INTRODUCTION

As used in this document, except as the context otherwise requires, the terms:

ADR refers to an American Depositary Receipt, being a receipt evidencing title to an ADS;

ADS refers to an American Depositary Share, being a registered negotiable security, listed on the New York Stock Exchange, representing one InterContinental Hotels Group PLC ordinary share of 1329/47 pence each;

Board refers to the Board of directors of InterContinental Hotels Group PLC or, where appropriate, the Boards of directors of InterContinental Hotels Limited or Six Continents Limited;

Britvic refers to Britannia Soft Drinks Limited for the period up to November 18, 2005, and thereafter, Britannia SD Holdings Limited (renamed Britvic plc on November 21, 2005) which became the holding company of the Britvic Group on November 18, 2005;

Britvic Group refers to Britvic and its subsidiaries;

Company refers to InterContinental Hotels Group PLC, InterContinental Hotels Limited or Six Continents Limited or their respective Board of directors as the context requires;

EMEA refers to Europe, the Middle East and Africa;

Group refers to InterContinental Hotels Group PLC and its subsidiaries or, where appropriate, InterContinental Hotels Limited or Six Continents Limited and their subsidiaries as the context requires;

Hotels refers to the hotels business of the Group;

IHG refers to InterContinental Hotels Group PLC or, where appropriate, its Board of directors;

IHL refers to InterContinental Hotels Limited, previously InterContinental Hotels Group PLC, former parent company of the Group and re-registered as a private limited company on June 27, 2005;

ordinary share or share refers, before April 14, 2003, to the ordinary shares of 28 pence each in Six Continents Limited; following that date and until December 10, 2004 to the ordinary shares of £1 each in IHL; following that date and until June 27, 2005 to the ordinary shares of 112 pence each in IHL; following that date and until June 12, 2006 to the ordinary shares of 10 pence each in IHG; following that date until June 4, 2007 to the ordinary shares of 113/7 pence each in IHG; and following June 4, 2007 to the ordinary shares of 1329/47 pence each in IHG;

VAT refers to UK value added tax levied by HM Revenue and Customs on certain goods and services.

References in this document to the Companies Act mean the Companies Act 2006 of Great Britain; references to the EU mean the European Union; references in this document to UK refer to the United Kingdom of Great Britain and Northern Ireland; references to US refer to the United States of America.

The Company publishes its Consolidated Financial Statements expressed in US dollars following a management decision to change the reporting currency from sterling during 2008. The change was made to reflect the profile of the Group s revenue and operating profit, which are primarily generated in US dollars or US dollar-linked currencies.

In this document, references to US dollars , US$, $ or ¢ are to United States currency, references to euro or euro, the currency of the European Economic and Monetary Union, references to pounds sterling , sterling , £ , pence p are to UK currency. Solely for convenience, this Annual Report on

Table of Contents

Form 20-F contains translations of certain pound sterling amounts into US dollars at specified rates. These translations should not be construed as representations that the pound sterling amounts actually represent such US dollar amounts or could be converted into US dollars at the rates indicated. The noon buying rate in The City of New York for cable transfers in pounds sterling as certified for customs purposes by the Federal Reserve Bank of New York on March 25, 2011 was £1.00 = $1.6086. For further information on exchange rates please refer to page F-23.

The Company s fiscal year ends on December 31. The December 31 fiscal year end is in line with the calendar accounting year ends of the majority of comparable US and European hotel companies. IHG will continue to report on a December 31 fiscal year-end basis, as the Group believes this facilitates more meaningful comparisons with other key participants in the industry. References in this document to a particular year are to the fiscal year unless otherwise indicated. For example, references to the year ended December 31, 2010 are shown as 2010 and references to the year ended December 31, 2009 are shown as 2009, unless otherwise specified, and references to other fiscal years are shown in a similar manner.

The Company s Consolidated Financial Statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in accordance with IFRS as adopted by the European Union (EU). IFRS as adopted by the EU differs in certain respects from IFRS as issued by the IASB. However, the differences have no impact on the Group s Consolidated Financial Statements for the years presented.

In keeping with UK practice IHG believes that the reporting of profit and earnings measures before exceptional items provides additional meaningful information on underlying returns and trends to shareholders. The Group s key performance indicators used in budgets, monthly reporting, forecasts, long-term planning and incentive plans for internal financial reporting focus primarily on profit and earnings measures before exceptional items. Throughout this document earnings per ordinary share is also calculated excluding the effect of all exceptional operating items, exceptional interest, exceptional tax and gain on disposal of assets and is referred to as adjusted earnings per ordinary share.

The Company furnishes JPMorgan Chase Bank, N.A., as Depositary, with annual reports containing Consolidated Financial Statements and an independent auditor s opinion thereon. These Consolidated Financial Statements are prepared on the basis of IFRS. The Company also furnishes to the Depositary all notices of shareholders meetings and other reports and communications that are made generally available to shareholders of the Company. The Depositary makes such notices, reports and communications available for inspection by registered holders of ADRs and mails to all registered holders of ADRs voting instruction cards with specific reference to the section of the Company s website on which such notices, reports and communications can be viewed. During 2010, the Company reported interim financial information at June 30, 2010 in accordance with the Listing Rules of the UK Listing Authority. In addition, it provided quarterly financial information at March 31, 2010 and at September 30, 2010 and intends to continue to provide quarterly financial information during fiscal 2011. The Consolidated Financial Statements may be found on the Company s website at www.ihgplc.com.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Form 20-F contains certain forward-looking statements as defined in Section 21E of the Securities Exchange Act of 1934 with respect to the financial condition, results of operations and business of InterContinental Hotels Group and certain plans and objectives of the Board of Directors of InterContinental Hotels Group PLC with respect thereto. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as anticipate , target , expect , estimate , intend , plan , believe , or other words of similar meaning. These statements are based on assumptions and assessments made by InterContinental Hotels Group s management in light of their experience and their perception of historical trends,

current conditions, expected future developments and other factors they believe to be appropriate.

Such statements in the Form 20-F include, but are not limited to, statements under the following headings; (i) Item 4. Information on the Company ; (ii) Item 5. Operating and financial review and prospects ; (iii) Item 8.

Financial information ; and (iv) Item 11. Quantitative and qualitative disclosures about market risk . Specific risks faced by the Company are described under Item 3. Key information Risk factors commencing on page 10.

By their nature, forward-looking statements are inherently predictive, speculative and involve risk and uncertainty. There are a number of factors that could cause actual results and developments to differ materially from those expressed in, or implied by, such forward-looking statements, including, but not limited to: the risks involved with the Group s reliance on the reputation of its brands and the protection of its intellectual property rights; the risks related to identifying, securing and retaining franchise and management agreements; the effect of political and economic developments; the ability to acquire and retain the right people and skills and capability to manage growth and change; the risk of events that adversely impact domestic or international travel; the risks involved in the Group s reliance upon its proprietary reservations system and increased competition in reservations infrastructure; the risks in relation to technology and systems; the risks of the hotel industry supply and demand cycle; the possible lack of selected development opportunities; the risks related to corporate responsibility; the risk of litigation; the risks associated with the Group s ability to maintain adequate insurance; the risks associated with the Group s financial stability, its ability to borrow and satisfy debt covenants; compliance with data privacy regulations; the risks related to information security; and the risks associated with funding the defined benefits under its pension plans.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

Summary

The selected consolidated financial data set forth below for the years ended December 31, 2010, 2009, 2008, 2007 and 2006 has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in accordance with IFRS as adopted by the European Union (EU), and is derived from the Consolidated Financial Statements of the Group which have been audited by its independent registered public accounting firm, Ernst & Young LLP.

IFRS as adopted by the EU differs in certain respects from IFRS as issued by the IASB. However, the differences have no impact on the Group s Consolidated Financial Statements for the years presented. The selected consolidated financial data set forth below should be read in conjunction with, and is qualified in its entirety by reference to, the Consolidated Financial Statements and Notes thereto included elsewhere in this Annual Report.

For the year ended December 31, 2010, the selected consolidated financial data differs from the consolidated financial statements issued to UK listing authorities on February 15, 2011, as explained in Note 1 of Notes to the Consolidated Financial Statements.

Dividends

InterContinental Hotels Group PLC paid an interim dividend of 8.0 pence per share (equivalent to 12.8 cents per ADS at the closing exchange rate of August 6, 2010) on October 1, 2010. The IHG Board has proposed a final dividend of 22.0 pence per share (equivalent to 35.2 cents per ADS at the closing exchange rate on February 11, 2011), payable on June 3, 2011, if approved by shareholders at the Annual General Meeting to be held on May 27, 2011, bringing the total IHG dividend for the year ended December 31, 2010 to 30.0 pence per share (equivalent to 48.0 cents per ADS).

The table below sets forth the amounts of interim, final and total dividends on each ordinary share in respect of each fiscal year indicated. Comparative dividends per share have been restated using the aggregate of the weighted average number of shares of InterContinental Hotels Group PLC. For the purposes of showing the dollar amount per ADS in respect of the interim and final dividends for each of 2006 and 2007, such amount is translated into US dollars per ADS at the Noon Buying Rate on the UK payment date. In respect of the interim and final dividends for each of 2008, 2009 and 2010 such amounts are translated from US dollars into GBP at the prevailing exchange rate immediately prior to their announcement.

RISK FACTORS

This section describes the principal risks that could materially affect the Group s business. The factors below should be considered in connection with any financial and forward-looking information in this Form 20-F and the cautionary note regarding forward-looking statements contained on pages 5 and 6.

The risks below are not the only ones that the Group faces. Some risks are not yet known to the Group and some that the Group does not currently believe to be material could later turn out to be material.

The Group is reliant on the reputation of its brands and the protection of its intellectual property rights

Any event that materially damages the reputation of one or more of the Group s brands and/or failure to sustain the appeal of the Group s brands to its customers could have an adverse impact on the value of that brand and subsequent revenues from that brand or business.

In addition, the value of the Group s brands is influenced by a number of other factors, some of which may be outside the Group s control, including commoditization (whereby price and/or quality becomes relatively more important than brand identifications due, in part, to the increased prevalence of third-party intermediaries), consumer preference and perception, failure by the Group or its franchisees to ensure compliance with the significant regulations applicable to hotel operations (including fire and life safety requirements), or other factors affecting consumers willingness to purchase goods and services, including any factor which adversely affects the reputation of those brands.

In particular, where the Group is unable to enforce adherence to its operating and quality standards, or the significant regulations applicable to hotel operations, pursuant to its franchise and management contracts, there may be further adverse impact upon brand reputation or customer perception and therefore the value of the hotel brands.

Given the importance of brand recognition to the Group s business, the Group has invested considerable resources in protecting its intellectual property, including registration of trademarks and domain names. However, the controls and laws are variable and subject to change. Any widespread infringement, misappropriation or weakening of the control environment could materially harm the value of the Group s brands and its ability to develop the business.

The Group is exposed to a variety of risks related to identifying, securing and retaining franchise and management agreements

The Group s growth strategy depends on its success in identifying, securing and retaining franchise and management agreements. This is an inherent risk for the hotel industry and franchise business model. Competition with other hotel companies may generally reduce the number of suitable franchise, management and investment opportunities offered to the Group and increase the bargaining position of property owners seeking to become a franchisee, or engage a manager. The terms of new franchise or management agreements may not be as favorable as current arrangements and the Group may not be able to renew existing arrangements on similarly favorable terms or at all.

There can also be no assurance that the Group will be able to identify, retain or add franchisees to the Group system or to secure management contracts. For example, the availability of suitable sites, planning and other local regulations or the availability and affordability of finance may all restrict the supply of suitable hotel development opportunities under franchise or management agreements. In connection with entering into franchise or management agreements, the Group may be required to make investments in, or guarantee the obligations of, third parties or guarantee minimum income to third parties. There are also risks that significant franchisees or groups of franchisees may have

interests that conflict, or are not aligned, with those of the Group including, for example, the unwillingness of franchisees to support brand improvement initiatives.

Changes in legislation or regulatory changes may be implemented that have the effect of favoring franchisees relative to brand owners.

Table of Contents

The Group is exposed to the risks of political and economic developments

The Group is exposed to the inherent risks of global and regional adverse political, economic and financial market developments, including recession, inflation, availability of affordable credit and currency fluctuations that could lower revenues and reduce income. A recession reduces leisure and business travel to and from affected countries and adversely affects room rates and/or occupancy levels and other income-generating activities. This may result in deterioration of results of operations and potentially reduce the value of properties in affected economies. The owners or potential owners of hotels franchised or managed by the Group face similar risks which could adversely impact the Group s ability to retain and secure franchise or management agreements. More specifically, the Group is highly exposed to the US market and, accordingly, is particularly susceptible to adverse changes in the US economy.

Further political or economic factors or regulatory action could effectively prevent the Group from receiving profits from, or selling its investments in, certain countries, or otherwise adversely affect operations. For example, changes to tax rates or legislation in the jurisdictions in which the Group operates could decrease the proportion of profits the Group is entitled to retain, or the Group s interpretation of various tax laws and regulations may prove to be incorrect, resulting in higher than expected tax charges.

The Group requires the right people, skills and capability to manage growth and change

In order to remain competitive, the Group must employ the right people. This includes hiring and retaining highly skilled employees with particular expertise or leadership capability. The implementation of the Group s strategic business plans could be undermined by failure to build resilient corporate culture, recruit or retain key personnel, unexpected loss of key senior employees, failures in the Group s succession planning and incentive plans, or a failure to invest in the development of key skills.

Some of the markets in which the Group operates are experiencing economic growth and the Group must compete against other companies inside and outside the hospitality industry for suitably qualified or experienced employees. Failure to attract and retain these employees may threaten the success of the Group s operations in these markets. Additionally, unless skills are supported by a sufficient infrastructure to enable knowledge and skills to be passed on, the Group risks losing accumulated knowledge if key employees leave the Group.

The Group is exposed to the risk of events that adversely impact domestic or international travel

The room rates and occupancy levels of the Group could be adversely impacted by events that reduce domestic or international travel, such as actual or threatened acts of terrorism or war, epidemics, travel-related accidents, travel-related industrial action, increased transportation and fuel costs and natural disasters, resulting in reduced worldwide travel or other local factors impacting individual hotels. A decrease in the demand for hotel rooms as a result of such events may have an adverse impact on the Group s operations and financial results. In addition, inadequate preparedness, contingency planning or recovery capability in relation to a major incident or crisis may prevent operational continuity and consequently impact the value of the brand or the reputation of the Group.

The Group is reliant upon its proprietary reservations system and is exposed to the risk of failures in the system and increased competition in reservations infrastructure

The value of the brands of the Group is partly derived from the ability to drive reservations through its proprietary HolidexPlus reservations system, a central repository of all hotel room inventories linked electronically to multiple sales channels including the Group s own websites, call centers and hotels, third-party intermediaries and travel agents.

Lack of resilience in operational availability could lead to prolonged service disruption and may result in significant business interruption and subsequent impact on revenues. Lack of investment in these systems may also result in reduced ability to compete. Additionally, failure to maintain an appropriate e-commerce strategy and select the right partners could erode the Group s market share.

Table of Contents

The Group is exposed to inherent risks in relation to technology and systems

The Group is reliant upon certain technologies and systems (including IT systems) for the running of its business, particularly those which are highly integrated with business operational processes. Disruption to those technologies or systems could adversely affect the efficiency of the business, notwithstanding business continuity or disaster recovery processes. The Group may have to make substantial additional investments in new technologies or systems to remain competitive. Failing to keep pace with developments in technologies or systems may put the Group at a competitive disadvantage. The technologies or systems that the Group chooses may not be commercially successful or the technology or system strategy employed may not be sufficiently aligned with the needs of the business or responsive to changes in business strategy. As a result, the Group could lose customers, fail to attract new customers or incur substantial costs or face other losses.

The Group is exposed to the risks of the hotel industry supply and demand cycle

The future operating results of the Group could be adversely affected by industry overcapacity (by number of rooms) and weak demand due, in part, to the cyclical nature of the hotel industry, or other differences between planning assumptions and actual operating conditions. Reductions in room rates and occupancy levels would adversely impact the results of Group operations.

The Group may experience a lack of selected development opportunities

While the Group is operating in 100 countries and territories, if the availability of suitable development sites becomes limited for the Group and its prospective hotel owners, for example, due to saturation or changing geo-political circumstances, this could adversely affect the Group s future growth pipeline.

The Group is exposed to risks related to corporate responsibility

The reputation of the Group and the value of its brands are influenced by a wide variety of factors, including the perception of key stakeholders and the communities in which the Group operates. The social and environmental impacts of business are under increasing scrutiny, and the Group is exposed to the risk of damage to its reputation if it fails to demonstrate sufficiently responsible practices, ethical behavior or fails to comply with regulatory requirements in a number of areas such as fraud, bribery and corruption, safety and security, sustainability and responsible tourism, environmental management, equality, diversity and human rights, and support for local communities.

The Group is exposed to the risk of litigation

The Group could be at risk of litigation from many parties, including guests, customers, joint venture partners, suppliers, employees, regulatory authorities, franchisees and/or the owners of hotels managed by it. Claims filed in the US may include requests for punitive damages as well as compensatory damages. Exposure to litigation or fines imposed by regulatory authorities may also affect the reputation of the Group.

The Group may face difficulties insuring its business

Historically, the Group has maintained insurance at levels determined to be appropriate in light of the cost of cover and the risk profiles of the business in which it operates. However, forces beyond the Group s control including market forces, may limit the scope of coverage the Group can obtain and the Group s ability to obtain coverage at reasonable rates. Other forces beyond the Group s control, such as terrorist attacks or natural disasters may be uninsurable or simply too expensive to insure. Inadequate or insufficient insurance could expose the Group to large claims or could result in the loss of capital invested in properties, as well as the anticipated future revenue from properties, and could

leave the Group responsible for guarantees, debt or other financial obligations related to such properties.

Table of Contents

The Group is exposed to a variety of risks associated with its financial stability, ability to borrow and satisfy debt covenants

While the strategy of the Group is to extend the hotel network through activities that do not involve significant amounts of its own capital, the Group does require capital to fund some development opportunities, and to maintain and improve owned hotels. The Group is reliant on having financial strength and access to borrowing facilities to meet these expected capital requirements. The majority of the Group s borrowing facilities are only available if the financial covenant in the facilities are complied with. Non-compliance with covenants could result in the lenders demanding repayment of the funds advanced. If the Group s financial performance does not meet market expectations, it may not be able to refinance existing facilities on terms considered favorable.

The Group is required to comply with data privacy regulations

Existing and emerging data privacy regulations limit the extent to which the Group can use personal identifiable information. Compliance with these regulations in each jurisdiction in which the Group operates may require changes in the way data is collected, monitored, shared and used, which could increase operating costs or limit the advantages from processing such data. In addition, non-compliance with data privacy regulations may result in fines, damage to reputation or restrictions on the use or transfer of information.

The Group is exposed to the risks related to information security

The Group is increasingly dependent upon the availability, integrity and confidentiality of information including, but not limited to, guest and employee credit card, financial and personal data, business performance and financial reporting.

The reputation and performance of the Group may be adversely affected if it fails to maintain appropriate confidentiality of information and ensure relevant controls are in place to enable the release of information only through the appropriate channels in a timely and accurate manner.

The Group is exposed to funding risks in relation to the defined benefits under its pension plans

The Group is required by law to maintain a minimum funding level in relation to its ongoing obligation to provide current and future pensions for members of its UK pension plans who are entitled to defined benefits. In addition, if certain plans of the Group are wound-up, the Group could become statutorily liable to make an immediate payment to the trustees to bring the funding of defined benefits to a level which is higher than the minimum legal requirements. The contributions payable by the Group must be set with a view to making prudent provision for the benefits accruing under the plans of the Group.

In particular, the trustees of the Group s UK defined benefit plan may demand increases to the contribution rates relating to the funding of this plan, which would oblige relevant employers of the Group to contribute extra amounts. The trustees must consult the plan s actuary and principal employer before exercising this power. In practice, contribution rates are agreed between the Group and the trustees on actuarial advice, and are set for three-year terms. The funding implications of the last actuarial review are disclosed in the notes to the Group s Consolidated Financial Statements on page F-30.

SUMMARY

Group overview

The Group is an international hotel business which owns a portfolio of established and diverse hotel brands, including InterContinental Hotels & Resorts (InterContinental), Crowne Plaza Hotels & Resorts (Crowne Plaza), Holiday Inn Hotels & Resorts (including Holiday Inn Club Vacations) (Holiday Inn), Holiday Inn Express, Staybridge Suites, Candlewood Suites and Hotel Indigo. At December 31, 2010, the Group had 4,437 franchised, managed, owned and leased hotels and 647,161 guest rooms in 100 countries and territories around the world. The Group also manages the hotel loyalty program, Priority Club Rewards.

Table of Contents

The Group s revenue and earnings are derived from hotel operations, which include franchise and other fees paid under franchise agreements, management and other fees paid under management contracts, where the Group operates third-parties hotels, and operation of the Group s owned and leased hotels.

At March 25, 2011, InterContinental Hotels Group PLC had a market capitalization of approximately £3.7 billion, and was included in the list of FTSE 100 companies, a list of the 100 largest companies by market capitalization on the London Stock Exchange.

InterContinental Hotels Group PLC is the holding company for the Group. Six Continents Limited (formerly Six Continents PLC), which was formed in 1967, is the principal subsidiary company. The Company s corporate headquarters are in the United Kingdom, and the registered address is:

InterContinental Hotels Group PLC

InterContinental Hotels Group PLC was incorporated in Great Britain on May 21, 2004 and registered in, and operates under, the laws of England and Wales. Operations undertaken in countries other than England and Wales are subject to the laws of those countries in which they reside.

Group history and recent developments

The Group, formerly known as Bass and, more recently, Six Continents, was historically a conglomerate operating as, among other things, a brewer, soft drinks manufacturer, hotelier, leisure operator, and restaurant, pub and bar owner. In the last several years, the Group has undergone a major transformation in its operations and organization, as a result of the Separation (as discussed below) and a number of significant disposals during this period, which has narrowed the scope of its business.

On April 15, 2003, following shareholder and regulatory approval, Six Continents PLC (as it then was) separated into two new listed groups, InterContinental Hotels Group PLC (as it then was) comprising the Hotels and Soft Drinks businesses and Mitchells & Butlers plc comprising the Retail and Standard Commercial Property Developments businesses (the Separation).

The Group disposed of its interests in the soft drinks business by way of an initial public offering (IPO) of Britvic, a manufacturer and distributor of soft drinks in the United Kingdom, in December 2005.

Acquisitions and dispositions

From Separation to December 31, 2010, 185 hotels with a net book value of $5.3 billion have been sold, generating aggregate proceeds of $5.6 billion. Of these 185 hotels, 166 hotels have remained in the Group s global system (the number of hotels and rooms franchised, managed, owned and leased by the Group) through either franchise or management agreements. At December 31, 2010, the Group owned 15 hotels.

The following provides details relating to the hotels disposed and retained pursuant to the asset disposal program.

Asset disposal program detail	Number of hotels	Proceeds ($ billion)	Net book value
Disposed since April 2003	185	5.6	5.3
Remaining owned and leased hotels as of December 31, 2010	15		1.5

During 2010, the Group disposed of the Holiday Inn Lexington for $5 million and the InterContinental Buckhead, Atlanta for $105 million. During 2009, the Group disposed of the InterContinental Sao Paulo for $22 million. During 2008, the Group disposed of the Holiday Inn Jamaica for $30 million.

Table of Contents

The Group also divested a number of equity interests for total proceeds of $17 million, $15 million and $61 million in 2010, 2009 and 2008, respectively. The most significant interests sold were a 31.25% interest in the Crowne Plaza Christchurch and a 17% interest in the Crowne Plaza Amsterdam in 2008. In 2010, a loan repayment of $11 million was also received.

The asset disposal program which commenced in 2003 has significantly reduced the capital requirements of the Group whilst largely retaining the hotels in the Group s system through management and franchise agreements.

Capital expenditure in 2010 totaled $95 million compared with $148 million in 2009 and $108 million in 2008. 2009 included the $65 million purchase of the Hotel Indigo San Diego.

At December 31, 2010 capital committed, being contracts placed for expenditure on property, plant and equipment and intangible assets not provided for in the Consolidated Financial Statements, totaled $14 million.

On October 24, 2007 the Group announced a worldwide relaunch of its Holiday Inn brand family which is now substantially complete. In support of this relaunch, the Group has made a non-recurring revenue investment of $63 million which has been charged to the Consolidated income statement as an exceptional item since the 2007 relaunch. During 2010, $9 million (2009 $19 million, 2008 $35 million) was charged.

Return of funds

Since March 2004, the Group has returned over £3.5 billion of funds to shareholders by way of special dividends, share repurchase programs and capital returns (see table below).

A £150 million share repurchase program was announced on February 20, 2007. During 2010 no shares were repurchased. By March 25, 2011, a total of 14.4 million shares had been repurchased under the £150 million repurchase program at an average price per share of 831 pence per share (approximately £120 million). Purchases are made under the existing authority from shareholders which will be renewed at the Company s Annual General Meeting. Any shares repurchased under these programs will be canceled.

Information relating to the purchases of equity securities can be found in Item 16E.

BUSINESS OVERVIEW

The Group is an international hotel business which owns a portfolio of established and diverse hotel brands, including InterContinental Hotels & Resorts, Crowne Plaza Hotels & Resorts, Holiday Inn Hotels & Resorts (including Holiday Inn Club Vacations), Holiday Inn Express, Staybridge Suites Candlewood Suites and Hotel Indigo. At December 31, 2010, the Group had 4,437 franchised, managed, owned and leased hotels and 647,161 guest rooms in 100 countries and territories around the world. The Group also manages the hotel loyalty program, Priority Club Rewards.

Industry and market trends

2010 was a turnaround year for the global economy, with clear signs that the global recession was easing during the second half and business and consumer confidence returning. This assisted the hotel industry s recovery from a challenging economic period. The lodging industry is cyclical, tending to reflect the state of the general economic cycle. Historically, in previous cycles the industry has experienced periods of five to eight years of growth in revenue per available room (RevPAR) followed by up to two years of decline. Demand has rarely fallen for sustained periods and it is the interplay between hotel supply and demand that drives longer-term fluctuations in RevPAR.

The expected recovery in demand took place in 2010. The more modest increases in industry pricing, or average daily rate, which along with occupancy make up RevPAR, was caused by the increase in supply of hotel rooms globally, a legacy of the growth in hotel construction which began prior to the downturn.

The sustained success of the economic recovery is likely to be determined by both the challenging choices policy makers are faced with regarding austerity measures and the issues surrounding sovereign debt, along with the response of corporations and the financial sector. Corporations will need to play an important role in the recovery through sustained investment and job creation, and the Group, with an ambitious program to open new hotels, anticipates the need to recruit approximately 160,000 people over the next few years.

The Group monitors key industry drivers and business fundamentals, such as RevPAR, to ensure its strategy remains well suited to the environment and the Group s capabilities.

Different regions, countries and types of demand vary in the speed they recover and it is our understanding of local demand drivers, combined with a global outlook, that help us anticipate the needs of different types of guest demand and so continue to develop the business to meet these needs. As an example, the Group s recent launch of new tools to support meetings and events in our hotels was well-timed with the earlier than anticipated recovery in this type of demand. Many commentators thought meetings and events business would remain subdued into 2011.

There are a number of external drivers from which IHG expects to benefit:

- global economic recovery the global economy grew by 3.8% during 2010 (Oxford Economics), and US historic market data show that following recessions, hotel industry revenues broadly increase ahead of Gross Domestic Product (GDP) (Smith Travel Research). We expect the current recovery to be similar, and are investing in the business to capture demand as it continues to strengthen;

- increase in affluence and freedom to travel in emerging markets countries such as China are increasingly significant as domestic and international travel markets. They already have a sizeable hotel industry, and the importance of hotel brands in such emerging markets is growing;

rising global travel volumes airline capacity continues to grow, with affordability of travel improving globally. Business travel is expected to recover in most markets in 2011 and leisure travellers who have been resilient in the downturn will continue to travel both internationally and within domestic markets;

change in demographics as the population ages and becomes wealthier in developed markets, increased leisure time and incomes encourage more travel and hotel stays; conversely, younger generations are increasingly seeking a better work/life balance, with higher expectations from those providing their accommodation. This has positive implications for increased leisure travel; and

demand for branded hotels is growing faster than that for independent hotels.

