MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2004

(Unaudited)

Note 1 General

Business

Mercury Air Group, Inc. (the Company), a Delaware Corporation, was organized in 1956 and provides a broad range of services to the aviation industry through four principal operating units during the reporting period: Mercury Air Centers, Inc., a California corporation (Air Centers), Mercury Air Cargo, Inc., a California corporation (Air Cargo), MercFuel, Inc., a Delaware corporation (MercFuel) and Maytag Aircraft Corporation, a Colorado corporation (Maytag Aircraft), a provider of government contract services. The Air Centers operations consist of aviation fuel sales, commercial aircraft refueling operations (into-plane), aircraft ground support services, aircraft hangar services, secured aircraft parking (aircraft tie-down services) and aircraft maintenance at certain Air Center locations, known as Fixed Based Operations (FBOs), for commercial, private, general aviation and United States Government aircraft (collectively FBO services). Air Cargo's operations consist of cargo handling, the sale of cargo capacity on other airlines (Cargo Space Logistics), and general cargo sales agent services. MercFuel's operations consist of the sale and delivery of fuel, primarily aviation fuel, to domestic and international commercial airlines, fractional aircraft companies, corporate aviation and air freight airlines. Maytag's government contract services consist of the following services primarily for agencies of the United States Government: aircraft refueling and fuel storage operations, base operations support (BOS) services, air terminal and ground handling services and weather observation and forecasting services.

On April 12, 2004, following shareholder approval, the Company sold all of the outstanding common stock of Air Centers to Allied Capital Corporation (Allied) for \$76,349,000, subject to adjustments for, among other things, net working capital at closing (the FBO Sale). See additional information at Note 11 Subsequent Event. However, the Company retains ownership of an FBO at Long Beach, California through its wholly owned subsidiary, Mercury Air Center Long Beach, Inc., a California corporation.

Risks and Uncertainties

Petroleum product prices, including aviation fuel prices, have risen to historically high levels due primarily to an increase in world-wide petroleum product consumption and instability in the Middle East. The increased aviation fuel prices have resulted in an increase in the Company's trade receivable balances for many of the Company's customers. If aviation fuel prices maintain these recent high levels for an extended period of time and the Company's customers are unable to pass on the increased fuel costs to their customers, the Company may experience longer collection periods and/or higher uncollectible amounts from certain customers. This would result in reduced cash availability adversely affecting the Company's ability to pay its fuel suppliers on a timely basis.

Accounts receivable is comprised primarily of trade receivables from customers and is net of an allowance for doubtful accounts. The Company's credit risk is based in part on the following: 1) substantially all receivables are related to the aviation industry, 2) there is a concentration of credit risk as there are several customers who at any given time have significant balances owed to the Company, and 3) significant balances are owed by certain customers that are not adequately capitalized. In addition, significantly higher fuel prices for extended periods of time may have a negative impact on the aviation industry as it substantially increases airlines' operating expenses. Smaller airlines with lower levels of capital may be more seriously impacted. The Company assesses its credit portfolio on an ongoing basis and establishes allowances which it believes are adequate to absorb potential credit problems that can be reasonably anticipated.

The Company purchases fuel from a limited number of suppliers. If the Company's relationship with any of these key suppliers terminates, the Company may not be able to obtain a sufficient quantity of fuel on favorable terms or may experience difficulty in obtaining fuel from alternative suppliers. Furthermore, difficulties faced by these suppliers or fuel shortages or the inability to obtain fuel from alternate sources at acceptable prices and terms, could impair the Company's ability to sell fuel to its customers at competitive prices and terms.

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments and accruals necessary for a fair presentation have been reflected in these financial statements. Operating results for the quarter are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2004 due to seasonal and other factors. In order to maintain consistency and comparability between periods presented, certain prior period amounts have been reclassified to conform to the current period presentation. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003.

New Accounting Pronouncements

On April 30, 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This standard amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. The provisions of this statement are generally effective for contracts entered into or modified after June 30, 2003. The Company adopted SFAS No.149 on July 1, 2003 with no material impact on the Company's consolidated financial statements.

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). This interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements, addresses consolidation by business enterprises of variable interest entities. Under current practice, two enterprises generally have been included in consolidated financial statements because one enterprise controls the other through voting interests. FIN 46 defines the concept of variable interests and requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among the parties involved. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after December 15, 2003, to variable interest entities considered to be a special purpose entity (SPE) in which an enterprise holds a variable interest that it acquired before February 1, 2003. For non-SPE variable interest entities acquired before February 1, 2003, the interpretation must be adopted no later than the first interim or annual period ending after March 15, 2004. The interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The Company adopted FIN 46 for the period ended March 31, 2004 with no material impact on the Company's consolidated financial statements.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, which establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires classification of financial instruments within its scope as a liability, including financial instruments issued in the form of shares that are mandatorily redeemable, because those financial instruments are deemed to be, in essence, obligations of the issuer. SFAS No. 150 is effective for the Company for the interim period ended March 31, 2004. The Company adopted SFAS No. 150 for the period ended March 31, 2004 with no material impact on the Company's consolidated financial statements.

Note 2 Stock-Based Employee Compensation

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. The Company has elected to continue utilizing the intrinsic value method to account for stock-based compensation as allowed by SFAS No. 123, Accounting for Stock-Based Compensation.

SFAS No. 148 also amends the disclosure requirements of SFAS No. 123, to require disclosure in both interim and annual financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS No. 148 is effective for the Company's fiscal year ended June 30, 2003 and for interim financial statements beginning January 1, 2003.

