IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer s account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Privacy Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy applies only to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer s account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser s privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance s Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio(s) (if applicable) will file a schedule of portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website at www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC s website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC s public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds and Portfolios Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC s website at www.sec.gov.

Eaton Vance Municipal Income Trusts as of November 30, 2009

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

Eaton Vance Municipal Income Trusts (the Trusts) are closed-end Trusts, traded on the NYSE Amex, which are designed to provide current income exempt from regular federal income tax and state personal income taxes. This income is earned by investing primarily in investment-grade municipal securities.

Economic and Market Conditions

For the year ending November 30, 2009, the U.S. economy and the capital markets continued to show improvement from the market upheaval that occurred in the fall of 2008 and continued through the first quarter of 2009. After contracting in the last calendar quarter of 2008 and the first two quarters of 2009 declining at annualized rates of 5.4%, 6.4% and 0.7%, respectively the U.S. economy grew at an annualized rate of 2.2% in the third quarter of 2009, according to the U.S. Department of Commerce.

During the Trusts fiscal year, the municipal bond market witnessed a significant rebound as demand returned from investors who had sought the relative safety of Treasury bonds in 2008, and cautious optimism spread on signs of a mildly improving economy. The renewed appetite for municipal bonds was buoyed by provisions in the American Recovery and Reinvestment Act of 2009 aimed at supporting the municipal market. The new Build America Bond program gave municipal issuers broader access to the taxable debt markets, providing the potential for lower net borrowing costs and reducing the supply of traditional tax-exempt bonds. The federal stimulus program also provided direct cash subsidies to municipalities that were facing record budget deficits. The result of these events was a dramatic rally for the sector as yields fell and prices rose across the yield curve.

During the year ending November 30, 2009, municipals continued the rally that had begun in mid-December 2008, posting strong returns for the period. The Trusts benchmark, the Barclays Capital Municipal Bond Index (the Index) a broad-based, unmanaged index of municipal bonds gained 14.17% for the period.

Management Discussion

During the year ending November 30, 2009, the Trusts outperformed the Index and their Lipper peer group averages by significant margins. Due to their objective of providing tax-exempt income and the historical upward slope of the municipal yield curve, the Trusts generally hold longer-maturity bonds relative to the broad market than many of our competitors do. Given the significant price movement at the longer end of the municipal yield curve, management s bias toward longer maturities was the basis for much of the Trusts outperformance during the period. Investing across the credit spectrum and making higher allocations to revenue bonds also contributed positively to relative performance.

The Trusts generally invest in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. While the price declines experienced by municipals in 2008 were most pronounced on the long end of the yield curve, longer-maturity bonds outperformed shorter maturities during 2009, thus providing the basis for much of the Trusts outperformance during this fiscal year.

Management employed leverage in the Trusts, through which additional exposure to the municipal market was achieved. Leverage has the impact of magnifying a Trust s exposure to its leveraged investments in both up and down markets.

As we move ahead, we recognize that many state and local governments face significant budget deficits that are driven primarily by a steep decline in tax revenues. We will continue to monitor any new developments as state and local officials formulate solutions to address these fiscal problems. As in all environments, we maintain our long-term perspective on the markets against the backdrop of relatively short periods of market volatility. We will continue to actively manage the Trusts with the same income-focused, relative value approach we have always employed. We believe that this approach, which is based on credit research and decades of experience in the municipal market, has served municipal investors well over the long term.

It is not possible to invest directly in an

Index or a

Lipper

Classification.

The Index s total

return does not

reflect expenses

that would have

been incurred if

an investor

individually

purchased or

sold the

securities

represented in

the Index.

Past

performance is

no guarantee of

future results.

2

Eaton Vance Municipal Income Trusts as of November 30, 2009

MANAGEMENT S DISCUSSION OF FUND PERFORMANCE

A Note Regarding The Use Of Leverage

The Trusts may employ leverage through the issuance of Auction Preferred Shares (APS) and the use of residual interest bond (RIB) financing. Each Trust s APS and RIB percentage leverage as of November 30, 2009, as applicable, is reflected on the Trust-specific pages following this letter. The leverage created by APS and RIB investments provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of the common shares).

During the period, certain of the Trusts redeemed a portion of their outstanding APS to reduce the amount of the Trusts financial leverage. Information relating to these redemptions is contained in Note 2 to the Financial Statements.

See Note 1H to the Financial Statements for more information on RIB investments.

Trust shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Trusts current or future investments and may change due to active management.

Rate Notes
outstanding at
11/30/09 as a
percentage of the
Trust s net assets
applicable to
common shares
plus APS and
Floating Rate
Notes.

1 Returns are

historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The Trust s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust s shares, or changes in Trust distributions.

Performance

results reflect the effects of APS outstanding and RIB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares). ² The Trust s market yield is calculated by dividing the last regular dividend per common share in the period (annualized) by the market price at the end of the period. ³ Taxable-equivalent figure assumes a maximum 41.86% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure. ⁴ It is not possible to invest directly in an Index. The Indices total returns do not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Indices. Index

performance is

available as of

month end only. ⁵

The Lipper

Averages are the

average annual

total returns, at net

asset value, of the

funds that are in the

same Lipper

Classification as

the Trust. It is not

possible to invest in

a Lipper

Classification.