Our strategy

With a portfolio of well-established brands, in the best developed and emerging markets, the Group is using its size, scale, people and expertise to realize its Vision of becoming one of the world s great companies. The Group will be a great company when guests love to stay with us, people love to work for us, owners love our brands and investors love our performance. This strategy is measured by a series of key performance indicators around Where we compete and How we win (pages 22 and 23).

The Group s strategy has ensured that it remains the largest hotel company in the world, by number of rooms. By grounding its operations and growth in its core purpose of creating Great Hotels Guests Love, the Company uses elements of its strategy, such as the business model of third-party ownership, to grow faster than its global competitors.

Delivering the elements of the Group s strategy

Competing with an appropriate business model

The Group s business model has a clear focus on franchising and managing hotels, rather than owning them outright, enabling the Group to grow at an accelerated pace, with limited capital investment. Furthermore, the Group benefits from the reduced volatility of fee-based income streams, as compared with the ownership of assets.

A key characteristic of the franchised and managed business is that it generates more cash than is required for investment in the business, with a high return on capital employed. At December 31, 2010 87% of operating profit before regional and central overheads, exceptional items, interest and tax is derived from franchised and managed operations.

Where necessary, the Group actively supports its brands by employing its own capital to showcase best-in-class operations through flagship assets.

The Group s business model creates opportunities to build relationships with independent hotel owners and generate revenues by offering access to our global demand delivery systems, where guests can book their hotels through the Group s booking channels, including branded websites and call centers. The latest example is our strategic relationship with Summit Hotel Properties Inc. (Summit), a US hotel investment company focused on branded hotels. On any unbranded hotel bought by Summit, the Group now has first rights to give the hotel a Group s brand and earn fee revenues through generating demand for that hotel.

The key features of the Group s business model are represented in the following table and charts.

	Brand	Marketing and distribution	Staff	Ownership	The Group s capital	The Group s income
Franchised This is the largest part of our business: 3,783 hotels operate under franchise agreements	The Group s brands	The Group	Third party	Third party	None	Fee % of rooms revenue

Managed The Group manages 639 hotels worldwide	The Group s brands	The Group	The Group usually supplies general manager as a minimum	Third party	Low/none	Fee % of total revenue plus % of profit

Competing in developed and emerging markets

When considering open hotel rooms and those in development, the Group has leadership positions in 15 of the top 20 markets globally. These markets alone account for over 80% of global lodging spend. These include large developed markets such as the United States (US), United Kingdom (UK), and Germany, as well as emerging markets like China.

The US is the largest market for branded rooms, with 3.4 million. The segment in the US with the greatest share is midscale, with 1.3 million branded hotels rooms, and the Group s Holiday Inn brand family is the largest operator in this segment.

The Group is also focused on growing in large markets such as the UK and Germany where it ranks second and third, respectively in terms of number of available rooms. The benefits of a large hotel presence across these high-value self-supporting markets for the Group include the ability to build relationships with the largest possible number of guests.

The Group is the largest hotel company in China, the emerging market with the greatest scale, having 0.5 million branded rooms. The Group, which was the first international chain to open hotels in the country, remains the largest, with close to 50,000 rooms. The rapid pace of openings for the Group and the wider lodging industry shows that China, and other emerging markets are behaving as the Group has seen in developed markets over the past 50 years. The strong demand drivers for hotels suggest these will remain key growth markets.

Outside the largest markets, the Group focuses on achieving presence for its biggest brands in key gateway cities which show the potential for high demand from business and leisure guests, and where its brands can generate revenue premiums.

In the hotel industry, the future supply of hotels and hotel rooms is visible through the pipeline, and the Group s pipeline reflects the sustainability of its leadership position.

In 2010, the Group s portfolio opened 35,744 rooms in 29 countries, and signed a further 55,598 into the pipeline, across 38 countries. The Group currently has 204,859 rooms in 1,275 hotels under development in 64 countries.

Table of Contents

The Group s pipeline ensures sustainable development in new and emerging markets that best suit the Company s strengths and anticipate the future needs of customers. The Group has committed development teams ensuring a sizeable pipeline in developing markets: during 2010 the Group opened 7,253 rooms in Greater China, representing 20% of all new rooms opened by it across the globe during 2010.

The Group s pipeline is the largest branded hotel pipeline in the world, representing 18% of all hotels under development, including those that are independent or unaffiliated.

Winning with our scale and expertise

The major benefit the Group brings to guests who stay in the Group s portfolio of hotels, and owners who invest with us, is our system to help guests book and stay with us, and then maintain the relationship with them after they leave. This includes having hotels in key locations, great brands with consumer appeal, efficient reservations systems, global web presence, our loyalty rewards schemes, along with other elements. Together, these form the largest such system in the industry and are the engine of our business, delivering, on average, 68% of total rooms revenue in 2010.

With continued focus on the success of this global system, we have developed best-in-class marketing and technology to support our hotels and drive incremental revenues.

Our focus on key geographical markets where we operate a large number of hotels, such as the US, UK, China, Middle East and Germany, means we can run hotels and our operating system with greater efficiencies, delivering more to the consumer at a lower cost.

The size of the global hotel market is estimated by the Group to be close to 20 million rooms. Competitors in the market include other branded hotel companies, both large and small, international and domestic, and independently owned hotels.

IHG remains the largest branded hotel company, with our share currently at approximately 10% of the branded rooms (Smith Travel Research), and a presence in 100 countries and territories. Leading research (Smith Travel Research) calculates that there are 6.6 million branded hotel rooms, with the remainder a combination of independent hotels, guesthouses and other types of lodging.

Although currently less than half of all hotel rooms are branded, the benefits of being part of a brand are recognized by many owners and the growth of branded rooms has exceeded the growth of unbranded rooms over the past 10 years. Raising finance is still an issue globally, and branded hotels are perceived as offering greater security through global reservations systems, loyalty schemes, and international networks. Branded hotel companies, such as the Group, are attractive to independent hotel owners and are therefore gaining market share at the expense of the unbranded portion of the industry. The Group is well positioned to benefit from this trend.

Hotel owners are increasingly recognising the benefits of franchising or managing with the Group, which can offer a portfolio of brands to suit the different real estate opportunities an owner may have, together with effective revenue delivery through global reservations channels. Furthermore, hotel ownership is increasingly being separated from hotel operations, encouraging hotel owners to use third parties, such as the Group, to manage their hotels.

Winning with our people and values

Our Vision can only be realized if we have collaborative and engaged employees, delivering the right experience to our guests through shared values and living our brands. We have extensive on-boarding, communication, development and recognition programs, aligned under our employment brand, Room to be yourself , providing the right

environment for our people to be successful.

Table of Contents

Our people dictate our culture, and the Group is aligned around great values which are consistently brought to life through a set of five behaviors, the Winning Ways :

Do the right thing;

Show we care;

Aim Higher;

Celebrate difference; and

Work better together.

Business relationships with others

The Group maintains effective relationships across all aspects of its operations. The Group s operations are not dependent upon any single customer, supplier or hotel owner due to the extent of its brands, market segments and geographical coverage. For example, the Group s largest third-party hotel owner controls just 3% of the Group s total room count.

The Group continued to enhance and streamline its procurement processes during 2010, and with the implementation of initiatives to combat waste and enhance relationships with suppliers, the Group is striving to ensure best-practice is employed throughout the Group. With a focus on ensuring high-quality goods and services are sourced at competitive prices, the Group strives to ensure enhanced value for the Group, our hotel owners and shareholders.

IHG is proud of its strong and important relationship with the IAHI, the Owners Association for owners of hotels in the Group s seven brands across the world. IHG meets with the IAHI, in large and small groups, on a regular basis and works together to support and facilitate the continued development of the Group s brands and systems. During 2010, the combined work of the Group and IAHI implemented several enhancements to the Group s system.

Examples of such enhancements include:

Holiday Inn relaunch the near completion of the $1 billion global relaunch of the Holiday Inn brand family;

InnSupply improving purchasing efficiencies and streamlining the procurement processes across both organizations;

Way of Sales developing best-in-class practices for the sales operations of both organizations, having identified critical roles for generating revenues;

Celebrate Service week giving recognition and thanks to the many thousands of front-line employees, and emphasizing engagement through the Group s brands; and

People Tools enhancing the recruitment, hiring, training and retention practices across both organizations, with specific focus on reflecting the individual qualities of each brand. These tools are supplied to all hotels: managed, franchised and owned and leased.

Many jurisdictions and countries regulate the offering of franchise agreements and recent trends indicate an increase in the number of countries adopting franchise legislation. As a significant percentage of the Group s revenue is derived from franchise fees, the Group s continued compliance with franchise legislation is important to the successful

deployment of the Group s strategy.

Global System

In addition to management or franchise fees, hotels within the Group s system pay cash assessments and contributions which are collected by the Group for specific use within the System Fund (the Fund). The Fund also receives proceeds from the sale of Priority Club Rewards points. The Fund is managed for the benefit of hotels in the system with the objective of driving revenues for the hotels. The Fund is used to pay for marketing, the Priority Club Rewards loyalty program and the global reservations system.

Priority Club Rewards: The Group s worldwide loyalty scheme, Priority Club Rewards, is the largest of its kind in the hotel industry. Members enjoy a variety of privileges and rewards as they stay at the Group s hotels around the world. The global system room revenue generated from Priority Club Rewards members during 2010 was $6.6 billion. Priority Club Rewards membership reached 56 million customers as at December 31, 2010, compared to 48 million as at December 31, 2009.

Central Reservations System Technology: The Group operates the HolidexPlus reservations system. The HolidexPlus system receives reservations requests entered on terminals located at most of the Group s reservations centers, as well as from global distribution systems operated by a number of major corporations and travel agents. Where local hotel systems allow, the HolidexPlus system immediately confirms reservations or indicates alternative accommodation available within the Group s network. Confirmations are transmitted electronically to the hotel for which the reservation is made.

Reservations Call Centers: The Group operates 10 reservations call centers around the world which enable it to sell in local languages in many countries and offer a high quality service to customers.

Internet: The Group introduced electronic hotel reservations in 1995. The Internet is an important communications, branding and distribution channel for hotel sales. During 2010, 24% (24% in 2009) of global system room revenue booked via the Internet through various branded websites, such as www.intercontinental.com and www.holidayinn.com, as well as certified third parties.

The Group has established standards for working with third-party intermediaries online travel distributors who sell or re-sell the Group s branded hotel rooms via their Internet sites. Under the standards, certified distributors are required to respect the Group s trademarks, ensure reservations are guaranteed through an automated and common confirmation process, and clearly present fees to customers.

During 2010, global system room revenue booked through the Group s global systems (which includes Priority Club Rewards members, central reservations and call centers, global distribution systems and the Internet) was 68% (68% in 2009).

Sales and Marketing

The Group targets its sales and marketing expenditure in each region on driving revenue and brand awareness or, in the case of sales investments, targeting segments such as corporate accounts, travel agencies and meeting organizers. The majority of the Group s sales and marketing expenditure is funded by contractual fees paid by most hotels in the system.

Global Brands

Brands Overview

The Group offers hotel brands that appeal to guests with different needs and tastes. This requires a portfolio of large global brands, growing alongside innovative new brands to meet the unique experiences our guests desire.

The hotel industry is usually split into segments based upon price point and consumer expectations. The Group is focused on the three segments that together generate over 90% of branded hotel revenues: midscale (broadly 3 star hotels), upscale (mostly 4 star), and luxury (5 star).

Hotel Indigo provides guests with the refreshing design and intimate service synonymous with a boutique along with the consistency, reliability, and accessibility of a branded hotel. Each hotel is unique and reflects its local neighborhood with local murals and images, a vibrant color palette and locally sourced and seasonal menu items.

The Hotel Indigo brand is principally operated under franchise agreements. At December 31, 2010, there were 38 Hotel Indigo hotels, 35 located in the Americas. During 2010, five hotels were added to the portfolio, and no hotels were removed.

Geographical Analysis

Although it has worldwide hotel operations, the Group is most dependent on the Americas for operating profit, reflecting the structure of the branded global hotel market. The Americas region generated 63% of the Group s operating profit before central overheads and exceptional operating items during 2010.

The geographical analysis, split by number of rooms and operating profit, is set out in the table below.

Americas

In the Americas, the largest proportion of rooms is operated under the franchise business model (89% of rooms in the Americas operate under this model) primarily in the midscale segment (Holiday Inn and Holiday Inn Express). Similarly, in the upscale segment, Crowne Plaza is predominantly franchised, whereas the majority of the InterContinental branded hotels are operated under franchise and management agreements. With 3,458 hotels (439,375 rooms), the Americas represented 68% of the Group s room count and 63% of the Group s operating profit before central overheads and exceptional operating items during the year ended December 31, 2010. The key profit producing region is the United States, although the Group is also represented in each of Latin America, Canada, Mexico and the Caribbean.

EMEA

In EMEA, the largest proportion of rooms is operated under the franchise business model primarily in the midscale segment (Holiday Inn and Holiday Inn Express). Similarly, in the upscale segment, Crowne Plaza is predominantly franchised whereas the majority of the InterContinental branded hotels are operated under management agreements. Comprising 694 hotels (120,852 rooms) at the end of 2010, EMEA represented 22% of the Group s operating profit before central overheads and exceptional operating items during the year ended December 31, 2010. Profits are primarily generated from hotels in the United Kingdom, Continental European gateway cities and the Middle East portfolio.

Asia Pacific

In Asia Pacific, the largest proportion of rooms are operated under the managed business model. The majority of hotels are in the midscale and upscale segments. Comprising 285 hotels (86,934 rooms) at December 31, 2010, Asia Pacific represents 15% of the Group s operating profit before central overheads and exceptional operating items during the year ended December 31, 2010. The Chinese tourism market continues to grow, with the country forecast to become one of the world s biggest tourist destinations within 10 years. At December 31, 2010 the Group had

145 hotels in Greater China and a further 147 hotels in development.

The following table shows information concerning the geographical locations and ownership of the Group s hotels as at December 31, 2010.

Room Count and Pipeline

During 2010, the Group s global system (the number of hotels and rooms which are franchised, managed, owned or leased by the Group) remained in line with 2009 at 4,437 hotels (647,161 rooms). Openings of 259 hotels (35,744 rooms) were driven, in particular, by continued expansion in the US and China and offset the removal of 260 hotels (35,262 rooms).

In Asia Pacific, demand for upscale brands (InterContinental, Crowne Plaza and Hotel Indigo) contributed 65% of total room openings in the region.

Table of Contents

The Holiday Inn brand family relaunch is substantially complete with 2,956 hotels (89% of the total Holiday Inn brand family) open under the updated signage and brand standards at December 31, 2010. During 2010, the removal of non-brand-conforming hotels contributed to the total removal of 247 Holiday Inn and Holiday Inn Express hotels (30,892 rooms).

At the end of 2010, the pipeline totaled 1,275 hotels (204,859 rooms). The Group s pipeline represents hotels and rooms where a contract has been signed and the appropriate fees paid.

Signings of 319 hotels (55,598 rooms) represent an increase in rooms signed from 2009 levels. Demonstrating the continued demand for the Group s brands globally, 50% of the rooms pipeline is now outside the Americas region. There were 25 hotel signings (3,025 rooms) for Hotel Indigo as it gains real momentum in Europe and Asia Pacific where, together, 12 hotels (1,456 rooms) were signed. The Group also entered into an InterContinental Alliance relationship with the Las Vegas Sands Corp. to bring the 6,874 all-suite Venetian and Palazzo Resorts into the Group s system in 2011.

During 2010, the opening of 35,744 rooms contributed to a net pipeline decline of 5,504 rooms. Terminations from the pipeline in 2010 totaled 25,358 rooms, a decrease of 21% compared with 2009. Terminations occur for a number of reasons such as the withdrawal of financing and changes in local market conditions.

There are no assurances that all of the hotels in the pipeline will open. The construction, conversion and development of hotels is dependent upon a number of factors, including meeting brand standards, obtaining the necessary permits relating to construction and operation, the cost of constructing, converting and equipping such hotels and the ability to obtain suitable financing at acceptable interest rates. The supply of capital for hotel development in the United States and major economies may not continue at previous levels and consequently the pipeline could decrease.

Americas

The Americas hotel and room count in 2010 decreased by 21 hotels (5,979 rooms) to 3,458 hotels (439,375 rooms). Openings of 194 hotels (20,980 rooms) included key openings of the InterContinental New York Times Square and the first Staybridge Suites in New York, taking IHG s room count in New York city to 6,570. The Holiday Inn brand family generated openings of 137 hotels (13,446 rooms) and the Group s extended stay brands, Staybridge Suites and Candlewood Suites, achieved openings of 41 hotels (3,862 rooms). Removals of 215 hotels (26,959 rooms) were mainly from Holiday Inn and Holiday Inn Express hotels.

The Americas pipeline totaled 890 hotels (102,509 rooms) at December 31, 2010. Overall signings of 30,223 rooms were flat on 2009 as slow real estate and construction activity continued into 2010. Notable signings included the InterContinental Alliance established with the Las Vegas Sands Corp., and the re-entry to the Hawaii market with the Holiday Inn Beachcomber Resort in Waikiki Beach.

EMEA

During 2010, EMEA hotel and room count decreased by one hotel (a net increase of 556 rooms) to 694 hotels (120,852 rooms). Activity included openings of 33 hotels (5,767 rooms) and removals of 34 hotels (5,211 rooms). The net decrease of seven Holiday Inn and Holiday Inn Express hotels comprised 25 openings and 32 removals.

The pipeline in EMEA increased by one hotel (a net decrease of 26 rooms) to 153 hotels (31,435 rooms). There were 9,303 room signings in 2010, with continued demand for the Group s brands in the UK and Germany. Demand was particularly strong in the midscale segment which represented 61% of room signings. There were eight signings for the Group s lifestyle brand, Hotel Indigo, including four in the UK and entry into new markets in Lisbon, Madrid and

Berlin. There were also six Crowne Plaza signings including the strategic markets of Istanbul, St Petersburg and Amsterdam.

Asia Pacific

Asia Pacific hotel and room count increased by 21 hotels (5,905 rooms) to 285 hotels (86,934 rooms). Openings of 32 hotels (8,997 rooms) were partially offset by the removal of 11 hotels (3,092 rooms). The growth

Table of Contents

was driven by 24 hotel openings in 17 cities across Greater China (7,253 rooms), seven hotels (1,477 rooms) more than in 2009. This included key hotel openings in Shanghai of the InterContinental at the Expo site and the Hotel Indigo on the Bund, the first opening for this brand in Asia Pacific. Across the region 65% of rooms opened were in upscale brands (InterContinental, Crowne Plaza and Hotel Indigo).

The pipeline in Asia Pacific increased by 19 hotels (5,741 rooms) to 232 hotels (70,915 rooms). Pipeline growth was evenly balanced between the Greater China market (nine hotels, 3,128 rooms) and Asia Australasia (10 hotels, 2,613 rooms) including six hotel signings in India taking its total pipeline to 10,073 rooms.

Across the region there were 18 Holiday Inn Express signings, more than double the number for this brand in 2009, indicating the potential for midscale growth in the region. In Vietnam two new Holiday Inn resorts were signed in the prime beachfront locations of Cam Ranh Bay and Phu Quoc. There were also 12 Crowne Plaza signings, including the Crowne Plaza Lumpini Park in Bangkok.

Seasonality

Although the performance of individual hotels and geographic markets might be highly seasonal due to a variety of factors such as the tourist trade and local economic conditions, the geographical spread of the Group s hotels in 100 countries and territories and the relative stability of the income stream from franchising and management activities, diminishes, to some extent, the effect of seasonality on the results of the Group.

Competition

The Group s hotels compete with a wide range of facilities offering various types of lodging options and related services to the public. The competition includes several large and moderate sized hotel chains offering upper, mid and lower priced accommodation and also includes independent hotels in each of these market segments, particularly outside of North America where the lodging industry is much more fragmented. Major hotel chains which compete with the Group include Marriott International, Inc., Starwood Hotels & Resorts Worldwide, Inc., Choice Hotels International, Inc., Best Western International, Inc., Hilton Hotels Corporation, Wyndham Worldwide Corporation, Four Seasons Hotels Inc. and Accor S.A. The Group also competes with non-hotel options, such as timeshare offerings and cruises.

RevPAR

The following tables present RevPAR statistics for the year ended December 31, 2010 and a comparison to 2009. RevPAR is a meaningful indicator of performance because it measures period-over-period change in rooms revenue for comparable hotels. RevPAR is calculated by dividing rooms revenue for comparable hotels by room nights available to guests for the period.

Franchised, managed, owned and leased statistics are for comparable hotels, and include only those hotels in the Group s system at December 31, 2010 and franchised, managed, owned or leased by the Group since January 1, 2009.

Regulation

Both in the United Kingdom and internationally, the Group s hotel operations are subject to regulation, including health and safety, zoning and similar land use laws as well as regulations that influence or determine wages, prices, interest rates, construction procedures and costs.

TRADEMARKS

Group companies own a substantial number of service brands upon which it is dependent and the Group believes that its significant trademarks are protected in all material respects in the markets in which its brands currently operate.

PROPERTY, PLANT AND EQUIPMENT

Group companies own and lease properties throughout the world, principally hotels but also offices. The table below analyzes the net book value of the Group s property, plant and equipment at December 31, 2010. Approximately 45% of hotel properties by value were directly owned, with 50% held under leases having a term of 50 years or longer.

Net book value at December 31, 2010	Americas	EMEA	Asia Pacific	Total
		($ million)		
Land and buildings	495	523	317	1,335
Fixtures, fittings and equipment	119	146	90	355
	614	669	407	1,690

Approximately 85% of the net book value relates to the top five owned and leased hotels (in terms of value) of a total of 15 hotels, including $183 million relating to assets held under finance leases.

There were no assets classified as held for sale at December 31, 2010. Subsequent to December 31, 2010, four hotels, including the InterContinental Barclay in New York, met the held for sale criteria of IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Three of the properties are located in North America and one in Australia, and all are expected to be sold within the next 12 months. The fair value less estimated costs to sell for each property exceeds its net book value.

Contracts placed for expenditure on property, plant and equipment not included in the Consolidated Financial Statements at December 31, 2010 amounted to $10 million.

Charges over one hotel totaling $85 million exist as security provided to the Group s pension plans.

ENVIRONMENT

With over 4,400 hotels globally and almost 1,300 in the pipeline, the Group has an opportunity to make a positive difference in the communities in which it operates.

As such the Group is committed to:

- Implementing sound environmental practices in the design, development and operation of its hotels;
- Encouraging the development and integration of sustainable technologies;
- Endeavoring to reduce its use of energy, water and re-use and recycle the resources consumed by its business wherever practical;
- Engaging its customers, colleagues, hotel owners, suppliers and contractors in its efforts to protect the environment;

Providing the training and resources required to meet its objectives;

Monitoring, recording and benchmarking its environmental performance on a regular basis;

Making business decisions taking into account these commitments; and

Communicating its policies, practices and programs to all its stakeholders.

Corporate responsibility (CR) is central to the way the Group does business. Acting responsibly creates value for its brands while helping its hotels to manage costs, drive revenue and be prepared for the future. It also keeps the Group in tune with the thinking of its stakeholders, and supports its mission to champion and protect the Group s trusted reputation, which in turn reinforces trust in the Group s brands, builds competitive advantage and strengthens its corporate reputation.

The Group is focused on developing better ways to design, build and run its hotels. The Group s strategy is based on innovation and collaboration.

Table of Contents

Innovation the Group develops innovative concepts and technologies, and works closely with its partners to find creative solutions to the challenges it faces.

Collaboration the Group s stakeholders play a key role in helping it identify and tackle its priorities. Stakeholders include guests and corporate clients, hotel owners and franchise holders, local communities, employees, shareholders, suppliers, academic institutions, non-government organizations, governments and industry-specific institutions.

The Group s innovation and collaboration activities are focused on the areas that make most sense to its business, and where it believes it can make most difference, in its communities. The Group s CR strategy focuses on two main pillars:

Environment reduce energy use in the Group s owned and managed estate by between 6% and 10% over three years (2010-2012) via the use of Green Engage; and

Communities generate local economic opportunities, particularly through the IHG Academy , and provide support through disaster relief.

The Group chooses not simply to mitigate its greenhouse gas emissions through the purchase of voluntary carbon offsets. The Group believes that as a global organization with operations in many markets, its biggest contribution towards cutting greenhouse gas emissions will come from delivering real emission cuts through innovating new and better ways to design, build and run its hotels not through offsetting.

The Group s key programs include;

Green Engage Green Engage is the Group s innovative online sustainability management system, which launched in 2009 and, which defines the Group s vision of a sustainable hotel. Green Engage is designed to help hotels reduce energy costs, with hotels achieving energy savings of up to 25%. The system, which has recently received a LEED (Leadership in Energy and Environmental Design) endorsement, allows hotels to track, measure and report on their energy, water and waste, and recommends actions that will cut energy bills without compromising the guest experience. The Group is the world s first hotel company to be awarded LEED endorsement for an existing hotel program, further cementing its place as an industry leader in sustainability.

IHG Academy The IHG Academy is a public/private partnership with education providers and communi organizations that helps the Group create local economic opportunities.

The Innovation Hotel The Group s online innovation hotel takes visitors on a tour of the model hotel of the future, pointing out practical solutions and technology that can make its hotels greener and more efficient.

Over 1,000 of the Group s hotels are registered to use Green Engage and 2,000 individuals are registered as users. The Group s aim is to have its entire global system using it over time. In 2011 the Group will launch version 2.0 of Green Engage based on feedback from existing users. The new version retains all the features and benefits of the original but is easier to use with better benchmarking.

INTRODUCTION

Business and Overview

The Group is an international hotel business which owns a portfolio of established and diverse hotel brands, including InterContinental Hotels & Resorts, Crowne Plaza Hotels & Resorts, Holiday Inn Hotels & Resorts (including Holiday Inn Club Vacations), Holiday Inn Express, Staybridge Suites, Candlewood Suites and Hotel Indigo. At December 31, 2010, the Group had 4,437 franchised, managed, owned and leased hotels and 647,161

guest rooms in 100 countries and territories around the world. The Group also manages the hotel loyalty program, Priority Club Rewards.

The Group s revenue and earnings are derived from hotel operations, which include franchise and other fees paid under franchise agreements, management and other fees paid under management contracts, where the Group operates third-parties hotels, and operation of the Group s owned hotels.

Operational Performance

Revenue increased by 5.9% to $1,628 million and operating profit before exceptional items increased by 22.3% to $444 million during the year ended December 31, 2010.

The 2010 results reflect a return to RevPAR growth in a recovering global market, with an overall RevPAR increase of 6.2% led by occupancy. 2010 fourth quarter comparable RevPAR increased 8.0% compared to the same quarter in 2009, including a 2.4% increase in average daily rate. During 2010, average daily rate for the InterContinental and Holiday Inn brands increased by 1.3% and 0.5% respectively.

The $1 billion roll-out of the Holiday Inn brand family relaunch is substantially complete. By December 31, 2010, 2,956 hotels were converted globally under the relaunch program, representing 89% of all Holiday Inn hotels. The required improvement in quality standards contributed to the removal of a total of 35,262 rooms from the Group s global system during 2010. In spite of this necessary reduction, the closing global room count was 647,161 rooms, in line with 2009 levels.

The performance of the Group is evaluated primarily on a regional basis. The regional operations are split by business model: franchise agreement, management contract, and owned and leased operations. All three income types are affected by occupancy and room rates achieved by hotels, the ability to manage costs and the change in the number of available rooms through acquisition, development and disposition. Results are also impacted by economic conditions and capacity. The Group s segmental results are shown before exceptional operating items, interest expense, interest income and income taxes.

CRITICAL ACCOUNTING POLICIES

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and costs and expense during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those relating to revenue recognition, bad debts, investments, property, plant and equipment, goodwill and intangible assets, income taxes, guest program liability, self insurance claims payable, restructuring costs, retirement benefits and contingencies and litigation.

Management bases its estimates and judgments on historical experience and on other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions and conditions.

The Group s critical accounting policies are set out below.

Revenue recognition

Revenue is the gross inflow of economic benefits received and receivable by the Group on its own account where those inflows result in increases in equity.

Revenue is derived from the following sources: franchise fees; management fees; owned and leased properties and other revenues which are ancillary to the Group s operations, including technology fee income.

Generally, revenue represents sales (excluding VAT and similar taxes) of goods and services, net of discounts, provided in the normal course of business and recognized when services have been rendered. The following is a description of the composition of revenues of the Group.

Franchise fees received in connection with the license of the Group s brand names, usually under long-term contracts with the hotel owner. The Group charges franchise royalty fees as a percentage of room revenue. Revenue is recognized when earned and realized or realizable under the terms of the agreement.