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

The Company has five stock option plans. As permitted under SFAS No. 123, the Company measures compensation expense related to employee stock options granted utilizing the intrinsic value method as prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. The following table illustrates the pro forma effect on the net loss if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

	Nine Months Ended March 31,		Three Months Ended March 31,	
	2004	2003	2004	2003
Net loss, as reported	\$ (3,638,000)	\$ (2,283,000)	\$ (1,819,000)	\$ (1,098,000)
Add stock-based employee compensation expense included in net loss, net of tax	185,000	406,000	62,000	66,000
Less total stock based employee compensation determined under the fair value based method for all awards, net of tax	(79,000)	(319,000)	(20,000)	(34,000)
Pro forma net loss	\$ (3,532,000)	\$ (2,196,000)	\$ (1,777,000)	\$ (1,066,000)
Basic net loss per share as reported	\$ (1.18)	\$ (0.70)	\$ (0.63)	\$ (0.33)
Basic net loss per share pro forma	\$ (1.14)	\$ (0.68)	\$ (0.62)	\$ (0.32)
Diluted net loss per share as reported	\$ (1.18)	\$ (0.70)	\$ (0.63)	\$ (0.33)
Diluted net loss per share pro forma	\$ (1.14)	\$ (0.68)	\$ (0.62)	\$ (0.32)

Note 3 Income Taxes

Income taxes have been computed based on the estimated annual effective income tax rates for the respective periods. The following is a reconciliation of the federal statutory rate to the Company's effective tax rate on pretax loss:

	Nine Months Ended March 31,	
	2004	2003
Federal tax (benefit) at statutory rate	(34.0%)	(34.0%)
State income taxes (benefit), net of federal effect	6.5	(2.7)
Non-deductible Hambro settlement costs	17.5	
Non-deductible expenses, other	2.8	1.9
Other, net	(0.8)	0.3
Effective income tax rate	(8.0%)	(34.5%)

The Hambro settlement costs of \$1,799,000 recognized by the Company in the second quarter of fiscal 2004 is not deductible in the determination of taxable income resulting in a permanent book to tax difference.

Note 4 Commitments and Contingencies

Litigation

On April 16, 2003, the Plan Committee of Shuttle America Corporation filed an Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995,000. The Company believes that it has significant defenses in this matter. The Company filed its answer on May 15, 2003. On February 19, 2004, the Bankruptcy Court approved a settlement agreement

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

whereby the Company will pay Shuttle America Corporation \$40,000 in three equal monthly installment payments of \$13,333 starting in February 2004. These payments were fully accrued by the Company at March 31, 2004.

In December 2001 a jury returned its verdict on Michael Marigny s (Plaintiff) cause of action for retaliation in violation of California Fair Employment and Housing Act in favor of Defendant, Mercury, but awarded damages in the amount of \$15,000 for Plaintiff s cause of action for intentional infliction of emotional distress. In February 2002, Plaintiff filed a notice of appeal with the Second Appellate Court (Court). The Court ruled on this appeal in August of 2003 affirming in part and reversed in part the judgment and the case was remanded for retrial. On March 31, 2004 the Company entered into a settlement agreement in this case for

the payment of \$200,000 which was paid in April 2004. This settlement amount has been accrued by the Company in the financial statements as of March 31, 2004.

On December 5, 2003, the Company terminated its Chief Operating Officer of Mercury Air Cargo. This former employee claimed one year's salary, approximately \$170,000, and other damages as a result of the termination. On December 31, 2003, he filed notice of demand for mediation. On March 9, 2004 the Company entered into a Confidential Settlement Agreement and Mutual Release with this former employee. In the opinion of management, the terms of the Confidential Settlement Agreement will not have a material effect on the Company's consolidated financial position. This settlement was accrued by the Company in the financial statements for the quarter ended March 31, 2004.

On February 28, 2004 the Company received a demand notice from counsel for the former General Manager of a Mercury Air Center's FBO location for damages in the amount of \$500,000 as a result of his termination of employment. The Company is in the process of responding to the demand. In the opinion of management, the ultimate resolution of this matter will not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

On March 16, 2004 the Company received a demand notice from counsel for the former General Manager of Mercury Air Cargo's SkyNet Division for damages in the amount of approximately \$82,500 arising out of his termination of employment. The Company has entered into a confidential settlement agreement. In the opinion of management, the settlement of this matter will not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Reference is made to the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003 and to the Company's Quarterly Reports on Form 10-Q for the period ended September 30, 2003 for additional legal matters with respect to which no material developments have occurred in the current quarter.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a material effect on the Company's consolidated financial position.

Note 5 Debt

On December 30, 2002, the Company entered into a loan and security agreement (the Facility), refinancing its senior secured credit facilities with Wells Fargo Foothill Corporation (Foothill), a division of Wells Fargo Bank, for a five-year term.

The Facility provides a total of up to \$42.5 million in revolving and term loans. The term loan is for an amount equal to \$12.5 million, while the revolving loan is for an amount not to exceed 85% of Eligible Accounts Receivable (as defined in the loan agreement), subject to certain limitations. The term loan is payable in \$1.0 million installments each April 1 and October 1 and in \$0.5 million installments each July 1 and December 31, until paid in full. Amounts repaid under the term loan increase the maximum availability under the revolving loan. The Facility also provides for the issuance of certain letters of credit. The terms of the Facility require that the Company maintain a minimum availability on the revolving line of credit of \$2.5 million. As of March 31, 2004, the Company had \$3.4 million of availability on the revolving line of credit. The amount of the available revolving credit line fluctuates on a daily basis dependent upon the amount of Eligible Receivables and the amount of letters of credit outstanding and the amount of outstanding cash borrowings against the revolving credit facility.

On December 5, 2003, as amended on February 16, 2004, the Company and its lenders under the Facility executed the Fifth Amendment to the Loan and Security Agreement and Forbearance Agreement (the Forbearance Agreement). Among other things, the Company requested the lenders and the lenders agreed to forbear from exercising their rights and remedies under the Facility for the following events of default, as defined in the Loan and Security Agreement: (1) the Company's failure to deliver its annual audited financial statements for fiscal 2003 within the prescribed time-frame allowed; (2) the formation of a subsidiary, Mercury Air Center Long Beach, without the prior consent of the lenders; (3) the Company's failure to deliver supplemental schedules to J. H. Whitney as required under the terms of the \$24 million Senior Secured 12% Note; and (4) the Company's failure to achieve the EBITDA financial covenant for the twelve-month period ended December 31, 2003. The Forbearance Agreement, as amended, states that the lenders agree, for a limited time but no later than April 14, 2004, to forbear from exercising their rights and remedies under the Facility with respect to the events of default noted above.

On April 12, 2004, the Company prepaid all outstanding obligations associated with the Facility with the proceeds from the FBO sale. With this prepayment, the Company satisfied all of the conditions established in the Forbearance Agreement. See Note 11 Subsequent Event for further discussion of the prepayment of all obligations associated with the Facility and the FBO sale.

