NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES: The consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The Company believes that the disclosures made in this report are adequate to make the information presented not misleading. These condensed financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's latest annual report on Form 10-KSB. In the opinion of the Company, all adjustments, consisting of normal recurring adjustments, necessary to present fairly the financial position of Omni U.S.A., Inc. and subsidiaries as of December 31, 2001, and the results of their operations and cash flows for the six month and three month periods ended December 31, 2001, and December 31, 2000, in accordance with generally accepted accounting principles in the United States have been included.

Edgar Filing: OMNI USA INC - Form 10QSB

At December 31, 2001 the Company is not in compliance with its revolving line of credit with a finance company and has defaulted on two of its two long-term debt agreements. The Company is currently delinquent on \$175,396 in monthly principle and interest payments to an equipment manufacturer and \$159,442 in quarterly principle and interest payments to Paccar. Total outstanding principal on these notes amounts to approximately \$2,985,000 at December 31, 2001. The Company is in contact with the creditors and attempting to resolve these matters. During 2001, the Company was successful in renegotiating the payment terms on its junior subordinated notes to Butler Products Corporation former owners to extend the due date of this debt one year.

There are significant operations in Mainland China; however, the functional exchange rate for those operations is the U.S. dollar. The foreign currency translation adjustment primarily arises from the translation of amounts from operations in Hong Kong and Japan in which the functional currency is that of the foreign location.

2. EARNINGS PER SHARE: Basic and diluted loss per share is based on the weighted average number of shares of common stock outstanding. For the six month and three month periods ended December 31, 2001 and December 31, 2000, the Company's weighted average shares are calculated as follows:

	Quarter Ended December 31, 2001	Quarter Ended December 31, 2000	Six Months Ended December 31, 2001
Weighted average common shares outstanding	1,207,912	1,207,912	1,207,912
Effect of dilution of securities: conversion of stock options	-	-	-
Denominator for dilutive earnings per share	1,207,912	1,207,912	1,207,912

The Company is in a net loss position for the six month period ended December 31, 2001 and for the three and six month periods ended December 31, 2000. Accordingly, all common stock equivalents during these periods are considered anti-dilutive and are therefore not included in the calculation of earnings per share. During the three month period ended December 31, 2001, the exercise price of all common stock equivalents exceeded its average fair value. Accordingly, all common stock equivalents were considered anti-dilutive during the period and are therefore not included in the calculation of earnings per share.

3. REVERSE SPLIT: At a special meeting on June 14, 2001, the Company's Board of Directors approved a reduction in the number of authorized shares of common stock of the Company and a corresponding three for one reverse stock split of its common stock. In addition, all holders of options or warrants to purchase future shares of the Company's common stock were also reduced on an equal basis of three to one. The effect of the reverse split was to reduce the Company's common shares from 3,680,592 shares to 1,227,079 shares issued and 3,623,094 shares to 1,207,912 outstanding. The par value of the common stock is unchanged. Accordingly, the Company has presented all equity and earnings per share information as if the reverse stock split had occurred effective July 1, 2000.

4. MAJOR CUSTOMERS AND VENDORS: No single customer accounted for more than 10% of consolidated sales during the six months ended December 31, 2001. The Company

Edgar Filing: OMNI USA INC - Form 10QSB

5. REVOLVING LINE OF CREDIT: The Company has a revolving line of credit with a financing company which provides for maximum borrowings of \$4,000,000 as determined by a formula based on trade accounts receivable and inventory. The line of credit matures June 2002, bears interest at prime plus 1%-2%, depending upon certain financial ratios, requires the maintenance of certain levels of income and tangible net worth and is secured by essentially all of the U.S. assets of the Company. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report has been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. This report should be read in conjunction with the Company's latest Form 10-KSB, a copy of which may be obtained by visiting the Company's home page at www.ousa.com, or by writing to the Investor Relations Department, Omni U.S.A., Inc., 7502 Mesa Road, Houston, Texas 77028.

