Morgan Stanley Finance LLC

Structured Investments

Opportunities in U.S. Equities

PLUS Based on the Value of the S&P 500<sup>®</sup> Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Fully and Unconditionally Guaranteed by Morgan Stanley

Principal at Risk Securities

The PLUS are unsecured obligations of Morgan Stanley Finance LLC (“MSFL”) and are fully and unconditionally guaranteed by Morgan Stanley. The PLUS will pay no interest, do not guarantee any return of principal at maturity and have the terms described in the accompanying product supplement for PLUS, index supplement and prospectus, as supplemented or modified by this document. At maturity, if the underlying index has **appreciated** in value, investors will receive the stated principal amount of their investment plus leveraged upside performance of the underlying index, subject to the maximum payment at maturity. However, if the underlying index has **depreciated** in value, investors will lose 1% for every 1% decline in the index value over the term of the securities. Under these circumstances, the payment at maturity will be less than the stated principal amount and could be zero. **Accordingly, you may lose your entire investment.** The PLUS are for investors who seek an equity index-based return and who are willing to risk their principal and forgo current income and upside above the maximum payment at maturity in exchange for the leverage feature, which applies for a limited range of upside performance of the underlying index. **Investors may lose their entire initial investment in the PLUS.** The PLUS are notes issued as part of MSFL’s Series

A Global Medium-Term Notes program.

**All payments are subject to our credit risk. If we default on our obligations, you could lose some or all of your investment. These PLUS are not secured obligations and you will not have any security interest in, or otherwise have any access to, any underlying reference asset or assets.**

**Final Terms**

**Issuer:** Morgan Stanley Finance LLC  
**Guarantor:** Morgan Stanley  
**Maturity date:** April 3, 2020  
**Underlying index:** S&P 500<sup>®</sup> Index  
**Aggregate principal amount:** \$9,253,970  
 If the final index value is greater than the initial index value:  
 \$10 + leveraged upside payment

*In no event will the payment at maturity exceed the maximum payment at maturity*

**Payment at maturity per PLUS:** If the final index value is less than or equal to the initial index value:  
 \$10 × index performance factor

*Under these circumstances, the payment at maturity will be less than or equal to the stated principal amount of \$10.*

**Leveraged upside payment:** \$10 × leverage factor × index percent increase  
**Index percent increase:** (final index value – initial index value) / initial index value  
**Initial index value:** 2,485.74, which is the index closing value on the pricing date  
**Final index value:** The index closing value on the valuation date  
**Valuation date:** March 31, 2020, subject to postponement for non-index business days and certain market disruption events  
**Leverage factor:** 300%  
**Index performance factor:** Final index value *divided* by the initial index value  
**Maximum payment at maturity:** \$11.80 per PLUS (118.00% of the stated principal amount)  
**Stated principal amount:** \$10 per PLUS  
**Issue price:** \$10 per PLUS (see “Commissions and issue price” below)  
**Pricing date:** December 28, 2018  
**Original issue date:** January 4, 2019 (4 business days after the pricing date)  
**CUSIP:** 61768W335  
**ISIN:** US61768W3354  
**Listing:** The PLUS will not be listed on any securities exchange. Morgan Stanley & Co. LLC (“MS & Co.”), an affiliate of MSFL and a wholly owned subsidiary of Morgan Stanley. See “Supplemental information regarding plan of distribution; conflicts of interest.”  
**Agent:**

**Estimated value on the pricing date:** \$9.666 per PLUS. See “Investment Summary” beginning on page 2.

Morgan Stanley Finance LLC

PLUS Based on the Value of the S&P 500® Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

Investment Summary

Performance Leveraged Upside Securities

Principal at Risk Securities

The PLUS Based on the Value of the S&P 500® Index due April 3, 2020 (the “PLUS”) can be used:

§ As an alternative to direct exposure to the underlying index that enhances returns for a certain range of positive performance of the underlying index, subject to the maximum payment at maturity

§ To enhance returns and potentially outperform the underlying index in a moderately bullish scenario

§ To achieve similar levels of upside exposure to the underlying index as a direct investment, subject to the maximum payment at maturity, while using fewer dollars by taking advantage of the leverage factor.

§ The PLUS are exposed on a 1:1 basis to the negative performance of the underlying index.