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

On October 28, 2003, Allied acquired the \$24 million Senior Subordinated 12% Note (the Note), as amended on December 30, 2002 from J. H. Whitney Co. Mezzanine Fund and waived certain provisions of the Note, which would have required the Company to provide the Noteholder with the following: 1) if the principal amount outstanding on the Note was not prepaid in full by December 31, 2003, the Noteholder would have been entitled to warrants to acquire from the Company, for a nominal amount, 5% of the then outstanding shares of the Company's common stock and 2) if the principal amount outstanding on the Note exceeded \$12 million on December 31, 2003 the Noteholder would have been entitled to: a) a second set of warrants to acquire from the Company, for a nominal amount, 5% of the then outstanding shares of the Company's common stock and b) an additional Note in the original principal amount of \$5 million. The Note, subordinated to the Facility, was collateralized by the Company's assets. Interest on the Note was due and payable at the end of each calendar quarter and, effective January 2004 and continuing through June 2004, the interest rate would have increased by 1% per month up to a maximum total interest rate of 18% with the amount of interest in excess of 12% being added to the principal of the Note at the end of each calendar month. The Note contained covenants that, among other matters, limited senior indebtedness, the payment of dividends, and limited the disposition of assets and the maintenance of certain financial measurements including EBITDA requirements and limits on capital expenditures. All outstanding obligations associated with the Note were paid in full on April 12, 2004 with proceeds from the FBO Sale. See Note 11 Subsequent Event for further discussion of the prepayment of all obligations associated with the Facility and the FBO sale.

On December 12, 2003, the Company issued three promissory notes for an aggregate principal amount of \$3,586,000 (the Hambro Notes). The Hambro Notes, subordinated to the Facility and the Note, accrued interest at the rate of 12% per annum increasing to 16% per annum for any amount of unpaid principal after June 30, 2004. All outstanding obligations associated with the Hambro Notes were paid in full on April 12, 2004 with proceeds from the FBO Sale. See Note 11 Subsequent Event for further discussion of the prepayment of all obligations associated with the Facility and the FBO sale.

Note 6 Hambro Settlement Costs

On December 12, 2003, the Company entered into a settlement agreement (the Hambro Settlement) relating to litigation with J O Hambro Capital Management and certain of its affiliates and private clients (collectively J O Hambro) whereby the Company issued three promissory notes for an aggregate principle amount of \$3,586,000 (the Hambro Notes) in exchange for the following, among other things: (1) the release of certain claims by J O Hambro; (2) the Company's agreement to dismiss litigation against J O Hambro; (3) the Company's agreement not to institute certain litigation against J O Hambro and certain other parties; (4) reimbursement of certain costs associated with the pending litigation and the defense preparation for anticipated litigation between the parties; and (5) the purchase of 343,600 shares of the Company's common stock in exchange for the Hambro Notes. The settlement cost of \$1,799,000 recognized in the second quarter of fiscal 2004 represents the difference between the face value of the Hambro Notes and the trading value of the shares of common stock acquired by the Company on the day of the Hambro Settlement.

Note 7 Net Loss Per Common Share

Basic net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed by dividing the net loss by the weighted average number of common shares and potential common shares except for amounts that are antidilutive. Potential common shares include stock options and common shares resulting from the assumed conversion of subordinated debentures, when dilutive.

Note 8 Segment Reporting

The Company discloses segment information in accordance with SFAS No. 131, Disclosure About Segments of an Enterprise and Related Information, which requires companies to report selected segment information on a quarterly basis and to report certain entity-wide disclosures about products and services, major customers and material countries in which the entity holds assets and reports revenues. The operating segments reported below are the segments of the Company for which operating results are evaluated regularly by management in deciding how to allocate resources and in assessing performance.

The Company operated and reported its activities through four principal units during the reporting periods: 1) Fuel Sales, 2) Fixed Based Operations, 3) Cargo Operations and 4) Maytag Aircraft.

	Fuel Sales	Fixed Base Operations	Cargo Operations	Maytag Aircraft	Corporate or Unallocated	Total
(Dollars in Thousands)						
Quarter Ended March 31, 2004						
Sales and revenues	\$ 88,305	\$23,704	\$ 9,729	\$ 5,747	\$ (1,949)	\$ 125,536

Segment assets	36,157	62,391	16,099	11,962	16,873	143,482

Gross margin is used as the measure of profit and loss for segment reporting purposes as it is viewed by key decision makers as the principal operating indicator in measuring segment profitability. The key decision makers also view bad debt expense as an important measure of profit and loss. The predominant component of bad debt expense relates to Fuel Sales. Bad debt expense for Fuel Sales was approximately \$293,000 and \$348,000 for the quarters ended March 31, 2004 and 2003, respectively; total bad debt expense was \$361,000 and \$475,000 in the quarters ended March 31, 2004 and 2003, respectively. Bad debt expense for Fuel Sales was approximately \$113,000 and \$980,000 for the nine-month periods ended March 31, 2004 and 2003, respectively; total bad debt expense was \$421,000 and \$1,201,000 for the nine-month periods ended March 31, 2004 and 2003, respectively.

Note 9 Comprehensive Loss

Comprehensive loss is summarized as follows:

Note 10 Related Party Transactions

CFK Partners and CFK Realty Partners, LLC are entities consisting of three of the Company's directors, one of whom also serves as the Company's Chief Executive Officer and another who serves as Chairman of the Board and another who serves as outside counsel on various general corporate legal matters. In addition, CFK Partners also owns approximately 24.7% of the Company's issued and outstanding common and preferred stock.

In January 2002, the Company sold the land and the office building which houses its corporate headquarters to CFK Realty Partners, LLC (CFK Realty) for \$4,200,000, consisting of \$2,800,000 in cash and a note receivable of \$1,400,000. The note accrues interest at 5% and contains provisions whereby CFK Realty can elect to extend the maturity date in one year increments through December 31, 2004. The note had an original maturity date of December 31, 2002. In early December 2003, the Company received notification from CFK Realty that it was exercising its right to extend the maturity date of the note for an additional one year period. Concurrently with the sale, the Company also entered into a ten-year lease of the property for a monthly rental amount of approximately \$37,000. CFK Realty financed the purchase of the building through a \$3.2 million loan. CFK Realty is included in the Company's consolidated financial statements included herein.

