on Merger, Consolidation and Sale of All or Substantially All Assets.

To incur in additional indebtedness, IRSA CP is required to meet the Consolidated Interest Coverage Ratio on additional indebtedness, which should be greater than 2.00. The Consolidated Interest Coverage Ratio is defined as Consolidated EBITDA divided by consolidated interest expense. Consolidated EBITDA is defined as operating income plus depreciation and amortization and other consolidated non-cash charges.

The Series II Notes contain financial covenants limiting IRSA CP's ability to declare or pay dividends in cash or in kind, unless the following conditions have been met at the time of payment:

- a) no Event of Default shall have occurred and be continuing;
- b) IRSA is able to incur at least USD 1.00 of Additional Indebtedness under the "Limitation on Incurrence of Additional Indebtedness"; and
- c) the aggregate amount of such Restricted Payment exceeds the sum of:
 - (i) 100% of cumulative EBITDA for the period (treated as one accounting period) from July 1, 2015 through the last day of the last fiscal quarter ended prior to the date of such Restricted Payment minus an amount equal to 150% of cumulative consolidated interest expense for such period; and
 - (ii) any reductions of Indebtedness of the Issuer or its Subsidiaries after the Issue Date (other than Indebtedness of Subsidiaries owed to the Issuer) by conversion or exchange to Capital Stock of the Issuer or its Subsidiaries.

Argentine Operating Center

April 2016: Announcement of Results of the Tender Offers and Consent Solicitation and Extension of Tender Offer and Consent Solicitation for the Notes

On April 1, 2016, the Company announced the results of the previously announced tender offers to purchase for cash (the “Tender Offers”) for: (i) up to US\$76.5 million in aggregate principal amount (the “2020 Notes Tender Cap”) of IRSA’s outstanding 11.500% Notes due 2020, Series No. 2 (the “2020 Notes”); (ii) any and all of IRSA’s outstanding 8.500% Notes due 2017, Series No. 1 (the “2017 Notes”); and (iii) any and all of IRSA CP’s outstanding 7.875% Notes due 2017, Series No. 1 (the “IRSA CP Notes” and, together with the 2020 Notes and the 2017 Notes, the “Existing Notes”). The principal purpose of the Tender Offers is to retire and cancel the Existing Notes purchased by the Purchasers in the Tender Offers.

April 2016: Repayment of Intercompany Loan

On April 6, 2016, the Company repaid the intercompany loan balance owed to the company for USD 240 million, plus accrued interest, incurred as a result of the purchase of the office portfolio in December 2014.

April 2016: Transfer of offices and parking spaces to be built in the “Catalinas” site

The Company sold to its subsidiary IRSA Propiedades Comerciales S.A. (“IRSA CP”) 16,012 square meters, consisting of 14 floors (from 13 to 16 and from 21 to 30) intended for long term lease and 142 parking spaces of the building to be built in the “Catalinas” area, City of Buenos Aires. The building to be built will have a gross leaseable area of 35,468 square meters distributed over 30 office floors and 316 parking spaces in 4 underground levels. Surrender of possession is expected to take place in December 2019, and the deed of conveyance is planned to be executed in December 2020.

The transaction price was set considering two components: a “Fixed” portion, relating to the incidence of the land over the square meters purchased by IRSA CP, for a total amount of ARS 455.7 million (approximately USD 1,600 + VAT per square meter), which was paid on the date hereof, and a “Determinable” portion, as to which IRSA will pass through to IRSA CP only the actual cost of the works per square meter.

This transaction will not generate income in the Company’s consolidated financial statements because it is a related-party transaction.

Israeli Operating Center

- On May 9, 2016, IDBD received a letter from the Insurance Commission whereby it gave notice to it that it had instructed the trustee who holds Clal’s shares to sell 5% of such shares. As of the date of these financial statements, no action had been taken in this regard.
- On April 21, 2016, a meeting of bondholders (Series I) was held in which the bondholders resolved to declare the immediate repayment of the outstanding balance due by IDBD to the bondholders (Series I), and the attorney for the bondholders’ (Series I) Trustee demanded the company to pay such balance by May 8, 2016. In its response, the company stated to the Trustee’s attorney that it fully rejected the bondholders’ meeting resolution as being devoid of any legal basis, and that it reserved its right to file legal actions against the Trustee. The bondholders’ meeting

resolution is legally ineffective until it is validated by a competent court. As of the date of these financial statements, the bondholders had not made any filing with a competent court.

