With businesses that are concurrently resilient and leveraged on the Brazilian economy growth, acquisitions with strong returns and operational excellence programs, we report in this 1Q10 our fifteenth consecutive quarter of growth in EBITDA, which reached R\$ 362 million, up 32% over 1Q09

Ø GROWTH IN THE BRAZILIAN ECONOMY, ACQUISITIONS AND EXPANSION PROJECTS ALLOW HIGHER VOLUMES IN ALL BUSINESS UNITS IN 1Q10

Ø ULTRAPAR'S SALES REACH R\$ 10 BILLION IN 1Q10, WITH GROWTH IN ALL BUSINESS UNITS

Ø ULTRAPAR'S EBITDA REACHES R\$ 362 MILLION IN 1Q10, 32% GROWTH ON 1Q09

Ø ULTRAPAR'S NET EARNINGS REACH R\$ 141 MILLION IN 1Q10, 54%GROWTH ON 1Q09

“In this first quarter we captured the benefits from the investments made and the greater dynamism of the Brazilian economy, evidenced mainly by the growth in diesel sales, LPG for the bulk segment, specialty chemicals in the domestic market and liquid bulk storage. At the same time, we advanced in capturing the gains from recent acquisitions, reduced our cost of debt and announced the sale of Ultracargo's in-house logistics, solid bulk storage and road transportation businesses, reinforcing its focus on liquid bulk storage, segment in which it has a leadership position”

Pedro Wongtschowski – CEO

Considerations on the financial and operational information

Standards and criteria adopted in preparing the information

Ultrapar's financial statements for the year ended December 31st, 2009 were prepared in accordance with the accounting directives set out in the Brazilian Corporate Law, being adopted the alterations introduced by Laws 11,638/07 and 11,941/09 (former Provisional Measure 449/08), as well as the CVM standards, instructions and guidelines, which regulate them. In connection with the process of converging the accounting practices adopted in Brazil to the international financial reporting standards (IFRS), several guidelines, interpretations and orientations were issued during 2009 with mandatory application for the year ending December 31st, 2010. Ultrapar decided to rely on the option foreseen in Article 1 of CVM Resolution 603/2009, as amended by CVM Resolution 626/2010, in preparing the quarterly information for the period ended March 31st, 2010, an option that allows companies to report their quarterly information for the period ended March 31st, 2010 in accordance with the accounting standards valid on December 31st, 2009.

Except when otherwise indicated, the amounts presented in this document are expressed in millions of R\$ and are subject to rounding off. Consequently, the total amounts presented in the tables may differ from the direct sum of the amounts that precede them.

Effect of the acquisition - Texaco

In August 2008, Ultrapar announced the signing of the sale and purchase agreement for the acquisition of Texaco's fuel distribution business in Brazil. On March 31st, 2009, Ultrapar closed the acquisition of Texaco through the disbursement of R\$ 1,106 million, in addition to the US\$ 38 million deposit made to Chevron in August 2008. In August 2009, Ultrapar paid R\$ 162 million related to the expected working capital adjustment, reflecting the increased working capital effectively received by Ultrapar on the closing date of the acquisition. The results of Texaco were consolidated in Ultrapar's financial statements from April 1st, 2009. Ultrapar's financial statements in periods prior to 2Q09 do not include Texaco's results.

In order to provide a better understanding of the progression of Ipiranga's recurring results, the table below summarizes Ipiranga's results for 2Q09, 3Q09, 4Q09 and 1Q10 ex-non-recurring expenses related to the conversion of Texaco service stations into the Ipiranga brand and to the integration of the acquired operations. The analysis and discussion of the progression in Ipiranga's results presented in this document exclude non-recurring items, in order to provide comparability of the information and a better understanding of the company's performance.

Highlights

Ø Ultracargo sells its in-house logistics, solid bulk storage and road transportation businesses and focus its activities on liquid bulk storage – On March 31st, 2010, Ultrapar signed a sale and purchase agreement to sell the in-house logistics, solid bulk storage and road transportation businesses to Aqces Logística Internacional Ltda. The transaction value is R\$ 82 million, subject to adjustments on the closing date and to certain conditions precedent, notably the segregation of the in-house logistics, solid bulk storage and road transportation operations, with the transfer of the respective assets, contracts, licenses and employees from Ultracargo to its subsidiaries AGT – Armazéns Gerais e Transporte Ltda. and Petrolog Serviços e Armazéns Gerais Ltda. The closing date is expected to occur in mid-2010, when the shares of AGT and Petrolog will be transferred to the acquirer.

Ø Acquisition of Texaco - progress of the integration – In this quarter, we further advanced in the Texaco integration process started in April 2009. We advanced in the fast-paced process of converting the acquired network into the Ipiranga brand, a process that consists of altering the visual identity of Texaco's service stations to Ipiranga's standards by painting and replacing banners and logos, among others. In the first quarter of 2010, 67 service stations and 7 convenience stores and franchises were converted. From April 1st to March 31st, 2010, 1,087 service stations were converted, representing 80% of the acquired service stations in the South and Southeast regions, with average expenses of approximately R\$ 30 thousand per service station, totaling R\$ 33 million in the period. The conversion to the Ipiranga brand is one of the elements of the implementation of Ipiranga's business model in the acquired network. In this 1Q10, expenses related to brand-switching amounted to R\$ 1 million and expenses related to the integration of the acquired operations amounted to R\$ 9 million.

Ø Reduction in the cost of debt – On March 26th, 2010, Ultrapar's Board of Directors approved the hiring of a loan with Banco do Brasil by the subsidiary Ipiranga Produtos de Petróleo S.A. in the amount of R\$ 500 million, with a three-year term, interest rate equivalent to 98.5% of CDI (interbank deposit rate) and a single payment at maturity. This loan replaces the financing in the same principal amount at a cost of 120% of the CDI, thus reducing the cost of debt and providing higher financial flexibility.

Executive summary of the results

The first quarter of 2010 was marked by the intensification in the economic growth recovery, especially in relation with 1Q09, when the Brazilian gross domestic product decreased by 2.1% over the same period of 2008. The Brazilian economic recovery over the past twelve months has driven the inflow of foreign investments in the country, thus leading the average rate of U.S. dollars to move from R\$ 2.31 in the first quarter of 2009 to R\$ 1.80 in the first quarter of 2010. With the consolidation of the growth trend, measures to stimulate the economy have been gradually withdrawn, such as the end of the federal Excise Tax on Manufactured Products (IPI) tax break on durable goods. Still under the effects of the IPI tax break and boosted by the return of credit availability, car sales in Brazil reported another record with 750 thousand vehicles licensed in the first quarter, a 17% growth compared with the

same period of 2009. In the international environment, the economic recovery in some countries continued to reflect in increased demand for commodities and consequently the rise in their prices, especially oil, which ended the quarter at US\$ 79/barrel, 69% above the closing price for the first quarter of 2009.

In 1Q10, Ultragas sales volume grew by 2% compared with 1Q09, boosted by the 6% growth in the bulk segment, as a result of the higher level of economic activity. Ultragas's EBITDA reached R\$ 71 million in the quarter, up 35% from 1Q09, mainly as a result of a recovery in margins, to which the implemented operational efficiency programs contributed, and of the performance in the bulk segment.

At Ipiranga, fuel sales volume grew by 66% in 1Q10 compared with 1Q09, as a consequence of Texaco's acquisition, the recovery in the economic dynamism and the continued growth of the Brazilian light vehicle fleet. Ipiranga's EBITDA in

1Q10 amounted to R\$ 243 million, up 69% over 1Q09, resulting in an EBITDA margin of R\$ 53/m3, higher than the R\$ 52/m3 EBITDA margin for 1Q09 (pre-acquisition of Texaco).

In 1Q10, Oxiteno reported a 32% sales volume growth compared with 1Q09, as a result of the higher level of economic activity and commercial initiatives for imports replacement. EBITDA amounted to R\$ 40 million in 1Q10, down 14% from 1Q09, due to the 22% stronger Real and higher raw material costs, but up 22% from 4Q09, especially due to the gradual recovery in margins and expense reduction initiatives.

Ultracargo reported a 23% increase in average effective storage compared with 1Q09, especially due to the consolidation of the acquired terminal in Suape in December 2009 and the higher volume of operations in Santos and Aratu terminals, as a result of the expansions completed and the economic growth. As a result, Ultracargo's EBITDA totaled R\$ 30 million in 1Q10, up 27% over 1Q09.

Ultrapar's consolidated EBITDA totaled R\$ 362 million in 1Q10, up 32% over 1Q09, due to the EBITDA growth in Ipiranga, Ultragaz and Ultracargo. Net earnings for 1Q10 reached R\$ 141 million, up 54% over 1Q09, mainly as a result of the growth in EBITDA.

Operational performance

Ultragaz – In 1Q10, Ultragaz's sales volume amounted to 371 thousand tons, up 2% over 1Q09. In the bottled segment, Ultragaz sales volume remained stable compared with 1Q09. In the bulk segment, sales volume grew by 6% due to the higher level of economic activity and recovery of manufacturing activity. Compared with 4Q09, Ultragaz's sales volume decreased by 7%, as a result of seasonality between periods.

Ipiranga – Ipiranga's sales volume totaled 4,595 thousand cubic meters in 1Q10, 66% higher than that in 1Q09. Sales volume of fuels for light vehicles grew by 69%, mainly as a consequence of the consolidation of Texaco's volume from April 1st, 2009 onwards and the increase in the light vehicle fleet during the last 12 months, especially the increase in sales volume of gasoline due to the lower availability of ethanol. Diesel volume grew by 65% due to the consolidation of Texaco's volume from April 1st, 2009 onwards and the higher level of economic activity in 1Q10. Compared with 4Q09, sales volume decreased by 9%, especially as a result of seasonality between quarters.

Oxiteno – Oxiteno’s sales volume totaled 164 thousand tons, up 32% (40 thousand tons) over 1Q09, with a 31% increase in sales volume of specialty chemicals, as a result of the higher level of economic activity compared with 1Q09, initiatives to replace imports and expansions in the production capacity. In the Brazilian market, sales volume rose by 35% (31 thousand tons), with a positive progression in all markets, especially in specialty chemicals sold to the cosmetics, agrochemicals and paints and varnishes industries. Sales volume outside Brazil grew by 26% (10 thousand tons) due to an increase in sales of specialty chemicals as a result of the capacity expansions. Compared with 4Q09, sales volume decreased by 10% (18 thousand tons), as a result of seasonality between quarters.

Ultracargo – In 1Q10, Ultracargo reported a 23% and 25% increase in average effective storage measured in cubic meters compared with 1Q09 and 4Q09, respectively, due to the consolidation of the acquired terminal in Suape in December 2009 and higher volume of operations in Santos and Aratu terminals, as a result of capacity expansions and the economic growth. In the transportation segment, total kilometrage travelled declined by 19% compared with 1Q09, especially due to Ultracargo’s decision to reduce its presence in some segments during 2009. Compared with 4Q09, total kilometrage travelled declined by 3%.

Economic-financial performance

Net sales and services – Ultrapar’s consolidated net sales and services amounted to R\$ 9,941 million in 1Q10, up 55% over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards and the growth in sales in all businesses. Compared with 4Q09, Ultrapar’s net sales and services declined by 5% due to seasonality between periods.

1 Reported figures, include non-recurring items

Ultragaz – Ultragaz’s net sales and services amounted to R\$ 842 million in 1Q10, up 10% over 1Q09, due to an increase in sales volume, a rise in the cost of LPG used in the bulk segment and commercial initiatives and operational efficiency programs implemented. Compared with 4Q09, net sales and services declined by 5% as a consequence of seasonally lower sales volume, partially offset by the effect of an increase in the cost of LPG used in the bulk segment.

Ipiranga – Ipiranga’s net sales and services amounted to R\$ 8,591 million in 1Q10, up 68% over 1Q09, especially as a result of a 66% increase in sales volume, an increased share of gasoline in the product mix and an increase in ethanol costs due to the reduced availability of the product in 1Q10, partially offset by a reduction in the diesel ex-refinery cost in June 2009. Compared with 4Q09, net sales and services declined by 4%, mainly due to a 9% decrease in sales volume.

