The exact stock prices and effective dates may not be set forth in the table above, in which case, if the stock price is:

between two stock price amounts on the table or the effective date is between two effective dates on the table, the number of additional shares will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock price amounts and the two effective dates, as applicable, based on a 360-day year

in excess of \$32.50 per share (subject to adjustment), no additional shares will be issued upon conversion

less than \$11.57 per share (subject to adjustment), no additional shares will be issued upon conversion

Notwithstanding the foregoing, in no event will the total number of shares of common stock issuable upon conversion exceed 86.4304 per \$1,000 principal amount of Notes, subject to adjustments in the same manner as the conversion rate

Use of Proceeds: It is expected that the net proceeds from the offering will be used for the retirement of existing indebtedness (including approximately \$115 million of the net proceeds from the offering to repurchase, at a discount, a substantial portion of the outstanding principal amount of the convertible subordinated debentures underlying the 7 3/4% Convertible Quarterly Income Preferred Securities of CMS Energy Trust I) through redemption, open market repurchases, tender offers or private agreements, and for general corporate purposes

Capitalization: The following table updates the capitalization table set forth on page S-18 of the preliminary prospectus supplement related to the Notes dated June 8, 2009 to reflect the use of \$115,000,000 of the proceeds from the offering of the Notes as described above:
