Notes

- (1) For the purposes of these ratios, earnings consist of profit before tax, less the unremitted income of joint ventures and associates (i.e. the share of profits / losses from joint ventures and associates less dividends received), plus fixed charges.
- (2) The profit before tax for 2008 and preceding years has been restated to show the impact of the amendment to IFRS 2 Share-based Payment, which was adopted in the Group's 2009 consolidated financial statements, as disclosed on pages 3 and F-9 of the Group's 2009 Annual Report on Form 20-F.
- (3) Interest expensed and capitalised includes the amortisation of debt issuance costs, discounts and premiums.
- (4) Fixed charges consist of total interest expensed and capitalised plus an estimate for the proportion of rental expenses deemed to represent interest cost. This has been estimated at 30% of rental expenses, as a reasonable approximation of the interest factor.

- (5) There are no preference shares accounted for as equity; all preference shares being accounted for as debt and therefore preference share dividends are already included within interest costs. As a result, the ratios calculated using fixed charges and combined fixed charges plus preference dividends are the same.
- (6) The amortisation of debt issuance costs/discount/premium is included in the 'Interest expense and capitalised', without quantification of any amounts.