The Company and its Chairman (collectively, the Members) each own an equity interest in MercMed LLC (MercMed) of 67.16% and 32.84%, respectively. The respective Members' equity interest is based on the cumulative Member contributions to MercMed and will be adjusted in the future based on future Member contributions. Based on the Company's majority interest, MercMed has been included in the Company's consolidated financial statements and the liability to the minority interest has also been reflected in the consolidated balance sheets. Minority interest on the Company's consolidated balance sheet represents the minority member's equity in MercMed. MercMed was formed for the purpose of owning and operating an aircraft for the Members. On March 27, 2003, MercMed obtained new financing for the aircraft which is a 15-year loan with the interest rate being fixed for the initial 36-month period. At the end of the initial 36-month period, the interest rate will be reviewed and fixed at the then Federal Home Loan Bank's regular three-year interest rate plus 275 basis points. Each of the Members are guarantors of this note. The outstanding principal amount of the loan as of March 31, 2004 was \$675,000.

The Company uses the services of the legal firm McBreen and Kopko (the Firm) for various general corporate legal matters. Mr. Frederick H. Kopko, Jr., a partner of the Firm, is a member of the Company's Board of Directors and is a partner with CFK Partners. For the nine-month periods ended March 31, 2004 and 2003, the Company paid the Firm \$679,000 and \$541,000, respectively, for legal services rendered. For the three-month periods ended March 31, 2004 and 2003, the Company paid the Firm \$198,000 and \$179,000, respectively.

Note 11 Subsequent Event Sale of Mercury Air Centers, Inc.

On April 12, 2004, upon approval from the Company's shareholders at the Annual Shareholders' Meeting, the Company sold all of the outstanding common stock owned by it in Mercury Air Centers, Inc. (Air Centers), which represented 100% of the then outstanding common stock in Air Centers, to Allied Capital Corporation (Allied) with the Company receiving total consideration for the sale in cash at closing of \$76,349,000 (the FBO Sale). The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon the determination of the amount of Air Centers' net working capital at the time of closing. In accordance with the terms of the Stock Purchase Agreement entered into by the Company and Allied on October 28, 2003, as amended from time to time, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586,000, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586,000, the Company is obligated to pay Allied the deficiency.

The Company expects to report a net gain on the sale of the business segment in the Company's fourth quarter of fiscal 2004 in addition to reversing excess debt premium cost reserves associated with the Company's \$24 million senior subordinated note.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the Facility due Foothill comprised of both a term loan and a revolving credit facility, in the amount of \$13,255,000; 2) pay accrued interest and fees associated with the Facility of \$203,000; 3) establish a cash collateral with Foothill in the amount of \$16,031,000 in support of issued and outstanding letters of credit issued under the terms of the Facility; 4) prepay the outstanding principal, including the amount of accrued interest payable-in-kind (PIK), on the Note of \$24,120,000 to Allied; 5) pay accrued interest and fees associated with the Note of \$141,000; 6) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Hambro Notes in the amount of \$3,695,000; 7) pay accrued interest on the Hambro Notes in the amount of \$15,000; 8) establish an escrow account associated with Hartsfield

International Airport FBO in Atlanta in the amount of \$8,270,000 to be distributed to the Company, either in whole or in part under certain conditions, over a period not to exceed five years from the date of closing; and 9) pay for transaction related fees and expenses of \$1,324,000. After satisfying the obligations noted above, the Company received \$9,295,000.

The total amount of principal on long term debt, both current and non-current amounts, repaid by the Company with the proceeds from the FBO sale was \$41,070,000. Upon the repayment of the long term debt detailed above, the Company's remaining outstanding principal of long term debt was \$17,960,000, of which \$14,000,000 is associated with the tax exempt bonds issued pursuant to a loan agreement between the Company and the California Economic Development Financing Authority (the CEDFA Bonds). The CEDFA Bonds carry a variable rate of interest which is based on a weekly remarketing of the bonds and are collateralized by a letter of credit issued by Wells Fargo Bank. The rate of interest at April 28, 2004 was 1.15% per annum.

With the prepayment of all of the obligations associated with the Facility, the Company satisfied all of the conditions established in the Forbearance Agreement, as amended on February 16, 2004.

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations Comparison of the three months ended March 31, 2004 and March 31, 2003 and comparison of the nine months ended March 31, 2004 and March 31, 2003.

The following tables set forth, for the periods indicated, the revenues and gross margin for each of the Company's four operating units, as well as selected other financial statement data.

	Nine Months Ended March 31,				Three Months Ended March 31,

Three Months Ended March 31, 2004 Compared to March 31, 2003

Revenue for the Company in the third quarter of fiscal 2004 was \$125,536 thousand, an increase of \$14,509 thousand or 13.1% from revenue of \$111,027 thousand reported for the third quarter of fiscal 2003 due to increased sales in the MercFuel and the Air Cargo operations. Gross margin decreased by 21.0% to \$4,836 thousand in the third quarter of fiscal 2004 from \$6,119 thousand reported in the third quarter of fiscal 2003. The decrease in gross margin reflected a decline in performances as discussed below at the Company's Air Centers, and the Air Cargo Operating Segment.

MercFuel, the Company's fuel sales business, generated revenue of \$88,305 thousand in the current period, an increase of \$15,808 thousand or 21.8% from last year's revenue of \$72,497 thousand. The increase in revenue was primarily due to a combination of both

higher sales volume and higher average fuel sales prices. Fuel sales volume was 72.3 million gallons in the third quarter of fiscal 2004, an increase of 9.1 million gallons from the same period of fiscal 2003 equating to an increase in sales revenue of \$10.4 million. The increase in sales volume was spread throughout its existing customer base of commercial airlines as well as increased sales to corporate aviation customers, which includes sales to companies providing fractional shares of corporate jet ownership and usage. The average sales price in the third quarter of fiscal 2004 was \$1.220 per gallon, an increase of \$0.074 per gallon from the same period of last year equating to an increase in revenue of \$5.4 million due to higher average sales prices. The higher average sales price is due to higher worldwide petroleum prices. MercFuel's revenues represented 70.3% of the Company's total revenue in the current period compared to 65.3% of the Company's total revenue in the comparable prior year quarter. MercFuel's gross margin from fuel sales was \$1,506 thousand, or \$0.021 per gallon, in the current period compared with \$1,670 thousand, or \$0.026 per gallon, in the same period last year. The decrease in gross margin was primarily due to lower realized margins for fuel sales in the corporate aviation fractional aircraft ownership market, where the average margin per gallon decreased to \$0.074 per gallon in the third quarter of fiscal 2004 on sales volume of 11.8 million gallons from \$0.104 per gallon last year on sales volume of 7.1 million gallons.