<b>Maturity:</b>	Approximately 1 year and 3 months
<b>Leverage factor:</b>	300% (applicable only if the final index value is greater than the initial index value)
<b>Maximum payment at maturity:</b>	\$11.80 per PLUS (118.00% of the stated principal amount)
<b>Minimum payment at maturity:</b>	None. You could lose your entire initial investment in the PLUS.
<b>Coupon:</b>	None

The original issue price of each PLUS is \$10. This price includes costs associated with issuing, selling, structuring and hedging the PLUS, which are borne by you, and, consequently, the estimated value of the PLUS on the pricing date is

less than \$10. We estimate that the value of each PLUS on the pricing date is \$9.666.

*What goes into the estimated value on the pricing date?*

In valuing the PLUS on the pricing date, we take into account that the PLUS comprise both a debt component and a performance-based component linked to the underlying index. The estimated value of the PLUS is determined using our own pricing and valuation models, market inputs and assumptions relating to the underlying index, instruments based on the underlying index, volatility and other factors including current and expected interest rates, as well as an interest rate related to our secondary market credit spread, which is the implied interest rate at which our conventional fixed rate debt trades in the secondary market.

*What determines the economic terms of the PLUS?*

In determining the economic terms of the PLUS, including the leverage factor and the maximum payment at maturity, we use an internal funding rate, which is likely to be lower than our secondary market credit spreads and therefore advantageous to us. If the issuing, selling, structuring and hedging costs borne by you were lower or if the internal funding rate were higher, one or more of the economic terms of the PLUS would be more favorable to you.

*What is the relationship between the estimated value on the pricing date and the secondary market price of the PLUS?*

The price at which MS & Co. purchases the PLUS in the secondary market, absent changes in market conditions, including those related to the underlying index, may vary from, and be lower than, the estimated value on the pricing date, because the secondary market price takes into account our secondary market credit spread as well as the bid-offer spread that MS & Co. would charge in a secondary market transaction of this type and other factors. However, because the costs associated with issuing, selling, structuring and hedging the PLUS are not fully deducted upon issuance, for a period of up to 6 months following the issue date, to the extent that MS & Co. may buy or sell the PLUS in the secondary market, absent changes in market conditions, including those related to the underlying index, and to our secondary market credit spreads, it would do so based on values higher than the estimated value. We expect that those higher values will also be reflected in your brokerage account statements.

MS & Co. may, but is not obligated to, make a market in the PLUS, and, if it once chooses to make a market, may cease doing so at any time.

Morgan Stanley Finance LLC

PLUS Based on the Value of the S&P 500® Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

### Key Investment Rationale

The PLUS offer leveraged exposure to a certain range of positive performance of the S&P 500® Index. In exchange for enhanced performance of 300% of the appreciation of the underlying index, investors forgo performance above the maximum payment at maturity of \$11.80 per PLUS. At maturity, if the underlying index has appreciated in value, investors will receive the stated principal amount of their investment plus leveraged upside performance of the underlying index, subject to the maximum payment at maturity. However, if the underlying index has depreciated in value, investors will lose 1% for every 1% decline in the index value over the term of the securities. Under these circumstances, the payment at maturity will be less than the stated principal amount and could be zero. Investors may lose their entire initial investment in the PLUS. All payments on the PLUS are subject to our credit risk.

<b>Leveraged Performance</b>	The PLUS offer investors an opportunity to capture enhanced returns for a certain range of positive performance relative to a direct investment in the underlying index.
<b>Upside Scenario</b>	The underlying index increases in value, and, at maturity, the PLUS redeem for the stated principal amount of \$10 plus 300% of the index percent increase, subject to the maximum payment at maturity of \$11.80 per PLUS (118.00% of the stated principal amount).
<b>Par Scenario</b>	The final index value is equal to the initial index value. In this case, you receive the stated principal amount of \$10 at maturity.
<b>Downside Scenario</b>	The underlying index declines in value, and, at maturity, the PLUS redeem for less than the stated principal amount by an amount proportionate to the decline in the value of the underlying index over the term of the PLUS. For example, if the final index value is 30% less than the initial index value, the PLUS will redeem at maturity for a loss of 30% of principal at \$7.00, or 70% of the stated principal amount. There is no minimum payment at maturity on the PLUS, and you could lose your entire investment.

