**FOREST LABORATORIES SENDS OPEN LETTER TO SHAREHOLDERS
Recommends Shareholders Vote the WHITE Proxy Card For All Forest Nominees in
Advance of August 18 Annual Meeting**

NEW YORK, August 11, 2011 Forest Laboratories, Inc. (NYSE: FRX) (Forest) today sent the following open letter to all Forest shareholders in connection with the Company s Annual Meeting on August 18, 2011.

August 11, 2011

Dear Fellow Shareholders,

Our 2011 Annual Meeting of Shareholders is just one week away. We are writing to ask you to vote for our slate of ten talented, experienced and extremely well qualified Board nominees, who are all committed to delivering value for you, our shareholders. Leading proxy advisory firms Institutional Shareholder Services (ISS) and Egan-Jones agree with your Board s unanimous recommendation that you vote for our entire slate of ten highly qualified, talented and experienced director nominees and reject the alternative slate of hand-picked designees nominated by shareholder Carl Icahn.

Your vote is important no matter how many shares you own. Please vote the WHITE proxy card today.

**Forest Has Strong Track Record of Delivering Value for Shareholders and One of the
Strongest and Most Diversified Pipelines in the Industry**

The Forest Board and management team have a long track record of delivering strong shareholder returns:

Over the last 10 years, Forest s revenues and earnings have increased at compound annual growth rates of 12.1% and 16.5%, respectively.

Forest s stock price has outperformed the S&P 500 and the AMEX Pharmaceutical Index (DRG) over both the short term and the long term.

Forest s Board and management team continue to drive positive financial and operational results and have worked diligently to diversify the Company s product

portfolio, pursuing new, high-potential products in key therapeutic areas with significant unmet medical needs. Today, Forest is strong and performing well and has developed one of the deepest and most promising product portfolios in the industry, including a total of nine new products, five of which have already been launched. We anticipate launching the other four products by 2013 and have made good progress toward this goal, having filed NDAs for both acridinium and linaclotide as planned for this year. As these Next 9 products are expected to grow and diversify Forest's revenues in the years ahead, this is a time of tremendous opportunity for Forest, and the Board and senior management team are confident that we are on the right course to deliver a highly attractive return and enduring value for our shareholders.

Our New 3 Nominees Will Help Maximize the Potential of Our Next 9

In addition to our seven highly qualified incumbent directors, we have nominated three outstanding new independent candidates with strong executive experience, no prior relationships with the Company, and no conflicts with Forest. These New 3 candidates Christopher Coughlin, Gerald Lieberman and Brent Saunders bring fresh eyes and valuable operating experience and financial expertise to the Forest Board.

Our slate represents an appropriate balance of new perspectives including five new independent directors in the last five years and incumbent Board members who have helped build value and execute the Company's strategy over the longer term. All ten Forest candidates are committed to transparency and responsiveness to shareholder concerns, will work on behalf of all investors and ensure board-level focus on maximizing the potential of our robust pipeline.

Leading Proxy Advisory Firms Recommend that Shareholders

Support Forest's Nominees

Three independent proxy advisory firms have announced their strong support for Forest's nominees:

Institutional Shareholder Services (ISS) said that Icahn has not demonstrated a compelling case that change at the Board level is needed¹ and recommended FOR ALL 10 of Forest's nominees.

¹ ISS Proxy Report, August 10, 2011, p. 24

Egan-Jones stated it was not convinced that the election of the dissidents' slate of nominees...would work to the benefit of shareholders² and recommended FOR ALL 10 of Forest's nominees.

Glass Lewis rejected all but one of Icahn's nominees, thereby effectively supporting 9 OUT OF 10 of Forest's nominees.

We are gratified by these positive recommendations, which we believe reflect our strong track record of developing new products, the high caliber of our director candidates and the balance of valuable experience and new perspectives we have assembled on our slate.

However, we respectfully disagree with Glass Lewis's recommendation for Icahn nominee Richard Mulligan, who we believe is clearly less qualified than Forest's nominees and has an obvious conflict of interest due to his service on the board of Biogen Idec, which actively competes with Forest for new product licensing and acquisition opportunities in the areas of cardiovascular health, neurology, and infectious diseases.

The HHS-OIG Matter Has Been Finally, and Rightfully, Resolved

Last Friday, the Office of the Inspector General of Health and Human Services (HHS-OIG) informed Howard Solomon that it has decided not to exclude him from participating in federal healthcare programs and considers this matter closed.

We are happy that this issue has been finally, and rightfully, resolved. As we put this matter behind us, we remain diligent in our commitment to excellence and in upholding the highest standards both in our pharmaceutical operations and in our corporate governance.

**Forest's Nominees Deserve Your Support
Vote the WHITE Proxy Card Today**

Support your Board by voting the WHITE proxy card TODAY. You may vote by telephone, internet or by signing, dating and returning the enclosed **WHITE** proxy card in the postage-paid envelope. We also urge you to **DISCARD ANY GOLD PROXY CARD** sent to you by Mr. Icahn or his affiliates. If you have already returned a gold proxy card, you can change your vote by signing, dating and returning a **WHITE** proxy card. Only your latest dated proxy card will be counted.