XVII. Brief comment on prospects for the next period

Our real estate businesses in Argentina and abroad have posted sound results in the first nine-month period of fiscal year 2016. We believe that the diversification of our business, with real estate assets in Argentina and abroad, favorably positions us to face all the challenges and opportunities that may arise in the coming years.

Our subsidiary IRSA Propiedades Comerciales S.A. keeps recording sound growth in both its shopping centers and premium offices segments. Although shopping center sales saw a slight deceleration in the third quarter of the fiscal year, occupancy remained almost full, at 98.6%. Customer flow keeps increasing and tenants continue to choose us to showcase their brands.

We will remain active during the year by promoting marketing actions, events, and promotions in our shopping centers, which have proved to be highly effective in terms of sales and have been eagerly endorsed by the public. Moreover, we plan to optimize even further the performance of our current shopping centers through improvements that result in taking better advantage of the leaseable square meters and creating higher functionality and appeal for the benefit of consumers, retailers, and tenants alike. Along these lines, we have launched a project for expanding our Alto Palermo shopping center, which is strategically located in the heart of the city and generates the highest sales per square meter in our portfolio. The project adds approximately 4,000 square meters of gross leaseable area to the shopping center, and works are expected to start in the next fiscal year.

Offices continue to exhibit sound rental prices in USD per sqm and similar occupancy rates as those observed in the previous quarter, standing at 94%. We have recorded better results from this segment during the quarter under review, thanks to the variation in the exchange rate, and we expect to obtain sound results during the next quarter.

We were able to consummate the sale of the office assets that had not been transferred to IRSA Propiedades Comerciales, as they were intended for sale. During the first 9 months of fiscal year 2016, we sold most of such stock, including the building on Juana Manso 297, certain floors in Maipú 1300 building, and four floors in a building to be developed on the “Catalinas” site in the City of Buenos Aires.

Our subsidiary IRSA Propiedades Comerciales has recently launched an office building project in the commercial complex adjacent to our Dot Baires shopping center. The project, known as “Polo Dot”, will include, in a first stage, the development of a 11-floor, 30,000-square meter office building in a property owned by the company. Works will start during the next fiscal year, and we have had a large demand for premium office spaces in this emerging new commercial hotspot.

We are optimistic regarding the opportunities that may arise in Argentina toward the closing of fiscal year 2016 and the start of the next fiscal year hand in hand with the new administration. We have a large reserve of lands intended for future shopping-center, office, and mixed-use developments in an industry scenario with high growth potential.

As concerns our investments outside Argentina, we will continue working in the improvement of the operating ratios of our “Lipstick” building in New York. Our investment in “Condor Hospitality Trust” hotel REIT (NASDAQ: CDOR) has shown very good results in the last months derived from its sales of hotels, whilst it has managed to seize good opportunities for purchasing higher class hotels. We believe that Stepstone’s recent entry as partner to the investment and the simplification of the shareholding structure will help unleash value in Condor. We trust in the new senior management and hope to reap the benefits of this investment in the future.

Regarding our investment in the Israeli company IDBD, during this fiscal year we have been reducing the company's indebtedness level and rolling out a strategy intended to improve operating margins in each of its business units. A new CEO and CFO were appointed, who are working proactively toward simplifying and optimizing its capital structure. In 2016, we will continue to work for deleveraging the company and improving the results of its operating subsidiaries. We trust in the value of this investment, which we expect will deliver very good results in the medium term.

Taking into account the quality of the real estate assets in our portfolio, the Company's financial position and low indebtedness level and its franchise for accessing the capital markets, we remain confident that we will continue consolidating the best real estate portfolio in Argentina and diversifying our operations by adding businesses abroad with attractive value-creation opportunities.