The Company's Air Cargo operations had revenue of \$9,729 thousand in the third quarter of fiscal 2004, an increase of \$1,333 thousand or 15.8% from revenue of \$8,396 thousand in the third quarter of fiscal 2003. The increase in revenue is mainly due to improvements in the cargo management division of \$1.3 million. The increased revenue in cargo management is due to increased activity generated by the Mercury World Cargo division, which sells Cargo capacity under Mercury's own airway bill. Gross margin from Air Cargo operations in the current period decreased by \$308 thousand, or 83.7%, to \$60 thousand from \$368 thousand in the year ago period due primarily to lower margins in Air Cargo's cargo marketing services division.

The Company's Maytag Aircraft segment had revenue of \$5,747 thousand in the third quarter of fiscal 2004, a decrease of \$243 thousand or 4.1% from revenue of \$5,990 thousand in the third quarter of fiscal 2003. The revenue decrease is due to the loss of the segment's air terminal contract at Eielson Air Force Base in Alaska in fiscal 2003. Gross margin in the current period decreased slightly by \$45 thousand or 3.7% to \$1,166 thousand from \$1,211 thousand last year.

The Company's Air Centers business segment had revenue of \$23,704 thousand in the third quarter of fiscal year 2004, a decrease of \$775 thousand or 3.2% from last year's third quarter revenue of \$24,479 thousand. The revenue decrease was primarily due to lower revenue of \$0.6 million in retail fuel sales in the Air Center operations. The Air Centers' aviation fuel sales volume in the third quarter of fiscal 2004 was 7.5 million gallons with an average sales price of \$2.04 per gallon as compared to last year's third quarter sales volume of 8.0 million gallons with an average sales price of \$1.99 per gallon. The higher average sales price was due to higher worldwide petroleum prices. Air Centers' gross margin decreased by \$766 thousand or 26.7% in the current period to \$2,104 thousand from \$2,870 thousand due to lower fuel volume with little change in the margin per gallon which was 84.7 cents per gallon in the third quarter of fiscal year 2004 as compared to 84.5 cents per gallon in last year's third quarter.

Selling, general and administrative expenses in the current quarter increased by \$150 thousand, or 5.7%, to \$2,798 thousand from \$2,648 thousand in last fiscal year's third quarter due to professional fees associated with the re-audit of the Company's financial statements for fiscal 2002 and 2001.

The Company's provision for bad debts in the third quarter of fiscal 2004 was \$361,000, a decrease of \$81,000 from the third quarter of fiscal 2003 bad debt expense of \$442,000.

Depreciation and amortization expense was \$2,126 thousand in the current period compared to \$2,072 thousand a year ago.

Interest expense and other was \$1,674 thousand in the third quarter of fiscal 2004, a decrease of \$920 thousand from the same period last year. The decrease was due to the accrual in the third quarter of fiscal 2003 of \$916 thousand for the debt premiums associated with the Note.

Nine Months Ended March 31, 2004 Compared to March 31, 2003

Revenue for the Company for the first nine months of fiscal 2004 was \$340,436 thousand, an increase of 2.3% from revenue of \$332,884 thousand reported for the first nine months of fiscal 2003. The increase in revenue is due primarily to higher MercFuel revenue of \$10,084 thousand. Gross margin decreased by 2.6% to \$18,463 thousand in the first nine months of fiscal 2004 from \$18,957 thousand reported in the first nine months of fiscal 2003. The decrease in gross margin is due to lower margins in the Air Center and Air Cargo divisions, offset by improved performance at the Company's Government Contract Services segment.

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

MercFuel, the Company's fuel sales business, generated revenue of \$228,195 thousand in the current period, an increase of \$10,084 thousand or 4.6% from last year's revenue of \$218,111 thousand. The increase in revenue was due to higher average fuel sales prices offset in part by a reduction in fuel sales volume. Fuel sales volume was 207.5 million gallons in the first nine months of fiscal 2004, a decrease of 13.9 million gallons from the same period of fiscal 2003 equating to a reduction in sales revenue of \$13.8 million. The decline in sales volume is due to the cessation of business by National Airlines, Inc. (National), a customer of MercFuel since May 1999, on November 6, 2002. Sales volume to National in fiscal 2003, through November 6, 2003, was 28.9 million gallons, resulting in revenue of \$24.7 million. The average sales price in the first nine months of fiscal 2004 was \$1.10 per gallon, an increase of \$0.115 per gallon from the same period of last year equating to an increase in revenue of \$23.9 million due to higher average sales prices. The higher average sales price is due to higher worldwide petroleum prices. MercFuel's revenues represented 67.0% of the Company's total revenue in the current period compared to 65.6% of revenue in the comparable prior year. MercFuel's gross margin was \$4,806 thousand in the current period compared with \$4,741 thousand in the same period last year, of which \$0.4 million was generated from sales to National. The average gross margin per gallon sold in the first nine months of fiscal year 2004 was \$0.0401 per gallon as compared to \$0.0383 for the same period last year. MercFuel's sales volume in the corporate aviation and fractional aircraft ownership division for the first nine months of fiscal 2004 was 28.5 million gallons, an increase of 7.7 million gallons, or 37.4%, over last year's sales volume of 20.8 million gallons.

The Company's Air Cargo operations had revenue of \$29,306 thousand in the first nine months of fiscal 2004, an increase of \$4,466 thousand or 18.0% from revenue of \$24,840 thousand in the first nine months of fiscal 2003. The increase in revenue is mainly due to improvements in the cargo management division of \$3.7 million and in the cargo marketing services division of \$0.8 million. The increase in cargo management represents increased activity generated by the Mercury World Cargo division, which sells cargo capacity under Mercury's own airway bill. Gross margin from Air Cargo operations in the current period decreased by \$716 thousand, or 34.6%, to \$1,356 thousand from \$2,072 thousand in the year ago period due primarily to the accrual of employee severance costs of \$0.3 million in fiscal 2004 and lower margins in the cargo marketing services and the warehouse division which decreased \$0.7 million and \$0.8 million, respectively, partially offset by increased operating margin of \$1.1 million for the cargo management division.