Oxiteno – Oxiteno’s net sales and services totaled R\$ 472 million in 1Q10, up 3% over 1Q09, despite the 22% stronger Real, as a consequence of the 32% growth in sales volume. Compared with 4Q09, net sales and services declined by 7%, mainly due to the 10% reduction in sales volume.

Ultracargo – Ultracargo’s net sales and services amounted to R\$ 82 million in 1Q10, up 1% from 1Q09, despite the 23% increase in average storage, due to a reduction in kilometrage travelled. Compared with 4Q09, Ultracargo’s net sales and services grew by 4%, mainly due to the progression in average storage.

Cost of goods sold – Ultrapar’s cost of goods sold amounted to R\$ 9,216 million in 1Q10, up 57% from 1Q09, especially as a result of the consolidation of Texaco from 2Q09 onwards and higher volume of operations in all business. Compared with 4Q09, Ultrapar’s cost of goods sold declined by 5%, especially due to seasonality between quarters.

Ultragaz – Ultragaz’s cost of goods sold amounted to R\$ 696 million in 1Q10, up 6% over 1Q09, as a consequence of a 6% increase in ex-refinery cost of LPG used in the bulk segment from January 2010 and higher sales volume. Compared with 4Q09, the cost of goods sold declined by 7%, in line with the sales volume variation – higher ex-refinery cost of LPG used in the bulk segment was offset in the quarter by lower distribution costs, especially lower costs with bottles re-qualification.

Ipiranga – Ipiranga’s cost of goods sold amounted to R\$ 8,120 million in 1Q10, up 68% over 1Q09, especially due to a 66% increase in sales volume, an increased share of gasoline in the product mix and an increase in ethanol costs in 1Q10, partially offset by a reduction in the diesel ex-refinery cost in June 2009. In relation to 4Q09, cost of goods sold declined by 4%, due to the 9% reduction in sales volume.

Oxiteno – Oxiteno’s cost of goods sold in 1Q10 amounted to R\$ 392 million, up 4% over 1Q09, as a result of the 32% increase in sales volume and higher costs of raw material in dollars, partially offset by the 22% stronger Real. Compared with 4Q09, Oxiteno’s cost of goods sold declined by 9%, almost in line with sales volume variation, with variations in raw material prices in dollars offset by those in the exchange rate.

Ultracargo – Ultracargo’s cost of services provided amounted to R\$ 41 million in 1Q10, down 16% over 1Q09, mainly due to its reduced presence in the transportation segment and a R\$ 5 million reduction in depreciation resulting from the revision in the useful life of assets. Compared with 4Q09, Ultracargo’s cost of services provided declined by 17%, especially due to increased expenses for scheduled maintenance of terminals in 4Q09 and the R\$ 5 million reduction in depreciation.

Sales, general and administrative expenses – Ultrapar’s sales, general and administrative expenses amounted to R\$ 470 million in 1Q10, up 33% from 1Q09, basically as a result of Texaco’s consolidation from 2Q09 onwards and non-recurring expenses related to the integration of its operations into Ultrapar. Compared with 4Q09, Ultrapar’s sales, general and administrative expenses declined by 6%.

Ultragaz – Ultragaz’s sales, general and administrative expenses amounted to R\$ 107 million in 1Q10, up 22% over 1Q09 as a consequence of (i) increased expenses related to promotional and sales campaigns, (ii) the effects of inflation on personnel expenses, (iii) higher variable compensation, in line with the earnings progression, and (iv) an increase in

depreciation. Compared with 4Q09, sales, general and administrative expenses grew by 1%, with a reduction in sales expenses offset mainly by the increase in depreciation.

Ipiranga – Ipiranga’s sales, general and administrative expenses amounted to R\$ 267 million in 1Q10, up 50% from 1Q09, mainly due to the consolidation of Texaco from 2Q09 onwards. Excluding depreciation, Ipiranga’s sales, general and administrative expenses represented R\$ 51/m³ of product sold, lower than the R\$ 56/m³ in 1Q09 (pre-acquisition of Texaco), reflecting the implementation of the operational and administrative synergy plan. In relation to 4Q09, sales, general and administrative expenses declined by 6% due to lower sales volume, partially offset by a concentration of advertising and marketing expenses in the first quarter.

Oxiteno – Oxiteno’s sales, general and administrative expenses totaled R\$ 66 million in 1Q10, up 5% from 1Q09 mainly due to higher freight expenses resulting from the 32% increase in sales volume, partially offset by expense reduction initiatives implemented, lower variable compensation and the effect of a stronger Real over international freight expenses. Compared with 4Q09, Oxiteno’s sales, general and administrative expenses declined by 4% especially due to the seasonally lower volume.

Ultracargo – Ultracargo’s sales, general and administrative expenses totaled R\$ 20 million in 1Q10, down 14% from 1Q09, despite the 23% growth in stored volume, especially as a result of its reduced presence in the transportation segment and operational synergies resulting from União Terminais’ integration during 2009. Compared with 4Q09, Ultracargo’s sales, general and administrative expenses decreased by 10%, especially due to the higher variable compensation in 4Q09, in line with the strong earnings progression reported in 2009.

EBITDA – Ultrapar’s EBITDA amounted to R\$ 362 million in 1Q10, 32% growth over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards and EBITDA growth in Ipiranga, Ultragaz and Ultracargo. Compared with 4Q09, Ultrapar’s EBITDA declined by 7%, especially due to the seasonal volume reduction between periods.

1 Reported figures, include non-recurring items

Ultragaz – Ultragaz’s EBITDA amounted to R\$ 71 million in 1Q10, up 35% over 1Q09, especially due to a recovery in margins, to which the operational efficiency programs implemented contributed, and an improvement in the bulk segment performance, partially offset by an increase in expenses related to promotional and sales campaigns and higher variable compensation. Compared with 4Q09, Ultragaz’s EBITDA grew by 16%, despite the seasonally lower volume, especially due to a R\$ 7 million extraordinary item related to tax contingencies in 4Q09.

Ipiranga – Ipiranga’s EBITDA amounted to R\$ 243 million in 1Q10, up 69% over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards, the implementation of the operational and administrative synergy plan and the improved product mix. Compared with 4Q09, Ipiranga’s EBITDA decreased by 13%, especially due to the seasonally lower volume. In 1Q10, Ipiranga’s unit EBITDA margin was R\$ 53/m³, above the unit EBITDA margin of R\$ 52/m³ (pre-acquisition of Texaco) reported in 1Q09, but lower than the margin of R\$ 55/m³ in 4Q09, due to the seasonality between quarters and consequently lower operational leverage.

In 1Q10, Ipiranga's reported EBITDA, considering non-recurring items, amounted to R\$ 210 million, up 46% over 1Q09 and 20% lower than that of 4Q09.

Oxiteno – Oxiteno's EBITDA amounted to R\$ 40 million in 1Q10, down 14% over 1Q09, especially due to the 22% stronger Real. Compared with 4Q09, Oxiteno's EBITDA grew by 29%, despite the seasonally lower volume, especially as a result of the gradual recovery in margins, the expense reduction initiatives and the 4% weaker Real. Oxiteno's unit EBITDA reached US\$ 134/ton in 1Q10, up 38% over 4Q09.

Ultracargo – Ultracargo's EBITDA amounted to R\$ 30 million, up 27% and 38% over 1Q09 and 4Q09, especially due to the higher volume of operations in its terminals and operational synergies resulting from União Terminais' integration during 2009.

Depreciation and amortization – Total depreciation and amortization costs and expenses in 1Q10 amounted to R\$ 101 million, up R\$ 5 million from 1Q09 and down R\$ 18 million from 4Q09. The reduction compared with 4Q09 is a result of the revision in the economic useful life of assets in accordance with Technical Standard ICPC (Brazilian Accounting Pronouncements Committee) 10 and in effect from January 1st, 2010 onwards.

Financial result – Ultrapar reported net financial expense of R\$ 75 million in 1Q10, R\$ 16 million higher than that of 1Q09, mainly as a result of the higher average net debt resulting from the disbursement related to the acquisition of Texaco on March 31st, 2009. Compared with 4Q09, net financial expense increased by R\$ 3 million.

Net earnings – Ultrapar's consolidated net earnings in 1Q10 amounted to R\$ 141 million, a growth of 54% over 1Q09 and 6% lower than that of 4Q09, especially due to variations in EBITDA in relation to the compared periods.

Investments – Total investment, net of disposals and repayments, amounted to R\$ 205 million in 1Q10, allocated as follows:

- At Ultragaz, R\$ 37 million were invested mainly in new clients in the bulk segment and renewal of assets.
- At Ipiranga, R\$ 60 million were invested in the conversion of unbranded service stations, new service stations, renewal and improvement of the distribution network. From the total amount invested, R\$ 28 million were related to additions to property, plant and equipment, and R\$ 31 million were related to financing and bonuses to clients, net of repayments. In addition, Ipiranga's estimated investments for 2010 were updated from R\$ 314 million to R\$ 414 million, with additional investments in the distribution network.
- At Oxiteno, R\$ 98 million were invested, concentrated on projects to expand ethylene oxide and ethoxylates production capacity in Camaçari and to increase productivity.
- Ultracargo invested R\$ 6 million in expansions of the Suape (30 thousand m3) and Santos terminals (21 thousand m3). Santos expanded operations started up during 1Q10.

Ultrapar in the capital markets

Ultrapar's average daily trading volume in 1Q10 was R\$ 32 million/day, 34% higher than the average of R\$ 24 million/day in 1Q09, considering the combined trading on the BMF&Bovespa and the NYSE. Ultrapar's shares closed 1Q10 quoted at R\$ 85.50/share on the BMF&Bovespa, with an accumulated appreciation of 7% from the end of 4Q09, compared with the 3% appreciation of the Ibovespa index over the same period. At the NYSE, Ultrapar's shares appreciated by 3% in 1Q10, while the Dow Jones index was up 4% over the same period. Ultrapar closed 1Q10 with a market value of R\$ 12 billion, up 54% from 1Q09.

Outlook

With leading position in each of its business units, Ultrapar is placed in a privileged position to capture the benefits from the significant growth potential of the Brazilian economy. At Ipiranga, such benefits reflect in the growth of diesel sales and in the effect of the expansion of the Brazilian fleet on gasoline, ethanol and NGV sales volume, given the low car penetration in Brazil, mainly in the North, Northeast and Mid-West regions, where it focuses its network expansion through the conversion of unbranded service stations and acquisitions of local companies. Ultragas, that have been reporting significant growth in results, will continue to benefit from the positive outlook for volumes in the bulk segment, keeping its strategy of expanding in niche markets and programs to strengthen its operational excellence. At Oxiteno, expansions of production capacity focused on specialty chemicals, the good performance of the Brazilian economy and the recent stability in raw material prices allow the company to realize its earnings potential. Finally, Ultracargo, which will focus exclusively on its liquid bulk storage business, segment in which it has a leadership position, will continue to seek opportunities to boost the benefits from the growing demand for logistics infrastructure in Brazil.

Independent accountant's review report

To the Board of Directors and Shareholders
Ultrapar Participações S.A.
São Paulo - SP

1. We have reviewed the Quarterly Financial Information of Ultrapar Participações S.A. (the Company) and the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2010, comprising the balance sheet, the statements of income, cash flows, changes in shareholders' equity, management report and explanatory notes, which are the responsibility of its management.
2. Our review was conducted in accordance with the specific rules set forth by the IBRACON - The Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council - CFC and consisted mainly of the following: (a) inquiry and discussion with management responsible for the accounting, financial and operational areas of the Company and its subsidiaries, regarding the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.
3. Based on our review, we are not aware of any material modifications that should be made to the Quarterly Financial Information described above, for these to be in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM), which are applicable to the preparation of the Quarterly Financial Information.
4. As described in Explanatory Note 2, during 2009, the Brazilian Securities and Exchange Commission (CVM) approved several pronouncements, interpretations and guidance issued by the Accounting Pronouncements Committee (CPC), which are effective as from January 1, 2010 and changed the accounting practices adopted in Brazil. As permitted by CVM Resolution 603/09, Management of the Company and its subsidiaries opted to present its Quarterly Financial Information in accordance with accounting practices adopted in Brazil until December 31, 2009, not applying these new accounting pronouncements, which have mandatory application for the fiscal year 2010. As required by the above mentioned CVM Resolution 603/09, the Company disclosed this fact in Explanatory Note 2 to the Quarterly Financial Information, and described the main changes that could impact its year-ending financial statements, as well as it clarified the reasons for not disclosing the estimate of the possible effects in Company's shareholder's equity and statements of income, as required by this Resolution.