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

How the PLUS Work

Payoff Diagram

The payoff diagram below illustrates the payment at maturity on the PLUS based on the following terms:

**Stated principal amount:** \$10 per PLUS  
**Leverage factor:** 300%  
**Maximum payment at maturity:** \$11.80 per PLUS (118.00% of the stated principal amount)  
**Minimum payment at maturity:** None

**PLUS Payoff Diagram**

**How it works**

**Upside Scenario.** If the final index value is greater than the initial index value, investors will receive the \$10 stated principal amount *plus* 300% of the appreciation of the underlying index over the term of the PLUS, subject to the § maximum payment at maturity. Under the terms of the PLUS, an investor will realize the maximum payment at maturity of \$11.80 per PLUS (118.00% of the stated principal amount) at a final index value of 106.00% of the initial index value.

§ If the underlying index appreciates 2%, the investor would receive a 6% return, or \$10.60 per PLUS.

§ If the underlying index appreciates 30%, the investor would receive only the maximum payment at maturity of § \$11.80 per PLUS, or 118.00% of the stated principal amount.

§

**Par Scenario.** If the final index value is equal to the initial index value, the investor would receive the \$10 stated principal amount.

§ **Downside Scenario.** If the final index value is less than the initial index value, the investor would receive an amount that is less than the \$10 stated principal amount, based on a 1% loss of principal for each 1% decline in the underlying index. Under these

December 2018 Page 4

PLUS Based on the Value of the S&P 500® Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

circumstances, the payment at maturity will be less than the stated principal amount per PLUS. There is no minimum payment at maturity on the PLUS.

If the underlying index depreciates 30%, the investor would lose 30% of the investor's principal and receive only \$7.00 per PLUS at maturity, or 70% of the stated principal amount.

Principal at Risk Securities

Risk Factors

*The following is a non-exhaustive list of certain key risk factors for investors in the PLUS. For further discussion of these and other risks, you should read the section entitled “Risk Factors” in the accompanying product supplement for PLUS, index supplement and prospectus. We also urge you to consult your investment, legal, tax, accounting and other advisers in connection with your investment in the PLUS.*

**The PLUS do not pay interest or guarantee return of any principal.** The terms of the PLUS differ from those of ordinary debt securities in that the PLUS do not pay interest or guarantee the payment of any principal amount at maturity. If the final index value is less than the initial index value, the payout at maturity will be an amount in cash § that is less than the \$10 stated principal amount of each PLUS by an amount proportionate to the full decline in the value of the underlying index over the term of the PLUS. There is no minimum payment at maturity on the PLUS, and, accordingly, you could lose your entire initial investment in the PLUS.

**The appreciation potential of the PLUS is limited by the maximum payment at maturity.** The appreciation potential of the PLUS is limited by the maximum payment at maturity of \$11.80 per PLUS, or 118.00% of the stated principal amount. Although the leverage factor provides 300% exposure to any increase in the final index value over § the initial index value, because the payment at maturity will be limited to 118.00% of the stated principal amount for the PLUS, any increase in the final index value over the initial index value by more than 6.00% of the initial index value will not further increase the return on the PLUS.

**The market price of the PLUS will be influenced by many unpredictable factors.** Several factors, many of which are beyond our control, will influence the value of the PLUS in the secondary market and the price at which MS & Co. may be willing to purchase or sell the PLUS in the secondary market, including the value, volatility (frequency and magnitude of changes in value) and dividend yield of the underlying index, interest and yield rates in the market, time remaining until the PLUS mature, geopolitical conditions and economic, financial, political, § regulatory or judicial events that affect the underlying index or equities markets generally and which may affect the final index value of the underlying index and any actual or anticipated changes in our credit ratings or credit spreads. The value of the underlying index may be, and has recently been, volatile, and we can give you no assurance that the volatility will lessen. See “S&P 500® Index Overview” below. You may receive less, and possibly significantly less, than the stated principal amount per PLUS if you try to sell your PLUS prior to maturity.

§

**The PLUS are subject to our credit risk, and any actual or anticipated changes to our credit ratings or credit spreads may adversely affect the market value of the PLUS.** You are dependent on our ability to pay all amounts due on the PLUS at maturity and therefore you are subject to our credit risk. If we default on our obligations under the PLUS, your investment would be at risk and you could lose some or all of your investment. As a result, the market value of the PLUS prior to maturity will be affected by changes in the market's view of our creditworthiness. Any actual or anticipated decline in our credit ratings or increase in the credit spreads charged by the market for taking our credit risk is likely to adversely affect the market value of the PLUS.