Management fees earned from hotels managed by the Group, usually under long-term contracts with the hotel owner. Management fees include a base fee, which is generally a percentage of hotel revenue, and an incentive fee, which is generally based on the hotel s profitability or cash flows. Revenue is recognized when earned and realized or realizable under the terms of the contract.

Owned and leased primarily derived from hotel operations, including the rental of rooms and food and beverage sales from owned and leased hotels operated under the Group s brand names. Revenue is recognized when rooms are occupied and food and beverages are sold.

In addition to management or franchise fees, hotels within the IHG system pay cash assessments and contributions which are collected for specific use within the System Fund (the Fund). The Fund also receives proceeds from the sale of Priority Club Rewards points. The Group exerts significant influence over the operation of the Fund, however, the Fund is managed for the benefit of hotels in the system with the objective of driving revenues for the hotels. The Fund is used to pay for marketing, the Priority Club Rewards loyalty program and the global reservations system. The Fund is planned to operate at breakeven with any short-term timing surplus or deficit carried in the Consolidated statement of financial position within working capital. As all Fund income is designated for specific purposes and does not result in a profit or loss for the Group, the revenue recognition criteria as outlined in the accounting policy above are not met and therefore the income and expenses of the Fund are not included in the Consolidated income statement. Financial information relating to the Fund is included in Note 31 of Notes to the Consolidated Financial Statements.

Goodwill, intangible assets, and property, plant and equipment

Goodwill arising on acquisitions prior to October 1, 1998 was eliminated against equity. From October 1, 1998 to December 31, 2003, acquired goodwill was capitalized and amortized over a period not exceeding 20 years. Since January 1, 2004, goodwill continued to be capitalized but amortization ceased as at that date, replaced by an impairment review on an annual basis or more frequently if there are indicators of impairment. The annual review is performed in the fourth quarter. Goodwill is allocated to cash-generating units for impairment testing purposes.

Intangible assets and property, plant and equipment are capitalized and amortized over their expected useful lives, and reviewed for impairment when events or circumstances indicate that the carrying value may not be recoverable. Assets that do not generate independent cash flows are combined into cash-generating units.

The impairment testing of individual assets or cash-generating units requires an assessment of the recoverable amount of the asset or cash-generating unit. If the carrying value of the asset or cash-generating unit exceeds its estimated recoverable amount, the asset or cash-generating unit is written down to its recoverable amount. Recoverable amount is the greater of fair value less cost to sell and value in use. Value in use is assessed based on estimated future cash flows discounted to their present value using a pre-tax discount rate that is based on the Group s weighted average cost of capital adjusted to reflect the risks specific to the business model and territory of the cash-generating unit or asset being tested. The outcome of such an assessment is subjective, and the result sensitive to the assumed future cashflows to be generated by the cash-generating units or assets and discount rates applied in calculating the value in use. Any impairment arising is charged to the income statement.

Following the full impairment of Americas managed goodwill in 2009, the remaining balance of goodwill of $92 million at December 31, 2010, relates to Asia Australasia franchised and managed operations. Given the substantial valuation headroom relating to this goodwill, management believe that the carrying value of the

cash-generating unit would only exceed its recoverable amount in the event of highly unlikely changes in the key assumptions.

During 2010, the Group recognized total impairment charges of $7 million across two asset categories as follows:

Property, plant and equipment $6 million in respect of one hotel in the Americas; and

Other financial assets $1 million in respect of two equity investments in North America.

Table of Contents

The hotel impairment charge was measured by reference to value in use calculations using a pre-tax discount rate of 11.8%. Following the impairment charge, the hotel had a net book value of $4 million at December 31, 2010.

The equity investments were impaired following significant and prolonged declines in their fair value below cost. Following the impairment charges, the combined investments had a net book value of $5 million.

Income taxes

The Group provides for deferred tax in accordance with IAS 12 Income Taxes in respect of temporary differences between the tax base and carrying value of assets and liabilities including accelerated capital allowances, unrelieved tax losses, unremitted profits from overseas where the Group does not control remittance, gains rolled over into replacement assets, gains on previously revalued properties and other short-term temporary differences. Deferred tax assets are recognized to the extent that it is regarded as probable that the deductible temporary differences can be realized. The Group estimates deferred tax assets and liabilities based on current tax laws and rates, and in certain cases, business plans, including management s expectations regarding the manner and timing of recovery of the related assets. Changes in these estimates may affect the amount of deferred tax liabilities or the valuation of deferred tax assets.

Provisions for tax contingencies require judgments on the expected outcome of tax exposures which may be subject to significant uncertainty, and therefore the actual results may vary from expectations resulting in adjustments to contingencies and cash tax settlements. During 2010, exceptional provision releases of $7 million were made in relation to tax matters which have been settled or in respect of which the relevant statutory limitation period has expired.

Loyalty program

The hotel loyalty program, Priority Club Rewards enables members to earn points, funded through hotel assessments, during each qualifying stay and redeem the points at a later date for free accommodation or other benefits. The future redemption liability is included in trade and other payables and is estimated using eventual redemption rates determined by actuarial methods and points values. Actuarial gains and losses on the future redemption liability are borne by the System Fund and any resulting changes in the liability would correspondingly adjust the amount of short-term timing differences held in the Group statement of financial position. The future redemption liability amounted to $531 million at December 31, 2010.

Pensions and other post-employment benefit plans

Accounting for pensions and other post-employment benefit plans requires the Group to make assumptions including, but not limited to, future asset returns, discount rates, rates of inflation, life expectancies and health care costs. The use of different assumptions could have a material effect on the accounting values of the relevant assets and liabilities which could result in a material change to the cost of such liabilities as recognized in the income statement over time. These assumptions are subject to periodic review. A sensitivity analysis to changes in various assumptions is included in Note 3 of Notes to the Consolidated Financial Statements.

OPERATING RESULTS

Accounting Principles

The following discussion and analysis is based on the Consolidated Financial Statements of the Group, which are prepared in accordance with IFRS.

For the year ended December 31, 2010 the results include exceptional items totaling a net charge of $4 million (2009 $80 million, 2008 $85 million). For comparability of the periods presented, some performance indicators in this Operating and financial review and prospects discussion have been calculated after eliminating these exceptional items. Such indicators are prefixed with adjusted . An analysis of exceptional items is included in Note 5 of Notes to the Consolidated Financial Statements.

Year ended December 2010 compared with year ended December 2009

Revenue increased by 5.9% to $1,628 million and operating profit before exceptional items increased by 22.3% to $444 million during the year ended December 31, 2010.

In 2010, the InterContinental Buckhead, Atlanta and the Holiday Inn Lexington were sold for $105 million and $5 million, respectively, with proceeds used to reduce net debt. These disposals resulted in a reduction in owned and leased revenue and operating profit of $19 million and $4 million, respectively, compared to 2009.

The average US dollar exchange rate to sterling strengthened during 2010 (2010 $1=£0.65, 2009 $1=£0.64). Translated at constant currency, applying 2009 exchange rates, revenue increased by 6.0% and operating profit increased by 22.3%.

Exceptional operating items

Exceptional operating items of $7 million consisted of a litigation provision of $22 million, an impairment charge of $7 million, severance costs of $4 million and costs of $9 million to complete the Holiday Inn brand family relaunch offset by gains of $35 million from the disposal of assets, including a $27 million profit on the sale of the InterContinental Buckhead, Atlanta.

Compared with the previous year, exceptional operating items in 2010 were significantly lower as 2009 was impacted by difficult trading which resulted in exceptional operating costs of $373 million, primarily due to the recognition of impairment charges, an onerous contract provision and the cost of office closures.

Exceptional operating items are treated as exceptional by reason of their size or nature and are excluded from the calculation of adjusted earnings per ordinary share in order to provide a more meaningful comparison of performance.

Net financial expenses

Net financial expenses increased from $54 million in 2009 to $62 million in 2010, as the effect of the £250 million 6% bond offset lower net debt levels and low interest rates. Average net debt levels in 2010 were lower than 2009 primarily as a result of improved trading, the disposal of the InterContinental Buckhead, Atlanta and a continuing focus on cash management.

Financing costs included $2 million (2009 $2 million) of interest costs associated with Priority Club Rewards where interest is charged on the accumulated balance of cash received in advance of the redemption points awarded. Financing costs in 2010 also included $18 million (2009 $18 million) in respect of the InterContinental Boston finance lease.

Taxation

The effective rate of tax on the combined profit from continuing and discontinued operations, excluding the impact of exceptional items, was 26% (2009 5%). The rate was particularly low in 2009 due to the impact of prior year items relative to a lower level of profit than in 2010. By excluding the impact of prior year items, which are included wholly within continuing operations, the equivalent tax rate would be 35% (2009 42%). This rate is higher than the UK statutory rate of 28% due mainly to certain overseas profits (particularly in the US) being subject to statutory rates higher than the UK statutory rate, unrelieved foreign taxes and disallowable expenses.

Taxation within exceptional items totaled a credit of $1 million (2009 $287 million) in respect of continuing operations. This represented the release of exceptional provisions relating to tax matters which were settled during 2010, or in respect of which the statutory limitation period had expired, together with tax relief on exceptional costs, tax arising on disposals and also tax relating to an internal reorganization in 2010.

Net tax paid in 2010 totaled $68 million (2009 $2 million) including $4 million paid (2009 $1 million) in respect of disposals. Tax paid is lower than the current period income tax charge, primarily due to the receipt of refunds in respect of prior years, together with provisions for tax for which no payment of tax was made.

Earnings per ordinary share

Basic earnings per ordinary share in 2010 was 97.2 cents, compared with 74.7 cents in 2009. Adjusted earnings per ordinary share was 98.6 cents, against 102.8 cents in 2009.

(1) Operating profit before exceptional operating items does not include exceptional operating items for all periods presented. Exceptional operating items (charge unless otherwise noted) by region were Americas $8 million (2009 $301 million); EMEA credit of $3 million (2009 $22 million); Asia Pacific $2 million (2009 $7 million); and Central $nil (2009 $43 million).

Table of Contents

Revenue increased by 5.9% to $1,628 million and operating profit before exceptional items increased by 22.3% to $444 million during the year ended December 31, 2010.

The 2010 results reflect a return to RevPAR growth in a recovering global market, with an overall RevPAR increase of 6.2% led by occupancy. 2010 fourth quarter comparable RevPAR increased 8.0% compared to the same quarter in 2009, including a 2.4% increase in average daily rate. During 2010, average daily rate for the InterContinental and Holiday Inn brands increased by 1.3% and 0.5% respectively.

The $1 billion roll-out of the Holiday Inn brand family relaunch is substantially complete. By December 31, 2010, 2,956 hotels were converted globally under the relaunch program, representing 89% of all Holiday Inn hotels. The required improvement in quality standards contributed to the removal of a total of 35,262 rooms from the Group s global system during 2010. In spite of this necessary reduction, the Group s closing global room count was 647,161 rooms, in line with 2009 levels.

The ongoing focus on efficiency across the Group largely sustained underlying cost reductions achieved in 2009. Regional and central overheads increased by $49 million, from $209 million in 2009 to $258 million in 2010, driven by incremental performance based incentive costs of $47 million and charges of $4 million relating to a self-insured healthcare benefit plan.

Primarily as a result of these actions taken across the Group to improve efficiencies, operating profit margin was 35.7%, up 1.1 percentage points on 2009, after adjusting for owned and leased hotels, Americas managed leases, significant liquidated damages received in 2009, an onerous contract provision established in 2009 and non-payment of performance based incentive costs in 2009.

In 2010 the InterContinental Buckhead, Atlanta and the Holiday Inn Lexington were sold for $105 million and $5 million respectively, with proceeds used to reduce net debt. These disposals resulted in a reduction in owned and leased revenue and operating profit of $19 million and $4 million, respectively, compared to 2009.

Revenue and operating profit before exceptional items increased by $35 million to $807 million (4.5%) and $81 million to $369 million (28.1%) respectively.

Franchised revenue increased by $28 million to $465 million (6.4%) and operating profit by $28 million to $392 million (7.7%) compared to 2009. Royalties growth was driven by RevPAR gains across all brands and by a 4.5% RevPAR increase in total. While franchised hotel and room count at December 31, 2010 was lower than at

Table of Contents

December 31, 2009, the weighting of removals towards the end of 2010 meant that daily rooms available actually increased in 2010 from 2009 levels, further boosting royalty growth. Non royalty revenues and profits remained flat on 2009, as real estate financing for new activity remained constrained.

Managed revenue increased by $9 million to $119 million (8.2%) in line with the RevPAR growth of 7.5%. Operating profit increased by $61 million to $21 million from a $40 million loss in 2009. The loss in 2009 included a charge for priority guarantee shortfalls relating to a portfolio of hotels. A provision for onerous contracts was established on December 31, 2009 and further payments made during 2010 were charged against this provision. Excluding the effect of the provision, managed operating profit increased by $3 million, driven by RevPAR growth of 23.3% in Latin America.

Results from managed operations included revenues of $71 million (2009 $71 million) and operating profit of $1 million (2009 nil) from properties that are structured, for legal reasons, as operating leases but with the same characteristics as management contracts.

Owned and leased revenue declined by $2 million to $223 million (0.9%) and operating profit increased by $2 million to $13 million (18.2%). Improving trading conditions led to a RevPAR increase of 6.4%, including an 8.1% increase at the InterContinental New York Barclay. The disposal of the InterContinental Buckhead, Atlanta in July 2010 and its subsequent conversion to a management contract resulted in reductions of $15 million in revenue and $4 million in operating profit when compared to 2009. The Holiday Inn Lexington was also sold in March 2010, which led to a $4 million reduction in revenue and no reduction in operating profit compared to 2009. Excluding the impact of these two disposals, owned and leased revenue increased by $17 million (9.0%) and operating profit by $6 million (150.0%) compared to 2009.

Regional overheads increased by $10 million (21.3%) from $47 million in 2009 to $57 million in 2010. The increase was attributable primarily to performance based incentives and $4 million from increased claims in a self-insured healthcare benefit plan.

At constant currency, revenue increased by $30 million (7.6%) and operating profit before exceptional items increased by $3 million (2.4%). Excluding $3 million of liquidated damages received in 2009, revenue at constant currency increased by 8.4% and operating profit by 4.8%.

Franchised revenue and operating profit decreased by $2 million to $81 million (2.4%) and $1 million to $59 million (1.7%) respectively compared to 2009. At constant currency, revenue increased by 1.2% and operating profit increased by 1.7% respectively. Excluding the impact of $3m in liquidated damages received in 2009, revenue and operating profit at constant currency increased by 5.0% and 7.0% respectively. The underlying increase was driven by a RevPAR increase of 7.6%. Revenues associated with new signings, relicensing and terminations decreased compared to 2009 as real estate activity remained slow.

EMEA managed revenue increased by $11 million to $130 million (9.2%) and operating profit decreased by $3 million to $62 million (4.6%) compared to 2009. At constant currency, revenue increased by 10.9% while operating profit declined by 3.1%. Positive RevPAR growth in key European cities and markets, including growth of 14.8% in the Group s managed properties in Germany, was offset by unfavorable trading across much of the Middle East where RevPAR declined overall by 0.7%. At the year end, a provision of $3 million was made for future estimated cash outflows relating to guarantee obligations for one hotel.

In the owned and leased estate, revenue increased by $8 million to $203 million (4.1%) and operating profit increased by $7 million to $40 million (21.2%), or at constant currency, revenue and operating profit increased by 8.2% and 27.3% respectively. RevPAR increase of 11.9% benefited from average daily rate growth of 6.5% across the year. The InterContinental London Park Lane and InterContinental Paris Le Grand delivered strong year-on-year RevPAR growth of 15.0% and 11.5% respectively. Margins improved in both these hotels as the focus remained on cost control.

Regional overheads increased by $5 million to $36 million (16.1%) compared to 2009, mainly attributable to performance based incentive costs.

Asia Pacific revenue and operating profit before exceptional items increased by $58 million to $303 million (23.7%) and by $37 million to $89 million (71.2%) respectively compared to 2009.

Continued strong economic growth in the region was given a further boost by the World Expo held in Shanghai from May to October 2010. Resulting RevPAR growth in key Chinese cities was exceptional, with increases of 55.9% and 29.9% in Shanghai and Beijing respectively.

Franchised revenue increased by $1 million to $12 million (9.1%) and operating profit increased by $2 million to $7 million (40.0%).

Table of Contents

Managed revenue increased by $50 million to $155 million (47.6%) and operating profit increased by $29 million to $73 million (65.9%) compared to 2009. In addition to strong comparable RevPAR performance, there was a positive contribution from recently opened hotels, with a 9% room increase in the size of the Asia Pacific managed estate during 2010 following a 10% increase in 2009, and a $4 million operating profit increase due to the collection of old or previously provided for debts.

In the owned and leased estate, revenue increased by $7 million to $136 million (5.4%) and operating profit by $5 million to $35 million (16.7%). These results were driven by the InterContinental Hong Kong, where RevPAR increased 15.3% during 2010.

Regional overheads decreased by $1 million to $26 million (3.7%), with an increase in performance-based incentive costs offset by the effect of the 2009 restructuring.

In the year ended December 31, 2010, System Fund income increased by 4.2% to $1.1 billion primarily as a result of growth in hotel room revenues and marketing programs. Sale of Priority Club Rewards points declined by 20.3% due to the impact of a special promotional program in 2009.

In addition to management or franchise fees, hotels within the Group s system pay cash assessments and contributions which are collected by the Group for specific use within the Fund. The Fund also receives proceeds from the sale of Priority Club Rewards points. The Fund is managed for the benefit of hotels in the system with the objective of driving revenues for the hotels. The Fund is used to pay for marketing, the Priority Club Rewards loyalty program and the global reservation system. The operation of the Fund does not result in a profit or loss for the Group and consequently the revenues and expenses of the Fund are not included in the Group Income Statement.

Highlights for the year ended December 31, 2009

The following is a discussion of the year ended December 31, 2009 compared with the year ended December 31, 2008.

Group results

Revenue decreased by 18.9% to $1,538 million and operating profit before exceptional items decreased by 33.9% to $363 million during the year ended December 31, 2009. The results reflect the challenging global

economic environment faced by the Group throughout 2009. Group RevPAR fell 14.7% during the year, with declines in both occupancy and rate. However, stabilizing occupancy levels in the fourth quarter indicated a slight rebound in trading conditions which resulted in a RevPAR decline of 10.9% compared to the fourth quarter in 2008. Furthermore, the Group continued to achieve organic growth during the year, increasing its net room count by 4.3% or 26,828 rooms. The Group also made significant progress in the roll-out of the Holiday Inn brand family relaunch, with 1,697 hotels converted globally at December 31, 2009.

In the year, the Group took a number of actions to improve efficiency and reduce costs which led to a reduction in regional and central overheads of $95 million, from $304 million in 2008 to $209 million in 2009, including a $23 million favorable movement in foreign exchange.

Americas

Revenue and operating profit before exceptional items decreased by 19.8% to $772 million and 38.1% to $288 million respectively compared to 2008. Excluding the receipt of significant liquidated damages of $13 million in 2008, revenue and operating profit declined by 18.7% and 36.3% respectively.

The region experienced challenging trading conditions throughout the year leading to RevPAR, revenue and profit declines across all ownership types. Despite RevPAR declines, the region s US comparable hotels demonstrated outperformance relative to the US market.

Franchised revenue and operating profit decreased by 11.7% to $437 million and 14.6% to $364 million respectively, compared to 2008. This decrease was predominantly driven by a fall in royalty revenues as a consequence of a RevPAR decline of 14.3%. Revenues also included the impact of a decline in real estate activity leading to lower fees associated with activities such as the signing of new hotels and conversions. An increase in overall room supply partially offset the decline in revenue and profit.

Managed revenues decreased by 34.5% to $110 million during the year or, by 29.0% excluding the impact of $13 million in liquidated damages received in 2008. All brands were impacted by the economic downturn which resulted in RevPAR declines of 17.8%. Operating profit declined by $91 million ($78 million excluding liquidated damages) resulting in a loss of $40 million. The loss was due to the RevPAR driven revenue declines, the Group funding owner s priority return shortfalls on a number of hotels managed by one owner and certain guarantee payments. At 2009 year end, an exceptional charge of $91 million was recognized comprising the write off of a deposit related to the priority return contracts and the total estimated net cash outflows to this owner under the guarantee. Therefore, future payments to this owner will be charged against the provision and will not impact operating results. The managed results also included the impact of provisions recognized following the devaluation of the Venezuelan currency and the potential impact of asset nationalization.

Results from managed operations include revenues of $71 million (2008 $88 million) and operating profit of $nil (2008 $6 million) from properties that are structured, for legal reasons, as operating leases but with the same characteristics as management contracts.

Owned and leased revenue declined by 25.0% to $225 million and operating profit decreased by 80.0% to $11 million. Underlying trading was driven by RevPAR declines, including the InterContinental brand with a decline of 28.2%. Trading at the InterContinental New York Barclay, in particular, was severely impacted by the collapse of the financial markets. Results also included the impact of the sale of the Holiday Inn Jamaica, sold in August 2008, which led to a reduction in revenue and operating profit of $16 million and $2 million respectively when compared to 2008.

As a result of the declining real estate market the InterContinental Buckhead, Atlanta and Staybridge Suites Denver Cherry Creek no longer met the criteria for designation as held for sale assets and consequently the results of these hotels are no longer categorized as discontinued operations and comparative figures have been re-presented accordingly.

Regional overheads declined 29.9% during the year, from $67 million to $47 million. The favorable movement was driven by increased efficiencies and the impact of an organizational restructuring undertaken to further align the regional structure with the requirements of the Group s owners and hotels.

EMEA

Revenue and operating profit before exceptional items decreased by 23.4% to $397 million and 25.7% to $127 million, respectively. At constant currency, revenue and operating profit before exceptional items decreased by 16.8% and 22.8%, respectively. The region received significant liquidated damages totaling $16 million in 2008 and $3 million in 2009. Excluding these receipts, revenue declined by 21.5% and operating profit before exceptional items declined by 20.0%, and at constant currency by 14.7% and 16.8%, respectively.

During the year, RevPAR declines were experienced across the region, with declines in key markets ranging from 9.8% in the UK to 17.8% in Continental Europe.

Franchised revenue and operating profit decreased by 24.5% to $83 million and 20.0% to $60 million, respectively, or at constant currency by 18.2% and 13.3%, respectively. Excluding the impact of $3 million in liquidated damages received in 2009 and $7 million received in 2008, revenue and operating profit declined by 22.3% and 16.2% respectively, or at constant currency by 15.5% and 8.8% respectively. The decline was principally driven by RevPAR declines across Continental Europe and the UK, partly offset by a 6% increase in room count.

EMEA managed revenue and operating profit decreased by 29.2% to $119 million and by 31.6% to $65 million, respectively, or at constant currency by 25.0% and 29.5%, respectively. Excluding the impact of $9 million in liquidated damages received in 2008, revenue and operating profit declined by 25.2% and 24.4%, respectively, or at constant currency by 20.8% and 22.1%, respectively. The results were driven by managed RevPAR declines of 14.9%.

Owned and leased revenue decreased by 18.8% to $195 million and operating profit decreased by 26.7% to $33 million, or at constant currency by 10.4% and 17.8% respectively. The InterContinental Paris Le Grand, in particular, was adversely impacted by the economic downturn as both business and leisure travel declined in Paris. However, trading at the InterContinental London Park Lane was more resilient, with RevPAR down just 1.7% during the year.

Regional overheads decreased by 29.5% to $31 million due to improved efficiencies and cost savings, as well as a favorable movement in foreign exchange of $6 million.

Asia Pacific

Asia Pacific revenue and operating profit before exceptional items decreased by 15.5% to $245 million and 23.5% to $52 million, respectively. Excluding the receipt of $4 million in significant liquidated damages in 2008, revenue and operating profit declined by 14.3% and 18.8% respectively. Despite RevPAR declines of 13.5%, the region s brands demonstrated outperformance relative to the market.

Franchised revenues and operating profit decreased by 38.9% to $11 million and by 37.5% to $5 million, respectively. Excluding the impact of $4 million liquidated damages received in 2008, revenue decreased by 21.4% and profit increased by $1 million or 25.0%. The decline in revenue was driven by lower RevPARs and the loss of royalties following the removal of six hotels (1,067 rooms) which did not meet IHG s brand and quality standards.

Managed revenue decreased by 7.1% to $105 million and operating profit decreased by 20.0% to $44 million. RevPAR across the Greater China managed estate declined 15.6%, primarily due to room oversupply in key Chinese cities, such as Beijing and trading upside in 2008 from the Olympic Games.

Owned and leased revenue decreased by 18.9% to $129 million and operating profit decreased by 30.2% to $30 million. These results were driven by the InterContinental Hong Kong, where RevPAR declined 22.2% during the year.

Regional overheads decreased by 28.9% to $27 million, due to the impact of regional restructuring and lower marketing costs associated with the ANA joint venture in Japan.

Central

During 2009, net central costs decreased by 32.9% from $155 million to $104 million. The significant reduction was driven by management actions to increase efficiencies and implement cost-saving measures across

the Group. Relative to 2008, the 2009 net central costs also benefited from a $16 million favorable movement in foreign exchange whilst the 2008 results included the receipt of a favorable $3 million insurance settlement.

System Fund

In the year ended December 31, 2009, System Fund income increased by 1.8% to $1.01 billion primarily as a result of the growth in system size and marketing programs.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Liquidity

The Group is primarily financed by a $1.6 billion syndicated bank facility which expires in May 2013 (the Syndicated Facility) and £250 million of public bonds which are repayable on December 9, 2016. Short-term borrowing requirements are met from drawings under bilateral bank facilities. Additional funding is provided by the 99-year finance lease on the InterContinental Boston.

The £250 million public bonds were issued on December 9, 2009 at a coupon of 6% and were initially priced at 99.465% of face value and are unsecured. Interest is payable annually on December 9, in each year commencing December 9, 2010 to the maturity date. Currency swaps were transacted at the same time the bonds were issued in order to swap its proceeds and interest flows into US dollars. The reasons for issuing the bonds were to diversify the Group s funding sources and extend the duration of a portion of its borrowings.

At December 31, 2010, total borrowings were $794 million, including the finance lease creditor of $206 million. The currency denomination of the borrowings was $303 million of US dollar denominated borrowings, $385 million of sterling denominated borrowings, $100 million of euro denominated borrowings and $6 million of borrowings denominated in other currencies, mainly Hong Kong dollars. The impact of currency swaps traded in December 2009 is to convert the sterling denominated borrowings above into US dollar denominated borrowings.

At December 31, 2010, total committed bank facilities amounted to $1,605 million of which $1,400 million were unutilized. Uncommitted facilities totaled $53 million. In the Group s opinion, the available facilities are sufficient for the Group s present requirements.

The Group held cash and short-term deposits at December 31, 2010 amounting to $78 million. Credit risk is minimized by operating a policy that generally restricts the investment of surplus cash to counterparties with an A credit rating or better or those providing adequate security. Limits are also set on the amounts invested with individual counterparties. Notwithstanding that counterparties must have an A credit rating or better, during periods of significant financial market turmoil, counterparty exposure limits are significantly reduced and counterparty credit exposure reviews are broadened to include the relative placing of credit default swap pricings. Most of the Group s surplus funds are held in the United Kingdom or United States and there are no material funds where repatriation is restricted as a result of foreign exchange regulations.

The Syndicated Facility contains two financial covenants: interest cover and net debt divided by earnings before interest, tax, depreciation and amortization (EBITDA). Net debt is calculated as total borrowings less cash and cash equivalents. The Group is in compliance with all of the financial covenants in its loan documents, none of which is expected to present a material restriction on funding in the near future.

Further details of exchange and interest rate risk and financial instruments are disclosed in Item 11. Quantitative and qualitative disclosures about market risk .

Cash From Operating Activities

Net cash from operating activities totaled $462 million for the year ended December 31, 2010 (2009 $432 million).

Cash flow from operating activities is the principal source of cash used to fund the ongoing operating expenses, interest payments, maintenance capital expenditure and dividend payments of the Group. The Group believes that

Table of Contents

the requirements of its existing business and future investment can be met from cash generated internally, disposition of assets and external finance expected to be available to it.

Cash From Investing Activities

Net cash inflows from investing activities totaled $36 million (2009 $114 million outflow) comprising proceeds (net of tax paid) from the disposal of hotels and investments of $131 million (2009 $34 million) and capital expenditure of $95 million (2009 $148 million). Proceeds in 2010 included $105 million from the sale of the InterContinental Buckhead, Atlanta. Capital expenditure in 2009 included $65 million for the acquisition of the Hotel Indigo San Diego.