(In thousands of Reais, unless otherwise stated)

1 Operations

Ultrapar Participações S.A. (“Company”), with headquarters in the City of São Paulo, engages in the investment of its own capital in commercial and industrial activities and related businesses, including the subscription or acquisition of shares of other companies.

Through its subsidiaries, it operates in the segment of liquefied petroleum gas - LPG distribution (“Ultragaz”), light fuel & lubricant distribution, and related business (“Ipiranga”), production and marketing of chemicals (“Oxitenó”), and provision of logistics services for liquid bulk cargo (“Ultracargo”). The Company also operates in the petroleum refining business through its investment in Refinaria de Petróleo Riograndense S.A. (“RPR”).

2 Presentation of interim financial statements

The individual and consolidated interim financial statements were prepared according to the accounting policies adopted in Brazil, which include the Brazilian Corporate Law, the standards, guidelines and interpretations issued by the Accounting Standards Committee and the rules issued by the Brazilian Securities Commission (CVM), applicable to the end of the quarter.

Within the process of convergence of accounting practices adopted in Brazil to international standards of financial reporting (IFRS) several pronouncements, interpretations and guidelines were issued during the year 2009 with mandatory application for the fiscal years ended December 2010 and the financial statements for 2009 to be released in conjunction with the financial statements of 2010 for comparison purposes.

The Company’s management is evaluating the potential effects associated with these pronouncements, interpretations and guidelines that will have impacts on the Company’s financial statements. This process involves the review of internal controls and electronic systems as well as the measurement of the initial adoption of the new accounting standards.

The Company's management opted to use the provision of Article 1 of Resolution CVM 603 of November 10, 2009, amended by Resolution CVM 626 of March 31, 2010, by which it is permitted to public companies to present their individual and consolidated interim financial statement forms for the period ended in March 31, 2010 comparative to the periods ended in December 31, 2009 and March 31, 2009, according to the accounting rules in effect on December 31, 2009.

3 Summary of main accounting practices

a. Recognition of income

Income is recognized on the accrual basis. Revenues from sales and costs are recognized as income when all risks and benefits associated with the products are transferred to the purchaser. Revenues from services provided and their costs are recognized as income when the services are performed.

b. Cash equivalents

Include short-term highly-liquid investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value. See Note 5 for further detail on cash equivalents of the Company and its subsidiaries.

c. Financial instruments

In accordance with Resolution CVM 566/08, the financial instruments of the Company and its subsidiaries were classified into the following categories:

▲Measured at fair value through income: financial assets held for trading, that is, purchased or created primarily for the purpose of sale or repurchase in the short term, and derivatives. Changes in fair value are recorded as income, and the balances are stated at fair value.

■Held to maturity: non-derivative financial assets with fixed payments or determinable payments, with fixed maturities for which the entity has the positive intent and ability to hold to maturity. The interest earned is recorded as income, and balances are stated at acquisition cost plus the interest earned.

▲Available for sale: non-derivative financial assets that are designated as available for sale or that were not classified into other categories. The interest earned is recorded as income, and the balances are stated at fair value. Differences between fair value and acquisition cost plus the interest earned are recorded in a specific account of the shareholders' equity. Gains and losses recorded in the shareholders' equity are included in income, in case of prepayment.

■Loans and receivables: non-derivative financial instruments with fixed or determinable payments or receipts, not quoted in active markets, except: (i) those which the entity intends to sell immediately or in the short term and which the entity classified as measured at fair value through income; (ii) those classified as available for sale; or (iii) those the holder of which cannot substantially recover its initial investment for reasons other than credit deterioration. The interest earned is recorded as income, and balances are stated at acquisition cost plus the interest earned.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial statements

(In thousands of Reais, unless otherwise stated)

The Company and its subsidiaries designate as cash flow hedge certain derivative financial instruments used to hedge against changes in interest rates and variations in the exchange rate. In the case of derivatives designed to cash flow hedge of the variation in interest rates, the difference between the fair value of the financial instrument and its updated cost is recognized as a valuation adjustment in the shareholders' equity, not affecting the income statement of the Company and its subsidiaries. In the case of foreign exchange derivatives designated by subsidiary RPR for protection of future cash flows, the effect of variation in the derivative is posted to the valuation adjustment in shareholders' equity until the time when the hedged item affects the income statement. The difference between the fair value of derivative and updated cost is recognized directly in the income of the subsidiary. Gains and losses recorded in the shareholders' equity are included in income, in case of financial instruments prepayment.

The Company and its subsidiaries designate derivative financial instruments used to compensate variations due to changes in interest rates in the market value of contracted debt in Reais as fair value hedge. Such variations, as well as the difference between the derivative financial instrument fair value and its updated cost, are recognized in the income.

For further detail on financial instruments of the Company and its subsidiaries, see Notes 5, 16, and 21.

d. Current and non-current assets

The trade accounts receivables are recorded at the amount billed, adjusted to the present value if applicable, including all direct taxes of the Company and its subsidiaries.

Allowance for doubtful accounts is calculated based on estimated losses and is set at an amount deemed by management to be sufficient to cover any loss on realization of accounts receivable.

Inventories are stated at the lower of average acquisition or production cost, and replacement cost or market value.

The other assets are stated at the lower of cost and realizable value, including, if applicable, the interest earned, monetary changes and changes in exchange rates incurred or less a provision for loss and, if applicable, adjustment to present value (see Note 3.q).

e. Investments

Investments in subsidiaries are valued by the equity method of accounting.

Investments in companies on which management has a significant influence or in which it holds 20% or more of the voting stock, or that are part of a group under common control are also valued by the equity method of accounting (see Note 12).

The other investments are stated at acquisition cost less provision for loss, unless the loss is considered temporary, and also include investments in progress.

Ultrapar Participações S.A. and Subsidiaries

f. Fixed assets

Recorded at acquisition or construction cost, including financial charges incurred on fixed assets under construction, as well as significant maintenance costs resulting from scheduled plant outages.

Depreciation is calculated by the straight-line method, at the annual rates stated in Note 13, over the useful/economic life of the property, revised according to ICPC 10 and applied from January 1, 2010.

Leasehold improvements are depreciated over the shorter of the contract term and useful/economic life of the property.

g. Financial leases

- Finance leases

Certain financial lease contracts transfer substantially all the risks and benefits associated with the ownership of an asset to the Company and its subsidiaries. These contracts are characterized as finance leases, and assets thereunder are stated at fair value or, if lower, present value of the minimum payments under the relevant contracts. The items recognized as assets are depreciated at the depreciation rates applicable to each group of assets in accordance with Note 13. Financial charges under the finance lease contracts are allocated to income over the contract term, based on the amortized cost and actual interest rate method (see Note 16.h).

- Operating leases

Are lease transactions where the risks and benefits associated with the ownership of the asset are not transferred and where the purchase option at the end of the contract is equivalent to the market value of the leased asset. Payments made under an operating lease contract are recognized as expenses in the income statement on a straight-line basis over the term of the lease contract, in accordance with Note 22.d).

h. Intangible assets

Intangible assets include assets acquired by the Company and its subsidiaries from third parties, according to the following criteria (see Note 14):

- Goodwill is carried at the original value net of income taxes and social contribution less accumulated amortization as of December 31, 2008, when its amortization ends.
- Other intangible assets acquired from third parties, such as software and commercial property rights, are measured at the total acquisition cost less accumulated amortization expenses.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial statements

(In thousands of Reais, unless otherwise stated)

The Company and its subsidiaries do not have intangible assets that were created internally or that have an indefinite useful life.

i. Deferred charges

Deferred charges include restructuring costs that will produce benefits in future years (see Note 15). The Company and its subsidiaries decided to maintain the balances existing as of December 31, 2008 until they are fully amortized.

j. Current and non-current liabilities

Current and noncurrent liabilities are stated at known or calculable amounts plus, if applicable, related charges, monetary changes and changes in exchange rates incurred until the date of the interim financial statements. When applicable the current and noncurrent liabilities are recorded in present value based on interest rates that reflect the term, currency and risk of each transaction. Transaction costs incurred and directly attributable to the activities necessary only to accomplish the transactions in order to raise funds through contracting debt or loans or by issuing debt bonds, as well as premiums in the issuance of debentures and other debt instruments or shareholders' equity, are appropriated to their instrument and amortized over the income as its terms pass.

k. Income tax and social contribution on profit

Current and deferred income tax (IRPJ) and social contribution (CSLL) are calculated based on the current rates of income tax and social contribution on profit, including the value of tax incentives, as stated in Note 10.b).

l. Provision for contingencies

The provision for contingencies is created for contingent risks with a probable chance of loss in the opinion of managers and internal and external legal counsel, and the values are recorded based on evaluation of the outcomes of the legal proceedings (see Note 22.a).

m. Actuarial obligation for post-employment benefits

Reserves for actuarial liabilities for post-employment benefits granted and to be granted to employees, retirees, and pensioners are based on an actuarial calculation prepared by an independent actuary, using the projected unit credit method, as described in Note 23.b).

n. Basis for translating interim financial statements of foreign-based subsidiaries

Assets and liabilities of the subsidiaries Oxiteno México S.A. de C.V. and its subsidiaries, located in Mexico (functional currency: Mexican Peso), and Oxiteno Andina, C.A., located in Venezuela (functional currency: Bolivares Fortes), denominated in currencies other than that of the Company (functional currency: Real), are translated at the exchange rate in effect on the date of the interim financial statements. Gains and losses resulting from changes in these foreign investments are directly recognized in the shareholders' equity as cumulative translation adjustments and will be recognized as income if these investments are disposed of. The recorded balance in the shareholders' equity as cumulative translation adjustments as of March 31, 2010 was R\$ 19,047 of exchange rate loss (R\$ 5,302 loss as of December 31, 2009).

Assets and liabilities of the other foreign subsidiaries, which do not have autonomy, are considered activities of their investor and are translated at the exchange rate in effect by the end of the respective period. Gains and losses resulting from changes in these foreign investments are directly recognized as financial income. The gain recognized as income as of March 31, 2010 amounted to R\$ 609 (R\$ 428 loss as of March 31, 2009).

o. Use of estimates

The preparation of interim financial statements requires the Company's management to make estimates and assumptions that affect the values of assets and liabilities presented as of the date of the interim financial statements, as well as the values of revenues, costs and expenses for the periods presented. Although these estimates are based on the best information available to management about present and future events, the actual results may differ from these estimates.

p. Impairment of assets

The Company reviews, at least annually, the carrying value of assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use or disposal. In cases where future expected cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of these assets. The factors considered by the Company in performing this assessment include current operating results, trends, and prospects, as well as the effects of obsolescence, demand, competition, and other economic factors. No impairment was recorded in the abovementioned periods.

q. Adjustment to present value

The subsidiaries booked the adjustment to present value of ICMS credit balances on fixed assets (CIAP – see Note 8). The Company and its subsidiaries reviewed all items classified as long-term and, where relevant, short-term assets and liabilities and did not identify the need to adjust other balances to present value.

Notes to the interim financial statements

(In thousands of Reais, unless otherwise stated)

In March 2010, in order to simplify the corporate structure and reduce costs, the subsidiary Comercial Farroupilha Ltda. was merged into the subsidiary Ipiranga Produtos de Petróleo S.A. (“IPP”).

Investments of one company in the other, balances of asset and liability accounts and revenues and expenses were eliminated, as well as the effects of significant transactions conducted between the companies. The interest of minority shareholders in the subsidiaries is indicated in the interim financial statements.

5 Financial assets

Financial assets, excluding cash and banks, are substantially represented by money invested: (i) in Brazil, in debentures, certificates of deposit of first-rate financial institutions linked to the Interbank Certificate of Deposit (CDI) and in Federal government bonds; (ii) abroad, in certificates of deposits of first-rate financial institutions and in short-term investment funds with a portfolio composed of bonds issued by the U.S. Government; and (iii) currency and interest rate hedging instruments.