**As a finance subsidiary, MSFL has no independent operations and will have no independent assets.** As a finance subsidiary, MSFL has no independent operations beyond the issuance and administration of its securities and will have no independent assets available for distributions to holders of MSFL securities if they make claims in respect of such securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other unsecured, unsubordinated obligations of Morgan Stanley. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the guarantee. Holders of securities issued by MSFL should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

**The amount payable on the PLUS is not linked to the value of the underlying index at any time other than the valuation date.** The final index value will be based on the index closing value on the valuation date, subject to postponement for non-index business days and certain market disruption events. Even if the value of the underlying index appreciates prior to the valuation date but then drops by the valuation date, the payment at maturity may be less, and may be significantly less, than it would have been had the payment at maturity been linked to the value of the underlying index prior to such drop. Although the actual value of the underlying index on the stated maturity date or at other times during the term of the PLUS may be higher than the index closing value on the valuation date, the payment at maturity will be based solely on the index closing value on the valuation date.

**Investing in the PLUS is not equivalent to investing in the underlying index.** Investing in the PLUS is not equivalent to investing in the underlying index or its component stocks. As an investor in the PLUS, you will not have voting rights or rights to receive dividends or other distributions or any other rights with respect to stocks that constitute the underlying index.

Morgan Stanley Finance LLC

PLUS Based on the Value of the S&P 500® Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

**The rate we are willing to pay for securities of this type, maturity and issuance size is likely to be lower than the rate implied by our secondary market credit spreads and advantageous to us. Both the lower rate and the inclusion of costs associated with issuing, selling, structuring and hedging the PLUS in the original issue price reduce the economic terms of the PLUS, cause the estimated value of the PLUS to be less than the original issue price and will adversely affect secondary market prices.** Assuming no change in market conditions or any § other relevant factors, the prices, if any, at which dealers, including MS & Co., may be willing to purchase the PLUS in secondary market transactions will likely be significantly lower than the original issue price, because secondary market prices will exclude the issuing, selling, structuring and hedging-related costs that are included in the original issue price and borne by you and because the secondary market prices will reflect our secondary market credit spreads and the bid-offer spread that any dealer would charge in a secondary market transaction of this type as well as other factors.

The inclusion of the costs of issuing, selling, structuring and hedging the PLUS in the original issue price and the lower rate we are willing to pay as issuer make the economic terms of the PLUS less favorable to you than they otherwise would be.

However, because the costs associated with issuing, selling, structuring and hedging the PLUS are not fully deducted upon issuance, for a period of up to 6 months following the issue date, to the extent that MS & Co. may buy or sell the PLUS in the secondary market, absent changes in market conditions, including those related to the underlying index, and to our secondary market credit spreads, it would do so based on values higher than the estimated value, and we expect that those higher values will also be reflected in your brokerage account statements.

**Adjustments to the underlying index could adversely affect the value of the PLUS.** The underlying index publisher may add, delete or substitute the stocks constituting the underlying index or make other methodological changes that could change the value of the underlying index. The underlying index publisher may discontinue or suspend calculation or publication of the underlying index at any time. In these circumstances, the calculation agent will have the sole discretion to substitute a successor index that is comparable to the discontinued underlying index § and is not precluded from considering indices that are calculated and published by the calculation agent or any of its affiliates. If the calculation agent determines that there is no appropriate successor index, the payment at maturity on the PLUS will be an amount based on the closing prices at maturity of the securities composing the underlying index at the time of such discontinuance, without rebalancing or substitution, computed by the calculation agent in accordance with the formula for calculating the underlying index last in effect prior to discontinuance of the underlying index.

**The estimated value of the PLUS is determined by reference to our pricing and valuation models, which may differ from those of other dealers and is not a maximum or minimum secondary market price.** These pricing and valuation models are proprietary and rely in part on subjective views of certain market inputs and certain assumptions about future events, which may prove to be incorrect. As a result, because there is no market-standard way to value these types of securities, our models may yield a higher estimated value of the PLUS than those § generated by others, including other dealers in the market, if they attempted to value the PLUS. In addition, the estimated value on the pricing date does not represent a minimum or maximum price at which dealers, including MS & Co., would be willing to purchase your PLUS in the secondary market (if any exists) at any time. The value of your PLUS at any time after the date of this document will vary based on many factors that cannot be predicted with accuracy, including our creditworthiness and changes in market conditions. See also “The market price of the PLUS will be influenced by many unpredictable factors” above.