The Company's Maytag Aircraft segment had revenue of \$17,489 thousand in the first nine months of fiscal 2004, a decrease of \$1,021 thousand, or 5.2%, from revenue of \$18,510 thousand in the first nine months of fiscal 2003. The revenue decrease is primarily due to decreased revenue from Weather Data Services contracts in the amount of \$0.4 million and the loss of one refueling contract and one air terminal contract, which generated combined revenue of \$0.9 million last year. Gross margin in the current period increased by \$549 thousand or 16.3% to \$3,909 thousand from \$3,360 thousand last year due to the recovery of a wage determination in fiscal 2004 for the Company's Westover contract and the establishment of a legal reserve in fiscal 2003 for settlement of a labor dispute on the Company's Patrick Air Force Base contract.

The Company's Air Centers business segment had revenue of \$69,687 thousand in the first nine months of fiscal 2004, a decrease of \$2,500 thousand or 3.5% from last year's first nine months revenue of \$72,187 thousand. The revenue decrease was mainly due to lower revenue of \$1.9 million in maintenance activities in the Air Center operations. The Air Centers' aviation fuel sales revenue for the first nine months of fiscal 2004 also decreased by \$454 thousand from last year's nine month period. The Air Centers' aviation fuel sales volume in the first nine months of fiscal 2004 was 23.3 million gallons with an average sales price of \$1.96 per gallon as compared to last year's first nine months sales volume of 25.2 million gallons with an average sales price of \$1.83 per gallon. The higher average sales price was mainly due to slightly higher worldwide petroleum prices. Air Centers' gross margin decreased by \$392 thousand or 4.5% in the current period to \$8,392 thousand from \$8,784 thousand.

Selling, general and administrative expenses for the year decreased by \$51 thousand, or 0.7%, to \$7,838 thousand from \$7,889 thousand in last year's first nine months primarily due to a \$318 thousand expense relating to the extension of the term for certain stock options in the prior year. This is offset by expenses associated with the re-audit of the Company's financial statements.

Provision for bad debts was \$421 thousand in the current period, compared to \$1,201 thousand from the prior year. The reduction reflects better than expected customer collections experience in fiscal 2004, despite the higher average aviation fuel prices.

Depreciation and amortization expense was \$6,405 thousand in the current period compared to \$6,121 thousand a year ago.

Interest expense and other was \$5,954 thousand in the first nine months of fiscal 2004, an increase of \$495 thousand from the same period last year. This increase is due in part to the accrual for the debt premiums associated with the Senior Subordinated Note and the increased debt servicing costs associated with the Company's Senior Secured Credit Facility entered into on December 30, 2002 as

compared with the Company's previous Senior Secured Credit Facility. In fiscal year 2004, the Company accrued \$1,150 for these debt premiums as compared to \$916 thousand accrued during the first nine months of fiscal year 2003.

The Company recognized settlement expense of \$1,799 thousand in the second quarter of fiscal 2004 associated with the Hambro Settlement. The settlement expense represents the difference between the face value of the Hambro Notes and the trading value of the shares of common stock acquired by the Company on the settlement date. See further discussion of the settlement in the discussion of liquidity and capital resources which follows.

The Company wrote off unamortized deferred financing costs of \$1,773 thousand in the first nine months of fiscal 2003 due to the Company's debt restructuring in December 2002.

The settlement cost of \$1,799 thousand recognized by the Company in the second quarter of fiscal 2004 is not deductible in determining taxable income resulting in a permanent book to tax difference. As a result, the Company's taxable loss is lower than the book loss before income tax benefit for the nine month period ended March 31, 2004 by \$1,799 thousand reducing the Company's income tax benefit in fiscal 2004 by \$612 thousand.

Liquidity and Capital Resources

As of March 31, 2004, the Company's cash and cash equivalents were \$1.8 million, a decrease of \$1.0 million as compared to cash and cash equivalents of \$2.8 million as of June 30, 2003.

Cash provided by operating activities for the nine-month period ended March 31, 2004 was \$327 thousand as compared to cash provided by operating activities of \$3,252 thousand in the first nine months of fiscal 2003. The change in operating assets and liabilities for the first nine months of fiscal 2004 resulted in a use of cash from operating activities of \$5.6 million as compared to a use of cash from operating activities of \$4.9 million in the first nine months of fiscal 2003, which reflects a payment of \$4.5 million for income taxes primarily due to the sale of the Bedford FBO. The current year's operating liabilities reflect an accrual of \$2.9 for debt premiums which will be reversed during the fourth quarter of fiscal 2004, following the repayment of all obligations associated with the Note from the proceeds generated by the sale of the FBO division.

During the first nine months of fiscal 2004, the Company used \$4.1 million in investing activities primarily due to capital expenditures of \$4.7 million of which \$3.8 million was associated with the Air Centers, partially offset by a \$0.8 million reduction in notes receivable. This compares to cash used by investing activities of \$1.1 million during the first nine months of fiscal 2003 resulting from the reduction in restricted cash of \$3.7 million, established to pay for the estimated income tax obligation from the sale of the Bedford FBO, offset by capital expenditures of \$4.0 million of which \$3.6 million was associated with the Air Centers. In addition, in fiscal 2003, the Company invested \$1 million in the acquisition of Canyon Fuel's business, an aviation fuel resale business. The Company's financing activities provided \$2.7 million during the first nine months primarily associated with the drawings on the Company's revolving line of credit to meet working capital requirements, as compared to net cash used by financing activities for the first nine months of fiscal 2003 of \$1.8 million.

On December 30, 2002, the Company entered into a loan and security agreement with Foothill Capital Corporation (Foothill), now known as Wells Fargo Foothill Corporation, a division of Wells Fargo Bank (the Facility), as agent for the lenders' party thereto, refinancing its senior collateralized credit facilities for a five-year term. In addition, the Company and J.H. Whitney Co. Mezzanine Fund entered into agreements amending the terms of the subordinated note (the Whitney Note), which was to mature on December 31, 2005. The initial funding from the facility and the amendments to the subordinated note was completed on December 30, 2002.