- Cash and cash equivalents

Cash and cash equivalents are considered: (i) the balances of cash and banks, and (ii) short-term investments, highly liquid, readily convertibles to a known amount of cash and which are subject to an insignificant risk of value change.

(*)Relates to the non-eliminated portion of the transactions between RPR and IPP, since RPR is proportionally consolidated and IPP is fully consolidated.

Purchase and sale transactions relate substantially to the purchase of raw materials, inputs, transportation and storage services based on arm's length market prices and terms with customers and suppliers with comparable operational performance. Borrowing agreements are for an indeterminate period and do not contain interest clauses. In the opinion of the Company's management, transactions with related parties are not subject to settlement risk, which is why no allowance for doubtful accounts or collaterals are provided. Collaterals provided by the Company in borrowings and financing of subsidiaries and affiliates are mentioned in Note 16.j.) The transactions of the Company and its subsidiaries related to post-employment benefits are described in Note 23.

b. Key management personnel - Compensation (Consolidated)

As of March 31, 2010, the Company and its subsidiaries recorded expenses for compensation of its key personnel (Company's directors and designated officers) in the amount of R\$ 5,938 (R\$ 5,081 as of March 31, 2009). Out of this total, R\$ 5,189 relates to short-term compensation (R\$ 4,522 as of March 31, 2009), R\$ 588 to compensation in stock (R\$ 415 as of March 31, 2009) and R\$ 161 (R\$ 144 as of March 31, 2009) to post-employment benefits.

c. Stock compensation plan

At a Special General Meeting held on November 26, 2003, a benefit plan was approved for managers of the Company and its subsidiaries, which provides: (i) initial award of beneficial ownership of shares issued by the Company held in treasury by the subsidiaries at which the beneficiary managers are employed; and (ii) transfer of title to the shares within five to ten years after the initial award, subject to continuation of employment of the beneficiary manager with the Company and its subsidiaries. The total amount awarded to executives as of March 31, 2010, including tax charges, was R\$ 29,562 (R\$ 29,562 as of December 31, 2009). Such amount is being amortized over a period of five to ten years after the award, and amortization for the period ended in March 31, 2010 in the amount of R\$ 1,095 (R\$ 618 as of March 31, 2009) was recorded as operating expense for the year. The values of the awards were determined on the date of award based on the market value of these shares on the BM&FBovespa.

The chart below summarizes the information on the shares awarded to executives of the Company:

Date of award	Restricted shares awarded	Market value of shares (in R\$)	Total compensation costs, including taxes	Accumulated compensation costs recorded	Accumulated compensation costs not recorded

(*). According to a market announcement of December 22, 2009, subsidiary Terminal Químico de Aratu S.A. - Tequimar (“Tequimar”) acquired from Puma Storage do Brasil Ltda. (“Puma”) a terminal for liquid bulk storage with capacity of 83 thousand cubic meters located in the port of Suape, Pernambuco. That was the date of effective transfer of assets ownership and purchase price payment of R\$ 44 million, of which R\$ 31 million was recorded as machinery and equipment and \$ 13 million as improvements in leasehold properties.

Construction in progress relates substantially to: (i) expansions and renovations in industrial facilities and (ii) construction and upgrade of service stations and fuel distribution bases.

Advances to suppliers of fixed assets relate basically to toll manufacturing of equipment for expansion of plants.

As provided in Resolution CVM 556/08, the transaction costs and issue premiums associated with fund raising by the Company and its subsidiaries were added to their financial liabilities, as shown in Note 16.i.

The Company's management contracted hedging against foreign exchange exposure and interest rate for some debt (see note No. 21).

b. Notes in the foreign market

In December 2005, the subsidiary LPG International Inc. issued US\$ 250 million in notes in the foreign market, with maturity in December 2015 and financial charge of 7.25% p.a., paid semiannually, with the first payment due June 2006. The issue price was 98.75% of the face value of the note, which represented a total return of 7.429% p.a. for the investor at the time of issuance. The notes were secured by the Company and Oxiteno S.A.

As a result of the issuance of notes in the foreign market, the Company and its subsidiaries, as mentioned above, are subject to certain commitments, including:

• Limitation of transactions with shareholders owning more than 5% of any class of stock of the Company that are not as favorable to the Company as available in the market.

• Required resolution of the Board of Directors for transactions with related parties in an amount exceeding US\$ 15 million (except for transactions of the Company with subsidiaries and between subsidiaries).

• Restriction on transfer of all or substantially all assets of the Company and its subsidiaries.

• Restriction on encumbrance of assets exceeding US\$ 150 million or 15% of the value of the consolidated tangible assets.

The restrictions imposed on the Company and its subsidiaries are usual in transactions of this kind and have not limited their ability to conduct their business to date.

c. Syndicated loan

In June 2008, the subsidiary Oxiteno Overseas renewed the syndicated loan contracted in June 2005 in the amount of US\$ 60 million. The syndicated loan has maturity in June 2011 and financial charge of LIBOR + 1.25% p.a. The Company contracted instruments of protection with floating interest rate in dollar and exchange rate variation, changing the syndicated loan charge to 99.5% of CDI (see note 21). The syndicated loan is secured by the Company and subsidiary Oxiteno S.A.

As a result of the issuance of the syndicated loan, some obligations other than those in Note 16.b) must be maintained by the Company:

• Maintenance of a financial index, determined by the ratio between net debt and consolidated Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA), at less than or equal to 3.5.

• Maintenance of a financial index determined by the ratio between consolidated EBITDA and consolidated net financial expenses, higher than or equal to 1.5.

The restrictions imposed on the Company and its subsidiaries are usual in transactions of this kind and have not limited their ability to conduct their business to date.

d. BNDES

The Company and its subsidiaries have financing from Banco de Desenvolvimento Econômico e Social (“BNDES”), for some of their investments and for working capital.

Due to contracts with BNDES, certain obligations must be maintained by the Company and its subsidiaries, mainly those contained in the provisions applicable to the BNDES contracts, available on the website www.bndes.gov.br.

e. Debentures

In June 2009, the Company made its third issuance of debentures, in a single series of 1,200 simple, nonconvertibles into shares, unsecured debentures with the following characteristics:

Face value of each:	R\$ 1,000,000.00
Final maturity:	May 19, 2012
Payment of the face value:	Lump sum at final maturity
Interest:	100% CDI + 3.0% p.a.
Payment of interest:	Annually

The funds obtained with this issuance were used for prepaid payment, in June 2009, of 120 Promissory Notes in the total amount of R\$ 1,200,000 issued by the Company in December 2008.

In December 2009, the Company concluded the review of certain terms and conditions of its third issuance of debentures. Thus, the interest of the debentures was reduced to 108.5% CDI and its maturity date was extended to December 4, 2012. The debentures have annually interest payments and amortization in one single tranche at the maturity date, as according to the following characteristics:

Face value of each:	R\$ 1,000,000.00
Final maturity:	December 4, 2012
Payment of the face value:	Lump sum at final maturity
Interest:	108,5% CDI
Payment of interest:	Annually
Reprice:	Not applicable

f. Banco do Brasil

The subsidiary IPP has loans with Banco do Brasil, to finance the commercialization, processing or industrialization of agricultural goods (ethanol). During the first quarter of 2010 IPP raised an additional R\$ 500 million, and re-contracted loans, whose maturities would occur during this period, in the amount of R\$ 353.0 million. The additional and re-contracted loans have maturity from 2 up to 3 years and average fixed rate of 11.5%. The subsidiary IPP has contracted an instrument of protection of interest rate, converting the charges of those loans to 98.5% of CDI (see note 21).

g. Caixa Econômica Federal

In March 2010, the subsidiary IPP paid in advance the loan with Caixa Econômica Federal.

h. Finance leases

The subsidiaries IPP, Tequimar and Serma have finance lease contracts primarily related to fuel distribution equipment, such as tanks, pumps, VNG compressors, computer equipment and vehicles. These contracts have terms between 36 and 60 months.

The subsidiaries have the option to purchase the assets at a price substantially lower than the fair price on the date of option, and management intends to exercise such option. No restrictions are imposed on these agreements.

j. Collateral

Financing is secured by collateral amounting to R\$ 125,556 as of March 31, 2010 (R\$ 653,462 as of December 31, 2009) and by guarantees and promissory notes in the amount of R\$ 2,055,040 as of March 31, 2010 (R\$ 2,352,663 as of December 31, 2009).

In addition, the Company and its subsidiaries offer collateral in the form of bank letters of guarantee for commercial and legal proceeding in the amount of R\$ 157,900 as of March 31, 2010 (R\$ 265,209 as of December 31, 2009).

Some subsidiaries issued collaterals to financial institutions in connection with the amounts owed by some of their customers to such institutions (vendor financing). If a subsidiary is required to make any payment under these collaterals, this subsidiary may recover the amount paid directly from its customers through commercial collection. The maximum amount of future payments related to these collaterals is R\$ 16,092 as of March 31, 2010 (R\$ 20,171 as of December 31, 2009), with maturities of no more than 211 days. As of March 31, 2010, the Company and its subsidiaries did not have losses or recorded any liabilities in connection with these collaterals.

Some financing agreements of the Company and its subsidiaries have cross default clauses that require them to pay the debt assumed in case of default of other debts equal to or greater than US\$ 10 million. As of March 31, 2010, there was no event of default of the debts of the Company and its subsidiaries.

17 Shareholders' equity

a. Share capital

The Company is a publicly traded company listed on the São Paulo ("BM&FBovespa") and New York Stock Exchanges ("NYSE"), with a subscribed and paid-in capital represented by 136,095,999 shares without par value, including 49,429,897 common and 86,666,102 preferred shares.

As of March 31, 2010, 13,027,251 preferred shares were outstanding abroad in the form of American Depositary Receipts ("ADRs").

Preferred shares are nonconvertible into common shares, nonvoting, and give their holders priority in capital redemption, without premium, upon liquidation of the Company.

At the beginning of 2000, the Company, granted tag-along rights under a shareholders' agreement, which gives non-controlling shareholders the right to the same conditions as negotiated by the controlling shareholders in case of transfer of the control of the Company. In 2004, these rights were incorporated into the Bylaws of the Company.

The Company is authorized to increase the capital without amendment to the Bylaws, by resolution of the Board of Directors, up to the limit of R\$ 4,500,000 through the issuance of common or preferred shares, regardless of the current number of shares, subject to the limit of 2/3 of preferred shares in the total shares issued.

b. Treasury shares

The Company acquired shares issued by itself at market prices without capital reduction, to be held in treasury and to be subsequently disposed of or cancelled, in accordance with Instructions CVM 10 of February 14, 1980 and 268 of November 13, 1997. In the first quarter of 2010, there were no stock repurchases.

As of March 31, 2010, the interim financial statements of the parent company totaled 2,138,772 preferred shares and 6,617 common shares held in treasury, acquired at an average cost of R\$ 57.79 and R\$ 19.30 per share, respectively. In the consolidated interim financial statements, 2,592,247 preferred shares and 6,617 common shares are held in treasury, acquired at an average cost of R\$ 54.22 and R\$ 19.30 per share, respectively.

The price of preferred shares issued by the Company as of March 31, 2010 on BM&FBovespa was R\$ 80.50.

c. Capital reserve

The capital reserve reflects the gain of the transfer of shares at market price to be held in treasury in the Company's subsidiaries, at an average price of R\$ 47.26 per share. Such shares were used to award beneficial ownership to executives of these subsidiaries, as mentioned in Note 9.c).

d. Revaluation reserve

The revaluation reserve reflects the revaluation of assets of subsidiaries and is based on depreciation, write-off, or disposal of the revalued assets of the subsidiaries, and also based on the tax effects of the provisions created by these subsidiaries.