Cash Used in Financing Activities

Net cash used in financing activities totaled $447 million (2009 $362 million), including a reduction in gross borrowings of $292 million (2009 $249 million). Returns to shareholders, comprising dividend payments, totaled $121 million (2009 $118 million). The share repurchase program was suspended in 2008.

Overall net debt decreased during the year by $349 million to $743 million at December 31, 2010.

The Group had committed contractual capital expenditure of $14 million at December 31, 2010 (2009 $9 million).

Off-Balance Sheet Arrangements

At December 31, 2010, the Group had no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Group s financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual Obligations

The Group had the following contractual obligations outstanding as of December 31, 2010:

	Total amounts committed	Less than 1 year	1-3 Years	3-5 years	After 5 years
			($ million)		
Long-term debt[(i)(ii)]	621	1	205		415
Interest payable[(ii)]	166	32	56	52	26
Finance lease obligations[(iii)]	3,428	16	32	32	3,348
Operating lease obligations	505	50	76	56	323
Agreed pension scheme contributions[(iv)]	152	41	17		94
Capital contracts placed	14	14			
	4,886	154	386	140	4,206

(i) Repayment period classified according to the related facility maturity date.

(ii) Including the impact of derivatives.

(iii) Represents the minimum lease payments related to the 99-year lease on the InterContinental Boston. Payments under the lease step up at regular intervals over the lease term.

(iv) Primarily relates to the recovery plan agreed with trustees of the InterContinental Hotels UK Pension Plan (see below).

In limited cases, the Group may provide performance guarantees to third-party hotel owners to secure management contracts. Forecast payments of $32 million have been provided for in the financial statements and the maximum unprovided exposure under such guarantees was $90 million at December 31, 2010.

As of December 31, 2010, the Group had outstanding letters of credit of $54 million mainly relating to self insurance programs.

The Group may guarantee loans made to facilitate third-party ownership of hotels in which the Group has an equity interest and also a management contract. As of December 31, 2010, there were no such guarantees in place.

The Group has given warranties in respect of the disposal of certain of its former subsidiaries and hotels. It is the view of the Directors that, other than to the extent that liabilities have been provided for in the Consolidated Financial Statements, such warranties are not expected to result in material financial loss to the Group.

Pension Plan Commitments

The Group operates the following material defined benefits plans: the InterContinental Hotels UK Pension Plan and, in the United States, the InterContinental Hotels Pension Plan and the InterContinental Hotels non-qualified plans.

On an IAS 19 Employee Benefits basis, the InterContinental Hotels UK Pension Plan had a deficit of $34 million at December 31, 2010, including the tax that would be deducted at source in respect of a refund of surplus taking into account amounts payable under funding commitments. The defined benefits section of this Plan is closed to new members. In addition, there are unfunded UK pension arrangements for certain members affected by the lifetime allowance; at December 31, 2010, these arrangements had an IAS 19 deficit of $55 million. In 2011, the Group expects to make regular contributions to the UK pension plan of £5 million.

The most recent actuarial valuation of the InterContinental Hotels UK Pension Plan was carried out as of March 31, 2009 and showed a deficit of £129 million on a funding basis. Under the recovery plan agreed with the trustees, the Group aims to eliminate this deficit by March 2017 through additional Company contributions of up to £100 million and projected investment returns. The agreed additional contributions comprise three annual payments of £10 million; £10 million was paid in August 2010 and two further payments of £10 million are due on or before July 31, 2011 and 2012, together with further payments related to the disposal of hotels (7.5% of net sales proceeds) and growth in the Group s EBITDA above specified targets. If required in 2017, a top-up payment will be made to bring the total additional contributions up to £100 million. The InterContinental Hotels UK Pension Plan is formally valued every three years and future valuations could lead to changes in the amounts payable beyond March 2012. In 2011, the Group expects to make additional contributions of £14 million under these arrangements with further amounts payable if there are any hotel disposals.

The US-based plans are closed to new members and pensionable service no longer accrues for current employee members. On an IAS 19 basis, at December 31, 2010 the plans had a combined deficit of $82 million. In 2011, the Group expects to make contributions to these plans of $10 million.

The Group is exposed to the funding risks in relation to the defined benefit sections of the InterContinental Hotels UK Pension Plan and the US-based InterContinental Hotels Pension Plan, as explained in Item 3. Key information Risk factors .

ITEM 6. *DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES*

DIRECTORS AND SENIOR MANAGEMENT

COMPENSATION

In fiscal 2010, the aggregate compensation (including pension contributions, bonus and awards under the long term incentive plans) of the directors and officers of the Company was $23.6 million. The aggregate amount set aside or accrued by the Company in fiscal 2010 to provide pension retirement or similar benefits for those individuals was $0.6 million. An amount of $9.4 million was charged in fiscal 2010 in respect of bonuses payable to them under performance related cash bonus schemes and long term incentive plans.

Note 3 of Notes to the Financial Statements sets out the individual compensation of the directors. The following are details of the Company s principal share schemes, in which the directors of the Company participated during the period.

Annual Bonus Plan

The IHG Annual Bonus Plan (ABP), enables eligible employees, including Executive Directors, to receive all or part of their bonus in the form of shares together with, in certain cases, a matching award of free shares up to half the deferred amount. The bonus and any matching shares awarded are released on the third anniversary of the award date. The bonuses in 2007 were eligible for matching shares, all of which were released on the third anniversary of the award date. In 2007, participants could defer up to 100% of the total annual bonus, with the deferred amount being accounted for as a share-based payment. Under the terms of the 2008, 2009 and 2010 plans a fixed percentage of the bonus is awarded in the form of shares with no voluntary deferral and no matching shares.

The awards in all of the plans are conditional on the participants remaining in the employment of a participating company or leaving for a qualifying reason as set out in the plan rules. Participation in the ABP is at the discretion of the Remuneration Committee. The number of shares is calculated by dividing a specific percentage of the participant s annual performance-related bonus by the middle market quoted prices on the three consecutive dealing days immediately preceding the date of grant. A number of executives participated in the plan during the year, however, no conditional rights over shares were awarded to participants.

Long Term Incentive Plan

The Long Term Incentive Plan (LTIP) allows Executive Directors and eligible employees to receive share awards, subject to the satisfaction of performance conditions, set by the Remuneration Committee, which are normally measured over a three year period. Awards are normally made annually and, except in exceptional circumstances, will not exceed three times salary for Executive Directors and four times salary in the case of other eligible employees. During 2010, conditional rights over 2,602,773 shares were awarded to employees under the plan. The plan provides for the grant of nil cost options to participants as an alternative to conditional share awards.

Executive Share Option Plan

For options granted, the option price is not less than the market value of an ordinary share, or the nominal value if higher. The market value is the quoted price on the business day preceding the date of grant, or the average of the middle market quoted prices on the three consecutive dealing days immediately preceding the date of grant. A performance condition has to be met before options can be exercised. The performance condition is set by the

Remuneration Committee. The plan was not operated during 2010 and no options were granted in the year under the plan. The latest date that any options may be exercised is April 4, 2015.

Options and Ordinary Shares held by Directors

Details of the directors   interests in the Company   s shares are set out on page 62 and pages F-46 to F-48.

BOARD PRACTICES

Contracts of Service

The Remuneration Committee s policy is for Executive Directors to have rolling contracts with a notice period of 12 months. All new appointments are intended to have 12-month notice periods. However, on occasion, to complete an external recruitment successfully, a longer initial notice period reducing to 12 months may be used.

Andrew Cosslett, James Abrahamson, Kirk Kinsell and Richard Solomons have service agreements with a notice period of 12 months.

David Webster s appointment as Non-executive Chairman, effective from January 1, 2004, is subject to six months notice.

Non-executive director, Ralph Kugler signed a letter of appointment effective from the listing of IHG in April 2003. This was renewed, effective from completion of the capital reorganization of the Company and the listing of new IHG shares on June 27, 2005. David Kappler signed a letter of appointment effective from his date of original appointment to the Board on June 21, 2004. This was also renewed, effective from June 27, 2005. Jennifer Laing and Jonathan Linen signed letters of appointment effective from their appointment dates, respectively August 25, 2005 and December 1, 2005. Ying Yeh signed a letter of appointment effective from her appointment date of December 1, 2007. Graham Allan signed a letter of appointment effective from his appointment date of January 1, 2010.

Directors Contracts

Directors	Contract effective date	Unexpired term/ notice period
Andrew Cosslett	February 3, 2005	3 months
James Abrahamson	August 1, 2010	12 months
Kirk Kinsell	August 1, 2010	12 months
Richard Solomons	April 15, 2003	12 months

Each of Andrew Cosslett and Richard Solomons signed a letter of appointment, effective from completion of the capital reorganization of the Company and the listing of new IHG shares on June 27, 2005. The terms of each appointment were as set out in each executive director s original service agreement.

On March 16, 2011 the Company announced that Andrew Cosslett will step down as Chief Executive on June 30, 2011, and will be succeeded by Richard Solomons.

Richard Solomons signed a contract on March 16, 2011 relating to his employment as Chief Executive, effective from July 1, 2011.

See Note 3 of the Notes to the Consolidated Financial Statements for details of directors service contracts.

Payments on Termination

No provisions for compensation for termination following change of control, or for liquidated damages of any kind, are included in the current directors contracts. In the event of any early termination of an executive director s contract the policy is to seek to minimize any liability.

Upon retirement, and under certain other specified circumstances on termination of his employment, a director will become eligible to receive benefit from his participation in a Company pension plan. See Note 3 of Notes to the Consolidated Financial Statements for details of directors pension entitlements at December 31, 2010.

Committees

Each Committee of the Board has written terms of reference which are approved by the Board and which are subject to review each year.

Table of Contents

Executive Committee

The Executive Committee is chaired by the Chief Executive. It consists of the executive directors and the most senior executives from the Group and usually meets monthly. Its role is to consider and manage a range of important strategic and business issues facing the Group. It is responsible for monitoring the performance of the business. It is authorized to approve capital and revenue investment within levels agreed by the Board. It reviews and recommends to the Board the most significant investment proposals.

Audit Committee

The Audit Committee is chaired by David Kappler who has significant recent and relevant financial experience and is the Committee s financial expert. During 2010, the other Committee members were Graham Allan, Ralph Kugler and Jennifer Laing. All Audit Committee members are independent.

The Audit Committee s principal responsibilities are to:

- review the Group s public statements on internal control, risk management and corporate governance compliance prior to their consideration by the Board;
- review the Group s processes for detecting and addressing fraud, misconduct and control weaknesses and to consider the response to any such occurrence, including overseeing the process enabling the anonymous submission of concerns;
- review reports from management, internal audit and external audit concerning the effectiveness of internal control, financial reporting and risk management processes;
- review with management and the external auditor any financial statements required under UK or US legislation before submission to the Board;
- establish, review and maintain the role and effectiveness of the internal audit function, including overseeing the appointment of the Head of Global Internal Audit;
- assume responsibility for the appointment, compensation, resignation, dismissal and the overseeing of the external auditor, including review of the external audit, its cost and effectiveness;
- pre-approve non-audit work to be carried out by the external auditor and the fees to be paid for that work, along with the monitoring of the external auditor s independence; and
- oversee the Group s Code of Ethics and Business Conduct and associated procedures for monitoring adherence.

The Audit Committee discharges its responsibilities through a series of Committee meetings during the year at which detailed reports are presented for review. The Audit Committee commissions reports, either from external advisers, the Head of Global Internal Audit, or Group management, after consideration of the major risks to the Group or in response to developing issues. The Chief Financial Officer attends its meetings as do the external auditor and the Head of Global Internal Audit, both of whom have the opportunity to meet privately with the Audit Committee, in the absence of Group management, at the conclusion of each meeting.

All proposals for the provision of non-audit services by the external auditor are pre-approved by the Audit Committee or its delegated member, the overriding consideration being to ensure that the provision of non-audit services does not

impact the external auditor s independence and objectivity.

Remuneration Committee

The Remuneration Committee, chaired by Ralph Kugler, also comprises the following Non-Executive, directors: David Kappler, Jonathan Linen and Ying Yeh. The Remuneration Committee agrees, on behalf of the Board, all aspects of the remuneration of the Executive Directors and the Executive Committee members, and agrees the strategy, direction and policy for the remuneration of senior executives who have a significant influence over the Company s ability to meet its strategic objectives.

Nomination Committee

The Nomination Committee comprises the Chairman of the Board and all the Non-Executive Directors. It is chaired by the Chairman of the Board except when matters relating to this position are to be discussed, in which case

it is chaired by an independent Non-Executive Director. The Committee leads the process for Board appointments and nominates candidates for approval by the Board. The balance of skills, experience, independence and knowledge of Board members is evaluated in order to define the requirements for a particular appointment. The Committee generally engages external consultants to advise on candidates for Board appointments and appointments are made on merit, against objective criteria, including ability to commit time, and with due regard for the benefits of diversity, including gender. The Committee also has responsibility for succession planning and assists in identifying and developing the role of the Senior Independent Director.

During 2010 the Committee discussed succession planning for both the Executive Committee and the Board of Directors, considered and recommended new Executive Director appointments, which have now been implemented, and considered the appointment of an additional Non-Executive Director.

Corporate Responsibility Committee

The Corporate Responsibility Committee, chaired by Jennifer Laing, was established in February 2009. The other Committee member during 2010 was Ralph Kugler. Graham Allan joined the Committee in January 2011. Meetings are regularly attended by other members of the Board and Executive Committee. The Corporate Responsibility Committee ensures that the Company has in place the right policies, management and measurement systems to enable it to deliver against its strategy.

Disclosure Committee

The Disclosure Committee, chaired by the Group s Financial Controller, and comprising the Company Secretary and other senior executives, reports to the Chief Executive, the Chief Financial Officer and to the Audit Committee. Its duties include ensuring that information required to be disclosed in reports pursuant to UK and US accounting, statutory or listing requirements, fairly represents the Group s position in all material respects.

General Purposes Committee

The General Purposes Committee comprises any one Executive Committee member together with a senior officer from an agreed and restricted list of senior executives. It is always chaired by an Executive Committee member. It attends to business of a routine nature and to the administration of matters, the principles of which have been agreed previously by the Board or an appropriate Committee.

A description of the significant ways in which the Company s actual corporate governance practices differ from the New York Stock Exchange corporate governance requirements followed by US companies can be found on page 82.

EMPLOYEES

The Group directly employed an average of 7,858 people worldwide in the year ended December 31, 2010. Of these, 96% were employed on a full-time basis and 4% were employed on a part-time basis.

The table below analyzes the distribution of the average number of employees for the last three fiscal periods by division and by geographic region.

	Americas	EMEA	Asia Pacific	Central	Total
2010	3,309	1,795	1,517	1,237	7,858
2009	3,229	1,712	1,410	1,205	7,556
2008	3,384	1,824	1,470	1,271	7,949

The costs of the above employees are borne by the Group. In addition, the Group employs 4,489 (2009 4,561, 2008 4,353) people who work in managed hotels or directly on behalf of the System Fund and whose costs of $282 million (2009 $267 million, 2008 $272 million) are borne by those hotels or by the Fund.

Under EU law, many employees of Group companies are now covered by the Working Time Regulations which came into force in the United Kingdom on October 1, 1998. These regulations implemented the European Working Time Directive and parts of the Young Workers Directive, and lay down rights and protections for employees in areas such as maximum working hours, minimum rest time, minimum days off and paid leave.

In the United Kingdom there is in place a national minimum wage under the National Minimum Wage Act. At December 31, 2010, the minimum wage for individuals between 18 and under the age of 21 was £4.92 per hour and £5.93 per hour for individuals age 21 and above. This particularly impacts businesses in the hospitality and retailing sectors. Compliance with the National Minimum Wage Act is being monitored by the Low Pay Commission, an independent statutory body established by the UK Government.

Less than 5% of the Group s UK employees are covered by collective bargaining agreements with trade unions.

Continual attention is paid to the external market in order to ensure that terms of employment are appropriate. The Group believes the Group companies will be able to conduct their relationships with trade unions and employees in a satisfactory manner.

SHARE-BASED COMPENSATION

During 2010, conditional rights over 2,602,773 shares were awarded to employees under the Long Term Incentive Plan. No awards were granted under the Annual Bonus Plan or Executive Share Option Plan. Details regarding the option pricing model and assumptions used to determine the fair value of the awards is included in Note 26 of Notes to the Consolidated Financial Statements.

The directors interests as at December 31, 2010 in options to subscribe for shares in InterContinental Hotels Group PLC are set out on page F-48.

The directors do not have different voting rights from other shareholders of the Company.

The Company announced on March 16, 2011 that Andrew Cosslett will step down as Chief Executive on June 30, 2011, and will be succeeded by Richard Solomons. A Director since 2003 and currently Chief Financial Officer and Head of Commercial Development, Richard Solomons will start in his new position as Chief Executive on July 1, 2011.

The Company s major shareholders do not have different voting rights from other shareholders of the Company. The Company does not know of any arrangements the operation of which may result in a change in its control.

As of March 25, 2011, 15,035,669 ADSs equivalent to 15,035,669 ordinary shares, or approximately 5.18% of the total ordinary shares in issue, were outstanding and were held by 1,024 holders. Since certain ordinary shares are registered in the names of nominees, the number of shareholders of record may not be representative of the number of beneficial owners.

As of March 25, 2011, there were a total of 54,074 record holders of ordinary shares, of whom 353 had registered addresses in the United States and held a total of 1,540,796 ordinary shares (0.53% of the total issued).

RELATED PARTY TRANSACTIONS

The Company has not entered into any related party transactions or loans for the period beginning January 1, 2010 up to March 25, 2011.

Legal Proceedings

Group companies have extensive operations in the United Kingdom, as well as internationally, and are involved in a number of legal and arbitration proceedings incidental to those operations. It is the Company s view that such proceedings, either individually or in the aggregate, have not in the recent past and are not likely to have a significant effect on the Group s financial position or profitability.

Notwithstanding the above, Holiday Hospitality Franchising, Inc., a Group company, is defending a lawsuit filed by Hotel Associates, Inc., a former franchisee, regarding an unfavorable ruling on appeal on February 23, 2011. The final outcome is not yet known, however, a litigation provision for $22 million has been reflected in the

ITEM 9. *THE OFFER AND LISTING*

The principal trading market for the Company s ordinary shares is the London Stock Exchange on which InterContinental Hotels Group PLC shares are traded. The ordinary shares are also listed on the New York Stock Exchange trading in the form of ADSs evidenced by ADRs. Each ADS represents one ordinary share. InterContinental Hotels Group PLC has a sponsored ADR facility with JP Morgan Chase Bank, N.A. as Depositary.

The following tables show, for the fiscal periods indicated, the reported high and low middle market quotations (which represent an average of closing bid and ask prices) for the ordinary shares on the London Stock Exchange, as derived from the Daily Official List of the UK Listing Authority, and the highest and lowest sales prices of the ADSs as reported on the New York Stock Exchange composite tape.

ITEM 10. *ADDITIONAL INFORMATION*

ARTICLES OF ASSOCIATION

The Company s articles of association were adopted at the Annual General Meeting held on May 28, 2010.

The following summarizes material rights of holders of the Company s ordinary shares under the material provisions of the Company s articles of association and English law. This summary is qualified in its entirety by reference to the Companies Act and the Company s articles of association. The Company s articles of association are filed as an exhibit to this 20-F.

The Company s shares may be held in certificated or uncertificated form. No holder of the Company s shares will be required to make additional contributions of capital in respect of the Company s shares in the future.

In the following description, a shareholder is the person registered in the Company s register of members as the holder of the relevant share.

Principal Objects

The Company is incorporated under the name InterContinental Hotels Group PLC and is registered in England and Wales with registered number 5134420. The Company s articles of association do not restrict its objects.

Directors

Under the Company s articles of association, a director may not vote in respect of any proposal in which he, or any person connected with him, has any material interest other than by virtue of his interests in securities of, or otherwise in or through, the Company. This is subject to certain exceptions relating to proposals (a) indemnifying

him in respect of obligations incurred on behalf of the Company, (b) indemnifying a third party in respect of obligations of the Company for which the director has assumed responsibility under an indemnity or guarantee, (c) relating to an offer of securities in which he will be interested as an underwriter, (d) concerning another body corporate in which the director is beneficially interested in less than one percent of the issued shares of any class of shares of such a body corporate, (e) relating to an employee benefit in which the director will share equally with other employees and (f) relating to liability insurance that the Company is empowered to purchase for the benefit of directors of the Company in respect of actions undertaken as directors (or officers) of the Company.

The directors are empowered to exercise all the powers of the Company to borrow money, subject to the limitation that the aggregate amount of all moneys borrowed by the Company and its subsidiaries shall not exceed an amount equal to three times the Company s share capital and consolidated reserves, unless sanctioned by an ordinary resolution of the Company.

Directors are not required to hold any shares of the Company by way of qualification.

Rights Attaching to Shares

Under English law, dividends are payable on the Company s ordinary shares only out of profits available for distribution, as determined in accordance with accounting principles generally accepted in the United Kingdom and by the Companies Act. Holders of the Company s ordinary shares are entitled to receive such dividends as may be declared by the shareholders in general meeting, rateably according to the amounts paid up on such shares, provided that the dividend cannot exceed the amount recommended by the directors.

The Company s Board of directors may pay shareholders such interim dividends as appear to them to be justified by the Company s financial position. If authorized by an ordinary resolution of the shareholders, the Board of directors may also direct payment of a dividend in whole or in part by the distribution of specific assets (and in particular of paid up shares or debentures of any other company).

Any dividend unclaimed after six years from the date the dividend was declared, or became due for payment, will be forfeited and will revert to the Company.

Voting Rights

Voting at any general meeting of shareholders is by a show of hands unless a poll, which is a written vote, is duly demanded. On a show of hands, every shareholder who is present in person or by proxy at a general meeting has one vote regardless of the number of shares held. On a poll, every shareholder who is present in person or by proxy has one vote for every 1329/47 pence in nominal amount of the shares held by that shareholder. A poll may be demanded by any of the following:

- the chairman of the meeting;
- at least five shareholders present in person or by proxy and entitled to vote at the meeting;
- any shareholder or shareholders representing in the aggregate not less than one-tenth of the total voting rights of all shareholders entitled to vote at the meeting; or
- any shareholder or shareholders holding shares conferring a right to vote at the meeting on which there have been paid-up sums in the aggregate equal to not less than one-tenth of the total sum paid up on all the shares conferring that right.

A proxy form will be treated as giving the proxy the authority to demand a poll, or to join others in demanding one.

The necessary quorum for a general meeting is three persons carrying a right to vote upon the business to be transacted, whether present in person or by proxy.

Matters are transacted at general meetings of the Company by the proposing and passing of resolutions, of which there are two kinds:

an ordinary resolution, which includes resolutions for the election of directors, the approval of financial statements, the cumulative annual payment of dividends, the appointment of auditors, the increase of authorized share capital or the grant of authority to allot shares; and

a special resolution, which includes resolutions amending the Company s articles of association, disapplying statutory pre-emption rights, modifying the rights of any class of the Company s shares at a meeting of the holders of such class or relating to certain matters concerning the Company s winding up or changing the Company s name.

An ordinary resolution requires the affirmative vote of a majority of the votes of those persons voting at a meeting at which there is a quorum.

Special resolutions require the affirmative vote of not less than three-fourths of the persons voting at a meeting at which there is a quorum.

Annual General Meetings must be convened upon advance written notice of 21 days. Other meetings must be convened upon advance written notice of 14 days. The days of delivery or receipt of the notice are not included. The notice must specify the nature of the business to be transacted. The Board of directors may if they choose make arrangements for shareholders who are unable to attend the place of the meeting to participate at other places.

The articles of association specify that each Director shall retire every three years at the Annual General Meeting and unless otherwise decided by the Directors, shall be eligible for re-election. However, the new UK Corporate Governance Code recommends that all Directors of FTSE 350 companies submit themselves for election or re-election (as appropriate) by shareholders every year. Although IHG is not obliged to follow this recommendation until its Annual General Meeting in 2012, the Board has decided to submit the appointment of all its Directors for shareholder approval in 2011. Therefore, all Directors will retire and offer themselves for election or re-election at the next Annual General Meeting.

Variation of Rights

If, at any time, the Company s share capital is divided into different classes of shares, the rights attached to any class may be varied, subject to the provisions of the Companies Act, with the consent in writing of holders of three-fourths in nominal value of the issued shares of that class or upon the adoption of a special resolution passed at a separate meeting of the holders of the shares of that class. At every such separate meeting, all of the provisions of the articles of association relating to proceedings at a general meeting apply, except that the quorum is to be the number of persons (which must be two or more) who hold or represent by proxy not less than one-third in nominal value of the issued shares of the class.

Rights in a Winding-up

Except as the Company s shareholders have agreed or may otherwise agree, upon the Company s winding up, the balance of assets available for distribution:

after the payment of all creditors including certain preferential creditors, whether statutorily preferred creditors or normal creditors; and

subject to any special rights attaching to any class of shares;

is to be distributed among the holders of ordinary shares according to the amounts paid-up on the shares held by them. This distribution is generally to be made in cash. A liquidator may, however, upon the adoption of an extraordinary resolution of the shareholders, divide among the shareholders the whole or any part of the Company s assets in kind.

Table of Contents

Limitations on Voting and Shareholding

There are no limitations imposed by English law or the Company s articles of association on the right of non-residents or foreign persons to hold or vote the Company s ordinary shares or ADSs, other than the limitations that would generally apply to all of the Company s shareholders.

MATERIAL CONTRACTS

The following contracts have been entered into otherwise than in the course of ordinary business by members of the Group either (i) in the two years immediately preceding the date of this document in the case of contracts which are or may be material or (ii) which contain provisions under which any Group member has any obligation or entitlement which is material to the Group as at the date of this document. To the extent that these agreements include representations, warranties and indemnities, such provisions are considered standard in an agreement of that nature, save to the extent identified below.

£750,000,000 Euro Medium Term Note Program

1. On November 27, 2009, a trust deed (the Trust Deed) was executed by InterContinental Hotels Group PLC as issuer (the Issuer), Six Continents Limited and InterContinental Hotels Limited as guarantors (the Guarantors) and HSBC Corporate Trustee Company (UK) Limited as trustee (the Trustee), in accordance with which the Issuer established a Euro medium term note program (the Program) pursuant to which the Issuer may issue notes (Notes) unconditionally and irrevocably guaranteed by the Guarantors, up to a maximum nominal amount from time to time outstanding of £750,000,000 (or its equivalent in other currencies).

Notes are to be issued in series (each a Series) in bearer form. Each Series may comprise one or more tranches (each a Tranche) issued on different issue dates. Notes may be issued either (1) pursuant to the Base Prospectus dated November 27, 2009 (the Base Prospectus) as amended and/or supplemented by a document setting out the final terms (the Final Terms) of the Notes or (2) pursuant to a separate prospectus specific to such Tranche (the Drawdown Prospectus). The terms and conditions applicable to any particular Tranche of Notes will be the Terms and Conditions of the Notes as supplemented, amended and/or replaced to the extent described in the relevant Final Terms or, as the case may be, the relevant Drawdown Prospectus.

Under the Trust Deed, each of the Issuer and the Guarantors has given certain customary covenants in favor of the Trustee.

Final Terms were issued on December 9, 2009 in respect of the issue of a Tranche of £250,000,000 6 per cent Notes due December 9, 2016. These Final Terms stipulate that the holders of the Notes have the right to repayment if the Notes (a) become non-investment grade within the period commencing on the date of announcement of a change of control and ending 90 days after the change of control (the Change of Control Period) and are not subsequently, within the Change of Control Period, reinstated to investment grade; (b) are downgraded from a non-investment grade and are not reinstated to its earlier credit rating or better within the Change of Control Period; or (c) are not credit rated and do not become investment-grade credit rated by the end of the Change of Control Period. Further details of the Program and the Notes are set out in the Base Prospectus, a copy of which is available (as is a copy of Final Terms dated December 7, 2009) on the Company s website at www.ihgplc.com. These Notes are referred to as £250 million 6% bonds in the Consolidated Financial Statements.

2. On November 27, 2009, the Issuer and the Guarantors entered into an agency agreement (the Agency Agreement) with HSBC Bank PLC as principal paying agent and the Trustee, pursuant to which the Issuer and the Guarantors appointed paying agents and calculation agents in connection with the Program and the Notes.

Under the Agency Agreement, each of the Issuer and the Guarantors has given a customary indemnity in favor of the paying agents and the calculation agents.