The Facility consists of up to \$42.5 million in revolving and term loans. The outstanding principal on the term loan as of March 31, 2004 was \$9.5 million, while the revolving loan is for an amount not to exceed 85% of Eligible Accounts Receivable (as defined in the loan agreement), subject to certain limitations. The term loan is payable in \$1.0 million installments each April 1 and October 1, beginning April 1, 2003 and in \$0.5 million installments each July 1 and December 31, until paid in full. Amounts repaid under the term loan increase the maximum availability under the revolving loan. The Facility also provides for the issuance of certain letters of credit. The terms of the Facility require that the Company maintain a minimum availability on the revolving line of credit of \$2.5 million. As of March 31, 2004, the Company had \$3.4 million of availability on the revolving line of credit.

The amended Whitney Note was in the form of a \$24.0 million Senior Subordinated 12% Note (the Note) with detachable warrants to purchase 251,563 shares of the Company's common stock exercisable through September 9, 2006 at \$6.10 per share as

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

adjusted for the one-for-two stock split in July 2003. The warrant exercise price was reduced from \$11.00 per share. The Note is collateralized by the Company's assets, subordinate to Foothill's interest. Warrants to purchase an additional 5% of the Company's common stock, exercisable for nominal consideration, would have been issuable if the principal amount of the Note was not prepaid by December 31, 2003. Warrants to purchase a second 5% of the Company's common stock, exercisable for nominal consideration, along with an additional note in the original principal amount of \$5 million would also have been issued if the outstanding principal amount of the Note was greater than \$12 million after December 31, 2003. However, on October 28, 2003 the Company announced that Allied had acquired the Note from Whitney and waived the provisions for the additional warrants equivalent to 10% of the Company's outstanding common stock and the additional \$5 million note.

On December 5, 2003, as amended on February 16, 2004, the Company and its lenders under the Facility executed the Fifth Amendment to the Loan and Security Agreement and Forbearance Agreement (the "Forbearance Agreement"). Among other things, the Company requested the lenders and the lenders agreed to forbear from exercising their rights and remedies under the Facility for the following events of default, as defined in the Loan and Security Agreement: (1) the Company's failure to deliver its annual audited financial statements for fiscal 2003 within the prescribed time-frame allowed; (2) the formation of a subsidiary, Mercury Air Center - Long Beach, without the prior consent of the lenders; (3) the Company's failure to deliver supplemental schedules to J. H. Whitney as required under the terms of the \$24 million Senior Secured 12% Note; and (4) the Company's failure to achieve the EBITDA financial covenant for the twelve-month period ended December 31, 2003. The Forbearance Agreement, as amended, states that the lenders agree, for a limited time but no later than April 14, 2004, to forbear from exercising their rights and remedies under the Senior Secured Credit Facility with respect to the events of default noted above.

On December 12, 2003, the Company entered into a settlement agreement (the "Hambro Settlement") relating to litigation with J O Hambro Capital Management and certain of its affiliates and private clients ("J O Hambro") whereby the Company issued three promissory notes for an aggregate principal amount of \$3,586,000 (the "Hambro Notes") in exchange for the following, among other things: (1) the release of certain claims by J O Hambro; (2) the Company's agreement to dismiss litigation against J O Hambro; (3) the Company's agreement not to institute certain litigation against J O Hambro and certain other parties; (4) reimbursement of certain costs associated with the pending litigation and the defense preparation for anticipated litigation between the parties; and (5) the purchase of 343,600 shares of the Company's common stock in exchange for the Hambro Notes.

On April 12, 2004, upon approval from the Company's shareholders at the Annual Shareholders' Meeting, the Company sold all of the outstanding common stock owned by it in Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349,000 (the "FBO Sale"). The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon the determination of the amount of Air Centers' net working capital at the time of closing. In accordance with the terms of the Stock Purchase Agreement entered into by the Company and Allied on October 28, 2003, as amended from time to time, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586,000, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586,000, the Company is obligated to pay Allied the deficiency.

The Company expects to report a net gain on the sale of the business segment in the Company's fourth quarter of fiscal 2004 in addition to reversing excess debt premium cost reserves associated with the Company's \$24 million senior subordinated note.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the Facility due Foothill, comprised of both a term loan and a revolving credit facility, in the amount of \$13,255,000; 2) pay accrued interest and fees associated with the Facility of \$203,000; 3) establish a cash collateral with Foothill in the amount of \$16,031,000 in support of issued and outstanding letters of credit issued under the terms of the Facility; 4) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Note of \$24,120,000 to Allied; 5) pay accrued interest and fees associated with the Note of \$141,000; 6) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Hambro Notes in the amount of \$3,695,000; 7) pay accrued interest on the Hambro Notes in the amount of \$15,000; 8) establish an escrow account associated with Hartsfield International Airport FBO in Atlanta in the amount of \$8,270,000 to be distributed to the Company, either in whole or in part under certain conditions, over a period not to exceed five years from the date of closing; and 9) pay for transaction related fees and expenses of \$1,324,000. After satisfying the obligations noted above, the Company received \$9,295,000.

The total amount of principal on long term debt, both current and non-current amounts, repaid by the Company with the proceeds from the FBO Sale was \$41,070,000. Upon the repayment of the long term debt detailed above, the Company's remaining outstanding principal of long term debt was \$17,960,000, of which \$14,000,000 is associated with the tax exempt bonds issued pursuant to a loan agreement between the Company and the California Economic Development Financing Authority (the "CEDFA Bonds"). The CEDFA

Bonds carry a variable rate of interest which is based on a weekly remarketing of the bonds and are collateralized by a letter of credit issued by Wells Fargo Bank. The rate of interest at April 28, 2004 was 1.15% per annum.

With the prepayment of all of the obligations associated with the Facility, the Company satisfied all of the conditions established in the Forbearance Agreement.

Petroleum product prices, including aviation fuel prices, have risen to historically high levels due primarily to an increase in world-wide petroleum product consumption and instability in the Middle East. The increased aviation fuel prices have resulted in an increase in the Company's trade receivables for many of the Company's customers. If aviation fuel prices maintain these recent high levels for an extended period of time and the Company's customers are unable to pass on the increased fuel costs to their customers, the Company may experience longer collection periods and/or higher uncollectible amounts from certain customers. This would result in reduced cash availability adversely affecting the Company's ability to pay its fuel suppliers on a timely basis.