In some cases, tax charges on the equity-method revaluation reserve of certain subsidiaries are recognized as the reserve is realized, as they preceded the issuance of Resolution CVM 183/95.

e. Retention of profits reserve

Used for investments contemplated in a capital budget, mainly for expansion, productivity, and quality, acquisitions and new investments. Formed in accordance with Article 196 of the Brazilian Corporate Law, it includes both the portion of net income for the year and the realization of the revaluation reserve.

f. Reconciliation between parent company and consolidated shareholders' equity

	03/31/2010	12/31/2009
Parent company shareholders' equity	4,973,935	4,845,164
Treasury shares held by subsidiaries – net of realization	(12,040)	(12,683)
Capital reserve from sale of treasury shares to subsidiaries – net of realization	(3,056)	(3,207)
Consolidated shareholders' equity	4,958,839	4,829,274

g. Valuation adjustment

In valuation adjustment (i) the differences between the fair value and adjusted cost of financial investments classified as available for sale and of financial instruments designated as a cash flow hedge of the change in interest rates and (ii) the effect of exchange rate changes on derivatives designated as hedging by RPR, used to protect the future cash flow are recognized directly in shareholders' equity. In all cases, the gains and losses recorded in the shareholders' equity are included in income, in the case of financial instruments prepayment.

h. Cumulative translation adjustments of foreign currency

The change in exchange rates on foreign subsidiaries denominated in a currency other than the currency of the Company is directly recognized in the shareholders' equity. This accumulated effect is reflected in income for the year as a gain or loss only in case of disposal or write-off of the investment.

18 Other income

Other income is composed of R\$ 861 (revenue) (R\$ 3,038 (revenue) as of March 2009) mainly of proceeds from the sale of fixed assets, especially LPG bottles, land and vehicles.

19 Segment information

The company operates four main business segments: gas distribution, fuel distribution, chemicals, and logistics. The gas distribution segment distributes LPG to residential, commercial, and industrial consumers, especially in the South, Southeast, and Northeast Regions of Brazil. The fuel distribution segment operates the distribution of fuels and lubricants and related activities throughout all the Brazilian territory, since the acquisition of Texaco on April 1, 2009. The chemicals segment produces ethylene oxide and its derivatives, which are the raw materials for the cosmetics & detergent, agrochemical, paint & varnish, and other industries. The logistics segment provides transportation and storage services, especially in the Southeast, and Northeast Regions of Brazil. The segments shown in the interim financial statements are strategic business units supplying different products and services. Inter-segment sales are at prices similar to those that would be charged to third parties.

The main financial information on each segment of the Company can be stated as follows (excluding inter-segment transactions):

21 Risks and financial instruments (Consolidated)

Risk management and financial instruments - Governance

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operational and economic/financial aspects. Operational/strategic risks (including, but not limited to, demand behavior, competition, technological innovation, and material changes in the industry structure) are addressed by the Company's management model. Economic/financial risks primarily reflect default of customers, behavior of macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company and its subsidiaries and by their counterparties. These risks are managed through control policies, specific strategies, and establishment of limits.

The Company has a conservative policy for the management of assets, financial instruments and financial risks approved by its Board of Directors ("Policy"). In accordance with the Policy, the main objectives of financial management is to preserve the value and liquidity of financial assets and ensure financial resources for the proper conduct of business, including expansions. The main financial risks considered in the Policy are risks associated with currencies, interest rates, credit and selection of financial instruments. Governance of the management of financial risks and financial instruments follows the segregation of duties below:

Implementation of the management of financial assets, instruments and risks is the responsibility of the Financial Area, through its treasury, with the assistance of the tax and accounting areas.

- Supervision and monitoring of compliance with the principles, guidelines and standards of the Policy is the responsibility of the Risk and Investment Committee, set up more than 10 years ago and composed of members of the Company's Executive Board ("Committee"). The Committee holds regular meetings and is in charge, among other responsibilities, of discussing and monitoring the financial strategies, existing exposures, and significant transactions involving investment, fund raising, or risk mitigation. The Committee monitors the risk standards established by the Policy through a monitoring map on a monthly basis.

Changes in the Policy or revisions of its standards are subject to the approval of the Company's Board of Directors.

Continuous enhancement of the Policy is the joint responsibility of the Board of Directors, the Committee, and the Financial Area.

Currency risk

Most transactions of the Company and its subsidiaries are located in Brazil and, therefore, the reference currency for currency risk management is the Real. Currency risk management is guided by neutrality of currency exposures and considers the transactional, accounting, and operational risks of the Company and its subsidiaries and their exposure to changes in exchange rates. The Company considers as its main currency exposures the assets and liabilities in foreign currency and the short-term flow of net sales in foreign currency of Oxiteno.

The subsidiaries of the Company use exchange rate hedging instruments (especially between the Real and the U.S. dollar) available in the financial market to protect their assets, liabilities, receipts and disbursements in foreign currency, in order to reduce the effects of changes in exchange rates on its results and cash flows in Reais within the exposure limits under its Policy. Such foreign exchange hedging instruments have amounts, periods, and rates substantially equivalent to those of assets, liabilities, receipts and disbursements in foreign currency to which they are related. Assets and liabilities in foreign currency are stated below, translated into Reais as of March 31, 2010 and December 31, 2009:

Assets and liabilities in foreign currency

(1) Amount disclosed due to its magnitude and to RPR having independent financial management. The net asset position as of March 31, 2010 of RPR reflects the amount of R\$ 63.4 million of contracted exchange rate swaps primarily to protect the future import of oil, net of (i) R\$ 17.1 million of financing in foreign currency and (ii) R\$ 1.7 million of suppliers in foreign currency.

Based on the net liability position of R\$ 208.7 million in foreign currency shown above, we estimate that a 10% devaluation (valuation) of the Real would produce a total effect of R\$ 20.9 million, of which R\$ 25.4 million of financial expense (revenue) and R\$ 4.5 million of gain (loss) directly recognized in the shareholders' equity in cumulative translation adjustments (see Note 3.n).

Interest rate risk

The Company and its subsidiaries adopt conservative policies for fund raising and use of financial resources and capital cost minimization. The financial investments of the Company and its subsidiaries are primarily held in transactions linked to the interest rate for Interbank Certificate of Deposit (CDI), as set forth in Note 5. Fund raising primarily results from financing from BNDES and other development agencies, debentures and funds raised in foreign currency, as shown in Note 16.

The Company does not actively manage risks associated with changes in the level of interest rates and attempts to maintain its financial interest assets and liabilities at floating rates. As of March 31, 2010, the Company and its subsidiaries had derivative financial instruments of interest rate linked to domestic loans, swapping pre-fixed interest of certain debts to floating rate.

Credit risks

The financial instruments that would expose the Company and its subsidiaries to credit risks of the counterparty are basically represented by cash and cash equivalents, financial investments, and accounts receivable.

Credit risk of financial institutions - Such risk results from the inability of financial institutions to comply with their financial obligations to the Company and its subsidiaries due to insolvency. The Company and its subsidiaries regularly conduct a credit review of the institutions with which they hold cash and cash equivalents, financial investments, and hedging instruments through various methodologies that assess liquidity, solvency, leverage, portfolio quality, etc. Cash and cash equivalents, financial investments, and hedging instruments are held only with institutions with a solid credit history, chosen for safety and soundness. The volumes of cash and cash equivalents, financial investments, and hedging instruments are subject to maximum limits by institution and, therefore, require diversification of counterparty.

Government credit risk - The Company and its subsidiaries have financial investments in federal government bonds of Brazil and countries rated AAA or Aaa by specialized credit rating agencies. The volumes of financial investments are subject to maximum limits by country and, therefore, require diversification of counterparty.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial statements

(In thousands of Reais, unless otherwise stated)

Customer credit risk - Such risks are managed by each business unit through specific criteria for acceptance of customers and credit rating and are additionally mitigated by diversification of sales. As of March 31, 2010, Ipiranga maintained R\$ 99,011 (R\$ 98,330 as of December 31, 2009), Ultragas maintained R\$ 14,394 (R\$ 12,719 as of December 31, 2009), Oxiteno maintained R\$ 2,338 (R\$ 2,089 as of December 31, 2009) and the subsidiaries of Ultracargo maintained R\$ 858 (R\$ 1,322 as of December 2009) as a provision for potential loss on their accounts and assets receivables.

Selection and use of financial instruments

In selecting financial investments and hedging instruments, an analysis is conducted to estimate rates of return, risks involved, liquidity, calculation methodology for the carrying value and fair value, and documentation applicable to the financial instruments. The financial instruments used to manage the financial resources of the Company and its subsidiaries are intended to preserve value and liquidity.

The Policy contemplates the use of derivative financial instruments only to cover identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). The risks identified in the Policy are described in the above Sections of this Note, therefore, are subject to risk management. In accordance with the Policy, the Company and its subsidiaries can use forward contracts, swaps, options, and futures contracts to manage identified risks. Leveraged derivative instruments or instruments with a margin call are not permitted. Because the use of derivative financial instruments is limited to the coverage of identified risks, the Company and its subsidiaries use the term “hedging instruments” to refer to derivative financial instruments.

As mentioned in the section Risk management and financial instruments – Governance of this Note, the Committee monitors compliance with the risk standards established by the Policy through a risk monitoring map, including the use of hedging instruments, on a monthly basis.

Hedging against foreign exchange exposure of liabilities in foreign currency - The purpose of these contracts is to offset the effect of the change in exchange rates of a debt in U.S. dollars by converting it into a debt in Reais linked to CDI. As of March 31, 2010, the Company and its subsidiaries had outstanding swap contracts totaling US\$ 188.7 million in notional amount and, on average, they had asset position at US\$ + 5.13 p.a. and liability position at 117.72 % of CDI.

Hedging against foreign exchange exposure of operations - The purpose of these contracts is to make the exchange rate of the turnover of the subsidiaries of Oleoquímica, Oxiteno S.A. and Oxiteno Nordeste equal to the exchange rate of the cost of their main raw materials. As of March 31, 2010, these swap contracts totaled US\$ 70.2 million and, on average, had an asset position at 80.29% of CDI and liability position at US\$ + 0.0% p.a.

Hedging against the interest rate fixed in local financing - The purpose of these contracts is to convert the interest rate on financing contracted in Reais from fixed into floating. On March 31, 2010 these swap contracts totaled \$ 853.0 million, and on average had an asset position at 11.48% p.a. and liability position at 98.5% of CDI.

Hedging against floating interest rate in foreign currency - The purpose of this contract is to convert the interest rate on the syndicated loan in the principal of US\$ 60 million from floating into fixed. As of March 31, 2010, the subsidiary Oxiteno Overseas had a swap contract with a notional amount of US\$ 60 million, with an asset position at US\$ + LIBOR + 1.25% p.a. and a liability position at US\$ + 4.93% p.a.

Hedging against foreign exchange exposure of a firm commitment in foreign currency (RPR) - The purposes of these contracts is to offset the effect of the change in exchange rates on imports of oil denominated in U.S. dollars (US\$ 26.6 million) and the financing denominated in foreign currency (US\$ 9.8 million). On March 31, 2010 the subsidiary RPR held NDF (non-deliverable forwards) contracts with contracted average future U.S. dollar of R\$ 1.8111/US\$ and principal, proportional to the Company's interest of US\$ 36.4 million.

The Company and its subsidiaries designate as cash flow hedges some instruments of protection for future cash flows. These instruments of protection whose purpose is to protect the cash flows (i) from the risk of fluctuations in Libor on loans contracted and (ii) the risk of exchange rate changes of subsidiary RPR on future imports of oil denominated in U.S. dollars. On March 31, 2010 these instruments of protection amounted \$ 86.6 million.

The Company and its subsidiaries designate derivative financial instruments used to offset the variations due to changes in interest rates in the market value of debts contracted in Reais as fair value hedge. As of March 31, 2010 these instruments of protection totaled R\$ 853.0 million.

Fair value of financial instruments

The fair values and the carrying values of the financial instruments, including currency and interest rate hedging instruments, as of March 31, 2010 and December 31, 2009 are stated below:

	03/31/2010		12/31/2009	
	Carrying value	Fair value	Carrying value	Fair value

	4,344,675	4,387,385	4,342,828	4,376,352

The fair value of financial instruments, including currency and interest hedging instruments, was determined as follows:

- The fair values of cash on current account are identical to the carrying values.
- Financial investments in investment funds are valued at the value of the fund unit as of the date of the interim financial statements, which correspond to their fair value.
- Financial investments in CDBs and similar investments offer daily liquidity through repurchase in the yield curve and, therefore, the Company believes their fair value corresponds to their carrying value.
- The fair value of other financial investments and financing was determined using calculation methodologies commonly used for marking-to-market, which consist of calculating future cash flows associated with each instrument adopted and adjusting them to present value at the market rates as of March 31, 2010 and December 31, 2009. For some cases where there is no active market for the financial instrument, the Company and its subsidiaries used quotes provided by the transaction counterparties.

