EXPLANATORY NOTE:

This Amendment on Form 10-K/A (this Amendment) amends the Annual Report on Form 10-K of Sturm, Ruger & Company, Inc. (the Company) for the year ended December 31, 2005, as filed with the Securities and Exchange Commission on May 1, 2006 (the Original Filing). It is being filed to amend and restate Item 9A, Controls and Procedures to delete the first sentence of the second paragraph of Item 9A which read,

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2005, our controls and procedures over financial reporting were effective except for controls and procedures over the calculation of the LIFO index, which were not effective because of the material weaknesses discussed below under Management's Report on Internal Control over Financial Reporting.

and replace it with the following sentence:

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2005, our controls and procedures over financial reporting were not effective because of the material weaknesses discussed below under Management's Report on Internal Control over Financial Reporting.

Other information contained in the Original Filing has not been updated and we have not taken into account any other events occurring after the Original Filing that might have affected those disclosures. Therefore, you should read this Amendment together with other documents and reports that the Company has filed with the Securities and Exchange Commission subsequent to the filing of the Original filing.

ITEM 9A CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company conducted an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of December 31, 2005.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that as of December 31, 2005, our controls and procedures over financial reporting were not effective because of the material weaknesses discussed below under Management's Report on Internal Control over Financial Reporting.

In light of the material weaknesses described below, the Company performed a detailed review of the LIFO reserve calculation as of December 31, 2005 to ensure that inventories and cost of sales in the financial statements were properly stated. Accordingly, management believes the financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control over the calculation of the LIFO index is a process designed to provide reasonable assurance regarding the propriety of the LIFO inventory reserve in accordance with U.S. generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company conducted an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its internal control over financial reporting as of December 31, 2005. This evaluation was performed based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. As of December 31, 2005, the Company did not maintain sufficient controls over the calculation of the LIFO index. This control deficiency resulted in an audit adjustment to the LIFO reserve and cost of sales, which is reflected in the financial statements for the year ended December 31, 2005. Additionally, this control deficiency resulted in the restatement of the financial statements as of and for the year ended December 31, 2004. Also, this control deficiency could result in a misstatement of the aforementioned account balances or disclosures which could cause a material misstatement of annual or interim financial statements that would not be prevented or detected. Accordingly, management has determined that this control deficiency constitutes a material weakness.

Table of Contents

ITEM 9A CONTROLS AND PROCEDURES (continued)

Because of this material weakness, management has concluded that the Company did not maintain effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control Integrated Framework issued by the COSO.

Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2005 has been audited by McGladrey & Pullen, LLP, an independent registered public accounting firm, as stated in their report which appears immediately following the Financial Statements in this Annual Report on Form 10-K.

Plan for Remediation of Material Weaknesses

The Company has taken steps towards remediation of the material weakness described above. Specifically, the Company has implemented additional procedures related to the review of data used in the LIFO index calculation.

Changes in Internal Control over Financial Reporting

Except as noted above, there were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
