UNAUDITED PRO FORMA FINANCIAL STATEMENTS

The unaudited pro forma statements of operations for the year ended December 31, 2004 give pro forma effect to: (1) the GX Technology Corporation (GXT) acquisition and (2) the registered offering and sale of Input/Output, Inc. (I/O) common stock in June 2004, resulting with net proceeds of \$130.5 million, which were used to fund the GXT acquisition, as if the transactions had been consummated on January 1, 2004.

The unaudited pro forma financial information is based on the assumptions and adjustments described in the accompanying notes. The assets acquired and the liabilities assumed of GXT referred to in these unaudited pro forma financial statements have been recorded by I/O at their estimated fair values as of the date of acquisition. The unaudited pro forma statement of operations does not purport to represent what our results of operations actually would have been if the events described above had occurred as of the date indicated or what our results will be for any future periods. The unaudited pro forma financial statements are based upon assumptions and adjustments that we believe are reasonable. The unaudited pro forma financial statements and the accompanying notes should be read in conjunction with our historical financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2004, and the historical financial statements of GXT, including the notes thereto, included in our Current Report on Form 8-K/A filed on December 29, 2004.