The interpretation of market information on the choice of calculation methodologies for the fair value requires considerable judgment and estimates to obtain a value deemed appropriate to

each situation. Consequently, the estimates presented do not necessary indicate the amounts that may be realized in the current market.

Sensitivity analysis

The Company and its subsidiaries use derivative financial instruments only to hedge against identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). Thus, for purposes of sensitivity analysis of market risks associated with financial instruments, the Company analyzes the hedging instrument and the hedged item together, as shown on the charts below.

For the sensitivity analysis of foreign exchange hedging instruments, management adopted as a likely scenario the Real/U.S. dollar exchange rates at maturity of each swap, projected by U.S dollar futures contracts quoted on BM&FBovespa as of March 31, 2010. As a reference, the exchange rate for the last maturity of foreign exchange hedging instruments is R\$ 2.65 in the likely scenario. Scenarios II and III were estimated with a 25% and 50% additional devaluation, respectively, of the Real in the likely scenario.

Based on the balances of the hedging instruments and hedged items as of March 31, 2010, the exchange rates were replaced, and the changes between the new balance in Reais and the balance in Reais as of March 31, 2010 were calculated in each of the three scenarios. The table below shows the change in the values of the main derivative instruments and their hedged items, considering the changes in the exchange rate in the different scenarios:

	Risk	Scenario I (likely)	Scenario II	Scenario III
Currency swaps receivable in U.S. dollars

Notes to the interim financial statements

(In thousands of Reais, unless otherwise stated)

For the sensitivity analysis of the interest rate hedging instrument in dollar, the Company used the future LIBOR curve (BBA – British Bankers Association) as of March 31, 2010 at maturity of the swap and of the syndicated loan (hedged item), which occurs in 2011, in order to define the likely scenario. Scenarios II and III were estimated with a 25% and 50% deterioration, respectively, in the estimate of the likely LIBOR.

Based on the three interest rate scenarios in dollar (LIBOR), management estimated the values of its loan and of the hedging instrument by calculating the future cash flows associated with each instrument adopted according to the projected scenarios and adjusting them to present value by the rate in effect on March 31, 2010. The result is stated on the table below:

	Risk	Scenario I (likely)	Scenario II	Scenario III
Interest rate swap (in dollars)				
(1) LIBOR / fixed rate swap	Increase in	614	917	1,219
(2) LIBOR Debt	LIBOR	(619)	(925)	(1,230)
(1)+(2)	Net Effect	(5)	(8)	(11)

For sensitivity analysis of interest rate instruments of protection in Reais, the Company used the futures curve of DI x Pre contract of BM&FBovespa as of March 31, 2010 for each swap and each debt (object of protection) maturities, for defining the likely scenario. Scenarios II and III were estimated with a 25% and 50% deterioration, respectively, of pre-fixed rate to that of the likely scenario.

Based on three scenarios of interest rates in Reais, the Company estimated the values of its debt and instruments of protection according to the risk which is being protected (variations in the pre-fixed interest rates in Reais), by projecting them to future value by the contracted rates and bringing them to present value by the interest rates of the estimated scenarios. The result is shown in the table below:

Interest rate swap (in R\$)				
(1) CDI / fixed rate swap	Increase in	426	(53,411)	102,433
(2) Fixed rate debt	prefixed rate	(426)	53,408	(102,429)

a. Civil, tax and labor proceedings

On October 7, 2005, the subsidiaries Cia Ultragraz and Bahiana Distribuidora de Gás Ltda. (“Bahiana”) filed for and obtained an injunction to offset PIS and COFINS credits against other taxes administered by the Federal Revenue Service, notably IRPJ and CSLL. The decision was confirmed by a trial court judgment on May 16, 2008. Under the injunction obtained, the subsidiaries have been making judicial deposits for these debits in the accumulated amount of R\$ 145,586 as of March 31, 2010 (R\$ 135,821 as of December 31, 2009) and have recorded a corresponding liability.

Subsidiaries Cia. Ultragaz, Utingás Armazenadora S.A. (“Utingás”), Tequimar, Transultra and Ultracargo - Operações Logísticas e Participações Ltda. (“Ultracargo Participações”) have filed actions with a motion for injunction seeking full and immediate utilization of the supplementary monetary adjustment based on the Consumer Price Index (IPC)/National Treasury Bonds (BTN) for 1990 (Law 8200/91); the subsidiaries Cia Ultragaz, Utingás and Tequimar opted to include the contingencies related to their processes within the Law 11941/09 amnesty and reclassified the contingencies’ amount to the line of taxes payables. The other subsidiaries maintain a provision of R\$ 928 as of March 31, 2010 (R\$ 15,436 as of December 31, 2009) to cover any contingencies if they lose such actions.

The Company and some of its subsidiaries have filed actions with a motion for injunction against the application of the law restricting offset of tax losses (IRPJ) and negative tax bases (CSLL) determined as of December 31, 1994 to 30% of the income for the year. As a result of the position of the Federal Supreme Court (STF) and based on the opinion of its legal counsel, a provision was recorded for this contingency in the amount of R\$ 6,330 as of March 31, 2010 (R\$ 7,044 as of December 31, 2009). The subsidiary Ultracargo Participações decided to include an administrative case related to this thesis within the Law 11941/09 amnesty and reclassified part of the provisioned contingency to the line of taxes payable.

The subsidiary IPP has proposed a Declaratory Action questioning the constitutionality of Law No. 9316/96, which denied the CSLL from the IRPJ calculation basis. This action had its application denied at lower court levels, and the subsidiary is awaiting the judgment of the appeal made to the STF. As a result of the decisions issued, the subsidiary has constituted judicial deposits and recorded a provision for contingencies amounting to R\$ 12,528 as of March 31, 2010 (R\$ 12,528 as of December 31, 2009).

Based on the favorable jurisprudence and the opinion of its legal counsel, the subsidiaries Oxiteno Nordeste and Oxiteno S.A. filed lawsuits to obtain exclusion of export revenues from the tax base for CSLL. The injunction was granted to Oxiteno Nordeste and the subsidiary is making judicial deposits of the amounts in discussion, as well as provisioning the corresponding contingency in the amount of R\$ 919; the subsidiary Oxiteno S.A. awaits judgment of appeal against the sentence which denied the requested injunction, and is still normally paying the CSLL.

The subsidiaries Oxiteno S.A., Oxiteno Nordeste, Cia. Ultragaz, Transultra, RPR, Tropical Transportes Ipiranga Ltda. (“Tropical”), Empresa Carioca de Produtos Químicos S.A. (“EMCA”) e IPP, filed for an injunction seeking the deduction of ICMS from the PIS and COFINS tax basis. Oxiteno Nordeste and IPP obtained an injunction and are paying the disputed amounts into judicial deposits, as well as recording the respective provision in the amount of R\$ 46,617 as of

March 31, 2010 (R\$ 43,571 as of December 31, 2009); the others subsidiaries did not obtain an injunction and are awaiting the judgment of these lawsuits.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS contributions without the changes introduced by Law 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. In 2005, the STF decided the question in favor of the taxpayer. Although it has set a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own legal lawsuits. The Company has subsidiaries whose lawsuits have not yet been decided. If all ongoing lawsuits are finally decided in favor of the subsidiaries, the Company estimates that the total positive effect on income before income tax and social contribution will reach R\$ 34,500, net of attorney's fees.

The Company and its subsidiaries are recording provision for PIS and COFINS calculated on the basis of the interest on capital. The total amount accrued at March 31, 2010 is R\$ 22,006 (R\$ 21,724 as of December 31, 2009).

The subsidiaries IPP have provisions for contingencies related to ICMS related mainly to: (a) ownership of the credit for the difference between the value that was the basis for the retention tax and the amount actually practiced in sales to final consumers, resulting in excessive retention of ICMS by the Refinery, R\$ 50,485 (b) delinquency notice for interstate sales of fuel to industrial customers without taxation of ICMS, because of the interpretation of Article 2 of the LC 87/96, R\$ 41,258, (c) requirement of the reversal of ICMS credits in the State of Minas Gerais, in the interstates, made under Article 33 of the ICMS Convention 66/88, which allowed the maintenance of the credits and was suspended by an injunction granted by the STF, R\$ 39,629, (d) requirement of ICMS-ST on interstate sales from the distributors to final consumers, because there is no retention under the duration of the Conventions ICMS 105/92 and 112/93 R\$ 18,604 (e) assessments for deducting of unconditional discounts from the tax basis for ICMS due to tax substitution, in the state of Minas Gerais, R\$ 17,019, (f) delinquency notice resulting from lack of ICMS collection in the States due to errors or lack of delivery of reports in interstate operations, contemplated by Convention ICMS 54/02, that enabled the transfer of ICMS to the state of fuel consumption, R\$ 4,012, and (g) requirement for the reversal of ICMS credits on transportation services taken during the freight reimbursement system established by the DNC (currently ANP – National Petroleum, Natural Gas and Biofuel Agency), R\$ 8,965.

The main tax claims of the subsidiary IPP that were considered to pose a possible risk of loss, and based on this position, have not been provided for in the interim financial statements, relate to ICMS and related mainly to: (a) assessments for lack of retention of ICMS-ST in the sale of petroleum products to customers who held decisions designed to separate the tax substitution, R\$ 104,660, (b) requirement of proportionate reversal of ICMS credits in view of the acquisitions of hydrous ethanol to give higher values than the its sales, because of the transfer of a portion of financial support for agriculturists (FUPA) made by the distributors upon the acquisitions subsequently reimbursed by the DNC, R\$ 71,638, (c) requirement of the reversal credit on the difference between the values that formed the basis for withholding tax and the amounts actually charged on sales to final consumers, R\$ 40,316, (d) assessments for alleged non-payment of taxes, R\$ 48,268, (e) requirement by SEFAZ RJ-reversal of ICMS credits on purchases of basic oils, due to the subsequent output of finished lubricant without taxation, R\$ 35,642,

(f) delinquency notice on interstate sales of fuel for industrial customer without ICMS, following the interpretation of Article 2 of LC 87/96, R\$ 15,049, (g) records of notices issued in Ourinhos / SP for the operations to return the loan of ethanol made with tax deferral, R\$ 18,884, (h) assessments in the State of Rio de Janeiro demanding the reversal of ICMS credits generated in interstate shipments made under Article 33 of the ICMS Convention 66/88, which allowed the maintenance of credit and was suspended by an injunction granted by STF, R\$ 14,599, (i) disallowance of ICMS credits taken in the bookkeeping of bills considered inapt, though the understanding of the STJ is in the sense that it is possible to take credit for the buyer even if there is defect in the document of the seller, provided that the remains confirmed that the transaction actually took place, R\$ 15,376, (j) records of notices issued on the grounds of alleged improper calculation of the base of ICMS, since it was not included in the database to calculate the value of the tax itself in interstate operations with petroleum products for final consumers, R\$ 13,182, (k) requiring the reversal of ICMS credits on the freight contract to transport fuel, due to the fact that the operation is not taxed as constitutional non-impact, for R\$ 12,770 and (l) assessments arising from surplus or shortage of stock, occurred due to differences in temperature or handling the product in which the review believes that there is input or output without a corresponding issue of invoice, R\$ 10,382.

In addition, the subsidiary IPP has infraction of the non-approval of set-off of IPI credits appropriate under inputs taxed whose outputs were under the protection of immunity. The non-provisioned amount of contingency, updated as of March 31, 2010, is R\$ 54,780 (R\$ 53,288 as of December 31, 2009). The subsidiary also has legal lawsuits to guarantee the compensation of overpaid PIS values before the declaration of unconstitutionality of Decrees 2445/88 and 2449/88 and decided to include part of these cases within the Law 11941/09 amnesty, recording the corresponding amount of R\$ 29,607 as taxes payable. The non-provisioned amount for the others cases updated as of March 31, 2010 is R\$ 50,464 (R\$ 98,608 as of December 31, 2009).