3. On November 27, 2009, the Issuer and the Guarantors entered into a dealer agreement (the Dealer Agreement) with Barclays Bank PLC, HSBC Bank PLC and The Royal Bank of Scotland PLC as arrangers (the Arrangers) and Barclays Bank PLC, HSBC Bank PLC, Lloyds TSB Bank PLC, Merrill Lynch International,

Société Générale and The Royal Bank of Scotland PLC as dealers (the Dealers), pursuant to which the Dealers were appointed in connection with the Program and the Notes.

Under the Dealer Agreement, each of the Issuer and the Guarantors has given customary warranties and indemnities in favor of the Dealers.

Syndicated Facility

On May 2, 2008, InterContinental Hotels Group PLC signed the Syndicated Facility, which comprises a five year $2,100 million bank facility agreement with Bank of America N.A., The Bank of Tokyo-Mitsubishi UFJ, Ltd., Barclays Capital, HSBC Bank plc, Lloyds TSB Bank plc, The Royal Bank of Scotland plc, Société Générale Corporate & Investment Banking and WestLB AG, London Branch, all acting as mandated lead arrangers and underwriters and HSBC Bank plc as agent bank.

The facility was split into a $1.6 billion five year revolving credit facility and a $500 million 30 month term loan facility. The term loan reduced to $85 million in December 2009 following repayment of $415 million. The outstanding sum of $85 million was repaid in full in September 2010.

The interest margin payable on borrowings under the Syndicated Facility is linked to IHG s consolidated net debt to consolidated EBITDA ratio. The margin can vary between LIBOR + 0.475% and LIBOR + 1.05% depending on the level of the ratio.

Disposal to Hospitality Properties Trust (HPT)

On December 17, 2004, BHR Texas L.P., InterContinental Hotels Group Resources, Inc., Crowne Plaza LAX, LLC, Crowne Plaza Hilton Head Holding Company, Holiday Pacific Partners Limited Partnership, 220 Bloor Street Hotel Inc. and Staybridge Markham, Inc. (together, the Vendors) entered into a Purchase and Sale Agreement (as amended and restated on February 9, 2005) with HPT IHG 2 Properties Trust (HPT IHG-2), pursuant to which HPT IHG-2 purchased from the Vendors 12 hotels situated in the United States and Canada. On the same date, Six Continents International Holdings B.V. (SIH), entered into a Stock Purchase Agreement (as amended and restated on February 9, 2005) with HPT IHG-2, pursuant to which HPT IHG-2 purchased from SIH all of the shares in Crowne Plaza (Puerto Rico) Inc., which is the owner of a hotel in Puerto Rico. The total consideration payable by HPT IHG-2 for the sales amounted to $425 million, before transaction costs, equivalent to net book value (of which $395 million was received upon the main completion of the sale on February 16, 2005, with the remaining $30 million received upon the completion of the sale of the InterContinental Hotel in Austin, on June 1, 2005). The Group continues to manage the hotels.

Under the Purchase and Sale Agreement and Stock Purchase Agreement, the Vendors have given certain customary warranties and indemnities to HPT IHG-2.

In connection with the disposals referred to above and as part of both prior and subsequent transactions with HPT in relation to managed hotels, the Group agreed to guarantee certain amounts payable to HPT TRS IHG-1, HPT TRS IHG-2 and HPT TRS IHG-3 (being subsidiaries of the HPT group). The guarantee is for a maximum amount of $125 million, of which $118 million had been utilized at December 31, 2010, and requires amounts to be paid by IHG to HPT TRS IHG-1, HPT TRS IHG-2 and HPT TRS IHG-3 irrespective of the revenue generated by the relevant hotels. The guarantee may be terminated if certain financial tests are met. In addition to the guarantee, the Group paid a deposit to HPT in three transactions between July 2003 and December 2006 in the aggregate amount of $37 million which may be used by HPT to supplement any shortfall between the amounts required to be paid and the amounts actually paid by the Group to HPT (or its affiliates) if the maximum amount of the guarantee has been met.

UK Hotels Disposal

A Share Purchase Agreement (the SPA) was entered into on March 10, 2005 between Six Continents, IHC London (Holdings) Limited (IHC Holdings) and LRG. Pursuant to the SPA, Six Continents and IHC Holdings (the Sellers) agreed to sell all of the issued ordinary share capital of Six Continents Hotels & Holidays Limited, Holiday Inn Limited, NAS Cobalt No. 2 Limited and London Forum Hotel Limited respectively (together, the LRG Shares) to LRG and to transfer to LRG certain contractual rights to the extent they related to

the hotels LRG indirectly acquired under the SPA (the LRG Hotels) and which remained to be completed or performed, or remained in force, after completion of the sale of the LRG Shares to LRG.

The agreed sale price for the LRG Shares was £1 billion. Proceeds of £40 million were deferred and were contingent upon certain pre-agreed performance targets being reached. Following completion, the Group continues to manage the LRG Hotels.

Under the SPA, the Sellers gave certain warranties in relation to the assets disposed of and LRG gave certain warranties in relation to its authority to enter into the SPA and its capacity to perform its obligations under the SPA. Certain indemnities were also given by the Sellers.

Australasian Hotels Disposals

On September 1, 2005, Holiday Inn Holdings (Australia) Pty Limited, SPHC Group Pty Limited and HIA(T) Pty Limited (for the Australian assets) and Hale International Limited (for the New Zealand asset), all three of which are members of the Group, (IHG) entered into two sale and purchase agreements with HANZ (Australia) Pty Limited (for the Australian assets) and HANZ Holdings (New Zealand) Limited (for the New Zealand asset), both companies being subsidiaries of the Hotel Alternative (Australia and New Zealand) Private Syndicate managed by Eureka Funds Management Limited (Eureka) pursuant to which Eureka purchased from IHG nine hotels situated in Australia and New Zealand for AUS$390 million in cash (before transaction costs) which is AUS$75 million above the net book value of AUS$315 million. IHG gave to Eureka normal warranties in relation to the hotels and an indemnity for pre-completion tax liabilities. The transaction completed on October 31, 2005.

The Group continues to manage the hotels for Eureka under ten year management contracts entered into at the time of the transaction, with an option to extend for ten further years at the Group s discretion.

Britvic Underwriting Agreement

An Underwriting Agreement was entered into on November 25, 2005 between, inter alia, Britvic, IHG in its capacity as a selling shareholder, the directors of Britvic, Citigroup and Deutsche Bank AG (as joint sponsors) and Citigroup, Deutsche Bank AG, Lehman Brothers International (Europe) and Merrill Lynch International (as joint Underwriters). This set out the mechanics for the Britvic initial public offering and included customary termination rights. Britvic gave customary warranties, indemnities and undertakings in the context of an agreement of this sort. IHG also gave customary warranties and indemnities in its capacity as a selling shareholder. Under this agreement, each of the selling shareholders paid a commission equal to 2% of the offer price multiplied by the number of shares sold by that selling shareholder to the joint Underwriters.

Disposal to Westbridge

On March 10, 2006 a Sale and Purchase Agreement (SPA) was entered into between BHR Luxembourg S.a.r.l. and other wholly owned subsidiaries of IHG as sellers (BHR Luxembourg S.a.r.l. being the principal seller) and Cooperatie Westbridge Europe I U.A. as purchaser and Westbridge Hospitality Fund L.P. as the purchaser s guarantor. Under the SPA the sellers agreed to sell 23 hotels situated across Europe in France, Germany, Belgium, the Netherlands, Austria, Italy and Spain.

The agreed sale price was 352 million. IHG s share of the proceeds was 345.2 million (before transaction costs), in cash and the assumption of debt, and the balance of 6.8 million relates to third-party minority interests.

The hotels continue to be operated by the purchaser under the same brands under 15 year franchise agreements.

Under the SPA the sellers gave certain customary warranties and indemnities to the purchaser.

Disposal to Morgan Stanley Real Estate Funds

On July 13, 2006 a sale and purchase agreement (SPA) was entered into between BHR Holdings BV and other wholly owned subsidiaries of IHG as sellers (BHR Holdings BV being the principal seller) and a subsidiary of Morgan Stanley Real Estate Funds MSREF VI Danube BV. Under the SPA the sellers agreed to sell seven

InterContinental branded hotels situated across Europe in France, Germany, the Netherlands, Austria, Hungary, Italy and Spain.

The agreed sale price for the seven hotels was 634 million. The Group retained 30 year management contracts on the hotels, with two ten year renewals at the Group s discretion, giving a total potential contract length of 50 years.

Under the SPA the sellers gave certain customary warranties and indemnities to the purchaser.

EXCHANGE CONTROLS

There are no restrictions on dividend payments to US citizens.

Although there are currently no UK foreign exchange control restrictions on the export or import of the capital or the payment of dividends on the ordinary shares or the ADSs, from time to time English law imposes restrictions on the payment of dividends to persons resident (or treated as so resident) in or governments of (or persons exercising public functions in) certain countries (each of the foregoing, a Prohibited Person).

There are no restrictions under the articles of association or under English law that limit the right of non-resident or foreign owners to hold or vote the ordinary shares. However, under current English law, ordinary shares or ADSs may not be owned by a Prohibited Person. In addition, the Company s articles of association contain certain limitations on the voting and other rights of any holder of ordinary shares, whose holding may, in the opinion of the directors, result in the loss or failure to secure the reinstatement of any license or franchise from any US governmental agency held by Six Continents Hotels Inc or any subsidiary thereof.

TAXATION

This section provides a summary of the material US federal income tax and UK tax consequences to US holders, as defined below, of owning and disposing of ordinary shares or ADSs of the Company. This section addresses only the tax position of a US holder who holds ordinary shares or ADSs as capital assets. This section does not, however, discuss the tax consequences of members of special classes of holders subject to special rules, such as

- certain financial institutions;
- insurance companies;
- dealers and traders in securities or foreign currencies;
- persons holding ordinary shares or ADSs as part of a hedge, straddle, conversion transaction, integrated transaction or similar transaction;
- persons whose functional currency for US federal income tax purposes is not the US dollar;
- partnerships or other entities classified as partnerships for US federal income tax purposes;
- persons liable for the alternative minimum tax;
- tax-exempt organizations;

persons who acquired our ADSs or ordinary shares pursuant to the exercise of any employee stock option or otherwise as compensation;

holders that, directly or indirectly, hold 10% or more of the Company s voting stock.

This section does not generally deal with the position of a US holder who is resident or ordinarily resident in the United Kingdom for UK tax purposes or who is subject to UK taxation on capital gains or income by virtue of carrying on a trade, profession or vocation in the United Kingdom through a branch, agency or permanent establishment and such ADSs or ordinary shares are or have been used, held or acquired for the purposes of such trade, profession or vocation.

A US holder is a beneficial owner of ordinary shares or ADSs who is for US federal income tax purposes (i) an individual citizen or resident of the US, (ii) a US domestic corporation, or other entity taxable as a corporation,

created or organized in or under the laws of the United States or any political subdivision thereof; (iii) an estate whose income is subject to US federal income tax regardless of its source, or (iv) a trust if a US court can exercise primary supervision over the trust s administration and one or more United States persons are authorized to control all substantial decisions of the trust.

This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations, published rulings and court decisions, and on UK tax laws and published practice of the UK HM Revenue and Customs, all as of the date hereof. These laws are subject to change, possibly on a retroactive basis.

This section is further based in part upon the representations of the Depositary and assumes that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. For US federal income tax purposes, an owner of ADRs evidencing ADSs will generally be treated as the owner of the underlying shares represented by those ADSs. Generally, exchanges of ordinary shares for ADRs, and ADRs for ordinary shares, will not be subject to US federal income tax or UK taxation on capital gains.

The US Treasury has expressed concerns that parties to whom ADRs are pre-released may be taking actions that are inconsistent with the claiming of foreign tax credits for US holders of ADRs. Such actions would also be inconsistent with the claiming of the reduced rate of tax, described below, for qualified dividend income. Accordingly, the analysis of the availability of the reduced rate of tax for qualified dividend income described below could be affected by actions taken by parties to whom the ADRs are pre-released.

Investors should consult their own tax advisors regarding the US federal, state and local, the UK and other tax consequences of owning and disposing of shares and ADSs in their particular circumstances.

Taxation of Dividends

United Kingdom Taxation

Under current UK tax law, the Company will not be required to withhold tax at source from dividend payments it makes.

A US holder who is not resident or ordinarily resident for United Kingdom tax purposes in the United Kingdom will generally not be liable for UK taxation on dividends received in respect of the ADSs or ordinary shares.

United States Federal Income Taxation

Subject to the passive foreign investment company (PFIC) rules discussed below, a US holder is subject to US federal income taxation on the gross amount of any dividend paid by the Company out of its current or accumulated earnings and profits (as determined for US federal income tax purposes). Distributions in excess of the Company s current and accumulated earnings and profits, as determined for US federal income tax purposes, will be treated as a return of capital to the extent of the US holder s basis in the shares or ADSs and thereafter as capital gain. Because the Company has not historically maintained, and does not currently maintain, books in accordance with US tax principles, the Company does not expect to be in a position to determine whether any distribution will be in excess of the Company s current and accumulated earnings and profits as computed for US federal income tax purposes. As a result, the Company expects that amounts distributed will be reported to the Internal Revenue Service as dividends.

Subject to applicable limitations and the discussion above regarding concerns expressed by the US Treasury, dividends paid to a non-corporate US holder in taxable years beginning before January 1, 2013 that constitute qualified dividend income will be taxable to the holder at a maximum tax rate of 15%. The Company expects that

dividends paid by the Company with respect to the shares or ADSs will constitute qualified dividend income. U.S. Holders should consult their own tax advisors to determine whether they are subject to any special rules that limit their ability to be taxed at this favorable rate.

Dividends must be included in income when the US holder, in the case of shares, or the Depositary, in the case of ADSs, actually or constructively receives the dividend, and will not be eligible for the dividends-received

Table of Contents

deduction generally allowed to US corporations in respect of dividends received from other US corporations. For foreign tax credit limitation purposes, dividends will generally be income from sources outside the United States.

The amount of any dividend paid in pounds will be the US dollar value of the pound sterling payments made, determined at the spot pound sterling/US dollar rate on the date the dividend distribution is includible in income, regardless of whether the payment is in fact converted into US dollars. If the dividend is converted into US dollars on the date of receipt, a US holder should not be required to recognize foreign currency gain or loss in respect of the dividend income. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is includible in income to the date the payment is converted into US dollars will be treated as ordinary income or loss and, for foreign tax credit limitation purposes, from sources within the United States.

Taxation of Capital Gains

United Kingdom Taxation

A US holder who is not resident or ordinarily resident for UK tax purposes in the United Kingdom will not generally be liable for UK taxation on capital gains realized or accrued on the sale or other disposal of ADSs or ordinary shares.

A US holder of ADSs or ordinary shares who is an individual and who, broadly, has temporarily ceased to be resident or ordinarily resident in the UK or has become temporarily treated as non-resident for UK tax purposes for a period of less than five years of assessment and who disposes of ordinary shares or ADSs during that period may, for the year of assessment when that individual becomes resident again in the UK, also be liable to UK tax on capital gains (subject to any available exemption or relief), notwithstanding the fact that such US holder was not resident or ordinarily resident in the United Kingdom at the time of the sale or other disposal.

United States Federal Income Taxation

Subject to the PFIC rules discussed below, a US holder that sells or otherwise disposes of ordinary shares or ADSs will recognize a capital gain or loss for US federal income tax purposes equal to the difference between the US dollar value of the amount realized and its tax basis, determined in US dollars, in the ordinary shares or ADSs. Such capital gain or loss will be long-term capital gain or loss where the holder has a holding period greater than one year. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes. The deductibility of losses is subject to limitations.

PFIC Rules

The Company believes that it was not a PFIC for US federal income tax purposes for its 2010 taxable year. However, this conclusion is an annual factual determination and thus may be subject to change. If the Company were to be treated as a PFIC, gain realized on the sale or other disposition of ordinary shares or ADSs would in general not be treated as capital gain. Instead, gain would be treated as if the US holder had realized such gain ratably over the holding period for the ordinary shares or ADSs and, to the extent allocated to the taxable year of the sale or other exchange and to any year before the Company became a PFIC, would be taxed as ordinary income. The amount allocated to each other taxable year would be taxed at the highest tax rate in effect for each such year to which the gain was allocated, together with an interest charge in respect of the tax attributable to each such year. In addition, similar rules would apply to any excess distribution received on the ordinary shares or ADSs (generally, the excess of any distribution received on the ordinary shares or ADSs during the taxable year over 125% of the average amount of distributions received during a specified prior period), and the preferential rate for qualified dividend income received by certain non-corporate US holders would not apply. Certain elections may be available (including a market-to-market election) to US holders that would result in alternative treatments of the ordinary shares or ADSs.

Pursuant to legislation enacted in 2010, if the Company were to be treated as a PFIC in any taxable year, a US holder may be required to file an annual report with the Internal Revenue Service containing such information as the Treasury Department may require.

Additional Tax Considerations

United States Backup Withholding and Information Reporting

Payments of dividends and other proceeds with respect to ADSs and ordinary shares may be reported to the IRS and to the US holder. Backup withholding may apply to these payments if the US holder fails to provide an accurate taxpayer identification number or certification of exempt status or fails to report all interest and dividends required to be shown on its US federal income tax returns. Certain US holders (including, among others, corporations) are not subject to backup withholding. US holders should consult their tax advisors as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

United Kingdom Inheritance Tax

An individual who is neither domiciled nor deemed domiciled in the UK (under certain UK rules relating to previous domicile or long residence) is only chargeable to UK inheritance tax to the extent the individual owns assets situated in the UK. As a matter of UK law, it is not clear whether the situs of an ADS for UK inheritance tax purposes is determined by the place where the depositary is established and records the entitlements of the depositholders, or by the situs of the underlying share which the ADS represents.

However, an individual who is domiciled in the United States (for the purposes of the Estate and Gift Tax Convention) and is not a UK national as defined in the Convention will not be subject to UK inheritance tax (to the extent UK inheritance tax applies) in respect of ADSs on the individual s death or on a transfer of the ADSs during their lifetime, provided that any applicable US federal gift or estate tax is paid, unless the ADSs are part of the business property of a UK permanent establishment or pertain to a UK fixed base of an individual used for the performance of independent personal services. Where the ADSs have been placed in trust by a settlor, they may be subject to UK inheritance tax unless, when the trust was created, the settlor was domiciled in the United States and was not a UK national. Where ADSs are subject to both UK inheritance tax and to US federal gift or estate tax, the Estate and Gift Tax Convention generally provides for either a credit against US federal tax liabilities for UK inheritance tax paid or for a credit against UK inheritance tax liabilities for US federal tax paid, as the case may be.

United Kingdom Stamp Duty and Stamp Duty Reserve Tax (SDRT)

The transfer of ordinary shares will generally be liable to stamp duty at the rate of 0.5% of the amount or value of the consideration given (rounded up to the nearest £5). An unconditional agreement to transfer ordinary shares will generally be subject to SDRT at 0.5% of the agreed consideration. However, if within the period of six years of the date of such agreement becoming unconditional an instrument of transfer is executed pursuant to the agreement and duly stamped, any liability to SDRT will usually be repaid, if already paid, or canceled. The liability to pay stamp duty or SDRT is generally satisfied by the purchaser or transferee.

No stamp duty or SDRT will generally arise on a transfer of ordinary shares into CREST, unless such transfer is made for a consideration in money or money s worth, in which case a liability to SDRT will arise, usually at the rate of 0.5% of the value of the consideration.

A transfer of ordinary shares effected on a paperless basis within CREST will generally be subject to SDRT at the rate of 0.5% of the value of the consideration.

Stamp duty, or SDRT, may be payable upon the transfer or issue of ordinary shares to, or to a nominee or, in some cases, agent of, a person whose business is or includes issuing depositary receipts or the provision of clearance

services. For these purposes, the current rate of stamp duty and SDRT is usually 1.5% (rounded up, in the case of stamp duty, to the nearest £5). The rate is applied, in each case, to the amount or value of the consideration or, in some circumstances, to the value or the issue price of the ordinary shares. In accordance with the terms of the deposit agreement, any tax or duty payable on deposits of ordinary shares by the depositary or by the custodian of the depositary will be charged to the party to whom ADSs are delivered against such deposits.

Provided that the instrument of transfer is not executed in the United Kingdom and remains at all subsequent times outside the United Kingdom, no stamp duty should be payable on the transfer of ADSs. An agreement to transfer ADSs in the form of depositary receipts will not give rise to a liability to SDRT.

ITEM 11. ***QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***

Exchange and Interest Rate Risk, and Financial Instruments

The Group s treasury policy is to manage financial risks that arise in relation to underlying business needs. The activities of the treasury function are carried out in accordance with Board approved policies and are subject to regular internal audit. The treasury function does not operate as a profit center.

Treasury Risk Management

The treasury function seeks to reduce the financial risk of the Group and manages liquidity to meet all foreseeable cash needs. Treasury activities include money market investments, spot and forward foreign exchange instruments, currency options, currency swaps, interest rate swaps and options and forward rate agreements. One of the primary objectives of the Group s treasury risk management policy is to mitigate the adverse impact of movements in interest rates and foreign exchange rates.

Credit Risk

Credit risk on treasury transactions is minimized by operating a policy on the investment of surplus cash that generally restricts counterparties to those with an A credit rating or better or those providing adequate security.

Notwithstanding that counterparties must have an A credit rating or better, during periods of significant financial market turmoil, counterparty exposure limits are significantly reduced and counterparty credit exposure reviews are broadened to include the relative placing of credit default swap pricings.

The Group trades only with recognized, creditworthy third parties. It is the Group s policy that all customers who wish to trade on credit terms are subject to credit verification procedures.

In respect of credit risk arising from financial assets, the Group s exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Most of the Group s surplus funds are held in the United Kingdom or United States and there are no material funds where repatriation is restricted as a result of foreign exchange regulations.

Interest Rate Risk

Interest rate exposure is managed within parameters that stipulate that fixed rate borrowings should normally account for no less than 25% and no more than 75% of net borrowings for each major currency. This is achieved through the use of interest rate swaps. Due to relatively low interest rates and the level of the Group s debt, 100% of borrowings were fixed rate debt or had been swapped into fixed rate borrowings at December 31, 2010.

At December 31, 2010, the Group held interest rate swaps (swapping floating for fixed) with notional principals of $100 million and 75 million (2009 $250 million and 75 million). These swaps are held to fix the interest payable on borrowings under the Syndicated Facility. At December 31, 2010, $100 million of US dollar borrowings were fixed at 1.99% until May 2012 and 75 million of euro borrowings were fixed at 5.25% until June 2011.

Based on the year-end net debt position and given the underlying maturity profile of investments, borrowings and hedging instruments at December 31, 2010, a one percentage point rise in US dollar interest rates would increase the annual net interest charge by approximately $nil (2009 $0.8 million, 2008 $4.7 million). A similar rise

in euro and sterling interest rates would increase the annual net interest charge by approximately $nil (2009 $1.1 million, 2008 $1.2 million) and $nil (2009 $nil, 2008 $0.9 million), respectively.

Currency Risk

The US dollar is the predominant currency of the Group s revenue and cash flows. Movements in foreign exchange rates can affect the Group s reported profits, net assets and interest cover. To hedge translation exposure, wherever possible, the Group matches the currency of its debt (either directly or via derivatives) to the currency of its net assets, while maximizing the amount of US dollars borrowed to reflect the predominant trading currency. At December 31, 2010, the Group held currency swaps with a principal of $415 million (2009 $415 million) and short dated foreign exchange swaps with principals of 75 million (2009 nil) and HK$ 70 million (2009 nil).

The Group is exposed to foreign currency risk on income streams denominated in foreign currencies. From time to time, the Group hedges a portion of forecast foreign currency income by taking out forward exchange contracts. The designated risk is the spot foreign exchange risk. There were no such contracts in place at either December 31, 2010 or December 31, 2009.

A general strengthening of the US dollar (specifically a five cent fall in the sterling: US dollar rate) would increase the Group s profit before tax by an estimated $3.5 million (2009 $1.6 million, 2008 $4.0 million) and decrease net assets by an estimated $5.6 million (2009 $4.1 million, 2008 $1.1 million). Similarly, a five cent fall in the euro: US dollar rate would reduce the Group s profit before tax by an estimated $1.4 million (2009 $0.7 million, 2008 $2.0 million) and decrease net assets by an estimated $8.2 million (2009 $4.5 million, 2008 $4.3 million).

Disclosure Controls and Procedures

As at the end of the period covered by this report, the Group carried out an evaluation under the supervision and with the participation of the Group s management, including the Chief Executive and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Rules 13a-15(c) and 15d-15(e)). These are defined as those controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the specified periods. Based on that evaluation, the Chief Executive and Chief Financial Officer concluded that the Group s disclosure controls and procedures were effective.

Management s Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934.

Management has issued a report on the effectiveness of the Group s Internal Control over Financial reporting as at December 31, 2010. This report appears on page F-1 of the Group s Consolidated Financial Statements contained in this Annual Report.

Ernst & Young LLP, an independent registered public accounting firm, has issued an attestation report on the Company s internal control over financial reporting. This report appears on page F-2 of the Group s Consolidated Financial Statements contained in this Annual Report.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Group s internal controls over financial reporting that occurred during the period covered by this Form 20-F that have materially affected, or are reasonably likely to materially affect, the Group s internal control over financial reporting.

The Audit Committee has a process to ensure that any non-audit services do not compromise the independence and objectivity of the external auditor and that relevant United Kingdom and United States professional and regulatory requirements are met. A number of criteria are applied when deciding whether pre-approval for such services should be given. These include the nature of the service, the level of fees and the practicality of appointing an alternative provider, having regard to the skills and experience required to supply the service effectively. Cumulative fees for audit and non-audit services are presented to the Audit Committee on a quarterly basis for review. The Audit Committee is responsible for monitoring adherence to the pre-approval policy.

IHG has also adopted the corporate governance requirements of the US Sarbanes-Oxley Act and related rules and of the NYSE, to the extent that they are applicable to it as a foreign private issuer. As a foreign private issuer IHG is required to disclose any significant ways in which its corporate governance practices differ from those followed by US companies. These are as follows:

Basis of regulation

The Combined Code contains a series of principles and provisions. It is not, however, mandatory for companies to follow these principles. Instead, companies must disclose how they have applied them and disclose, if applicable, any areas of non-compliance along with an explanation for the non-compliance. In contrast, US companies listed on the NYSE are required to adopt and disclose corporate governance guidelines adopted by the NYSE. IHG s statement of compliance with the UK Combined Code s requirements for 2010 is contained in the Company s Annual Report and Financial Statements for the year ended December 31, 2010.

Independent Directors

The Combined Code s principles recommend that at least half the Board, excluding the Chairman, should consist of independent Non-Executive Directors. As at March 25, 2011 the Board consisted of the Chairman, independent at the time of his appointment, four Executive Directors and six independent Non-Executive Directors. NYSE listing rules applicable to US companies state that companies must have a majority of independent directors. The NYSE set out five bright line tests for director independence. The Board s judgment is that all of its Non-Executive Directors are independent. However it did not explicitly take into consideration the NYSE s tests in reaching this determination.

Chairman and Chief Executive

The Combined Code recommends that the Chairman and Chief Executive should not be the same individual to ensure that there is a clear division of responsibility for the running of the Company s business. There is no corresponding

requirement for US companies. The roles of Chairman and Chief Executive were, as at March 25, 2011 and throughout 2010 fulfilled by separate individuals.

Committees

The Company has a number of Board Committees which are similar in purpose and constitution to those required for domestic companies under NYSE rules. The Remuneration, Audit and Nomination Committees consist

only of Non-Executive Directors. The NYSE requires US companies to have a nominating/corporate governance committee composed entirely of independent directors. The committee is responsible for identifying individuals qualified to become Board members and to recommend to the Board a set of corporate governance principles. As the Company is subject to the Combined Code, the Company s Nomination Committee is only responsible for nominating, for approval of the Board, candidates for appointment to the Board, though it also assists in developing the role of the Senior Independent Director. The Company s Nomination Committee consists of the Company Chairman and all the independent Non-Executive Directors. The Chairman of the Company is not a member of either of the Remuneration or the Audit Committees. The Audit Committee is chaired by an independent Non-Executive Director who, in the Board s view, has the experience and qualifications to satisfy the criteria under US rules for an audit committee financial expert .

Non-Executive Director Meetings

Non-management directors of US companies must meet on a regular basis without management present, and independent directors must meet separately at least once per year. The Company s Non-Executive Directors have met without Executive Directors being present, and intend to continue this practice, before every Board meeting if possible.