The Company is currently evaluating new credit facilities to support the Company's expansion of its remaining three business lines and to support the Company's Letters of Credit requirements thereby releasing the cash collateral of approximately \$16 million to be used for working capital requirements and general corporate purposes.

In January 2004, Maytag Aircraft was awarded the United States Air Mobility Command (AMC) contract to provide Air Terminal and Ground Handling Services at Kuwait International Airport. Under the terms of the contract, Maytag Aircraft will provide air terminal and ground handling services for the Air Mobility Command, working U.S. Government owned or operated aircraft and U.S. Government sponsored foreign aircraft requiring such services at Kuwait International Airport/Al Mubarek Air Base. This contract is effective April 1, 2004 through September 30, 2004 with four one-year option periods making the full term of this \$18 million contract effective through September 30, 2008. This contract represents a continuum of air terminal and ground handling services provided by Maytag Aircraft Corporation to AMC since August of 2000. The services include operating the air terminal operations center (information control, load planning, capability forecasting, and ramp coordination), and providing aircraft services (cargo processing, aircraft loading and unloading, cleaning, and catering), ground services (marshalling, material handling, baggage handling, and all related connect/disconnect services), passenger services, information systems, and equipment maintenance.

Critical Accounting Policies

Management's beliefs regarding critical accounting policies have not changed significantly from those discussed in Item 7 of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003.

Item 3. *Quantitative and Qualitative Disclosure About Market Risk*

There has been no material change during the nine months ended March 31, 2004 from the disclosures regarding market risk presented in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003.

Item 4. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

Based on evaluations as of March 31, 2004, our principal executive officer and principal financial officer, with the participation of our management team, have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

Changes in Internal Controls

There were no significant changes in our internal controls or in other factors that could significantly affect these internal controls subsequent to the date of their most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Forward-Looking Statements

Statements contained in this Quarterly Report on Form 10-Q which are not historical facts are forward-looking statements. In addition, Mercury, from time-to-time, makes forward-looking statements concerning its expected future operations and performance and other developments. Such forward-looking statements are necessarily estimates reflecting Mercury's best judgment based upon current information and involve a number of risks and uncertainties, and there can be no assurance that other factors will not affect the accuracy of such forward-looking statements. While it is impossible to identify all such factors, factors which could cause actual results to differ materially from those estimated by Mercury include, but are not limited to, risks associated with acquisitions, the financial condition of customers, non-renewal of contracts, government regulation, as well as operating risks, general conditions in the economy and capital markets, and other factors which may be identified from time-to-time in Mercury's Securities and Exchange Commission filings and other public announcements.

PART II OTHER INFORMATION

Item 1. *Legal Proceedings*

On April 16, 2003, the Plan Committee of Shuttle America Corporation filed an Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995,000. The Company believes that it has significant defenses in this matter. The Company filed its answer on May 15, 2003. On February 19, 2004, the Bankruptcy Court approved a settlement agreement whereby the Company will pay Shuttle America Corporation \$40,000 in three equal monthly installment payments of \$13,333 starting in February 2004. These payments were fully accrued by the Company at March 31, 2004.

In December 2001, a jury returned its verdict on Michael Marigny's (Plaintiff) cause of action for retaliation in violation of California Fair Employment and Housing Act in favor of Defendant, Mercury, but awarded damages in the amount of \$15,000 for Plaintiff's cause of action for intentional infliction of emotional distress. In February 2002, Plaintiff filed a notice of appeal with the Second Appellate Court (Court). The Court ruled on this appeal in August of 2003 affirming in part and reversed in part the judgment and the case was remanded for retrial. On March 31, 2004 the Company entered into a settlement agreement in this case for the payment of \$200,000 which was paid in April 2004. This settlement was accrued by the Company in the financial statements for the quarterly period ended March 31, 2004.

On December 5, 2003, the Company terminated its Chief Operating Officer of Mercury Air Cargo. This former employee claimed one year's salary, (approximately \$170,000), and other damages as a result of the termination. On December 31, 2003, he filed notice of demand for mediation. On March 9, 2004 the Company entered into a Confidential Settlement Agreement and Mutual Release with this former employee. In the opinion of management, the terms of the Confidential Settlement Agreement will not have a material effect on the Company's consolidated financial position. This settlement was accrued by the Company in the financial statements for the quarterly period ended March 31, 2004.

On February 28, 2004 the Company received a demand notice from counsel for the former General Manager of a Mercury Air Center FBO location for damages in the amount of \$500,000 as a result of his termination of employment. The Company is in the process of responding to the demand. In the opinion of management, the ultimate resolution of this matter will not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

On March 16, 2004 the Company received a demand notice from counsel for the former General Manager of Mercury Air Cargo's SkyNet Division for damages in the amount of approximately \$82,500 arising out of his termination of employment. The Company has entered into a confidential settlement agreement. In the opinion of management, the settlement of this matter will not have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Reference is made to the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003 and to the Company's Quarterly Reports on Form 10-Q for the period ended September 30, 2003 for additional legal matters with respect to which no material developments have occurred in the current quarter.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a material effect on the Company's consolidated financial position.

Item 2. Change in Securities, Use of Proceeds, and Issuer Purchases of Equity Securities

ISSUER PURCHASES OF EQUITY SECURITIES

Item 3. Default Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

On April 12, 2004 the Company held its annual meeting of shareholders.

All of the Company's directors were re-elected at the meeting by the following votes:

Name	For	Against	Abstain or Broker Non-Vote
Dr. Philip Fagan, Jr	2,755,293	374,809	-0-
Joseph A. Czyzyk	2,955,543	174,559	-0-
Frederick H. Kopko	3,005,572	124,530	-0-
Gary J. Feracota	3,005,945	124,157	-0-
Sergei Kouzmine	2,986,775	143,327	-0-
Michael J. Janowiak	3,005,945	124,157	-0-
Angelo Pusateri	3,012,936	117,166	-0-

In addition, the proposal seeking approval for the sale of the Company's FBO business to Allied Corporation was adopted by the following votes:

For	Against	Abstain or Broker Non-Vote
2,166,532	54,690	1,255

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

Also submitted to a vote, was the proposal to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent auditors for the fiscal year ending June 30, 2004:

For	Against	Abstain or Broker Non-Vote
3,098,674	23,472	3,385