**The PLUS will not be listed on any securities exchange and secondary trading may be limited.** The PLUS will not be listed on any securities exchange. Therefore, there may be little or no secondary market for the PLUS. MS & Co. may, but is not obligated to, make a market in the PLUS and, if it once chooses to make a market, may cease doing so at any time. When it does make a market, it will generally do so for transactions of routine secondary market size at prices based on its estimate of the current value of the PLUS, taking into account its bid/offer spread, § our credit spreads, market volatility, the notional size of the proposed sale, the cost of unwinding any related hedging positions, the time remaining to maturity and the likelihood that it will be able to resell the PLUS. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the PLUS easily. Since other broker-dealers may not participate significantly in the secondary market for the PLUS, the price at which you may be able to trade your PLUS is likely to depend on the price, if any, at which MS & Co. is willing to transact. If, at any time, MS & Co. were to cease making a market in the PLUS, it is likely that there would be no secondary market for the PLUS. Accordingly, you should be willing to hold your PLUS to maturity.

**The calculation agent, which is a subsidiary of Morgan Stanley and an affiliate of MSFL, will make determinations with respect to the PLUS.** As calculation agent, MS & Co. has determined the initial index value, will determine the final index value and will calculate the amount of cash you receive at maturity, if any. Moreover, § certain determinations made by MS & Co., in its capacity as calculation agent, may require it to exercise discretion and make subjective judgments, such as with respect to the occurrence or non-occurrence of market disruption events and the selection of a successor index or calculation of the final index value in the event of a market disruption event or discontinuance of the underlying index. These potentially subjective determinations may adversely affect the payout to you at maturity, if any. For further information regarding these types of

Morgan Stanley Finance LLC

PLUS Based on the Value of the S&P 500® Index due April 3, 2020

Performance Leveraged Upside Securities<sup>SM</sup>

Principal at Risk Securities

determinations, see “Description of PLUS—Postponement of Valuation Date(s)” and “—Calculation Agent and Calculations” and related definitions in the accompanying product supplement. In addition, MS & Co. has determined the estimated value of the PLUS on the pricing date.

**Hedging and trading activity by our affiliates could potentially adversely affect the value of the PLUS.** One or more of our affiliates and/or third-party dealers have carried out, and will continue to carry out, hedging activities related to the PLUS (and to other instruments linked to the underlying index or its component stocks), including trading in the stocks that constitute the underlying index as well as in other instruments related to the underlying index. As a result, these entities may be unwinding or adjusting hedge positions during the term of the PLUS, and the hedging strategy may involve greater and more frequent dynamic adjustments to the hedge as the valuation date approaches. Some of our affiliates also trade the stocks that constitute the underlying index and other financial § instruments related to the underlying index on a regular basis as part of their general broker-dealer and other businesses. Any of these hedging or trading activities on or prior to the pricing date could have increased the initial index value, and, therefore, could have increased the value at or above which the underlying index must close on the valuation date so that investors do not suffer a loss on their initial investment in the PLUS. Additionally, such hedging or trading activities during the term of the PLUS, including on the valuation date, could adversely affect the value of the underlying index on the valuation date, and, accordingly, the amount of cash an investor will receive at maturity, if any.

**The U.S. federal income tax consequences of an investment in the PLUS are uncertain.** Please read the discussion under “Additional Information—Tax considerations” in this document and the discussion under “United States Federal Taxation” in the accompanying product supplement for PLUS (together, the “Tax Disclosure Sections”) concerning the U.S. federal income tax consequences of an investment in the PLUS. If the Internal Revenue Service (the “IRS”) were successful in asserting an alternative treatment, the timing and character of income on the PLUS might differ significantly from the tax treatment described in the Tax Disclosure Sections. For example, under one § possible treatment, the IRS could seek to recharacterize the PLUS as debt instruments. In that event, U.S. Holders would be required to accrue into income original issue discount on the PLUS every year at a “comparable yield” determined at the time of issuance and recognize all income and gain in respect of the PLUS as ordinary income. Additionally, as discussed under “United States Federal Taxation—FATCA” in the accompanying product supplement for PLUS, the withholding rules commonly referred to as “FATCA” would apply to the PLUS if they were recharacterized as debt instruments. We do not plan to request a ruling from the IRS regarding the tax treatment of the PLUS, and the IRS or a court may not agree with the tax treatment described in the Tax Disclosure Sections.

