**Item 1.01 Entry into a Material Definitive Agreement.**

Effective October 26, 2005, the Board of Directors of Leap Wireless International, Inc. (the Company), granted Albin F. Moschner, Executive Vice President and Chief Marketing Officer, non-qualified stock options to purchase 40,000 shares of the Company's common stock at \$34.37 per share under the Leap Wireless International, Inc. 2004 Stock Option, Restricted Stock and Deferred Stock Unit Plan (the 2004 Plan). Also effective October 26, 2005, the Board of Directors granted Mr. Moschner restricted stock awards to purchase 15,000 shares of the Company's common stock at \$0.0001 per share.

Except as described below, the material terms of such awards are described in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on January 11, 2005 (the January 11, 2005 Filing), which is incorporated herein by reference.

The stock options and restricted stock awards granted to Mr. Moschner will vest and/or become exercisable on the fifth anniversary of the date of the grant, subject to the following accelerated vesting:

(i) With respect to 10,000 shares of common stock subject to the restricted stock award and the 40,000 shares of common stock subject to the option, if the Company's adjusted EBITDA and the Company's Net Adds for 2006, 2007 and/or 2008 both equal or exceed one of three separate achievement levels for each of adjusted EBITDA and Net Adds set forth in the vesting schedules in the award agreements, then a certain percentage of the number of shares subject to the stock option or restricted stock award will vest and/or become exercisable. The percentage for determining the number of shares subject to the stock option or restricted stock award that will vest and/or become exercisable if performance is between the specified achievement levels will be determined by linear interpolation between the applicable achievement amounts for each measure. The linear interpolation method is described in each award agreement;

(ii) With respect to 5,000 shares of common stock subject to the restricted stock award, if the Company's adjusted EBITDA and the Company's Net Adds attributable to the Company's current markets for 2006 and/or 2007 both equal or exceed one of two separate achievement levels for each of adjusted EBITDA and Net Adds set forth in the vesting schedules in the award agreements, then a certain percentage of the number of shares subject to the stock option or restricted stock award will vest and/or become exercisable. The percentage for determining the number of shares subject to the stock option or restricted stock award that will vest and/or become exercisable if performance is between the specified achievement levels will be determined by linear interpolation between the applicable achievement amounts for each measure. The linear interpolation method is described in each award agreement;

(iii) in the event of a change in control (as defined in the Plan), the common stock subject to the restricted stock award and the stock options granted to Mr. Moschner on October 26, 2005 would vest on the following schedule if Mr. Moschner is an employee, director or consultant of the Company on the pertinent dates: one third upon the effective date of the change in control; an additional one-third on the first anniversary of the date of the occurrence of the change in control, and the remaining unvested stock options on the second anniversary of the date of the change in control; and

(iv) if Mr. Moschner is terminated by reason of discharge by the Company other than for cause or if he resigns for good reason in the event of a change in control, prior to January 1, 2006, one quarter of the number of then unvested shares subject to the restricted stock award and stock options would vest; if the change in control occurs on or after January 1, 2006, the remaining unvested shares of common stock subject to the restricted stock award and stock options would vest.