Liquidity and Capital Resources

The Company's primary capital requirements are for working capital and acquisitions that are generally met through a combination of internally generated funds, a revolving line of credit facility and credit terms from suppliers. The Company's \$4,000,000 credit facility had an outstanding balance of \$1,796,945 at December 31, 2001. At December 31, 2001, the Company was not in compliance with this agreement. The Company had working capital of \$1,540,720 as of December 31, 2001 and working capital of \$1,862,151 as of June 30, 2001, a decrease of \$321,431 from June 30, 2001. The decrease in working capital from June 30, 2001 was due primarily to lower sales, collection of accounts receivable offset by payments of accounts payable and the line of credit as well as increasing amounts of debt that remain past due and classified as current.

Accounts receivable balance of \$2,291,707 as of December 31, 2001 decreased \$1,021,533 compared to June 30, 2001 accounts receivable balance of \$3,313,240. Inventory balance as of December 31, 2001 was \$4,865,204; a decrease of \$120,706 compared to June 30, 2001. Accounts receivable and inventory decreased during the period in response to lower sales levels in both business segments.

The Company had a cash balance of \$308,753 as of December 31, 2001; reflecting a negative cash flow of \$350,348 compared to the June 30, 2001 cash balance of \$659,101. The Company's cash provided by operating activities for the 6 months ended December 31, 2001 of \$698,227 consisted of the net loss for the period of \$301,490 plus non cash expenses, combined with a decrease in accounts receivable, accounts payable and inventories.

The Company's cash used in investing activities for the six months ended December 31, 2001 of \$18,862 consisted of capital expenditures for the period primarily in support of the power transmission component segment.

Net cash used by financing activities for the six months ended December 31, 2001 of \$1,030,430 was due primarily to net repayments on the line of credit.

The Company has continued to experience a decline in the market demand for the Company's products since the fourth quarter of the year ended June 30, 2001 as compared to previous years. As a result, the Company has experienced negative cash flows which have reduced cash balances, working capital and resulted in debt balances that have become due but remain unpaid as of and for the three months and six months ended December 31, 2001. During the quarter ended December 31, 2001, the Company amended the terms of the note payable to the former owners of Butler to extend the repayment terms an additional twelve months.

As of December 31, 2001, the Company is not in compliance with its debt service coverage ratio related to its line of credit facility and has

Edgar Filing: OMNI USA INC - Form 10QSB

significant amounts of debt past due. The Company believes that its relationship with the line of credit holder is good and that access to the lines of credit will continue to be granted. Debt balances that are currently past due are:

- o Paccar, Inc. quarterly payments totaling \$159,442. The Company has been granted temporary forbearance on payment of the balance until the Company has such ability to pay and is currently making interest payments on the balances owed as well as formally working with Paccar to restructure and amend the repayment terms;
- o Haas Automation payments totaling \$175,396. The Company is diligently working to repay the balances to bring the payments current in a mutually beneficial manner.

The Company believes that future demand is improving and, between its access to the line of credit facility and its ability to generate funds internally, it has adequate capital resources to meet its working capital requirements for the foreseeable future, given its current working capital requirements, known obligations, and assuming current levels of operations. In addition, the Company believes that it has the ability to raise additional financing in the form of debt or equity to fund additional capital expenditures and operations, if required, which may or may not be favorable to the Company. In response to general declines in demand and a recent economic downturn, management has initiated measures to minimize costs and scale down activities to match decreases in sales until such demand returns. Management believes that it is and will continue to be successful in this endeavor.

Results for the Quarter ended December 31, 2001 compared with the Quarter ended December 31, 2000

The Company had net sales of \$4,382,065 for the three months ended December 31, 2001. This represents a decrease of 30% compared to the three months ended December 31, 2000 net sales of \$6,290,169. Sales have decreased due an overall economic slowdown. The following table indicates the Company's net sales comparison and percentage of change for the three months ended December 31, 2001 and 2000:

Interest expense decreased \$75,537, to \$182,506 for the six months ended December 31, 2001 from \$258,043 for the six months ended December 31, 2000. The decrease resulted from a decreased borrowing rate and borrowings associated with the Company's line of credit to meet current inventory and working capital needs.

Other income was \$23,803 for the six months ended December 31, 2001 compared to \$33,672 for the six months ended December 31, 2000. This change primarily results from lower commission income for the period offset by an increase in VAT refunds related to foreign sales.

The Company's net and comprehensive loss decreased \$161,706 to \$300,773, or \$0.25 per share, for the six months ended December 31, 2001 compared to \$139,067, or \$0.12 per share, for the six months ended December 31, 2000.