Shareholder approval of Equity Compensation Plans

The NYSE rules require that shareholders must be given the opportunity to vote on all equity compensation plans and material revisions to those plans. The Company complies with UK requirements which are similar to the NYSE rules. The Board does not, however, explicitly take into consideration the NYSE s detailed definition of material revisions .

Code of Ethics

The NYSE requires companies to adopt a code of business conduct and ethics, applicable to directors, officers and employees. Any waivers granted to directors or officers under such a code must be promptly disclosed. The Company s Code of Ethics, applicable to all directors, officers and employees, is available on the Company s website. No waivers have been granted under this Code.

Compliance Certification

Each Chief Executive of a US company must certify to the NYSE each year that he or she is not aware of any violation by the Company of any NYSE corporate governance listing standard. As the Company is a foreign private issuer, the Company s Chief Executive is not required to make this certification. However he is required to notify the NYSE promptly in writing after any of the Company s Executive Officers become aware of any non-compliance with those NYSE corporate governance rules applicable to the Company.

MANAGEMENT S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of InterContinental Hotels Group PLC (Company and together with its subsidiaries the Group) is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, the Group s principal executive and principal financial officers and effected by the Company s Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles.

The Group s internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the Group s transactions and dispositions of the Group s assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Group are being made only in accordance with authorizations of the Group s management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Group s assets that could have a material effect on the Consolidated Financial Statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of the Group s annual Consolidated Financial Statements, management has undertaken an assessment of the effectiveness of the Group s internal control over financial reporting as of December 31, 2010 based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO).

Based on this assessment, management has concluded that as of December 31, 2010, the Group s internal control over financial reporting is effective based on those criteria.

Ernst & Young LLP, the independent registered public accounting firm that audited the Group s Consolidated Financial Statements, has issued an attestation report on the Group s internal control over financial reporting, a copy of which appears on the next page of this Annual Report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

To the Board of Directors and Shareholders of InterContinental Hotels Group PLC:

We have audited InterContinental Hotels Group PLC s internal control over financial reporting as of December 31, 2010 based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). InterContinental Hotels Group PLC s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Form 20-F. Our responsibility is to express an opinion on the Group s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A group s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A group s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the group are being made only in accordance with authorizations of management and directors of the group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the group s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, InterContinental Hotels Group PLC maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the accompanying Consolidated statements of financial position of InterContinental Hotels Group PLC as of December 31, 2010 and 2009, and the related Consolidated income statements, Consolidated statements of comprehensive income, Consolidated statements of changes in equity and Consolidated statements of cash flows for each of the three years in the period ended December 31, 2010, and the financial statement schedule listed in the Index at Item 18. *Financial Statements*, and our report dated April 11, 2011 expressed an unqualified opinion thereon.

INTERCONTINENTAL HOTELS GROUP PLC

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of InterContinental Hotels Group PLC

We have audited the accompanying Consolidated statements of financial position of InterContinental Hotels Group PLC as of December 31, 2010 and 2009, and the related Consolidated income statements, Consolidated statements of comprehensive income, Consolidated statements of changes in equity and Consolidated statements of cash flows for each of the three years in the period ended December 31, 2010. Our audits also included the financial statements schedule listed in the Index at Item 18. These financial statements and schedule are the responsibility of the Group s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of InterContinental Hotels Group PLC at December 31, 2010 and 2009, and the consolidated results of its operations and its consolidated cash flows for each of the three years in the period ended December 31, 2010, in accordance with International Financial Reporting Standards as adopted by the European Union and International Financial Reporting Standards as issued by the International Accounting Standards Board. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of InterContinental Hotels Group PLC s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 11, 2011 expressed an unqualified opinion thereon.

At December 31, 2007 the authorized share capital was £160,050,000 comprising 1,175,000,000 ordinary shares of 13 29/47 pence each and one redeemable preference share of £50,000.

Table of Contents

(i) The Company was incorporated and registered in England and Wales with registered number 5134420 on May 21, 2004 as a limited company under the Companies Act 1985 with the name Hackremco (No. 2154) Limited. On March 24, 2005 Hackremco (No. 2154) Limited changed its name to New InterContinental Hotels Group Limited. On April 27, 2005 New InterContinental Hotels Group Limited re-registered as a public limited company and changed its name to New InterContinental Hotels Group PLC. On June 27, 2005 New InterContinental Hotels Group PLC changed its name to InterContinental Hotels Group PLC.

On June 1, 2006, shareholders approved a share capital consolidation on the basis of seven new ordinary shares for every eight existing ordinary shares. This provided for all the authorized ordinary shares of 10 pence each (whether issued or unissued) to be consolidated into new ordinary shares of 113/7 pence each. The share capital consolidation became effective on June 12, 2006.

On June 1, 2007, shareholders approved a share capital consolidation on the basis of 47 new ordinary shares for every 56 existing ordinary shares. This provided for all the authorized ordinary shares of 113/7 pence each (whether issued or unissued) to be consolidated into new ordinary shares of 1329/47 pence each. The share capital consolidation became effective on June 4, 2007.

At September 30, 2009, the authorized share capital was £160,050,000, comprising 1,175,000,000 ordinary shares of 1329/47 pence each and one redeemable preference share of £50,000. As a result of the resolution passed at the Annual General Meeting on May 29, 2009 amending the articles of association in line with the Companies Act 2006, from October 1, 2009 the Company no longer has an authorized share capital.

During 2004 and 2005, the Company undertook to return funds of up to £750 million to shareholders by way of three consecutive £250 million share repurchase programs, the third of which was completed in the first half of 2007. In June 2007, a further £150 million share repurchase program commenced.

During 2008, 9,219,325 (2007 7,724,844) ordinary shares were repurchased and canceled under the authorities granted by shareholders at the Extraordinary General Meeting held on June 1, 2007 and at the Annual General Meeting held on May 30, 2008. The Company deferred its £150 million share repurchase program in November 2008 in order to preserve cash and maintain the strength of the Group s financial position. No shares were repurchased in 2010 or 2009.

The authority given to the Company at the Annual General Meeting on May 28, 2010 to purchase its own shares was still valid at December 31, 2010. A resolution to renew the authority will be put to shareholders at the Annual General Meeting on May 27, 2011.

(ii) The share premium reserve and capital redemption reserve are not distributable. The share premium reserve has a balance of $94 million (2009 $79 million, 2008 $61 million) representing the amount of proceeds received for shares in excess of their nominal value. The capital redemption reserve maintains the nominal value of the equity share capital of the Company when shares are repurchased or canceled.

(iii) The shares held by employee share trusts comprises $34.6 million (2009 $3.8 million, 2008 $49.2 million) in respect of 1.9 million (2009 0.3 million, 2008 3.0 million) InterContinental Hotels Group PLC ordinary shares held by employee share trusts, with a market value at December 31, 2010 of $37 million (2009 $4 million, 2008 $25 million).

(iv) Other reserves comprises the merger and revaluation reserves previously recognized under UK GAAP, together with the reserve arising as a consequence of the Group s capital reorganization in June 2005. Following the

change in presentational currency to the US dollar in 2008, this reserve also includes exchange differences arising on the retranslation to period-end exchange rates of equity share capital, the capital redemption reserve and shares held by employee share trusts.

(v) The unrealized gains and losses reserve records movements to fair value of available-for-sale financial assets and the effective portion of the cumulative net change in the fair value of the cash flow hedging instruments related to hedged transactions that have not yet occurred.

The fair value of cash flow hedging instruments outstanding at December 31, 2010 was a $4 million liability (2009 $7 million, 2008 $10 million).

(vi) The currency translation reserve records the movement in exchange differences arising from the translation of the financial statements of foreign operations and exchange differences on foreign currency borrowings and derivative instruments that provide a hedge against net investments in foreign operations. On adoption of IFRS, cumulative exchange differences were deemed to be $nil as permitted by IFRS 1.

The fair value of derivative instruments designated as hedges of net investments in foreign operations outstanding at December 31, 2010 was a $40 million liability (2009 $13 million, 2008 $nil).

Note 1 Accounting policies

General information

The consolidated financial statements of InterContinental Hotels Group PLC (the Group or IHG) for the year ended December 31, 2010 were authorized for issue to the UK listing authorities in accordance with a resolution of the Directors on February 14, 2011. InterContinental Hotels Group PLC (the Company) is incorporated in Great Britain and registered in England and Wales.

On February 23, 2011, the Group received an unfavorable court judgment in respect of a prior year litigation claim. As required by IAS 37 Provisions, Contingent Liabilities and Contingent Assets and IAS 10 Events after the Reporting Period , the Consolidated Financial Statements for the year ended December 31, 2010, authorized by the Directors on April 11, 2011, for issue on Form 20-F include a litigation provision of $22 million ($13 million net of tax) to reflect this adjusting post balance sheet event.

The impact of the above adjusting post balance sheet event is summarized as follows:

	Consolidated Financial Statements authorized on	
	February 14, 2011	**April 11, 2011**
Profit before tax ($ million)	397	375
Profit for the year ($ million)	293	280
Net assets ($ million)	291	278
Basic earnings per share (cents)	101.7	97.2
Diluted earnings per share (cents)	99.0	94.6

As the provision has been recorded as an exceptional item, there was no impact on results before exceptional items and adjusted earnings per share.

Summary of significant accounting policies

Basis of preparation

The Consolidated Financial Statements of IHG have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in accordance with IFRS as adopted by the European Union (EU), and as applied in accordance with the provisions of the Companies Act 2006. IFRS as adopted by the EU differs in certain respects from IFRS as issued by the IASB, however, the differences have no impact on the Group s Consolidated Financial Statements for the years presented.

Changes in accounting policies

With effect from January 1, 2010, the Group has implemented the following new accounting standards, amendments and interpretations. None of these have had a material impact on the Group s financial performance or position during the year and there has been no requirement to restate prior year comparatives.

IFRS 3 (Revised) Business Combinations changes the accounting for transaction costs, the valuation of non-controlling interests, the initial recognition and subsequent measurement of contingent consideration, and business combinations achieved in stages. These changes will impact the amount of goodwill recognized and the reported results in the period when an acquisition occurs and future reported results. These changes only apply to new acquisitions and there have been none during the year.

IAS 27 (Revised) Consolidated and Separate Financial Statements requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and such transactions no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost; any remaining interest in the entity is remeasured to fair value with a gain or loss recognized in profit or loss.

IFRIC 17 Distribution of Non-cash assets to Owners provides guidance on accounting for arrangements where non-cash assets are distributed to shareholders.

Table of Contents

IAS 39 (amendment) Financial Instruments: Recognition and Measurement Eligible Hedged Items clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as a hedged item. The amendment also specifies that inflation is not a separately identifiable risk and cannot be designated as the hedged risk unless it represents a contractually specified cash flow.

IFRS 2 (amendment) Share-based Payment: Group Cash-settled Share-based Payment Arrangements provides guidance on accounting for inter-group cash-settled share-based payment transactions in the separate financial statements of an entity.

IFRS 5 (amendment) Non-current Assets Held for Sale and Discontinued Operations clarifies that disclosures required in respect of non-current assets and disposal groups classified as held for sale or discontinued operations are only those set out in IFRS 5.

IFRS 8 (amendment) Operating Segments clarifies that segment assets and liabilities need only be reported when included in information reviewed by the chief operating decision maker.

IAS 7 (amendment) Statement of Cash Flows states that only expenditure resulting in recognition of an asset can be presented as a cash flow from investing activities.

IAS 17 (amendment) Leases clarifies that a lease of land should be classified as an operating or finance lease in accordance with the economic substance of the arrangement.

IAS 36 (amendment) Impairment of Assets clarifies that the largest permitted unit for allocation of goodwill is the IFRS 8 operating segment before aggregation for reporting purposes.

IFRIC 16 (amendment) Hedges of a Net Investment in a Foreign Operation removes the restriction on a hedged foreign operation holding the hedging instruments.

Changes in presentation

The Consolidated statement of changes in equity has been expanded to include an analysis of other comprehensive income by each component of equity. The additional information is presented in accordance with best practice and will become mandatory in 2011.

The fair values of derivative financial instruments are presented separately on the face of the Consolidated statement of financial position for the first time (previously included within current Trade and other payables) due to their increased materiality and in accordance with best practice.

Net debt has been redefined to include the exchange element of the fair value of currency swaps that fix the value of the Group s £250m 6% bonds. This change has been made to reflect the commercial rationale of the hedging relationship. See Notes 23 and 24 for further details.

Presentational currency

The Consolidated Financial Statements are presented in millions of US dollars following a management decision to change the reporting currency from sterling during 2008. The change was made to reflect the profile of the Group s revenue and operating profit which are primarily generated in US dollars or US dollar-linked currencies.

The currency translation reserve was set to nil at January 1, 2004 on transition to IFRS and this reserve is presented on the basis that the Group has reported in US dollars since this date. Equity share capital, the capital redemption reserve and shares held by employee share trusts are translated into US dollars at the rates of exchange on the last day of the period; the resultant exchange differences are recorded in other reserves.

The functional currency of the parent company remains sterling since this is a non-trading holding company located in the United Kingdom that has sterling denominated share capital and whose primary activity is the payment and receipt of interest on sterling denominated external borrowings and inter-company balances.

Basis of consolidation

The Consolidated Financial Statements comprise the financial statements of the parent company and entities controlled by the Company. All intra-group balances and transactions have been eliminated.

The results of those businesses acquired or disposed of are consolidated for the period during which they were under the Group s control.

Foreign currencies

Transactions in foreign currencies are translated to the functional currency at the exchange rates ruling on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency at the relevant rates of exchange ruling on the last day of the period. All foreign exchange differences arising on translation are recognized in the income statement except on foreign currency borrowings that provide a hedge against a net investment in a foreign operation. These are taken directly to the currency translation reserve until the disposal of the net investment, at which time they are recycled against the gain or loss on disposal.

The assets and liabilities of foreign operations, including goodwill, are translated into US dollars at the relevant rates of exchange ruling on the last day of the period. The revenues and expenses of foreign operations are translated into US dollars at average rates of exchange for the period. The exchange differences arising on the retranslation are taken directly to the currency translation reserve. On disposal of a foreign operation, the cumulative amount recognized in the currency translation reserve relating to that particular foreign operation is recycled against the gain or loss on disposal.

Property, plant and equipment

Property, plant and equipment are stated at cost less depreciation and any impairment.

Borrowing costs attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to prepare for its intended use or sale are capitalized as part of the asset cost. All other borrowing costs are expensed as incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. However, all borrowing costs relating to projects commencing before January 1, 2009 were expensed.

Repairs and maintenance costs are expensed as incurred.

Land is not depreciated. All other property, plant and equipment are depreciated to a residual value over their estimated useful lives, namely:

Buildings	lesser of 50 years and unexpired term of lease; and
Fixtures, fittings and equipment	three to 25 years.

All depreciation is charged on a straight-line basis. Residual value is reassessed annually.

Property, plant and equipment are tested for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. Assets that do not generate independent cash flows are combined into cash-generating units. If carrying values exceed their estimated recoverable amount, the assets or cash-generating

units are written down to the recoverable amount. Recoverable amount is the greater of fair value less costs to sell and value in use. Value in use is assessed based on estimated future cash flows discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses, and any subsequent reversals, are recognized in the income statement.

On adoption of IFRS, the Group retained previous revaluations of property, plant and equipment at deemed cost as permitted by IFRS 1 First-time Adoption of International Financial Reporting Standards .

Goodwill

Goodwill arises on consolidation and is recorded at cost, being the excess of the cost of acquisition over the fair value at the date of acquisition of the Group s share of identifiable assets, liabilities and contingent liabilities. With effect from January 1, 2010, transaction costs are expensed and therefore not included in the cost of acquisition. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is tested for impairment at least annually by comparing carrying values of cash-generating units with their recoverable amounts. Impairment losses cannot be subsequently reversed.

Intangible assets

Software

Acquired software licenses and software developed in-house are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. Costs are amortized over estimated useful lives of three to five years on a straight-line basis.

Internally generated development costs are expensed unless forecast revenues exceed attributable forecast development costs, at which time they are capitalized and amortized over the life of the asset.

Management contracts

When assets are sold and a purchaser enters into a franchise or management contract with the Group, the Group capitalizes as part of the gain or loss on disposal an estimate of the fair value of the contract entered into. The value of management contracts is amortized over the life of the contract which ranges from six to 50 years on a straight-line basis.

Other intangible assets

Amounts paid to hotel owners to secure management contracts and franchise agreements are capitalized and amortized over the shorter of the contracted period and 10 years on a straight-line basis.

Intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Associates

An associate is an entity over which the Group has the ability to exercise significant influence, but not control, through participation in the financial and operating policy decisions of the entity.

Associates are accounted for using the equity method unless the associate is classified as held for sale. Under the equity method, the Group s investment is recorded at cost adjusted by the Group s share of post-acquisition profits and losses. When the Group s share of losses exceeds its interest in an associate, the Group s carrying amount is reduced to $nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an associate.

Financial assets

The Group classifies its financial assets into one of the two following categories: loans and receivables or available-for-sale financial assets. Management determines the classification of financial assets on initial recognition and they are subsequently held at amortized cost (loans and receivables) or fair value (available-for-sale financial assets). Interest on loans and receivables is calculated using the effective interest rate method and is recognized in the income statement as interest income.

Changes in fair values of available-for-sale financial assets are recorded directly in equity within the unrealized gains and losses reserve. On disposal, the accumulated fair value adjustments recognized in equity are recycled to the income statement. Dividends from available-for-sale financial assets are recognized in the income statement as other operating income and expenses.

Table of Contents

Financial assets are assessed for impairment at each period-end date. In the case of an equity investment classified as available-for-sale, a significant or prolonged decline in fair value below cost is evidence that the asset is impaired. If an available-for-sale financial asset is impaired, the difference between original cost and fair value is transferred from equity to the income statement to the extent of any cumulative loss recorded in equity, with any excess charged directly to the income statement. Impairment losses on equity instruments are not reversed through the income statement.

Inventories

Inventories are stated at the lower of cost and net realizable value.

Trade receivables

Trade receivables are recorded at their original amount less provision for impairment. It is the Group s policy to provide for 100% of the previous month s aged receivables balances which are more than 180 days past due. Adjustments to the policy may be made due to specific or exceptional circumstances when collection is no longer considered probable. The carrying amount of the receivable is reduced through the use of a provision account and movements in the provision are recognized in the income statement within cost of sales. When a previously provided trade receivable is uncollectable, it is written off against the provision.

Cash and cash equivalents

Cash comprises cash in hand and demand deposits.

Cash equivalents are short-term highly liquid investments with an original maturity of three months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

In the Consolidated statement of cash flows, cash and cash equivalents are shown net of short-term overdrafts which are repayable on demand and form an integral part of the Group s cash management.

Assets held for sale

Non-current assets and associated liabilities are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

Depreciation is not charged against property, plant and equipment classified as held for sale.

Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest rate method. A financial liability is derecognized when the obligation under the liability expires, is discharged or canceled.

Trade payables

Trade payables are non-interest-bearing and are stated at their nominal value.

Bank and other borrowings

Bank and other borrowings are initially recognized at the fair value of the consideration received less directly attributable transaction costs. They are subsequently measured at amortized cost. Finance charges, including the transaction costs and any discount or premium on issue, are charged to the income statement using the effective interest rate method.

Borrowings are classified as non-current when the repayment date is more than 12 months from the period-end date or where they are drawn on a facility with more than 12 months to expiry.

Derivative financial instruments and hedging

Derivatives are initially recognized and subsequently remeasured at fair value. The method of recognizing the remeasurement depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

Changes in the fair value of derivatives designated as cash flow hedges are recorded in other comprehensive income and the unrealized gains and losses reserve to the extent that the hedges are effective. When the hedged item is recognized, the cumulative gains and losses on the related hedging instrument are reclassified to the income statement.

Changes in the fair value of derivatives designated as net investment hedges are recorded in other comprehensive income and the currency translation reserve to the extent that the hedges are effective. The cumulative gains and losses remain in equity until a foreign operation is sold, at which point they are reclassified to the income statement.

Changes in the fair value of derivatives which have either not been designated as hedging instruments or relate to the ineffective portion of hedges are recognized immediately in the income statement.

Documentation outlining the measurement and effectiveness of any hedging arrangements is maintained throughout the life of the hedge relationship.

Interest arising from currency derivatives and interest rate swaps is recorded in financial income or expenses on a net basis over the term of the agreement, unless the accounting treatment for the hedging relationship requires the interest to be taken to reserves.

Self insurance

The Group undertakes self insurance for various insurable risks including property damage/business interruption, fidelity guarantee, general liability, workers compensation/employers liability and employee medical and dental coverage from time to time in line with economic conditions and trends within the global insurance market. Insurance reserves for self insurance include projected settlements for known and incurred but not reported claims. Projected settlements are estimated based on historical trends and actuarial data.

Provisions

Provisions are recognized when the Group has a present obligation as a result of a past event, it is probable that a payment will be made and a reliable estimate of the amount payable can be made. If the effect of the time value of money is material, the provision is discounted.

An onerous contract provision is recognized when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits expected to be received under it.

Taxes

Current tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authorities including interest. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized in respect of temporary differences between the tax base and carrying value of assets and liabilities, including accelerated capital allowances, unrelieved tax losses, unremitted profits from overseas where the Group does not control remittance, gains rolled over into replacement assets, gains on previously revalued properties and other short-term temporary differences.

Deferred tax assets are recognized to the extent that it is regarded as probable that the deductible temporary differences can be realized. The recoverability of all deferred tax assets is reassessed at the end of each reporting period.

Deferred tax is calculated at the tax rates that are expected to apply in the periods in which the asset or liability will be settled, based on rates enacted or substantively enacted at the end of the reporting period.

Retirement benefits

Defined contribution plans

Payments to defined contribution schemes are charged to the income statement as they fall due.

Defined benefit plans

Plan assets are measured at fair value and plan liabilities are measured on an actuarial basis, using the projected unit credit method and discounting at an interest rate equivalent to the current rate of return on a high quality corporate bond of equivalent currency and term to the plan liabilities. The difference between the value of plan assets and liabilities at the period-end date is the amount of surplus or deficit recorded in the statement of financial position as an asset or liability. An asset is recognized when the employer has an unconditional right to use the surplus at some point during the life of the plan or on its wind up. If a refund would be subject to a tax other than income tax, as is the case in the United Kingdom, the asset is recorded at the amount net of tax. A liability is also recorded for any such tax that would be payable in respect of funding commitments based on the accounting assumption that the related payments increase the asset.

The service cost of providing pension benefits to employees for the year is charged to the income statement. The cost of making improvements to pensions is recognized in the income statement on a straight-line basis over the period during which any increase in benefits vests. To the extent that improvements in benefits vest immediately, the cost is recognized immediately as an expense.

Actuarial gains and losses may result from: differences between the expected return and the actual return on plan assets; differences between the actuarial assumptions underlying the plan liabilities and actual experience during the year; or changes in the actuarial assumptions used in the valuation of the plan liabilities. Actuarial gains and losses, and taxation thereon, are recognized in the Consolidated statement of comprehensive income.

Actuarial valuations are normally carried out every three years and are updated for material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the end of the reporting period.

Revenue recognition

Revenue is the gross inflow of economic benefits received and receivable by the Group on its own account where those inflows result in increases in equity.

Revenue is derived from the following sources: franchise fees; management fees; owned and leased properties and other revenues which are ancillary to the Group s operations, including technology fee income.

Generally, revenue represents sales (excluding VAT and similar taxes) of goods and services, net of discounts, provided in the normal course of business and recognized when services have been rendered. The following is a description of the composition of revenues of the Group.

Franchise fees received in connection with the license of the Group s brand names, usually under long-term contracts with the hotel owner. The Group charges franchise royalty fees as a percentage of rooms revenue. Revenue is recognized when earned and realized or realizable under the terms of the agreement.

Management fees earned from hotels managed by the Group, usually under long-term contracts with the hotel owner. Management fees include a base fee, which is generally a percentage of hotel revenue, and an incentive fee, which is generally based on the hotel s profitability or cash flows. Revenue is recognized when earned and realized or realizable under the terms of the contract.

Owned and leased   primarily derived from hotel operations, including the rental of rooms and food and beverage sales from owned and leased hotels operated under the Group   s brand names. Revenue is recognized when rooms are occupied and food and beverages are sold.

Share-based payments

The cost of equity-settled transactions with employees is measured by reference to fair value at the date at which the right to the shares is granted. Fair value is determined by an external valuer using option pricing models.

The cost of equity-settled transactions is recognized, together with a corresponding increase in equity, over the period in which any performance or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (vesting date).

The income statement charge for a period represents the movement in cumulative expense recognized at the beginning and end of that period. No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

The Group has taken advantage of the transitional provisions of IFRS 2   Share-based Payment   in respect of equity-settled awards and has applied IFRS 2 only to equity-settled awards granted after November 7, 2002 that had not vested before January 1, 2005.

Leases

Operating lease rentals are charged to the income statement on a straight-line basis over the term of the lease.

Assets held under finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease, with a corresponding liability being recognized for the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Lease payments are apportioned between the reduction of the lease liability and finance charges in the income statement so as to achieve a constant rate of interest on the remaining balance of the liability. Assets held under finance leases are depreciated over the shorter of the estimated useful life of the asset and the lease term.

Disposal of non-current assets

The Group recognizes sales proceeds and any related gain or loss on disposal on completion of the sales process. In determining whether the gain or loss should be recorded, the Group considers whether it:

- has a continuing managerial involvement to the degree associated with asset ownership;
- has transferred the significant risks and rewards associated with asset ownership; and
- can reliably measure and will actually receive the proceeds.

Discontinued operations

Discontinued operations are those relating to hotels or operations sold or those classified as held for sale when the results relate to a separate line of business, geographical area of operations, or where there is a co-ordinated plan to dispose of a separate line of business or geographical area of operations.

Exceptional items

The Group discloses certain financial information both including and excluding exceptional items. The presentation of information excluding exceptional items allows a better understanding of the underlying trading performance of the Group and provides consistency with the Group s internal management reporting. Exceptional items are identified by virtue of either their size or nature so as to facilitate comparison with prior periods and to assess underlying trends in financial performance. Exceptional items can include, but are not restricted to, gains and losses on the disposal of assets, impairment charges and reversals, restructuring costs and the release of tax provisions.

Use of accounting estimates and judgments

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and assumptions that have the most significant effect on the amounts recognized in the financial statements are:

Trade receivables a provision for impairment of trade receivables is made on the basis of historical experience and other factors considered relevant by management.

Impairment the Group determines whether goodwill is impaired on an annual basis or more frequently if there are indicators of impairment. Other non-current assets, including property, plant and equipment, are tested for impairment if there are indicators of impairment. Impairment testing requires an estimate of future cash flows and the choice of a suitable discount rate and, in the case of hotels, an assessment of recoverable amount based on comparable market transactions.

System Fund in addition to management or franchise fees, hotels within the IHG system pay cash assessments and contributions which are collected by IHG for specific use within the System Fund (the Fund). The Fund also receives proceeds from the sale of Priority Club Rewards points. IHG exerts significant influence over the operation of the Fund, however the Fund is managed for the benefit of hotels in the system with the objective of driving revenues for the hotels. The Fund is used to pay for marketing, the Priority Club Rewards loyalty program and the global reservation system. The Fund is planned to operate at breakeven with any short-term timing surplus or deficit carried in the Consolidated statement of financial position within working capital.

As all Fund income is designated for specific purposes and does not result in a profit or loss for the Group, the revenue recognition criteria as outlined in the accounting policy above are not met and therefore the income and expenses of the Fund are not included in the Consolidated income statement.

The assets and liabilities relating to the Fund are included in the appropriate headings in the Consolidated statement of financial position as the related legal, but not beneficial, rights and obligations rest with the Group. These assets and liabilities include the Priority Club Rewards liability, short-term timing surpluses and deficits and any receivables and payables related to the Fund.

The cash flows relating to the Fund are reported within cash flow from operations in the Consolidated statement of cash flows due to the close interrelationship between the Fund and the trading operations of the Group.

Further information on the Fund is included in Note 31.

Loyalty program the hotel loyalty program, Priority Club Rewards, enables members to earn points, funded through hotel assessments, during each qualifying stay at an IHG branded hotel and redeem points at a later date for free accommodation or other benefits. The future redemption liability is included in trade and other payables and is estimated using eventual redemption rates determined by actuarial methods and points values. Actuarial gains and losses on the future redemption liability are borne by the System Fund and any resulting changes in the liability would correspondingly adjust the amount of short-term timing differences held in the Consolidated statement of financial position.

Retirement and other post-employment benefits the cost of defined benefit pension plans and other post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases.