Lipper

Classifications may

include insured and

uninsured funds, as

well as leveraged

and unleveraged

funds. The Lipper

California

Municipal Debt

Funds

Classification

(closed-end)

contained 24, 24

and 14 funds for the

1-year, 5-year and

10-year time

periods,

respectively. Lipper

Averages are

available as of

month end only. 6

Rating Distribution

is determined by

dividing the total

market value of the

issues by the total

investments of the

Trust. Although the

investment adviser

considers ratings

when making

investment

decisions, it

performs its own

credit and

investment analysis

and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. 7 Trust holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. See Note 1H to the Trust s financial statements.

	Average Effective Maturity:	16.1 years
	Average Call Protection:	8.4 years
	Average Dollar Price:	\$92.15
	APS Leveragë:	30.7%
K	RIB Leverage*:	11.6%
**	ADS Invarian	
7.7	The bicverage	
	represents the	
	liquidation value of	
	the Trust s Auction	
	Preferred Shares	
	(APS) outstanding	
	at 11/30/09 as a	

percentage of the

Trust s net assets applicable to common shares plus APS and Floating Rate Notes. RIB leverage represents the amount of Floating Rate Notes outstanding at 11/30/09 as a percentage of the Trust s net assets applicable to common shares plus APS and Floating Rate Notes.

Returns are historical and are calculated by determining the percentage change in market price or net asset value (as applicable) with all distributions reinvested. The Trust s performance at market price will differ from its results at NAV. Although market price performance generally reflects investment results over time, during shorter periods, returns at market price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in

supply and demand for the Trust s shares, or changes

in Trust

distributions.

Performance

results reflect the

effects of APS

outstanding and

RIB investments,

which are forms of

investment

leverage. Use of

leverage creates an

opportunity for

increased income

but, at the same

time, creates

special risks

(including the

likelihood of

greater volatility of

net asset value and

market price of

common shares). ²

The Trust s market

yield is calculated

by dividing the last

regular dividend

per common share

in the period

(annualized) by the

market price at the

end of the period. ³

Taxable-equivalent

figure assumes a

maximum 41.99%

combined federal

and state income

tax rate. A lower

tax rate would

result in a lower

tax-equivalent

figure. ⁴ It is not

possible to invest

directly in an Index.

The Indices total

returns do not

reflect the expenses

that would have

been incurred if an

investor

individually

purchased or sold

the securities

represented in the

Indices. Index

performance is

available as of

month end only. ⁵

The Lipper

Averages are the

average annual

total returns, at net

asset value, of the

funds that are in the

same Lipper

Classification as

the Trust. It is not

possible to invest in

a Lipper

Classification.

Lipper

Classifications may

include insured and

uninsured funds, as

well as leveraged

and unleveraged

funds. The Lipper

New Jersey

Municipal Debt

Funds

Classification

(closed-end)

contained 10, 10

and 6 funds for the

1-year, 5-year and

10-year time

periods,

respectively. Lipper

Averages are

available as of

month end only. 6

Rating Distribution

is determined by

dividing the total

market value of the

issues by the total

investments of the

Trust. Although the

investment adviser

considers ratings

when making

investment

decisions, it

performs its own credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer s current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security s market value or of the liquidity of an investment in the security. 7 Trust holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. See Note 1H to the Trust s financial statements.

PORTFOLIO OF INVESTMENTS CONT D

The percentage shown for each investment category in the Portfolio of Investments is based on net assets applicable to common shares.

AGC - Assured Guaranty Corp.

AMBAC - AMBAC Financial Group, Inc.

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

BHAC - Berkshire Hathaway Assurance Corp.

CIFG - CIFG Assurance North America, Inc.

FGIC - Financial Guaranty Insurance Company.

FSA - Financial Security Assurance, Inc.

NPFG - National Public Finance Guaranty Corp.

RADIAN - Radian Group, Inc.

The Trust invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2009, 42.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.5% to 16.3% of total investments.

- (1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
- (2) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (3) Security (or a portion thereof) has been pledged as collateral for open swap contracts or inverse floating-rate security transactions. The aggregate value of such collateral is \$1,286,171.

AGC - Assured Guaranty Corp.

AMBAC - AMBAC Financial Group, Inc.

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

FGIC - Financial Guaranty Insurance Company

FHA - Federal Housing Administration

FSA - Financial Security Assurance, Inc.

NPFG - National Public Finance Guaranty Corp.

XLCA - XL Capital Assurance, Inc.

The Trust invests primarily in debt securities issued by Massachusetts municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2009, 31.5% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.0% to 14.9% of total investments.

- (1) Security represents the underlying municipal bond of an inverse floater (see Note 1H).
- (2) Security (or a portion thereof) has been pledged as collateral for open swap contracts. The aggregate value of such collateral is \$156,731.

The Trust invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at November 30, 2009, 46.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.9% to 18.5% of total investments.

(1) Security (or a portion thereof) has been pledged to cover margin requirements on open financial futures contracts.