In 1990, the Union of Workers in Petrochemical Plants, of which the employees of the subsidiaries Oxiteno Nordeste and EMCA are members, filed an action against the subsidiaries to enforce adjustments established under a collective labor agreement, in lieu of the salary policies actually implemented. At the same time, the Employers' Association proposed a collective bargaining for interpretation and clarification of Clause Four of the agreement. Based on the opinion of its legal counsel, who reviewed the latest decision of STF in the collective bargaining and the position of the individual action of the subsidiary Oxiteno Nordeste, management of the subsidiaries did not deem it necessary to record a provision as of March 31, 2010.

Subsidiary Cia. Ultragaz is facing an administrative case pending before the CADE, for alleged anticompetitive practice in cities in the Triângulo Mineiro region in 2001. Recently, the CADE entered a decision against Cia. Ultragaz imposing a penalty of R\$ 23,104. This administrative decision had its execution suspended under court order and the merits are being discussed in court. Based on the above elements and on the opinion of its legal counsel, the subsidiary's management did not record a provision to this contingency.

Subsidiary Cia. Ultragaz is the defendant in legal proceedings for damages arising from an explosion in 1996 in a shopping mall located in the City of Osasco, State of São Paulo. Such proceedings involve: (i) individual proceedings brought by victims of the explosion seeking compensation for loss of income and pain and suffering (ii) request for compensation for expenses of the shopping mall administrator and its insurer; and (iii) class action seeking economic and non-economic damages for all victims injured and dead. The subsidiary believes that it produced evidence that the defective gas pipelines in the shopping mall caused the accident, and Ultragaz's local LPG storage facilities did not contribute to the explosion. Out of the 64 actions decided to date, 63 were favorable, of which 29 are already shelved; only 1 was adverse and the subsidiary was sentenced to pay R\$ 17. There is only 1 action yet to be decided. The subsidiary has insurance coverage for these legal proceedings, and the value not insured is R\$ 19,554. The Company did not record any provision for this value because it considers the chances of realization of this contingency as essentially remote.

Subsidiary IPP has provisions for settlement of terms of contracts with customers and ex-service providers, as well as environmental issues, in the amount of R\$ 31,262 as of March 31, 2010 (R\$ 31,728 as of December 31, 2009).

The Company and its subsidiaries have other pending administrative and legal proceedings, which were estimated by their legal counsel as possible and/or remote risk, and the related potential losses were not provided for by the Company and its subsidiaries based on these opinions. The Company and its subsidiaries also have litigations for recovery of taxes and contributions, which were not recorded in the interim financial statements due to their contingent nature.

Movements in provisions, net of amounts in escrow, are as follows:

Provisions	Balance as of Dec. 31, 2009	Amnesty Adoption	Additions	Write-offs	Adjustments	Balance as of Mar. 31, 2010

b. Contracts

Subsidiary Tequimar has agreements with CODEBA and Complexo Industrial Portuário Governador Eraldo Gueiros in connection with its port facilities in Aratu and Suape, respectively. Such agreements set a minimum value for cargo movement of 1,000,000 tons per year in Aratu by 2022 and 250,000 tons per year in Suape effective through 2027. With the acquisition of Puma's assets (see note No. 13), the subsidiary Tequimar entered into another agreement with Complexo Industrial Portuário Governador Eraldo Gueiros that sets a additional minimum value for cargo movement of 400,000 tons of cargo per year in Suape, by 2029. If the annual movement is less than the minimum required, then the subsidiary will have to pay the difference between the actual movement and the minimum required by the agreements, using the port rates in effect at the date established for payment. As of March 31, 2010, such charges were R\$ 5.79 and R\$ 1.38 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement requirements since the beginning of the agreements.

Subsidiary Oxiteno Nordeste has a supply agreement with Braskem S.A. setting a minimum value for quarterly consumption of ethylene and establishing conditions for the supply of ethylene until 2021. The minimum purchase commitment and the actual demand accumulated to March 31, 2010 and March 31, 2009, expressed in tons of ethylene, are shown below. In case of breach of the minimum purchase commitment, the subsidiary agrees to pay a penalty of 40% of the current ethylene price, to the extent of the shortfall. The provision of minimum purchase commitment is under renegotiation with Braskem, including the minimum purchase commitment related to 2009.

(*) Adjusted for the maintenance stoppage carried out by Braskem in the period.

In August 2008, the subsidiary Oxiteno S.A signed an Ethylene Supply Agreement with Quattor Química S.A., valid until 2023, which establishes and regulates the conditions for supply of ethylene to Oxiteno based on the international market for this product. The minimum purchase is 19,800 tons of ethylene semiannually. In case of breach, the subsidiary agrees to pay a penalty of 30% of the current ethylene price, to the extent of the shortfall.

c. Insurance coverage in subsidiaries

The Company maintains appropriate insurance policies to cover several risks to which it is exposed, including asset insurance against losses caused by fire, lightning, explosion of any kind, gale, aircraft crash, and electric damage, and other risks, covering the bases and other branches of all subsidiaries, except RPR, which maintains its own insurance. The maximum compensation value, including loss of profits, based on the risk analysis of maximum loss possible at a certain site is US\$ 1,050 million.

The General Responsibility Insurance program covers the Company and its subsidiaries with a maximum aggregate coverage of US\$ 400 million against losses caused to third parties as a result of accidents related to commercial and industrial operations and/or distribution and sales of products and services.

Group Life and Personal Accident, Health, National and International Transportation and All Risks insurance policies are also maintained.

The coverages and limits of the insurance policies maintained are based on a careful study of risks and losses conducted by local insurance advisors, and the type of insurance is considered by management to be sufficient to cover potential losses based on the nature of the business conducted by the companies.

d. Operating lease contracts

The subsidiaries IPP and Serma have operating lease contracts for the use of computer equipment.

These contracts have terms of 36 months. The subsidiaries have the option to purchase the assets at a price equal to the fair price on the date of option, and management does not intend to exercise such option.

The future disbursements (installments), assumed under these contracts, total approximately:

	03/31/2010	12/31/2009
Up to 1 year	554	554
More than 1 year	553	692
	1,107	1,246

The total payments of operating lease recognized as expense for the period was R\$ 139 (R\$ 517 as of March 31, 2009).

23 Employee benefits and private pension plan (Consolidated)

a. ULTRAPREV- Associação de Previdência Complementar

The Company and its subsidiaries offer a defined-contribution pension plan to its employees, which is managed by Ultraprev - Associação de Previdência Complementar. Under the plan, the basic contribution of each participating employee is calculated by multiplying a percentage ranging from 0% to 11%, which is annually defined by the participant based on his/her salary. The sponsor companies match the amount of the basic contribution paid by the participant. As the participants retire, they choose to receive monthly either: (i) a percentage, ranging from 0.5% to 1.0%, of the fund accumulated for the participant with Ultraprev; or (ii) a fixed monthly amount that will exhaust the fund accumulated for the participant within a period ranging from 5 to 25 years. Thus, the Company and its subsidiaries do not assume responsibility for guaranteeing amounts and periods of pension benefits. As of March 31, 2010, the Company and its subsidiaries contributed R\$ 3,216 (R\$ 2,227 as of March 31, 2009) to Ultraprev, which amount is recorded as expense in the income statement for the year. The total number of employees participating in the plan as of March 31, 2010 was 7,162 active participants and 41 retired participants. In addition, Ultraprev had 30 former employees receiving benefits under the previous plan whose reserves are fully constituted.

b. Post-employment benefits

Ipiranga and RPR recognized a provision for post-employment benefits mainly related to seniority bonus, payment of Severance Pay Fund, and health and life insurance plan for eligible retirees.

The net liabilities for such benefits recorded as of March 31, 2010 are R\$ 102,040 (R\$ 102,040 as of December 31, 2009), of which R\$ 11,955 (R\$ 11,960 as of December 31, 2009) are recorded as current liabilities and R\$ 90,085 (R\$ 90,080 as of December 31, 2009) as long-term liabilities.

The amounts related to such benefits were determined based on a valuation conducted by an independent actuary and are recorded in the interim financial statements in accordance with Resolution CVM 371/2000.

24 Other information – Market announcement

In March 31, 2010, the Company announced to market that had signed a sale and purchase agreement (“SPA”) to sell the in-house logistics, solid bulk storage and road transportation businesses of Ultracargo Participações to Aqces Logística Internacional Ltda. (“Aqces”). The transaction value is R\$ 82 million, subject to adjustments on the closing date. Under the terms of the SPA, closing of the transaction is subject to certain conditions precedent, notably the segregation of the in-house logistics, solid bulk storage and road transportation operations, with the transfer of the respective assets, contracts, licenses and employees from Ultracargo Participações to its subsidiaries AGT – Armazéns Gerais e Transporte Ltda. (“AGT”) and Petrolog Serviços e Armazéns Gerais Ltda. (“Petrolog”). On the closing date, which is expected to occur in mid-2010, shares of AGT and Petrolog will be transferred to Aqces. This transaction allows Ultracargo Participações to focus exclusively on its liquid bulk storage business, segment in which it has a leadership position and which already represented approximately 85% of the results after the recent acquisitions of União Terminais and Puma and investments in capacity expansions at the Aratu, Santos and Suape terminals.

Considerations on the financial and operational information

Standards and criteria adopted in preparing the information

Ultrapar's financial statements for the year ended December 31st, 2009 were prepared in accordance with the accounting directives set out in the Brazilian Corporate Law, being adopted the alterations introduced by Laws 11,638/07 and 11,941/09 (former Provisional Measure 449/08), as well as the CVM standards, instructions and guidelines, which regulate them. In connection with the process of converging the accounting practices adopted in Brazil to the international financial reporting standards (IFRS), several guidelines, interpretations and orientations were issued during 2009 with mandatory application for the year ending December 31st, 2010. Ultrapar decided to rely on the option foreseen in Article 1 of CVM Resolution 603/2009, as amended by CVM Resolution 626/2010, in preparing the quarterly information for the period ended March 31st, 2010, an option that allows companies to report their quarterly information for the period ended March 31st, 2010 in accordance with the accounting standards valid on December 31st, 2009.

Except when otherwise indicated, the amounts presented in this document are expressed in millions of R\$ and are subject to rounding off. Consequently, the total amounts presented in the tables may differ from the direct sum of the amounts that precede them.

Effect of the acquisition - Texaco

In August 2008, Ultrapar announced the signing of the sale and purchase agreement for the acquisition of Texaco's fuel distribution business in Brazil. On March 31st, 2009, Ultrapar closed the acquisition of Texaco through the disbursement of R\$ 1,106 million, in addition to the US\$ 38 million deposit made to Chevron in August 2008. In August 2009, Ultrapar paid R\$ 162 million related to the expected working capital adjustment, reflecting the increased working capital effectively received by Ultrapar on the closing date of the acquisition. The results of Texaco were consolidated in Ultrapar's financial statements from April 1st, 2009. Ultrapar's financial statements in periods prior to 2Q09 do not include Texaco's results.

In order to provide a better understanding of the progression of Ipiranga's recurring results, the table below summarizes Ipiranga's results for 2Q09, 3Q09, 4Q09 and 1Q10 ex-non-recurring expenses related to the conversion of Texaco service stations into the Ipiranga brand and to the integration of the acquired operations. The analysis and discussion of the progression in Ipiranga's results presented in this document exclude non-recurring items, in order to provide comparability of the information and a better understanding of the company's performance.

¹ The information for 1Q10 also exclude the effects of adhering the Federal and Mato Grosso State's tax financing program, with an impact of R\$ 22 million on Ipiranga's EBITDA. Additional information is available in note 22.a. to the financial statements for the quarter ended March 31st, 2010, available on Ultrapar's website (www.ultra.com.br).

(2) Performance Analysis:

Net Sales and Services: Ultrapar's consolidated net sales and services amounted to R\$ 9,941 million in 1Q10, up 55% over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards and the growth in sales in all businesses. Compared with 4Q09, Ultrapar's net sales and services declined by 5% due to seasonality between periods.