In 2007, the U.S. Treasury Department and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a

number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by non-U.S. investors should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” rule, which very generally can operate to recharacterize certain long-term capital gain as ordinary income and impose an interest charge. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the PLUS, possibly with retroactive effect. Both U.S. and Non-U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the PLUS, including possible alternative treatments, the issues presented by this notice and any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

### S&P 500<sup>®</sup> Index Overview

The S&P 500<sup>®</sup> Index, which is calculated, maintained and published by S&P Dow Jones Indices LLC (“S&P”), consists of stocks of 500 component companies selected to provide a performance benchmark for the U.S. equity markets. The calculation of the S&P 500<sup>®</sup> Index is based on the relative value of the float adjusted aggregate market capitalization of the 500 component companies as of a particular time as compared to the aggregate average market capitalization of 500 similar companies during the base period of the years 1941 through 1943. For additional information about the S&P 500<sup>®</sup> Index, see the information set forth under “S&P 500<sup>®</sup> Index” in the accompanying index supplement.

Information as of market close on December 28, 2018:

<b>Bloomberg Ticker Symbol:</b>	SPX
<b>Current Index Value:</b>	2,485.74
<b>52 Weeks Ago:</b>	2,687.54
<b>52 Week High (on 9/20/2018):</b>	2,930.75
<b>52 Week Low (on 12/24/2018):</b>	2,351.10

The following graph sets forth the daily index closing values of the underlying index for each quarter in the period from January 1, 2013 through December 28, 2018. The related table sets forth the published high and low closing values, as well as end-of-quarter closing values, of the underlying index for each quarter in the same period. The index closing value of the underlying index on December 28, 2018 was 2,485.74. We obtained the information in the table and graph below from Bloomberg Financial Markets, without independent verification. The underlying index has at times experienced periods of high volatility. You should not take the historical values of the underlying index as an indication of its future performance, and no assurance can be given as to the index closing value of the underlying index on the valuation date.

Additional Terms of the PLUS

Please read this information in conjunction with the summary terms on the front cover of this document.

**Additional  
Terms:**

If the terms described herein are inconsistent with those described in the accompanying product supplement, index supplement or prospectus, the terms described herein shall control.

**Underlying index  
publisher:** S&P Dow Jones Indices LLC, or any successor thereof

**Interest:** None

**Bull market or  
bear market** Bull market PLUS

**PLUS:** If the scheduled valuation date is not an index business day or if a market disruption event occurs on that day so that the valuation date as postponed falls less than two business days prior to the scheduled maturity date, the maturity date of the PLUS will be postponed to the second business day following that valuation date as postponed.

**Postponement of  
maturity date:** \$10 per PLUS and integral multiples thereof

**Trustee:** The Bank of New York Mellon

**Calculation agent:** MS & Co.

**Issuer notice to  
registered security  
holders, the trustee  
and the depository:** In the event that the maturity date is postponed due to postponement of the valuation date, the issuer shall give notice of such postponement and, once it has been determined, of the date to which the maturity date has been rescheduled (i) to each registered holder of the PLUS by mailing notice of such postponement by first class mail, postage prepaid, to such registered holder's last address as it shall appear upon the registry books, (ii) to the trustee by facsimile confirmed by mailing such notice to the trustee by first class mail, postage prepaid, at its New York office and (iii) to The Depository Trust Company (the "depository") by telephone or facsimile confirmed by mailing such notice to the depository by first class mail, postage prepaid. Any notice that is mailed to a registered holder of the PLUS in the manner herein provided shall be conclusively presumed to have been duly given to such registered holder, whether or not such registered holder receives the notice. The issuer shall give such notice as promptly as possible, and in no case later than (i) with respect to notice of postponement of the maturity date, the business day immediately preceding the scheduled maturity date and (ii) with respect to notice of the date to which the maturity date has been rescheduled, the business day immediately following the actual valuation date for determining the final index value.

