- (a) All or a portion of this security is designated in connection with unfunded loan commitments.
- (b) All or a portion of this security is payment-in-kind.

- (c) This borrower is currently in liquidation.
- (d) This Senior Loan interest is non-income producing.
- (e) This borrower has filed for protection in federal bankruptcy court.
- (f) Market value is determined in accordance with procedures established in good faith by the Board of Trustees.
- (g) Senior loan is past due.
- (h) Affiliated company.
- (i) Variable rate security. Interest rate shown is that in effect at October 31, 2009.

(j) 144A-Private

Placement

security which

is exempt from

registration

under

Rule 144A of

the Securities

Act of 1933, as

amended. This

security may

only be resold in

transactions

exempt from

registration

which are

normally those

transactions

with qualified

institutional

buyers.

(k) Non-income

producing

security.

(1) Restricted

security.

Securities were

acquired

through the

restructuring of

senior loans.

These securities

are restricted as

they are not

allowed to be

deposited via

the Depository

Trust Company.

If at a later point

in time, the

company wishes

to register, the

issuer will bear

the costs

associated with registration.

* Senior Loans in

the Trust s

portfolio

generally are

subject to

mandatory

and/or optional

prepayment.

Because of

these mandatory

prepayment

conditions and

because there

may be

significant

economic

incentives for a

Borrower to

prepay,

prepayments of

Senior Loans in

the Trust s

portfolio may

occur. As a

result, the actual

remaining

maturity of

Senior Loans

held in the

Trust s portfolio

may be

substantially

less than the

stated maturities

shown.

Although the

Trust is unable

to accurately

estimate the

actual remaining

maturity of

individual

Senior Loans,

the Trust

estimates that

the actual

average

maturity of the

Senior Loans held in its portfolio will be approximately 18-24 months.

Senior Loans in which the Trust invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate (LIBOR), (ii) the prime rate offered by one or more major United States banks or (iii) the certificate of deposit rate. Senior Loans are generally considered to be restricted in that the Trust ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior

to the

disposition of a Senior Loan.

Ratings Allocation as of 10/31/09 (Unaudited)

BBB/Baa	4.3%
BB/Ba	35.9%
B/B	31.4%
CCC/Caa	8.0%
CC/Ca	0.2%
C/C	0.8%
Non-Rated	19.4%

Ratings allocations are as a percentage of long-term debt obligations. Ratings allocations based upon ratings as issued by Standard and Poor s and Moody s, respectively. Bank Loans rated below BBB by Standard and Poor s or Baa by Moody s are considered to be below investment grade.

Van Kampen Senior Income Trust Portfolio of Investments § October 31, 2009 (Unaudited) continued Swap agreements outstanding as of October 31, 2009: Credit Default Swaps

Security Valuation The Trust s Senior Loans and notes are valued by the Trust following valuation guidelines established and periodically reviewed by the Trust s Board of Trustees. Under the valuation guidelines, Senior Loans and notes for which reliable market quotes are readily available are valued at the mean of such bid and ask quotes. Where reliable market quotes are not readily available, Senior Loans and notes are valued, where possible, using independent market indicators provided by independent pricing sources approved by the Board of Trustees. Other Senior Loans and notes are valued by independent pricing sources approved by the Board of Trustees based upon pricing models developed, maintained and operated by those pricing sources or valued by Van Kampen Asset Management (the Adviser) by considering a number of factors including consideration of market indicators, transactions in instruments which the Adviser believes may be comparable (including comparable credit quality, interest rate, interest rate redetermination period and maturity), the credit worthiness of the Borrower, the current

interest rate, the period until next interest rate redetermination and the maturity of such Senior Loan. Consideration of comparable instruments may include commercial paper, negotiable certificates of deposit and short-term variable rate securities which have adjustment periods comparable to the Senior Loans in the Trust s portfolio. The fair value of Senior Loans are reviewed and approved by the Trust s Valuation Committee and the Board of Trustees. Credit default swaps are valued using market quotations obtained from brokers. Equity securities are valued on the basis of prices furnished by pricing services or

Van Kampen Senior Income Trust

Portfolio of Investments § October 31, 2009 (Unaudited) continued

as determined in good faith by the Adviser under the direction of the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value. Short-term loan participations are valued at cost in the absence of any indication of impairment. The Trust adopted the provisions of the FASB Staff Position Paper No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45* (FSP FAS 133-1 and FIN 45-4), effective November 30, 2008. FSP FAS 133-1 and FIN 45-4 requires the seller of credit derivatives to provide additional disclosure about its credit derivatives.

The Trust may enter into credit default swap contracts, a type of credit derivative, for hedging purposes or to gain exposure to a credit or index of credits in which the Trust may otherwise invest. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer or index of issuers. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding. The seller in a credit default swap contract would be required to pay an agreed-upon amount to the buyer in the event of an adverse credit event of the issuer. This agreed-upon amount approximates the notional amount of the swap as disclosed in the table following the Portfolio of Investments and is estimated to be the maximum potential future payment that the seller could be required to make under the credit default swap contract. In the event of an adverse credit event, the seller generally does not have any contractual remedies against the issuer or any other third party. However, if a physical settlement is elected, the seller would receive the defaulted credit and, as a result, become a creditor of the issuer.

The current credit rating of each individual issuer is listed in the table following the Portfolio of Investments and serves as an indicator of the current status of the payment/performance risk of the credit derivative. Alternatively, for credit default swaps on an index of credits, the quoted market prices and current values serve as an indicator of the current status of the payment/performance risk of the credit derivative. Generally, lower credit ratings and increasing market values, in absolute terms, represent a deterioration of the credit and a greater likelihood of an adverse credit event of the issuer.

Credit default swaps may involve greater risks than if a Trust had invested in the issuer directly. Credit default swaps are subject to general market risk, counterparty risk and credit risk. Swap agreements are not entered into or traded on exchanges and there is no central clearing or guaranty function for swaps. Therefore, swaps are subject to the risk of default or non-performance by the counterparty. If there is a default by the counterparty to a swap agreement, the Trust will have contractual remedies pursuant to the agreements related to the transaction. Counterparties are required to pledge collateral daily (based on the valuation of each swap) on behalf of the Trust with a value approximately equal to the amount of any unrealized gain. Reciprocally, when the Trust has an unrealized loss on a swap contract, the Trust has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Cash collateral is disclosed in the table following the Portfolio of Investments. For cash collateral received, the Trust pays a monthly fee to the counterparty based on the effective rate for Federal Funds.

Fair Value Measurements Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures (ASC 820) (formerly known as FAS 157) defines fair value as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ACS 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust s

investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Trust s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Van Kampen Senior Income Trust

Portfolio of Investments § October 31, 2009 (Unaudited) continued

The following is a summary of the inputs used as of October 31, 2009 in valuing the Trust s investments carried at value.

	Level 1 Quoted	Level 2 Other Significant Observable	Level 3 Significant Unobservable	
Investment	Prices	Inputs	Inputs	Total

Item 2. Controls and Procedures.

- (a) The Trust s principal executive officer and principal financial officer have concluded that the Trust s disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Trust in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms, based upon such officers evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.
- (b) There were no changes in the Trust s internal control over financial reporting that occurred during the registrant s fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Trust s internal control over financial reporting.

Item 3. Exhibits.

- (a) A certification for the Principal Executive Officer of the registrant is attached hereto as part of EX-99.cert.
- (b) A certification for the Principal Financial Officer of the registrant is attached hereto as part of EX-99.cert.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized. (Registrant) Van Kampen Senior Income Trust