Ultragas: In 1Q10, Ultragas's sales volume amounted to 371 thousand tons, up 2% over 1Q09. In the bottled segment, Ultragas sales volume remained stable compared with 1Q09. In the bulk segment, sales volume grew by 6% due to the higher level of economic activity and recovery of manufacturing activity. Compared with 4Q09, Ultragas's sales volume decreased by 7%, as a result of seasonality between periods. Ultragas's net sales and services amounted to R\$ 842 million in 1Q10, up 10% over 1Q09, due to an increase in sales volume, a rise in the cost of LPG used in the bulk segment and commercial initiatives and operational efficiency programs implemented. Compared with 4Q09, net sales and services declined by 5% as a consequence of seasonally lower sales volume, partially offset by the effect of an increase in the cost of LPG used in the bulk segment.

Ipiranga: Ipiranga's sales volume totaled 4,595 thousand cubic meters in 1Q10, 66% higher than that in 1Q09. Sales volume of fuels for light vehicles grew by 69%, mainly as a consequence of the consolidation of Texaco's volume from April 1st, 2009 onwards and the increase in the light vehicle fleet during the last 12 months, especially the increase in sales volume of gasoline due to the lower availability of ethanol. Diesel volume grew by 65% due to the consolidation of Texaco's volume from April 1st, 2009 onwards and the higher level of economic activity in 1Q10. Compared with 4Q09, sales volume decreased by 9%, especially as a result of seasonality between quarters. Ipiranga's net sales and services amounted to R\$ 8,591 million in 1Q10, up 68% over 1Q09, especially as a result of a 66% increase in sales volume, an increased share of gasoline in the product mix and an increase in ethanol costs due to the reduced availability of the product in 1Q10, partially offset by a reduction in the diesel ex-refinery cost in June 2009. Compared with 4Q09, net sales and services declined by 4%, mainly due to a 9% decrease in sales volume.

Oxiteno: Oxiteno's sales volume totaled 164 thousand tons, up 32% (40 thousand tons) over 1Q09, with a 31% increase in sales volume of specialty chemicals, as a result of the higher level of economic activity compared with 1Q09, initiatives to replace imports and expansions in the production capacity. In the Brazilian market, sales volume rose by 35% (31 thousand tons), with a positive progression in all markets, especially in specialty chemicals sold to the cosmetics, agrochemicals and paints and varnishes industries. Sales volume outside Brazil grew by 26% (10 thousand tons) due to an increase in sales of specialty chemicals as a result of the capacity expansions. Compared with 4Q09, sales volume decreased by 10% (18 thousand tons), as a result of seasonality between quarters. Oxiteno's net sales and services totaled R\$ 472 million in 1Q10, up 3% over 1Q09, despite the 22% stronger Real, as a consequence of the 32% growth in sales volume. Compared with 4Q09, net sales and services declined by 7%, mainly due to the 10% reduction in sales volume.

Ultracargo: In 1Q10, Ultracargo reported a 23% and 25% increase in average effective storage measured in cubic meters compared with 1Q09 and 4Q09, respectively, due to the consolidation of the acquired terminal in Suape in December 2009 and higher volume of operations in Santos and Aratu terminals, as a result of capacity expansions and the economic growth. In the transportation segment, total kilometrage travelled declined by 19% compared with 1Q09, especially due to Ultracargo's decision to reduce its presence in some segments during 2009. Compared with 4Q09, total kilometrage travelled declined by 3%. Ultracargo's net sales and services amounted to R\$ 82 million in 1Q10, up 1% from 1Q09, despite the 23% increase in average storage, due to a reduction in kilometrage travelled. Compared with 4Q09, Ultracargo's net sales and services grew by 4%, mainly due to the progression in average storage.

Cost of Good Sold: Ultrapar's cost of goods sold amounted to R\$ 9,216 million in 1Q10, up 57% from 1Q09, especially as a result of the consolidation of Texaco from 2Q09 onwards and higher volume of operations in all

business. Compared with 4Q09, Ultrapar's cost of goods sold declined by 5%, especially due to seasonality between quarters.

Ultragaz: Ultragaz's cost of goods sold amounted to R\$ 696 million in 1Q10, up 6% over 1Q09, as a consequence of a 6% increase in ex-refinery cost of LPG used in the bulk segment from January 2010 and higher sales volume. Compared with 4Q09, the cost of goods sold declined by 7%, in line with the sales volume variation – higher ex-refinery cost of LPG used in the bulk segment was offset in the quarter by lower distribution costs, especially lower costs with bottles re-qualification.

Ipiranga: Ipiranga's cost of goods sold amounted to R\$ 8,120 million in 1Q10, up 68% over 1Q09, especially due to a 66% increase in sales volume, an increased share of gasoline in the product mix and an increase in ethanol costs in 1Q10, partially offset by a reduction in the diesel ex-refinery cost in June 2009. In relation to 4Q09, cost of goods sold declined by 4%, due to the 9% reduction in sales volume.

Oxitenó: Oxitenó's cost of goods sold in 1Q10 amounted to R\$ 392 million, up 4% over 1Q09, as a result of the 32% increase in sales volume and higher costs of raw material in dollars, partially offset by the 22% stronger Real. Compared with 4Q09, Oxitenó's cost of goods sold declined by 9%, almost in line with sales volume variation, with variations in raw material prices in dollars offset by those in the exchange rate.

Ultracargo: Ultracargo's cost of services provided amounted to R\$ 41 million in 1Q10, down 16% over 1Q09, mainly due to its reduced presence in the transportation segment and a R\$ 5 million reduction in depreciation resulting from the revision in the useful life of assets. Compared with 4Q09, Ultracargo's cost of services provided declined by 17%, especially due to increased expenses for scheduled maintenance of terminals in 4Q09 and the R\$ 5 million reduction in depreciation.

Gross profit: Ultrapar's gross profit amounted to R\$ 724 million in 1Q10, up 38% from 1Q09 as a consequence of the growth seen in Ipiranga, Ultragaz and Ultracargo and the consolidation of Texaco from 2Q09 on. Compared with 4Q09, Ultrapar's gross profit decreased by 4%, as a consequence of seasonality in its businesses.

Sales, General and Administrative Expenses: Ultrapar's sales, general and administrative expenses amounted to R\$ 470 million in 1Q10, up 33% from 1Q09, basically as a result of Texaco's consolidation from 2Q09 onwards and non-recurring expenses related to the integration of its operations into Ultrapar. Compared with 4Q09, Ultrapar's sales, general and administrative expenses declined by 6%.

Ultragaz: Ultragaz's sales, general and administrative expenses amounted to R\$ 107 million in 1Q10, up 22% over 1Q09 as a consequence of (i) increased expenses related to promotional and sales campaigns, (ii) the effects of inflation on personnel expenses, (iii) higher variable compensation, in line with the earnings progression, and (iv) an increase in depreciation. Compared with 4Q09, sales, general and administrative expenses grew by 1%, with a reduction in sales expenses offset mainly by the increase in depreciation.

Ipiranga: Ipiranga's sales, general and administrative expenses amounted to R\$ 267 million in 1Q10, up 50% from 1Q09, mainly due to the consolidation of Texaco from 2Q09 onwards. Excluding depreciation, Ipiranga's sales, general and administrative expenses represented R\$ 51/m³ of product sold, lower than the R\$ 56/m³ in 1Q09 (pre-acquisition of Texaco), reflecting the implementation of the operational and administrative synergy plan. In relation to 4Q09, sales, general and administrative expenses declined by 6% due to lower sales volume, partially offset by a concentration of advertising and marketing expenses in the first quarter.

Oxitenó: Oxitenó's sales, general and administrative expenses totaled R\$ 66 million in 1Q10, up 5% from 1Q09 mainly due to higher freight expenses resulting from the 32% increase in sales volume, partially offset by expense reduction initiatives implemented, lower variable compensation and the effect of a stronger Real over international freight expenses. Compared with 4Q09, Oxitenó's sales, general and administrative expenses declined by 4% especially due to the seasonally lower volume.

Ultracargo: Ultracargo's sales, general and administrative expenses totaled R\$ 20 million in 1Q10, down 14% from 1Q09, despite the 23% growth in stored volume, especially as a result of its reduced presence in the transportation segment and operational synergies resulting from União Terminais' integration during 2009. Compared with 4Q09, Ultracargo's sales, general and administrative expenses decreased by 10%, especially due to the higher variable compensation in 4Q09, in line with the strong earnings progression reported in 2009.

Income from Operations before Financial Items: Ultrapar's income from operations before financial items amounted to R\$ 261 million in 1Q10, up 47% from 1Q09 as a consequence of the increase in the income from operations before financial items of Ipiranga, Ultragaz and Ultracargo. Compared with 4Q09, Ultrapar's income from operations before financial items decreased by 3%, as a consequence of seasonality in its businesses.

Financial result: Ultrapar reported net financial expense of R\$ 75 million in 1Q10, R\$ 16 million higher than that of 1Q09, mainly as a result of the higher average net debt resulting from the disbursement related to the acquisition of Texaco on March 31st, 2009. Compared with 4Q09, net financial expense increased by R\$ 3 million.

Depreciation and Amortization: Total depreciation and amortization costs and expenses in 1Q10 amounted to R\$ 101 million, up R\$ 5 million from 1Q09 and down R\$ 18 million from 4Q09. The reduction compared with 4Q09 is a result of the revision in the economic useful life of assets in accordance with Technical Standard ICPC (Brazilian Accounting Pronouncements Committee) 10 and in effect from January 1st, 2010 onwards.

Income and Social Contribution / Benefit of Tax Holidays: Ultrapar reported income tax and social contribution expenses, net of benefit of tax holidays of R\$ 49 million in 1Q10, compared with an expense R\$ 29 million in 1Q09, basically as a result of a higher pre-tax profit in 1Q10. Compared with 4Q09, income tax and social contribution expenses, net of benefit of tax holidays decreased by 5%.

Net Earnings: Ultrapar's consolidated net earnings in 1Q10 amounted to R\$ 141 million, a growth of 54% over 1Q09 and 6% lower than that of 4Q09, especially due to variations in EBITDA in relation to the compared periods.

EBITDA: Ultrapar's EBITDA amounted to R\$ 362 million in 1Q10, 32% growth over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards and EBITDA growth in Ipiranga, Ultragaz and Ultracargo. Compared with 4Q09, Ultrapar's EBITDA declined by 7%, especially due to the seasonal volume reduction between periods.

Ultragaz: Ultragaz's EBITDA amounted to R\$ 71 million in 1Q10, up 35% over 1Q09, especially due to a recovery in margins, to which the operational efficiency programs implemented contributed, and an improvement in the bulk segment performance, partially offset by an increase in expenses related to promotional and sales campaigns and higher variable compensation. Compared with 4Q09, Ultragaz's EBITDA grew by 16%, despite the seasonally lower volume, especially due to a R\$ 7 million extraordinary item related to tax contingencies in 4Q09.

Ipiranga: Ipiranga's EBITDA amounted to R\$ 243 million in 1Q10, up 69% over 1Q09, mainly as a consequence of the consolidation of Texaco from 2Q09 onwards, the implementation of the operational and administrative synergy plan and the improved product mix. Compared with 4Q09, Ipiranga's EBITDA decreased by 13%, especially due to the seasonally lower volume. In 1Q10, Ipiranga's unit EBITDA margin was R\$ 53/m³, above the unit EBITDA margin of R\$ 52/m³ (pre-acquisition of Texaco) reported in 1Q09, but lower than the margin of R\$ 55/m³ in 4Q09, due to the seasonality between quarters and consequently lower operational leverage.

In 1Q10, Ipiranga's reported EBITDA, considering non-recurring items, amounted to R\$ 210 million, up 46% over 1Q09 and 20% lower than that of 4Q09.

Oxiteno: Oxiteno's EBITDA amounted to R\$ 40 million in 1Q10, down 14% over 1Q09, especially due to the 22% stronger Real. Compared with 4Q09, Oxiteno's EBITDA grew by 29%, despite the seasonally lower volume, especially as a result of the gradual recovery in margins, the expense reduction initiatives and the 4% weaker Real. Oxiteno's unit EBITDA reached US\$ 134/ton in 1Q10, up 38% over 4Q09.

Ultracargo: Ultracargo's EBITDA amounted to R\$ 30 million, up 27% and 38% over 1Q09 and 4Q09, especially due to the higher volume of operations in its terminals and operational synergies resulting from União Terminais' integration during 2009.