Tax provisions for tax accruals require judgments on the interpretation of tax legislation, developments in tax case law and the potential outcomes of tax audits and appeals. In addition, deferred tax assets are recognized for unused tax attributes to the extent that it is probable that taxable profit will be available

against which they can be utilized. Judgment is required as to the amount that can be recognized based on the likely amount and timing of future taxable profits, taking into account expected tax planning. Deferred tax balances are dependent on management s expectations regarding the manner and timing of recovery of the related assets.

Other the Group also makes estimates and judgments in the valuation of franchise and management agreements acquired on asset disposals, the valuation of financial assets classified as available-for-sale, the outcome of legal proceedings and claims and in the valuation of share-based payment costs.

New standards issued but not effective

The following accounting standards, amendments and interpretations with an effective date after the date of these financial statements have not been adopted early by the Group and will be adopted in accordance with the effective date. The Directors do not anticipate that the adoption of these standards, amendments and interpretations will have a material impact on the Group s reported income or net assets in the period of adoption.

IFRS 9 Financial Instruments: Classification and Measurement which is effective from January 1, 2013, introduces new requirements for classifying and measuring financial assets and for measuring financial liabilities at fair value through profit or loss.

IAS 24 (amendment) Related Party Disclosures which is effective from January 1, 2011, clarifies and simplifies the definition of a related party.

IFRIC 14 (amendment) Prepayments of a Minimum Funding Requirement which is effective from January 1, 2011 with retrospective application, permits an entity to treat the prepayment of a minimum funding requirement as an asset.

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments which is effective from July 1, 2010, clarifies that equity instruments issued to a creditor to extinguish a financial liability are measured at fair value with any gain or loss recognized immediately in profit or loss.

IFRS 7 (amendment) Financial Instruments: Disclosures , which is effective from January 1, 2011, amends the credit risk disclosures for financial assets.

IFRIC 13 (amendment) Customer Loyalty Programmes , which is effective from January 1, 2011, clarifies that when the fair value of an award is measured based on redemption value, the amount of discounts granted to customers not in the loyalty program should be taken into account.

Note: the effective dates are in respect of accounting periods beginning on or after the date shown and so will be effective for the Group from January 1, 2011, other than IFRS 9 which will be effective for the Group from January 1, 2013.

Note 2 Exchange Rates and Segmental Information

Exchange Rates

The results of operations have been translated into US dollars at the average rates of exchange for the year. In the case of sterling, the translation rate is $1 = £0.65 (2009 $1 = £0.64, 2008 $1 = £0.55). In the case of the euro, the translation rate is $1 = 0.76 (2009 $1 = 0.72, 2008 $1 = 0.68).

Assets and liabilities have been translated into US dollars at the rates of exchange on the last day of the year. In the case of sterling, the translation rate is $1 = £0.64 (2009 $1 = £0.62, 2008 $1 = £0.69). In the case of the euro, the translation rate is $1 = 0.75 (2009 $1 = 0.69, 2008 $1 = 0.71).

Segmental Information

The management of the Group s operations, excluding Central functions, is organized within three geographical regions:

Americas;

Europe, Middle East and Africa (EMEA); and

Asia Pacific.

These, together with Central functions, comprise the Group s four reportable segments.

The Asia Pacific reportable segment comprises the aggregation of two operating segments, Greater China and Asia Australasia. Central functions include costs of global functions, including technology, sales and marketing, finance, human resources and corporate services; revenue arises principally from technology fee income. Central liabilities include the loyalty program liability and the cumulative short-term System Fund surplus.

Each of the geographical regions derives its revenues from either franchising, managing or owning hotels and additional segmental disclosures are provided accordingly.

Management monitors the operating results of the geographical regions and Central functions separately for the purpose of making decisions about resource allocation and performance assessment. Segmental performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the Consolidated Financial Statements, excluding exceptional items. Group financing and income taxes are managed on a group basis and are not allocated to reportable segments.

In addition, the Group employs 4,489 (2009 4,561, 2008 4,353) people who work in managed hotels or directly on behalf of the System Fund and whose costs of $282 million (2009 $267 million, 2008 $272 million) are borne by those hotels or by the Fund.

Retirement benefits

Retirement and death in service benefits are provided for eligible Group employees in the United Kingdom principally by the InterContinental Hotels UK Pension Plan. The plan, which is funded and HM Revenue & Customs registered, covers approximately 500 (2009 460, 2008 460) employees, of which 140 (2009 150, 2008 170) are in the defined benefit section which provides pensions based on final salaries and 360 (2009 310, 2008 290) are in the defined contribution section. The defined benefit section of the plan closed to new entrants during 2002 with new members provided with defined contribution arrangements. The assets of the plan are held in self-administered trust funds

separate from the Group s assets. In addition, there are unfunded UK pension arrangements for certain members affected by the lifetime allowance. The Group also maintains the following US-based defined benefit plans; the funded InterContinental Hotels Pension Plan, unfunded InterContinental Hotels non-qualified pension plans and post-employment benefits schemes. These plans are now closed to new members. The Group also operates a number of minor pension schemes outside the United Kingdom, the most significant of which is a defined contribution scheme in the United States; there is no material difference between the pension costs of, and contributions to, these schemes.

On January 23, 2009, approval was given for the payment of enhanced pension transfers to those deferred members of the InterContinental Hotels UK Pension Plan who had accepted an offer to receive the enhancement either as a cash lump sum or as an additional transfer value to an alternative pension provider. The payments, comprising lump sum amounts of £5.9 million and additional contributions of £4.3 million, were made by the Group in the first quarter of 2009. The transfer values subsequently paid by the plan were £45 million and the corresponding IAS19 liability extinguished was £38 million. The settlement loss arising of £7 million (being the $11 million exceptional item above), together with the lump sum payment and costs of arrangement, was charged to the Consolidated income statement as an exceptional item in 2009 (see Note 5).

Mortality is the most significant demographic assumption. The current assumptions for the UK plans are based on the S1NA tables with long cohort projections and a one percent per annum underpin to future mortality improvements with age rated down by 1.75 years for pensioners and 1.5 years for non-pensioners. In the United States, the current assumptions are based on the RP-2000 IRS PPA@ 2011 Non-Annuitant/Annuitant healthy tables, for males and females.

Table of Contents

In both territories, the assumptions have been revised during the year to reflect increased life expectancy at retirement age as follows:

	Pension plans					
	UK			US		
	2010	2009	2008	2010	2009	2008
	(Years)					
Current pensioners at 65 male[i]	24	23	23	19	18	18

Future pensioners at 65 male[ii]	26	24	24	21	18	18
Future pensioners at 65 female[ii]	29	27	27	22	21	20

(i) Relates to assumptions based on longevity (in years) following retirement at the end of the reporting period.

(ii) Relates to assumptions based on longevity (in years) relating to an employee retiring in 2030.

The assumptions allow for expected increases in longevity.

Sensitivities

The value of plan assets is sensitive to market conditions, particularly equity values. Changes in assumptions used for determining retirement benefit costs and obligations may have a material impact on the income statement and the consolidated statement of financial position. The main assumptions are the discount rate, the rate of inflation and the assumed mortality rate. The following table provides an estimate of the potential impact of each of these variables on the principal pension plans.

	UK		US	
	Higher/ (lower) pension cost	Increase/ (decrease) in liabilities	Higher/ (lower) pension cost	Increase/ (decrease) in liabilities
	($ million)			
Discount rate 0.25% decrease	0.6	25.8		5.9
Discount rate 0.25% increase	(0.6)	(25.8)		(5.6)
Inflation rate 0.25% increase	1.6	24.8		
Inflation rate 0.25% decrease	(1.6)	(24.8)		
Mortality rate one year increase	0.8	9.9		7.6

A one percentage point increase/(decrease) in assumed healthcare costs trend rate would increase/(decrease) the accumulated post-employment benefit obligations as of December 31, 2010, by approximately $2.5 million (2009 $1.6 million, 2008 $1.7 million).

Funding commitments

The most recent actuarial valuation of the InterContinental Hotels UK Pension Plan was carried out as at March 31, 2009 and showed a deficit of £129 million on a funding basis. Under the recovery plan agreed with the trustees, the

Group aims to eliminate this deficit by March 2017 through additional Company contributions of up to £100 million and projected investment returns. The agreed additional contributions comprise three annual payments of £10 million; £10 million was paid in August 2010 and two further payments of £10 million are due on or before July 31, 2011 and 2012, together with further payments related to the disposal of hotels (7.5% of net sales proceeds) and growth in the Group s EBITDA above specified targets. If required in 2017, a top-up payment will be made to bring the total additional contributions up to £100 million. The Plan is formally valued every three years and future valuations could lead to changes in the amounts payable beyond March 2012.

Company contributions are expected to be $41 million in 2011, including known UK additional contributions of £14 million with further amounts payable if there are any hotel disposals.

The combined assets of the principal plans and expected rate of return are:

	2010		2009		2008

The cumulative amount of net actuarial losses recognized since January 1, 2004 in the Consolidated statement of comprehensive income is $253 million (2009 $208 million, 2008 $150 million). The Group is unable to determine how much of the pension scheme deficit recognized on transition to IFRS of $298 million and taken directly to total equity is attributable to actuarial gains and losses since inception of the schemes. Therefore, the Group is unable to determine the amount of actuarial gains and losses that would have been recognized in the Consolidated statement of comprehensive income before January 1, 2004.

Policy on remuneration of Executive Directors and senior executives

Remuneration policy and structure

IHG s overall remuneration is intended to:

- attract and retain high-quality executives in an environment where compensation is based on global market practice;
- drive aligned focus of the senior executive team and reward the achievement of strategic objectives;
- align rewards of executives with returns to shareholders;
- support equitable treatment between members of the same executive team; and
- facilitate global assignments and relocation.

The Remuneration Committee believes that it is important to reward management, including the Executive Directors, for targets achieved, provided those targets are stretching and aligned with shareholders interests.

IHG s remuneration structure for senior executives places a strong emphasis on performance-related reward. The individual elements are designed to provide the appropriate balance between fixed remuneration and variable risk reward, linked to both the performance of the Group and the achievements of the individual. Approximately two-thirds of variable reward is delivered in the form of shares, to enhance alignment with shareholders.

In reaching its decisions, the Remuneration Committee takes into account a number of factors, including the relationship between remuneration and risk, strategic direction and affordability. Performance-related measures are chosen to ensure a strong link between reward and underlying financial and operational performance.

Summarized below are the individual elements of remuneration provided to Executive Directors and other Executive Committee members, including the purpose of each element. For variable incentive plans, the plan measures and link to Group strategic objectives are also included.

Element	Maximum value	Purpose	Measures and link to strategic objectives
Base Salary (cash)	n/a	Recognizes the market value of the role and the individual s skill, performance and experience	n/a
Annual Bonus (one-half cash and one-half deferred shares)	200% of base salary(1)	Drives and rewards annual performance of individuals and teams against both financial and non-financial metrics Aligns individual employee objectives with those of the Group Aligns short-term annual performance with long-term returns to shareholders	**Group earnings before interest and tax (EBIT)** Provides focus on earnings growth, driven by core operating inputs, namely rooms growth, RevPAR, royalty fees and profit margins **Individual Overall Performance Rating (OPR)** Provides focus on key performance objectives (KPOs) and leadership competencies relative to the individual role. KPOs are linked to strategic priorities, notably: Financial Returns deliver budget and growth targets (EBIT, system size, margin, overheads) Our People employee engagement survey results Guest Experience deliver brand performance targets (guest satisfaction, market share) Responsible Business continue hotel roll-out and adoption of Green Engage sustainability management system
Long Term Incentive Plan (shares)	205% of base salary(2)	Drives and rewards delivery of sustained long-term performance on measures that are aligned with the interests of shareholders	**Total shareholder return (TSR) growth relative to Dow Jones World Hotels index** Aligned with our Vision to become one of the world s great companies by creating Great Hotels Guests Love **Net Rooms growth relative to major competitors(3)** Aligned with Where we compete , supporting our business model, segment and market strategies to grow system size

			Like-for-like revenue per available room (RevPAR) growth relative to major competitors(3) Aligned with How we win , reflecting the power of our brands, scale and experience, and engaged workforce
Pension and benefits (varied)	n/a	Provides a competitive level of benefits, including short-term protection and long-term savings opportunities	n/a

(1) Combined Annual Bonus award (cash and shares) was subject to a temporary maximum cap of 175% of base salary in 2010.

(2) Until 2009, maximum awards were normally granted at 270% of salary.

(3) As outlined on page F-40, from 2011, earnings per share (EPS) is replaced by net Rooms growth and RevPAR growth in the LTIP.

Table of Contents

The normal policy for all Executive Directors and Executive Committee members is that their target performance-related incentives will equate to approximately 70% of total annual remuneration (excluding pensions and benefits).

The Remuneration Committee also reviews the balance of fixed and variable remuneration provided to the wider management population, to ensure these are appropriate given relativities to the Executive Directors and to market practice.

The Company recognizes that its Executive Directors may be invited to become Non-Executive Directors of other companies and that such duties can broaden experience and knowledge, and benefit the Company. Executive Directors are, therefore, permitted to accept one non-executive appointment (in addition to any positions where the Director is appointed as the Group s representative), subject to Board approval, as long as this is not, in the reasonable opinion of the Board, likely to lead to a conflict of interest. Executive Directors are generally authorized to retain the fees received. Current Executive Directors hold no Non-Executive Directorships of other companies.

Base salary and benefits

The salary for each Executive Director is reviewed annually and is based on both individual performance and relevant competitive market data. Base salary is the only element of remuneration which is pensionable. In addition, benefits are provided to Executive Directors in accordance with local market practice.

In assessing levels of pay and benefits, IHG analyzes those offered by different groups of comparator companies. These groups are chosen having regard to participants :

- size market capitalization, turnover, profits and the number of people employed;
- diversity and complexity of business;
- geographical spread of business; and
- relevance to the hotel industry.

Internal relativities and Group-wide remuneration approaches are also taken into account. The Remuneration Committee reviews average base salary levels and average salary increase percentages for the broader IHG workforce.

Executive Directors annual base salaries are shown in the table below:

	2011 Salary	**2010 Salary**
Andrew Cosslett	£850,780	£826,000
James Abrahamson	£477,117*	£469,348
Kirk Kinsell	£477,117*	£462,875
Richard Solomons	£540,000	£523,000

* Messrs Abrahamson and Kinsell are paid in US dollars. James Abrahamson s annual base salary for 2010 was $725,000 and for 2011 is $737,000. Kirk Kinsell s annual base salary for 2010 was $715,000 and for 2011 is

$737,000. The sterling values in the table above have been calculated using an exchange rate of $1= £0.65.

Annual Bonus Plan (ABP)

Structure and outcomes in 2010

Awards under the ABP require the achievement of challenging performance goals before bonus is payable. Achievement of target performance results in a bonus of 115% of salary. Half of any bonus earned is compulsorily deferred in the form of shares for three years. No matching shares are awarded by the Company.

Awards under the ABP are linked to individual performance and EBIT. Individual performance is measured by the achievement of specific KPOs linked directly to the Group s strategic objectives, a selection of which is set out in the table on page F-37, and an assessment against leadership competencies and behaviors.

Each year, specific quantitative targets are set for each Executive Director and Executive Committee member, as relevant to their role. Performance is reviewed at the end of each year to determine an OPR. The OPR determines 30% of the bonus outcome.

EBIT performance determines 70% of the bonus outcome. In 2010, under the financial measure (EBIT), threshold payout was 90% of target performance, with maximum payout at 120% or more of target. Payout for individual performance would be reduced by half if EBIT performance was below threshold. In addition, no annual bonus would be payable on any measure if EBIT performance was lower than 85% of target.

The maximum result for each measure is double its target value. However the combined payout result of the two measures was capped at 175% of base salary.

The 2010 EBIT result was 159%, resulting in a maximum combined payout for all Directors, as shown below:

		Payout as % of salary	
Measure	**Key performance indicator**	**Target**	**Max**
Financial	EBIT (70%)	80.5	161
Individual	OPR (30%)	34.5	69
Total for 2010		115	175*

Actual 2010 result as % of salary	
Andrew Cosslett	175
James Abrahamson	175
Kirk Kinsell	175
Richard Solomons	175

* Combined EBIT and OPR payout subject to a maximum of 175% of base salary.

Structure in 2011

The Annual Bonus structure remains largely unchanged in 2011 with awards under the ABP continuing to require the achievement of challenging EBIT goals before target bonus is payable.

For 2011, the maximum bonus opportunity for the Executive Directors will revert to 200% of salary. Under the financial measure, the EBIT threshold for payout remains at 90% of target performance. However, maximum payout will revert to 110% or more of target.

As with previous years, the achievement of target performance will result in a bonus of 115% of salary. Half of any bonus earned will be deferred in the form of shares for three years. Payout for individual performance will be reduced by half if EBIT performance is below threshold, and no annual bonus will be payable on any measure if EBIT performance is lower than 85% of target.

Long Term Incentive Plan (LTIP)

The LTIP allows Executive Directors and eligible management employees to receive share awards, subject to the achievement of performance conditions set by the Remuneration Committee, measured over a three-year period. Awards are made annually and, other than in exceptional circumstances, will not exceed three times annual salary for Executive Directors.

Structure for 2010/2012 cycle

For the 2010/2012 cycle awards were made at 205% of base salary.

The performance conditions for the cycle are:

- IHG s TSR relative to the Dow Jones World Hotels index (50% weighting); and
- growth in adjusted EPS over the period (50% weighting).

Table of Contents

Awards under the LTIP lapse if performance conditions are not met there is no re-testing. Performance conditions for all outstanding awards are shown in the table on page F-41.

Structure for 2011/2013 cycle

For the 2011/2013 cycle, maximum award levels will remain at 205% of base salary. The Remuneration Committee believes relative TSR is well aligned with the goal of achieving enduring top quartile returns and so TSR will continue to retain a 50% weighting in the LTIP.

Furthermore, the Remuneration Committee concluded that the LTIP can be better aligned with IHG s strategy by replacing EPS with two equally weighted relative growth measures, as follows:

25% of the maximum award will be based on cumulative annual growth of net Rooms; and

25% of the maximum award will be based on cumulative annual like-for-like RevPAR growth.

Growth in both Rooms and RevPAR will be measured on a relative basis against a comparator group of the major globally-branded competitors: Accor, Choice, Hilton, Hyatt, Marriott, Starwood and Wyndham.

Threshold vesting will occur if IHG s TSR growth is equal to the Dow Jones World Hotels index. Maximum vesting will occur if IHG s TSR growth exceeds the index by 8% or more.

In setting the TSR performance target, the Remuneration Committee has taken into account a range of factors, including IHG s strategic plans, historical performance of the industry and FTSE 100 market practice.

For both Rooms growth and RevPAR measures, threshold vesting will occur if IHG performance at least equals the average of the comparator group. Maximum vesting for either measure will only occur if IHG is ranked first in the comparator group. Vesting for points between threshold and maximum will be calculated on a straight-line basis.

The vesting range and weighting for each measure is set out in the table below.

Performance	Threshold	Maximum	Weighting
% of award vesting	20%	100%	
TSR relative to Dow Jones World Hotels index	Match index	Index + 8% per annum	50%
Net Rooms growth relative to comparator group	Average	1st position	25%
RevPAR growth relative to comparator group	Average	1st position	25%

After testing the performance conditions set on grant, the Remuneration Committee will review the vesting outcomes of the Rooms and RevPAR measures against an assessment of earnings and quality of the financial performance of the Company over the period. The Remuneration Committee may reduce the number of shares which vest if they determine such an adjustment is appropriate. IHG s performance and vesting outcomes will be fully disclosed and explained in the relevant Remuneration Report.

Outcomes in 2010 and progress on all current LTIP cycles

The specific vesting performance conditions and position as at December 31, 2010 for all conditional LTIP awards made between 2008 and 2010 are set out in the following table:

Performance measure	Threshold performance	Maximum performance	Threshold(1) vesting	Maximum(1) vesting	Weighting	Maximum award	Outcome/ current position
2008/2010 cycle							
TSR	Growth equal to the index	Growth exceeds the index by 8% or more	20%	100%	50%	135%	Growth outperformance of 8.0%

(3) One year of cycle completed.

Shareholding policy

Share ownership

The Remuneration Committee believes that share ownership by Executive Directors and senior executives strengthens the link between the individual s personal interests and those of the shareholders. Executive Directors are expected to hold twice their base salary in shares, or three times in the case of the Chief Executive. Executives are expected to hold all shares earned (net of any share sales required to meet personal tax liabilities) until their shareholding requirement is achieved.

Executive share options

From 2006, executive share options have not formed part of the Company s remuneration structure. Details of prior share option grants are given on page F-48.

Share capital

No awards or grants over shares were made during 2010 that would be dilutive of the Company s ordinary share capital. Current policy is to settle the majority of awards or grants under the Company s share plans with shares purchased in the market. A number of options granted up to 2005 are yet to be exercised and will be settled with the issue of new shares.

The following table shows the guideline and actual shareholdings of the Executive Directors.

	Guideline shareholding as % of salary	**Actual shareholding at Dec 31, 2010 as % of salary[1]**
Andrew Cosslett	300	747
James Abrahamson[2]	200	138
Kirk Kinsell[2]	200	170
Richard Solomons	200	408

(1) Based on share price of 1,243 pence per share as at December 31, 2010.

(2) Shareholding requirement took effect upon appointment to the Board on August 1, 2010.

Policy regarding pensions

Andrew Cosslett, Richard Solomons and other senior UK-based executives participate on the same basis in the executive section of the registered defined benefit InterContinental Hotels UK Pension Plan and, if appropriate, the InterContinental Executive Top-Up Scheme (ICETUS). The latter is an unfunded arrangement, but with appropriate security provided via a fixed charge on a hotel asset. As an alternative to these unfunded arrangements, a cash allowance may be taken. Following recent changes to UK pensions legislation, the pension provision is under review. This Plan is now closed to new entrants.

James Abrahamson, Kirk Kinsell and other senior US-based executives participate in US retirement benefit plans. Executives outside the United Kingdom and United States participate in the InterContinental Hotels Group International Savings and Retirement Plan or other local plans.

Non-Executive Directors pay policy and structure

Non-Executive Directors are paid a fee which is approved by the Board, taking into account fees paid in other companies of a similar complexity. These fees also reflect the time commitment and responsibilities of the roles. Accordingly, higher fees are payable to the Senior Independent Director who chairs the Audit Committee and to the Chairmen of the Remuneration and Corporate Responsibility Committees, reflecting the additional responsibilities of these roles.

Non-Executive Directors fee levels are reviewed annually. In the final quarter of 2010 an increase of 2% for the Chairman and 3% for the Non-Executive Directors was agreed by the Board to be effective from January 1, 2011. This increase is broadly in line with anticipated salary increases for executive and senior management employees across the wider organization.

The following table sets out the change in annual fee rates from 2010 to 2011 for the Non-Executive Directors.

	Fees at	**Fees at**

	Role	Jan 1, 2011	Jan 1, 2010

Others	Non-Executive Director	£ 65,000	£ 63,000

Service contracts

Policy

The Remuneration Committee s policy is for Executive Directors to have rolling contracts with a notice period of 12 months. Messrs. Cosslett, Abrahamson, Kinsell and Solomons have service agreements with a notice period of 12 months. All new appointments are intended to have 12-month notice periods. However, on occasion, to complete an external recruitment successfully, a longer initial notice period reducing to 12 months may be used, in accordance with the Combined Code.

No provisions for compensation for termination following change of control, nor for liquidated damages of any kind, are included in the current Directors contracts. In the event of any early termination of an Executive Director s contract, the policy is to seek to minimize any liability.

Non-Executive Directors have letters of appointment. David Webster s appointment as Non-Executive Chairman, effective from January 1, 2004, is subject to six months notice. The dates of appointment of the other Non-Executive Directors are set out on page 54.

All Directors appointments and subsequent reappointments are subject to election and re-election by shareholders.

Biographies of each of the Directors and their main responsibilities can be found on pages 54-56.

The Company announced on March 16, 2011 that Andrew Cosslett will step down as Chief Executive on June 30, 2011 and will be succeeded by Richard Solomons. A Director since 2003 and currently Chief Financial Officer and Head of Commercial Development, Richard Solomons will start in his new position as Chief Executive on July 1, 2011.

James Abrahamson	August 1, 2010	12 months
Kirk Kinsell	August 1, 2010	12 months
Richard Solomons	April 15, 2003	12 months

Messrs Cosslett and Solomons signed a letter of appointment, effective from completion of the June 2005 capital reorganization of the Group, incorporating the same terms as their original service agreements.

Richard Solomons signed a contract on March 16, 2011 relating to his employment as Chief Executive, effective from July 1, 2011.

(1) Performance payments comprise cash payments in respect of participation in the ABP but exclude bonus payments in deferred shares, details of which are set out in the ABP table on page F-46. For James Abrahamson and Kirk Kinsell, this also includes a cash payment in lieu of dividends relating to share awards as outlined on page F-46.

(2) Benefits incorporate all tax assessable benefits arising from the individual s employment. This includes, but is not limited to, benefits such as the provision of a fully expensed company car, private healthcare, financial counseling and other benefits as applicable to the individual s work location. This includes the cost of expatriate benefits related to Kirk Kinsell s international assignment.

(3) Messrs. Abrahamson and Kinsell were appointed as Directors on August 1, 2010. Base salaries, performance payments and benefits have been pro-rated from their date of appointment. James Abrahamson s pro-rated base salary is $302,083 and Kirk Kinsell s pro-rated base salary is $297,917. Sterling values have been calculated using an exchange rate of $1= £0.65.

(4) Graham Allan was appointed as a Director on January 1, 2010.

(5) Jennifer Laing s fee was increased, pro rata, from March 1, 2009 when she became Chairman of the Corporate Responsibility Committee.

(6) Sir Ian Prosser retired as a Director on December 31, 2003. However, he had an ongoing healthcare benefit of £1,179 during the year.

Directors pension benefits

The following information relates to the pension arrangements provided for Messrs Cosslett and Solomons under the executive section of the InterContinental Hotels UK Pension Plan (IC Plan) and the unfunded ICETUS.

The executive section of the IC Plan is a funded, registered, final salary, occupational pension scheme. The main features applicable to the Executive Directors are:

a normal pension age of 60;

pension accrual of 1/30th of final pensionable salary for each year of pensionable service;

life assurance cover of four times pensionable salary;

pensions payable in the event of ill health; and

spouses , partners and dependants pensions on death.

When benefits would otherwise exceed a member s lifetime allowance under the post-April 2006 pensions regime, these benefits are limited in the IC Plan, but the balance is provided instead by ICETUS.

James Abrahamson has retirement benefits provided via the Six Continents Hotels, Inc. Deferred Compensation Plan (DCP). Kirk Kinsell has retirement benefits provided via the 401(k) Retirement Plan for employees of Six Continents Hotels, Inc. (401(k)) and the DCP. The 401(k) is a tax qualified plan providing benefits on a defined contribution basis, with the member and the relevant company both contributing. The DCP is a non-tax qualified plan, providing benefits on a defined contribution basis, with the member and the relevant company both contributing.

The following table sets out the pension benefits of the Executive Directors in the final salary plans.

(1) All details of performance conditions in relation to the awards made in respect of cycles ending on December 31, 2010, 2011 and 2012 are provided on page F-41.

(2) This award was based on performance to December 31, 2009. Performance was measured against both the Company s TSR relative to a group of eight other comparator companies and the cumulative annual growth rate (CAGR) in adjusted EPS over the performance period. The number of shares released was determined, according to (a) where the Company finished in the TSR comparator group, with 50% of the award being released for first position and 10% of the award being released for median position; and (b) the cumulative annual growth in adjusted EPS, with 50% of the award being released for growth of 20% per annum or more and 10% of the award being released for growth of 10% per annum. The Company finished in fourth position in the TSR group and achieved 15.2% per annum adjusted EPS growth. Accordingly, 46% of the award vested on February 17, 2010.

Share options

Between 2003 and 2005, grants of options were made under the IHG Executive Share Option Plan. No executive share options have been granted since then.

The Audit Committee has a process to ensure that any non-audit services do not compromise the independence and objectivity of the external auditor and that relevant United Kingdom and United States professional and regulatory requirements are met. A number of criteria are applied when deciding whether pre-approval for such services should be given. These include the nature of the service, the level of fees and the practicality of appointing an alternative provider, having regard to the skills and experience required to supply the service effectively. Cumulative fees for audit and non-audit services are presented to the Audit Committee on a quarterly basis for review. The Audit Committee is responsible for monitoring adherence to the pre-approval policy.

