PRESS RELEASE

TELECOM ITALIA: DISPOSAL OF ENTEL S. A. EQUITY STAKE FOR \$934 MILLION

DISPOSAL WILL REDUCE GROUP NET DEBT BY AROUND €1.1 BILLION

DISPOSAL IS CONSISTENT WITH TELECOM ITALIA GROUP'S STRATEGY OF RATIONALIZING ITS INTERNATIONAL PORTFOLIO AND FOCUSING ON AREAS OF STRATEGIC INTEREST WITH POTENTIAL FOR GROWTH.

Milan, January 25, 2005 Telecom Italia subsidiary Telecom Italia International N.V. has executed an agreement for the disposal of its 54.76% equity stake in Entel S.A. to Almendral S.A., a holding company listed on the Santiago stock exchange in Chile, controlled by a consortium of entrepreneurs led by the Hurtado Vicuña and Matte Groups.

The price of the transaction is US\$934 million which corresponds to a value of US\$1,706 million for 100% of the Entel S.A..

The disposal will reduce Telecom Italia Group's net debt by some €1.1 billion and trigger a net charge of approximately €143 million.

The closing of the transaction, subject to, among other things, the approval by the competent Authorities, is expected to occur within the next three months.

The disposal of the equity stake in Entel S.A. is consistent with Telecom Italia Group's strategy of rationalizing its international portfolio and focusing on areas of strategic interest with potential for growth.

Entel S.A. is Chile's market leading carrier in the long-distance, international and data communications markets, with a limited market share of 2-3% of access lines. Through its wholly-owned subsidiary Entel PCS, Entel S.A. has a 36% market share of Chile's mobile telephony market.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependant on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
- the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- the impact of regulatory decisions and changes in the regulatory environment;
- the impact of the slowdown in Latin American economies and the slow recovery of economies generally on the international business of the Telecom Italia Group focused on Latin America and on its foreign investments and capital expenditures;
- the continuing impact of rapid changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to continue the implementation of its 2002-2004 Industrial Plan, including the rationalization of its corporate structure and the disposition of Telecom Italia's interests in various companies;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- Telecom Italia's ability to successfully implement its internet strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the group will achieve its projected results.