The issuer shall, or shall cause the calculation agent to, (i) provide written notice to the trustee and to the depositary of the amount of cash to be delivered with respect to each stated principal amount of the PLUS, on or prior to 10:30 a.m. (New York City time) on the business day preceding the maturity date, and (ii) deliver the aggregate cash amount due with respect to the PLUS to the trustee for delivery to the depositary, as holder of the PLUS, on the maturity date.

Additional Information About the PLUS

**Additional  
Information:**

**Minimum  
ticketing size:** \$1,000 / 100 PLUS

**Tax  
considerations:** Although there is uncertainty regarding the U.S. federal income tax consequences of an investment in the PLUS due to the lack of governing authority, in the opinion of our counsel, Davis Polk & Wardwell LLP, under current law, and based on current market conditions, a PLUS should be treated as a single financial contract that is an “open transaction” for U.S. federal income tax purposes. Assuming this treatment of the PLUS is respected and subject to the discussion in “United States Federal Taxation” in the accompanying product supplement for PLUS, the following U.S. federal income tax consequences should result based on current law:

§ A U.S. Holder should not be required to recognize taxable income over the term of the PLUS prior to settlement, other than pursuant to a sale or exchange.

§ Upon sale, exchange or settlement of the PLUS, a U.S. Holder should recognize gain or loss equal to the difference between the amount realized and the U.S. Holder’s tax basis in the PLUS. Such gain or loss should be long-term capital gain or loss if the investor has held the PLUS for more than one year, and short-term capital gain or loss otherwise.

In 2007, the U.S. Treasury Department and the Internal Revenue Service (the “IRS”) released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by non-U.S. investors should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” rule, which very generally can operate to recharacterize certain long-term capital gain as ordinary income and impose an interest charge. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the PLUS, possibly with retroactive effect.

As discussed in the accompanying product supplement for PLUS, Section 871(m) of the Internal Revenue Code of 1986, as amended, and Treasury regulations promulgated thereunder (“Section 871(m)”) generally impose a 30% (or a lower applicable treaty rate) withholding tax on dividend equivalents paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments

linked to U.S. equities or indices that include U.S. equities (each, an “Underlying Security”). Subject to certain exceptions, Section 871(m) generally applies to securities that substantially replicate the economic performance of one or more Underlying Securities, as determined based on tests set forth in the applicable Treasury regulations (a “Specified Security”). However, pursuant to an IRS notice, Section 871(m) will not apply to securities issued before January 1, 2021 that do not have a delta of one with respect to any Underlying Security. Based on our determination that the PLUS do not have a delta of one with respect to any Underlying Security, our counsel is of the opinion that the PLUS should not be Specified Securities and, therefore, should not be subject to Section 871(m).

Our determination is not binding on the IRS, and the IRS may disagree with this determination. Section 871(m) is complex and its application may depend on your particular circumstances, including whether you enter into other transactions with respect to an Underlying Security. If withholding is required, we will not be required to pay any additional amounts with respect to the amounts so withheld. You should consult your tax adviser regarding the potential application of Section 871(m) to the PLUS.

**Both U.S. and non-U.S. investors considering an investment in the PLUS should read the discussion under “Risk Factors” in this document and the discussion under “United States Federal Taxation” in the accompanying product supplement for PLUS and consult their tax advisers regarding all aspects of the U.S. federal income tax consequences of an investment in the PLUS, including possible alternative treatments, the issues presented by the aforementioned notice and any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.**

**The discussion in the preceding paragraphs under “Tax considerations” and the discussion contained in the section entitled “United States Federal Taxation” in the accompanying product supplement for PLUS, insofar as they purport to describe provisions of U.S. federal income tax laws or legal conclusions with respect thereto, constitute the full opinion of Davis Polk & Wardwell LLP regarding the material U.S. federal tax consequences of an investment in the PLUS.**

**Use of proceeds  
and hedging:**

The proceeds from the sale of the PLUS will be used by us for general corporate purposes. We will receive, in aggregate, \$10 per PLUS issued, because, when we enter into hedging transactions in order to meet our obligations under the PLUS, our hedging counterparty will reimburse the cost of the agent’s commissions. The costs of the PLUS borne by you and described beginning on page 2 above comprise the agent’s commissions and the cost of issuing, structuring and hedging the PLUS.