** Relates to hotels classified as discontinued operations.

The above items are treated as exceptional by reason of their size or nature.

(i) An onerous contract provision of $65 million was recognized at December 31, 2009 for the future net unavoidable costs under the performance guarantee related to certain management contracts with one US hotel owner. In addition to the provision, a deposit of $26 million was written off as it is no longer considered recoverable under the terms of the same management contracts.

(ii) Relates to costs incurred in support of the worldwide relaunch of the Holiday Inn brand family that was announced on October 24, 2007.

(iii) Primarily relates to the closure of certain corporate offices together with severance costs arising from a review of the Group s cost base.

(iv) Estimate of the amount potentially payable in respect of a prior year claim following an unfavorable court judgment on February 23, 2011. Any final amount will not be known until the court process is complete.

(v) Related to the payment of enhanced pension transfers to those deferred members of the InterContinental Hotels UK Pension Plan who had accepted an offer to receive the enhancement either as a cash lump sum or as an additional transfer value to an alternative pension plan provider. The exceptional item in 2009 comprised the lump sum payments ($9 million), the IAS 19 settlement loss arising on the pension transfers ($11 million) and the costs of the arrangement ($1 million). The payments and transfers were made in January 2009.

(vi) Relates to the gain on sale of an investment in the EMEA region, in both 2010 and 2008.

(vii) Represents the release of provisions of $7 million (2009 $175 million, 2008 $25 million) which are exceptional by reason of their size or nature relating to tax matters which had been settled or in respect of which the relevant statutory limitation period has expired, together with, in 2010, a $7 million charge relating to an internal reorganization. This charge comprises the recognition of deferred tax assets of $24 million for capital losses and other deductible amounts, offset by tax charges of $31 million.

(viii) In 2010, relates to tax refunded relating to the sale of a hotel in a prior year. In 2009 and 2008, related to tax arising on disposals together with the release of provisions no longer required in respect of hotels disposed of in prior years.

Tax paid

Total net tax paid during the year of $68 million (2009 $2 million, 2008 $2 million) comprises $64 million paid (2009 $1 million paid, 2008 $1 million received) in respect of operating activities and $4 million paid (2009 $1 million, 2008 $3 million) in respect of investing activities.

Tax paid is lower than the current period income tax charge primarily due to the receipt of refunds in respect of prior years together with provisions for tax for which no payment of tax has currently been made.

Tax risks, policies and governance

It is the Group s objective to comply fully with its worldwide corporate income tax filing, payment and reporting obligations, whilst managing its tax affairs within acceptable risk parameters on a basis consistent with the Group s overall business conduct principles in order to minimize its worldwide liabilities in the best interests of its

shareholders. The Group adopts a policy of open co-operation with tax authorities, with full disclosure of relevant issues.

The Group s tax objectives and policies, and any changes thereto, are reviewed and approved by the Audit Committee. Regular tax reports are made to the Chief Financial Officer in addition to an annual presentation to the Audit Committee covering the Group s tax position, strategy and major risks. Tax is also encompassed within the Group s formal risk management procedures and any material tax disputes, litigation or tax planning activities are subject to internal risk review and management approval procedures.

The final dividend of 22.0 pence (35.2 cents converted at the closing exchange rate on February 11, 2011) is proposed for approval at the Annual General Meeting on May 27, 2011 and is payable on the shares in issue at March 25, 2011.

Note 9 Earnings per ordinary share

Basic earnings per ordinary share is calculated by dividing the profit for the year available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the year.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the year.

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items, to give a more meaningful comparison of the Group s performance.

The impairment charge in 2010 arose in respect of one hotel in the Americas following a re-assessment of its recoverable amount, based on value in use. Estimated future cash flows were discounted at a pre-tax rate of 11.8%. The charge is included within impairment on the face of the Consolidated income statement.

The impairment charge in 2009 arose as a result of the economic downturn and a re-assessment of the recoverable amount of certain properties, based on value in use. The charge, which is included within impairment on the face of the Consolidated income statement, comprised $20 million in respect of a North American hotel and $8 million relating to a European hotel. Estimated future cash flows were discounted at pre-tax rates of 14.0% and 12.5% respectively.

The carrying value of property, plant and equipment held under finance leases at December 31, 2010 was $183 million (2009 $187 million).

The carrying value of assets in the course of construction was $nil (2009 $nil).

No borrowing costs were capitalized during the year (2009 $nil).

Charges over one hotel totaling $85 million exist as security provided to the Group s pension plans.

Note 11 Assets sold, held for sale and discontinued operations

There were no assets or liabilities classified as held for sale at either December 31, 2010 or December 31, 2009.

Subsequent to December 31, 2010, four hotels, including the InterContinental Barclay in New York, met the held for sale criteria of IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Three of the properties are located in North America and one in Australia, and all are expected to be sold within 12 months. The fair value less estimated costs to sell for each property exceeds its net book value.

During the year ended December 31, 2010, two hotels in the Americas were sold including the InterContinental Buckhead, Atlanta on July 1, 2010 for a profit of $27 million.

Table of Contents

During the year ended December 31, 2009, one hotel was sold and four others were reclassified as property, plant and equipment at June 30, 2009 when they no longer met the held for sale criteria of IFRS 5 Non-current Assets Held for Sale and Discontinued Operations as sales were no longer considered highly probable within the next 12 months. On reclassification, valuation adjustments of $45 million were recognized, comprising $14 million of depreciation not charged whilst held for sale and $31 million of further write-downs to recoverable amounts, as required by IFRS 5. Recoverable amounts were assessed by reference to value in use with the expected future cash flows for the North American hotels comprising substantially all of the write-downs discounted at a pre-tax rate of 12.5%. The valuation adjustments are included within impairment on the face of the Consolidated income statement.

During the year ended December 31, 2008, one hotel was sold.

Net book value at January 1,	82	143

Goodwill arising on business combinations that occurred before January 1, 2005 was not restated on adoption of IFRS as permitted by IFRS 1.

Impairment charges are included within impairment on the face of the Consolidated income statement and all cumulative impairment losses relate to the Americas managed cash-generating unit (see below).

Goodwill has been allocated to cash-generating units (CGUs) for impairment testing as follows:

	Cost		Net book value	
	At December 31,			
	2010	2009	2010	2009
	($ million)			
Asia Australasia franchised and managed operations	92	82	92	82
Americas managed operations	141	141		
	233	223	92	82

The Group tests goodwill for impairment annually, or more frequently if there are any indications that an impairment may have arisen. The recoverable amounts of the CGUs are determined from value in use calculations. These calculations use pre-tax cash flow forecasts derived from the most recent financial budgets and strategic plans

approved by management covering a five-year period or, in absence of up-to-date strategic plans, the financial budget for the next year with an extrapolation of the cash flows for the following four years, using growth rates based on management s past experience and industry growth forecasts. After the five-year planning period, the terminal value of the future cash flows is calculated based on perpetual growth rates that do not exceed the average long-term growth rates for the relevant markets. Pre-tax discount rates are used to discount the cash flows based on the Group s weighted average cost of capital adjusted to reflect the risks specific to the business model and territory of the CGU being tested.

Asia Australasia goodwill

At December 31, 2010, the recoverable amount of the CGU has been assessed based on the approved budget for 2011 and strategic plans covering a five-year period, a perpetual growth rate of 3.5% (2009 3.5%) and a discount rate of 14.4% (2009 14.2%).

Impairment was not required at either December 31, 2010 or December 31, 2009 and management believe that the carrying value of the CGU would only exceed their recoverable amounts in the event of highly unlikely changes in the key assumptions.

Americas goodwill

Americas managed operations incurred significant operating losses during 2009 as a result of the global economic downturn and, in particular, IHG s funding obligations under certain management contracts with one US hotel owner. As a consequence, goodwill was tested on a quarterly basis during 2009 using updated five-year projections prepared by management, a perpetual growth rate of 2.7% and a discount rate of 12.5%. Due to the expectation of continuing losses, the recoverable value of the CGU declined resulting in the impairment of the remaining goodwill balance during 2009. Total impairment charges of $78 million were recognized in 2009 ($57 million at June 30, 2009 and $21 million at September 30, 2009). As the goodwill is impaired in full, there is no sensitivity around any assumptions that could lead to a further impairment charge.

The impairment charge in 2009 arose as a result of the economic downturn and a revision to the fee income expected to be earned under a US management contract. Estimated future cash flows were discounted at a pre-tax rate of 12.5% (previous valuation 12.5%).

The charge is included within impairment on the face of the Consolidated income statement.

The weighted average remaining amortization period for management contracts is 21 years (2009 22 years).

Note 14 Investment in associates

Available-for-sale financial assets, which are included in the Consolidated statement of financial position at fair value, consist of equity investments in listed and unlisted shares. Of the total amount of equity investments at December 31, 2010, $3 million (2009 $2 million) were listed securities and $84 million (2009 $69 million) unlisted; $41 million (2009 $39 million) were denominated in US dollars, $17 million (2009 $14 million) in Hong Kong dollars and $29 million (2009 $18 million) in other currencies. Unlisted equity shares are mainly investments in entities that own hotels which the Group manages. The fair value of unlisted equity shares has been estimated using valuation guidelines issued by the British Venture Capital Association and is based on assumptions regarding expected future earnings. Listed equity share valuation is based on observable market prices. Dividend income from available-for-sale equity securities of $8 million (2009 $7 million, 2008 $11 million) is reported as other operating income and expenses in the Consolidated income statement.

Other financial assets consist of trade deposits and restricted cash. These amounts have been designated as loans and receivables and are held at amortized cost. Restricted cash of $42 million (2009 $47 million) relates to cash held in bank accounts which is pledged as collateral to insurance companies for risks retained by the Group.

The movement in the provision for impairment of other financial assets during the year is as follows:

	Year ended December 31, 2010	Year ended December 31, 2009
	($ million)	
At January 1,	(25)	(11)
Provided exceptional items (Note 5)	(1)	(14)
At December 31,	(26)	(25)

The amounts provided as exceptional items relate to available-for-sale equity investments and have arisen as a result of significant and prolonged declines in their fair value below cost. In 2009, a deposit of $26 million was written off directly to the income statement as an exceptional item (see Note 5) as it is no longer considered recoverable under the terms of the related management contracts which are deemed onerous.

The provision is used to record impairment losses unless the Group is satisfied that no recovery of the amount is possible; at that point the amount considered irrecoverable is either written off directly to the income statement, or, if previously provided, against the financial asset with no impact on the income statement.

The onerous management contracts provision relates to the unavoidable net cash outflows that are expected to be incurred under performance guarantees associated with certain management contracts. The non-current portion of the provision is expected to be utilized over the period to 2020.

For accounting purposes, provision is made for outstanding litigation when management consider it probable that an outflow of economic benefit may occur even though defense of such claims may still be ongoing through the relevant court processes.

Note 21 Financial risk management

Overview

The Group s treasury policy is to manage financial risks that arise in relation to underlying business needs. The activities of the treasury function are carried out in accordance with Board approved policies and are subject to regular audit. The treasury function does not operate as a profit center.

The treasury function seeks to reduce the financial risk of the Group and manages liquidity to meet all foreseeable cash needs. Treasury activities include money market investments, spot and forward foreign exchange instruments, currency options, currency swaps, interest rate swaps and options and forward rate agreements. One of the primary objectives of the Group s treasury risk management policy is to mitigate the adverse impact of movements in interest rates and foreign exchange rates.

Market risk exposure

The US dollar is the predominant currency of the Group s revenue and cash flows. Movements in foreign exchange rates can affect the Group s reported profit, net assets and interest cover. To hedge translation exposure,

wherever possible, the Group matches the currency of its debt (either directly or via derivatives) to the currency of its net assets, whilst maximizing the amount of US dollars borrowed to reflect the predominant trading currency.

Foreign exchange transaction exposure is managed by the forward purchase or sale of foreign currencies or the use of currency options. Most significant exposures of the Group are in currencies that are freely convertible.

A general strengthening of the US dollar (specifically a five cent fall in the sterling : US dollar rate) would increase the Group s profit before tax by an estimated $3.5 million (2009 $1.6 million, 2008 $4.0 million) and decrease net assets by an estimated $5.6 million (2009 $4.1 million, 2008 $1.1 million). Similarly, a five cent fall in the euro : US dollar rate would reduce the Group s profit before tax by an estimated $1.4 million (2009 $0.7 million, 2008 $2.0 million) and decrease net assets by an estimated $8.2 million (2009 $4.5 million, 2008 $4.3 million).

Interest rate exposure is managed within parameters that stipulate that fixed rate borrowings should normally account for no less than 25% and no more than 75% of net borrowings for each major currency. This is usually achieved through the use of interest rate swaps. Due to relatively low interest rates and the level of the Group s debt, 100% of borrowings were fixed rate debt or had been swapped into fixed rate borrowings at December 31, 2010.

Based on the year-end net debt position and given the underlying maturity profile of investments, borrowings and hedging instruments at that date, a one percentage point rise in US dollar interest rates would increase the annual net interest charge by approximately $nil (2009 $0.8 million, 2008 $4.7 million). A similar rise in euro and sterling interest rates would increase the annual net interest charge by approximately $nil (2009 $1.1 million, 2008 $1.2 million) and $nil (2009 $nil, 2008 $0.9 million) respectively.

Liquidity risk exposure

The treasury function ensures that the Group has access to sufficient funds to allow the implementation of the strategy set by the Board. At the year end, the Group had access to $1,452 million of undrawn committed facilities. Medium and long-term borrowing requirements are met through the $1.6 billion Syndicated Facility which expires in May 2013 and through the £250 million 6% bonds that are repayable on December 9, 2016. Short-term borrowing requirements are met from drawings under bilateral bank facilities.

The Syndicated Facility contains two financial covenants: interest cover and net debt divided by earnings before interest, tax, depreciation and amortization (EBITDA). Net debt is calculated as total borrowings less cash and cash equivalents. The Group is in compliance with all of the financial covenants in its loan documents, none of which is expected to present a material restriction on funding in the near future.

At the year end, the Group had cash of $78 million which is held in short-term deposits and cash funds which allow daily withdrawals of cash. Most of the Group s funds are held in the United Kingdom or United States and there are no material funds where repatriation is restricted as a result of foreign exchange regulations.

Credit risk exposure

Credit risk on treasury transactions is minimized by operating a policy on the investment of surplus cash that generally restricts counterparties to those with an A credit rating or better or those providing adequate security.

Notwithstanding that counterparties must have an A credit rating or better, during periods of significant financial market turmoil, counterparty exposure limits are significantly reduced and counterparty credit exposure reviews are broadened to include the relative placing of credit default swap pricings.

The Group trades only with recognized, creditworthy third parties. It is the Group s policy that all customers who wish to trade on credit terms are subject to credit verification procedures.

In respect of credit risk arising from financial assets, the Group s exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Capital risk management

The Group manages its capital to ensure that it will be able to continue as a going concern. The capital structure consists of net debt, issued share capital and reserves totaling $1,014 million at December 31, 2010 (2009

$1,241 million). The structure is managed to maintain an investment grade credit rating, to provide ongoing returns to shareholders and to service debt obligations, whilst maintaining maximum operational flexibility. A key characteristic of IHG s managed and franchised business model is that it generates more cash than is required for investment in the business, with a high return on capital employed. Surplus cash is either reinvested in the business, used to repay debt or returned to shareholders. The Group maintains a conservative level of debt which is monitored on the basis of a cashflow leverage ratio, being net debt divided by EBITDA.

Hedging

Interest rate risk

The Group hedges its interest rate risk by taking out interest rate swaps to fix the interest flows on between 25% and 75% of its net borrowings in major currencies, although 100% of interest flows were fixed at December 31, 2010. At December 31, 2010, the Group held interest rate swaps (swapping floating for fixed) with notional principals of $100 million and 75 million (2009 $250 million and 75 million). The Group designates its interest rate swaps as cash flow hedges (see Note 23 for further details).

Foreign currency risk

The Group is exposed to foreign currency risk on income streams denominated in foreign currencies. From time to time, the Group hedges a portion of forecast foreign currency income by taking out forward exchange contracts. The designated risk is the spot foreign exchange risk. There were no such contracts in place at either December 31, 2010 or December 31, 2009.

Hedge of net investment in foreign operations

The Group designates its foreign currency bank borrowings and currency derivatives as net investment hedges of foreign operations. The designated risk is the spot foreign exchange risk for loans and short dated derivatives and the forward risk for the seven-year currency swaps. The interest on these financial instruments is taken through financial income or expense except for the seven-year currency swaps where interest is taken to the currency translation reserve.

At December 31 2010, the Group held currency swaps with a principal of $415 million (2009 $415 million) and short dated foreign exchange swaps with principals of 75 million (2009 nil) and HK$70 million (2009 nil). See Note 23 for further details. The maximum amount of foreign exchange derivatives held during the year as net investment hedges and measured at calendar quarter ends were currency swaps with a principal of $415 million (2009 $415 million) and short dated foreign exchange swaps with principals of HK$280 million and 75 million.

Hedge effectiveness is measured at calendar quarter ends. No ineffectiveness arose in respect of either the Group s cash flow or net investment hedges during the current or prior year.

* Financial assets and liabilities which are measured at fair value.

The fair value of cash and cash equivalents approximates book value due to the short maturity of the investments and deposits. Equity securities available-for-sale and derivatives are held in the Consolidated statement of financial position at fair value as set out in Note 15 and Note 23. The fair value of other financial assets approximates book value based on prevailing market rates. The fair value of borrowings, excluding finance lease obligations and the fixed rate $250 million 6% bonds, approximates book value as interest rates reset to market rates on a frequent basis. The fair value of the £250 million 6% bonds is based on the quoted market price. The fair value of the finance lease obligations is calculated by discounting future cash flows at prevailing interest rates. The fair value of trade and other receivables, trade and other payables and provisions approximates to their carrying value, including the future redemption liability of the Group s loyalty program.

Fair value hierarchy

The Group uses the following valuation hierarchy to determine the carrying value of financial instruments that are measured at fair value:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

	At December 31, 2010				At December 31, 2009			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

Liabilities								
Derivatives		(44)		(44)		(20)		(20)

There were no transfers between Level 1 and Level 2 fair value measurements during the year and no transfers into and out of Level 3.

The following table reconciles movements in instruments classified as Level 3 during the year:

	At December 31, 2010 ($ million)	At December 31, 2009 ($ million)
At January 1,	69	68

*

The impairment charge recognized in the income statement (see Note 5) also includes $1 million (2009 $4 million) of losses reclassified from equity.

The Level 3 equity securities relate to investments in unlisted shares which are valued by applying an average price-earnings (P/E) ratio for a competitor group to the earnings generated by the investment. A 10% increase in the average P/E ratio would result in a $4 million increase in the fair value of the investments (2009 $5 million) and a 10% decrease in the average P/E ratio would result in a $4 million decrease in the fair value of the investments (2009 $5 million).

The Group has the option to extend the term of the lease for two additional 20-year terms. Payments under the lease step up at regular intervals over the lease term.

£250 million 6% bonds

The 6% fixed interest sterling bonds were issued on December 9, 2009 and are repayable in full on December 9, 2016. Interest is payable annually on December 9, in each year commencing December 9, 2010 to the maturity date. The bonds were initially priced at 99.465% of face value and are unsecured. Currency swaps were transacted at the same time the bonds were issued in order to swap its proceeds and interest flows into US dollars (see Note 23 for further details).

Table of Contents

Unsecured bank loans

Unsecured bank loans are borrowings under the Group s Syndicated Facility and its short-term bilateral loan facilities. Amounts are classified as non-current when the facilities have more than 12 months to expiry. These facilities contain financial covenants and, as at the end of the reporting period, the Group was not in breach of these covenants, nor had any breaches or defaults occurred during the year. At January 1, 2009 the Group had access to a $0.5 billion term loan with a 30-month maturity and a $1.6 billion five-year revolving credit facility. In December 2009, $415 million of the term loan was repaid with proceeds from the bond issue and the remaining $85 million was repaid in September 2010. The $1.6 billion revolving credit facility matures in May 2013.

Table of Contents

Currency swaps

At December 31, 2010, the Group held currency swaps with a principal of $415 million (2009 $415 million). These swaps were transacted at the same time as the £250 million 6% bonds were issued in December 2009 in order to swap the bonds proceeds and interest flows into US dollars. Under the terms of the swaps, $415 million was borrowed and £250 million deposited for seven years at a fixed exchange rate of 1.66. The fair value of the currency swap comprises two components; $27 million (2009 $10 million) relating to the repayment of the underlying principal and $11 million (2009 $3 million) relating to interest payments. The element relating to the underlying principal is disclosed as a component of net debt (see Note 24). The currency swaps are designated as net investment hedges.

Interest rate swaps

At December 31, 2010, the Group held interest rate swaps with notional principals of $100 million and 75 million (2009 $250 million and 75 million). These swaps are held to fix the interest payable on borrowings under the Syndicated Facility; at December 31, 2010, $100 million of US dollar borrowings were fixed at 1.99% until May 2012 and 75 million of euro borrowings were fixed at 5.25% until June 2011. The interest rate swaps have been designated as cash flow hedges.

Forward foreign exchange contracts

At December 31, 2010, the Group held short dated foreign exchange swaps with principals of 75 million and HK$70 million (2009 nil). The swaps are used to manage US dollar surplus cash and reduce euro and Hong Kong dollar borrowings whilst maintaining operational flexibility. The foreign exchange swaps have been designated as net investment hedges.

Deferred gains on loan notes includes $55 million (2009 $55 million) which is expected to fall due for payment in 2016.

The deferred tax asset of $150 million (2009 $146 million) recognized in respect of losses includes $113 million (2009 $97 million) in respect of capital losses available to be utilized against the realization of capital gains which are recognized as a deferred tax liability and $37 million (2009 $49 million) in respect of revenue tax losses. Deferred tax assets of $88 million are recognized in relation to legal entities which suffered a tax loss in the current or preceding period. These assets are recognized based upon future taxable profit forecasts for the entities concerned.

Tax losses with a net tax value of $411 million (2009 $517 million), including capital losses with a value of $148 million (2009 $196 million), have not been recognized. These losses may be carried forward indefinitely with the exception of $16 million which expires after six years (2009 $1 million which expires after 15 years, $1 million which expires after nine years and $14 million which expires after seven years). Deferred tax assets with a net tax value of $nil (2009 $9 million) in respect of share-based payments, $15 million (2009 $13 million) in respect of employee benefits and $5 million (2009 $7 million) in respect of other items have not been recognized. These losses and other deferred tax assets have not been recognized as the Group does not anticipate being able to offset these against future profits or gains in order to realize any economic benefit in the foreseeable future. However, future benefits may arise depending on future profits arising or on the outcome of EU case law and legislative developments.

At December 31, 2010 the Group has not provided deferred tax in relation to temporary differences associated with post-acquisition undistributed earnings of subsidiaries as the Group is in a position to control the timing of reversal of these temporary differences and it is probable that they will not reverse in the foreseeable future. Following the introduction of a UK dividend exemption regime, the tax which would arise upon reversal of the temporary differences is not expected to exceed $20 million.

Other short-term temporary differences relate primarily to provisions and accruals and share-based payments.

Note 26 Share-based payments

Annual Bonus Plan

The IHG Annual Bonus Plan enables eligible employees, including Executive Directors, to receive all or part of their bonus in the form of shares together with, in certain cases, a matching award of free shares of up to half the deferred amount. The bonus and any matching shares awarded are released on the third anniversary of the award date. The bonuses in 2007 were eligible for matching shares, all of which will be released on the third anniversary of the award date. In 2007, participants could defer up to 100% of the total annual bonus, with the deferred amount being accounted for as a share-based payment. Under the terms of the 2008, 2009 and 2010 plans, a fixed percentage of the bonus is awarded in the form of shares with no voluntary deferral and no matching shares. The awards in all of the plans are conditional on the participants remaining in the employment of a participating company or leaving for a qualifying reason as per the plan rules. Participation in the Annual Bonus Plan is at the discretion of the Remuneration Committee. The number of shares is calculated by dividing a specific percentage of the participant s annual performance-related bonus by the middle market quoted prices on the three consecutive dealing days immediately preceding the date of grant. A number of executives participated in the plan during the year however, no conditional rights over shares (2009 1,058,734, 2008 661,657) were awarded to participants. In 2009 this number included 228,000 shares awarded as part of recruitment terms or for one-off individual performance-related awards.

Long Term Incentive Plan

The Long Term Incentive Plan allows Executive Directors and eligible employees to receive share awards, subject to the satisfaction of performance conditions, set by the Remuneration Committee, which are normally measured over a three-year period. Awards are normally made annually and, except in exceptional circumstances, will not exceed three times salary for Executive Directors and four times salary in the case of other eligible employees. During the year, conditional rights over 2,602,773 (2009 5,754,548, 2008 5,060,509) shares were

Table of Contents

awarded to employees under the plan. The plan provides for the grant of nil cost options to participants as an alternative to conditional share awards.

Executive Share Option Plan

For options granted, the option price is not less than the market value of an ordinary share, or the nominal value if higher. The market value is the quoted price on the business day preceding the date of grant, or the average of the middle market quoted prices on the three consecutive dealing days immediately preceding the date of grant. A performance condition has to be met before options can be exercised. The performance condition is set by the Remuneration Committee. The plan was not operated during 2010 and no options were granted in the year under the plan. The latest date that any options may be exercised is April 4, 2015.

Sharesave Plan

The Sharesave Plan is a savings plan whereby employees contract to save a fixed amount each month with a savings institution for three or five years. At the end of the savings term, employees are given the option to purchase shares at a price set before savings began. The Sharesave Plan is available to all UK employees (including Executive Directors) employed by participating Group companies provided that they have been employed for at least one year. The plan provides for the grant of options to subscribe for ordinary shares at the higher of nominal value and not less than 80% of the middle market quotations of the ordinary shares on the three dealing days immediately preceding the invitation date. The plan was not operated during 2010 and no options were granted in the year under the plan. There were no options outstanding at January 1, 2010.

US Employee Stock Purchase Plan

The US Employee Stock Purchase Plan will allow eligible employees resident in the United States an opportunity to acquire Company American Depositary Shares (ADS s) on advantageous terms. The option to purchase ADSs may be offered only to employees of designated subsidiary companies. The option price may not be less than the lesser of either 85% of the fair market value of an ADS on the date of grant or 85% of the fair market value of an ADS on the date of exercise. Options granted under the plan must generally be exercised within 27 months from the date of grant. The plan was not operated during 2010 and at December 31, 2010 no options had been granted under the plan.

Former Six Continents Share Schemes

Under the terms of the separation of Six Continents PLC in 2003, holders of options under the Six Continents Executive Share Option Schemes were given the opportunity to exchange their Six Continents PLC options for equivalent value new options over IHG shares. As a result of this exchange, 23,195,482 shares were put under option at prices ranging from 308.5 pence to 593.3 pence. The exchanged options were immediately exercisable and are not subject to performance conditions. During 2010, 1,016,572 (2009 380,457) such options were exercised and 82,076 (2009 43,088) lapsed, leaving a total of 902,412 (2009 2,001,060) such options outstanding at prices ranging from 308.5 pence to 434.2 pence. The latest date that any options may be exercised is October 3, 2012.

The Group recognized a cost of $32 million (2009 $22 million, 2008 $47 million) in operating profit and $1 million (2009 $2 million, 2008 $2 million) within exceptional administrative expenses related to equity-settled share-based payment transactions during the year.

The aggregate consideration in respect of ordinary shares issued under option schemes during the year was $19 million (2009 $11 million, 2008 $2 million).

The following table sets forth awards and options granted during 2010. No awards were granted under the Annual Bonus Plan, Executive Share Option Plan, Sharesave Plan or US Employee Stock Purchase Plan during the year.

In limited cases, the Group may provide performance guarantees to third-party hotel owners to secure management contracts. The maximum unprovided exposure under such guarantees was $90 million at December 31, 2010 (2009 $106 million).

As of December 31, 2010, the Group had outstanding letters of credit of $54 million (2009 $54 million) mainly relating to self insurance programs.

The Group may guarantee loans made to facilitate third-party ownership of hotels in which the Group has an equity interest and also a management contract. As of December 31, 2010, there were no such guarantees in place (2009 $22 million).

From time to time, the Group is subject to legal proceedings the ultimate outcome of each being always subject to many uncertainties inherent in litigation. The Group has also given warranties in respect of the disposal of certain of its former subsidiaries. It is the view of the Directors that, other than to the extent that liabilities have been provided for in these financial statements, such legal proceedings and warranties are not expected to result in material financial loss to the Group.
